Hi Jan,

Here are my responses, thanks.

#34 The occupational regulations overseen by the board have been effective because the board has been fair and prompt in their oversight of the regulations.

#35 If oversight ceases there will be an increase in disparity between education, ability, and continuing competency. Resulting in the potential for increased harm to the public.

Let me know if I've missed the point of either of these questions.

Thanks
Dr. Rassfeld

Hello Chairs,

You may not have had time to look at the survey yet – it's just questions #34 and #35 – that Jesse needs answers to. You can reply to this email with you response and then I will insert your answer into the excel document.

Thanks, let me know if you have questions.

Thanks,
Jan
