(2)(a) It shall be unlawful for any person to transact business in this state as an investment adviser or as an investment adviser representative unless he or she is registered under the act.

(b) Except with respect to federal covered advisers whose only clients are those described in subdivision (7)(g)(i) of section 8-1101, it shall be unlawful for any federal covered adviser to conduct advisory business in this state unless such person files with the director the documents which are filed with the Securities and Exchange Commission, as the director may by rule and regulation or order require, a consent to service of process, and a two-hundred-dollar filing fee prior to acting as a federal covered adviser in this state.

(c)(i) It shall be unlawful for any investment adviser required to be registered under the Securities Act of Nebraska to employ an investment adviser representative unless the investment adviser representative is registered under the act.

If the applicant is an individual, the application shall include the applicant's social security number. Registration of a broker-dealer or issuer-dealer shall automatically constitute registration of all partners, limited liability company members, officers, or directors of such broker-dealer or issuer-dealer as agents, except any partner, limited liability company member, officer, or director whose registration as an agent is denied, suspended, or revoked under subsection (9) of this section, without the filing of applications for registration as agents or the payment of fees for registration as agents. The application shall contain whatever information the director requires concerning such matters as:

(a) The applicant's form and place of organization;

(b) The applicant's proposed method of doing business;

(c) The qualifications and business history of the applicant and, in the case of a broker-dealer or investment adviser, the qualifications and business history of any partner, limited liability company member, officer, director, person occupying a similar status or performing similar functions of a partner, limited liability company member, officer, or director, or person directly or indirectly controlling the broker-dealer or investment adviser;

(iii) That an issuer-dealer have a minimum net capital of twenty-five thousand dollars. In lieu of a minimum net capital requirement of twenty-five thousand dollars, the director may require an issuer-dealer to post a corporate surety bond with surety licensed to do business in Nebraska in an amount equal to such capital requirements. When the director finds that a surety bond with a surety company would cause an undue burden on an issuer-dealer, the director may require the issuer-dealer to post a signature bond. Every such surety bond shall run in favor of Nebraska, shall provide for suit thereon by any person who has a cause of action under section 8-1118, and shall provide that no suit may be maintained to enforce any liability on the bond unless brought within the time periods specified by section 8-1118;

In lieu of any such minimum net capital requirement, the director may require by rule and regulation or order an investment adviser to post a corporate surety bond with surety licensed to do business in Nebraska in an amount equal to such capital requirement, subject to the limitations of section 222 of the Investment Advisers Act of 1940. Every such surety bond shall run in favor of Nebraska, shall provide for suit thereon by any person who has a cause of action under section 8-1118, and shall provide that no suit may be maintained to enforce any liability on the bond unless brought within the time periods specified by section 8-1118.

(c) The director may waive the requirement of an examination for any applicant who by reason of prior experience can demonstrate his or her knowledge of the securities business. Registration of a broker-dealer, agent, investment adviser, and investment adviser representative shall be effective for a period of not more than one year and shall expire on December 31 unless renewed. Registration of an issuer-dealer shall be effective for a period of not more than one year and may be renewed as provided in this section. The fee for initial or renewal filings for a federal covered adviser shall be two hundred dollars. When an application is denied or withdrawn, the director shall retain all of the fee.

(7)(a) Every registered broker-dealer, issuer-dealer, and investment adviser shall make and keep such accounts, correspondence, memoranda, papers, books, and other records as the director prescribes by rule and regulation or order, except as provided by section 15 of the Securities Exchange Act of 1934, in connection with broker-dealers, and section 222 of the Investment Advisers Act of 1940, in connection with investment advisers. All records so required shall be preserved for such period as the director prescribes by rule and regulation or order.

For the purpose of avoiding unnecessary duplication of examinations, the director, insofar as he or she deems it practicable in administering this subsection, may cooperate with the securities administrators of other states, the Securities and Exchange Commission, and any national securities exchange or national securities association registered under the Securities Exchange Act of 1934. Costs of such examinations shall be borne by the registrant.

(d) If any information contained in any document filed with the director is or becomes inaccurate or incomplete in any material respect, a broker-dealer, issuer-dealer, agent, investment adviser, or investment adviser representative shall promptly file a correcting amendment or a federal covered adviser shall file a correcting amendment when such amendment is required to be filed with the Securities and Exchange Commission.

(8) With respect to investment advisers, the director may require that certain information be furnished or disseminated to clients as necessary or appropriate in the public interest or for the protection of investors and advisory clients. To the extent determined by the director in his or her discretion, information furnished to clients of an investment adviser that would be in compliance with the Investment Advisers Act of 1940 and the rules and regulations under such act may be used in whole or in part to satisfy the information requirement prescribed in this subsection.

8-1108 Registration of securities; requirements; fees; effective date; reports; director, powers.

(1) A registration statement may be filed by the issuer, by any other person on whose behalf the offering is to be made, or by a registered broker-dealer. Any document filed under the Securities Act of Nebraska or a predecessor act within five years preceding the filing of a registration statement may be incorporated by reference in the registration statement to the extent that the document is currently accurate. The director may by rule and regulation or order permit the omission of any item of information or document from any registration statement.

(2) The director may require as a condition of registration by qualification (a) that the proceeds from the sale of the registered security be impounded until the issuer receives a specified amount, (b) that the applicant comply with the federal Securities Act of 1933 if it appears to the director to be in the public interest or that the registered security is or will be offered in such manner as to be subject to such act, (c) such reasonable conditions, restrictions, or limitations upon the offering as may be in the public interest, or (d) that any security issued within the past three years, or to be issued, to a promoter for a consideration substantially different from the public offering price or to any person for a consideration other than cash, be delivered in escrow to him or her or to some other depository satisfactory to him or her under an escrow agreement that the owners of such securities shall not be entitled to sell or transfer such securities or to withdraw such securities from escrow until all other stockholders who have paid for their stock in cash shall have been paid a dividend or dividends aggregating not less than six percent of the initial offering price shown to the satisfaction of the director to have been actually earned on the investment in any common stock so held. The director shall not reject a depository solely because of location in another state. In case of dissolution or insolvency during the time such securities are held in escrow, the owners of such securities shall not participate in the assets until after the owners of all other securities shall have been paid in full.

(3) For the registration of securities by notification, coordination, or qualification, there shall be paid to the director a registration fee of one-tenth of one percent of the aggregate offering price of the securities which are to be offered in this state, but the fee shall in no case be less than one hundred dollars. When a registration statement is withdrawn before the effective date or a preeffective stop order is entered under section 8-1109, the director shall retain one hundred dollars of the fee. Any issuer who sells securities in this state in excess of the aggregate amount of securities registered may, at the discretion of the director and while such registration is still effective, apply to register the excess securities sold to persons within this state by paying a registration fee of three-tenths of one percent for the difference between the initial fee paid and the fee required in this subsection. Registration of the excess securities, if granted, shall be effective retroactively to the date of the existing registration.

(4) When securities are registered by notification, coordination, or qualification, they may be offered and sold by a registered broker-dealer. Every registration shall remain effective for one year or until sooner revoked by the director or sooner terminated upon request of the registrant with the consent of the director. All outstanding securities of the same class as a registered security shall be considered to be registered for the purpose of any nonissuer transaction. A registration statement which has become effective may not be withdrawn for one year from its effective date if any securities of the same class are outstanding.

(5) The director may require the person who filed the registration statement to file reports, not more often than quarterly, to keep reasonably current the information contained in the registration statement and to disclose the progress of the offering with respect to registered securities which are being offered and sold directly by or for the account of the issuer.

(6) A registration of securities shall be effective for a period of one year or such shorter period as the director may determine.

8-1108.01 Securities; sale without registration; cease and desist order; fine; hearing.

(1) Whenever it appears to the director that the sale of any security is subject to registration under the Securities Act of Nebraska and is being offered or has been offered for sale without such registration, he or she may order the issuer or offerer of such security to cease and desist from the further offer or sale of such security unless and until it has been registered under the act.

(2) Whenever it appears to the director that any person is acting as a broker-dealer, issuer-dealer, agent, investment adviser, or investment adviser representative without registration as such or acting as a federal covered adviser without making a notice filing under the act, he or she may order such person to cease and desist from such activity unless and until he or she has been registered as such or has made the required notice filing under the act.

(3) Whenever it appears to the director that any person is violating section 8-1102, he or she may order the person to cease and desist from such activity.

(4) The director may, after giving reasonable notice and an opportunity for a hearing under this section, impose a fine not to exceed twenty-five thousand dollars per violation, in addition to costs of the investigation, upon a person found to have engaged in any act or practice which would constitute a violation of the act or any rule, regulation, or order issued under the act. The fine and costs shall be in addition to all other penalties imposed by the laws of this state, shall be collected by the director, and shall be remitted to the State Treasurer. Costs shall be credited to the Securities Act Cash Fund, and fines shall be credited to the permanent school fund. Imposition of any fine and payment of costs under this subsection may be appealed pursuant to section 8-1119. If a person fails to pay the fine or costs of the investigation referred to in this subsection, a lien in the amount of the fine and costs shall be imposed upon all of the assets and property of such person in this state and may be recovered by suit by the director and remitted to the State Treasurer. Costs shall be credited to the Securities Act Cash Fund, and fines shall be credited to the permanent school fund. Failure of the person to pay a fine and costs shall also constitute a forfeiture of his or her right to do business in this state under the Securities Act of Nebraska.

(5) After such an order has been made under subsection (1), (2), (3), or (4) of this section, if a request for a hearing is filed in writing within fifteen business days of the issuance of the order by the person to whom such order was directed, a hearing shall be held by the director within thirty business days after receipt of the request, unless both parties consent to a later date or the hearing officer sets a later date for good cause. If no hearing is requested within fifteen business days of the issuance of the order and none is ordered by the director, the order shall automatically become a final order and shall remain in effect until it is modified or vacated by the director. If a hearing is requested or ordered, the director, after notice of and opportunity for hearing, shall enter his

or her written findings of fact and conclusions of law and may affirm, modify, or vacate the order.

(1) The director, by rule and regulation or order, may require the filing of any or all of the following documents with respect to a federal covered security under section 18(b)(2) of the Securities Act of 1933:

(a) Prior to the initial offer of such federal covered security in this state, all documents that are part of a federal registration statement filed with the Securities and Exchange Commission under the Securities Act of 1933, together with a consent to service of process signed by the issuer and with a filing fee as prescribed by section 8-1108.03;

(b) After the initial offer of such federal covered security in this state, all documents which are part of any amendment to the federal registration statement filed with the Securities and Exchange Commission under the Securities Act of 1933; and

(c) A sales report of the total amount of such federal covered securities offered or sold in this state, together with the filing fee prescribed by section 8-1108.03.

(2) With respect to any security that is a federal covered security under section 18(b)(4)(D) of the Securities Act of 1933, the director, by rule and regulation or order, may require the issuer to file a notice on SEC Form D and a consent to service of process signed by the issuer no later than fifteen days after the first sale of such federal covered security in this state, together with a filing fee of two hundred dollars.

(3) The director, by rule and regulation or order, may require the filing of any document filed with the Securities and Exchange Commission under the Securities Act of 1933 with respect to a federal covered security under section 18(b)(3) or (4)(A), (B), and (C) of the Securities Act of 1933, together with a filing fee of two hundred dollars.

(4) The director may issue a stop order suspending the offer and sale of a federal covered security, except a federal covered security under section 18(b)(1) of the Securities Act of 1933, if he or she finds that (a) the order is in the public interest and (b) there is a failure to comply with any condition established under this section or with any other applicable provision of the Securities Act of Nebraska.

(5) The director, by rule and regulation or order, may waive any or all of the provisions of this section, except that the director does not have the authority to waive the payment of fees as required by this section.

(6) No person may bring an action pursuant to section 8-1118 based on the failure of an issuer to file any notice or pay any fee required by this section.

(7) All federal covered securities offered or sold in this state must be sold through a registered agent of a broker-dealer registered under the Securities Act of Nebraska or by persons duly exempted or excluded from such registration, except that this subsection shall not apply to the offer or sale of a federal

covered security under section 18(b)(4)(D) of the Securities Act of 1933 if no commission or other remuneration is paid directly or indirectly for soliciting any prospective buyer.

8-1108.03 Federal covered security; filing fee; notice; open-end management company, face-amount certificate company, or unit investment trust; issue indefinite amount of securities; when.

(1) Except as provided in subsections (2) and (3) of this section, there shall be paid to the director a filing fee of one-tenth of one percent of the aggregate offering price of the federal covered securities under section 18(b)(2) of the Securities Act of 1933 which are to be offered in this state, but the filing fee shall in no case be less than one hundred dollars. If an issuer of securities covered by section 8-1108.02 sells securities in this state in excess of the aggregate amount of securities for which a filing fee has been paid, the director may allow the issuer to amend its filing to include the excess securities sold to persons within this state if the issuer pays a filing fee of three-tenths of one percent for the difference between the initial filing fee paid and the filing fee required under this section for the total amount of securities sold. Any such amendment of a filing to cover the excess securities, if granted, shall be effective retroactively to the date of the existing filing.

Any notice filed pursuant to this section shall be effective for a period of one year from the date received by the director or from such later date as indicated on the notice unless sooner terminated by the issuer. Notice filings must be renewed annually. Notices may be amended by submitting an amended notice filing indicating any material changes and paying any fees, pursuant to this section, that may be required by an increase in the amount of securities covered by the notice.

(2) An open-end management company or a face-amount certificate company, as those terms are defined in the Investment Company Act of 1940, may choose to issue an indefinite amount of securities, if the following conditions are met:

(a) The filing made pursuant to subsection (1) of section 8-1108.02 states the company intends to issue an indefinite amount of securities in this state and is accompanied by a filing fee of one thousand dollars;

(b) Within ninety calendar days after the expiration of the notice, the company files a sales report containing the actual sales that occurred in this state for the one-year notice period just expired. During such ninety-day period, the notice filing shall be considered continuous;

(c) If the sales report required by subdivision (b) of this subsection shows that the company sold securities in excess of the amount of securities for which the filing fee was paid, the company must pay an additional fee to be calculated as follows: One-tenth of one percent of the aggregate amount of securities sold up to the first ten million dollars; and one-twentieth of one percent of the remainder of the aggregate amount of securities sold. The initial filing fee of one thousand dollars shall be deducted from the fee required to be paid pursuant to such subdivision. If this calculation results in a negative amount, no payment shall be made and no credit or refund shall be allowed or returned for such negative amount;

(d) A company may continue the effectiveness of its notice to issue an indefinite amount of securities for another notification period if, upon the filing of a sales report required by subdivision (b) of this subsection, the company pays the renewal filing fee of one thousand dollars pursuant to subdivision (a) of this subsection, plus any additional fee which may be owed pursuant to subdivision (c) of this subsection;

(e) The notification shall be effective for a period of one year beginning on the date the notice is received by the director unless a later date is indicated on the notice; and

(f) Failure to file the sales report and pay any additional fees owed shall be cause for the director to issue an order suspending sales of the securities for which the sales report has not been filed and the appropriate fee has not been paid.

(3) A unit investment trust, as that term is defined in the Investment Company Act of 1940, may choose to issue an indefinite amount of securities for a period of one year or less if the following conditions are met:

(a) The unit investment trust issuer electing to offer an indefinite amount of securities files a notice pursuant to subsection (1) of section 8-1108.02, stating that it intends to issue an indefinite amount of securities for a period of one year or less in this state, and pays an initial filing fee of one hundred dollars with the notice filing;

(b) Within ninety calendar days after the occurrence of the earlier of the expiration of the trust's notice filing period, the termination of the offering by the issuer, or the completion of the offering, each trust files a sales report containing the total aggregate offering price of the securities sold in this state for the offering period just expired or terminated;

(c) If the sales report required by subdivision (b) of this subsection shows that the trust sold securities in excess of the amount of securities for which the filing fee was paid, the trust must pay an additional fee of one-tenth of one percent of the aggregate offering price of the excess securities sold. The initial fee of one hundred dollars shall be deducted from the filing fee paid pursuant to this subdivision. If this calculation results in a negative amount, no payment need be made and no credit or refund shall be allowed or returned for that negative amount; and

(d) Failure to file the sales report and pay any additional fees owed shall be cause for the director to issue an order suspending sales of the securities for which the sales report has not been filed and the appropriate fee has not been paid.

8-1109 Registration of securities; denial, suspension, or revocation; grounds.

The director may issue a stop order denying effectiveness to, or suspending or revoking the effectiveness of, a registration statement to register securities by notification or coordination if he or she finds that the order is in the public interest and that:

(1) Any such registration statement registering securities, as of its effective date or as of any earlier date in the case of an order denying effectiveness, is incomplete in any material respect or contains any statement which was, in the

light of the circumstances under which it was made, false or misleading with respect to any material fact;

(2) Any provision of the Securities Act of Nebraska or any rule, order, or condition lawfully imposed under the act has been violated, in connection with the offering by the person filing the registration statement, the issuer, any partner, limited liability company member, officer, or director of the issuer, any person occupying a similar status or performing similar functions, or any person directly or indirectly controlling or controlled by the issuer, but only if the person filing the registration statement is directly or indirectly controlled by or acting for the issuer or any underwriter;

(3) The security registered or sought to be registered is the subject of a permanent or temporary injunction of any court of competent jurisdiction entered under any other federal or state act applicable to the offering. The director may not institute a proceeding against an effective registration statement under this subdivision more than one year from the date of the injunction relied on, and he or she may not enter an order under this subdivision on the basis of an injunction entered under any other state act unless the injunction was based on facts which would currently constitute a ground for a stop order under this section;

(4) When a security is sought to be registered by notification, it is not eligible for such registration;

(5) When a security is sought to be registered by coordination, there has been a failure to comply with the undertaking required by subdivision (2)(g) of section 8-1106;

(6) The applicant or registrant has failed to pay the proper registration fee. The director may enter only a denial order under this subdivision and shall vacate any such order when the deficiency has been corrected. The director may not enter an order against an effective registration statement on the basis of a fact or transaction known to him or her when the registration statement became effective;

(7) The authority of the applicant or registrant to do business has been denied or revoked by any other governmental agency;

(8) The issuer's or registrant's literature, circulars, or advertising is misleading, incorrect, incomplete, or calculated to deceive the purchaser or investor;

(9) All or substantially all the enterprise or business of the issuer, promoter, or guarantor has been found to be unlawful by a final order of a court or administrative agency of competent jurisdiction; or

(10) There is a refusal to furnish information required by the director within a reasonable time to be fixed by the director.

8-1109.01 Registration of securities; denial, suspension, revocation; additional grounds.

The director may issue an order denying effectiveness to, or suspend or revoke the effectiveness of, a registration statement to register securities by qualification if he or she finds that the conditions in subdivision (1) of section 8-1109, or if he or she finds that any of the following conditions exist:

(1) Such order is in the public interest;

(2) The issuer's plan of business, or the plan of financing is either unfair, unjust, inequitable, dishonest, oppressive, or fraudulent or would tend to work a fraud upon the purchaser;

(3) The issuer's or registrant's literature, circulars, or advertising is misleading, incorrect, incomplete, or calculated to deceive the purchaser or investor;

8-1109.02 Registration of securities; order of denial, suspension, or revocation; notice; request for hearing; modification of order.

Upon the entry of an order denying effectiveness to or suspending or revoking the effectiveness of a registration statement to register securities under any part of section 8-1109 or 8-1109.01, the director shall promptly notify the issuer of the securities and the applicant or registrant that the order has been entered and of the reasons therefor and that any person to whom the order is directed may request a hearing within fifteen business days after the issuance of

The financial statements shall be prepared in conformity with generally accepted accounting principles and shall be examined according to generally accepted auditing standards. If the date of the audit report is more than one hundred twenty days before the date of the notice prescribed in this subdivision, the issuer shall provide unaudited interim financial statements;

(g) No commission or remuneration is paid directly or indirectly for soliciting any prospective purchaser, except to a registered agent of a registered broker-dealer or registered issuer-dealer; and

(h) At least ten days before use within this state, the issuer files with the department all advertising and sales materials that will be published, exhibited, broadcast, or otherwise used, directly or indirectly, in the offer or sale of a viatical settlement contract in this state.

The director may by order deny or revoke the exemption specified in subdivision (2) of this section with respect to a specific security. Upon the entry of such an order, the director shall promptly notify all registered broker-dealers that it has been entered and of the reasons therefor and that within fifteen business days of the receipt of a written request the matter will be set down for hearing. If no hearing is requested within fifteen business days of the issuance of the order and none is ordered by the director, the order shall automatically become a final order and shall remain in effect until it is modified or vacated by the director. If a hearing is requested or ordered, the director, after notice of and opportunity for hearing to all interested persons, shall enter his or her written findings of fact and conclusions of law and may affirm, modify, or vacate the order. No such order may operate retroactively. No person may be considered to have violated the provisions of the Securities Act of Nebraska by reason of any offer or sale effected after the entry of any such order if he or she sustains the burden of proof that he or she did not know and in the exercise of reasonable care could not have known of the order. In any proceeding under the act, the burden of proving an exemption from a definition shall be upon the person claiming it.

(3) At the request of an administrator responsible for enforcement of the securities laws of another state, the director may issue subpoenas to compel the attendance of any person or require the production of records in this state if the alleged violation being investigated would be a violation of the Securities Act of Nebraska if the activities had occurred in this state.

(4) In case of contumacy by or refusal to obey a subpoena issued to any person, any court of competent jurisdiction, upon application by the director, may issue to such person an order requiring him or her to appear before the director, or the officer designated by the director, there to produce documentary evidence if so ordered or to give evidence touching the matter under investigation or in question. No indictment may be returned or information filed under the act more than five years after the alleged violation.

(2) The director may refer such evidence as may be available concerning violations of the act or of any rule or order under the act to the Attorney General or the proper county attorney, who may in his or her discretion, with or without such a reference, institute the appropriate criminal proceedings under the act.

8-1118 Violations; damages; statute of limitations.

(1) Any person who offers or sells a security in violation of section 8-1104 or offers or sells a security by means of any untrue statement of a material fact or

any omission to state a material fact necessary in order to make the statements made in the light of the circumstances under which they are made not misleading, the buyer not knowing of the untruth or omission, and who does not sustain the burden of proof that he or she did not know and in the exercise of reasonable care could not have known of the untruth or omission, shall be liable to the person buying the security from him or her, who may sue either at law or in equity to recover the consideration paid for the security, together with interest at six percent per annum from the date of payment, costs, and reasonable attorney's fees, less the amount of any income received on the security, upon the tender of the security, or for damages if he or she no longer owns the security. Damages shall be the amount that would be recoverable upon a tender less (a) the value of the security when the buyer disposed of it and (b) interest at six percent per annum from the date of disposition.

Such person may sue either at law or in equity to recover the consideration paid for the investment adviser services and any loss due to such investment adviser services, together with interest at six percent per annum from the date of payment of the consideration plus costs and reasonable attorney's fees, less the amount of any income received from such investment adviser services and any other economic benefit.

(3) Every person who directly or indirectly controls a person liable under subsections (1) and (2) of this section, including every partner, limited liability company member, officer, director, or person occupying a similar status or performing similar functions of a partner, limited liability company member, officer, or director, or employee of such person who materially aids in the conduct giving rise to liability, and every broker-dealer, issuer-dealer, agent, investment adviser, or investment adviser representative who materially aids in such conduct shall be liable jointly and severally with and to the same extent as such person, unless able to sustain the burden of proof that he or she did not know, and in the exercise of reasonable care could not have known, of the existence of the facts by reason of which the liability is alleged to exist. There shall be contribution as in cases of contract among the several persons so liable.

(4) Any tender specified in this section may be made at any time before entry of judgment. Every cause of action under the Securities Act of Nebraska shall survive the death of any person who might have been a plaintiff or defendant. No person may sue under this section more than three years after the contract of sale or the rendering of investment advice. No person may sue under this section (a) if the buyer received a written offer, before suit and at a time when he or she owned the security, to refund the consideration paid together with interest at six percent per annum from the date of payment, less the amount of any income received on the security, and the buyer failed to accept the offer within thirty days of its receipt, or (b) if the buyer received such an offer before suit and at a time when he or she did not own the security, unless the buyer rejected the offer in writing within thirty days of its receipt.

(5) No person who has made or engaged in the performance of any contract in violation of any provision of the act or any rule or order under the act, or who has acquired any purported right under any such contract with knowledge of the facts by reason of which its making or performance was in violation, may base any suit on the contract. Any condition, stipulation, or provision binding any person acquiring any security or receiving any investment advice to waive compliance with any provision of the act or any rule or order under the act shall be void.

In prescribing rules and forms the director may cooperate with the securities administrators of the other states and the Securities and Exchange Commission with a view to effectuating the policy of the Securities Act of Nebraska to achieve maximum uniformity in the form and content of registration statements, applications, and reports wherever practicable. All filing fees, registration fees, and all other fees and all money collected by or paid to the director under any of the provisions of the act shall be remitted to the State Treasurer for credit to the fund, except that registration fees collected by or paid to the Director of Insurance pursuant to the provisions of the act shall be credited to the Department of Insurance Cash Fund. The Securities Act Cash Fund shall be used for the purpose of administering and enforcing the provisions of the act, except that transfers may be made to the General Fund at the direction of the Legislature and, for the calendar years of 2000 and 2001, two million dollars shall be transferred in each year to the Affordable Housing Trust Fund. All of such money is appropriated and shall be appropriated for such purposes. When such securities are so deposited, certificates representing securities of the same

Certificates of small denomination may be merged into one or more certificates of larger denomination. The records of such fiduciary and the records of such bank or trust company acting as custodian, as managing agent, or as custodian for a fiduciary shall at all times show the name of the party for whose account the securities are so deposited. Title to such securities may be transferred by bookkeeping entry on the books of such clearing corporation, agency or other organization without physical delivery of certificates representing such securities. A bank or trust company so depositing securities pursuant to this section shall be subject to such rules and regulations as, in the case of state-chartered institutions, the Director of Banking and Finance or, in the case of national banking associations, the Comptroller of the Currency may from time to time issue. A bank or trust company so depositing securities with a federal reserve bank shall be subject to such rules and regulations with respect to the making and maintenance of such deposit as, in the case of state-chartered institutions, the Director of Banking and Finance or, in the case of national banking associations, the Comptroller of the Currency may from time to time issue. The records of such bank or trust company shall at all times show the ownership of the securities held in such account. Ownership of, and other interests in, the securities credited to such account may be transferred by entries on the books

(3) When application is made for cross-industry acquisition or merger and the director determines, in his or her discretion, that the financial condition of

the financial institution surviving the acquisition or merger is such as to indicate that a hearing on the application would not be necessary, then the hearing requirement of subsection (2) of this section shall only be required if, (a) after publishing a notice of the proposed application in a newspaper of general circulation in the county or counties where the offices of the financial institution to be merged or acquired are located and (b) after giving notice by certified mail to all financial institutions located within such county or counties, the director receives a substantive objection to the application within fifteen days after the first day of publication.

(4) For the purpose of this section, an offer to buy or to sell shall be accepted in this state when acceptance (a) is communicated to the offeror in this state and (b) has not previously been communicated to the offeror, orally or in writing, outside this state; and acceptance shall be communicated to the offeror in this state, whether or not either party is then present in this state, when the offeree directs it to the offeror in this state, reasonably believing the offeror to be in this state and it is received at the place to which it is directed or at any post office in this state in the case of a mailed acceptance.

The notice of intent or summary order may be entered without notice, without opportunity for hearing, and need not be supported by findings of fact or conclusions of law, but shall be in writing.

(2) Upon entry of a notice of intent or summary order, the director shall promptly notify all interested parties that the notice or summary order has been entered and the reasons therefor. If the proceeding is pursuant to a notice of intent, the director shall inform all interested parties of the date, time, and place set for the hearing on the notice. If the proceeding is pursuant to a summary order, the director shall inform all interested parties that they have fifteen business days from the entry of the order to file a written request for a hearing on the matter with the director and that the hearing will be scheduled to commence within thirty business days after the receipt of the written request, unless the parties consent to a later date or the hearing officer sets a later date for good cause.

(3) If the proceeding is pursuant to a summary order, the director, whether or not a written request for a hearing is received from any interested party, may set the matter down for hearing on the director's own motion.

(4) If no hearing is requested and none is ordered by the director, the summary order shall automatically become a final order after thirty business days.

A copy of the petition for review shall be served upon the director.

(2) Upon the filing of a petition for review, except when the taking of additional evidence is ordered by the court pursuant to subsection (5) or (6) of this section, the court shall have exclusive jurisdiction of the matter, and the director may not modify or set aside the order in whole or in part.

(4) Upon receipt of the petition for review, the director shall certify and file in the court a copy of the order and the transcript or record of the evidence upon which it was based. If the order became final by operation of law under subsection (4) of section 8-1735, the director shall certify and file in court the summary order, evidence of its service upon the parties to it, and an affidavit certifying that no hearing has been held and the order became final pursuant to such section.

(5) If either the aggrieved party or the director applies to the court for leave to adduce additional evidence and shows to the satisfaction of the court that there were reasonable grounds for failure to adduce the evidence in the hearing before the director or other good cause, the court may order the additional evidence to be taken by the director under such conditions as the court considers proper.

(6) If new evidence is ordered taken by the court, the director may modify the findings and order by reason of the additional evidence and shall file in the court the additional evidence together with any modified or new findings or order.

The findings of the director as to the facts, if supported by competent, material, and substantive evidence, shall be conclusive. Any county, city, or village may establish and conduct a lottery if an election is first held pursuant to this section. Only one scheme or type of lottery may be conducted by a county, city, or village at one time. No county, city, or village shall establish and conduct a lottery until such course of action has been approved by a majority of the registered voters of such county, city, or village casting ballots on the issue at a regular election or a special election called by the governing board of the county, city, or village for such purpose. This section shall not be construed to prohibit any county, city, or village from conducting a lottery if such course of action was approved prior to July 17, 1986, by a majority of the registered voters of such county, city, or village casting ballots on the issue.

Any lottery established pursuant to this section which is authorized by an election held on or after October 1, 1989, pursuant to this section that is not in operation for any ten consecutive years shall no longer be authorized under this section. If any county, city, or village is conducting a lottery at the time it is consolidated into a municipal county and such county, city, or village is abolished as of the date of creation of the municipal county, the municipal county shall be subject to the same rights and obligations with respect to such lottery or lotteries as the counties, cities, and villages which were abolished, including any rights or obligations under lottery contracts of such counties, cities, and villages. Such lottery shall continue to be subject to all other provisions of the Nebraska County and City Lottery Act, except that such lottery shall not be expanded to any new location in any area of the municipal county

where such lottery was not previously authorized before the consolidation unless such expansion has been approved by a majority of the registered voters of such municipal county voting at a regular election or a special election called by the governing board of the municipal county for such purpose.

The proceeds derived from the sale of refunding bonds issued pursuant to this section may be invested in obligations of, or guaranteed by, the United States Government pending the time the proceeds are required for the purposes for which such refunding bonds were issued. To further secure the refunding bonds, the school district may enter into a contract with any bank or trust company, within or without the state, with respect to the safekeeping and application of the proceeds of the refunding bonds and the safekeeping and application of the earnings on the investment. Any outstanding bonds, which shall have been called for redemption and which have sufficient funds or obligations of, or guaranteed by, the United States Government set aside in safekeeping to be applied for the complete payment of such bonds, interest thereon, and redemption premium, if any on the redemption date, shall not be considered as outstanding and unpaid bonds. All bonds issued under the provisions of sections 10-717 to 10-719 must, on their face, contain a clause that the district issuing such bonds shall have the right to redeem such bonds at the expiration of five years from the date of the issuance thereof.

10-1102 Applicability of act.

The creation of security interests and pledges by governmental units is controlled by other provisions of law. The Nebraska Governmental Unit Security Interest Act governs the perfection, priority, and enforcement of all security interests created by governmental units.

Source: Laws 2000, LB 929, § 18.

10-1103 Terms, defined.

For purposes of the Nebraska Governmental Unit Security Interest Act:

(1) Authorizing statute means any statute which authorizes the issuance of bonds;

(2) Bond means any bond, note, warrant, loan agreement, lease, lease-purchase agreement, pledge agreement, or other evidence of indebtedness for which a security interest is granted or a pledge made upon revenue or other property, including any limited tax revenue, to provide for payment or security;

(3) Governmental unit means the State of Nebraska, any county, school district, city, village, public power district, sanitary and improvement district, educational service unit, community college area, natural resources district, airport authority, fire protection district, hospital authority, joint entity created under the Interlocal Cooperation Act, joint public agency, instrumentality, or any other district, authority, or political subdivision of the State of Nebraska and governmental units as defined in subdivision (a)(45) of section 9-102, Uniform Commercial Code;

10-1105 Priority.

The priority of any security interest created by a governmental unit shall be governed by the contractual terms set forth in the measure or measures, including the terms of any indenture or any other agreement approved by the measure or measures, adopted by the governmental unit. 10-1106 Enforcement; determination of default.

The terms of any applicable authorizing statute shall govern the enforcement of any security interest to the extent that the authorizing statute contains express provisions relating to enforcement or authorizes a governmental unit to contract with respect to enforcement. In the absence of any such express provisions in an authorizing statute, the following provisions apply:

(1) Any measure may include provisions determining what events constitute events of default. In the absence of any express provision relating to default in any measure, the governmental unit is in default so long as any default in payment with respect to principal, interest, or premium on a bond has occurred and remains uncured;

(2) Any trustee designated in or under the terms of a measure shall have the right, if a default has occurred, to have a receiver appointed for the collection of any revenue or property in which a security interest is granted, and if the revenue is from any revenue-producing undertaking, any such receiver may also be appointed to operate and manage such revenue-producing undertaking for the benefit of the owners of the bonds in accordance with the terms of the measure or measures authorizing their issuance;

(3) If there is no trustee designated in or under the terms of a measure, any owner of a bond shall have the right, if a default has occurred, to have a receiver appointed for the collection of any revenue or property in which a security interest is granted and, if the revenue is from any revenue-producing undertaking, any such receiver may also be appointed to operate and manage such revenue-producing undertaking for the benefit of the owners of the bonds in accordance with the terms of the measure or measures authorizing their issuance;

(4) Any trustee designated in or under the terms of any measure or any owner of a bond, if there is no trustee designated, shall have the right to bring proceedings against the governing body of the governmental unit to order the imposing of rates or charges with respect to any revenue-producing undertaking sufficient to provide for payment of principal, interest, and premium on a bond or bonds as the same fall due; and

(5) Any trustee designated in or under the terms of any measure or any owner of a bond shall have the right to exercise any other remedy provided by law.

I, ..., do solemnly swear that I will support the Constitution of the United States and the Constitution of the State of Nebraska, against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely and without mental reservation or for purpose of evasion; and that I will faithfully and impartially perform the duties of the office of ....., according to law, and to the best of my ability. And I do further swear that I do not advocate, nor am I a member of any political party or organization that advocates the overthrow of the government of the United States or of this state by force or violence; and that during such time as I am in this position I will not advocate nor become a member of any political party or organization that advocates the overthrow of the government of the United States or of this state by force or violence. 1. Effect of failure to take oath
2. Officers required to take oath
3. Officers not required to take oath

1. Effect of failure to take oath

Failure of acting county attorney to take oath and give bond does not subject his acts to collateral attack. State ex rel. Gossett v. O'Grady, 137 Neb. 824, 291 N.W. 497 (1940).

County judge justified in refusing to approve bond of county officer where oath not endorsed thereon, and mandamus will not lie to compel approval unless bond complies with statute. State ex rel. Baird v. Slattery, 108 Neb. 415, 187 N.W. 899 (1922).

Failure of acting deputy clerk of district court to take oath and give bond does not deprive court of jurisdiction to enter judgment in cases where the acting deputy clerk filed petition and issued summons. Haskell v. Dutton, 65 Neb. 274, 91 N.W. 395 (1902).

2. Officers required to take oath

Elected county officials are required to give individual official bonds. Blanket bond is not sufficient. Foote v. County of Adams, 163 Neb. 406, 80 N.W.2d 179 (1956).

Road overseer of township must take and subscribe oath under section 23-242, and filing of oath and bond under this section is not sufficient. State ex rel. Luckey v. Weber, 124 Neb. 84, 245 N.W. 407 (1932).

County judge should take the oath provided by Article XV, section 1, of the Constitution, and not the oath under this section, but taking wrong oath does not operate to vacate office. Duffy v. State ex rel. Edson, 60 Neb. 812, 84 N.W. 264 (1900).

3. Officers not required to take oath

A person designated by court to make sale of mortgaged premises under foreclosure decree need not take and file oath. Wright v. Stevens, 55 Neb. 676, 76 N.W. 441 (1898).

Person designated by court to hold sale need not take the oath prescribed by this section. Northwestern Mutual Life Ins. Co. v. Mulvihill, 53 Neb. 538, 74 N.W. 78 (1898).

Special master appointed by court in foreclosure proceedings need not take and file an oath, or execute a bond. Omaha L. & T. Co. v. Bertrand, 51 Neb. 508, 70 N.W. 1120 (1897).

School district officers are not required to take oath prescribed by this section, as the term "district" applies only to judicial districts, and the term "municipal" to villages, towns, and cities. Frans v. Young, 30 Neb. 360, 46 N.W. 528 (1890).

11-101.01 Oath of office; state and political subdivisions; employees; form.

All persons in Nebraska, with the exception of executive and judicial officers and members of the Legislature who are required to take the oath prescribed by

Article XV, section 1, of the Constitution of Nebraska, who are paid from public funds for their services, including teachers and all other employees paid from public school funds, shall be required to take and subscribe an oath in writing, before a person authorized to administer oaths in this state, and file same with the Department of Administrative Services, or the county clerk of the county where such services are performed, which oath shall be as follows:

I, ..., do solemnly swear that I will support and defend the Constitution of the United States and the Constitution of the State of Nebraska, against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely, without any mental reservation or for purpose of evasion; and that I will faithfully and impartially perform the duties of the office of ..... according to law, and to the best of my ability. And I do further swear that I do not advocate, nor am I a member of any political party or organization that advocates the overthrow of the government of the United States or of this state by force or violence; and that during such time as I am in this position I will not advocate nor become a member of any political party or organization that advocates the overthrow of the government of the United States or of this state by force or violence. So help me God.

11-101.02 Oath of office; false statement; penalty.

If any false statement is made in taking either of the oaths prescribed in sections 11-101 and 11-101.01, the person making such false statement shall be deemed guilty of a Class IV felony. No person convicted of perjury in taking the oath as prescribed in either section 11-101 or 11-101.01, shall hold any nonelective position, job, or office for the State of Nebraska, or any political subdivision thereof, where the remuneration of such position, job, or office is paid in whole or in part by public money or funds of the State of Nebraska, or of any political subdivision thereof.

All official bonds of state officers must be in form joint and several, and made payable to the State of Nebraska in such penalty and with such conditions as required by sections 11-101 to 11-122, or the law creating or regulating the office; *Provided, however*, all bonds of state officers in excess of one hundred thousand dollars, when executed by more than one guaranty, surety, fidelity or bonding company as sureties, may be several in form and limit the liability of

any one company to an amount less than the total penalty of the bond, provided that the aggregate amount shall not be less than the penalty required by law.

1. Form
2. Validity
3. Effect

1. Form

Elected county officials are required to give individual official bonds. Blanket bond is not sufficient. Foote v. County of Adams, 163 Neb. 406, 80 N.W.2d 179 (1956).

Term of office need not be set out in bond. Perkins County v. Miller, 55 Neb. 141, 75 N.W. 577 (1898).

Bond of deputy sheriff must run to county. Riggs v. Miller, 34 Neb. 666, 52 N.W. 567 (1892).

Failure to insert names of sureties in body of bond is immaterial. Stewart v. Carter, 4 Neb. 564 (1876).

2. Validity

Bond given by one entrusted with state or county funds is an official bond, and a provision therein which is in violation of statute and requires an official duty of the officer which is not required by law is against public policy and void. United States F. & G. Co. v. McLaughlin, 76 Neb. 307, 107 N.W. 577 (1906).

Joint bond is good as to sureties. Clark v. Douglas, 58 Neb. 571, 79 N.W. 158 (1899).

Until delivery of bond to proper officer and its approval, bond is not binding upon the obligors, and withdrawal of surety and erasure of name prior to delivery without knowledge or consent of others releases all. Hagler v. State, 31 Neb. 144, 47 N.W. 692 (1891).

A constable's bond, voluntarily given with a reasonable sum fixed as penalty therein, is binding on sureties. Noble v. Himeo, 12 Neb. 193, 10 N.W. 499 (1881); Williams v. Golden, 10 Neb. 432, 6 N.W. 766 (1880).

Bond running to ''the people of the State of Nebraska'', instead of to Dodge County was merely irregular, which could not be taken advantage of by officer or his surety in action on bond. Kopplekom v. Huffman, 12 Neb. 95, 10 N.W. 577 (1881).

Official bond of sheriff is not void because given to state instead of proper county as obligee. Huffman v. Koppelkom, 8 Neb. 344, 1 N.W. 243 (1879).

3. Effect

While all official bonds of county officers must be payable to county, one who performs duties of deputy county officer, holding himself out as such, is officer de facto and liable to prosecution, notwithstanding failure to take oath or give bond. Baker v. State, 112 Neb. 654, 200 N.W. 876 (1924).

Sureties on official bond are not liable for acts which are not required by law to be performed by officers. Ottenstein v. Alpaugh, 9 Neb. 237, 2 N.W. 219 (1879).

(2) In any city or village, in place of the individual bonds required to be furnished by municipal officers, a schedule, position, blanket bond or undertaking, or evidence of equivalent insurance may be given by municipal officers, or a single corporate surety fidelity, schedule, position, or blanket bond or undertaking, or evidence of insurance coverage covering all the officers, including

officers required by law to furnish an individual bond or undertaking, may be furnished. The municipality may pay the premium for the bond or insurance coverage. Sureties have right at any time before bond is delivered to revoke their principal's authority to bind them, but until such revocation the right of the principal to deliver bond is presumed to continue. The failure of officer to file his bond and have it approved within time creates a vacancy in the office. Paxton v. State, 59 Neb. 460, 81 N.W. 383 (1899).

If the trustees deem it prudent and for the best interests of the association that all or a portion of its real estate be given to another nonprofit entity organized solely for educational, charitable, historic, conservation, or religious purposes or to the State of Nebraska rather than being sold, the district court may authorize such conveyance after such compliance with the provisions of sections 12-522 to 12-529 as the court shall deem applicable.

12-702. Abandonment; presumption; rebuttal by notice; sale authorized; proceeds; disposition.

12-701 Abandonment; failure to maintain; presumption; reversion; notice; service.

(1) The ownership of or right in or to an unoccupied cemetery lot or part of a lot in any cemetery in the state shall, upon abandonment, revert to the city, village, township, or cemetery association having the ownership and charge of the cemetery containing such lot or part of a lot. The continued failure to maintain or care for a cemetery lot or part of a lot for a period of ten years shall create and establish a presumption that the same has been abandoned. Abandonment shall not be deemed complete unless, after such period of ten years, there shall be given by the reversionary owner to the owner of record or, if he or she be deceased or his or her whereabouts unknown, to the heirs of such deceased person, as far as they are known or can be ascertained with the exercise of reasonable diligence, or to one or more of the near relatives of such owner of record, whose whereabouts are unknown, notice declaring the lot or part of a lot to be abandoned. This notice shall be served as provided by subsection (2) of this section.

(2) The notice, referred to in subsection (1) of this section, may be served personally upon the owner or his or her heirs or near relatives or may be served by the mailing of the notice by either registered or certified mail to the owner or to his or her heirs or near relatives, as the case may be, to his, her, or their last-known addresses. In the event that the addresses of the owner and his or her heirs and near relatives are unknown or cannot be found with reasonable diligence, the notice of such abandonment shall be given by publishing the same one time in a legal newspaper published in and of general circulation in the county or, if none is published in the county, in a legal newspaper of general circulation in the county in which the cemetery is located.

12-702 Abandonment; presumption; rebuttal by notice; sale authorized; proceeds; disposition.

If within one year from the time of serving or publishing the notice referred to in section 12-701, the record owner or his heirs or near relatives shall give the reversionary owner, referred to in subsection (1) of such section, notice in writing that in fact there has been no such abandonment and shall pay the cost of service or publication of the notice of abandonment, then a presumption of

abandonment shall no longer exist. In case abandonment has been complete as hereinbefore provided, the reversionary owner of the abandoned lot, part of lot, lots, or parts of lots may sell the same and convey title thereto. Any funds realized from the sale of such lot, part of lot, lots, or parts of lots shall constitute a fund to be used solely for the care and upkeep of the used portion of such lot, part of lot, lots, or parts of lots and for the general maintenance of such cemetery.

The director, or a qualified person designated by the director, may during ordinary business hours examine the books, records, and accounts of the licensee with respect to the funds received by such licensee and may require the attendance at an examination under oath of all persons whose testimony he or she may deem necessary.

(b) The reasonable expenses for the examination of the books, records, and accounts of the licensee shall be fixed and determined by the director. The licensee shall be responsible for the payment of the determined expenses to the director within a reasonable time after the receipt of a statement for such expenses. The expenses shall be limited to a reasonable allocation for the salary of each examiner plus actual expenses.

12-1110 Pre-need seller; report; requirements; fee.

The report shall contain the name and address of each trustee with which the pre-need seller has trust funds on deposit and the amount on deposit with each such trustee as of December 31 of that year or such other reporting period as the director may establish. The report shall include a list of all amounts retained as required by section 12-1114. Any pre-need seller who has discontinued making pre-need sales but who continues to have trust funds on deposit with a trustee or trustees shall not be required to obtain a renewal of his, her, or its license but shall continue as long as trust funds are being held to make reports to the director. Each such report, when filed with the director, shall be accompanied by a fee of fifty dollars.

12-1111 Contracts; requirements; provisions.

(1) At the time that a pre-need sale is entered into, the pre-need seller shall furnish each pre-need purchaser with a duplicate original of any written contract which the pre-need purchaser is required to sign.

(2) The pre-need seller shall file with the director a copy of each form of contract that is utilized by the pre-need seller in making pre-need sales.

(3) Except in the case of a default or cancellation by the pre-need purchaser, a contract shall contain no provisions limiting the liability of the pre-need seller to less than furnishing the merchandise or services expressed in the contract, except that the contract may provide that a like or better quality item of merchandise shall be substituted for the original in the event merchandise

itemized is no longer available and through reasonable efforts cannot be obtained. In the case of default or cancellation of a pre-need sale, a contract shall contain no provisions allowing the pre-need seller to retain, as liquidated damages or otherwise, any amounts not permitted by section 12-1113. Any contractual provisions to the contrary shall be of no force or effect.

12-1112 Act; when applicable.

The terms and conditions of the Burial Pre-Need Sale Act shall govern only those pre-need sales made and contracts entered into by any pre-need seller or his, her, or its agents after January 1, 1987. 12-1113 Trust funds; distributions; conditions; accumulation.

(1) Except as provided in subsection (3) of this section, at least annually the trustee shall distribute all of the income of any trust account to the pre-need seller after deducting the amount computed under section 12-1114.

(2) All remaining funds held in trust, including cost-of-living amounts retained as required by section 12-1114, shall be governed by the following:

(a) When the funds held in trust are for the purchase of a crypt or niche in a mausoleum, columbarium, or lawn crypt which is to be constructed or is being constructed, the trustee shall distribute the funds held in trust for such purpose to the pre-need seller as follows:

(i) Twenty-five percent of the funds held in trust shall be paid over to the pre-need seller upon written notification from the pre-need seller, verified in writing by the pre-need seller's contractor or person in charge of the construction, that twenty-five percent of the construction of the mausoleum, columbarium, or lawn crypt has been substantially completed;

(ii) Thirty-three and one-third percent of the funds remaining in trust shall be paid over to the pre-need seller upon written notification from the pre-need seller, verified in writing by the pre-need seller's contractor or person in charge of construction, that fifty percent of the construction of the mausoleum, columbarium, or lawn crypt has been substantially completed;

(iii) Fifty percent of the funds remaining in trust shall be paid over to the pre-need seller upon written notification from the pre-need seller, verified in writing by the pre-need seller's contractor or person in charge of construction, that seventy-five percent of the construction of the mausoleum, columbarium, or lawn crypt has been substantially completed; and

(iv) All funds remaining in trust shall be paid over to the pre-need seller upon written notification from the pre-need seller, verified in writing by the pre-need seller's contractor or person in charge of construction, that the construction of the mausoleum, columbarium, or lawn crypt has been substantially completed;

(b) When the funds are held in trust by reason of a pre-need sale which is not included in subdivision (2)(a) of this section, the trustee shall pay over to the pre-need seller the funds held in trust upon receiving written notification from the pre-need seller that delivery of the merchandise has been completed or services have been performed for which the funds were placed in trust;

(c) Upon cancellation of a pre-need sale, unless the pre-need purchaser has designated the trust as irrevocable pursuant to section 12-1106, the pre-need seller shall give written notification to the trustee and the trustee shall, within ninety days, pay over to the pre-need purchaser an amount equal to the amount required to be held in trust by the pre-need seller for that pre-need purchaser after deducting any reasonable charges made by the trustee caused by the cancellation and then any balance remaining in the pre-need purchaser's trust account shall immediately be paid over to the pre-need seller;

(d) Upon cancellation of a pre-need sale in which the funds were designated by the pre-need purchaser as irrevocable pursuant to section 12-1106, the trustee shall immediately pay over to the pre-need seller any amounts otherwise excludable from trust under section 12-1104 if such amounts have not previously been retained by the pre-need seller. Thereafter, the amount required to be held in trust shall be computed by the trustee and the amount so computed shall be held by the trustee separate from the trust in an individual account in the name of the pre-need purchaser and such account shall:

(i) Be held until the death of the person for whom the pre-need sale was entered into, at which time all funds in the individual account, less any reasonable charges made by the trustee which were caused by such cancellation, shall, within ninety days, be paid to the pre-need purchaser or his or her estate; or

(ii) Be held until the trustee receives written notification from the pre-need purchaser to transfer all of the funds held in the individual account, less any reasonable charges made by the trustee which were caused by such cancellation, to another irrevocable trust established by another licensed pre-need seller as a result of a pre-need sale made by the second pre-need seller to the canceling pre-need purchaser. Such transfer shall take place within ninety days after such written notification is received by the original pre-need seller.

The balance remaining in such pre-need purchaser's trust account after transfer of the computed amount to the individual account shall be paid over to the pre-need seller;

(e) Upon default, the pre-need seller shall be entitled to retain in trust the funds held in trust attributable to the defaulted pre-need sale until notice of cancellation by the pre-need purchaser is received by the pre-need seller or until the death of the person for whom the pre-need sale was entered into, whichever occurs first. In the event of default, the death of the person for whom the pre-need sale was entered into, absent prior notification of cancellation, shall be construed as a cancellation of that pre-need sale;

(f) Receipt of the written notification by the trustee and distribution of the funds after receipt of such written notification shall relieve the trustee of any liability for failure to properly administer the funds held in trust. Failure of the trustee to obtain such written notification may subject the trustee to liability for actual damages limited to the amount of the funds which the trustee erroneously distributed; and

(g) In the administration of the individual trust accounts or the trust accounts held under a master trust agreement, the trustee shall be permitted to pay all of the reasonable costs incurred in the administration of the trusts, including any state or federal income taxes payable by the trusts. The payment of all costs and expenses, including taxes, shall be paid from the trust income and shall be deducted prior to the distribution of such income as provided in subsection (1)

of this section. In the event that the income is not sufficient to pay all of such costs, expenses, and taxes, the pre-need seller shall be responsible for such payment out of its own separate funds.

(3) A pre-need seller may elect to allow the income from the funds held in any trust account to accumulate, in which event the accumulation of income shall be deemed to be in lieu of the cost-of-living amount retained as required by section 12-1114.

12-1114 Pre-need seller; trust funds; retain cost-of-living amount.

To offset increases in the cost of living as the same may affect the trust accounts, the pre-need seller shall compute each year the total amount of the trust principal of each trust account determined as of December 31 of the immediately preceding year, and then multiply such amount by the percentage increase in the National Consumer Price Index for such year. The amount so determined shall be the amount of the current year's income that is required to be retained in trust by the trustee before the balance of the income for the current year can be paid out to the pre-need seller as provided in subsection (1) of section 12-1113. If publication of the National Consumer Price Index is discontinued, the director shall select a comparable index for the purposes of determining such percentage increase in the cost of living and notify all licensed pre-need sellers of the index selected.

12-1115 Pre-need sales agent; license required; fee; failure to surrender license; penalty.

(1) No agent shall make any pre-need sales on behalf of a pre-need seller in this state without first obtaining a license from the director. The director shall not issue such a license without requiring the proposed agent to fill out an application form stating his or her name, address, and telephone number and the pre-need seller for whom he or she will be making pre-need sales. The pre-need seller for whom the agent will be making pre-need sales shall also sign the agent's application and agree to be responsible for supervising the agent in conjunction with any pre-need sales. The fee for an agent's license shall be twenty dollars which shall accompany the application.

(2) The agent's license, when issued, shall allow the agent to make pre-need sales only for the pre-need seller whose name appears on the license. If the agency relationship between the pre-need seller and the agent terminates for any reason, the pre-need seller shall immediately notify the department of such termination. Once such notification has been received, the acts of the agent shall no longer be imputed to the pre-need seller and the agent's license shall be considered as void. The agent, upon written request by the department, shall surrender to the department the license within a period of ten days after the receipt of such written notice. Failure on the part of the agent to surrender the license after written notification shall be a Class IV misdemeanor.

(3) It shall be the responsibility of the licensed agent to notify the director of any change of the agent's address.

12-1116 Licenses; disciplinary actions; grounds; notice; administrative fine.

(1) The director may deny, revoke, or suspend any license of any pre-need seller or agent or may levy an administrative fine in accordance with subsection (3) of this section if the director finds that:

(a) The licensee has failed to pay the license fee prescribed for such license;

(b) The licensee, either knowingly or without the exercise of due care to prevent the same, has violated any of the provisions of the Burial Pre-Need Sale Act or any rule or regulation adopted and promulgated by the director pursuant to such act; or

(c) An act or condition exists which, if it had existed at the time of the original application of such licensee, would have resulted in the director refusing to issue such license.

(2) Written notification shall be provided to the licensee upon the director's making such determination, and the notice shall be mailed by the director to the last address on file for the licensee by certified or registered mail, return receipt requested. The notice shall state the specific action contemplated by the director and the specific grounds for such action. The notice shall allow the licensee receiving such notice twenty days from the date of actual receipt to:

(a) Voluntarily surrender his or her license; or

(b) File a written notice of protest of the proposed action of the director. If a written notice of protest is filed by the licensee, the Administrative Procedure Act shall govern the hearing process and procedure, including all appeals. Failure to file a notice of protest within the twenty-day period shall be equivalent to a voluntary surrender of the licensee's license, and the licensee shall surrender the license to the director.

(3) In addition to or in lieu of any applicable denial, suspension, or revocation of a license, any person violating the Burial Pre-Need Sale Act may, after notice and hearing, be subject to an administrative fine of not more than one thousand dollars per violation. Such fine may be enforced in the same manner as civil judgments. Any person charged with a violation of the act may waive his or her right to a hearing and consent to such discipline as the director determines is appropriate. The Administrative Procedure Act shall govern all hearings held pursuant to the Burial Pre-Need Sale Act.

12-1117 Licenses; surrender; effect; reinstatement.

(1) Any licensee may surrender any license issued by the director by delivering the license to the director with written notice of its surrender. Surrender shall not change the licensee's civil or criminal liability for acts committed prior or subsequent to the surrender of such license. Voluntary surrender shall not constitute an admission against interest or an admission of liability nor shall the same be used in any evidentiary proceeding as such an admission.

(2) The director may reinstate a license or issue a new license to a person whose license has expired, has been revoked, or was voluntarily surrendered if

no fact or condition exists which would cause a revocation or would have caused the director to originally refuse to issue such license.

12-1201 Act, how cited.

Sections 12-1201 to 12-1212 shall be known and may be cited as the Unmarked Human Burial Sites and Skeletal Remains Protection Act.

Source: Laws 1989, LB 340, § 1.

12-1202 Legislative findings and declarations.

The Legislature hereby finds and declares that:

(1) Human burial sites which do not presently resemble well-tended and well-marked cemeteries are subject to a higher degree of vandalism and inadvertent destruction than well-tended and well-marked cemeteries;

(2) Although existing law prohibits removal, concealment, or abandonment of any dead human body and provides for the care and maintenance of abandoned and neglected Indian cemeteries and burial grounds and pioneer cemeteries, additional statutory guidelines and protections are in the public interest;

(3) Existing law on cemeteries reflects the value placed on preserving human burial sites but does not clearly provide equal and adequate protection or incentives to assure preservation of all human burial sites in this state;

(4) An unknown number of unmarked human burial sites containing the remains of pioneers, settlers, and Indians are scattered throughout the state;

(5) No adequate procedure regarding the treatment and disposition of human skeletal remains from unmarked graves exists to protect the interests of relatives or other interested persons; and

(6) There are scientific, educational, religious, and cultural interests in the remains of our ancestors and those interests, whenever possible, should be served.

Source: Laws 1989, LB 340, § 2.

12-1203 Purposes of act.

The purposes of the Unmarked Human Burial Sites and Skeletal Remains Protection Act shall be to:

(1) Assure that all human burials are accorded equal treatment and respect for human dignity without reference to ethnic origins, cultural backgrounds, or religious affiliations by providing adequate protection for unmarked human burial sites and human skeletal remains located on all private and public lands within this state;

(2) Prohibit disturbance of unmarked human burial sites except as expressly permitted by the act;

(3) Establish procedures for the proper care and protection of unmarked human burial sites, human skeletal remains, and burial goods found in this state;

(4) Ensure that all unmarked human burial sites discovered in this state are to be left undisturbed to the maximum extent possible unless such sites are in reasonable danger of destruction, such sites need to be moved for a highway, road, or street construction project, or there is evidence of criminal wrongdoing and, when any unmarked human burial site must be disturbed for any of the reasons listed in this subdivision, ensure that the disposition of the contents of such site is carried out in accordance with the act; and

(5) Permit the scientific study and reinterment of human skeletal remains and burial goods.

Source: Laws 1989, LB 340, § 3.

12-1204 Terms, defined.

For purposes of the Unmarked Human Burial Sites and Skeletal Remains Protection Act:

(1) Burial goods shall mean any item or items reasonably believed to have been intentionally placed with the human skeletal remains of an individual at the time of burial and which can be traced with a reasonable degree of certainty to the specific human skeletal remains with which it or they were buried;

(2) Human burial site shall mean the specific place where any human skeletal remains are buried and the immediately surrounding area;

(3) Human skeletal remains shall mean the body or any part of the body of a deceased human in any stage of decomposition;

(4) Indian tribe shall mean any federally recognized or state-recognized Indian tribe, band, or community;

(5) Professional archaeologist shall mean a person having a postgraduate degree in archaeology, anthropology, history, or a related field with a specialization in archaeology and with demonstrated ability to design and execute an archaeological study and to present the written results and interpretations of such a study in a thorough, scientific, and timely manner;

(6) Reasonably identified and reasonably identifiable shall mean identifiable, by a preponderance of the evidence, as to familial or tribal origin based on any available archaeological, historical, ethnological, or other direct or circumstantial evidence or expert opinion;

(7) Society shall mean the Nebraska State Historical Society; and

(8) Unmarked human burial shall mean any interment by whatever means of human skeletal remains for which there exists no grave marker, including burials located in abandoned and neglected cemeteries.

Source: Laws 1989, LB 340, § 4.

12-1205 Person discovering remains or goods; duties; violation; penalty.

(1) Any person who encounters or discovers human skeletal remains or burial goods associated with an unmarked human burial in or on the ground shall immediately cease any activity which may cause further disturbance of the unmarked human burial and shall within forty-eight hours report the presence and location of such remains or goods to a local law enforcement officer in the county in which the remains or goods are found. Any person who knowingly fails to make such a report shall be guilty of a Class III misdemeanor.

(2) If human skeletal remains or burial goods associated with an unmarked human burial in or on the ground are discovered by any employee, contractor, or agent of the Department of Roads in conjunction with highway construction, any construction in the area immediately adjacent to such remains or goods shall cease. The department or any of its employees, contractors, or agents shall within forty-eight hours of the discovery of the remains or goods report the presence and location of the remains or goods to a local law enforcement officer in the county in which the remains or goods are found. Any remains or goods may then be removed from the site following an examination by the appropriate agency in accordance with section 39-1363 and any applicable federal requirements. Following removal, the remains or goods shall be disposed of in accordance with the Unmarked Human Burial Sites and Skeletal Remains Protection Act. The construction project may continue once the remains or goods have been removed.

12-1206 Discovery of remains or goods; law enforcement officer; notice.

A law enforcement officer who receives notification pursuant to section 12-1205 shall promptly notify the landowner on whose property the human skeletal remains or burial goods were discovered, the county attorney, and the society.

Source: Laws 1989, LB 340, § 6.

12-1207 Discovery of remains or goods; county attorney; duties.

Upon notification pursuant to section 12-1206, the county attorney shall determine whether the human skeletal remains are associated with or suspected of association with any crime and, if a determination of prosecutable criminal activity is made, shall retain custody of the remains in accordance with routine procedures until such time as the remains may be reburied in accordance with the Unmarked Human Burial Sites and Skeletal Remains Protection Act.

Source: Laws 1989, LB 340, § 7.

12-1208 Discovery of remains or goods; society; duties.

(1) Upon notification pursuant to section 12-1206, the society shall promptly assist in examining the discovered material to attempt to determine its origin and identity.

(2) If the society finds that the discovered human skeletal remains or burial goods are of non-American-Indian origin with a known or unknown identity, it shall notify the county attorney of the finding. Upon receipt of the finding, the county attorney shall cause the remains and associated burial goods to be interred in consultation with the county coroner. Reburial shall be in accordance with the wishes and at the expense of any known relatives in the order listed by section 38-1425 or, if no relatives are known, in an appropriate cemetery at the expense of the county in which the remains were discovered after a one-year scientific study period if such study period is considered necessary or desirable by the society. In no case shall any human skeletal remains that are reasonably identifiable as to familial or tribal origin be displayed by any entity which receives funding or official recognition from the state or any of its political subdivisions. In situations in which human skeletal

remains or burial goods that are unidentifiable as to familial or tribal origin are clearly found to be of extremely important, irreplaceable, and intrinsic scientific value, the remains or goods may be curated by the society until the remains or goods may be reinterred as provided in this subsection without impairing their scientific value.

(3) If the society finds that the discovered human skeletal remains or burial goods are of American Indian origin, it shall promptly notify in writing the Commission on Indian Affairs and any known relatives in the order listed in section 38-1425 or, if no relatives are known, any Indian tribes reasonably identified as tribally linked to such remains or goods in order to ascertain and follow the wishes of the relative or Indian tribe, if any, as to reburial or other disposition. Reburial by any such relative or Indian tribe shall be by and at the expense of such relative or Indian tribe. In cases in which reasonably identifiable American Indian human skeletal remains or burial goods are unclaimed by the appropriate relative or Indian tribe, the society shall notify all other Indian tribes which can reasonably be determined to have lived in Nebraska in order to ascertain and follow the wishes of the tribe as to reburial or other disposition. Reburial by any such tribe shall be by and at the expense of the tribe. If such remains or goods are unclaimed by the appropriate tribe, the remains or goods shall be reburied, as determined by the commission, by one of the four federally recognized Indian tribes in Nebraska.

12-1209 Entity possessing or controlling remains or goods on August 25, 1989; duties.

Notwithstanding any other provision of Nebraska law, any institution, agency, organization, or other entity in this state which receives funding or official recognition from the state or any of its political subdivisions and which has in its possession or control on August 25, 1989, any disinterred human skeletal remains or burial goods of American Indian origin which are reasonably identifiable as to familial or tribal origin, regardless of their present location, shall return any such remains and goods to the relative or Indian tribe for reburial, upon request of such relative or Indian tribe, or otherwise cause such remains and goods to be reinterred pursuant to subsections (2) and (3) of section 12-1208 within one year of receiving such request, except that any such entity which has, prior to January 1, 1989, received a written request from any relative or Indian tribe for the return of such reasonably identifiable remains and goods shall return to such relative or Indian tribe for reburial all such remains and goods by September 10, 1990.

12-1210 Entity possessing or controlling remains or goods; request for return; duties.

Any institution, agency, organization, or other entity in this state which receives a request for the return of human skeletal remains or burial goods under the Unmarked Human Burial Sites and Skeletal Remains Protection Act shall, at least ninety days prior to the date for return established by statute or otherwise agreed upon pursuant to the act, provide the requesting relative or Indian tribe with an itemized inventory of any human skeletal remains and

burial goods that are subject to return to the requesting relative or Indian tribe. At the time the entity transfers possession of such remains or goods to the requesting relative or Indian tribe, the transferor and the transferee shall each sign a transfer document which identifies by inventory number and description each human skeletal remain or burial good being transferred.

12-1211 Dispute; resolution; procedure.

Whenever a dispute arises with regard to the disposition of human skeletal remains or burial goods pursuant to the Unmarked Human Burial Sites and Skeletal Remains Protection Act, the procedure set forth in this section shall be the exclusive remedy available to the aggrieved party under the act. No cause of action shall lie until the procedure set forth in this section is completed.

The aggrieved party shall submit to the adverse party documentation describing the nature of the grievance. The aggrieved party and the adverse party shall meet within sixty days of the mailing of the initial grievance and shall either concur or disagree after reviewing the appropriate documentation.

If after such meeting the parties disagree, they shall, within fifteen days following such meeting, designate a third party, agreed on by both original parties, to assist in the resolution of the dispute. If an agreement as to the designation of the third party is not reached within the fifteen-day period, the Public Counsel shall automatically be designated to serve in that capacity.

Following the designation of a third party, the aggrieved party may submit a petition, together with supporting documentation, to the third party describing the nature of the grievance. The aggrieved party shall serve a copy of the petition and all supporting documents on the adverse party at the time of filing. The adverse party shall have thirty days to respond to the petition by filing a response and supporting documentation with the third party, copies of which shall be served on the aggrieved party by the adverse party at the time of filing the response.

The third party shall review the petition, the response, all supporting documentation submitted by the parties, and other relevant information. Following such review and within ninety days after the filing of the petition, the two original parties and the third party shall, by majority vote, render a decision with regard to the matter in dispute.

The decision may be appealed by either party, and such appeal shall be in accordance with section 25-1937.

When the disposition of any human skeletal remains or burial goods is disputed and subject to arbitration under this section, the party in possession of the remains or goods shall retain possession until the arbitration process and appeals provided for in this section are completed.

12-1212 Civil action; statute of limitation; recovery; attorney's fees.

(1) Any person, Indian tribe, or Indian tribal member shall have a civil cause of action against any person alleged to have intentionally violated the Unmarked Human Burial Sites and Skeletal Remains Protection Act or section 28-1301. The action shall be brought within two years of discovery by the plaintiff of the alleged violation or within two years of August 25, 1989,

whichever is later. The action shall be filed either in the district court of the county in which the unmarked human burial, human skeletal remains, or burial goods are located or in which the defendant resides.

(2) If the plaintiff prevails in an action brought pursuant to this section:

(a) The court may award reasonable attorney's fees to the plaintiff and may grant injunctive or other appropriate relief, including forfeiture of any human skeletal remains or burial goods acquired as a result of or equipment used in the violation. The court shall order the disposition of any items forfeited, including the reinterment of any human skeletal remains or burial goods pursuant to the act; and

(b) The plaintiff may recover actual damages for each violation.

(3) If the defendant prevails in an action brought pursuant to this section, the court may award reasonable attorney's fees to the defendant.

13-202 Legislative findings.

The Legislature hereby finds that areas of chronic economic distress in the State of Nebraska are a detriment to the economic well-being, health, and safety of the citizens of Nebraska. The Legislature further contends that current governmental solutions have not been able to completely resolve certain problems such as overcrowding, unemployment, and poor health and sanitary conditions in a community which lead to further deterioration. Such problems cannot be remedied by the government alone, but can be alleviated through a partnership between the government and private enterprise. It is therefor declared to be public policy in this state to encourage contributions by business firms and individuals that offer and provide community and neighborhood assistance and community services.

The county or municipality may assess the full costs of such assistance to a municipality served. The county boards of counties and the governing bodies of cities and villages may establish an emergency medical service, including the provision of scheduled and unscheduled ambulance service, as a governmental service either within or without the county or municipality, as the case may be. The county board or governing body may contract with any city, person, firm, or corporation licensed as an emergency medical service for emergency medical care by out-of-hospital emergency care providers. Each may enter into an agreement with the other under the Interlocal Cooperation Act or Joint Public Agency Act for the purpose of establishing an emergency medical service or may provide a separate service for itself. Public funds may be expended therefor, and a reasonable service fee may be charged to the user. Before any such service is established under the authority of this section, the county board or the governing bodies of cities and villages shall hold a public hearing after giving at least ten days' notice thereof, which notice shall include a brief summary of the general plan for establishing such service, including an estimate of the initial cost and the possible continuing cost of operating such service. If the board or governing body after such hearing determines that an emergency medical service for emergency medical care by out-of-hospital emergency care providers is needed, it may proceed as authorized in this section. The authority granted in this section shall be cumulative and supplementary to any existing powers heretofore granted. Any county board of counties and the governing bodies of cities and villages may pay their cost for such service out of available general funds or may levy a tax for the purpose of providing the service, which levy shall be in addition to all other taxes and shall be in addition to restrictions on the levy of taxes provided by statute, except that when a fire district provides the service the county shall pay the cost for the county service by levying a tax on that property not in a fire district providing the service. The levy shall be subject to section 77-3443.

13-506 Proposed budget statement; notice; hearing; adoption; certify to board; exceptions; file with auditor.

(1) Each governing body shall each year conduct a public hearing on its proposed budget statement. Notice of place and time of such hearing, together with a summary of the proposed budget statement, shall be published at least five days prior to the date set for hearing in a newspaper of general circulation within the governing body's jurisdiction. When the total operating budget, not including reserves, does not exceed ten thousand dollars per year, the proposed budget summary may be posted at the governing body's principal headquarters. After such hearing, the proposed budget statement shall be adopted, or amended and adopted as amended, and a written record shall be kept of such hearing. The amount to be received from personal and real property taxation shall be certified to the levying board after the proposed budget statement is adopted or is amended and adopted as amended. If the levying board represents more than one county, a member or a representative of the governing board shall, upon the written request of any represented county, appear and present its budget at the hearing of the requesting county. The certification of the amount to be received from personal and real property taxation shall specify separately (a) the amount to be applied to the payment of principal or interest on bonds issued by the governing body and (b) the amount to be received for all other purposes. If the adopted budget statement reflects a change from that shown in the published proposed budget statement, a summary of such changes shall be published within twenty days after its adoption in the manner provided in this section, but without provision for hearing, setting forth the items changed and the reasons for such changes.

(2) Upon approval by the governing body, the budget shall be filed with the auditor. The auditor may review the budget for errors in mathematics, improper accounting, and noncompliance with the provisions of the Nebraska Budget Act or sections 13-518 to 13-522. If the auditor detects such errors, he or she shall immediately notify the governing body of such errors. The governing body

shall correct any such error as provided in section 13-511. Warrants for the payment of expenditures provided in the budget adopted under this section shall be valid notwithstanding any errors or noncompliance for which the auditor has notified the governing body.

Proof of publication shall be attached to the statements. School districts that are members of a learning community shall also file a copy of such adopted budget statement with the learning community coordinating council on or before September 1, 2007, and on or before September 1 of each year thereafter. For purposes of this section, anticipated litigation shall be limited to the anticipation of an action being filed by a taxpayer who or which filed a similar action for the preceding year which is still pending. Except for such allowances, a governing body shall not certify an amount of tax more than one percent greater or lesser than the amount determined under section 13-505.

(2) Each governing body shall use the final adjusted values as provided by the county assessor pursuant to section 13-509 for the current year in setting or certifying the levy. 13-509.01 Cash balance; expenditure authorized; limitation.

On and after the first day of its fiscal year in 1993 and of each succeeding year and until the adoption of the budget by a governing body in September, the governing body may expend any balance of cash on hand for the current expenses of the political subdivision governed by the governing body. Except as provided in section 13-509.02, such expenditures shall not exceed an amount equivalent to the total amount expended under the last budget in the equivalent period of the prior budget year. Such expenditures shall be charged against the appropriations for each individual fund or purpose as provided in the budget when adopted.

13-509.02 Cash balance; expenditure limitation; exceeded; when; section, how construed.

The restriction on expenditures in section 13-509.01 may be exceeded upon the express finding of the governing body of the political subdivision that expenditures beyond the amount authorized are necessary to enable the political subdivision to meet its statutory duties and responsibilities. The finding and approval of the expenditures in excess of the statutory authorization shall be adopted by the governing body of the political subdivision in open public session of the governing body. Expenditures authorized by this section shall be

charged against appropriations for each individual fund or purpose as provided in the budget when adopted, and nothing in this section shall be construed to authorize expenditures by the political subdivision in excess of that authorized by any other statutory provision.

13-510 Emergency; transfer of funds; violation; penalty.

Whenever during the current fiscal year or biennial period it becomes apparent to a governing body that due to unforeseen emergencies there is temporarily insufficient money in a particular fund to meet the requirements of the adopted budget of expenditures for that fund, the governing body may by a majority vote, unless otherwise provided by state law, transfer money from other funds to such fund. No expenditure during any fiscal year or biennial period shall be made in excess of the amounts indicated in the adopted budget statement, except as authorized in section 13-511, or by state law. Any officer or officers of any governing body who obligates funds contrary to the provisions of this section shall be guilty of a Class V misdemeanor.

A determination of ''emergency'' under the Nebraska Budget Act is a question for a county board and will not be disturbed on appeal unless there has been an abuse of discretion. Meyer v. Colin, 204 Neb. 96, 281 N.W.2d 737 (1979).

13-511 Revision of adopted budget statement; when; supplemental funds; hearing; notice; warrants; issuance; correction.

(1) Unless otherwise provided by law, whenever during the current fiscal year or biennial period it becomes apparent to a governing body that (a) there are circumstances which could not reasonably have been anticipated at the time the budget for the current year or biennial period was adopted, (b) the budget adopted violated sections 13-518 to 13-522, such that the revenue of the current fiscal year or biennial period for any fund thereof will be insufficient, additional expenses will be necessarily incurred, or there is a need to reduce the budget requirements to comply with sections 13-518 to 13-522, or (c) the governing body has been notified by the auditor of a mathematical or accounting error or noncompliance with the Nebraska Budget Act, such governing body may propose to revise the previously adopted budget statement and shall conduct a public hearing on such proposal.

(2) Notice of the time and place of the hearing shall be published at least five days prior to the date set for hearing in a newspaper of general circulation within the governing body's jurisdiction. Such published notice shall set forth (a) the time and place of the hearing, (b) the amount in dollars of additional or reduced money required and for what purpose, (c) a statement setting forth the nature of the unanticipated circumstances and, if the budget requirements are to be increased, the reasons why the previously adopted budget of expenditures cannot be reduced during the remainder of the current year or biennial period to meet the need for additional money in that manner, (d) a copy of the summary of the originally adopted budget previously published, and (e) a copy of the summary of the proposed revised budget.

(3) At such hearing any taxpayer may appear or file a written statement protesting any application for additional money. A written record shall be kept of all such hearings.

(4) Upon conclusion of the public hearing on the proposed revised budget and approval of the proposed revised budget by the governing body, the governing body shall file with the county clerk of the county or counties in which such governing body is located, with the learning community coordinating council for school districts that are members of learning communities, and with the auditor, a copy of the revised budget, as adopted. The governing body may then issue warrants in payment for expenditures authorized by the adopted revised budget. Such warrants shall be referred to as registered warrants and shall be repaid during the next fiscal year or biennial period from funds derived from taxes levied therefor.

(5) Within thirty days after the adoption of the budget under section 13-506, a governing body may, or within thirty days after notification of an error by the auditor, a governing body shall, correct an adopted budget which contains a clerical, mathematical, or accounting error which does not affect the total amount budgeted by more than one percent or increase the amount required from property taxes. No public hearing shall be required for such a correction. After correction, the governing body shall file a copy of the corrected budget with the county clerk of the county or counties in which such governing body is located and with the auditor. The governing body may then issue warrants in payment for expenditures authorized by the budget.

13-512 Budget statement; taxpayer; contest; basis; procedure.

A taxpayer upon whom a tax will be imposed as a result of the action of a governing body in adopting a budget statement may contest the validity of the budget statement adopted by the governing body by filing an action in the district court of the county in which the governing body is situated. Such action shall be based either upon a violation of or a failure to comply with the provisions and requirements of the Nebraska Budget Act by the governing body. In response to such action, the governing body shall be required to show cause why the budget statement should not be ordered set aside, modified, or changed. The action shall be tried to the court without a jury and shall be given priority by the district court over other pending civil litigation, and by the appellate court on appeal, to the extent possible and feasible to expedite a decision. Such action shall be filed within thirty days after the adopted budget statement is required to be filed by the governing body with the levying board. If the district court finds that the governing body has violated or failed to comply with the requirements of the act, the court shall, in whole or in part, set aside, modify, or change the adopted budget statement or tax levy as the justice of the case may require. The district court's decision may be appealed to the Court of Appeals.

The remedy provided in this section shall not be exclusive but shall be in addition to any other remedy provided by law.

13-513 Auditor; request information.

13-519 Governmental unit; adoption of budget; limitations; additional increases authorized; procedure.

(1)(a) Subject to subdivision (1)(b) of this section, for all fiscal years beginning on or after July 1, 1998, no governmental unit shall adopt a budget containing a total of budgeted restricted funds more than the last prior year's total of budgeted restricted funds plus allowable growth plus the basic allowable growth percentage of the base limitation established under section 77-3446. For the second fiscal year in which a county will receive a full year of receipts from the tax imposed in sections 77-27,223 to 77-27,227, the prior year's total of restricted funds shall be the prior year's total of restricted funds plus the total receipts from the tax imposed in sections 77-27,223 to 77-27,227 in the prior year. If a governmental unit transfers the financial responsibility of providing a service financed in whole or in part with restricted funds to another governmental unit or the state, the amount of restricted funds associated with

providing the service shall be subtracted from the last prior year's total of budgeted restricted funds for the previous provider and may be added to the last prior year's total of restricted funds for the new provider. For governmental units that have consolidated, the calculations made under this section for consolidating units shall be made based on the combined total of restricted funds, population, or full-time equivalent students of each governmental unit.

(b) For all fiscal years beginning on or after July 1, 2005, the last prior year's total of budgeted restricted funds shall be increased for a community college area by adding to such area's fiscal year base-year revenue the amount of revenue to be collected under subdivision (2)(c) of section 85-1517 that is in excess of the amount budgeted under this subdivision in the prior fiscal year.

(2) A governmental unit may exceed the limit provided in subdivisions (1)(a) and (b) of this section for a fiscal year by up to an additional one percent upon the affirmative vote of at least seventy-five percent of the governing body.

(3) A governmental unit may exceed the applicable allowable growth percentage otherwise prescribed in this section by an amount approved by a majority of legal voters voting on the issue at a special election called for such purpose upon the recommendation of the governing body or upon the receipt by the county clerk or election commissioner of a petition requesting an election signed by at least five percent of the legal voters of the governmental unit. The recommendation of the governing body or the petition of the legal voters shall include the amount and percentage by which the governing body would increase its budgeted restricted funds for the ensuing year over and above the current year's budgeted restricted funds. The county clerk or election commissioner shall call for a special election on the issue within fifteen days after the receipt of such governing body recommendation or legal voter petition. The election shall be held pursuant to the Election Act, and all costs shall be paid by the governing body. The issue may be approved on the same question as a vote to exceed the levy limits provided in section 77-3444.

(4) In lieu of the election procedures in subsection (3) of this section, any governmental unit may exceed the allowable growth percentage otherwise prescribed in this section by an amount approved by a majority of legal voters voting at a meeting of the residents of the governmental unit, called after notice is published in a newspaper of general circulation in the governmental unit at least twenty days prior to the meeting. At least ten percent of the registered voters residing in the governmental unit shall constitute a quorum for purposes of taking action to exceed the allowable growth percentage. If a majority of the registered voters present at the meeting vote in favor of exceeding the allowable growth percentage, a copy of the record of that action shall be forwarded to the Auditor of Public Accounts along with the budget documents. A governmental unit may choose not to increase its total of restricted funds by the full amount allowed by law in a particular year. In such cases, the governmental unit may carry forward to future budget years the amount of unused restricted funds authority. 13-824.01 Contracts relating to electric generating facility and related facilities; estimated cost; bid procedure; advertising; purchases authorized without advertising or sealed bidding.

(1) A joint entity shall cause estimates of the costs to be made by some competent engineer or engineers before the joint entity enters into any contract for the construction, management, operation, ownership, maintenance, or purchase of an electric generating facility and related facilities.

(2) If the estimated cost exceeds the sum of one hundred thousand dollars, no such contract shall be entered into without advertising for sealed bids.

(3)(a) The provisions of subsection (2) of this section and sections 13-824.02 and 13-824.03 relating to sealed bids shall not apply to contracts entered into by a joint entity in the exercise of its rights and powers relating to equipment or supplemental labor procurement from an electric utility or from or through an electric utility alliance if:

(i) The engineer or engineers certify that, by reason of the nature of the subject matter of the contract, compliance with subsection (2) of this section would be impractical or not in the public interest;

(ii) The engineer's certification is approved by a two-thirds vote of the governing body of the joint entity; and

(iii) The joint entity advertises notice of its intention to enter into such contract, the general nature of the proposed work, and the name of the person to be contacted for additional information by anyone interested in contracting for such work.

(b) Any contract for which the governing body has approved an engineer's certificate described in subdivision (a) of this subsection shall be advertised in three issues, not less than seven days between issues, in one or more newspapers of general circulation in the municipality or county where the principal office or place of business of the joint entity is located, or if no newspaper is so published then in a newspaper qualified to carry legal notices having general circulation therein, and in such additional newspapers or trade or technical

periodicals as may be selected by the governing body in order to give proper notice of its intention to enter into such contract, and any such contract shall not be entered into prior to twenty days after the last advertisement.

(4) The provisions of subsection (2) of this section and sections 13-824.02 and 13-824.03 shall not apply to contracts in excess of one hundred thousand dollars entered into for the purchase of any materials, machinery, or apparatus to be used in facilities described in subsection (1) of this section when the contract does not include onsite labor for the installation thereof if, after advertising for sealed bids:

(a) No responsive bids are received; or

(b) The governing body of the joint entity determines that all bids received are in excess of the fair market value of the subject matter of such bids.

(5) Notwithstanding any other provision of subsection (2) of this section or sections 13-824.02 and 13-824.03, a joint entity may, without advertising or sealed bidding, purchase replacement parts or services relating to such replacement parts for any generating unit, transformer, or other transmission and distribution equipment from the original manufacturer of such equipment upon certification by an engineer or engineers that such manufacturer is the only available source of supply for such replacement parts or services and that such purchase is in compliance with standards established by the governing body of the joint entity. A written statement containing such certification and a description of the resulting purchase of replacement parts or services from the original manufacturer shall be submitted to the joint entity by the engineer or engineers certifying the purchase for the governing body's approval. After such certification, but not necessarily before the governing body's review, notice of any such purchase shall be published once a week for at least three consecutive weeks in one or more newspapers of general circulation in the municipality or county where the principal office or place of business of the joint entity is located and published in such additional newspapers or trade or technical periodicals as may be selected by the governing body in order to give proper notice of such purchase.

(6) Notwithstanding any other provision of subsection (2) of this section or sections 13-824.02 and 13-824.03, a joint entity may, without advertising or sealed bidding, purchase used equipment and materials on a negotiated basis upon certification by an engineer that such equipment is or such materials are in compliance with standards established by the governing body. A written statement containing such certification shall be submitted to the joint entity by the engineer for the governing body's approval.

13-824.02 Advertisement for sealed bids; requirements.

Prior to advertisement for sealed bids, plans and specifications for the proposed work or materials shall be prepared and filed at the principal office or place of business of the joint entity. Such advertisement shall be made in three issues, not less than seven days between issues, in one or more newspapers of general circulation in the municipality or county where the principal office or place of business of the joint entity is located, or if no newspaper is so published then in a newspaper qualified to carry legal notices having general circulation therein, and in such additional newspapers or trade or technical periodicals as may be selected by the governing body of the joint entity in order

to give proper notice of the receiving of bids. Such advertisement shall designate the nature of the work proposed to be done or materials proposed to be purchased, that the plans and specifications therefor may be inspected at the office of the joint entity, giving the location thereof, the time within which bids shall be filed, and the date, hour, and place the same shall be opened.

13-824.03 Governing body; award of contract; considerations.

The governing body of the joint entity may let the contract for such work or materials to the responsible bidder who submits the lowest and best bid, or in the sole discretion of the governing body, all bids tendered may be rejected, and readvertisement for bids made, in the manner, form, and time as provided in section 13-824.02. In determining whether a bidder is responsible, the governing body may consider the bidder's financial responsibility, skill, experience, record of integrity, ability to furnish repairs and maintenance services, and ability to meet delivery or performance deadlines and whether the bid is in conformance with specifications. Consideration may also be given by the governing body of the joint entity to the relative quality of supplies and services to be provided, the adaptability of machinery, apparatus, supplies, or services to be purchased to the particular uses required, the preservation of uniformity, and the coordination of machinery and equipment with other machinery and equipment already installed. No such contract shall be valid nor shall any money of the joint entity be expended thereunder unless advertisement and letting has been had as provided in sections 13-824.01 to 13-824.03.

13-825 Act, how construed.

The provisions of the Interlocal Cooperation Act shall be deemed to provide an additional, alternative, and complete method for the doing of the things authorized by the act and shall be deemed and construed to be supplemental and additional to, and not in derogation of, powers conferred upon political subdivisions, agencies, and others by law. Insofar as the provisions of the Interlocal Cooperation Act are inconsistent with the provisions of any general or special law, administrative order, or regulation, the provisions of the Interlocal Cooperation Act shall be controlling.

13-826 Pledge of state.

The State of Nebraska does hereby pledge to and agree with the holders of any bonds and with those persons who may enter into contracts with any joint entity or political subdivision under the Interlocal Cooperation Act that the state will not alter, impair, or limit the rights thereby vested until the bonds, together with applicable interest, are fully met and discharged and such contracts are fully performed. Nothing contained in the Interlocal Cooperation Act shall preclude such alteration, impairment, or limitation if and when adequate provisions are made by law for the protection of the holders of the bonds or persons entering into contracts with any joint entity or political subdivision. Each joint entity and political subdivision may include this pledge and undertaking for the state in such bonds or contracts.

POLITICAL SUBDIVISIONS TORT CLAIMS ACT

Section

13-901 Act, how cited.

Sections 13-901 to 13-927 shall be known and may be cited as the Political Subdivisions Tort Claims Act.

13-902 Legislative declarations.

The Legislature hereby declares that no political subdivision of the State of Nebraska shall be liable for the torts of its officers, agents, or employees, and that no suit shall be maintained against such political subdivision or its officers, agents, or employees on any tort claim except to the extent, and only to the extent, provided by the Political Subdivisions Tort Claims Act. The Legislature further declares that it is its intent and purpose through this enactment to provide uniform procedures for the bringing of tort claims against all political subdivisions, whether engaging in governmental or proprietary functions, and

that the procedures provided by the act shall be used to the exclusion of all others.

2. Constitutionality
3. Appeals under act
4. Miscellaneous

1. Suits subject to act

The Political Subdivisions Tort Claims Act removes, in part, the traditional immunity of subdivisions for the negligent acts of their employees. Talbot v. Douglas County, 249 Neb. 620, 544 N.W.2d 839 (1996).

A sanitary and improvement district is a ''political subdivision'' to which the terms of the Political Subdivisions Tort Claims Act apply. West Omaha Inv. v. S.I.D. No. 48, 227 Neb. 785, 420 N.W.2d 291 (1988).

A drainage district is a political subdivision within the meaning of the Political Subdivisions Tort Claims Act. Parriott v. Drainage District No. 6, 226 Neb. 123, 410 N.W.2d 97 (1987).

An irrigation district properly organized under the statutes is a political subdivision. Peterson v. Gering Irr. Dist., 219 Neb. 281, 363 N.W.2d 145 (1985).

This act specifically excludes from its provisions any claim arising in respect to the detention of goods or merchandise by any law enforcement officer. Nash v. City of North Platte, 198 Neb. 623, 255 N.W.2d 52 (1977).

This section removes, partially, the traditional immunity of subdivisions for the negligent acts of their employees and officers. Koepf v. County of York, 198 Neb. 67, 251 N.W.2d 866 (1977).

Person intoxicated when confined in cell with another who attacked and injured him recovered damages from city under this act. Daniels v. Andersen, 195 Neb. 95, 237 N.W.2d 397 (1975).

The common law rule of governmental immunity has not been completely abrogated in Nebraska, and an action for damages for misrepresentation and deceit is not permitted. Hall v. Abel Inv. Co., 192 Neb. 256, 219 N.W.2d 760 (1974).

Claim for indemnification and contribution from political subdivision of state does not have to be filed pursuant to the Nebraska Political Subdivisions Tort Claims Act, and its one-year statute of limitations does not apply. Waldinger Co. v. P & Z Co., Inc., 414 F.Supp. 59 (D. Neb. 1976).

2. Constitutionality

Political Subdivisions Tort Claims Act including one-year notice of claim requirement and two-year limitation for bringing action held constitutional. Campbell v. City of Lincoln, 195 Neb. 703, 240 N.W.2d 339 (1976).

3. Appeals under act

A district court's factual findings in a case brought under the Political Subdivisions Tort Claims Act will not be set aside unless such findings are clearly incorrect. Zeller v. County of Howard, 227 Neb. 667, 419 N.W.2d 654 (1988); Hughes v. Enterprise Irrigation Dist., 226 Neb. 230, 410 N.W.2d 494 (1987); Lynn v. Metropolitan Utilities Dist., 225 Neb. 121, 403 N.W.2d 335 (1987).

In reviewing a bench trial under the Political Subdivisions Tort Claims Act, sections 23-2401 et seq., the Supreme Court must consider the evidence in the light most favorable to the successful party, resolving any conflicts in the evidence in favor of that party and giving to that party the benefit of all reasonable inferences that can be deduced from the evidence. The findings of fact of the trial court in a proceeding under this act will not be set aside unless such findings are clearly incorrect. Phillips v. City of Omaha, 227 Neb. 233, 417 N.W.2d 12 (1987).

A municipality, sued under the Political Subdivisions Tort Claims Act, may avail itself of the immunity protections established in the Recreational Liability Act as an owner of land. Bailey v. City of North Platte, 218 Neb. 810, 359 N.W.2d 766 (1984).

Findings of fact made by the district court in a case brought under the Political Subdivisions Tort Claims Act, section 23-2401 et seq., will not be disturbed on appeal unless clearly wrong. Watson v. City of Omaha, 209 Neb. 835, 312 N.W.2d 256 (1981); Craig v. Gage County, 190 Neb. 320, 208 N.W.2d 82 (1973).

In a proceeding brought under the Political Subdivisions Tort Claims Act, the findings of fact by the trial court will not be overturned unless clearly wrong. Lee v. City of Omaha, 209 Neb. 345, 307 N.W.2d 800 (1981); Naber v. City of Humboldt, 197 Neb. 433, 249 N.W.2d 726 (1977).

4. Miscellaneous

The trial court was not clearly wrong in inferring from a political subdivision's admission that an action was brought ''pursuant to'' the Political Subdivisions Tort Claims Act that the plaintiff completely complied with the act, in view of the fact that the political subdivision never challenged compliance through summary judgment, motion for a new trial, or otherwise. Schmid v. Malcolm Sch. Dist., 233 Neb. 580, 447 N.W.2d 20 (1989).

A petition to state a claim against a political subdivision must allege compliance with the terms of the Political Subdivisions Tort Claims Act. West Omaha Inv. v. S.I.D. No. 48, 227 Neb. 785, 420 N.W.2d 291 (1988).

The Political Subdivisions Tort Claims Act does not foreclose suits against individual employees of a political subdivision for their own personal negligence. Dieter v. Hand, 214 Neb. 257, 333 N.W.2d 772 (1983).

Court held evidence of custom and usage in the electrical industry is pertinent on the question of negligence and is a question of fact in determining whether due care has been exercised. Steel Containers, Inc. v. Omaha P. P. Dist., 198 Neb. 81, 251 N.W.2d 669 (1977).

13-903 Terms, defined.

For purposes of the Political Subdivisions Tort Claims Act and sections 16-727, 16-728, 23-175, 39-809, and 79-610, unless the context otherwise requires:

(1) Political subdivision shall include villages, cities of all classes, counties, school districts, public power districts, and all other units of local government,

including entities created pursuant to the Interlocal Cooperation Act or Joint Public Agency Act. Political subdivision shall not be construed to include any contractor with a political subdivision;

(2) Governing body shall mean the village board of a village, the city council of a city, the board of commissioners or board of supervisors of a county, the board of directors of a public power district, the governing board or other governing body of an entity created pursuant to the Interlocal Cooperation Act or Joint Public Agency Act, and any duly elected or appointed body holding the power and authority to determine the appropriations and expenditures of any other unit of local government;

(3) Employee of a political subdivision shall mean any one or more officers or employees of the political subdivision or any agency of the subdivision and shall include members of the governing body, duly appointed members of boards or commissions when they are acting in their official capacity, volunteer firefighters, and volunteer rescue squad personnel. Employee shall not be construed to include any contractor with a political subdivision; and

(4) Tort claim shall mean any claim against a political subdivision for money only on account of damage to or loss of property or on account of personal injury or death, caused by the negligent or wrongful act or omission of any employee of the political subdivision, while acting within the scope of his or her office or employment, under circumstances in which the political subdivision, if a private person, would be liable to the claimant for such damage, loss, injury, or death but shall not include any claim accruing before January 1, 1970.

13-904 Governing body; powers.

Authority is hereby conferred upon the governing body of any political subdivision to consider, ascertain, adjust, compromise, settle, determine, and allow any tort claim as defined in the Political Subdivisions Tort Claims Act and sections 16-727, 16-728, 23-175, 39-809, and 79-610.

13-905 Tort claims; filing; requirements.

All tort claims under the Political Subdivisions Tort Claims Act and sections 16-727, 16-728, 23-175, 39-809, and 79-610 shall be filed with the clerk,

secretary, or other official whose duty it is to maintain the official records of the political subdivision, or the governing body of a political subdivision may provide that such claims may be filed with the duly constituted law department of such subdivision. It shall be the duty of the official with whom the claim is filed to present the claim to the governing body. All such claims shall be in writing and shall set forth the time and place of the occurrence giving rise to the claim and such other facts pertinent to the claim as are known to the claimant.

1. Constitutionality
2. Notice requirements
3. Affirmative defense

1. Constitutionality

This section is relevant and related to a legitimate governmental interest, and therefore does not violate the uniformity clause of the Nebraska Constitution or the equal protection clause of the U.S. Constitution. Willis v. City of Lincoln, 232 Neb. 533, 441 N.W.2d 846 (1989).

2. Notice requirements

A written claim must make a demand upon a political subdivision for the satisfaction of an obligation rather than merely alerting the political subdivision to the possibility of a claim. Jessen v. Malhotra, 266 Neb. 393, 665 N.W.2d 586 (2003).

For substantial compliance with the written notice requirements of this section, within 1 year from the act or omission on which the claim is based, the written notice of the claim must be filed with an individual or office designated in the Political Subdivisions Tort Claims Act as the authorized recipient for notice of claim against a political subdivision. A notice of claim filed only with one unauthorized to receive a claim pursuant to this section does not substantially comply with the notice requirements of the act. Estate of McElwee v. Omaha Transit Auth., 266 Neb. 317, 664 N.W.2d 461 (2003).

With regard to a claim's content, substantial compliance with the statutory provisions supplies the requisite and sufficient notice to a political subdivision, so long as the written notice is filed with an individual or office designated in the Political Subdivisions Tort Claims Act as the authorized recipient of claims. Woodard v. City of Lincoln, 256 Neb. 61, 588 N.W.2d 831 (1999).

Notice requirements for a claim filed pursuant to the Political Subdivisions Tort Claims Act are to be liberally construed so that one with a meritorious claim may not be denied relief as the result of some technical noncompliance. Mere knowledge of an act or omission, by a nondesignated party, is not sufficient to satisfy this section's notice requirements. If a political subdivision, by an appropriately specific allegation in a demurrer or answer, raises the issue of a plaintiff's failure to comply with the notice requirement of this section, the plaintiff then has the burden to show compliance. Schoemaker v. Metropolitan Utilities Dist., 245 Neb. 967, 515 N.W.2d 675 (1994).

Compliance with the filing or presentment of claim provision in this section is a condition precedent to commencement of a negligence action against a political subdivision. Schmidt v. Omaha Pub. Power Dist., 245 Neb. 776, 515 N.W.2d 756 (1994).

Filing or presentment of a claim under the Political Subdivisions Tort Claims Act is neither a condition precedent to a political subdivision's tort liability nor a substantive element for a claimant's recovery in a negligence action against a political subdivision, but is a condition precedent to commencement of a negligence action against a political subdivision. Millman v. County of Butler, 235 Neb. 915, 458 N.W.2d 207 (1990).

For substantial compliance with the notice requirement of this section, within one year from the act or omission on which the claim is based, the written notice of claim must be filed with an individual designated in the Political Subdivisions Tort Claims Act as the authorized recipient for notice of claim. Willis v. City of Lincoln, 232 Neb. 533, 441 N.W.2d 846 (1989).

The filing of a notice of claim under the Political Subdivisions Tort Claims Act is a condition precedent to the institution of a suit to which the act applies. When the act does apply, failure to allege compliance with its provisions is a fatal defect, rendering the petition defective and subject to a demurrer. Employers Reins. Corp. v. Santee Pub. Sch. Dist. No. C-5, 231 Neb. 744, 438 N.W.2d 124 (1989).

Substantial compliance with the statutory provisions pertaining to a claim's content supplies the requisite and sufficient notice to a political subdivision in accordance with this section, when the lack of compliance has caused no prejudice to the political subdivision. Franklin v. City of Omaha, 230 Neb. 598, 432 N.W.2d 808 (1988); West Omaha Inv. v. S.I.D. No. 48, 227 Neb. 785, 420 N.W.2d 291 (1988); Chicago Lumber Co. v. School Dist. No. 71, 227 Neb. 355, 417 N.W.2d 757 (1988).

The filing of a notice of claim under the Political Subdivisions Tort Claims Act is a condition precedent to the institution of suit for an alleged tort against a political subdivision. All that is necessary to be included in a claim under this act is a recitation of the time and place of the occurrence giving rise to the claim and such other facts pertinent to the claim as are known to the claimant; it is not necessary that the claim contain the amount of damages or loss. West Omaha Inv. v. S.I.D. No. 48, 227 Neb. 785, 420 N.W.2d 291 (1988).

The notice required by this section does not have to state the indicated information, circumstances, or facts with the fullness or precision required in a pleading. Chicago Lumber Co. v. School Dist. No. 71, 227 Neb. 355, 417 N.W.2d 757 (1988).

A notice of a possible future claim does not satisfy the requirements of the statute. Peterson v. Gering Irr. Dist., 219 Neb. 281, 363 N.W.2d 145 (1985).

Notification to the insurance carrier of a political subdivision alone is insufficient to constitute substantial compliance with the notice provision of the Political Subdivisions Tort Claims Act. Written notice must be sent to a person or entity designated in the act. The filing of a notice of claim under the Political Subdivisions Tort Claims Act is a condition precedent to the institution of a suit to which the act applies. The partial payment of an insurance claim by a political subdivision's insurer standing alone is insufficient to create a question of fact precluding summary judgment as to whether the political subdivision is equitably estopped to assert the 1-year filing requirement. Keene v. Teten, 8 Neb. App. 819, 602 N.W.2d 29 (1999).

3. Affirmative defense

The filing or presentment of a claim under the Political Subdivisions Tort Claims Act is a condition precedent to commencement of a negligence action against a political subdivision. Noncompliance with the notice requirements is an available defense to a political subdivision, provided it is raised as an

affirmative defense. Polinski v. Omaha Pub. Power Dist., 251 Neb. 14, 554 N.W.2d 636 (1996).

A general denial in a political subdivision's answer does not raise the issue of noncompliance, which must be raised as an affirmative defense specifically expressing the plaintiff's noncompliance with this section. Schoemaker v. Metropolitan Utilities Dist., 245 Neb. 967, 515 N.W.2d 675 (1994).

A general denial in a political subdivision's answer does not raise the issue of noncompliance, which must be raised as an affirmative defense specifically expressing plaintiff's noncompliance with the notice requirement of this section. Miles v. Box Butte County, 241 Neb. 588, 489 N.W.2d 829 (1992).

A political subdivision must raise an affirmative defense by specifically expressing the plaintiff's noncompliance with the notice requirement. Once the noncompliance issue is properly raised, the plaintiff has the burden to show compliance with the notice requirement. Millman v. County of Butler, 235 Neb. 915, 458 N.W.2d 207 (1990).

Noncompliance with the notice requirement of this section must be raised as an affirmative defense and specifically alleged. A plaintiff has a limited right to commence an action under the Political Subdivisions Tort Claims Act in the form of a precedent filed claim prescribed by this section. Knight v. Hays, 4 Neb. App. 388, 544 N.W.2d 106 (1996).

13-906 Civil suit; when permitted.

No suit shall be permitted under the Political Subdivisions Tort Claims Act and sections 16-727, 16-728, 23-175, 39-809, and 79-610 unless the governing body of the political subdivision has made final disposition of the claim, except that if the governing body does not make final disposition of a claim within six months after it is filed, the claimant may, by notice in writing, withdraw the claim from consideration of the governing body and begin suit under such act and sections.

Because compliance with the statutory time limit can be determined with precision, the doctrine of substantial compliance has no application to this section. Big Crow v. City of Rushville, 266 Neb. 750, 669 N.W.2d 63 (2003).

Noncompliance with this section must be pled as an affirmative defense. Big Crow v. City of Rushville, 266 Neb. 750, 669 N.W.2d 63 (2003).

Absent any consideration of the statute of limitations, filing of a petition is substantial compliance with the terms of this section as to the withdrawal of a claim from consideration. Malzahn v. Transit Authority, 244 Neb. 425, 507 N.W.2d 289 (1993).

Substantial compliance with this section is sufficient when a lack of precise compliance has caused no prejudice to the political subdivision. Big Crow v. City of Rushville, 11 Neb. App. 498, 654 N.W.2d 383 (2002).

13-907 Jurisdiction; venue; procedure; appeal.

Jurisdiction, venue, procedure, and rights of appeal in all suits brought under the Political Subdivisions Tort Claims Act and sections 16-727, 16-728, 23-175, 39-809, and 79-610 shall be determined in the same manner as if the suits involved private individuals, except that such suits shall be heard and determined by the appropriate court without a jury.

Whether an employee of a political subdivision is acting within his scope of employment is not a question for the jury. Bohl v. Buffalo Cty., 251 Neb. 492, 557 N.W.2d 668 (1997).

An action under the Political Subdivisions Tort Claims Act is tried to the court without a jury. Findings of fact by the trial court will not be overturned unless clearly wrong. Hume v. Otoe County, 212 Neb. 616, 324 N.W.2d 810 (1982); Buttner v. Omaha P. P. Dist., 193 Neb. 515, 227 N.W.2d 862 (1975).

13-908 Political subdivision; liability; no writ of execution; offer of settlement; effect.

Except as otherwise provided in the Political Subdivisions Tort Claims Act, in all suits brought under the act the political subdivision shall be liable in the same manner and to the same extent as a private individual under like circumstances, except that no writ of execution shall issue against a political subdivision. Disposition of or offer to settle any claim made under the act shall

not be competent evidence of liability of the political subdivision or any employee or the amount of damages.

13-909 Final judgment; effect.

Final judgment in any suit under the Political Subdivisions Tort Claims Act and sections 16-727, 16-728, 23-175, 39-809, and 79-610 shall constitute a complete bar to any action by the claimant, by reason of the same subject matter, against the employee of the political subdivision whose act or omission gave rise to the claim, but this section shall not apply if the court rules that the claim is not permitted under such act and sections.

Dismissal of claim against employee was correct after final judgment in suit under this act. Craig v. Gage County, 190 Neb. 320, 208 N.W.2d 82 (1973).

13-910 Act and sections; exemptions.

The Political Subdivisions Tort Claims Act and sections 16-727, 16-728, 23-175, 39-809, and 79-610 shall not apply to:

(1) Any claim based upon an act or omission of an employee of a political subdivision, exercising due care, in the execution of a statute, ordinance, or officially adopted resolution, rule, or regulation, whether or not such statute, ordinance, resolution, rule, or regulation is valid;

(2) Any claim based upon the exercise or performance of or the failure to exercise or perform a discretionary function or duty on the part of the political subdivision or an employee of the political subdivision, whether or not the discretion is abused;

(3) Any claim based upon the failure to make an inspection or making an inadequate or negligent inspection of any property other than property owned by or leased to such political subdivision to determine whether the property complies with or violates any statute, ordinance, rule, or regulation or contains a hazard to public health or safety unless the political subdivision had reasonable notice of such hazard or the failure to inspect or inadequate or negligent inspection constitutes a reckless disregard for public health or safety;

(4) Any claim based upon the issuance, denial, suspension, or revocation of or failure or refusal to issue, deny, suspend, or revoke any permit, license, certificate, or order. Nothing in this subdivision shall be construed to limit a political subdivision's liability for any claim based upon the negligent execution by an employee of the political subdivision in the issuance of a certificate of title under the Motor Vehicle Certificate of Title Act and the State Boat Act;

(5) Any claim arising with respect to the assessment or collection of any tax or fee or the detention of any goods or merchandise by any law enforcement officer;

(6) Any claim caused by the imposition or establishment of a quarantine by the state or a political subdivision, whether such quarantine relates to persons or property;

(7) Any claim arising out of assault, battery, false arrest, false imprisonment, malicious prosecution, abuse of process, libel, slander, misrepresentation, deceit, or interference with contract rights;

(8) Any claim by an employee of the political subdivision which is covered by the Nebraska Workers' Compensation Act;

(9) Any claim arising out of the malfunction, destruction, or unauthorized removal of any traffic or road sign, signal, or warning device unless it is not corrected by the political subdivision responsible within a reasonable time after actual or constructive notice of such malfunction, destruction, or removal. Nothing in this subdivision shall give rise to liability arising from an act or omission of any political subdivision in placing or removing any traffic or road signs, signals, or warning devices when such placement or removal is the result of a discretionary act of the political subdivision;

(10) Any claim arising out of snow or ice conditions or other temporary conditions caused by nature on any highway as defined in section 60-624, bridge, public thoroughfare, or other public place due to weather conditions. Nothing in this subdivision shall be construed to limit a political subdivision's liability for any claim arising out of the operation of a motor vehicle by an employee of the political subdivision while acting within the course and scope of his or her employment by the political subdivision;

(11) Any claim arising out of the plan or design for the construction of or an improvement to any highway as defined in such section or bridge, either in original construction or any improvement thereto, if the plan or design is approved in advance of the construction or improvement by the governing body of the political subdivision or some other body or employee exercising discretionary authority to give such approval;

(12) Any claim arising out of the alleged insufficiency or want of repair of any highway as defined in such section, bridge, or other public thoroughfare. Insufficiency or want of repair shall be construed to refer to the general or overall condition and shall not refer to a spot or localized defect. A political subdivision shall be deemed to waive its immunity for a claim due to a spot or localized defect only if the political subdivision has had actual or constructive notice of the defect within a reasonable time to allow repair prior to the incident giving rise to the claim; or

(13)(a) Any claim relating to recreational activities for which no fee is charged (i) resulting from the inherent risk of the recreational activity, (ii) arising out of a spot or localized defect of the premises unless the spot or localized defect is not corrected by the political subdivision leasing, owning, or in control of the premises within a reasonable time after actual or constructive notice of the spot or localized defect, or (iii) arising out of the design of a skatepark or bicycle motocross park constructed for purposes of skateboarding, inline skating, bicycling, or scootering that was constructed or reconstructed, reasonably and in good faith, in accordance with generally recognized engineering or safety standards or design theories in existence at the time of the construction or reconstruction. For purposes of this subdivision, a political subdivision shall be charged with constructive notice only when the failure to discover the spot or localized defect of the premises is the result of gross negligence.

(b) For purposes of this subdivision:

(i) Recreational activities include, but are not limited to, whether as a participant or spectator: Hunting, fishing, swimming, boating, camping, picnicking, hiking, walking, running, horseback riding, use of trails, nature study, waterskiing, winter sports, use of playground equipment, biking, roller blading, skateboarding, golfing, athletic contests; visiting, viewing, or enjoying entertainment events, festivals, or historical, archaeological, scenic, or scientific sites; and similar leisure activities;

(ii) Inherent risk of recreational activities means those risks that are characteristic of, intrinsic to, or an integral part of the activity;

(iii) Gross negligence means the absence of even slight care in the performance of a duty involving an unreasonable risk of harm; and

(iv) Fee means a fee to participate in or be a spectator at a recreational activity. A fee shall include payment by the claimant to any person or organization other than the political subdivision only to the extent the political subdivision retains control over the premises or the activity. A fee shall not include payment of a fee or charge for parking or vehicle entry.

(c) This subdivision, and not subdivision (3) of this section, shall apply to any claim arising from the inspection or failure to make an inspection or negligent inspection of premises owned or leased by the political subdivision and used for recreational activities.

4. Miscellaneous

1. Discretionary function

Once a city elects to install a pedestrian crosswalk signal, it is required to conform to the Manual on Uniform Traffic Control Devices in determining the pedestrian clearance interval, and the discretionary immunity exception of this section does not apply. Tadros v. City of Omaha, 269 Neb. 528, 694 N.W.2d 180 (2005).

The placement of traffic control devices is a discretionary function of a political subdivision under subsection (2) of this section. McCormick v. City of Norfolk, 263 Neb. 693, 641 N.W.2d 638 (2002).

The discretionary function exemption provided for in subsection (2) of this section extends only to basic policy decisions made in governmental activity, and not to ministerial activities implementing such policy decisions. Norman v. Ogallala Pub. Sch. Dist., 259 Neb. 184, 609 N.W.2d 338 (2000).

The discretionary function exception is expressed in nearly identical language in the State Tort Claims Act and the Political Subdivisions Tort Claims Act; thus, cases construing the state exception apply as well to the exception granted to political subdivisions. The discretionary function exceptions to the general waiver of tort immunity are matters of defense which must be pled and proved by a political subdivision. Lawry v. County of Sarpy, 254 Neb. 193, 575 N.W.2d 605 (1998).

Pursuant to subsection (2) of this section, the discretionary function exemption applies only to basic policy decisions and not to the exercise of discretionary acts at an operational level. A county attorney's actions in collecting unpaid child support are operational in nature rather than a basic policy decision. Talbot v. Douglas County, 249 Neb. 620, 544 N.W.2d 839 (1996).

Under the provisions of subsection (2) of this section, the performance or nonperformance of a discretionary function cannot be the basis of liability. Whether the undisputed facts demonstrate that liability is precluded by the discretionary function exemption is a question of law. As the discretionary function exemption is expressed in nearly identical language in section 81-8,219(1)(a) of the State Tort Claims Act and subsection (2) of this section of the Political Subdivisions Tort Claims Act, cases construing the state exemption apply as well to the exemption given political subdivisions. The county health department's reporting and investigating a reported case of bacterial meningitis fall within the discretionary function precluding liability under the Political Subdivisions Tort Claims Act. Jasa v. Douglas County, 244 Neb. 944, 510 N.W.2d 281 (1994).

Pursuant to subsection (2) of this section, whether undisputed facts demonstrate that liability is precluded by the discretionary function exemption of the Political Subdivisions Tort Claims Act

is a question of law. Lemke v. Metropolitan Utilities Dist., 243 Neb. 633, 502 N.W.2d 80 (1993).

The discretionary function or duty exemption in the Political Subdivisions Tort Claims Act extends only to the basic policy decisions made in governmental activity, and not to ministerial activities implementing such policy decisions. In other words, the political subdivision is liable for the negligence of its employees at the operational level, where there is no room for policy judgment. Hamilton v. City of Omaha, 243 Neb. 253, 498 N.W.2d 555 (1993).

Where a county legislative body delegates duties to a county official, and gives that official discretion in performing those duties within broad overall guidelines, actions of that county official in issuing permits are discretionary functions within the meaning of subsection (2) of this section. Allen v. County of Lancaster, 218 Neb. 163, 352 N.W.2d 883 (1984).

Decisions on selection of a foster home for a dependent child are not policy decisions or discretionary functions contemplated as exceptions within this section of the Political Subdivisions Tort Claims Act. Koepf v. County of York, 198 Neb. 67, 251 N.W.2d 866 (1977).

The decision by a government employee as to the manner of operation of a snowblower is the type of discretion exercised at an everyday operational level such that the discretionary function exemption does not apply. Conditions caused by the operation of a snowblower were the underlying cause of the accident, separate and independent from the wind and snow in the area at the time of the accident, and the operation of the snowblower was a proximate cause of the accident and injuries. Thus, the State was not immune from suit under subsection (10) of this section. Stinson v. City of Lincoln, 9 Neb. App. 642, 617 N.W.2d 456 (2000).

The performance or nonperformance of a discretionary function cannot be the basis of liability under the Political Subdivisions Tort Claims Act. The discretionary function exemption under the Political Subdivisions Tort Claims Act extends only to basic policy decisions and not to the exercise of discretionary acts at an operational level. A simple decision whether to dispatch an officer to the scene of a crime or to investigate a crime, without more, does not involve a basic policy decision by a high-level executive which would render the decisionmaker immune from suit. Whether the undisputed facts demonstrate that liability is precluded by the discretionary function exemption of the Political Subdivisions Tort Claims Act is a question of law. Stinson v. City of Lincoln, 9 Neb. App. 642, 617 N.W.2d 456 (2000).

2. Due care

A police officer's failure to ''safely'' keep a seized vehicle can give rise to liability under the Political Subdivisions Tort Claims Act. Section 29-818 requires a police officer to exercise reasonable care and diligence for the safekeeping of property within his custody. Nash v. City of North Platte, 205 Neb. 480, 288 N.W.2d 51 (1980).

3. Governmental immunity

The exceptions set forth in this section are affirmative sovereign immunity defenses to claims brought pursuant to the Political Subdivisions Tort Claims Act. If a political subdivision proves that a plaintiff's claim comes within an exception pursuant to this section, then the claim fails based on sovereign immunity, and the political subdivision is not liable. Harris v. Omaha Housing Auth., 269 Neb. 981, 698 N.W.2d 58 (2005).

The common law rule of governmental immunity has not been completely abrogated in Nebraska, and an action for damages for misrepresentation and deceit is not permitted. Hall v. Abel Inv. Co., 192 Neb. 256, 219 N.W.2d 760 (1974).

The common law rule of governmental immunity has not been completely abrogated in this state and actions at law for false arrest, false imprisonment, and libel and slander remain subject thereto. Webber v. Andersen, 187 Neb. 9, 187 N.W.2d 290 (1971).

4. Miscellaneous

Acts undertaken to assist in the assessment and collection of taxes are immune from liability under subsection (5) of this section. Butler Cty. Sch. Dist. No. 502 v. Meysenburg, 268 Neb. 347, 683 N.W.2d 367 (2004).

The question whether a city is immune from liability depends upon whether the city had reasonable notice of any hazard or whether its failure to inspect or its negligent inspection constituted a reckless disregard for public health or safety. Mondelli v. Kendel Homes Corp., 262 Neb. 263, 631 N.W.2d 846 (2001).

Pursuant to subsection (10) of this section, the snow and ice exemption is not applicable to a plaintiff injured after slipping on snow when the petition alleged negligence in a college's failure to maintain safe ingress and egress to, from, and across property and a failure to monitor and remove hazardously parked vehicles. McDonald v. DeCamp Legal Servs., P.C., 260 Neb. 729, 619 N.W.2d 583 (2000).

Subsection (10) of this section does not exempt a claim arising out of events occurring under darkness because mere darkness is not a temporary condition due to weather. Drake v. Drake, 260 Neb. 530, 618 N.W.2d 650 (2000).

The Political Subdivisions Tort Claims Act eliminates the need for the doctrine by which a claimant is required to prove that the negligent act was committed by the municipal employee in furtherance of a private duty owed to the claimant. Maple v. City of Omaha, 222 Neb. 293, 384 N.W.2d 254 (1986).

When a governmental entity has actual or constructive notice of a dangerous condition or hazard caused by or under the control of the governmental entity and the dangerous condition or hazard is not readily apparent to persons who are likely to be injured by the dangerous condition or hazard, the governmental entity has a nondiscretionary duty to warn of the danger or take other protective measures that may prevent injury as the result of the dangerous condition or hazard. Stinson v. City of Lincoln, 9 Neb. App. 642, 617 N.W.2d 456 (2000).

13-911 Vehicular pursuit by law enforcement officer; liability to third parties; reimbursement.

(1) In case of death, injury, or property damage to any innocent third party proximately caused by the action of a law enforcement officer employed by a political subdivision during vehicular pursuit, damages shall be paid to such third party by the political subdivision employing the officer.

(2) Upon payment by a political subdivision of those damages sustained by an innocent third party, whether upon voluntary settlement or in satisfaction of a judgment, the political subdivision shall be entitled to reimbursement of the amount of damages paid by the political subdivision from each and all of the following sources:

(a) The driver of the fleeing vehicle;

(b) Any organization, including a sole proprietorship, partnership, limited liability company, or corporation, liable for the conduct of the driver of the fleeing vehicle;

(c) Every insurer or self-insurance surety of either the driver of the fleeing vehicle or any organization, including a sole proprietorship, partnership, limited liability company, or corporation, liable for the conduct of the driver of the fleeing vehicle, except that no such insurer or self-insurance surety shall be required to pay in excess of the liability limit of its applicable policies or bonds;

(d) Any uninsured or underinsured motorist insurer or self-insurance surety legally liable to the innocent third party, except that the sum recoverable from such insurer or self-insurance surety shall not exceed the highest limit of liability determined in accord with the Uninsured and Underinsured Motorist Insurance Coverage Act;

(e) The state employing law enforcement officers whose actions contributed to the proximate cause of death, injury, or property damage sustained by the innocent third party, except that the liability of the state shall not exceed the damages sustained by the innocent third party apportioned equally among all political subdivisions employing law enforcement officers whose actions contributed to the proximate cause of the death, injury, or property damage sustained by the innocent third party and the state; and

(f) Any political subdivision employing law enforcement officers whose actions contributed to the proximate cause of death, injury, or property damage sustained by the innocent third party, except that the liability of the political subdivision shall not exceed the lesser of (i) its maximum statutory liability pursuant to the Political Subdivisions Tort Claims Act or (ii) damages sustained by the innocent third party apportioned equally among all political subdivisions and the state employing law enforcement officers whose actions contributed to the proximate cause of the death, injury, or property damage sustained by the innocent third party.

(3) This section shall not relieve any public or private source required statutorily or contractually to pay benefits for disability or loss of earned income or medical expenses of the duty to pay such benefits when due. No such source of payment shall have any right of subrogation or contribution against the political subdivision.

(4) This section shall be considered part of the Political Subdivisions Tort Claims Act and all provisions of the act apply.

(5) For purposes of this section, vehicular pursuit means an active attempt by a law enforcement officer operating a motor vehicle to apprehend one or more occupants of another motor vehicle, when the driver of the fleeing vehicle is or should be aware of such attempt and is resisting apprehension by maintaining or increasing his or her speed, ignoring the officer, or attempting to elude the officer while driving at speeds in excess of those reasonable and proper under the conditions.

This section has created strict liability on the part of a political subdivision when (1) a claimant suffers death, injury, or property damage; (2) such death, injury, or property damage is proximately caused by the actions of a pursuing law enforcement officer employed by the political subdivision; and (3) the claimant is an innocent third party. In order for a city to be liable for injuries under this section, the first requirement is that the act of the police in pursuing a fleeing motorist must be such that without it the injury would not have occurred, commonly known as the ''but for'' rule, and the second requirement is that the injury must be the natural and probable result of that act and without an efficient intervening cause. Mid Century Ins. Co. v. City of Omaha, 242 Neb. 126, 494 N.W.2d 320 (1992).

13-912 Defective bridge or highway; damages; liability; limitation.

If any person suffers personal injury or loss of life, or damage to his or her property by means of insufficiency or want of repair of a highway or bridge or other public thoroughfare, which a political subdivision is liable to keep in repair, the person sustaining the loss or damage, or his or her personal representative, may recover in an action against the political subdivision, and if damages accrue in consequence of the insufficiency or want of repair of a road or bridge or other public thoroughfare, erected and maintained by two or more political subdivisions, the action can be brought against all of the political subdivisions liable for the repairs of the same; and damages and costs shall be paid by the political subdivisions in proportion as they are liable for the repairs. The procedure for filing such claims and bringing suit shall be the same for claims under this section as for other claims under the Political Subdivisions Tort Claims Act and sections 16-727, 16-728, 23-175, 39-809, and 79-610. No political subdivision shall be liable for damages occasioned by defects in state highways and bridges thereon which the Department of Roads is required to maintain, but the political subdivision shall not be relieved of liability until the state has actually undertaken construction or maintenance of such highways. It is the intent of the Legislature that minimum maintenance highways and roads shall not be deemed to be insufficient or in want of repair when they meet the minimum standards for such highways and roads pursuant to section 39-2109.

2. Duty

3. Liability

13-913 Defective bridge or highway; legislative intent.

In enacting section 13-912, it is the intent of the Legislature that the liability of all political subdivisions based on the alleged insufficiency or want of repair of any highway or bridge or other public thoroughfare shall be the same liability that previously has been imposed upon counties pursuant to section 13-912. The Legislature further declares that judicial interpretations of section 13-912 governing the liability of counties on January 1, 1970, also shall be controlling on the liability of all political subdivisions for the alleged insufficiency or want of repair of any highway or bridge or other public thoroughfare. Notwithstanding other provisions of the Political Subdivisions Tort Claims Act and sections 16-727, 16-728, 23-175, 39-809, and 79-610, sections 13-912 to 13-914 shall be the only sections governing determination of liability of political subdivisions for the alleged insufficiency or want of repair of highways, or bridges or other public thoroughfares. As used in sections 13-912 and 13-913, public thoroughfares shall include all streets, alleys, and roads designed,

intended, and primarily used for the movement of vehicular traffic and dedicated to public use.

County held liable for damages caused by insufficient bridge railing. Millman v. County of Butler, 244 Neb. 125, 504 N.W.2d 820 (1993).

Even assuming the city had a general duty to use ordinary care in treating its streets for icy conditions, dismissal of the plaintiff's petition was affirmed where the evidence of the city's negligence was insufficient. Hendrickson v. City of Kearney, 210 Neb. 8, 312 N.W.2d 677 (1981).

The duty to use reasonable and ordinary care in the construction, maintenance, and repair of highways and bridges so that they will be reasonably safe for the traveler using them while in the exercise of reasonable and ordinary prudence has now been imposed under both the State Tort Claims Act and the Political Subdivisions Tort Claims Act. Hendrickson v. City of Kearney, 210 Neb. 8, 312 N.W.2d 677 (1981).

The liability of all political subdivisions based on the alleged insufficiency or want of repair of any public thoroughfare is to be determined by the provisions of sections 23-2410 and 23-2411, R.R.S.1943, and judicial interpretations governing the liability of counties under the statute in effect prior to the enactment of the Political Subdivisions Tort Claims Act. Christensen v. City of Tekamah, 201 Neb. 344, 268 N.W.2d 93 (1978).

13-914 Defective bridge or highway; compliance with standards; effect.

For purposes of sections 13-912 and 13-913, no minimum maintenance road or highway shall be deemed to be in want of repair or insufficient if it complies with the standards and level of minimum maintenance developed pursuant to section 39-2113.

13-915 Suit for alleged defect in construction or maintenance; defense.

In any suit brought pursuant to the Political Subdivisions Tort Claims Act and sections 16-727, 16-728, 23-175, 39-809, and 79-610 and based upon an alleged defect in the construction or maintenance of a sidewalk, public building, or other public facility, an affirmative showing that the claimant had actual knowledge of the alleged defect at the time of the occurrence of the injury, and that an alternate safe route was available and known to the claimant, shall constitute a defense to the suit.

This section provides an affirmative defense to defendant and must be both pled and proved by defendant. Hill v. City of Lincoln, 249 Neb. 88, 541 N.W.2d 655 (1996).

Defendant village is not liable for injuries suffered by plaintiff when she tripped and fell on a slight irregularity in the sidewalk, where there was no evidence that the village had received any complaint or notice of the condition of the sidewalk, and where the defect was clearly visible to the plaintiff. Doht v. Village of Walthill, 207 Neb. 377, 299 N.W.2d 177 (1980).

13-916 Liability insurance; effect.

The governing body of any political subdivision, including any school district, educational service unit, or community college, may purchase a policy of liability insurance insuring against all or any part of the liability which might be incurred under the Political Subdivisions Tort Claims Act and also may purchase insurance covering those claims specifically excepted from the coverage of the act by section 13-910. Any independent or autonomous board or commission in the political subdivision having authority to disburse funds for a particular purpose of the subdivision without approval of the governing body also may procure liability insurance within the field of its operation. The procurement of insurance shall constitute a waiver of the defense of governmental immunity as to those exceptions listed in section 13-910 to the extent and only to the extent stated in such policy. The existence or lack of insurance shall not be material in the trial of any suit except to the extent necessary to

establish any such waiver. Whenever a claim or suit against a political subdivision is covered by liability insurance or by group self-insurance provided by a risk management pool, the provisions of the insurance policy on defense and settlement or the provisions of the agreement forming the risk management pool and related documents providing for defense and settlement of claims covered under such group self-insurance shall be applicable notwithstanding any inconsistent provisions of the act.

13-917 Award; acceptance; effect.

Any award made pursuant to the authority granted by section 13-904 and accepted by the claimant and any final judgment in any suit brought pursuant to the Political Subdivisions Tort Claims Act and sections 16-727, 16-728, 23-175, 39-809, and 79-610 shall be final and conclusive on all officers of the political subdivision, except when procured by means of fraud. The acceptance by the claimant of such award shall be final and conclusive on the claimant and shall constitute a complete release by the claimant of any claim against the political subdivision and against the employee whose act or omission gave rise to the claim, by reason of the same subject matter.

13-918 Awards; judgments; payment.

Any awards or judgments pursuant to the Political Subdivisions Tort Claims Act and sections 16-727, 16-728, 23-175, 39-809, and 79-610 shall be paid in the same manner as other claims against the political subdivision. If insufficient funds are available to pay such awards or judgments the governing body shall include sufficient funds in the budget for the next fiscal year or biennial period. If constitutional or statutory provisions prevent any political subdivision from budgeting sufficient funds to pay any judgment in its entirety, the governing body shall pay that portion that can be paid under the constitution and laws and then shall make application to the State Treasurer for the loan of sufficient funds to pay the judgment in full. When application is made for such a loan, the State Treasurer shall make such investigation as he or she deems necessary to determine the validity of the judgment and the inability of the political subdivision to make full payment on the judgment, and the period of time during which the political subdivision will be able to repay the loan. After determining that such loan will be proper, the State Treasurer shall make the loan from funds available for investment in the state treasury, which loan shall carry an interest rate of one-half of one percent per annum. The State Treasurer shall determine the schedule for repayment, and the governing body of the political subdivision shall annually budget and levy a sufficient amount to meet this schedule until the loan, with interest, has been repaid in full.

13-919 Claims; limitation of action.

(1) Every claim against a political subdivision permitted under the Political Subdivisions Tort Claims Act shall be forever barred unless within one year after such claim accrued the claim is made in writing to the governing body. Except as otherwise provided in this section, all suits permitted by the act shall be forever barred unless begun within two years after such claim accrued. The time to begin a suit shall be extended for a period of six months from the date of mailing of notice to the claimant by the governing body as to the final disposition of the claim or from the date of withdrawal of the claim from the governing body under section 13-906 if the time to begin suit would otherwise expire before the end of such period.

(2) If a claim is made or filed under any other law of this state and a determination is made by a political subdivision or court that the act provides the exclusive remedy for the claim, the time to make a claim and to begin suit under the act shall be extended for a period of six months from the date of the court order making such determination or the date of mailing of notice to the claimant of such determination by the political subdivision if the time to make the claim and to begin suit under the act would otherwise expire before the end of such period. The time to begin suit may be further extended as provided in subsection (1) of this section.

(3) If a claim is made or a suit is begun under the act and a determination is made by the political subdivision or by the court that the claim or suit is not permitted under the act for any other reason than lapse of time, the time to make a claim or to begin a suit under any other applicable law of this state shall be extended for a period of six months from the date of the court order making such determination or the date of mailing of notice to the claimant of such determination by the political subdivision if the time to make the claim or begin the suit under such other law would otherwise expire before the end of such period.

(4) If a claim is brought under the Nebraska Hospital-Medical Liability Act, the filing of a request for review under section 44-2840 shall extend the time to begin suit under the Political Subdivisions Tort Claims Act an additional ninety days following the issuance of the opinion by the medical review panel if the time to begin suit under the Political Subdivisions Tort Claims Act would otherwise expire before the end of such ninety-day period.

(5) This section and section 25-213 shall be the only statutes of limitations applicable to tort claims as defined in the act.

1. Statute of limitations

Pursuant to subsection (1) of this section, the filing of a workers' compensation claim does not toll the limitation period set forth in this subsection. For purposes of subsection (1) of this section, a cause of action accrues, thereby starting the period of limitations, when a potential plaintiff discovers, or in the exercise of reasonable diligence should discover, the political subdi-

vision's negligence. Polinski v. Omaha Pub. Power Dist., 251 Neb. 14, 554 N.W.2d 636 (1996).

Under subsection (1) of this section, the filing or presentment provision bars a plaintiff's action and precludes a remedy only if the claim is not filed or presented within the statutorily specified time. Millman v. County of Butler, 235 Neb. 915, 458 N.W.2d 207 (1990).

Subject to the exception described in section 25-213, the statute of limitations on filing a claim or suit for a political subdivision's tortious conduct is exclusively prescribed by this section. Chicago Lumber Co. v. School Dist. No. 71, 227 Neb. 355, 417 N.W.2d 757 (1988).

2. Cause of action

For the purposes of subsection (1) of this section, a cause of action accrues, and the period of limitations begins to run, when a potential plaintiff discovers, or in the exercise of reasonable diligence should discover, the political subdivision's negligent act or omission. Hutmacher v. City of Mead, 230 Neb. 78, 430 N.W.2d 276 (1988).

A cause of action accrues and the statute of limitations begins to run when the aggrieved party has the right to institute and maintain suit, even though such plaintiff may be ignorant of the existence of the cause of action. Ward v. City of Alliance, 227 Neb. 306, 417 N.W.2d 327 (1988).

3. Notice

The primary purpose of notice provisions in connection with actions against political subdivisions is to afford municipal authorities prompt notice of the accident and injury in order that an investigation may be made while the occurrence is still fresh and the municipal authorities are in a position to intelligently consider the claim and to allow it if deemed just or, in the alternative, to adequately protect and defend the public interest. Keller v. Tavarone, 265 Neb. 236, 655 N.W.2d 899 (2003).

The notice of claim requirements of the Nebraska Political Subdivisions Tort Claims Act is a condition precedent to the institution of suit against a political subdivision. The failure to allege in the petition that the condition precedent had been met is a fatal defect. Utsumi v. City of Grand Island, 221 Neb. 783, 381 N.W.2d 102 (1986).

4. Miscellaneous

The evident purpose of the 6-month extension of the filing deadline set forth in subsection (2) of this section is to provide claimants who filed timely claims, but filed those claims with the wrong tribunal or pursuant to the wrong statute, enough time to present their claims to the proper political subdivision. This requires, however, that those claimants still act promptly in order to satisfy the public purpose reflected in the notice requirements. A claim ''made or filed under any other law of this state,'' within the meaning of subsection (2) of this section, must still be filed within the 1-year time limit imposed by the appropriate notice provision of either subsection (1) of this section or subsection (1) of section 13-920. Keller v. Tavarone, 265 Neb. 236, 655 N.W.2d 899 (2003).

The operation of the Nebraska Hospital-Medical Liability Act, section 44-2840, does not excuse a plaintiff from compliance with the requirement under the Political Subdivisions Tort Claims Act that the claim be presented to the political subdivision prior to filing suit. Keller v. Tavarone, 262 Neb. 2, 628 N.W.2d 222 (2001).

In order for the extended period of limitations section of the Political Subdivisions Tort Claims Act to apply, one of two positive acts must occur: the governmental subdivision must act on the claim, or the claimant must withdraw the claim. Absent the occurrence of either one of those affirmative steps, the statute of limitations runs at the end of two years from and after the time the claim accrued, and the action is barred. Ragland v. Norris P.P. Dist., 208 Neb. 492, 304 N.W.2d 55 (1981).

Political Subdivisions Tort Claims Act including one-year notice of claim requirements and two-year limitation for bringing action held constitutional. Campbell v. City of Lincoln, 195 Neb. 703, 240 N.W.2d 339 (1976).

A negligence lawsuit brought against an employee of a political subdivision is not a ''tort claim'' against a ''political subdivision'' and is not controlled by the 2-year provision of subsection (1) of this section as applied via subsection (5). Gatewood v. Powell, 1 Neb. App. 749, 511 N.W.2d 159 (1993).

Claim for indemnification and contribution from political subdivision of state does not have to be filed pursuant to the Nebraska Political Subdivisions Tort Claims Act, and its one-year statute of limitations does not apply. Waldinger Co. v. P & Z Co., Inc., 414 F.Supp. 59 (D. Neb. 1976).

13-920 Suit against employee; act occurring after May 13, 1987; limitation of action.

(1) No suit shall be commenced against any employee of a political subdivision for money on account of damage to or loss of property or personal injury to or the death of any person caused by any negligent or wrongful act or omission of the employee while acting in the scope of his or her office or employment occurring after May 13, 1987, unless a claim has been submitted in writing to the governing body of the political subdivision within one year after such claim accrued in accordance with section 13-905.

(2) No suit shall be permitted on a claim filed pursuant to this section unless the governing body of the political subdivision has made final disposition of the claim, except that if the governing body does not make final disposition of the claim within six months after the claim is filed, the claimant may, by notice in writing, withdraw the claim from consideration of the governing body and begin suit.

(3) Except as provided in section 13-919, any suit commenced on any claim filed pursuant to this section shall be forever barred unless begun within two years after the claim accrued. The time to begin suit under this section shall be extended for a period of six months (a) from the date of mailing of notice to the claimant by the governing body as to the final disposition of the claim or (b)

from the date of withdrawal of the claim from the governing body under this section, if the time to begin suit would otherwise expire before the end of such period.

The evident purpose of the 6-month extension of the filing deadline set forth in subsection (2) of section 13-919 is to provide claimants who filed timely claims, but filed those claims with the wrong tribunal or pursuant to the wrong statute, enough time to present their claims to the proper political subdivision. This requires, however, that those claimants still act promptly in order to satisfy the public purpose reflected in the notice requirements. A claim ''made or filed under any other law of this state,'' within the meaning of subsection (2) of section 13-919, must still be filed within the 1-year time limit imposed by the appropriate notice provision of either subsection (1) of section 13-919 or subsection (1) of this section. Keller v. Tavarone, 265 Neb. 236, 655 N.W.2d 899 (2003).

The primary purpose of notice provisions in connection with actions against political subdivisions is to afford municipal authorities prompt notice of the accident and injury in order that an investigation may be made while the occurrence is still fresh and the municipal authorities are in a position to intelligently consider the claim and to allow it if deemed just or, in the alternative, to adequately protect and defend the public interest. Keller v. Tavarone, 265 Neb. 236, 655 N.W.2d 899 (2003).

The filing of a notice of claim under the Political Subdivisions Tort Claims Act is a condition precedent to the institution of a suit to which the act applies. The partial payment of an insurance claim by a political subdivision's insurer standing alone is insufficient to create a question of fact precluding summary judgment as to whether the political subdivision is equitably estopped to assert the 1-year filing requirement. Keene v. Teten, 8 Neb. App. 819, 602 N.W.2d 29 (1999).

Written notice of the withdrawal of a claim from the consideration of the governing body is not mandatory, but is permissive or discretionary. Notice of withdrawal of a claim is not a requirement for commencing suit and applies only if the plaintiff wishes to extend the time period for filing suit under section 13-919(1). Keating v. Wiese, 1 Neb. App. 865, 510 N.W.2d 433 (1993).

13-921 Suit against employee; act or omission occurring prior to May 13, 1987; limitation of action.

After January 1, 1988, all suits against any employee of a political subdivision for money on account of damage to or loss of property or personal injury to or the death of any person caused by any negligent or wrongful act or omission of the employee while acting within the scope of his or her office or employment and occurring prior to May 13, 1987, shall be forever barred unless the party seeking recovery had, within one year after such claim accrued, submitted a claim in writing to the governing body of the political subdivision in accordance with section 13-905.

A negligence cause of action arising from acts of an employee of a political subdivision which occurred prior to May 13, 1987, is controlled by this section, for which no explicit statute of limitations is provided. Gatewood v. Powell, 1 Neb. App. 749, 511 N.W.2d 159 (1993).

13-922 Suit against employee; recovery; limitation.

The total amount recoverable against any employee for claims filed pursuant to section 13-920 or 13-921 arising out of an occurrence after May 13, 1987, shall be limited to: (1) One million dollars for any person for any number of claims arising out of a single occurrence; and (2) five million dollars for all claims arising out of a single occurrence.

13-923 Remedies; exclusive.

From and after January 1, 1970, the authority of any political subdivision to sue or be sued in its own name shall not be construed to authorize suits against such political subdivision on tort claims except as authorized in the Political Subdivisions Tort Claims Act and sections 16-727, 16-728, 23-175, 39-809, and 79-610. 13-924 Act; applicability.

Nothing contained in the Political Subdivisions Tort Claims Act and sections 16-727, 16-728, 23-175, 39-809, and 79-610 shall be deemed to repeal or restrict any provision of law authorizing any political subdivision to consider, ascertain, adjust, compromise, settle, determine, allow, or pay any claim other than a tort claim as defined in such act and sections.

13-926 Recovery under act; limitation; additional sources for recovery.

The total amount recoverable under the Political Subdivisions Tort Claims Act for claims arising out of an occurrence after November 16, 1985, shall be limited to:

(1) One million dollars for any person for any number of claims arising out of a single occurrence; and

(2) Five million dollars for all claims arising out of a single occurrence.

If the damages sustained by an innocent third party pursuant to section 13-911 are not fully recoverable from one or more political subdivisions due to the limitations in this section, additional sources for recovery shall be as follows: First, any offsetting payments specified in subsection (3) of section 13-911 shall be reduced to the extent necessary to fully compensate the innocent third party; and second, if such reduction is insufficient to fully compensate the innocent third party, the right of reimbursement granted to the political subdivision in subsection (2) of section 13-911 shall be reduced to the extent necessary to fully compensate the innocent third party.

The fact that an insurer provided liability insurance coverage for that portion of a county's potential liability for a single occurrence which exceeded its legal liability to a single claimant cannot be viewed as creating any rights on the part of injured persons to recover more from the insurer than its insured was legally obligated to pay. Industrial Development Act of 1961 was in major part sustained as constitutional. State ex rel. Meyer v. County of Lancaster, 173 Neb. 195, 113 N.W.2d 63 (1962).

13-1102 Governing body; powers.

In addition to any other powers which it may now have, each municipality and each county shall have without any other authority the following powers:

The power to finance such projects in blighted areas shall mean and include the power to enter into any type of agreement, including a loan agreement, when the other party to the agreement agrees (a) to use the proceeds of money provided under the agreement to pay the costs of such acquisition, construction, rehabilitation, or purchase and any costs incident to the issuance of the related bonds and the funding of any reserve funds, (b) to be bound by the terms of the Age Discrimination in Employment Act, the Nebraska Fair Employment Practice Act, and sections 48-1219 to 48-1227, regardless of the number of employees, and (c) to make payments to the municipality or county sufficient to enable it to pay on a timely basis all principal, redemption premiums, and interest on the related revenue bonds issued to provide such financing, and any amounts necessary to repay such municipality or county for any and all costs incurred by it that are incidental to such financing. 13-1103 Bonds; restrictions; issuance; sale.

(1) All bonds issued by a municipality or county under the authority of sections 13-1101 to 13-1110 shall be limited obligations of the municipality or county. Bonds and interest coupons, issued under the authority of sections 13-1101 to 13-1110, shall not constitute nor give rise to a pecuniary liability of the municipality or county or a charge against its general credit or taxing powers. Such limitation shall be plainly stated upon the face of each of such bonds.

(2) Such bonds may (a) be executed and delivered at any time and from time to time, (b) be in such form and denominations, (c) be of such tenor, (d) be in registered or bearer form either as to principal or interest or both, (e) be payable in such installments and at such time or times not exceeding thirty years from their date, (f) be payable at such place or places, (g) bear interest at such rate or rates, payable at such place or places, and evidenced in such manner, (h) be redeemable prior to maturity, with or without premium, and (i) contain such provisions not inconsistent with sections 13-1101 to 13-1110, as shall be deemed for the best interest of the municipality or county and provided for in the proceedings of the governing body under which the bonds shall be authorized to be issued.

The municipality or county may pay all expenses, premiums, and commissions which the governing body may deem necessary or advantageous in connection with the authorization, sale, and issuance thereof from the proceeds of the sale of the bonds or from the revenue of the projects.

(5) Such bonds and all interest coupons applicable thereto shall be construed to be negotiable instruments, despite the fact that they are payable solely from a specified source.

(2) The proceedings, under which the bonds are authorized to be issued under the provisions of sections 13-1101 to 13-1110, and any mortgage given to secure the same may contain any agreements and provisions customarily contained in instruments securing bonds, including, without limiting the generality of the foregoing, provisions respecting (a) the fixing and collection of rents for any project covered by such proceedings or mortgage, (b) the terms to be incorporated in the lease or financing of such project, (c) the maintenance and insurance of such project, (d) the creation and maintenance of special funds from the revenue of such project, and (e) the rights and remedies available in the event of a default to the bondholders or to the trustee under a mortgage, all as the governing body shall deem advisable and as shall not be in conflict with the provisions of sections 13-1101 to 13-1110; *Provided*, that in making any such agreements or provisions a municipality or county shall not have the power to obligate itself except with respect to the project and the application of the revenue therefrom, and shall not have the power to incur a pecuniary liability or a charge upon its general credit or against its taxing powers.

(3) The proceedings authorizing any bonds under the provisions of sections 13-1101 to 13-1110 and any mortgage securing such bonds may provide that, in the event of a default in the payment of the principal of or the interest on such bonds or in the performance of any agreement contained in such proceedings or mortgage, such payment and performance may be enforced by mandamus or by the appointment of a receiver in equity with power to charge and collect rents and to apply the revenue from the project in accordance with such proceedings or the provisions of such mortgage.

(4) Any mortgage, made under the provisions of sections 13-1101 to 13-1110, to secure bonds issued thereunder, may also provide that, in the event of a default in the payment thereof or the violation of any agreement contained in the mortgage, the mortgage may be foreclosed and sold under proceedings in equity or in any other manner now or hereafter permitted by law. Such mortgage may also provide that any trustee under such mortgage or the holder of any of the bonds secured thereby may become the purchaser at any foreclosure sale if the highest bidder therefor. 13-1105 Leasing or financing of project; governing body; powers and duties; hearing.

(1) Prior to the leasing or financing of any project, the governing body must determine and find the following: The amount necessary to pay the principal of and the interest on the bonds proposed to be issued to finance such project; the amount necessary to be paid into any reserve funds which the governing body may deem it advisable to establish in connection with the retirement of the proposed bonds and the maintenance of the project including taxes; and, with respect to leases, unless the terms under which the project is to be leased provide that the lessee shall maintain the project and carry all proper insurance with respect thereto, the estimated cost of maintaining the project in good repair and keeping it properly insured.

(2) The determinations and findings of the governing body, required to be made by subsection (1) of this section, shall be set forth in the proceedings under which the proposed bonds are to be issued. Prior to the issuance of the bonds authorized by sections 13-1101 to 13-1110, the municipality or county shall (a) lease the project to a lessee or lessees under an agreement conditioned upon completion of the project and providing for payment to the municipality or county of such rentals as, upon the basis of such determinations and findings, will be sufficient (i) to pay the principal of and interest on the bonds issued to finance the project, (ii) to pay the taxes on the project, (iii) to build up and maintain any reserves deemed by the governing body to be advisable in connection therewith, and (iv) unless the agreement of lease obligates the lessees to pay for the maintenance and insurance of the project, to pay the costs of maintaining the project in good repair and keeping it properly insured or (b) enter into a financing agreement pursuant to subdivision (3) of section 13-1102. Subject to the limitations of sections 13-1101 to 13-1110, the lease or extensions or modifications thereof may contain such other terms and conditions as may be mutually acceptable to the parties, and notwithstanding any other provisions of law relating to the sale of property owned by municipalities and counties, such lease may contain an option for the lessees to purchase the project on such terms and conditions as may be mutually acceptable to the parties.

(3) At a public hearing or at the adjournment of such hearing, the governing body of the city in which the proposed project is located shall determine whether the location of the proposed project is within a blighted area and whether the proposed project is within the development plan or plans for the area. Notice of the time and place of the hearing shall be published at least two times not less than seven days prior to the hearing in a legal newspaper having a general circulation within the boundaries of the city. Upon a favorable resolution by the governing body of the city where the proposed project is located, the governing body of the city or county may proceed to issue bonds.

13-1106 Refunding bonds; issuance; amount; rights of holders.

Any bonds issued under the provisions of sections 13-1101 to 13-1110 and at any time outstanding may at any time and from time to time be refunded by a municipality or county by the issuance of its refunding bonds in such amount as the governing body may deem necessary but not exceeding an amount sufficient

to refund the principal of the bonds to be so refunded, together with any unpaid interest thereon and any premiums and commission necessary to be paid in connection therewith. Any such refunding may be effected whether the bonds to be refunded shall have then matured or shall thereafter mature, either by sale of the refunding bonds and the application of the proceeds thereof for the payment of the bonds to be refunded thereby, or by exchange of the refunding bonds for the bonds to be refunded thereby; *Provided*, that the holders of any bonds to be so refunded shall not be compelled without their consent to surrender their bonds for payment or exchange prior to the date on which they are payable by maturity date, option to redeem, or otherwise or, if they are called for redemption, prior to the date on which they are by their terms subject to redemption by option or otherwise. 13-1107 Bonds; proceeds from sale; disposition.

The proceeds from the sale of any bonds issued under authority of sections 13-1101 to 13-1110 shall be applied only for the purpose for which the bonds were issued; *Provided*, that any accrued interest and premium received in any such sale shall be applied to the payment of the principal of or the interest on the bonds sold; *and provided further*, that if for any reason any portion of such proceeds shall not be needed for the purpose for which the bonds were issued, then such unneeded portion of said proceeds shall be applied to the payment of the principal of or the interest on said bonds. The cost of acquiring or improving any project shall be deemed to include the following: The actual cost of acquiring or improving real estate for any project; the actual cost of construction of all or any part of a project which may be constructed, including architects' and engineers' fees, all expenses in connection with the authorization, sale and issuance of the bonds to finance such acquisition or improvement; and the interest on such bonds for a reasonable time prior to construction, during construction, and for not exceeding six months after completion of construction.

13-1118 Change of boundaries; inclusion of tracts.

The boundaries of the designated industrial area may be changed to include other tracts of real estate containing not less than ten acres when contiguous to the area designated as an industrial area by filing a petition, publishing a notice thereof, and having a hearing on the petition in the same manner as when an original petition to designate a contiguous tract as an industrial area is filed. The county board of the county in which the petition was filed shall designate such additional tract in the industrial area to which the tract is to be attached if the board shall find that the conditions of the provisions of section 13-1114 are complied with. After such designation by such county board, such tract that is designated as part of the industrial area shall be governed by the provisions of sections 13-1111 to 13-1120 as though it was part of the original designated tract as an industrial area.

13-1119 Change of boundaries; exclusion of tracts.

The boundaries of a designated industrial area may be changed to exclude one or more tracts, or parts of tracts, of real estate within the area upon the request of the owner or owners of the tracts, or parts of tracts, proposed to be excluded, and by the owners filing a petition, publishing a notice thereof, and having a hearing on the petition in the same manner as when an original petition to designate a contiguous tract as an industrial area is filed. The county clerk of the county in which the tract proposed to be excluded is situated shall cause a copy of the published notice to be mailed by certified mail, within five days after the first publication of the notice, to each of the owners of record and other persons, if any, in possession of the real estate not proposed to be excluded from the industrial area, whose addresses are known to the county clerk. After the hearing, if the county board shall find that the best interests of the community and the industrial area will be served by the exclusion of the tracts, the county board shall enter an order excluding the tracts, or parts of tracts, requested to be excluded. When a certified copy of such order is filed with the register of deeds and county assessor of the county or counties in which the real estate excluded is located, such tracts, or parts of tracts, shall no longer be an industrial area

13-1120 Termination of designation.

When the owner or owners of all of the contiguous tracts of real estate designated as an industrial area as provided by sections 13-1111 to 13-1118, shall file with the county board of the county in which such real estate is located, or the greater portion of such real estate, a petition requesting that the designation of the whole of the real estate as an industrial area be terminated, the county board shall enter an order determining that such real estate shall no longer be an industrial area. When a certified copy of such order is filed with the register of deeds and county assessor of the county or counties in which the real estate is located, such real estate shall no longer be an industrial area.

Beginning in 1980 and every even-numbered year thereafter during the month of March, the appropriate county board may, of its own volition or shall, at the request of the municipal governing body having zoning jurisdiction over the designated industrial tract, review any or all industrial areas in its jurisdiction. When the review is at the request of the municipal governing body having zoning jurisdiction over the designated industrial tract, the county board shall notify such municipal governing body of the date, time, and location of the review. If the county board determines during the review that there is a problem with the industrial area designation of any tract, or a portion of such tract, the county board shall give notice of a hearing by registered or certified mail to the owners of the tract, or a portion of such tract, if such owners are known, within ninety days prior to the hearing, and if the owners are not known or cannot be located, then by publishing a notice three successive weeks in some newspaper published and of general circulation in the county or counties in which the real estate is located, and if no newspaper is published in the county, such notice shall be published in some newspaper having a general circulation in such county. If after the hearing the county board finds that the industrial area or a portion thereof is no longer suitable for industrial purposes, or is being used for nonindustrial enterprises, or has had no improvements or industrial buildings thereon within seven years from the date of original industrial designation, or is not in compliance with the zoning ordinances of any city or village exercising zoning control of it, or is not platted in accordance with such zoning ordinances or is no longer in compliance with the definition of industry as set forth in section 13-1111, such county board shall remove the designation of industrial area from such tract or portion of such tract. Any tract or portion of such tract used or reserved for industry prior to August 24, 1979, shall not be removed from the industrial area designation against the wishes of its owners as long as the use of such tract or portion continues to be in compliance with the definition of industry as set forth in section 13-1111. A certified copy of such order shall be filed with the register of deeds and the county assessor of the county or counties in which the real estate is located.

The Legislature finds that: (1) Transportation is a critical need of the elderly, handicapped, and others without access to the private automobile; (2) public transportation is a viable alternative to help meet the transportation needs in urban and rural areas; (3) transportation which promotes fuel conservation and reduces traffic congestion should be encouraged; (4) public transportation in the rural and small urban areas of the state is lacking; (5) public transportation in many instances is no longer a profitable undertaking for private enterprise acting alone; (6) public subsidy of public transportation, whether privately or publicly operated, is often necessary to provide needed transportation services; (7) the variety of federal, state, and local activities in providing public transportation services require maximum coordination for maximum benefit from public resources; (8) providers of public transportation may require technical assistance in addressing their public transportation needs; and (9) it is in the public interest of the people of the state to develop programs which provide for the concerns enumerated in this section and which insure the health, safety, and welfare of Nebraska citizens in both urban and rural areas.

13-1301 Declaration of purpose.

The trend of population growth in the state in recent decades has been to the larger cities and the areas adjacent thereto to the degree that some of such cities contain over one-half the population of the respective counties in which such cities are located. Such growth has given rise to the need for buildings, structures, and facilities to be used jointly by such cities and the respective counties in which they are located, thereby effecting economies of operation and adding to the effectiveness of such cities and counties, aiding in the use by the inhabitants of such cities and counties, and alleviating the inconvenience of separate buildings, structures, and facilities caused by such growth to such inhabitants. The purpose of sections 13-1301 to 13-1312 is to provide a means whereby buildings, structures, and facilities can be acquired, constructed, remodeled, or renovated and financed for use jointly by such cities and the respective counties in which they are located.

A copy of such resolution certified by the county clerk shall be filed with and recorded by the Secretary of State and also filed with the city clerk. Each such commission shall be a body politic and corporate and an instrumentality of the state.

Each commission shall be governed by a board of commissioners of five members, two of whom shall be appointed by the governing body of the county from among the members of such governing body, two of whom shall be appointed by the mayor of the city with the approval of the governing body of the city from among the members of such governing body, and the fifth of whom shall be appointed by the other four members. The fifth member shall be a resident of the county in which the commission is established. In the event the four members appointed by the county and the city cannot appoint the fifth member by a majority, the Governor, upon request of such four members, the city, or the county, shall appoint the fifth member. The term of office of each member of the board, except for the initial members, shall be four years or until a successor is appointed and takes office. Any vacancy on the board shall be filled (1) by the governing body of the county if the person whose membership was vacated was appointed by the governing body of the county, (2) by the mayor of the city with the approval of the governing body of the city if the person whose membership was vacated was appointed by the mayor, and (3) by the remaining four members if the person whose membership was vacated was

appointed by the members of the board. The members of the board shall not be entitled to compensation for their services but shall be entitled to reimbursement of expenses paid or incurred in the performance of the duties imposed upon them by sections 13-1301 to 13-1312 with reimbursement for mileage to be made at the rate provided in section 81-1176. A majority of the total number of members of the board shall constitute a quorum, and all action taken by the board shall be taken by a majority of such total number. The board may delegate to one or more of the members or to its officers, agents, and employees such powers and duties as it deems proper. Any member of the board may be removed from office for incompetence, neglect of duty, or malfeasance in office. An action for the removal of a member of the board may be brought in the district court of the county upon resolution of the governing body of the city or the county.

The terms of office of the two persons initially appointed to the board by the governing body of the county shall be for one and four years, and such governing body shall designate which person shall serve for one year and which person shall serve for four years. The terms of office of the two persons initially appointed to the board by the mayor with the approval of the governing body of the city shall be for two and three years, and such governing body shall designate which person shall serve for two years and which person shall serve for three years. The term of office of the person initially appointed by the other members of the board shall be for four years. Terms of office on the board shall expire on the same day of the year, and the governing body of the county in making the first appointments to the board shall designate such expiration date.

The commission and its corporate existence shall continue until all its liabilities have been met and its bonds have been paid in full or such liabilities and bonds have otherwise been discharged and the governing bodies of the city and county jointly determine that the commission is no longer needed. Upon the commission's ceasing to exist all rights or properties of the commission shall pass to and be vested in the city and county.

The plan sponsor shall inform a covered employee, covered dependent, or authorized representative of its decision within sixty days after receipt of written appeal unless an unusual circumstance requires an extension of time to investigate or consider the appeal. If an extension is needed, the plan sponsor shall inform the covered employee, covered dependent, or authorized representative of the reason and the additional time needed which shall not exceed an additional sixty days. Because this section provides that the siting approval procedures, criteria, and appeal procedures provided for in sections 13-1701 to 13-1714 shall be the exclusive siting procedures and appeal procedures, the Administrative Procedure Act is inapplicable. The standard of review is to search only for errors appearing in the record. The district court determines whether the decision conforms to law, is supported by competent and relevant evidence, and is not arbitrary, capricious, or unreasonable. Tri-County Landfill v. Board of Cty. Comrs., 247 Neb. 350, 526 N.W.2d 668 (1995).

Source: Laws 1991, LB 813, § 10.

13-1711 Reapplication; restriction.

An applicant shall not file a request for siting approval which is substantially the same as a request which was denied within the immediately preceding two years.

Source: Laws 1991, LB 813, § 11.

If the city council, village board of trustees, or county board of commissioners or supervisors does not approve a request for siting approval pursuant to sections 13-1701 to 13-1714 and 76-2,119, the applicant, within sixty days after notice of the decision, may petition for a hearing before the district court of the county in which the proposed site is located to contest the decision. The city council, village board, or county board shall appear as respondent in the hearing. At the hearing, the burden of proof shall be on the petitioner. In making its orders and determinations under this section, the district court shall consider the written decision and reasons for the decision of the city council, village board, or county board and the transcribed record of the hearing held pursuant to section 13-1706. The district court shall transmit a copy of its decision to the office of the city council, village board, or county board where it shall be available for public inspection and may be copied upon payment of a fee in an amount equal to the actual cost of reproduction. Final action by the district court shall be taken within one hundred twenty days.

13-1713 Approval; contest; hearing before district court.

If the city council, village board of trustees, or county board of commissioners or supervisors grants approval pursuant to sections 13-1701 to 13-1714 and 76-2,119, a third party other than the applicant who participated in the public hearing may petition the district court of the county in which the proposed site is located within sixty days after the filing of the written decision by the city council, village board, or county board for a hearing to contest the approval. Unless the district court determines that the petition is duplicitous or frivolous, the district court shall hear the petition in accordance with the procedures

prescribed in section 13-1712. The burden of proof shall be on the petitioner, and the city council, village board, or county board and the applicant shall be named as correspondents.

The district court shall transmit a copy of its decision to the office of the city council, village board, or county board where it shall be available for public inspection and may be copied upon payment of a fee in an amount equal to the actual cost of reproduction.

Source: Laws 1992, LB 1257, § 1; Laws 1994, LB 1207, § 1; Laws 2003, LB 143, § 1.

13-2002 Legislative findings and declarations.

The Legislature hereby finds and declares that:

(1) The rapidly rising volume of waste deposited by society threatens the capacity of existing and future landfills. The nature of waste disposal means that unknown quantities of potentially toxic and hazardous materials are being buried and pose a constant threat to the ground water supply. In addition, the nature of the waste and the disposal methods utilized allow the waste to remain basically inert for decades, if not centuries, without decomposition;

(2) Wastes filling Nebraska's landfills may at best represent a potential resource, but without proper management wastes are hazards to the environment and to the public health and welfare;

(3) The growing concern with ground water protection and the desire to avoid financial risks inherent in ground water contamination has caused many smaller landfills to close in favor of using higher-volume facilities. Larger operations allow for better ground water protection at a relatively lower and more manageable cost;

(4) The reduction of solid waste at the source and the recycling of reusable waste materials will reduce the flow of waste to landfills and increase the supply of reusable materials for the use of the public;

(5) Local governments are currently authorized to provide solid waste management services. As a group, counties and municipalities are best positioned to develop efficient solid waste management programs;

(6) An assignment of responsibility for integrated solid waste management should not prohibit governmental entities from procuring services from other units of governments or from private persons. It is the intent of the Legislature that natural resources districts, interlocal cooperative entities, tribal governments, and other statutory and voluntary regional organizations be encouraged to cooperatively provide financing or services to governmental entities responsible for solid waste management; and

(7) A variety of benefits results from a policy of integrated solid waste management, including the following environmental, economic, governmental, and public benefits:

(a) Not producing waste in the first instance is the most certain means for avoiding the widely recognized health and environmental damage associated with waste. Although waste reduction will never eliminate all wastes, to the extent that waste reduction is achieved it results in the most certain form of direct risk reduction;

(b) The government is better able to administer programs which offer a variety of benefits to industry and which reduce the overall cost of government involvement than to administer programs which offer few benefits to industry and require increasingly extensive, complex, and costly governmental actions; and

(c) Public confidence in environmental policies of the government is important for the effectiveness of these policies. Waste reduction and recycling pose no adverse environmental and public health effects and do not therefor lead to increased public concern. Waste reduction and recycling also increase the public confidence that government and industry are doing all that is possible to protect the environment and the public health and welfare.

13-2017 Policy of the state.

It is the policy of this state:

(1) To encourage the development of integrated solid waste management programs, including waste volume reduction and recycling programs and education, at the local governmental level through incentives, technical assistance, grants, and other practical measures;

(2) To support and encourage the development of new uses and markets for recycled goods, placing emphasis on the development in Nebraska of businesses relating to waste reduction and recycling;

(3) To provide education concerning the components of integrated solid waste management, at the elementary level through the high school level and through community organizations, to enhance the success of local programs requiring public involvement; and

(4) To support and encourage manufacturing methods which are environmentally sustainable, technologically safe, and ecologically sound and which enhance waste reduction by creating products which have longer usage life and which are adaptable to secondary uses, require less input material, and decrease resource consumption.

13-2018 Solid waste management hierarchy; established; cooperative program; established.

(1) An effective and efficient program of integrated solid waste management protects the environment and the public and provides the most practical and beneficial use of the solid waste material. While recognizing the continuing necessity for the existence of landfills, alternative methods of managing solid waste and a reduction in the reliance upon land disposal of solid waste are encouraged. In the promotion of these goals, the following solid waste management hierarchy, in descending order of preference, is established as the integrated solid waste management policy of the state:

(a) Volume reduction at the source;

(b) Recycling, reuse, and vegetative waste composting;

(c) Land disposal;

(d) Incineration with energy resource recovery; and

(e) Incineration for volume reduction.

(2) In the implementation of the integrated solid waste management policy, the state shall establish and maintain a cooperative state and local program of project planning and technical assistance to encourage integrated solid waste management.

13-2019 Tribal governments; assume responsibility for integrated solid waste management; department; duties.

Because of the rights of both tribal sovereignty and Nebraska citizenship of individuals under the jurisdiction of federally recognized tribal governments, such tribal governments are recognized as localities which can assume responsibility for integrated solid waste management. The department shall present the state's comprehensive solid waste management plan completed pursuant to section 81-15,166 to the federally recognized tribal governments in Nebraska and encourage such tribes to adopt the state's laws, rules, regulations, and standards for integrated solid waste management.

13-2020 County, municipality, or agency; provide or contract for disposal of solid waste; joint ownership of facility; governing body; powers and duties; rates and charges.

(1) Effective October 1, 1993, each county and municipality shall provide or contract for facilities and systems as necessary for the safe and sanitary disposal of solid waste generated within its solid waste jurisdiction area. Such disposal shall comply with rules and regulations adopted and promulgated by the council for integrated solid waste management programs.

(2) A county, municipality, or agency may jointly own, operate, or own and operate with any person any facility or system and may enter into cooperative agreements as necessary and appropriate for the ownership, operation, or ownership and operation of any facility or system.

(3) A county, municipality, or agency may, either alone or in combination with any other county, municipality, or agency, contract with any person to provide any service, facility, or system required by the Integrated Solid Waste Management Act.

(4) The governing body of a county, municipality, or agency may make all necessary rules and regulations governing the use, operation, and control of a facility or system. Such governing body may establish just and equitable rates or charges to be paid to it for the use of such facility or system by each person whose premises are served by the facility or system, including charges for late payments, except that no city of the metropolitan class shall impose any rate or charge upon individual residences unless a majority of those voting in a regular or special election vote affirmatively to approve or authorize establishment of such a rate or charge. For purposes of the charges authorized by this section, the premises are served if solid waste collection service is available to the premises or if a community solid waste drop-off location is provided, unless the person who would otherwise be subject to such rates or charges proves to the

governing body of the county, municipality, or agency that his or her solid waste was lawfully collected and hauled to a permitted facility. Such proof shall be provided by a receipt from a permitted facility, a statement from a licensed hauler, or other documentation acceptable to the governing body of the county, municipality, or agency. If the service charge so established is not paid when due, such sum may be recovered by the county, municipality, or agency in a civil action or, following notice by regular United States mail to the last-known address of the property owner of record and an opportunity for a hearing, may be certified by the governing body of the county, municipality, or agency to the county treasurer and assessed against the premises served and collected or returned in the same manner as other taxes are certified, assessed, collected, and returned.

(5) If the county, municipality, or agency enters into a contract with a person to provide a facility or system, such contract may authorize the person to charge the owners of premises served such a service rate therefor as the governing body determines to be just and reasonable or the county, municipality, or agency may pay therefor out of its general fund or the proceeds of any tax levy applicable to the purposes of such contract or assess the owners of the premises served a reasonable charge therefor to be collected as provided in this section and paid into a fund to be used to defray such contract charges.

Subsection (4) of this section permits a municipal waste disposal agency to require periodic submissions of proof that a generator not using its system is disposing of waste at an alternate permitted facility on a regular basis, with the frequency of such submissions to be determined under a standard of reasonableness. Jacobson v. Solid Waste Agency of Northwest Neb., 264 Neb. 961, 653 N.W.2d 482 (2002).

Subsection (4) of this section provides a means by which a resident or business may avoid paying a service fee to a municipality having regulatory jurisdiction under the Solid Waste Management Act, but it does not alter the power to regulate conferred by the act. Jacobson v. Solid Waste Agency of Northwest Neb., 264 Neb. 961, 653 N.W.2d 482 (2002).

A municipality can only impose a garbage fee on those persons that actually use the garbage services provided. Village of Winside v. Jackson, 250 Neb. 851, 553 N.W.2d 476 (1996).

13-2021 County, municipality, or agency; facility or system; powers and duties; referendum and limited referendum provisions; applicability.

A county, municipality, or agency may purchase, plan, develop, construct, equip, maintain, and improve facilities and systems and may lease or acquire land in fee by gift, grant, purchase, or condemnation as necessary for the construction and operation of a facility or system. A county, municipality, or agency may also make and enter into contracts with any person for the planning, development, construction, maintenance, or operation of such facility or system or any part thereof. Measures adopted or enacted by municipalities with respect to any facility or system shall constitute measures subject to limited referendum under subsection (2) of section 18-2528, and a municipality shall be authorized to exempt all subsequent measures relating to the same project from referendum and limited referendum as provided under subsection (4) of such section.

13-2022 County, municipality, or agency; closure of facility, postclosure care, and investigative and corrective action; powers and duties; tax; special trust funds.

A county, municipality, or agency shall close a facility, provide postclosure care, and undertake investigative and corrective action in accordance with rules and regulations adopted by the council. The costs associated with or

reasonably anticipated for such closure, postclosure care, and investigative and corrective action may be included within the rates and charges authorized by section 13-2020 and within the amounts payable under service agreements adopted pursuant to section 13-2024.

Every county, municipality, and agency may approve, execute, and deliver contractual agreements to assume financial responsibility for the payment of costs of closure, postclosure care, or investigative or corrective action with respect to any facility. Such agreements may provide for a binding general obligation of such county, municipality, or agency obligating payments in future years.

For the payment or performance of the terms of any such agreement, any county or municipality may agree to levy or cause to be levied an annual tax upon the taxable property within such county or municipality in an amount sufficient for such purposes. Any such tax shall for all purposes of Nebraska law, including limitations upon budget, revenue, and expenditures of public funds, have the same status as a tax levied for the purpose of paying the bonded indebtedness of such county or municipality.

Every county, municipality, and agency may also approve, execute, and deliver one or more trust agreements, with any bank having trust powers or a trust company, providing for the creation of one or more special trust funds to provide for the payment of costs of closure, postclosure care, or investigative or corrective action.

No county, municipality, or agency shall be required to provide proof of financial responsibility to obtain or renew a permit for a facility which is not used for disposal of solid waste.

13-2023 County, municipality, or agency; regulations authorized; limitations; noncompliance fee.

A county, municipality, or agency may, by ordinance or resolution, adopt regulations governing collection, source separation, storage, transportation, transfer, processing, treatment, and disposal of solid waste within its solid waste jurisdiction area as necessary to protect the public health and welfare and the environment. Regulations authorized by this section shall be equal to or more stringent than the provisions of the Integrated Solid Waste Management Act and rules and regulations adopted and promulgated by the council as authorized by the act. Any person who violates any such regulation shall be subject to a noncompliance fee not to exceed five hundred dollars.

13-2024 County or municipality; service agreement with agency; authorized provisions; special tax authorized.

Notwithstanding any other provision of Nebraska law, any county or municipality may enter into a service agreement with an agency which owns and operates or proposes to own and operate any solid waste management facility or system for obtaining solid waste management services from such agency. Any such service agreement may provide for the following:

(1) The payment of fixed or variable periodic amounts for service or the right to obtain service;

(2) That such service agreement may extend for a term of years as determined by the governing body of the county or municipality and be binding upon such county or municipality over such term of years;

(3) That variable or fixed amounts payable under such contracts may be determined based upon one or more of the following factors:

(a) Operating and maintenance expenses of the agency, including contract renewal and replacement for plant and equipment;

(b) Amounts payable by the agency with respect to debt service on its bonds or other obligations, including margins of coverage if deemed appropriate; and

(c) Amounts necessary for the agency to build or maintain operating reserves, capital reserves, and debt service reserves;

(4) That any such service agreement may require payment to be made in the agreed fixed or variable amounts irrespective of whether such facility or system is completed or operational and notwithstanding any suspension, interruption, interference, reduction, or curtailment of the services of such facility or system; and

(5) Such other provisions as the agency and county or municipality deem appropriate in connection with providing and obtaining solid waste management services.

In order to provide for the payments due under any such service agreement, any county or municipality may pledge the revenue received from any and all rates and charges received or to be received from provision of solid waste management services or from contracts with any other persons or entities, private or public, and may further provide, if determined appropriate by the governing body, that any deficiency in such revenue may be made up from a special tax levied for such purpose upon all taxable property within such county or municipality, which special tax shall for all purposes of Nebraska law, including limitations upon budget, revenue, and expenditures of public funds, have the same status as a tax levied for the purpose of paying the bonded indebtedness of such county or municipality.

13-2025 County, municipality, or agency; service agreement; fees and charges; amount.

Any county, municipality, or agency entering into any service agreement under section 13-2024 shall fix, maintain, revise, and collect fees, rates, rents, and charges for functions, services, facilities, or commodities furnished to its customers and users by and through its system as will be sufficient to:

(1) Pay (a) the cost of operating and maintaining the system and renewals or replacements thereto, including all amounts due and payable under such service agreement, and (b) the interest on and principal of any outstanding bonds or other indebtedness of the county, municipality, or agency relative to the service agreement, whether at maturity or upon sinking-fund redemption, which are payable from the revenue of its system; and

(2) Provide, as may be required by any resolution, ordinance, trust indenture, security instrument, or other agreement of the agency, for any reasonable

reserves for such operating and maintenance expenses and for any margins or coverages over and above debt service.

13-2025.01 Joint entity or joint public agency; reporting of budget; filing required.

Any joint entity or joint public agency created to fulfill the purposes of the Integrated Solid Waste Management Act pursuant to the Interlocal Cooperation Act or Joint Public Agency Act shall comply with the Municipal Proprietary Function Act for purposes of reporting its budgets. Proprietary budget statements for the joint entity or joint public agency shall be placed on file with the office of the municipal clerk of each member which is a municipality as required by the Municipal Proprietary Function Act and with the county clerk of each member which is a county.

13-2026 Municipalities, counties, and agencies; regulate solid waste management; when.

In furtherance of the policy of the state as set forth in the Integrated Solid Waste Management Act, municipalities, counties, and agencies may by ordinance or resolution adopt rules and regulations or may adopt bylaws or enter into written agreements between and among themselves or other persons which regulate and govern solid waste management within their solid waste jurisdiction areas, including the establishment of conditions to assure that a specified amount and type of solid waste will be delivered to a specific facility.

13-2027 Municipalities, counties, and agencies; regulation of competition and antitrust; exemption.

In exercising the powers granted in the Integrated Solid Waste Management Act, municipalities, counties, and agencies shall be exempt from all rules and regulations of state regulatory competition. It is intended that municipalities, counties, or agencies carrying out the activities described in the act receive full exemption and immunity from state and federal antitrust laws in light of the public purpose and regulatory provisions provided by the act. The exemption granted pursuant to this section shall not be construed to diminish any other exemption for similar activities authorized through grants of authority to other public bodies even though such exemption may not be stated in terms of antitrust.

13-2029 Counties and municipalities; statement of intent; filings; failure to file; effect.

On or before October 1, 1992, each county and municipality shall file a statement of intent with the department describing the way in which it intends to fulfill its responsibility for integrated solid waste management. If a municipality or county intends to enter into a cooperative relationship with another entity to fulfill such responsibility, documentation of the reciprocal intent of those entities shall be included with the statement. If no statement of intent is filed by a municipality or county, the responsibility for integrated solid waste management shall remain with the nonfiling county or municipality.

13-2030 Counties and municipalities; certification of facility and system capacity; filing required; department; approval; restrict access to facilities and systems; when.

On or before October 1, 1993, a certification shall be filed with the department on behalf of each county and municipality with respect to (1) facility and system capacity for solid waste management for the solid waste generated within each solid waste jurisdiction area and (2) facility and system capacity for solid waste generated outside of each solid waste jurisdiction area and disposed of in facilities within each solid waste jurisdiction area. If a county or municipality is unable to certify capacity for waste generated outside its solid waste jurisdiction area, it may restrict access to its facilities and systems for such solid waste. Such certification shall be approved by the department if it is found to be in compliance with the Integrated Solid Waste Management Act and the rules and regulations adopted under the act.

13-2031 Integrated solid waste management plan; filing; approval.

On or before October 1, 1994, an integrated solid waste management plan shall be filed with the department on behalf of each county and municipality. 13-2032 Integrated solid waste management plan; minimum requirements; waste reduction and recycling program; priorities; updated plan.

(1) Each integrated solid waste management plan filed pursuant to section 13-2031 shall at a minimum:

(a) Certify facility and system capacity for solid waste management for the solid waste generated within each solid waste jurisdiction area for the twenty years following October 1, 1994;

(b) Certify facility and system capacity for solid waste generated outside of each solid waste jurisdiction area and disposed of in facilities within each solid waste jurisdiction area for the twenty years following October 1, 1994. If a county or municipality is unable to certify capacity for waste generated outside its solid waste jurisdiction area, it may restrict access to its facilities and systems for such solid waste;

(c) Incorporate and reflect the waste management hierarchy of the state integrated solid waste management policy;

(d) State the extent to which solid waste generated within the area covered by the plan is or can be recycled;

(e) State the economic and technical feasibility of using other existing disposal facilities in lieu of initiating new disposal facilities or of continuing the use of disposal facilities in use at the time the plan is filed;

(f) State the expected environmental impact of alternative solid waste disposal methods, including the use of landfills;

(g) State a specific plan and schedule for implementing technically and economically feasible solid waste disposal methods that will result in minimal environmental impact; and

(h) State such additional information, data, and studies as may be required pursuant to rules and regulations adopted by the council.

(2) The integrated solid waste management plan shall provide for a local waste reduction and recycling program. If technically and economically feasible, the volume of materials disposed of in landfills as of July 1, 1994, shall be reduced by twenty-five percent as of July 1, 1996, by forty percent as of July 1, 1999, and by fifty percent as of July 1, 2002. Any county, municipality, or agency which had in effect a recycling or waste reduction program prior to July 1, 1994, shall be credited with the waste-stream reduction achieved prior to July 1, 1994, with respect to the July 1, 1996, goal. The following wastes shall be given first priority when developing reduction and recycling programs and related timetables in relation to an integrated solid waste management plan:

(a) Yard wastes;

(b) Unregulated hazardous wastes, except household hazardous wastes, which are exempt from the regulations under the Environmental Protection Act;

(c) Discarded tires;

(d) Waste oil;

(e) Lead-acid batteries; and

(f) Discarded household appliances.

In addition, such plan shall provide a methodology for implementing a program of separation of wastes, including, but not limited to, glass, plastic, paper, and metal.

(3) The solid waste management plan shall be updated for compliance with federal and state laws and regulations as required by the department and may be updated, subject to approval by the department, at any time to reflect local needs and conditions.

13-2033 Dumping or depositing solid waste; permit; council; powers and duties; exemptions; storage of passenger tire equivalents of waste tires; access to property.

(1) Except as provided in subsections (2) and (3) of this section, no person shall dump or deposit any solid waste at any place other than a landfill approved by the director unless the department has granted a permit which allows the dumping or depositing of solid waste at any other facility. The council may adopt and promulgate rules and regulations regarding the permitting of this activity, which rules and regulations shall protect the public interest but may be based upon criteria less stringent than those regulating a landfill. The council may adopt and promulgate rules and regulations defining beneficial reuse and establishing construction standards and other criteria exempting from permit requirements under this section the following: (a) The use of dirt, stone, brick, or some inorganic compound for landfill, landscaping excavation, or grading purposes; (b) the placement of tires, posts, or ferrous objects, not contaminated with other wastes, for agricultural uses, such as bumpers on agricultural equipment, for ballast to maintain covers or structures on the agricultural site, for blowout stabilization, for fish habitat, or for tire mats for bank stabilization; or (c) such other waste placement or depositing activities that are found not to pose a threat to the public health or welfare. In developing construction standards, the council shall consider standards and practices established by the American Society for Testing and Materials.

(2) No person shall be found to be in violation of this section if (a) the solid waste generated by an individual is disposed of on such individual's property, (b) such property is outside the corporate limits of a municipality, and (c) the department determines that the county has not provided integrated solid waste management facilities for its residents.

(3) No person shall be found to be in violation of this section for storing five hundred or fewer passenger tire equivalents of waste tires. Storage of passenger tire equivalents of waste tires for more than one year without reuse, recycling, or shipment out of state is presumed to constitute disposal of solid waste under subsection (1) of this section. Speculative accumulation of more than five hundred passenger tire equivalents of waste tires shall be deemed disposal of solid waste and is prohibited. Tires are not accumulated speculatively if, in a calendar year beginning on January 1, the amount of tire material that is reused or recycled by weight equals at least seventy-five percent of such material at the beginning of the year. The burden of proof that passenger tire equivalents of waste tires have not been speculatively accumulated rests with the person accumulating the passenger tire equivalents of waste tires to demonstrate through written documentation that the passenger tire equivalents of waste tires have not been accumulated speculatively. Any person, business, or other entity engaged in the business of picking up, hauling, and transporting scrap tires for storage, processing, or recycling shall obtain a permit from the department before engaging in such activity. The council may adopt rules and regulations regarding such permits and may exempt from permit requirements those entities having involvement with scrap tires which is incidental to their primary business activity. Persons holding a permit on August 31, 2003, may continue to operate under such permits until new rules and regulations are

established under this section. As a condition for obtaining a permit under this section, the department shall require the permittee to provide the department with an annual report indicating the number of scrap tires hauled, the location of the delivery of such scrap tires, and any additional information the council believes necessary to accomplish the purposes of the Integrated Solid Waste Management Act.

(4) If necessary in the course of an investigation or inspection or during remedial or corrective action and if the owner of the subject property or the owner's agent has specifically denied access to the department for such purposes, the director may order the owner or owner's agent to grant access to such property for the performance of reasonable steps to determine the source and extent of contamination, for remediation, or for other corrective action, including drilling and removal of wastes. Access shall be by the department or by a person conducting the investigation, inspection, or remedial action at the direction of the department. The property shall be restored as nearly as possible to its original condition at the conclusion of the investigation, inspection, or remedial action.

13-2034 Rules and regulations.

The council shall adopt and promulgate rules and regulations which shall include the following:

(1) A permit program for facilities providing for permits to be issued to owners and operators;

(2) Requirements for the collection, source separation, storage, transportation, transfer, processing, recycling, resource recovery, treatment, and disposal of solid wastes as well as developmental and operational plans for facilities. Regulations concerning operations may include waste characterization, composition, and source identification, site improvements, air and methane gas monitoring, ground water and surface water monitoring, daily cover, insect and rodent control, salvage operations, waste tire disposal, safety and restricted access, inspection of loads and any other necessary inspection or verification requirements, reporting of monitoring analysis, record-keeping requirements and other reporting requirements, handling and disposal of wastes with special characteristics, and any other operational criteria, location criteria, or design criteria necessary to minimize environmental and health risks and to provide protection of the air, land, and waters of the state; and

(3) Requirements for closure, postclosure care and monitoring, and investigative and corrective action with respect to landfills. Such rules and regulations shall require financial assurance for such activities after April 9, 1996. Such rules and regulations shall impose any necessary requirements upon owners or operators in order to assure proper closure, care, monitoring, and investigative and corrective action with respect to landfills to minimize the need for future maintenance and eliminate, to the extent necessary to protect humans, animals, and the environment, releases or the threat of releases of contaminants or leachate.

13-2035 Applicant for facility permit; exemption from siting approval requirements; when; application; contents.

Any applicant who applies to the department for a permit for a facility pursuant to the Integrated Solid Waste Management Act shall be exempt from the siting approval requirements of sections 13-1701 to 13-1714 if a county, municipality, or agency is to be the owner of the facility and the facility is to be located in a county the unincorporated areas of which are among the areas to be served by such facility or the facility is to be located in the county of a municipality to be served by such facility if such facility will not serve unincorporated areas of a county.

The application of such county, municipality, or agency shall show that the applicant:

(1) Has considered the siting, operational, and traffic criteria established by section 13-1703;

(2) Has given notice of the proposed siting pursuant to the procedures established by section 13-1704;

(3) Has conducted a public hearing regarding the proposed siting preceded by published notice in a newspaper of general circulation in the county or municipality in which the proposed facility is to be located; and

(4) Has submitted a record of such hearing with its application to the department.

13-2036 Applications for permits; contents; department; powers and duties; contested cases; variance; minor modification; how treated.

(1) The department shall review applications for permits for facilities and provide for the issuance, modification, suspension, denial, or revocation of permits after public notice. Applications shall be on forms provided by the department which solicit information necessary to make a determination on the application. The department shall issue public notice of its intent to grant or deny an application for a permit within sixty days after receipt of an application containing all required information. If an application is granted and the permit is issued or modified, any aggrieved person may file a petition for a contested case with the department within thirty days after the granting or modification of the permit, but such petition shall not act as a stay of the permit. If an application is denied, the department shall provide written rationale therefor to the applicant. Any change, modification, or other deviation from the terms or conditions of an approved permit must be approved by the director prior to implementation. Minor modifications described in subsection (5) of this section shall not require public notice or hearing.

(2) The department shall condition the issuance of permits on terms necessary to protect the public health and welfare and the environment as well as compliance with all applicable regulations. Any applicant may apply to the department for a variance from rules and regulations. The director may grant such variance if he or she finds that the public health and welfare will not be endangered or that compliance with the rules or regulations from which variance is sought would produce serious hardship without equal or greater benefits to the public. The considerations, procedures, conditions, and limita-

tions set forth in section 81-1513 shall apply to any variance granted pursuant to this section.

(3) The director shall require the owner or operator of a facility to undertake investigation and corrective action in the event of contamination or a threat of contamination caused by the facility. Financial assurance for investigative or corrective action may be required in an amount determined by the director following notice and hearing.

(4) In addition to the information required by this section, the following specific areas shall be addressed in detail in any application filed in conjunction with the issuance, renewal, or reissuance of a permit for a facility:

(a) A closure and postclosure plan detailing the schedule for and the methods by which the operator will meet the conditions for proper closure and postclosure of the facility as defined by the council. The plan shall include, but not be limited to, the proposed frequency and types of actions to be implemented prior to and following closure of an operation, the proposed postclosure actions to be taken to return the area to a condition suitable for other uses, and an estimate of the costs of closure and postclosure and the proposed method of meeting the costs;

(b) A landfill may accept yard waste year-round if such yard waste:

(i) Will be used for the production and recovery of methane gas for use as fuel (A) with the approval of the department and (B) at a landfill operating as a solid waste management facility with a permit issued pursuant to the department's rules and regulations; or

(ii) Has been separated at its source from other solid waste and will be used for the purpose of soil conditioning or composting.

(c) State and local governmental entities responsible for the maintenance of public lands shall give preference to the use of composted materials in all land maintenance activities. This section does not prohibit the use of yard waste as land cover or as soil-conditioning material.

(2) Land disposal of lead-acid batteries and waste oil is prohibited.

(c) Tires are not considered disposed if they are (i) processed into crumb rubber form and reused or recycled in manufactured products such as, but not limited to, products used for schools, playgrounds, and residential, lawn, and garden applications, (ii) used as safety barriers for race courses for motorized vehicles, on the condition that the tires are bolted together and properly wrapped, and not in loose, compressed, or baled form, (iii) used as tire-derived fuel, (iv) retreaded, (v) processed into chip or shred form and used as drainage media in landfill construction or septic drain fields, (vi) used as a raw material in steelmaking, or (vii) processed into shred form and used as an alternative daily cover in a landfill or for a civil engineering project if such project is designed and constructed in compliance with the Engineers and Architects Regulation Act and prior approval for such project is obtained from the department by the tire shredder and the end user, except that departmental approval is not necessary for a tire project involving three thousand five hundred or fewer passenger tire equivalents of waste tires if the department receives notification of the project not later than thirty days prior to any construction on such project. The notification shall contain the name and address of the tire shredder and end user, the location of the project, a description of the type of project, the number of passenger tire equivalents of waste tires to be used, and any additional information the council determines is necessary to accomplish the purposes of the Integrated Solid Waste Management Act.

The department shall review all licenses for solid waste management facilities which were issued under the Environmental Protection Act prior to July 15, 1992, and which expire after October 1, 1993, to determine whether the licensee is in compliance with the requirements of the Integrated Solid Waste Management Act and the rules and regulations adopted by the council.

The department may require such licensee to furnish written documentation evidencing compliance. If the department determines that the licensee is not in compliance with the Integrated Solid Waste Management Act and the rules and regulations adopted by the council, the department may issue an amended permit as necessary to bring the licensee into compliance with these provisions.

All licenses for solid waste management facilities issued under the Environmental Protection Act prior to July 15, 1992, shall expire at the stated date of expiration if such expiration date is before October 1, 1993, except that the department may extend such licenses to continue until October 1, 1993, if it finds that the facility remains in compliance with the Environmental Protection Act and the rules and regulations adopted thereunder by the council prior to July 15, 1992.

Permits for solid waste processing facilities, as defined in rules and regulations adopted and promulgated by the council, issued pursuant to the Integrated Solid Waste Management Act shall expire not more than ten years following the date of issuance, as determined by the department. 13-2042 Landfill disposal fee; payment; interest; use; grants; department; powers; council; duties.

(1) A disposal fee of one dollar and twenty-five cents is imposed for each six cubic yards of uncompacted solid waste, one dollar and twenty-five cents for each three cubic yards of compacted solid waste, or one dollar and twenty-five cents per ton of solid waste disposed of at landfills regulated by the department. Each operator of a landfill disposal facility shall make the fee payment quarterly. The fee shall be paid quarterly to the department on or before the forty-fifth day following the end of each quarter. For purposes of this section, landfill has the same definition as municipal solid waste landfill unit in 40 C.F.R. part 258, subpart A, section 258.2.

(2) Each fee payment shall be accompanied by a form prepared and furnished by the department and completed by the permitholder. The form shall state the total volume of solid waste disposed of at that facility during the

payment period and shall provide any other information deemed necessary by the department. The form shall be signed by the permitholder.

(3) If a permitholder fails to make a timely payment of the fee, he or she shall pay interest on the unpaid amount at the rate specified in section 45-104.02, as such rate may from time to time be adjusted.

(4) This section shall not apply to a site used solely for the reclamation of land through the introduction of landscaping rubble or inert material.

(5) Fifty percent of the total of such fees collected in each quarter shall be remitted to the State Treasurer for credit to the Integrated Solid Waste Management Cash Fund and shall be used by the department to cover the direct and indirect costs of responding to spills or other environmental emergencies, of regulating, investigating, remediating, and monitoring facilities during and after operation of facilities, or of performance of regulated activities under the Integrated Solid Waste Management Act, the Livestock Waste Management Act, the Nebraska Litter Reduction and Recycling Act, and the Waste Reduction and Recycling Incentive Act. The department may seek recovery of expenses paid from the fund for responding to spills or other environmental emergencies or for investigation, remediation, and monitoring of a facility from any person who owned, operated, or used the facility in violation of the Integrated Solid Waste Management Act, the Livestock Waste Management Act, the Nebraska Litter Reduction and Recycling Act, and the Waste Reduction and Recycling Incentive Act in a civil action filed in the district court of Lancaster County. Of the amount credited to the Integrated Solid Waste Management Cash Fund, the department may disburse amounts to political subdivisions for costs incurred in response to and remediation of any solid waste disposed of or abandoned at dump sites or discrete locations along public roadways or ditches and on any contiguous area affected by such disposal or abandonment. Such reimbursement shall be by application to the department on forms prescribed by the department. The department shall prepare and make available a schedule of eligible costs and application procedures which may include a requirement of a demonstration of preventive measures to be taken to discourage future dumping. The department may not disburse to political subdivisions an amount which in the aggregate exceeds five percent of total revenue from the disposal fees collected pursuant to this section in the preceding fiscal year. These disbursements shall be made on a fiscal-year basis, and applications received after funds for this purpose have been exhausted may be eligible during the next fiscal year but are not an obligation of the state. Any eligible costs incurred by a political subdivision which are not funded due to a lack of funds shall not be considered an obligation of the state. In disbursing funds under this section, the director shall make efforts to ensure equal geographic distribution throughout the state and may deny reimbursements in order to accomplish this goal.

(6) The remaining fifty percent of the total of such fees collected per quarter shall be remitted to the State Treasurer for credit to the Waste Reduction and Recycling Incentive Fund. For purposes of determining the total fees collected, any amount of fees rebated pursuant to section 13-2042.01 shall be included as if the fees had not been rebated, and the amount of the fees rebated pursuant to such section shall be deducted from the amount to be credited to the Waste Reduction and Recycling Incentive Fund.

(7) The council shall adopt and promulgate rules and regulations for the distribution of grants under subsection (6) of this section from the proceeds of the fees imposed by this section to counties, municipalities, and agencies for the purposes of planning and implementing facilities and systems to further the goals of the Integrated Solid Waste Management Act. The fees collected pursuant to this section shall not be used as grant proceeds to fund landfill closure site assessments, closure, monitoring, or investigative or corrective action costs for existing landfills or landfills already closed prior to July 15, 1992. The rules and regulations shall base the awarding of grants on a project's reflection of the integrated solid waste management policy and hierarchy established in section 13-2018, the proposed amount of local matching funds, and community need.

13-2042.01 Landfill disposal fee; rebate to municipality or county; application; Department of Environmental Quality; materiel division of Department of Administrative Services; municipality; county; duties; suspension or denial of rebate; appeal; rules and regulations.

(1) The Department of Environmental Quality shall rebate to the municipality or county of origin ten cents of the disposal fee required by section 13-2042 for each six cubic yards of uncompacted solid waste, for each three cubic yards of compacted solid waste, or for each ton of solid waste disposed of at landfills regulated by the department and originating in a municipality or county with a purchasing policy approved by the department. The fee shall be rebated quarterly on or before the thirtieth day after receipt of a quarterly report from the municipality or county of origin.

(2) Any municipality or county may apply to the department for the rebate authorized in subsection (1) of this section if the municipality or county has a written purchasing policy in effect requiring a preference for purchasing products, materials, or supplies which are manufactured or produced from recycled material. The policy shall provide that the preference shall not operate when it would result in the purchase of products, materials, or supplies which are of inadequate quality as determined by the municipality or county. Upon receipt of an application, the Department of Environmental Quality shall submit the application to the materiel division of the Department of Administrative Services for review. The materiel division shall review the application for compliance with this section and any rules and regulations adopted pursuant to this section and to determine the probable effectiveness in assuring that a preference is given to products, materials, or supplies which are manufactured or produced from recycled material. The materiel division shall provide a report of its findings to the Department of Environmental Quality within thirty days after receiving the review request. The Department of Environmental Quality shall approve the application or suggest modifications to the application within sixty days after receiving the application based on the materiel division's report, any analysis by the Department of Environmental Quality, and

any factors affecting compliance with this section or the rules and regulations adopted pursuant to this section.

(3) A municipality or county shall file a report complying with the rules and regulations adopted pursuant to this section with the Department of Environmental Quality before April 1 of each year documenting purchasing practices for the past calendar year in order to continue receiving the rebate. The report shall include, but not be limited to, quantities of products, materials, or supplies purchased which were manufactured or produced from recycled material. The department shall provide copies of each report to the materiel division in a timely manner. If the department determines that a municipality or county is not following the purchasing policy presented in the approved application or that the purchasing policy presented in the approved application is not effective in assuring that a preference is given to products, materials, or supplies which are manufactured or produced from recycled material, the department shall suspend the rebate until it determines that the municipality or county is giving a preference to products, materials, or supplies which are manufactured or produced from recycled material pursuant to a written purchasing policy approved by the department subsequent to the suspension. The materiel division may make recommendations to the department regarding suspensions and reinstatements of rebates.

(4) Any suspension of the rebate or denial of an application made under this section may be appealed. The appeal shall be in accordance with the Administrative Procedure Act.

(5) The council shall adopt and promulgate rules and regulations establishing criteria for application procedures, for accepting and denying applications, for annual and quarterly reporting requirements, and for suspending and reinstating the rebate. The materiel division shall recommend to the council criteria for accepting and denying applications and for suspending and reinstating the rebate. The materiel division may make other recommendations to the council regarding rules and regulations authorized under this section. The Department of Administrative Services may adopt and promulgate rules and regulations establishing procedures for reviewing applications and for annual and quarterly reports.

ARTICLE 21
ENTERPRISE ZONES

Section
13-2101. Legislative findings.
13-2101.01. Act, how cited.

13-2101 Legislative findings.

The Legislature finds that:

(1) There exist in this state distressed areas where unemployment is higher than the state or national average, where poverty levels are higher than the state or national average, where the population is declining, where property is being abandoned, and where other forms of economic distress are occurring which adversely affect the general welfare of the people of this state;

(2) Such unemployment and other problems cause the distressed areas of the state to deteriorate and become substandard and blighted, making the areas economic or social liabilities which are harmful to the social and economic well-being of the state and the counties and communities in which they exist. Such distressed areas cause a needless increase in public expenditures, impose an onerous burden on the state and its political subdivisions, decrease the tax base, reduce tax revenue, substantially impair or arrest the sound growth of the state and its political subdivisions, depreciate general statewide and community-wide values, and contribute to the spread of disease and crime. This in turn necessitates excessive and disproportionate expenditures of public funds for the preservation of the public health and safety, for crime prevention, correction, prosecution, and punishment, for the treatment of juvenile delinquency, for the maintenance of adequate police, fire, and accident protection, and for other public services and facilities;

(3) From time to time, various communities in the state suffer extensive economic distress from the loss of a major employer in the area or from a major cut-back in employment by such an employer resulting in high local unemployment and threatening the economic balance of the community if not its continued existence; and

(4) Stimulation of economic development in the distressed areas is a matter of state policy, public interest, and concern and is within the power and authority inherent in and reserved to the state. Economic development is needed to insure that the state will not continue to be endangered by areas which consume an excessive proportion of revenue and that the economic base of the state may be broadened and stabilized by providing jobs and increasing the tax base.

(1)(a) Following the formal adoption of rules and regulations pursuant to section 13-2112, the department shall, for a period of one hundred twenty days, accept formal applications for the designation of enterprise zones. Within sixty days after the end of such application period, the department may designate not more than two areas as enterprise zones based on eligible applications it has received. Each area designated as an enterprise zone shall meet all eligibility criteria.

(b) For a period of one hundred eighty days following April 1 next immediately following the end of the application period specified in subdivision (a) of this subsection, the department shall accept formal applications for the designation of enterprise zones. (d) In any application period, the department may reject from consideration any application which does not fully and completely comport with the provisions of section 13-2104 at the end of the designated application period. In choosing among eligible applications for enterprise zone designation, the department shall consider the levels of distress existing within the applicant areas and the contents of the applicant's formal enterprise zone application.

(2) Any city, village, tribal government area, or county may apply for designation of an area within such city, village, tribal government area, or county as an enterprise zone, except that if a county seeks to have an area within an incorporated city or village or a tribal government area designated as an enterprise zone, the consent of the governing body of such city, village, or tribal government area shall first be required.

(3) If an incorporated city or village or a tribal government area consents, a county may apply on behalf of the city, village, or tribal government area for certification of an area within such city, village, or tribal government area as an

enterprise zone. Both a county and a city, village, or tribal government area shall not apply for certification of the same area.

(4) Two or more counties or tribal government areas may jointly apply for designation of an area as an enterprise zone which is located on both sides of their common boundaries.

(5) Political subdivisions wishing to file an application for designation of an enterprise zone shall first follow the procedures set out in sections 13-2106 to 13-2108. An application for designation as an enterprise zone shall be in a form and contain information prescribed by the department pursuant to section 13-2104.

(5) Individuals chosen to serve as members of the enterprise zone association board shall include property owners, business operators, and users of space within the area of the enterprise zone as well as individuals representing groups or organizations with an interest in furthering the purposes and goals of the enterprise zone. Not less than two-thirds of the members of the enterprise zone association board shall be residents of the area constituting the enterprise zone. ARTICLE 24

RETIREMENT BENEFITS OF TRANSFERRED EMPLOYEES

Section
13-2401. Transfer between political subdivisions; rights of employee; transferring and receiving entities; powers and duties.

13-2401 Transfer between political subdivisions; rights of employee; transferring and receiving entities; powers and duties.

(1) For purposes of this section:

(a) Political subdivision includes villages, cities of all classes, counties, municipal counties, school districts, and all other units of local government, including entities created pursuant to the Interlocal Cooperation Act or Joint Public Agency Act. Political subdivision does not include any contractor with a political subdivision;

(b) Receiving entity means a political subdivision which receives transferred employees from a separate political subdivision; and

(c) Transferring entity means a political subdivision which is transferring employees to a separate political subdivision.

(2) For transfers involving a retirement system which maintains a defined benefit plan, the transfer value of the transferring employee's accrued benefit shall be calculated by one or both of the retirement systems involved as follows:

(a) If the retirement system of the transferring entity maintains a defined benefit plan, an initial benefit transfer value of the employee's accrued benefit shall be determined by calculating the present value of the employee's retirement benefit based on the employee's years of service as of the date of transfer and the other actuarial assumptions of the retirement system of the transferring entity so that the effect on the retirement system of the transferring entity will be actuarially neutral; and

(b) If the retirement system of the receiving entity maintains a defined benefit plan, the final benefit transfer value of the employee's accrued benefit shall be determined by calculating the present value of the employee's retirement benefit as if the employee were employed on the date of transfer and had completed the same amount of service with the same compensation as the employee actually completed at the transferring entity prior to transfer. The calculation shall then be based on the employee's assumed years of service as of the date of transfer and the other actuarial assumptions of the retirement system of the receiving entity so that the effect on the retirement system of the receiving entity will be actuarially neutral.

(3) A full-time or part-time employee of a transferring entity who becomes an employee of a receiving entity pursuant to a merger of services shall receive credit for his or her years of participation in the retirement system of the transferring entity for purposes of membership in the retirement system of the receiving entity.

(4) An employee referred to in subsection (3) of this section shall have his or her participation in the retirement system of the transferring entity transferred to the retirement system of the receiving entity through one of the following options:

(a) If the retirement system of the receiving entity maintains a defined contribution plan, the employee shall transfer all of his or her funds by paying to the retirement system of the receiving entity from funds held by the retirement system of the transferring entity an amount equal to one of the following: (i) If the retirement system of the transferring entity maintains a defined benefit plan, an amount not to exceed the initial benefit transfer value, leaving no funds attributable to the transferred employee within the retirement system of the transferring entity, or (ii) if the retirement system of the transferring entity maintains a defined contribution plan, an amount not to exceed the employee and employer accounts of the transferring employee plus earnings during the period of employment with the transferring entity. The employee shall receive eligibility and vesting credit for his or her years of service in a governmental plan, as defined in section 414(d) of the Internal Revenue Code, maintained by the transferring entity. Payment shall be made within five years after employment begins with the receiving entity or prior to retirement, whichever comes first, and may be made through direct payment, installment payments, or an irrevocable payroll deduction authorization; or

(b) If the retirement system of the receiving entity maintains a defined benefit plan, the employee shall transfer all of his or her funds out of the retirement system of the transferring entity to purchase service credits that will generate a final benefit transfer value not to exceed the employee's initial benefit transfer value in the retirement system of the transferring entity. After such purchase, the employee shall receive eligibility and vesting credit in the retirement system of the receiving entity for his or her years of service in a governmental plan, as defined in section 414(d) of the Internal Revenue Code, maintained by the transferring entity. The amount to be paid by the member for such service credit shall equal the actuarial cost to the retirement system of the receiving entity for allowing such additional service credit to the employee. If any funds remain in the retirement system of the transferring entity after the employee has purchased service credits in the retirement system of the receiving entity, such remaining funds shall be rolled over into another qualified trust under section 401(a) of the Internal Revenue Code, an individual retirement account, or an individual retirement annuity. Payment shall be made within five years after the transfer of services, but prior to retirement, and may be made through direct payment, installment payments, or an irrevocable payroll deduction authorization.

(5) The transferring entity, the receiving entity, and the employees who are being transferred may by binding agreement determine which parties will provide funds to pay any amount needed to purchase creditable service in the retirement system of the receiving entity sufficient to provide a final benefit transfer value not to exceed the employee's initial benefit transfer value, if the amount of a direct rollover from the retirement system of the transferring entity is not sufficient to provide a final benefit transfer value in the retirement system of the receiving entity.

(6) The retirement system of the receiving entity may accept cash rollover contributions from a member who is making payment pursuant to this section if the contributions do not exceed the amount of payment required for the

service credits purchased by the member and the contributions represent (a) all or any portion of the balance of the member's interest in a qualified trust under section 401(a) of the Internal Revenue Code or (b) the interest of the member from an individual retirement account or an individual retirement annuity, all of which is attributable to a qualified total distribution, as defined in the Internal Revenue Code, from a qualified trust under section 401(a) of the code and qualified as a tax-free rollover amount. The member's interest under subdivision (a) or (b) of this subsection must be transferred to the retirement system within sixty days after the date of the distribution from the qualified trust, individual retirement account, or individual retirement annuity.

(7) Cash transferred to the retirement system of the receiving entity as a rollover contribution shall be deposited as other contributions.

(8) The retirement system of the receiving entity may accept direct rollover distributions made from a qualified trust pursuant to section 401(a)(31) of the Internal Revenue Code. The direct rollover distribution shall be deposited as all other payments under this section.

(9) The receiving entity or its retirement system shall adopt provisions defining procedures for acceptance of rollovers which are consistent with sections 401(a)(31) and 402 of the Internal Revenue Code.

(10) Any retirement system authorized pursuant to section 14-1805, 15-1017, 16-1004, 16-1023, 19-3501, 23-1118, or 23-2330.04 or any retirement system for a city of the metropolitan class authorized pursuant to home rule charter shall be modified to conform with this section prior to any merger of service involving such system.

Any such resolution shall not be adopted by a public agency prior to five days after the last publication by the proposed participating public agency. In the case of a state agency, the governing board shall adopt the resolution, or if there is no governing board, the Governor shall issue a proclamation without notice in lieu of a resolution. In the case of a federal agency, the governing board shall adopt the resolution or, if there is no governing board, the President of the United States shall issue a proclamation without notice in lieu of a resolution. The resolution may be adopted by a governing body on its own motion upon determining, in its discretion, that a need exists for a joint public agency. In determining whether such a need exists, a governing body may take into consideration the present and future needs of the public agency with respect to the materials, goods, property, and services which a joint public agency may utilize or provide, the adequacy, suitability, and availability of such materials, goods, property, and services to meet the needs of the participating public agency if no joint public agency is formed, and economic or other advantages or efficiencies which may be realized by cooperative action through a joint public agency.

Each representative shall serve for a term specified in the agreement creating the joint public agency, not to exceed four years, or until his or her successor has been appointed and has qualified in the same manner as the original appointment. A representative shall be eligible for reappointment upon the expiration of his or her term. A certificate of the appointment or reappointment of any representative or alternate representative shall be issued by the governing body and shall be filed with the clerk or secretary of the public agency for which the representative acts and the joint public agency. The certificate shall be conclusive evidence of the due and proper appointment of the representative. (3) A quorum of the board is required for conducting the business and exercising the powers of the joint public agency and for all other purposes. Unless the rules of governance require a larger quorum, the presence at the meeting of the number of representatives entitled to cast a majority of the total votes which may be cast by all of the representatives constitutes a quorum. Action may be taken upon a vote of a majority of the votes which the representatives present are entitled to cast unless the rules of governance require a larger vote.

13-2602 Legislative findings.

(1) The Legislature finds that it will be beneficial to the economic well-being of the people of this state that there be convention and meeting center facilities and sports arena facilities of appropriate size and quality to host regional, national, or international events. Regional refers to states that border Nebraska; national refers to states other than those that border Nebraska; and international refers to nations other than the United States.

(2) The Legislature further finds that such facilities may (a) generate new economic activity as well as additional state and local taxes from persons residing within and outside the state and (b) create new economic opportunities for residents.

(3) In order that the state may receive any long-term economic and fiscal benefits from such facilities, a need exists to provide some state assistance to political subdivisions endeavoring to construct, acquire, substantially reconstruct, expand, operate, improve, or equip such facilities.

(4) Therefor, it is deemed to be in the best interest of both the state and its political subdivisions that the state assist political subdivisions in financing the construction, acquisition, substantial reconstruction, expansion, operation, improvement, or equipping of such facilities.

(5) The amount of state assistance shall be limited to a designated portion of state sales tax revenue collected by retailers and operators doing business at such facilities on sales at such facilities, state sales tax revenue collected on primary and secondary box office sales of admissions to such facilities, and state sales tax revenue collected by associated hotels.

13-2801 Municipal county; creation; procedure.

(1) One or more counties and at least one of the municipalities in each county may create a municipal county to carry out all county services and all municipal services. The process of creating a municipal county shall begin by passage of a joint resolution by the governing bodies of the counties and municipalities involved. The joint resolution may be initiated by the governing bodies or by petition as provided in subsection (2) of this section.

(2) Whenever registered voters of any county and of at least one municipality in the county, equal in number to ten percent of the total vote cast for Governor in the county or municipality at the preceding election, petition the respective

county board and city council or village board of trustees to pass a resolution as contemplated by this section, it shall be the duty of the county board and city council or village board to pass a joint resolution creating an interjurisdictional planning commission. Petitions shall be filed with the county clerk, election commissioner, city clerk, or other officer having charge of the records of the governing body. The official shall ascertain the number of registered voters signing such petitions and transmit his or her findings, along with the petition, to the county board and city council or village board of trustees.

(3) Within ninety days after the passage of the joint resolution or within ninety days after receipt of a petition by the registered voters, the governing bodies of the counties and municipalities involved shall create an interjurisdictional planning commission. A commission may also be created by the district court having jurisdiction over the counties and municipalities involved upon the failure by the counties and municipalities to pass a joint resolution after submission of a petition by the registered voters. The commission shall have no less than nine members and no more than twenty-one members representing the counties and municipalities involved as determined by the governing bodies of the counties and municipalities involved in order to achieve proportionate representation. The governing bodies shall select the members. Representation on the commission shall be prorated based upon population of the counties and municipalities involved, except that (a) each county and each municipality involved shall have at least one representative selected by its respective governing body and (b) not more than forty percent of the total membership shall be public officials. Meetings of the commission shall be subject to the Open Meetings Act.

(4)(a) The commission shall hold at least one public hearing prior to preparing the plan for the creation of the municipal county, study all governmental subdivisions in the affected area, and then make a determination of whether creation of a municipal county is in the public interest. If it is not in the public interest to do so, the commission shall issue a report stating its findings, including, but not limited to, any recommendations regarding (i) interlocal agreements, (ii) agreements to provide for the joint delivery of services, or (iii) any other such recommendations. If it is in the public interest to do so, the commission shall prepare one plan for the creation of the municipal county. Such plan shall be approved by the governing body of each county and each municipality involved prior to submission of the issue to a vote of the registered voters unless the commission was created by a petition of the registered voters.

(b) The plan shall specify (i) which counties and municipalities will be dissolved upon creation of the municipal county, (ii) the form of government, with an elected executive officer, a professional municipal county manager or administrator appointed by the commission, or both, to operate the executive functions of the municipal county, (iii) the number of council members of the municipal county and whether they will be elected by district or at large, and (iv) which elected officials, if any, will be eliminated.

(c) At least ninety days prior to submission of the issue to a vote of the registered voters, the commission and the governing body of each county and each municipality involved shall hold at least one public hearing in its respective jurisdiction and make available for review by residents of the county and municipality all material terms and conditions set forth in the resolution to create the municipal county, including information regarding the tax implica-

tions and quality and cost of services to be provided by the proposed plan to create the municipal county.

(5) Upon approval of the plan by the governing body of each county and each municipality involved, if required, or upon the governing bodies' approval or failure to approve if the commission was created by a petition of the registered voters, the county clerks or election commissioners shall place the issue on the ballot at the next primary, general, or special election.

The plan shall further include a recommendation with regard to the territory which shall be deemed to be within the corporate boundary limits or extraterritorial zoning jurisdiction of a municipality or a municipality dissolved by the creation of the municipal county for purposes of the State Natural Gas Regulation Act. The resolution may be initiated by the council or by petition as provided in subsection (2) of this section.

(2) Whenever registered voters of the municipal county, equal in number to ten percent of the total vote cast for Governor in the municipal county at the preceding election, petition the council to pass a resolution as contemplated by this section, it shall be the duty of the council to pass a resolution creating a dissolution planning commission. Petitions shall be filed with the election official. The election official shall ascertain the number of registered voters signing such petitions and transmit his or her findings, along with the petition, to the council.

(3) Within ninety days after the passage of the resolution or within ninety days after receipt of a petition by the registered voters, the council shall create a dissolution planning commission. If it is not in the public interest to do so, the commission shall issue a report stating its findings. If it is in the public interest to do so, the commission shall prepare one plan for the dissolution of the municipal county. Such plan shall be approved by the council prior to submission of the issue to a vote of the registered voters unless the commission was created by a petition of the registered voters. The plan shall specify (a) which counties and municipalities will be reestablished upon dissolution of the municipal county, and (b) which elected officials, if any, will be reestablished. At least ninety days prior to submission of the issue to a vote of the registered voters, the commission and the council shall hold at least one public hearing in each county and municipality proposed to be reestablished and make available for review by residents of the municipal county all material terms and conditions set forth in the resolution to dissolve the municipal county, including information regarding the tax implications and quality and cost of services to be provided by the proposed plan to dissolve the municipal county.

(5) Upon approval of the plan by the council, if required, or upon the council's approval or failure to approve if the commission was created by a petition of registered voters, the election official shall place the issue on the ballot at the next primary, general, or special election. The question may include any terms or conditions set forth in the resolution, such as the services

to be provided by the municipalities and the timing of the dissolution implementation, and shall include any offices to be reestablished.

(6) The election official shall give notice of the submission of the question not more than thirty days nor less than ten days before the election by publication one time in one or more newspapers published in or of general circulation in the municipal county in which the question is to be submitted. This notice is in addition to any other notice required under the Election Act.

(7) The vote shall be tabulated in each municipality which is proposed to be created by the dissolution separately from the areas outside the boundaries of the proposed municipalities. If a majority of those voting on the question in the area within the boundaries of any proposed municipality and the areas outside the proposed municipalities vote in favor of dissolution, the municipal county shall be deemed to be dissolved according to the terms of the resolution. If the dissolution is not approved by a majority of those voting in the election in the area within the boundaries of any proposed municipality or the areas outside the proposed municipalities, the dissolution shall be deemed rejected.

(8) Any election under this section shall be conducted in accordance with the procedures provided in the Election Act.

14-116 Real estate within three miles of city; subdividing; platting; conditions; powers of city council; requirements.

No owner of any real estate located in an area which is within three miles of the corporate limits of any city of the metropolitan class, when such real estate

is located in any county in which a city of the metropolitan class is located, and is outside of any organized city or village, shall be permitted to subdivide, plat, or lay out the real estate in building lots and streets or other portions of the same intended to be dedicated for public use or for the use of the purchasers or owners of lots fronting thereon or adjacent thereto without first having obtained the approval thereof by the city council of such city and, when applicable, having complied with sections 39-1311 to 39-1311.05. No plat of such real estate shall be recorded in the office of the register of deeds or have any force or effect unless the same shall have been first approved by the city council of such city. Such city shall have authority within such area to regulate the subdivision of land for the purpose, whether immediate or future, of transfer of ownership or building development; to prescribe standards for laying out subdivisions in harmony with a comprehensive plan; to require the installation of improvements by the owner or by the creation of public improvement districts; by requiring a good and sufficient bond guaranteeing installation of such improvement, or by requiring the execution of a contract with the city insuring the installation of such improvements; and to require the dedication of land for adequate streets, drainage ways, and easements for sewers and utilities. All such requirements for improvements shall operate uniformly throughout the area of jurisdiction of such city. For purposes of this section, subdivision shall mean the division of a lot, tract, or parcel of land into two or more lots, blocks, or other divisions of lands for the purpose, whether immediate or future, of ownership or building developments except that the division of land shall not be considered to be subdivision when the smallest parcel created is more than ten acres in size. The city council of any such city may withhold approval of a plat until the appropriate department of the city has certified that the improvements required by ordinance have been satisfactorily installed or until a sufficient bond guaranteeing installation of the improvements has been posted with the city or until public improvement districts have been created or until a contract has been executed insuring the installation of such improvements.

1. Powers of city

The act of annexation is a matter of statewide concern, and therefore the state statutes, not the city charter provisions, are controlling. S.I.D. No. 95 v. City of Omaha, 221 Neb. 272, 376 N.W.2d 767 (1985).

No restriction on right to extend corporate limits of metropolitan city when properly exercised, and when proper procedures followed taxpayers have no right to intervene in legal actions involving annexation proceedings. The primary concern of this statute is to insure proportionate representation to every socioeconomic segment of the population of a metropolitan class city. 14-210 Ordinances; adoption by initiative; procedure.

The right to enact ordinances for any metropolitan city is hereby granted to the qualified electors of such city, but such grant is made upon the following conditions and in addition to the right herein granted to the council to legislate:

Whenever qualified electors of any such city equal in number to fifteen percent of the vote cast at the last preceding city election petition the council to enact a proposed ordinance, it shall be the duty of the council to either enact such ordinance without amendment within thirty days or submit the same to a vote of the people at the next election held within such city regardless of whether such election be a city, county or state election. Whenever such proposed ordinance is petitioned for by qualified electors equal in number to twenty-five percent of the votes cast at the last preceding city election and such petition requests that a special election be called to submit the proposed ordinance to a vote of the people in the event that the council shall fail to enact the same, it shall be the duty of the council to either enact such ordinance without amendment within thirty days or submit such ordinance to a vote of the people at a special election called by the council for that purpose. The date of such election shall not be less than fifty days nor more than seventy days after the filing of the petition for the proposed ordinance. The petition herein provided for shall be in the general form and as to signatures and verification as provided in section 14-212, shall be filed with the city clerk, and if there be no city clerk, then with such other officer having charge of the records of the city council. Said officer shall immediately ascertain the percent of the voters signing such petition and transmit his findings, together with such petition, to the council. In the event the council shall fail to enact such ordinance, the council shall submit the same to a vote of the people of such city as herein provided. The mayor shall issue a proclamation notifying the electors of such election at least fifteen days prior to such election, and the council shall cause to have published a notice of the election, and a copy of such proposed ordinance once in each of the daily newspapers of general circulation in the city, and, if there be no daily newspaper published within such city, then once in each weekly newspaper of general circulation in such city, such publication to be not more than twenty nor less than five days before the submission of the proposed ordinance to the electors. All proposed ordinances shall have a title which shall state in a general way the purpose and intent of such ordinance. The ballots used when voting upon such proposed ordinance shall contain the following: For the ordinance (set forth the title thereof) and Against the ordinance (set forth the title thereof). If a majority of the electors voting on the

proposed ordinance shall vote in favor thereof such ordinance shall thereupon become a valid and binding ordinance of the city. An ordinance so adopted shall not be altered or modified by the council within one year after the adoption thereof by the people. Any number of proposed ordinances may be voted upon at the same election in accordance with the provisions of this section; *Provided*, the same measure, either in form or essential substance, shall not be submitted more often than once in two years.

14-211 Ordinances; repeal by referendum; procedure.

If during said fifteen days a petition, signed and verified, as hereinbefore provided, by electors of the city equal in number to at least fifteen percent of the highest number of votes cast for any of such councilmen at the last preceding general city election, protesting against the passage of such ordinance, shall be presented to such council, then such ordinance shall thereupon be suspended from going into operation, and it shall be the duty of the council to reconsider such ordinance. If the same be not entirely repealed by the council, then the council shall proceed to submit to the voters such ordinance at a special election to be called for that purpose or at a general city election, and such ordinance shall not go into effect or become operative unless a majority of the qualified electors voting on the same shall vote in favor thereof. Such petition shall be in all respects in accordance with the provisions of section 14-212 relating to signatures, verification, inspection and certification.

(c) SEWERAGE, DRAINAGE, SPRINKLING, PAVING REPAIR, AND CONTRACTORS' BONDS

14-360 Sewerage and drainage; regulations; creation of districts; powers of city; territory outside corporate limits.

The city shall have power to lay out the city, or parts thereof, or portions of the territory within three miles of the corporate limits thereof, into suitable districts for the purpose of establishing a system of sewerage and drainage; to provide such system and regulate the construction and repair and use of sewers and drains, the reconstruction of sewers in any district or part thereof and all proper house construction and branches; to provide penalties for any obstruction of, or injury to, any sewer or part thereof; and to require and compel sewer connections to be made; *Provided*, the city shall not create a district outside the corporate limits of such city, when the district includes land already included

within an existing district created under the provisions of Chapter 31, article 7, without the consent of the trustees of such district.

City has power to create a sewerage district and construct therein a sewerage system, but the exercise of such power is discretionary. Wilson v. City of Omaha, 138 Neb. 13, 291 N.W. 732 (1940).

City is authorized but is not required to construct storm sewers. Adams v. City of Omaha, 119 Neb. 753, 230 N.W. 680 (1930).

City may create new district within larger one and assess cost on abutting owners according to special benefits derived therefrom, and party seeking to enjoin collection of assessment must show injury by said division. Shannon v. City of Omaha, 73 Neb. 507, 103 N.W. 53 (1905), affirmed on rehearing 73 Neb. 514, 106 N.W. 592 (1906).

Unless finding of board shows that benefits are equal as to all lots within sewerage district, levy according to frontage is void. John v. Connell, 64 Neb. 233, 89 N.W. 806 (1902).

City cannot include property not specially benefited thereby in sewerage district and levy assessment on it for cost of sewer. Hanscom v. City of Omaha, 11 Neb. 37, 7 N.W. 739 (1881).

14-361 Sewerage and drainage; connections; city may require; notice to property owners; construction by city; assessment of cost.

Whenever sewer connections for sewerage or drainage may be deemed necessary or advisable, whether within the corporate limits or within areas within three miles of such corporate limits, the property owners shall be given thirty days from the publication of the ordinance ordering such improvements and connections, to make the same in conformity with approved plans to be kept on file by the city. The publication of such ordinance ordering such connections in the official newspaper shall be the only notice required to be given such property owners. Upon the failure or neglect of the property owners to construct such connections within the time fixed, the city shall cause such work to be done and shall contract therefor with the lowest responsible bidder. The cost thereof, including superintendence and inspection, shall be assessed against the property to which such connections have been made in the same manner as special taxes are levied for other purposes.

Person filing protest against special assessments before time fixed in notice for meeting of board thereby waives all defects in notice. Shannon v. City of Omaha, 73 Neb. 507, 103 N.W. 53 (1905), affirmed on rehearing 73 Neb. 514, 106 N.W. 592 (1906).

14-362 Sewerage and drainage; connections; permit required; assessment of cost; conditions.

The city shall require the issuance of a permit to connect with any sewer on any street, alley or private property within the corporate limits or within three miles thereof, and shall require the sewer assessment on the abutting property to be paid before such permit is issued; *Provided*, that if such assessment is being paid in installments as by law provided, the city shall require delinquent and current installments to be paid before such permit is issued. In case the cost of the sewer has not been assessed, or such assessment has been declared invalid by any court of competent jurisdiction, the city shall require the payment of the pro rata share of the cost of such sewer before such permit is issued.

14-363 Street sprinkling or armor-coating districts; creation; contracts; bids; special assessments; collection.

The city council may provide for the sprinkling or armor coating of the streets of the city and, for the purpose of accomplishing such work, may by ordinance create suitable districts to be designated sprinkling or armor-coating districts and may order and direct the work, including preparatory grading, to be done upon any or all of the streets in the districts. The work shall be done upon contract in writing let upon advertisement to the lowest responsible bidder. Such advertisement shall specify the district or districts proposed to be so worked, especially describing the same, and bids shall be made and contracts let with reference to such district or districts so specified. For the purpose of paying the cost of the work contemplated and contracted for, the city council may levy and assess the cost upon all lots, lands, and real estate in the district, such tax or assessment to be equal and uniform upon all front footage or property within or abutting upon the streets within the district so created. The assessment shall be a lien upon all such lots, lands, and real estate and shall be enforced and collected as are other special assessments.

14-364 Paving repair plant; establishment; cost of operation; payment.

The city council may establish and maintain a paving repair plant and may pave or repair paving. The cost of such repairs may be paid from the funds of the city or may be assessed upon the abutting property, except that the cost may be assessed against abutting property only following the creation of a paving repair or repaving district established and assessed in the same manner provided for a sprinkling or armor-coating district by section 14-363. The assessable paving repairs shall be only those made with asphaltic concrete on streets in previously developed areas which were not constructed to city permanent design standards.

14-365 Public contractors; bonds required.

All persons who contract with the city for work to be done, or material or supplies to be furnished, shall give bond to the city, with not less than two sureties in an amount not less than fifty percent of the amount of the contract price, for the faithful performance of the same. The sureties on the bonds shall be resident freeholders of the county within which the city is situated and shall justify under oath that they are worth double the amount for which they may sign the bond, over and above all debts, liabilities, obligations and exemptions. The city council may, however, accept security from one or more reliable sureties or guaranty companies for the same amount.

14-365.01 Sewerage systems and sewage disposal plants; construction; operation; territorial limits; tax authorized.

Any city of the metropolitan class in this state is hereby authorized to own, construct, equip, and operate either within or without the corporate limits of such municipality a sewerage system, including any storm sewer system, and plant or plants for the treatment, purification, and disposal in a sanitary manner of the liquid and solid wastes, sewage, and night soil of the area or to extend or improve any existing sewerage system, including any storm sewer system. It shall have authority to acquire by gift, grant, purchase, or condemnation necessary lands therefor, either within or without the corporate limits of such municipality. For the purpose of owning, operating, constructing, maintaining, and equipping such sewage disposal plant and sewerage system, including any storm sewer system, or improving or extending such existing system, any city of the metropolitan class is also authorized and empowered to make a special levy each year of not to exceed three and five-tenths cents on each one hundred dollars upon the taxable value of all the taxable property in such city, as well as all taxable property within three miles of the corporate limits of such city, which property is within a district established under section 14-360, subject to sections 14-365.12 and 14-365.13. The proceeds of the tax shall be used for any of the purposes enumerated in this section and for no other purpose.

The application of this entire act is discussed with reference to a lease-purchase agreement relating to financing a waste disposal plant. Cosentino v. City of Omaha, 186 Neb. 407, 183 N.W.2d 475 (1971).

14-365.02 Sewerage systems and sewage disposal plants; mortgage bonds.

For the purpose of owning, operating, constructing, and equipping such sewage disposal plant or sewerage system, including any storm sewer system, or improving or extending such existing system, a municipality may issue mortgage bonds therefor. Such mortgage bonds as provided in this section shall not impose any general liability upon the municipality but shall be secured only on the property and revenue, as provided in section 14-365.04, of such utility including a franchise stating the terms upon which, in case of foreclosure, the purchaser may operate the system. Such franchise shall in no case extend for a longer period than twenty years from the date of the sale thereof on foreclosure. Such mortgage bonds shall be sold for not less than par. The amount of such mortgage bonds, either issued or outstanding, shall not be included in computing the maximum amount of bonds which the said municipality may be authorized to issue under its charter or any statute of this state.

14-365.03 Sewerage systems and sewage disposal plants; rules and regulations; charges; collection; special assessments.

The governing body of such municipality may make all necessary rules and regulations governing the use, operation, and control thereof. The governing body may establish just and equitable rates or charges to be paid to it for the use of such disposal plant and sewerage system by the owner of the property served or by the person, firm, or corporation using the services. If any service charge so established is not paid when due, such sum may be recovered by the municipality in a civil action, or it may be certified to the tax assessor and assessed against the premises served, and collected or returned in the same manner as other municipal taxes are certified, assessed, collected, and re-

turned, or it may be assessed against the premises served in the same manner as special taxes or assessments are assessed by such city and shall be certified, enforced, collected, and returned as other special taxes or assessments of such city.

Sewer use charge is not a special assessment; a city has authority to make necessary rules and regulations including a reasonable processing charge on delinquent accounts. Rutherford v. City of Omaha, 183 Neb. 398, 160 N.W.2d 223 (1968).

Metropolitan utilities district may establish just and equitable rates for use of sewer system. Metropolitan Utilities Dist. v. City of Omaha, 171 Neb. 609, 107 N.W.2d 397 (1961).

14-365.04 Sewerage systems and sewage disposal plants; mortgage bonds; payment.

Bonds which are issued and secured by a mortgage on the utility, as provided in section 14-365.02, shall not be a general obligation of the municipality, but shall be paid only out of the revenue received from the service charges, as provided in section 14-365.03, or from a sale of the property and the franchise, referred to in section 14-365.02, to operate the system, under a foreclosure proceeding. If a service rate is charged, to be paid as herein provided, such portion thereof as may be deemed sufficient shall be set aside as a sinking fund for the payment of the interest on said bonds, and the principal thereof at maturity.

14-365.05 Sewerage systems and sewage disposal plants; franchises; power to grant; service; payment.

For the purpose of providing for such sewage disposal plant and sewerage system, including any storm sewer system, or improving or extending such existing system, any such municipality may also enter into a contract with any corporation organized under or authorized by the laws of this state to engage in the business herein mentioned, to receive and treat, in the manner hereinbefore mentioned, the sewage and night soil thereof, and to construct and provide the facilities and services as hereinbefore described. Such contract may also authorize the corporation to charge the owners of the premises served such a service rate therefor as the governing body of such municipality may determine to be just and reasonable. The municipality may contract to pay the said corporation a flat rate for such service, and pay therefor out of its general fund or the proceeds of any tax levy applicable to the purposes of such contract, or assess the owners of the property served a reasonable charge therefor to be collected, as provided in section 14-365.03, and paid into a fund to be used to defray such contract charges.

A lease-purchase agreement relating to financing of a waste disposal plant and authorized by this section is not a franchise that violates section 14-811. Cosentino v. City of Omaha, 186 Neb. 407, 183 N.W.2d 475 (1971).

14-365.06 Sewerage systems and sewage disposal plants; general obligation bonds; interest; power to issue.

For the purpose of owning, operating, constructing, and equipping such sewage disposal plant and sewerage system, including any storm sewer system, or improving or extending such existing system, or for the purpose stated in sections 14-365.01 to 14-365.05, any such municipality is also authorized and

empowered hereby to issue and sell the general obligation bonds of such municipality upon compliance with section 14-365.07. Such bonds shall not be sold or exchanged for less than the par value thereof and shall bear interest payable semiannually. The governing body of any such municipality shall have power to determine the denominations of such bonds, and the date, time, and manner of payment.

14-365.07 Sewerage systems and sewage disposal plants; revenue bonds; ordinance; general obligation bonds; election; amount.

(1) Revenue bonds authorized by section 14-365.02 may be issued by ordinance duly passed by the mayor and city council of any city of the metropolitan class without any other authority.

(2) General obligation bonds authorized by section 14-365.06 may be issued only (a) after the question of their issuance has been submitted to the electors of the city of the metropolitan class at a general or special election, of which three weeks' notice has been published in a legal newspaper in or of general circulation in such city, and (b) if a majority of the electors voting at the election have voted in favor of the issuance of the bonds. Publication of such a notice in such a newspaper once each week during three consecutive weeks prior to the date of such election shall constitute a compliance with the requirements of this section for notice of such election. General obligation bonds shall not be issued in excess of one and eight-tenths percent of the taxable value of all the taxable property in the city or in excess of the amount authorized by sections 14-365.12 and 14-365.13.

14-365.08 Sewerage systems and sewage disposal plants; minutes; plans; contracts; bids.

Whenever the governing body of any metropolitan city shall have ordered the installation of a sewerage system, including any storm sewer system, and sewage disposal plant or the improvement or extension of an existing system, the fact that such order was issued shall be recited in the official minutes of the governing body. The said body shall thereupon require that plans and specifications be prepared of such sewerage system, including any storm sewer system, and sewage disposal plant, or such improvement or extension. Upon approval of such plans, the governing body shall thereupon advertise for sealed bids for the construction of said improvements once a week three consecutive weeks in a legal paper published in or of general circulation within said municipality. The contract for such construction shall be awarded to the lowest responsible bidder.

Requirements for competitive bidding are strictly construed against public authorities, but where a process or article is patented, public authorities may specify its use without competitive bidding if it possesses such exceptional superiority that it would be a public injury not to use it. Cosentino v. City of Omaha, 186 Neb. 407, 183 N.W.2d 475 (1971).

14-365.09 Sewerage system and sewage disposal plants; service beyond corporate limits.

The owner of any sewerage system, including any storm sewer system, or sewage disposal plant provided for in sections 14-365.01 to 14-365.08, or the municipality, is hereby authorized to extend the same beyond the limits of the metropolitan city which it serves, under the same conditions, as nearly as may be, as within such corporate limits, and to charge to users of its services reasonable and fair rates consistent with those charged or which might be charged within such corporate limits and consistent with the expense of extending and maintaining the same for the users thereof outside such corporate limits at a fair return to the owner thereof. The mayor and city council of any metropolitan city shall have authority to enter into contracts with users of such sewerage system, including any storm sewer system; *Provided,* no contract shall call for furnishing of such service for a period in excess of ten years.

14-365.10 Sewerage system; rental or use charges; collection; lien; proceeds; disposition.

The mayor and city council of any metropolitan city, in addition to other sources of revenue available to the city, may by ordinance set up appropriate rental or use charges to be collected from users of any of its system of sanitary sewerage and provide methods of collection thereof; *Provided*, that users shall include in part any users outside of such city where the sewer is directly or indirectly connected to the sewerage system of such city and users within any sanitary and improvement district now existing or hereafter organized under the laws of this state when the sewerage system, or any part thereof, of the sanitary and improvement district directly or indirectly connects to any part of the sewerage system of the metropolitan city. The charges shall be charged to each property served by its sewerage system, shall be a lien upon the property served, and may be collected either from the owner or the person, firm, or corporation using the service. All money raised from the charges shall be used for maintenance or operation of the existing system, for payment of principal and interest on bonds issued, as is provided for in section 14-365.06, or to create a reserve fund for the payment of future maintenance, operation, or construction of a new sewer system for or additions to the sewerage system of the city. Any funds raised from this charge shall be placed in a separate fund and not be used for any other purpose or diverted to any other fund.

14-373.01 Planning board; legislative findings.

The Legislature finds that:

(1) The exercise of zoning, planning, and other concomitant powers by a city of the metropolitan class in the area of extraterritorial jurisdiction described and authorized by state law necessarily affects property outside the corporate boundaries of the city and persons who are not inhabitants of or electors in the city;

(2) The protection of unrepresented persons and property affected by a statutorily created zoning and planning process is a matter of state concern; and

(3) The protection of such unrepresented persons and property would be facilitated by requiring that at least one person residing in the area of extraterritorial jurisdiction and appointed by an elected body of the area of extraterritorial jurisdiction serve as a member of the planning board of the city of the metropolitan class if a planning board exists.

14-375 City planning board; vacation of streets or alleys; procedure; appointment of committees; effect; appeal.

Upon the recommendation of the city planning board, the city council may, by ordinance or resolution, vacate any street or alley within any such city without any petition being filed therefor. Before any such street or alley shall be vacated, the council shall appoint a committee of at least three members thereof, who shall faithfully and impartially and after reasonable notice to the owners and parties interested in property affected by such vacation, assess the damages, if any, to such owners and parties affected. They shall take into consideration the amount of special benefits, if any, arising from such vacation and shall file their report in writing with the city clerk. Any owner or party interested in property affected by such vacation, who shall file a written protest with such committee, may appeal from the adoption by the council of such appraisers' report in the manner provided in section 14-813, but such appeal shall not stay the passage of the ordinance or resolution vacating such street or alley. The award of appraisers shall be final and conclusive as the order of a

court of general jurisdiction, unless appealed from. When the city vacates a street or alley, the city shall, within thirty days after the effective date of the vacation, file a certified copy of the vacating ordinance or resolution with the register of deeds for the county in which the vacated property is located to be indexed against all affected lots.

Without limiting the applicability of sections 14-366 to 14-372, the city council is authorized to levy special taxes and assessments on properties benefited by parks, recreational areas, and playgrounds acquired either by purchase or condemnation without regard to whether the benefited property is within or without the corporate limits of such city when an improvement district is created by the city council and approved by a majority of the property owners in the district as provided in this section. Each property owner may cast one vote at an election to be held to determine whether such improvement district shall be created for each fifteen thousand dollars of taxable valuation, or fraction thereof, of real property and improvements in the proposed district as determined by the official records of the county assessor for the previous calendar year. When such a district is created by the city council and approved by a majority of the property owners, the special taxes shall be levied proportionately to the taxable valuation of the district. The city may provide for the elimination of intersections at grade with existing roads, streets, highways, or alleys if it finds the public interest shall be served thereby. An existing road, street, alley, or other traffic facility may be included within such facilities or such facilities may include new or additional roads, streets, highways, or the like. In order to carry out the purposes of this section, in addition to any other powers it may have, the city may acquire in public or private property such rights of access as are deemed necessary, including but not necessarily limited to air, light, view, ingress, and egress. Such acquisitions may be by gift, devise, purchase, agreement, adverse possession, prescription, condemnation, or otherwise as provided by law and may be in fee simple absolute or in any lesser estate or interest. The city may make provision to mitigate damages caused by such acquisitions, terms and conditions regarding the abandonment or reverter of such acquisitions, and any other provisions or conditions that are desirable for the needs of the city and the general welfare of the public. The city is further authorized to designate, establish, design and construct, maintain, vacate, alter, improve, and regulate frontage roads within

the boundaries of any present or hereafter acquired right-of-way and exercise the same powers over such frontage roads as is exercised over controlled-access facilities. Such frontage roads may be connected to or separated from the controlled-access facilities at such places as the city shall determine to be consistent with public safety. Upon the construction of any frontage road, any right of access between the controlled-access facility and property abutting or adjacent to such frontage roads shall terminate and ingress and egress shall be provided to the frontage road at such places as will afford reasonable and safe connections. If the construction or reconstruction of any controlled-access facility results in the abutment of property on such facility that did not theretofore have direct egress from or ingress to it, no rights of direct access shall accrue because of such abutment, but the city may prescribe and define the location of the privilege of access, if any, of properties that then, but not theretofore, abut on such facility.

14-392 Streets; improvements; assessment of cost.

For the purpose of covering in whole or in part the costs of any of the improvements and costs incident thereto, authorized in sections 14-384 to 14-3,127, including grading done in combination with any other improvements, the city is empowered to assess the property within the improvement district or

the property benefited by change of grade or grading when not made in combination with other improvements, to the full extent of the special benefits thereby conferred upon the respective lots, tracts, and parcels of land, or if the city council shall find that there are common benefits enjoyed by the public at large without reference to the ownership of property abutting or adjacent to the improvement or improvements, or that there is a common benefit to the property embraced within the district or districts, the city is empowered to assess the costs of such improvement or improvements against all the property included in such district or districts, according to such rules as the city council sitting as a board of equalization, shall adopt for the distribution or adjustment of the costs of the improvement or improvements. All such assessments shall be equalized, levied, and collected as provided by law for the equalization, levying, and collection of special assessments.

Whenever it is desired to establish or to change the previously established grade of any street, highway, boulevard, main thoroughfare, controlled-access facility, connecting link, major traffic street, alley, or part thereof, such establishment or change may be authorized by the city. Such authorization shall state the proposed grade by elevations or other definite data and shall refer to a plat with specifications fully detailing and showing the established grade or the amount of change in the grade line, which plat shall remain on file in the city offices. The authorization for and the order establishing or changing the previous grade may include the establishment of or the change of the previously established grade on any number of intersecting or connecting streets which may be reasonably appropriate and necessary to a proper adjustment of grade lines to the principal grade line proposed to be changed or to include the change of grade on cross streets so that traffic on such cross streets may pass under the street to the principal grade line to be changed by a subway or over the street to the principal grade line on a bridge, viaduct, or overpass.

14-394 Streets; change of grade; petition of property owners; sufficiency.

A petition for the order changing the grade may include the change of grade of any number of intersecting or connecting streets which may be reasonably appropriate and necessary to a proper adjustment of grades. In such event the sufficiency of the petition shall be determined by a consideration of the total frontage feet of taxable property upon all the streets or parts thereof upon which it is proposed to change the grades.

14-395 Streets; establish or change grade; authority of city.

All such special assessments shall be equalized, levied, and collected in the manner provided by law for the equalization, levying, and collection of special assessments. All grading shall be done to the full width of the street unless for good and sufficient reason the city directs a different width.

14-398 Streets; change of grade; special assessment; how determined.

Under the methods provided in sections 14-384 to 14-3,127 to grade streets, boulevards, highways, main thoroughfares, controlled-access facilities, connecting links, major traffic streets, alleys, and parts thereof, any number of intersecting and connecting streets reasonably required and proper and necessary to the better and improved use of said streets may be authorized to be graded in one and the same proceeding. The cost thereof as provided in sections 14-384 to 14-3,127 may be assessed upon property specially benefited. In such instances, in determining the sufficiency of either an authorized protest or petition, the total frontage of taxable property on all sides on all of the streets to be graded shall be taken into consideration.

After the grade of any street or alley shall be finally changed or the grading thereof finally ordered as provided in sections 14-384 to 14-3,127 and before any assessments are levied, a committee of at least three disinterested residents of the city shall be appointed by the city to appraise the damages caused by the change of grade or grading. The committee shall promptly make an appraisal of and report its award of such damages as it determines have been occasioned by such change of grade or grading. Prior to entering upon their duties, such appraisers shall take and file such oath as may be by law or ordinance required. The committee shall hold meetings on such reasonable notice to the interested parties as the city may from time to time provide, and may take testimony with respect to the question of damages. The committee shall report its award to the city and the city shall thereupon have authority to approve the same, to change or modify any award on reasonable notice to the interested parties, or to reject the entire report or the award as to any particular property. The appraisers appointed under this section shall be entitled to fees for their time spent which shall be determined in such manner as the city shall from time to time provide.

Within sixty days after such assessment the award of damages shall become due and payable and they must be paid by warrants drawn against the special assessment fund thus created. Any person feeling aggrieved by reason of an award of damages or failure to award sufficient damages may appeal to the district court of the county within which the property is located within the time and in the manner provided by law for such appeals.

14-3,102 Streets; improvements; notice; service; protest; effect; assessments.

Whenever it is desired to make any improvement or improvements authorized in section 14-385, where the costs of such improvement or improvements are to be assessed against the adjacent and abutting property benefited thereby, and no petition has been filed therefor in accordance with section 14-391, the city for that purpose may propose such improvement or improvements stating the specific character of the improvement or improvements thus to be made. The city shall cause to be published in the official newspaper a brief notice of such proposal stating the character of the improvement or improvements proposed thereby, and shall give additional notice to the property owners in the district or districts, or proposed district or districts, as required by the provisions of section 25-520.01. If within thirty days thereafter the owners of fifty-one percent of the taxable property abutting upon the street or streets, or part or parts thereof proposed thus to be improved protest against such project, such work shall not be done. In the absence of such protest, the city shall be authorized to proceed with the work as proposed. The cost and expense thereof,

as provided by law, may be assessed against the property within the district or districts specially benefited to the extent of such benefits. Where assessment against the property within the district or districts specially benefited is not made, or where the improvement or improvements are on a main thoroughfare, major traffic street, or connecting link, or made pursuant to sections 14-3,103 to 14-3,106, this section shall not apply.

The city shall have the power to construct or repair sidewalks along any street or part thereof, or any boulevard or part thereof, of such material and in such manner as it deems necessary and assess the cost thereof upon abutting property. Such assessments except for temporary sidewalks and sidewalk repairs shall be equalized and levied as other special assessments. The city shall cause the construction of sidewalks on at least one side of every major traffic street and main thoroughfare in the city, excluding freeways, expressways, controlled-access facilities, and other streets deemed by the city to demonstrate no or very limited demand for pedestrian use, and may assess the cost thereof upon abutting property. Such construction shall be completed within a reasonable time, based upon an annual review of construction program priorities and available funding sources, following either July 10, 1984, or the creation or annexation of such major traffic street or main thoroughfare, whichever is later.

Where the grade of any street or part of a street has not been established or where a street has not been worked or filled to the established grade or where the street has been graded but does not conform to the established grade the owner of any lots or lands abutting on such street shall only be required to construct or repair such temporary sidewalk along such street with such material as the city may direct.

14-3,105 Sidewalks; construction or repair; notice; service.

Before any sidewalk shall be constructed or repaired by the city, the owner or owners of the lots or lands to be assessed shall be given notice to construct or repair such sidewalk and shall have twenty days after the giving of such notice within which to construct or repair the same. Such notice shall be served or published as directed by ordinance and if the notice be by publication it shall be sufficient to address such notice to the owners generally. The city shall give an additional notice by registered letter or certified mail directed to the last-known address of such owners or their agents, but failure to give such additional notice shall not invalidate the proceedings, or the special assessments for such sidewalk.

14-3,106 Sidewalks; construction or repair; failure of owner; effect.

In case the owner or owners shall fail to construct or repair such sidewalk as directed, the city may construct or repair such sidewalk or cause the same to be done and assess the cost thereof upon the abutting property. Where the owner or owners of abutting property fail to keep in repair the sidewalk adjacent thereto, they shall be liable for all damages or injuries occasioned or recovered by reason of the defective or dangerous condition of such sidewalk.

14-3,107 Streets; vacation; narrow; reversion to abutting owners; improvements; assessment of benefits; vacation of minimal secondary right-of-way; procedure.

(1) Except as provided in subsection (2) of this section, the city may vacate or narrow any street, highway, main thoroughfare, controlled-access facility, connecting link, boulevard, major traffic street, or alley upon petition of the owners of seventy-five percent of the taxable frontage feet abutting upon such street or alley proposed to be vacated and asking for such vacation, or the city, for purposes of construction of a controlled-access highway or to conform to a master plan of the city, may, without petition having been filed therefor, vacate any street or alley or any part thereof in the city. Whenever a street is vacated or narrowed, the part so vacated shall revert to the abutting owners on the respective sides thereof, except that if part or all of the vacated street lies within the State of Nebraska but one side or any part of the street is adjacent to the boundary of the State of Nebraska, all of the street lying within the State of Nebraska or that part lying within the State of Nebraska shall revert to the owner of the abutting property lying wholly within the State of Nebraska. The city may open, improve, and make passable any street, highway, boulevard, main thoroughfare, controlled-access facility, connecting link, major traffic street, or alley. For purposes of this subsection, open refers to the adaptation of the surface of the street to the needs of ordinary travel but does not necessarily require the grading to an established grade. The costs of any of the improvements mentioned in this subsection, except as otherwise provided in sections 14-384 to 14-3,127, to the extent of special benefits thereby conferred, may be assessed against the property specially benefited thereby in the usual manner for assessing special benefits. When the city vacates all or any portion of a street, highway, main thoroughfare, controlled-access facility, connecting link, boulevard, major traffic street, or alley pursuant to this subsection, the city shall, within thirty days after the effective date of the vacation, file a certified copy of the vacating ordinance or resolution with the register of deeds for the county in which the vacated property is located to be indexed against all affected lots.

(2) The city may vacate any minimal secondary right-of-way in the manner described in this subsection. The city may vacate any segment of such right-of-way by ordinance without petition and without convening any committee for the purpose of determining any damages if all affected abutting properties have primary access to an otherwise open and passable public street right-of-way. An abutting property shall not be determined to have primary access if such abutting property has an existing garage and such garage is not accessible without altering or relocating such garage. Title to such vacated rights-of-way shall vest in the owners of abutting property and become a part of such

property, each owner taking title to the center line of such vacated street or alley adjacent to such owner's property subject to the following: (a) There is reserved to the city the right to maintain, operate, repair, and renew sewers now existing there and (b) there is reserved to the public utilities and cable television systems the right to maintain, repair, renew, and operate installed water mains, gas mains, pole lines, conduits, electrical transmission lines, sound and signal transmission lines, and other similar services and equipment and appurtenances above, on, and below the surface of the ground for the purpose of serving the general public or abutting properties, including such lateral connection or branch lines as may be ordered or permitted by the city or such other utility or cable television system and to enter upon the premises to accomplish such purposes at any and all reasonable times. The city shall, within thirty days after the effective date of the vacation, file a certified copy of the vacating ordinance or resolution with the register of deeds for the county in which the vacated property is located to be indexed against all affected lots. For purposes of this subsection, minimal secondary right-of-way means any street or alley which either is unpaved, has substandard paving, or has pavement narrower than sixteen feet and which is a secondary means of access to or from any property abutting the portion to be vacated.

14-3,109 Streets; public utilities; connections; power of city to compel; cost.

The city shall have the power to compel any water company, gas company, or other person, corporation, or firm owning or controlling any pipe or other underground conduits or other appliances usually installed under the surface of the streets, to provide for and construct all connections that may be deemed necessary for the future, to the curb or property lines in all streets, highways, boulevards, controlled-access facilities, main thoroughfares, connecting links, major traffic streets, or alleys to be paved, repaved, or otherwise improved in such manner and in conformity with such plans as may be determined upon. If any such companies or other parties shall neglect to carry out such construction or fail to make the connections required within thirty days after the same shall have been ordered, the city shall be empowered to cause the same to be done and for the purpose of paying therefor the cost thereof shall be deducted from such accounts as the city may have with such companies or persons.

14-3,111 Streets and sidewalks; contract for improvements; bids; advertisement.

No contract for any of the improvements provided by sections 14-384 to 14-3,127 shall be let unless first the city shall have made a detailed estimate of the costs of the contemplated improvement, nor shall any such contract be let until after the city has advertised for and received bids for the performance of such work. If no bid is received within the estimate, no award shall be made upon any bids received until after fifteen days after the time for receiving bids under such advertisement shall have expired. Within such time anyone desiring to do so may file a bid within the estimate and award may be made thereon in like manner as if said bid had been received in pursuance to the advertisement calling for bids. All improvements authorized by sections 14-384 to 14-3,127 shall be done under contract with the lowest responsible bidder, except that when bids are called for by advertisement for grading in a street or alley and no bid is received within the estimate, the city may enter into a contract to do such grading without further advertisement for bids if the contract price be within the estimate and the contract be entered into within thirty days after the time for receiving bids under the advertisement calling therefor.

14-3,112 Sections, how construed.

Nothing in sections 14-384 to 14-3,127 shall be construed as in any way abridging, modifying, or limiting the authority or right heretofore granted to and now possessed by any metropolitan city under general law to improve any road, highway, or boulevard leading into such city for a distance not to exceed six miles from the corporate limits thereof, nor as modifying the procedure under such grant or the power or authority to issue bonds in connection therewith, but such authority is hereby expressly recognized and the power so granted by general law shall not be subject to any of the limitations contained in sections 14-384 to 14-3,127.

time of improving such street and in such event is authorized to include in such improvement of such intersection and spaces the construction, replacement, or repair of sidewalks therein and, except as may be otherwise provided, pay for all such improvements from funds provided for the purpose of improving intersections; *Provided*, that the first priority in the expenditure of funds for such purposes shall be given to improvements within street improvement districts; *and provided further*, the city shall maintain, in a separate fund, not less than twenty-five thousand dollars to be expended solely for the purpose of improving intersections. Such sidewalk construction, replacement, or repair may be included either in the contract for curbings at an intersection or in the contract for paving the same; *Provided*, that such restrictions shall not apply to any funds derived from Chapter 66, articles 4 and 6, which accumulated prior to December 31, 1962.

Petitions for improvements shall be examined and certified for sufficiency as the city may provide. Certificates as to sufficiency when properly filed as provided by the city shall be prima facie evidence of the truth and correctness of the matter therein certified. If such certificates show the petition for any improvement to be irregular, illegal, or insufficient it shall be the duty of the city to give notice by publication for three successive days in the official newspaper of the city of such irregularity, illegality, or insufficiency and the property owners within such districts may at any time file supplemental petitions for such improvement and such supplemental petitions shall be considered and taken as a part of the original petition. 14-402 Building zones; creation; powers of city council; uniformity; manufactured homes.

(1) For any or all of the purposes listed in section 14-401, the city council may divide the municipality into districts of such number, shape, and area as may be deemed best suited to carry out the purposes of sections 14-401 to 14-418. Within such districts the city council may regulate, restrict, or prohibit the erection, construction, reconstruction, alteration, or use of buildings, structures, or land. All such regulations shall be uniform for each class or kind of buildings throughout each district, but the regulations applicable to one district may differ from those applicable to other districts.

(2)(a) The city council shall not adopt or enforce any zoning ordinance or regulation which prohibits the use of land for a proposed residential structure for the sole reason that the proposed structure is a manufactured home if such manufactured home bears an appropriate seal which indicates that it was constructed in accordance with the standards of the Uniform Standard Code for Manufactured Homes and Recreational Vehicles, the Nebraska Uniform Standards for Modular Housing Units Act, or the United States Department of Housing and Urban Development. The city council may require that a manufactured home be located and installed according to the same standards for foundation system, permanent utility connections, setback, and minimum square footage which would apply to a site-built, single-family dwelling on the same lot. The city council may also require that manufactured homes meet the following standards:

(i) The home shall have no less than nine hundred square feet of floor area;

(ii) The home shall have no less than an eighteen-foot exterior width;

(iii) The roof shall be pitched with a minimum vertical rise of two and one-half inches for each twelve inches of horizontal run;

(iv) The exterior material shall be of a color, material, and scale comparable with those existing in residential site-built, single-family construction;

(v) The home shall have a nonreflective roof material which is or simulates asphalt or wood shingles, tile, or rock; and

(vi) The home shall have wheels, axles, transporting lights, and removable towing apparatus removed.

(b) The city council may not require additional standards unless such standards are uniformly applied to all single-family dwellings in the zoning district.

(c) Nothing in this subsection shall be deemed to supersede any valid restrictive covenants of record.

(3) For purposes of this section, manufactured home shall mean (a) a factory-built structure which is to be used as a place for human habitation, which is not constructed or equipped with a permanent hitch or other device allowing it to be moved other than to a permanent site, which does not have permanently attached to its body or frame any wheels or axles, and which bears a label certifying that it was built in compliance with National Manufactured Home Construction and Safety Standards, 24 C.F.R. 3280 et seq., promulgated by the United States Department of Housing and Urban Development, or (b) a modular housing unit as defined in section 71-1557 bearing a seal in accordance with the Nebraska Uniform Standards for Modular Housing Units Act.

14-403 Building zones; regulations; purposes; limitations.

Such regulations shall be made in accordance with a comprehensive plan and designed to lessen congestion in the streets; to secure safety from fire, panic and other dangers; to promote health and the general welfare; to provide adequate light and air; to prevent the overcrowding of land; to secure safety from flood; to avoid undue concentration of population; to facilitate the adequate provision of transportation, water, sewerage, schools, parks and other public requirements, and to promote convenience of access. Such regulations shall be made with reasonable consideration, among other things, as to the character of the district and its peculiar suitability for particular uses, and with a view to conserving the value of buildings and encouraging the most appropriate use of land throughout such municipality. Whenever the city council shall determine that the use or contemplated use of any building, structure or land will cause congestion in the streets, increase the danger from fire or panic, imperil public safety, cause undue concentration or congregation of people, or impede transportation, the council may include in such regulations requirements for alleviating or preventing such conditions when any change in use or zoning classification is requested by the owner.

14-412 Board of appeals; special permits; power to grant; conditions.

The board of appeals shall have specific power to grant special permits to the state, or any political subdivision thereof, and to public utilities for public service purposes, although the application may be in conflict with the provisions of ordinances or regulations adopted under the authority of sections 14-401 to 14-418; *Provided*, that the permit shall be granted upon such conditions as the board of appeals may deem necessary, proper or expedient, to promote the objects of said sections.

14-413 Board of appeals; decision; review by district court; procedure.

Any person or persons, jointly or severally aggrieved by any decision of the board of appeals, or any officer, department, board or bureau of the municipality, may present to the district court a petition, duly verified, setting forth that such decision is illegal, in whole or in part, specifying the grounds of such illegality. Such petition must be presented to the court within thirty days after the filing of the decision in the office of the board.

A decision of a zoning board of appeals may be reviewed by a district court, but this section limits the scope of the district court's review to the legality or illegality of the board's decision. Kuhlmann v. City of Omaha, 251 Neb. 176, 556 N.W.2d 15 (1996).

Any person aggrieved by order of zoning board of appeals may file petition in district court setting up the illegality of action of board. Roncka v. Fogarty, 152 Neb. 467, 41 N.W.2d 745 (1950).

14-414 Board of appeals; decision; review by district court; priority; evidence; judgment; costs.

If, upon the hearing, it shall appear to the court that testimony is necessary for the proper disposition of the matter, it may take evidence or appoint a referee to take such evidence as it may direct and report the same to the court with his findings of fact and conclusions of law, which shall constitute a part of the proceedings upon which the determination of the court shall be made. The court may reverse or affirm, wholly or partly, or may modify the decision brought up for review. Costs shall not be allowed against the board, unless it

shall appear to the court that it acted with gross negligence or in bad faith or with malice in making the decision appealed from. All issues in any proceeding under sections 14-408 to 14-414 shall have preference over all other civil actions and proceedings.

Pursuant to this section, the district court is given only the power to reverse, modify, or affirm the decision of the zoning board of appeals brought up for review. Kuhlmann v. City of Omaha, 251 Neb. 176, 556 N.W.2d 15 (1996).

Acts of board of appeals are judicial in nature and subject to court review. Peterson v. Vasak, 162 Neb. 498, 76 N.W.2d 420 (1956).

On review of action of zoning board of appeals, district court is empowered to reverse or affirm, wholly or partly, or may modify the decision brought up for review. Roncka v. Fogarty, 152 Neb. 467, 41 N.W.2d 745 (1950).

When a district court hears a zoning board decision on appeal, the district court cannot grant a motion of summary judgment. Eastroads, L.L.C. v. Omaha Zoning Bd. of Appeals, 7 Neb. App. 951, 587 N.W.2d 413 (1998).

A district court reviewing a decision of a zoning board of appeals under this section, without taking additional evidence or appointing a referee to do so, functions as an intermediate court of appeals. The filing of a motion for new trial in a court which functions as an intermediate court of appeals does not stop the running of the time within which to perfect an appeal. Morello v. City of Omaha, 5 Neb. App. 785, 565 N.W.2d 41 (1997).

14-415 Building regulations; enforcement; inspection; violations; penalty.

The city, in addition to other remedies, may institute any appropriate action or proceedings to prevent an unlawful erection, construction, reconstruction, alteration, conversion, maintenance or use of any building or structure in violation of any ordinance or regulations enacted or issued pursuant to sections 14-401 to 14-418, to restrain, correct or abate such violation, to prevent the occupancy of said building, structure or land, or to prevent any illegal act, conduct, business or use in or about such premises. Said regulations shall be enforced by the city as it may provide. In addition to and not in restriction of any other powers, the city may cause any building, structure, place or premises to be inspected and examined and to order in writing the remedying of any condition found to exist therein or thereat in violation of any provision of the regulations made under authority of said sections. The owner, general agent, lessee, or tenant of a building or premises or of any part of such building or premises, where a violation of any provision of said regulations has been committed or shall exist, or the general agent, architect, builder, contractor or any other person who commits, takes part or assists in any such violation or who maintains any building or premises in which any such violation shall exist, shall be guilty of a misdemeanor punishable by a fine of not less than ten dollars and not more than one hundred dollars for each and every day that such violation continues.

14-416 Building regulations; other laws; applicability.

Wherever the regulations made under authority of sections 14-401 to 14-418 require a greater width or size of yards, courts or other open spaces, or require a lower height of building or less number of stories, or require a greater percentage of lot to be left unoccupied, or impose other higher standards than are required in any other statute, local ordinance or regulation, the provisions of the regulations made under authority of said sections shall govern. Wherever the provisions of any other statute, local ordinance or regulation require a greater width or size of yards, courts or other open spaces, or require a lower height of building or a less number of stories, or require a greater percentage of lot to be left unoccupied, or impose other higher standards than are required by

the regulations made under authority of said sections, the provisions of such statute, local ordinance or regulation shall govern.

14-417 Existing commission, board of appeals; regulations, decisions; continuance.

Where there already exist a city planning commission and a board of appeals, their continuance is hereby authorized without further act of the city council. All ordinances, rules and regulations, hearings, orders or decisions existing or in effect on April 1, 1925, or substituted or in effect thereafter, shall continue in effect, except insofar as any such shall be in conflict with the provisions hereof.

14-419 Building regulations; within three miles of corporate limits; jurisdiction of city council; powers granted.

The city council, in cities of the metropolitan class, shall have the power by ordinance to regulate, in areas within three miles of the corporate limits, except as to construction on farms for farm purposes, (1) the minimum standards of construction of buildings, dwellings, and other structures, in order to provide safe and sound condition thereof for the preservation of health, safety, security, and general welfare, and as to electric wiring, heating, plumbing, pipefitting, sewer connections, ventilation, size of habitable rooms, and the method of constructing buildings, and to provide for inspection thereof and building permits, (2) the removal and tearing down of buildings, dwellings, and other structures in such areas which constitute nuisances because of the dilapidated, unsafe, or rundown condition or conditions, and (3) except as to the United States of America, the State of Nebraska, any county of the state, or any city or village in the state, the nature, kind, and manner of constructing streets, alleys, sidewalks, curbing or abridging curbs, driveway approaches constructed on public right-of-way, and sewers.

A district court cannot properly order a zoning board of appeals to issue building permits, as this section provides that issuance of those permits is the province of a city council. Stratbucker Children's Trust v. Zoning Bd. of Appeals, 243 Neb. 68, 497 N.W.2d 671 (1993).

Power was granted to city of metropolitan class to regulate curb cuts within three-mile zoning limits. Jacobs v. City of Omaha, 181 Neb. 101, 147 N.W.2d 160 (1966).

14-420 Request for change in zoning; notice; requirements; failure to give; effect.

(1) A city of the metropolitan class shall provide written notice of any properly filed request for a change in the zoning classification of a subject property to the owners of adjacent property in the manner set out in this section.

(2) Initial notice of the proposed zoning change on the subject property shall be sent to the owners of adjacent property by regular United States mail, postage prepaid, to the owner's address as it appears in the records of the office of the register of deeds, postmarked at least ten working days prior to the planning board public hearing on the proposed change with a certified letter to any registered neighborhood association when the subject property is located within the boundary of the area of concern of such association. Each neighborhood association desiring to receive such notice shall register with the city the area of concern of such association and the name and address of the individual who is to receive notice on behalf of such association. The registration shall be in accordance with any rules adopted and promulgated by the city. Such notice shall describe the subject property or give its address, describe the nature of the zoning change requested, and contain the date, time, and location of the planning board hearing.

(3) A second notice of the proposed zoning change on the subject property shall be sent to the same owners of adjacent property who were provided with notice under subsection (2) of this section. Such notice shall be sent by regular United States mail, postage prepaid, to the owner's address as it appears in the records of the office of the register of deeds, postmarked at least ten working days prior to the city council public hearing on the proposed change. Such notice shall describe the subject property or give its address, describe the nature of the zoning change requested, and contain the date, time, and location of the city council public hearing.

(4) No additional or further notice beyond that required by subsections (2) and (3) of this section shall be necessary in the event that the scheduled planning board or city council public hearing on the proposed zoning change is adjourned, continued, or postponed until a later date.

(5) The requirements of this section shall not apply to proposed changes in the text of the zoning code itself or any proposed changes in the zoning code affecting whole classes or classifications of property throughout the jurisdiction of the city.

(6) Except for a willful or deliberate failure to cause notice to be given, no zoning decision made by a city of the metropolitan class either to accept or reject a proposed zoning change with regard to a subject property shall be void, invalidated, or affected in any way because of any irregularity, defect, error, or failure on the part of the city or its employees to cause notice to be given as required by this section if a reasonable attempt to comply with this section was made. No action to challenge the validity of the acceptance or rejection of a proposed zoning change on the basis of this section shall be filed more than one year following the date of the formal acceptance or rejection of the zoning change by the city council.

(7) Except for a willful or deliberate failure to cause notice to be given, the city and its employees shall not be liable for any damage to any person resulting from any failure to cause notice to be given as required by this section when a reasonable attempt was made to provide such notice. No action for damages resulting from the failure to cause notice to be provided as required by this section shall be filed more than one year following the date of the formal acceptance or rejection of the proposed zoning change by the city council.

(8) For purposes of this section:

(a) Adjacent property shall mean any piece of real property any portion of which is located within three hundred feet of the nearest boundary line of the subject property or within one thousand feet of the nearest boundary line of the subject property if the proposed zoning change involves a heavy industrial district classification;

(b) Owner shall mean the owner of a piece of adjacent property as indicated on the records of the office of the register of deeds as provided to or made available to the city no earlier than the last business day before the twenty-fifth day preceding the planning board public hearing on the zoning change proposed for the subject property; and

(c) Subject property shall mean any tract of real property located within the boundaries of a city of the metropolitan class or within the zoning jurisdiction of a city of the metropolitan class which is the subject of a properly filed request for a change of its zoning classification.

Section

(b) MUNICIPAL BONDS FOR VARIOUS PURPOSES

(a) GENERAL PROVISIONS

14-501 Statutory funds; appropriation; limitation.

The city council shall annually or biennially and within the first week of January, if possible, appropriate money and credits of the city in such amounts as may be deemed necessary and proper and set the same aside to the following designated funds to be known as statutory funds: (1) For the fire department of the city, (2) for the police department of the city, (3) for the health department of the city, (4) for the public library, (5) for the purposes of the welfare board, and (6) for the purpose of paying judgments and costs. The amounts so appropriated and set aside to such funds respectively shall be the maximum amounts that may be appropriated to or expended from such funds within the fiscal year or biennial period for the purposes for which such funds respectively are created.

Levy of city and school district taxes within metropolitan city is computed on actual valuation and assessment as returned by county assessor and as equalized for preceding year. Chicago & N. W. Ry. Co. v. Bauman, 132 Neb. 67, 271 N.W. 256 (1937).

14-501.01 Biennial budget authorized.

A city of the metropolitan class may adopt biennial budgets for biennial periods if such budgets are provided for by a city charter provision. For purposes of this section:

(1) Biennial budget means a budget that provides for a biennial period to determine and carry on the city's financial and taxing affairs; and

(2) Biennial period means the two fiscal years comprising a biennium commencing in odd-numbered years.

14-502 Department funds; appropriation; miscellaneous expense fund; requirements; use.

The city council shall at the same time appropriate, from the remaining amount of tax levy of such year and from revenue to be derived from all other sources available for such purposes, money and credits of the city and set the same aside to funds to be designated department funds. The department funds shall be of the same number and of the same designation as the departments into which the government of the city is divided for administration under the commission form of government. The amount so appropriated and set aside to each of the funds respectively shall be an amount deemed sufficient and necessary to take care of the expenses in such department for the fiscal year or biennial period for which the appropriation is made. The amount thus appropriated to each of such departments respectively may be divided and subdivided for the purpose of expenditure as the council may direct, but shall be the maximum amount which may be appropriated to any such department for the fiscal year or biennial period, or which may be expended for the purpose of such department for the fiscal year or biennial period. Any transfer of duties or burdens of one department to another, after an appropriation has been made, shall carry with it a just and equitable pro rata proportion of the appropriation. The amounts so appropriated to the several department funds shall be used

only for the purpose of paying the expenses and liabilities for which appropriated. The city council shall, at the time of the appropriation, estimate the total credits available from taxes levied and other sources for municipal purposes for the fiscal year or biennial period, and the amount remaining after deducting therefrom the amounts appropriated for statutory and department funds shall be the miscellaneous expense fund. The money and credits in the miscellaneous expense fund may be used from time to time to pay the miscellaneous expenses and obligations of the city for which an appropriation has not been made or which are not properly included within the purposes of the appropriation to any of the other funds.

14-503 Fund balances; disposition.

The balances remaining in any of the funds created by sections 14-501 and 14-502 and against which lawful obligations have not been created shall at the expiration of each fiscal year or biennial period be transferred to the general sinking fund of the city by the department of accounts and finances.

14-504 Funds; separate accounts required; apportionment of income to each.

As soon as the apportionment of funds has been made, the department of accounts and finances shall open an account with each such fund authorized to be established by sections 14-501 and 14-502 and shall place a credit to each such fund of ninety percent of the tax levy apportioned to it. Thereafter the department shall credit such funds pro rata with money coming to the city from taxation and other sources which are applicable to current expense purposes until all such credits shall equal one hundred percent of such apportionment. The foregoing pro rata credits in excess of ninety percent shall not apply to the miscellaneous expense fund, but the miscellaneous expense fund shall be credited with all money collected and applicable to current expense purposes after the other funds have received the full one hundred percent of their appropriation.

When city council has good reason to believe that funds apportioned to a department would be exhausted, it is within the right of the city to suspend an employee of the department, but city cannot, in addition to suspension, arbitrarily deduct additional sums from salary. Bishop v. City of Omaha, 130 Neb. 162, 264 N.W. 447 (1936).

14-505 Income other than taxes; to what funds credited.

All receipts derived from the county road fund shall be credited to the fund provided for the maintenance of parks. All receipts from franchises or royalties derived from lighting companies shall be credited to the funds for lighting streets and public grounds; and all receipts hereafter collected for permits issued by the engineering department or for paving repairs to streets shall be placed in, and credited to the fund for the department of public improvements.

Such receipts shall be added to the maximum amounts that may be expended from such funds.

14-506 Funds; limitations upon withdrawals.

The council shall at no time draw warrants or create obligations against any of the funds provided in sections 14-501 and 14-502 in excess of the amount credited thereto at the time of drawing the warrant or creating the obligation. Nor shall the superintendent of any department draw or cause to be drawn a warrant or create or cause to be created an obligation against the appropriation to his department in excess of the amount credited thereto.

14-507 Funds; transfer or diversion prohibited; exception; liability.

The money and credits in each fund authorized and created by sections 14-501 and 14-502 shall be devoted strictly to the purposes for which the fund is created and no part thereof shall be transferred or diverted in any manner or for any purpose. Any transfer or diversion of the money or credits from any of the funds to another fund or to a purpose other and different from that for which appropriated shall render any city councilman voting therefor liable on his official bond for the amount so diverted or used; *Provided*, inspectors of public works paid from special funds may receive pay for their services from the general fund of the city monthly as other employees. Upon the completion of such work, and the levy and collection of the special fund to pay for the same, or the sale of bonds for public works or improvements, an amount equal to that paid said inspectors from the general fund may be taken from such special funds and returned to the general fund from which it was temporarily taken; and the council is hereby authorized to include the cost of inspection in such special funds to be levied and collected.

14-508 Funds; obligation and expenditure; limits upon; effect of exceeding; exceptions.

Neither the city council nor any officer of the city or superintendent of a department shall expend or incur obligations for the expenditure of more money than has been provided and appropriated for the purposes for which the expenditure or obligations for expenditure are made. Any contract or obligation calling for an expenditure in excess of the money and credits provided and appropriated to the purposes for which such contract or obligation is created, shall be void and shall not be enforceable against the city, and the city shall refuse to recognize the validity thereof or to pay or satisfy any such obligation. The foregoing limitations and those contained in sections 14-506 and 14-507 shall not apply to additional expenditures and obligations unavoidably made necessary in efforts to abate or control an extreme or unusual outbreak or epidemic of disease or to expenditures made imperatively necessary by the

occurrence of some unforeseen or uncontrollable disaster to the city at large or a considerable section thereof. Expenditures for the emergency purposes in this section specified shall be made only in pursuance of an ordinance duly passed reciting the conditions making necessary the further appropriation of funds, and the expenditures of such appropriation, shall be limited exclusively to the purposes for which made.

14-509 Funds; obligation and expenditure; violations; liability of officers; actions to recover; duty of city attorney.

To attempt to incur, to incur, to attempt to pay, or to pay any obligation prohibited by sections 14-501 to 14-508 shall be malfeasance in office on the part of the city officer participating therein. To attempt to transfer, to transfer, or to use any of the money or credits appropriated to a fund, to another fund or to other and different purposes and uses for which appropriated shall be held to be malfeasance in office on the part of the officer participating therein. The creation or attempted creation of obligations not authorized by this act or prohibited thereby shall render the members of the city council voting therefor liable to the city for the amount of the obligation so created or the amount of money or credits unlawfully diverted or used, and the voting for such shall be prima facie evidence of malfeasance in office. Thereupon it shall become the duty of the city attorney forthwith to proceed to enforce by suit in the courts of the state such liability against the delinquent officers and the sureties on their bonds. In the event of the refusal or failure of the city attorney so to proceed as above directed, a taxpayer may demand in writing that the city attorney proceed as directed herein, and on his failure so to do within thirty days thereafter, such taxpayer may commence the action herein authorized on the part of the city attorney in the name of the taxpayer and prosecute the same to final judgment. The taxpayer shall, however, as a condition of his right to commence and prosecute such suit give such security for costs as may be directed by the court.

Money of the city shall not be otherwise paid except in instances where it is otherwise specifically provided.

14-512 Sinking fund; purposes; investment.

The council shall provide and maintain a sinking fund for the payment of the general bonds of the city and the interest thereon. Such sinking fund shall be maintained from the following sources of revenue: (1) Amounts raised by taxation for that purpose; (2) balances transferred at the end of each fiscal year or biennial period from the several funds provided for in sections 14-501 and 14-502; and (3) such other amounts and sums as may be transferred thereto by the council. Money and credits in the sinking fund shall be held inviolate, shall not be transferred to any other fund, and shall be used for the purpose of paying (a) the interest on the general bonds of the city, (b) maturing bonds of the city, and (c) bonds of the city which may be paid before maturity. The money and credits thereof when not used or needed for the purposes specified in this section may temporarily be invested in registered general warrants of the city or of the school district situated within the city under such conditions as will enable the same to be obtained and available at any time desired for the purposes specified in this section.

Should the amounts owing exceed the amount of the warrant, the amounts thus deducted shall be credited pro tanto on the obligations owing the city. An assignment of the claim shall not defeat the right of the city to deduct the amount of the debt from the amount due the claimant.

The claimant or his assignee may appeal from the action of the comptroller in so deducting any amount from the claim in the manner provided for appeals in section 14-813. The city treasurer may likewise deduct from the amount of any warrant city taxes and special assessments which have not been deducted by the comptroller.

(1) The city council shall annually certify to the county clerk of the county in which the city is located, by resolution, the tax upon the taxable value of all the taxable property in such city, not to exceed fifty cents on each one hundred dollars, which the city desires to be levied as taxation for all municipal purposes for the ensuing year, subject to the levy limitations contained in section 77-3442.

The amount of bonds which may be issued and sold at any one time shall not exceed the total amount of bona fide contracts actually entered into for the kinds of street improvements included within this section and for the financing of which provisions have not otherwise been made. The proceeds from bonds sold under the authority of this section may be used and employed to finance or to aid in financing the classes and kinds of improvement, inclusive of all proper intersection charges, designated in this section, to wit: Paving, repaving, surfacing and renewing surfaces, changing character of paving, guttering, reguttering, curbing and recurbing, and improvements made in combination as authorized in section 14-391, and macadamizing streets, avenues, alleys, and public thoroughfares of the city.

Bonds issued under the authority of the provisions of section 14-528 shall be denominated bonds to finance street improvements, shall be issued and sold in accordance with the provisions of section 14-515 governing the issuance and sale of bonds, and shall bear an interest rate not greater than the rate of interest specified in said section as respects general bonds of the city. 14-530 Street improvements; bonds; proceeds, uses; special assessment sinking fund; purpose.

The proceeds from the sale of bonds herein authorized, together with all special taxes and assessments to be levied for the classes of improvements designated in section 14-528, and the proceeds in the nature of all earnings and income from the investment and use thereof shall be used and employed to finance such classes of improvements, inclusive of all proper intersection charges. All such proceedings shall be credited to a fund to be designated special assessment sinking fund, and, except such part thereof as may be required to pay proper intersection charges, shall be kept and maintained within such fund. The accumulations in this fund, less the amounts thereof necessary to pay proper intersection charges from time to time, shall constitute a sinking fund to pay interest as it accrues and finally to pay at maturity all bonds issued and sold under the provisions hereof, except such part thereof as has been devoted to the payment of proper intersection charges. The proportion of bonds authorized hereunder and necessary to pay proper intersection charges, inclusive of interest thereon, shall be paid and redeemed from the general sinking fund of the city. In all cases where taxes and special assessments levied under section 14-533 have been paid and have been credited to the special assessment sinking fund, such taxes and special assessments as well as all other credits in said fund may be used to finance other improvements, but only to the extent which will leave the fund available to pay all bonds issued to finance street improvements and interest thereon when maturing or due, except such part as by this section is charged to the general sinking fund of the city.

14-531 Street improvements; bonds; fund to finance intersections; requirements.

The department of accounts and finances shall establish and maintain a fund to be designated fund to finance intersections. Immediately upon the completion of the work of any contract for improvements herein authorized, the city engineer shall carefully estimate and correctly certify to the city council the exact amount which has been spent in the performance of such contract for proper intersection purposes. The council shall at once carefully examine such certification and either approve or reject the amount so certified. If it is rejected, further certifications shall be required until a proper amount has been certified, which shall be approved. As soon as approved, the department of accounts and finances shall charge the special assessment sinking fund with the full amount as approved and shall credit the fund to finance intersections with a like amount. Just before each interest payment date an account shall be correctly and exactly stated between said funds so as to apportion as properly and exactly as possible the respective interest charge against each fund. The two funds above mentioned shall be continuously kept and maintained so that the fund to finance intersections will show exactly or approximately the total amount of bonds which has been devoted to the payment of intersection charges.

14-532 Street improvements; bonds; special assessment sinking fund; investment; special use.

The avails and proceeds of the special assessment sinking fund may, when not required for any of the purposes heretofore specified in section 14-530, be temporarily invested in securities of the United States Government, State of Nebraska, Douglas County, metropolitan city, school district of such city, or publicly owned and operated municipal utilities thereof; but all such investments shall be made so as to be closed out and realized upon whenever the proceeds so invested are needed for the purpose specified in said section. The proceeds of the special assessment sinking fund, insofar as required, may be used to complete the work under a contract where the contractor fails or refuses to perform such work.

14-533 Street improvements; special assessments authorized; use.

Upon the completion of the work under any contract authorized by sections 14-528 to 14-532, the city council is authorized to levy and assess, in the usual manner, special taxes and assessments to the extent of benefits conferred thereby to pay the costs of the improvements less the amount of proper intersection costs under such contract, all of which taxes and special assessments shall constitute a sinking fund, as and for the purposes specified in section 14-530.

14-534 Streets; grading; estimate of cost; contract for.

Before any street, avenue, alley or thoroughfare is graded, the city engineer shall make a careful and detailed estimate of the total cost of such grading, and shall report the same to the council as an approximate estimate of such cost. If such estimate is approved by the council, thereupon a contract may be let for the grading in the manner provided for letting improvement contracts, which contract, however, shall not exceed in total amount the approved approximate estimate.

14-535 Streets; grading; bonds; requirements; interest; maturity; sale; use of proceeds.

As soon as any such contract is let, the city council is thereupon authorized to issue and dispose of bonds of the city in amounts sufficient to pay for the total work to be done under such contract. Unless bonds are disposed of for such purpose, the contract shall not be performed and shall not be binding upon the city. Bonds issued under the provisions hereof shall be denominated grading bonds, and shall state upon the face thereof the street or part of street to be graded from the proceeds thereof. Such bonds shall be due and payable in five years from date thereof, shall draw interest at a rate not to exceed the rate of interest specified in section 45-104.01, as such rate may from time to time be adjusted by the Legislature, payable semiannually, shall have interest coupons annexed, and shall not be sold or disposed of below par, and the proceeds therefrom shall be used only for the purpose of paying the costs of the grading for which issued. Such bonds may be sold or disposed of in the manner deemed

best or advisable. As the work of grading progresses, partial estimates may be allowed and paid and the final estimates paid as soon as allowed.

14-536 Streets; grading; special assessments; rate of interest; sinking fund; use.

Upon the completion of any grading of a street, avenue, alley, or thoroughfare, the city council shall levy in the manner provided in sections 14-501 to 14-566 special assessments, to the extent of the benefits, to cover the total costs of such grading. Special assessments so levied shall be made payable as provided in section 14-537. All installments shall draw interest at a rate not to exceed the rate of interest specified in section 45-104.01, as such rate may from time to time be adjusted by the Legislature, from the time of levy until due, and the rate specified in section 45-104.01, as such rate may from time to time be adjusted by the Legislature, whenever such become delinquent. All such special assessments and all interest accruing thereon shall constitute a sinking fund and shall be used only for the purpose of paying the interest on the bonds issued in that connection as the same accrues and of paying the principal sum of the bonds at the maturity thereof.

14-537 Special assessments; when payable; rate of interest; collection and enforcement.

The assessments of special taxes for improving the streets, alleys, sewers, and sidewalks within any improvement district, except where otherwise provided, shall be made in accordance with this section. The total cost of improvements shall be levied at one time upon the property and become delinquent as provided in this section. The city may require that the total amount of such assessment be paid in less than ten years if, in each year of the payment schedule, the maximum amount payable, excluding interest, is five hundred dollars. If the total amount is more than five thousand dollars, then it shall become delinquent as follows: One-tenth of the total amount shall be delinquent in fifty days after such levy; one-tenth in one year; one-tenth in two years; one-tenth in three years; one-tenth in four years; one-tenth in five years; one-tenth in six years; one-tenth in seven years; one-tenth in eight years; and one-tenth in nine years. Each of the installments except the first shall draw interest at a rate not to exceed the rate of interest specified in section 45-104.01, as such rate may from time to time be adjusted by the Legislature, from the time of levy until the same becomes delinquent and, after the same becomes delinquent, shall draw interest at the rate specified in section 45-104.01, as such rate may from time to time be adjusted by the Legislature, payable in advance, as in case of other special taxes. Such assessments shall be collected and enforced as in other cases of special assessments.

Where the city council, sitting as a board of equalization, shall find the benefits to be equal and uniform, the levy may be according to the front footage of lots or real estate benefited, or according to such other rule as the city council, sitting as a board of equalization, may adopt for the distribution or adjustment of cost upon the lots or real estate benefited by the improvement.

The board or body having charge of such fund is directed to pay such costs of such improvement upon the completion thereof to the city treasurer, and the amount so paid shall be applied to pay the partial costs of such improvement. Whenever any water main is laid by a metropolitan utilities district in a street of a city of the metropolitan class and there are lots or grounds abutting upon such street or embraced within any improvement district which are owned and controlled by the city, one-half the cost of constructing such water main in front of such lot or grounds, if special benefits equal such an amount, to be determined by the metropolitan utilities district, but not to exceed fifty cents per lineal front foot, shall be paid out of the general fund of the city. The city council shall provide for the payment of such costs to the metropolitan utilities district.

The council shall by rule provide for the day or days on which such meetings shall be held and for the opening and closing hours of such meetings. Notice of the date, time, and place of such meeting or meetings shall be published in the official newspaper for at least three days, the first publication to be at least seven days prior to the first session of the board. A majority of all members elected to the council shall constitute a quorum for the transaction of any business properly brought before them, but a less number may adjourn from time to time and compel the attendance of absent members. The board of equalization, after considering all papers relating to the protest and the findings and recommendations of the referee, may make the order recommended by the referee or any other order in the judgment of the board of equalization required by the findings of the referee, may hear additional testimony, or may set aside such findings and hear the protest anew. If a referee is not appointed, the board shall hear and determine all such complaints and shall equalize and correct such assessment. After final deliberation and after all corrections and equalization of assessments have been made, the council may levy such special assessments by ordinance at a regular meeting thereafter. During the month of December of each year, the city council shall prepare, or cause to be prepared, a list of all supplies required for each office and department or board for the ensuing year. Such list shall designate clearly the quantity and quality of the articles required, but shall not specify the particular product of any manufacturer. The city council may negotiate directly with a sheltered workshop for such supplies pursuant to section 48-1503. In the event the council does not negotiate with a sheltered workshop, the city clerk shall advertise for bids on the articles in such list for at least three successive days in the official newspaper. Such advertisement shall state, in substance, that at a certain stated regular meeting of the city council, bids will be received and opened for all such supplies, and it shall be sufficient in such advertisement to describe the articles in a general way and refer to such list as being on file in the office of the city clerk. Such bids shall be received at the first regular meeting of the city council held after such advertisement has been completed, and awards shall be made at the next regular meeting thereafter. Bidders shall not be required to bid on all items included in such estimates, nor upon all items in one class. The council may accept the lowest and best bid on any item or items and may reject any and all bids. Other or additional supplies not exceeding the value of one hundred dollars for any officer or board may be purchased on the request of the mayor and comptroller.

In addition to considering the rate bid for printing, the purchasing agent may give weight to the character of circulation, quality of printing, plant, delivery service, and responsibility of the bidders in determining the lowest and best bid. He may also consider the advantage of the same plant's combining publication of ordinances and providing an ordinance publishing service to subscribers. The purchasing agent shall notify the city clerk of his selection of the official newspaper, which shall continue as such throughout the term of the council. The council may order additional publication of any of its proceedings in any other qualified newspaper or publication. If at any time, the designated official newspaper ceases regular publication or is not giving service satisfactory to the council, the purchasing agent shall recommend another qualified newspaper to the council and, upon approval of the council, it shall become the official newspaper. In case of refusal or neglect of the official newspaper to publish any required notice, the city clerk shall post it in a conspicuous place in the city hall, and he shall keep a written record of such posting witnessed by two persons. The record of such posting shall be evidence that the same was done as required and shall be sufficient to fulfill the requirement of publication. The city shall not be without an official newspaper more than thirty days at a time.

All members or appointees of the fire department shall be subject to removal by the city council under such rules and regulations as may be adopted, and whenever the council shall consider and declare such removal necessary for the proper management or discipline, or for the more effective working or service of the fire department. No member or officer of the fire department shall be discharged for political reasons, nor shall a person be employed or taken into such department for political reasons. Before a fireman can be discharged, charges must be filed against him before the council and a hearing had thereon, and an opportunity given such member to defend against such charges, but this provision shall not be construed to prevent peremptory suspension of such member by his superiors in case of misconduct or neglect of duty or disobedience to orders. Whenever any such suspension is made, charges shall be at once filed before the council by the person ordering such suspension, and a trial had thereon. The council shall have the power to enforce the attendance of witnesses and the production of books and papers, and to administer oaths to them in the same manner and with like effect and under the same penalties as in the case of magistrates exercising civil and criminal jurisdiction under the statutes of the State of Nebraska. It shall have such other powers and perform such other duties as may be authorized or defined by ordinance.

14-1201. Bridges; acquisition; construction; maintenance; operation; powers of city; jurisdiction; exercise of powers.

Section

14-1201 Bridges; acquisition; construction; maintenance; operation; powers of city; jurisdiction; exercise of powers.

Any city of the metropolitan class, including one governed under a home rule charter, is hereby authorized and empowered to acquire by purchase, condem-

nation, bargain and sale, lease, sublease, gift or otherwise, any bridge or viaduct, including approaches and avenues, rights-of-way or easements of access to approaches, necessary real and personal property incident thereto and franchises, special privileges, leases, and contracts in connection with such bridges or viaducts. It is also authorized and empowered to construct and contract for the construction of bridges or viaducts, including all of aforesaid appurtenances, facilities, and property. It is also authorized and empowered thereafter to repair, maintain, extend, renew, reconstruct, replace or enlarge and to mortgage or lease and to use and operate any such bridges or viaducts as toll or free bridges, either or both from time to time for public use and travel of all kinds by railroads, street railways, bus lines, vehicles, and pedestrians, and other uses, any or all as may be determined by the governing body of the city. It may use same for public utility purposes, and fix the rates of toll or the charges for the use of same, and grant nonexclusive franchises for use of same for public utility purposes upon such terms and conditions as may be prescribed by ordinance. It may exercise all such powers within the city limits and five miles outside thereof within the State of Nebraska, and any adjoining state, and across any navigable or nonnavigable stream forming the boundary between such states after having obtained authority, if any be necessary, from such states and from the United States. It may exercise such powers directly through the governing body of the city or any committee thereof or through a bridge commission created as provided in sections 14-1227 and 14-1244 to 14-1246, or part any one and part any other.

Right of city of Omaha to construct bridge across Missouri River and issue revenue bonds payable from bridge tolls upheld. Kirby v. Omaha Bridge Commission, 127 Neb. 382, 255 N.W. 776 (1934).

14-1202 Bridges; powers; joint action authorized.

Any power granted by sections 14-1201 to 14-1252 to such city may be exercised by the city independently or in cooperation with or aid of similar action by any other city or any county in Nebraska, or any city or county in an adjoining state, or the State of Nebraska, or any adjoining states, or state, or the government of the United States, when such other political unit has been authorized by law to exercise the necessary powers. Such joint action may be directly by the governing body of the city through the medium of a joint bridge commission subject to the same conditions provided in said sections for independent action.

14-1203 Bridges; utility franchises; power to grant.

The cities specified in section 14-1201, through the governing bodies thereof, are authorized and empowered to grant franchises for the nonexclusive use of the bridges acquired under sections 14-1201 to 14-1252 to public utilities upon such terms, conditions, and for such consideration as such cities may impose, whether incident to or part of the purchase of an existing bridge and rights of utilities in connection therewith, or otherwise, and thereafter to extend the duration or to amend the terms and conditions thereof. In the case of interstate bridges, any such grant shall be made by the governing body of such city by ordinance and no vote of the electors of the city shall be required. In no case shall such a grant be made by any bridge commission.

14-1204 Bridges; conveyance to state or United States for free bridge; conditions.

In the event that the State of Nebraska, an adjoining state, the government of the United States, either, any or all of them, should agree to take over any bridge acquired by the city or in course of construction under sections 14-1201 to 14-1252 and thereafter maintain and operate same as a free bridge at its or their expense, then such city is authorized to convey such bridge on such conditions to such party or parties. Such conveyance shall not be made unless and until all outstanding bonds issued to finance the bridge have been paid and canceled.

14-1205 Bridges; acquisition; construction; power may be assigned; conditions.

Any such city may grant the exclusive right to purchase an existing bridge or to construct a new bridge, and to maintain any such bridge within a distance not exceeding one mile on each side of the bridge to be so purchased or constructed, for the period necessary to reimburse cost plus not exceeding eight percent thereof for financing charges, together with interest upon said cost and charges, but in no event to exceed ten years, subject to the condition that at the termination of such period, such bridge shall become the sole property of the public and thereafter be maintained and operated by the city as a toll or free bridge as such city may determine from time to time in harmony with the other provisions of sections 14-1201 to 14-1252 and the laws of the United States. Such grant shall be made in the same manner and subject to the same conditions as may be provided in the charter of such city for the granting of franchises. Any such grant or assignment shall by operation of law be subject to the following conditions: The number of officers and employees and the salaries, wages, and compensation thereof shall be reasonable; no person shall be permitted free use of the bridge or use at discriminatory toll; tolls shall be both adequate to hasten payment for the bridge and reasonable to the public; financing costs shall be reasonable and the city may impose requirements and safeguards as to the conservation of funds and insurance of property; complete statements of operations and finances shall be filed with the city clerk on bond interest dates upon completion of the bridge and upon delivery of same to the city; and the city shall have power to require or itself perform audits and examine the books and call for any reports at any time. The city may enforce these obligations in any court of competent jurisdiction. Any such assignment shall by operation of law be subject to the conditions that the plans and specifications, the location, size, type and method of construction, the boundaries and approaches and the estimates of cost of construction and acquisition shall be first submitted to the governing body of the city and receive its approval before any construction shall be commenced or any contract for construction or for financing construction shall be entered into.

14-1206 Bridges; purchase or lease; how conducted.

If any such city shall desire to purchase, lease or sublease any existing bridge and shall have received any such authority as may be necessary from the government of the United States, the governing body of such city may deter-

mine the fair value thereof, the appraised value of which shall not exceed two million dollars, including all interests of any nature therein, and may by written resolution tentatively offer the owners thereof jointly the price so determined, and if all such owners within ninety days thereafter shall file with the city clerk of such city a duly authorized and properly executed written tentative acceptance of such offer, binding themselves to accept the same and to assign such lease or sublease or convey good and complete title by warranty deed when and if the necessary funds shall be provided therefor, then upon the filing of such acceptance, the governing body of the city may submit to the electors thereof, at a special election called for that purpose or at any general election of such city or of the State of Nebraska within one hundred and twenty days after the filing of such acceptance, the question whether such purchase shall be made at the price stated on the ballot and the governing body of the city be authorized to issue bonds of the kind or kinds stated in the proposition and in any such amount as may be required to provide the necessary funds. The proposition so submitted shall be carried if the majority of the electors voting on such proposition shall vote in favor thereof; *Provided*, no election and no vote of electors shall be required upon the question of acquiring by purchase, lease or sublease any existing bridge or issuing revenue bonds, in an amount not to exceed two million dollars as authorized by section 14-1217, for the acquisition by purchase, lease or sublease of any existing bridge, if the governing body of such city shall determine by a vote of a majority of its members to dispense with such election or vote of electors as to such question. If the proposition shall be carried at the election, or if the governing body shall so determine to dispense with such election, the tentative acceptance of the owners of such bridge shall then become final and binding upon them and may be enforced in any court of competent jurisdiction. Such purchase may also be made subject to existing mortgages and the assumption of outstanding bonds. If repairs, reconditioning or reconstruction shall be necessary to place any bridge so purchased or to be purchased in safe, efficient or convenient condition, the governing body of the city shall be empowered to issue additional revenue bonds to provide funds for that purpose in an amount not to exceed fifteen percent of the purchase price of such bridge. Any proposition submitted to the electors shall be published on three consecutive days in the official newspaper of the city to be completed not less than ten days before the date of the election. If and when the governing body of any such city shall determine to dispense with such election or vote of the electors, or if a proposition shall have been submitted to a vote of the electors thereof and carried at such election, such governing body is hereby authorized and empowered to exercise all power and authority reasonably necessary and incidental to the exercise of the powers herein granted.

14-1207 Bridges; right of eminent domain; procedure.

If any such city shall desire to acquire any existing bridge or lease thereof or all interests therein by the exercise of the power of eminent domain, and shall have received any such authority as may be necessary from the government of the United States, it may exercise such power in such manner as Congress may require, and if the manner is not prescribed by Congress, the procedure to

condemn property shall be exercised in the manner set forth in sections 76-704 to 76-724.

14-1211 Bridges; condemnation; award; submission to electors.

Within ninety days after a final condemnation award has been made the governing body of the city shall, if it elects to proceed further, introduce an ordinance providing for the submission to the electors of the city the question whether such award shall be confirmed and the property be taken and bonds of the kind or kinds determined by the governing body of the city, and stated upon the ballot, shall be issued in the amount of the award. Such proposition shall be submitted within ninety days after the ordinance becomes effective at a special election called for that purpose or at any general city or state election, and shall be carried if a majority of the electors voting thereon shall vote in favor thereof. No election and no vote of electors shall be required upon the question of acquiring by condemnation any bridge or issuing revenue bonds as authorized by section 14-1217 for the acquisition by condemnation of any existing bridge, if the governing body of such city shall determine by a vote of a majority of its members to dispense with such election or vote of electors as to such question.

14-1212 Bridges; condemnation; award; payment; vesting of title.

If such proposition is carried, or if the governing body shall so determine to dispense with such election, title to the property to be appropriated shall at once vest in said city, and the right to possession shall vest in said city as soon as money in the amount of said award is on deposit with the county judge.

14-1214 Repealed. Laws 1951, c. 101, § 127.

14-1215 Bridges; acquisition; preliminary expenses; bonds; amount.

Notwithstanding any limitation or requirement contained in the city charter or imposed by other laws upon the limit of indebtedness, the issuance of bonds, the vote of the electors or the exercise of the power of eminent domain in or by such city, the governing body thereof is authorized and empowered to issue and dispose of general obligation bonds to the amount of fifty thousand dollars, or any part thereof, in any one calendar year, to finance preliminary work,

including investigation, soundings, employment of engineers and architects, and any other useful work, or appropriate expenses in connection with the proposed acquisition or construction of any bridge, bridges or viaducts, and the preliminary financing thereof. Such bonds shall be short-term bonds not to exceed three years, redeemable at par on any semiannual interest date upon ten days' notice by publication once in the official newspaper, and may be sold at a discount of not more than two percent. The proceeds of the sale of such bonds may be advanced by the governing body of the city to a bridge commission created as provided in sections 14-1227 and 14-1244 to 14-1246, to be expended by such commission in preliminary work or for costs of operation and maintenance or interest charges as may be necessary. Whether expended by the governing body of the city or by a bridge commission, the amount so expended shall constitute a prior and first lien upon revenue derived from the operation of the bridge in connection with which such expenditures have been had, and shall be repaid as soon as possible and used by the governing body of the city to purchase or redeem said short-term bonds. The amount of such bonds shall be included as a part of the cost of the bridge and shall be repaid out of the proceeds of any bonds issued for permanent financing.

14-1216 Bridges; acquisition; general or revenue bonds authorized.

To finance any of the purposes or powers provided for in sections 14-1201 to 14-1252, the governing body of any such city shall in the first instance determine whether any purchase, condemnation or construction authorized by said sections shall be financed by bonds which are general obligations of the city and which may also be supported by a lien or mortgage on the bridge itself or upon the tolls to be derived therefrom, or both, or by revenue bonds as provided for in section 14-1217 and which are charged solely against the revenue to be derived from such bridge through the collection of tolls, or part one kind of bonds and part the other. It shall not have authority to purchase, condemn nor construct any bridge nor to issue any bonds, except the preliminary bonds specially authorized by section 14-1215, until first authorized by the majority vote of the electors voting on such proposition, which proposition shall indicate the method of acquiring the bridge and the kind or kinds of bonds, at a special election called for that purpose or at any general city or state election; *Provided*, no election and no vote of electors shall be required upon the question of acquiring or constructing any bridge or issuing revenue bonds as authorized by section 14-1217, for the acquisition or construction of any bridge located more than one mile from any existing bridge, other than a railroad bridge, if the governing body of such city shall determine by a vote of the majority of its members to dispense with such election or vote of electors as to such question. This grant of power to issue bonds is in addition to any other power which may now have been or hereafter may be conferred upon such city, and shall be free from the restrictions now imposed by the charter of the city upon the issuance of bonds and incurring of indebtedness, and subject only to the provisions of the Constitution of Nebraska. At such election the proposition shall be separate as to the bonds for each bridge to be acquired or constructed and the amount of bonds may be either a specific amount equal to the estimated total cost of every nature plus not to exceed twenty-five percent, or may be general and authorize the issuance of bonds in such amount as may be found necessary from time to

time to complete the acquisition, construction, and equipment of the bridge and all costs incident thereto, or may be part one and part the other. For all purposes of financing, the total cost of any improvement authorized by sections 14-1201 to 14-1252 may include every item of expense in connection with the project, and among other items shall also include the cost of acquiring every interest of every nature and of every person in any existing bridge, the cost of constructing the superstructure, roadway, and substructure of any bridge, the approaches and avenues or rights-of-way of access thereto and necessary real estate in connection therewith, toll houses and equipment thereof and of the bridge, franchises, easements, rights or damages incident to or consequent upon the complete project expenses preliminary to construction, including investigation and expenses incident thereto, and prior to and during construction the proper traffic estimates, interest upon bonds and all such other expenses as after the beginning of operation would be properly chargeable as cost of operation, maintenance, and repairs.

14-1217 Bridges; acquisition; revenue bonds; power to issue.

Cities of the metropolitan class are hereby authorized to provide funds for the purposes of sections 14-1201 to 14-1252 by the issuance of revenue bonds of such cities, the principal and interest of which bonds shall be payable solely from the special funds herein provided for such payment and as to which, as shall be recited therein, the city shall incur no indebtedness of any kind or nature and to support which the city shall not pledge its credit nor its taxing power nor any part thereof. Such bonds may, at the option of the governing body of such city, be supported by mortgage or by deed of trust.

The rates may also be so fixed and adjusted as to provide a reserve fund reasonably sufficient to provide for the cost of the continued operation, supervision, maintenance, and repair of said bridge or bridges for a period not to exceed twenty-five years after the removal of toll charges. After the provision of said funds has been completed, such bridge or bridges shall thereafter be maintained and operated free of toll unless or until the charging of reasonable tolls is continued or resumed by the governing body of the city or its commission in order to finance reconstruction, extension, enlargement, replacement or renewal of that particular bridge or in aid of the acquisition, construction, reconstruction, extension, enlargement, replacement or renewal of any other bridge owned in whole or in part by said city. 14-1247 Bridges; joint purchase.

Any city specified in section 14-1201 desiring to exercise the power as granted in section 14-1202 to jointly purchase by bargain and sale any existing bridge may do so either when the electors have authorized such joint purchase or have authorized any independent purchase of such bridge. The governing body of the city is authorized to enter into joint contract with the other political unit as to all the conditions of purchase and the conditions of subsequent

reconditioning, operation, toll charges, repair, maintenance, renewal, replacement, enlargement and extension of such bridge. 14-1248 Bridges; joint condemnation; procedure.

Any city specified in section 14-1201 may acquire an existing bridge by entering into joint condemnation proceedings with other political units, as authorized in section 14-1202. Where the property to be condemned is situated within the jurisdiction of more than one political unit or partly in the State of Nebraska and partly in an adjoining state, the political units cooperating shall first enter into contract electing in what jurisdiction and in which state a single joint proceeding to condemn the property as an entirety shall be instituted and the proceedings shall be conducted subject to the law of and in the manner provided for that jurisdiction, or such proceedings may be conducted subject to the law and in the manner provided by an act of Congress conferring the power of condemnation where the property to be acquired is situated in more than one state. For this purpose, cities in this state and specified in section 14-1201 are authorized to become parties to a single proceeding in an adjoining state and to subject themselves to the law of that state governing such proceedings. In the event of such joint proceedings in this state, the procedure to condemn property shall be exercised in the manner set forth in sections 76-704 to 76-724. The contract in this section provided for shall be similar to the contract provided for in section 14-1247 and shall also fix the proportionate contribution to be made by each political unit cooperating and shall also provide for the creation of a joint commission to take over the operation of the property in the event of its acquisition, subject to the conditions provided in sections 14-1244 to 14-1250 with reference to such joint commission. Title to the property condemned shall vest in the political units cooperating as tenants in common when, as, and if the approval of the electors has been had as provided in section 14-1251.

14-1249 Bridges; joint construction; joint management and control.

Whenever the electors of any metropolitan city shall have authorized the construction of a bridge as provided in section 14-1201, the governing body of the city shall have power to construct such bridge independently or jointly with any state or political unit as authorized in section 14-1202. Such cities are authorized to enter into any contract which may be necessary to effectuate this purpose. The title to all property acquired shall vest in the political units cooperating as tenants in common. The actual control of all construction and subsequent operation, including all property necessary to the completed bridge, and all maintenance and repair thereof, and all funds and the collection and custody of tolls shall vest in a joint bridge commission as provided in section 14-1244, which commission and its control shall not be terminated until such tenancy in common shall be terminated.

14-1250 Bridges; rights of cities in adjoining states.

Any city in an adjoining state which has been properly authorized by the laws of that state or the United States, may exercise in the State of Nebraska any and all the powers granted in sections 14-1201 to 14-1252 to cities in Nebraska, subject to the conditions and requirements of said sections.

14-1251 Bridges; acquisition; elections; rules governing.

Elections on propositions arising in connection with the exercise of any of the powers granted by sections 14-1201 to 14-1252 may be submitted by the governing body of the city to the electors thereof at any general, city or state election or at any special election called for that purpose, and any proposition shall be carried if a majority of the electors voting thereon vote in favor thereof. No bridge shall be finally or irrevocably acquired whether by purchase or by condemnation, or by construction, until such action and the necessary financing shall have been approved by a majority of the electors voting on the proposition at a general city or state election or at a special election called for that purpose, or shall have been approved by the governing body of the city, as authorized by said sections. Two or more propositions or questions may be submitted at the same election and on the same ballot provided each is so presented that the electors may vote separately upon each proposition. A vote of the electors authorizing independent action shall be held to also authorize joint action for the purpose so authorized but a vote on a proposition of joint action shall not be held to authorize independent action. The governing body of the city is hereby authorized to determine what shall be included in the proposition to be stated in notices of election and upon the ballots in its full discretion except that any proposition must indicate whether the bridge shall be acquired by the purchase or by the condemnation of an existing bridge or by the construction of a new bridge, and the kind of bonds to be issued to finance the same and the amount of such bonds may be set forth in any manner authorized in said sections.

If any such city shall have adopted a home rule charter it may exercise any powers granted in sections 14-1201 to 14-1251 in the method herein provided or in such other method, in whole or in part, as may from time to time be provided in whole or in part by said home rule charter. The powers hereby conferred are to be exercised without any restriction or limitation under the city charter or laws of the state except the provisions of the Constitution of the state, and are supplementary and additional to powers which have been or may hereafter be conferred upon the city by the laws of the state or charter of the city. All powers granted or provided to be conferred upon the bridge commissions authorized by said sections are likewise granted to and conferred upon and may be exercised by the governing body of the city and the governing body of the city may delegate to any bridge commission created for such city under said sections, in the discretion of such governing body, any or all of the powers,

privileges and rights of approval and restraint conferred upon it by said sections.

14-1702 Parking Authority Law; policy.

It is hereby determined and declared as a matter of legislative finding and policy:

(1) That the traffic in the streets of the business section of metropolitan cities has become congested by the great number of motor vehicles entering and traversing such streets, and the trend is for an ever-increasing number of vehicles on such streets and that, unless appropriate action is taken, the congestion will become worse and constitute a public nuisance;

(2) That (a) the traffic congestion has created a hazard to life, limb, and property of those using such streets, (b) the free circulation of traffic of all kinds

is necessary to the health, safety, and general welfare of the public, and (c) any impeding of the free flow of traffic might seriously affect the rapid and effective fighting of fires and the disposition of the police force and emergency vehicles;

(3) That there is insufficient space, on the streets or places adjacent thereto, to provide the required parking and that convenient offstreet parking would facilitate the free flow of traffic. The space below the surface of property, owned by the county for courthouse sites or other public uses, and the space below the surface of the streets could properly and beneficially be used for parking areas and such use would promote public safety, convenience, and welfare; and

(4) That providing for the relieving of traffic congestion is a matter of public welfare, of general public interest, statewide concern, and within the powers reserved to the state.

In order to remove or reduce the hazards of life and property and the inconvenience of congested traffic on the streets in such cities in this state, it is hereby deemed necessary and of general benefit to the entire State of Nebraska to provide means for such cities to own offstreet vehicle parking facilities exclusively for the parking of motor vehicles.

ARTICLE 18

METROPOLITAN TRANSIT AUTHORITY

Section
14-1801. Metropolitan transit authority; declaration of policy.

Section

14-1801 Metropolitan transit authority; declaration of policy.

It is hereby determined and declared as a matter of legislative finding and policy:

(1) That traffic, passenger, truck, and pedestrian, in the streets of cities of the metropolitan class, a county in which such a city is located, adjacent counties, and cities and villages located in such counties, has become severely congested by the great number of motor vehicles operating therein; that such conditions have been accentuating for a period of years, and all signs and indications are that such congestion will continue to increase; that such conditions constitute a hazard and a handicap to the use of streets within such counties, cities, and villages and constitute a continuing detriment to the operation of all characters of business in such counties, cities, and villages; all of which is a matter of statewide concern, and, unless legislative action is taken, will constitute a public nuisance; and these conditions can and should be relieved by mass transportation of passengers, which an authority, as herein created, could provide.

(2) That such street traffic congestion has created a dangerous hazard to the lives and property of pedestrians and those traveling in private and public vehicles.

(3) That uncongested and unobstructed traffic, both of pedestrians and those riding in or transporting merchandise in vehicles, is necessary to the public health, safety, security, prosperity, well-being, and welfare of all the people.

(4) That such existing congestion of the streets in such counties, cities, and villages handicaps and obstructs the administration of firefighting forces and police protection forces.

(5) That the relieving of congestion in the streets of such counties, cities, and villages and the providing of a comprehensive passenger transportation system in such counties, cities, and villages is a matter of public interest and statewide concern and within the powers and authority inhering in and reserved to the state.

All cities having more than one hundred thousand and less than three hundred thousand inhabitants shall be known as cities of the primary class. The population of a city of the primary class shall consist of the people residing within the territorial boundaries of such city and the residents of any territory duly and properly annexed to such city.

A city may put into its home rule charter any provisions that it deems proper so long as they do not run contrary to the Constitution or to any general statute. Eppley Hotels Co. v. City of Lincoln, 133 Neb. 550, 276 N.W. 196 (1937).

In matters relating exclusively to local and municipal affairs, home rule charter prevails over conflicting provisions in statute. Pester v. City of Lincoln, 127 Neb. 440, 255 N.W. 923 (1934).

Home rule charter may not contravene Constitution or general statutes. Schroeder v. Zehrung, 108 Neb. 573, 188 N.W. 237 (1922).

Classification is not special legislation although only one city in state falls within class. State ex rel. Pentzer v. Malone, 74 Neb. 645, 105 N.W. 893 (1905).

Act was not void as to tax commissioners, nor was it amendatory of state revenue law. State ex rel. Prout v. Aitken, 62 Neb. 428, 87 N.W. 153 (1901).

15-102 Declaration as city of the primary class; when.

Whenever any city not of the metropolitan class shall attain a population of over one hundred thousand inhabitants, and such fact shall be duly certified by the mayor thereof to the Governor under seal, he shall by proclamation declare such city to be of the primary class.

15-104 Corporate limits; extension; annexation of villages; powers of city council.

The corporate limits of such city shall remain as before and the city council may by ordinance at any time include within the corporate limits of such city any contiguous or adjacent lands, lots, tracts, streets, or highways such distance and in such direction as may be deemed proper, and may include, annex, merge or consolidate with such city by such extension of its corporate limits, any village which is within the limits of such city, and which it serves with water service or supply or with a sanitary sewerage system and service, or both such water and sanitary sewerage service. Such city shall have power by ordinance to compel owners of land so brought within the corporate limits to lay out streets and public ways to conform to and be continuous with the streets and ways of such city, or otherwise as appears best for the convenience of the inhabitants of such city and the public. The proprietor of any land within the corporate limits of a city of the primary class or contiguous thereto may lay out such land into lots, blocks, public ways, and other grounds under the name of ..... addition to the city of .... and shall cause an accurate plat thereof to be made, designating explicitly the land so laid out and particularly describing the lots, blocks, public ways, and grounds belonging to such addition. The lots shall be designated by number and by street. Public ways and other grounds shall be designated by name and by number. Such plat shall be acknowledged before some officer authorized to take acknowledgment of deeds and shall have appended to it a certificate made by a registered land surveyor that he or she has accurately surveyed such addition and that the lots, blocks, public ways, and other grounds are staked and marked as required by such city.

When such plat is made, acknowledged, and certified, complies with the requirements of section 15-901, and is approved by the city planning commission, such plat shall be filed and recorded in the office of the register of deeds and county assessor of the county. In lieu of approval by the city planning commission, the city council may designate specific types of plats which may be approved by the city planning director. No plat shall be recorded in the office of the register of deeds or have any force or effect unless such plat is approved by the city planning commission or the city planning director. The plat shall, after being filed with the register of deeds, be equivalent to a deed in fee simple absolute to the city, from the proprietor, of all streets, all public ways, squares, parks, and commons, and such portion of the land as is therein set apart for public use or dedicated to charitable, religious, or educational purposes.

The city council may provide procedures in land subdivision regulations for appeal by any

15-702.01 Controlled-access facilities; designation.

A city of the primary class shall have the power to designate and establish controlled-access facilities, and may design, construct, maintain, improve, alter, and vacate such facilities, and may regulate, restrict, or prohibit access to such facilities so as best to serve the traffic for which such facilities are intended. Such a city may provide for the elimination of intersections at grade with existing roads, streets, highways or alleys, if the public interest shall be served thereby. An existing road, street, alley or other traffic facility may be included within such facilities or such facilities may include new or additional roads, streets, highways, or the like. In order to carry out the purposes of this section, the city, in addition to any other powers it may have, may acquire, in private or public property, such rights of access as are deemed necessary, including but not necessarily limited to air, light, view, egress, and ingress. Such acquisitions may be by gift, devise, purchase, agreement, adverse possession, prescription, condemnation, or otherwise as provided by law and may be in fee simple

absolute or in any lesser estate or interest. The city may make provision to mitigate damages caused by such acquisitions, terms, and conditions regarding the abandonment or reverter of such acquisitions, and any other provisions or conditions that are desirable for the needs of the city and the general welfare of the public.

No automotive service stations or other commercial establishments for serving motor vehicle users shall be constructed or located on the publicly owned right-of-way of, or on any publicly owned or publicly leased land used for, or in connection with, a controlled-access facility.

A city of the primary class is authorized to designate, establish, design, construct, maintain, vacate, alter, improve and regulate frontage roads within the boundaries of any present or hereafter acquired right-of-way and to exercise the same jurisdiction over such frontage roads as is authorized over controlled-access facilities. Such frontage roads may be connected to or separated from the controlled-access facilities at such places as the city shall determine to be consistent with public safety. Upon the construction of any frontage road, any right of access between the controlled-access facility and property abutting or adjacent to such frontage shall terminate and ingress to and egress from the frontage road shall be provided at such places as will afford reasonable and safe connections.

If the construction or reconstruction of any highway, street, or road, to be paid for in whole or in part with federal or state highway funds, results in the abutment of property on such highway, street, or road that did not theretofore have direct egress from and ingress to it, no rights of direct access shall accrue because of such abutment, but the city may prescribe and define the location of the privilege of access, if any, of properties that then, but not theretofore, abut on such highway, street, or road.

In order for property to "abut" a street, according to the terms of this section, the lot line and street line must be in common; mere touching at a single point is not sufficient. City of Lincoln v. Cather & Sons Const., Inc., 206 Neb. 10, 290 N.W.2d 798 (1980).

In every instance the materials shall be so described in the specifications, either by standard or quality, to permit genuine competition between contractor so that there may be two or more bids by individuals or companies in no manner connected with each other and no material shall be specified which shall not be subject to such competition.

The treasurer shall have the power and authority to seize any personal property belonging to any such person or company for the satisfaction of any such special taxes when delinquent, and to sell the same upon the same advertisement and in the same manner as constables are now authorized to sell personal property upon execution at law, but failure to do so shall in nowise affect or impair the lien of the tax or any proceeding allowed by law for the enforcement thereof. The railroad track or any other property upon which such special taxes shall be levied, or so much thereof as may be necessary, may be sold for the payment of such special taxes in the same manner and with the same effect as real estate may be sold upon which such special taxes may be levied. It shall also be competent for any such city to bring civil action against any party owning or operating any such street railway and liable to pay said taxes, to recover the amount thereof, or any part thereof delinquent and unpaid, in any court having jurisdiction of the amount, and obtain judgment and have execution therefor, and no property, real or personal, shall be exempt from any such execution; *Provided*, real estate shall not be levied upon by execution, except by execution out of the district court, on a judgment therein or transcript of a judgment filed therein, as provided by law. No property seized by the treasurer, as hereinbefore provided, or upon any such execution, shall be taken from the officer holding the same upon any order of replevin. No defense shall be allowed in any such civil action, except such as goes to the groundwork, equity and justice of the tax, and the burden of proof shall rest upon the party assailing the tax. In case part of such special assessment shall be shown to be invalid, unjust or inequitable, judgment shall be rendered for such amount as is just and equitable, and costs shall follow the judgment. It shall be competent for the mayor and council, upon the written application of any company, association, corporation or person owning any such street railway, to provide that such special tax shall become delinquent and payable in installments, as in case of taxes levied upon abutting real estate as hereinbefore provided, but such application shall be taken and deemed a waiver of any and all objections to such taxes and to the validity thereof. Such application shall be made at or before the final levy of such taxes. The provisions of this section in regard to the levy, collection, and enforcement of special taxes to pay the cost of paving, repaving, macadamizing or repairing of any such street railways shall apply to all such special taxes.

15-734 Sidewalks; construction; repair; duty of landowner; power of city in case of default; cost; assessment.

The owner of property abutting on public streets is hereby primarily charged with the duty of keeping and maintaining the sidewalks thereon in a safe and

sound condition, and free from snow, ice, and other obstructions; and in default thereof, upon notice to such abutting property owner as hereinafter provided, such abutting property owner shall be liable for injuries or damages sustained by reason thereof. The city is given general charge, control, and supervision of the streets and sidewalks thereof, and is required to cause to be maintained or maintain the same in a reasonably safe condition. It is given full power to require owners of abutting property to keep and maintain the sidewalks thereof in a safe and sound condition and free from snow, ice, and other obstructions, and to require such abutting property owners to construct and maintain the sidewalks of such material and of such dimensions and upon such grade as may be determined by the council. In case such abutting property owner refuses or neglects, after five days' notice by publication, or in place thereof, personal service of such notice, to so construct or maintain such sidewalk, the city through the proper officers may construct or repair such sidewalk or cause the same to be constructed or repaired, and report the cost thereof to the council, whereupon the council shall assess the same against such abutting property. The council may receive bids for constructing or repairing any or all such walks, and may let contracts to the lowest responsible bidders for constructing or repairing the same. The contractor or contractors shall be paid therefor from special assessments against the abutting property. The cost of constructing, replacing, repairing, or grading thereof shall be assessed at a regular council meeting by resolution, fixing the cost along abutting property as a special assessment against such property; and the amount charged or the cost thereof, with the vote by yeas and nays, shall be spread upon the minutes. Notice of the time of such meeting of the council and its purpose shall be published once in a newspaper published and of general circulation in the city at least five days before the meeting of the council is to be held, or, in place thereof, personal notice may be given such abutting property owners. Such special assessment shall be known as special sidewalk assessments, and together with the cost of notice, shall be levied and collected as special taxes in addition to the general revenue taxes, and shall be subject to the same penalties and shall draw interest at a rate not to exceed the rate of interest specified in section 45-104.01, as such rate may from time to time be adjusted by the Legislature, from the date of the levy thereof until satisfied.

(3) The city clerk upon the request of the council, shall, under seal of the city, make out a statement containing a description of the property against which special sidewalk assessments are delinquent, the amount of such special sidewalk assessments, together with interest and penalties thereon, the name of the owner of such abutting property at the time of the levy and the date of the levy, and shall transmit the same to the clerk of the district court; and upon request of the city the clerk of the district court shall issue an order of sale of such abutting property and deliver the same to the sheriff, who shall thereupon cause such property to be advertised and sold as in case of sale of real estate under judgment and execution, except that it shall not be necessary for the said sheriff to cause such property to be appraised; upon sale the sheriff shall report the sale thereof to the district court for confirmation.

In case of sale of any property for such tax or special assessment the same shall be governed by the general revenue law, except as herein otherwise provided, and the rights and limitations shall be the same as in other tax sales; *Provided*, each installment shall draw interest at a rate not to exceed the rate of interest specified in section 45-104.01, as such rate may from time to time be adjusted by the Legislature, payable annually, from levy until due; and installments delinquent shall draw interest at the rate specified in section 45-104.01, as such rate may from time to time be adjusted by the Legislature, until paid.

The finance director shall be responsible for the preauditing and approval of all claims and accounts payable, and no warrant in payment of any claim or account payable shall be drawn or paid without such approval. In order to maintain an action for a claim, other than a tort claim as defined in section 13-903, it shall be necessary, as a condition precedent, that the claimant file such claim within one year of the accrual thereof, in the office of the city clerk, or other official whose duty it is to maintain the official records of a primary-class city.

With regard to those actions subject to the requirements of this section, a cause of action shall be deemed to have accrued when all factors have arisen which would allow the claimant to commence and maintain an action in court with the exception of the filing of the claim pursuant to this section. The conditions precedent to maintaining an action against a city do not apply to actions allegedly arising under 42 U.S.C. section 1983. Bauers v. Concerning a contract claim against a city of the primary class, this section requires that such claim be filed with the city clerk and disallowed before a claimant, pursuant to section 15-841, may timely appeal from the city's disallowance and thereby become entitled to invoke a district court's power to adjudicate the merit of the disallowed claim. Any taxpayer of the city, after the allowance in whole or in part of any liquidated or unliquidated claim, or the claimant, after the disallowance in whole or in part of any such claim, may appeal therefrom to the district court of the county in which the city is situated in accordance with the procedures set forth in sections 15-1201 to 15-1205. In an appeal by a taxpayer in case the claimant finally recovers judgment for as great a sum exclusive of interest as was allowed by the council, such appellant shall pay all costs of such appeal. In an appeal by a claimant in case claimant fails to recover as great a sum exclusive of interest as was allowed by the council, such claimant shall pay all

costs. No warrant shall issue for the payment of any such claim until the appeal is finally determined. No appeal bond shall be required of the city by any court in case of appeal by the city, and judgment shall be stayed pending such appeal.

15-845 Deposit of city funds; conditions.

The city treasurer of a city of the primary class shall deposit and at all times keep on deposit for safekeeping in the banks, in the capital stock financial institutions, in the qualifying mutual financial institutions, or in some of them doing business in such city of approved and responsible standing all money collected, received, or held by him or her as such city treasurer. Any such bank, capital stock financial institution, or qualifying mutual financial institution located in the city may apply for the privilege of keeping such money or any part thereof upon the following conditions: (1) All such deposits shall be subject to payment when demanded by the city treasurer; and (2) such deposits shall be subject to all regulations imposed by law or adopted by the city for the receiving and holding thereof. The fact that a stockholder, director, or other

officer of such bank, capital stock financial institution, or qualifying mutual financial institution shall also be serving as mayor, as a member of the city council, or as any other officer of such municipality shall not disqualify such bank, capital stock financial institution, or qualifying mutual financial institution from acting as a depository for such municipal funds. Section 77-2366 shall apply to deposits in capital stock financial institutions. Section 77-2365.01 shall apply to deposits in qualifying mutual financial institutions.

15-846 Deposit of funds; bond required; conditions.

For the security of the funds deposited as provided in section 15-845 the city treasurer shall require each depository to give bond for the safekeeping and payment of such deposits and the accretions to the deposit, which bond shall run to the city and be approved by the city attorney for form and legality. Such bond shall be conditioned that such a depository shall, at the end of every quarter, render to the treasurer a statement in duplicate showing the several daily balances, the amount of money of the city held by it during the quarter, the amount of the accretion to the deposit, and how credited. The bond shall also be conditioned that the depository shall pay such deposit and the accretion when demanded by the city treasurer at any time, perform as required by sections 15-845 to 15-847, and faithfully discharge the trust reposed in such depository. Such bond shall be as nearly as practicable in the form provided in section 77-2304. No person in any way connected with any depository as officer or stockholder shall be accepted as a surety on any bond given by the depository of which he or she is an officer or stockholder. Such bond shall be deposited with the city clerk. Section 77-2366 shall apply to deposits in capital stock financial institutions. Section 77-2365.01 shall apply to deposits in qualifying mutual financial institutions.

In lieu of the bond required by section 15-846, any bank, capital stock financial institution, or qualifying mutual financial institution making application to become a depository may give security as provided in the Public Funds Deposit Security Act to the city treasurer. The penal sum of such bond or the sum of such security may be reduced in the amount of such deposit insured by the Federal Deposit Insurance Corporation. CITY PLANNING, ZONING

Section

15-901 Real estate; subdivisions; platting; standards; approval of city planning commission required; bond; appeal.

No owner of real estate located in any city of the primary class or within three miles of the corporate limits of any city of the primary class, when such real estate is located in the same county as the city and outside of any organized city or village, shall be permitted to subdivide, plat, or lay out the real estate in building lots and streets, or other portions of the same intended to be dedicated for public use or for the use of the purchasers or owners of lots fronting thereon or adjacent thereto, without first having obtained approval by the city planning commission and, when applicable, having complied with sections 39-1311 to 39-1311.05. No plat or subdivision of such real estate shall be recorded in the office of the register of deeds or have any force or effect unless the same is approved by the city planning commission. A city of the primary class shall have authority within the area to regulate the subdivision of land for the purpose, whether immediate or future, of transferring ownership or building development, except that the city shall have no power to regulate subdivision in those instances where the smallest parcel created is more than ten acres in area. A city of the primary class shall have authority within the area to prescribe standards for laying out subdivisions in harmony with the comprehensive plan; to require the installation of improvements by the owner, by the creation of public improvement districts, or by requiring a good and sufficient bond guaranteeing installation of such improvements; and to require the dedication of land for public purposes.

For purposes of this section, subdivision shall mean the division of a lot, tract, or parcel of land into two or more lots, sites, or other divisions of land for the purpose, whether immediate or future, of ownership or building development, except that the division of land shall not be considered to be subdivision when the smallest parcel created is more than ten acres in area.

Subdivision plats shall be approved by the city planning commission on recommendation by the city planning director and public works and utilities department. The city planning commission may withhold approval of a plat until the public works and utilities department has certified that the improvements required by the regulations have been satisfactorily installed, until a sufficient bond guaranteeing installation of the improvements has been posted, or until public improvement districts are created. The city council may provide procedures in land subdivision regulations for appeal by any person aggrieved by any action of the city planning commission or city planning director on any plat.

This section does not authorize a city to require a developer to pay the cost of widening a street, while, at the same time, prohibit the developer's subdivision from having direct access to that street. Briar West, Inc. v. City of Lincoln, 206 Neb. 172, 291 N.W.2d 730 (1980).

This section does not authorize cities to use subdivision control as a device to evade constitutional prohibitions of taking of property without compensation. Briar West, Inc., v. City of Lincoln, 206 Neb. 172, 291 N.W.2d 730 (1980).

Approval of plat by municipal authorities is not required where there is no subdivision of land, no dedication of roadways, and no sale of lots to others. Reller v. City of Lincoln, 174 Neb. 638, 119 N.W.2d 59 (1963).

15-902 Building regulations; zoning; powers; comprehensive plan; manufactured homes.

(1) Every city of the primary class shall have power in the area which is within the city or within three miles of the corporate limits of the city and

outside of any organized city or village to regulate and restrict: (a) The location, height, bulk, and size of buildings and other structures; (b) the percentage of a lot that may be occupied; (c) the size of yards, courts, and other open spaces; (d) the density of population; and (e) the locations and uses of buildings, structures, and land for trade, industry, business, residences, and other purposes. Such city shall have power to divide the area zoned into districts of such number, shape, and area as may be best suited to carry out the purposes of this section and to regulate, restrict, or prohibit the erection, construction, reconstruction, alteration, or use of buildings, structures, or land within the total area zoned or within districts. All such regulations shall be uniform for each class or kind of buildings throughout each district, but regulations applicable to one district may differ from those applicable to other districts. Such zoning regulations shall be designed to secure safety from fire, flood, and other dangers and to promote the public health, safety, and general welfare and shall be made with consideration having been given to the character of the various parts of the area zoned and their peculiar suitability for particular uses and types of development and with a view to conserving property values and encouraging the most appropriate use of land throughout the area zoned, in accordance with a comprehensive plan. Such zoning regulations may include reasonable provisions regarding nonconforming uses and their gradual elimination.

(2)(a) The city shall not adopt or enforce any zoning ordinance or regulation which prohibits the use of land for a proposed residential structure for the sole reason that the proposed structure is a manufactured home if such manufactured home bears an appropriate seal which indicates that it was constructed in accordance with the standards of the Uniform Standard Code for Manufactured Homes and Recreational Vehicles, the Nebraska Uniform Standards for Modular Housing Units Act, or the United States Department of Housing and Urban Development. The city may require that a manufactured home be located and installed according to the same standards for foundation system, permanent utility connections, setback, and minimum square footage which would apply to a site-built, single-family dwelling on the same lot. The city may also require that manufactured homes meet the following standards:

(i) The home shall have no less than nine hundred square feet of floor area;

(ii) The home shall have no less than an eighteen-foot exterior width;

(iii) The roof shall be pitched with a minimum vertical rise of two and one-half inches for each twelve inches of horizontal run;

(iv) The exterior material shall be of a color, material, and scale comparable with those existing in residential site-built, single-family construction;

(v) The home shall have a nonreflective roof material which is or simulates asphalt or wood shingles, tile, or rock; and

(vi) The home shall have wheels, axles, transporting lights, and removable towing apparatus removed.

(b) The city may not require additional standards unless such standards are uniformly applied to all single-family dwellings in the zoning district.

(c) Nothing in this subsection shall be deemed to supersede any valid restrictive covenants of record.

(3) For purposes of this section, manufactured home shall mean (a) a factory-built structure which is to be used as a place for human habitation, which is not constructed or equipped with a permanent hitch or other device allowing it to be moved other than to a permanent site, which does not have permanently attached to its body or frame any wheels or axles, and which bears a label certifying that it was built in compliance with National Manufactured Home Construction and Safety Standards, 24 C.F.R. 3280 et seq., promulgated by the United States Department of Housing and Urban Development, or (b) a modular housing unit as defined in section 71-1557 bearing a seal in accordance with the Nebraska Uniform Standards for Modular Housing Units Act.

(1) A city of the primary class which has a city pension and retirement plan or fund, or a city fire and police pension plan or fund, or both, may provide by ordinance as authorized by its home rule charter, and not prohibited by the Constitution of Nebraska, for the investment of any plan or fund, and it may provide that (a) such a city shall place in trust any part of such plan or fund, (b) it shall place in trust any part of any such plan or fund with a corporate trustee in Nebraska, or (c) it shall purchase any part of any such plan from a life insurance company licensed to do business in the State of Nebraska. The powers conferred by this section shall be independent of and in addition and supplemental to any other provisions of the laws of the State of Nebraska with reference to the matters covered hereby and this section shall be considered as a complete and independent act and not as amendatory of or limited by any other provision of the laws of the State of Nebraska.

(2)(a) Beginning December 31, 1998, and each December 31 thereafter, the clerk of a city of the primary class shall file with the Public Employees Retirement Board an annual report on each retirement plan established pursu-

ant to this section, section 15-1026, and section 401(a) of the Internal Revenue Code and shall submit copies of such report to the members of the Nebraska Retirement Systems Committee of the Legislature. The annual report shall be in a form prescribed by the Public Employees Retirement Board and shall contain the following information for each such retirement plan:

(iii) Plan assets and liabilities;

(iv) The names and positions of persons administering the plan;

(v) The names and positions of persons investing plan assets;

(vi) The form and nature of investments;

(vii) For each defined contribution plan, a full description of investment policies and options available to plan participants; and

(viii) For each defined benefit plan, the levels of benefits of participants in the plan, the number of members who are eligible for a benefit, and the total present value of such members' benefits, as well as the funding sources which will pay for such benefits. If a plan contains no current active participants, the city clerk may file in place of such report a statement with the Public Employees Retirement Board indicating the number of retirees still drawing benefits, and the sources and amount of funding for such benefits.

(b) Beginning December 31, 1998, and every four years thereafter, if such retirement plan is a defined benefit plan, the city council of a city of the primary class shall cause to be prepared a quadrennial report and shall file the same with the Public Employees Retirement Board and submit to the members of the Nebraska Retirement Systems Committee of the Legislature a copy of such report. The report shall consist of a full actuarial analysis of each such retirement plan established pursuant to this section and section 15-1026. The analysis shall be prepared by an independent private organization or public entity employing actuaries who are members in good standing of the American Academy of Actuaries, and which organization or entity has demonstrated expertise to perform this type of analysis and is unrelated to any organization offering investment advice or which provides investment management services to the retirement plan.

15-1102 Comprehensive plan; requirements; contents.

The general plan for the improvement and development of the city of the primary class shall be known as the comprehensive plan. This plan for govern-

mental policies and action shall include the pattern and intensity of land use, the provision of public facilities including transportation and other governmental services, the effective development and utilization of human and natural resources, the identification and evaluation of area needs including housing, employment, education, and health and the formulation of programs to meet such needs, surveys of structures and sites determined to be of historic, cultural, archaeological, or architectural significance or value, long-range physical and fiscal plans for governmental policies and action, and coordination of all related plans and activities of the state and local governments and agencies concerned. The comprehensive plan, with the accompanying maps, plats, charts and descriptive and explanatory materials, shall show the recommendations concerning the physical development pattern of such city and of any land outside its boundaries related thereto, taking into account the availability of and need for conserving land and other irreplaceable natural resources, the preservation of sites of historic, cultural, archaeological, and architectural significance or value, the projected changes in size, movement, and composition of population, the necessity for expanding housing and employment opportunities, and the need for methods of achieving modernization, simplification, and improvements in governmental structures, systems, and procedures related to growth objectives. The comprehensive plan shall, among other things, show:

(1) The general location, character, and extent of existing and proposed streets and highways and railroad, air, and other transportation routes and terminals;

(2) Existing and proposed public ways, parks, grounds, and open spaces;

The land-use plan shall also show the recommended standards of population density based upon population estimates and providing for activities for which space should be supplied within the area covered by the plan. The comprehensive plan shall include and show proposals for acquisition, extension, widening, narrowing, removal, vacation, abandonment, sale, and other actions affecting public improvements.

A comprehensive plan is a general guide to community development. Holmgren v. City of Lincoln, 199 Neb. 178, 256 N.W.2d 686 (1977).

15-1103 Planning director; prepare comprehensive plan; review by commission; city council; adopt or amend plan.

The planning director shall be responsible for preparing the comprehensive plan and amendments and extensions thereto, and for submitting such plans

and modifications to the city planning commission for its consideration and action. The commission shall review such plans and modifications, and those which the city council may suggest, and, after holding at least one public hearing on each proposed action, shall provide its recommendations to the city council within a reasonable period of time. The city council shall review the recommendations of the planning commission and, after at least one public hearing on each proposed action, shall adopt or reject such plans as submitted, except that the city council may, by an affirmative vote of at least five members of the city council, adopt a plan or amendments to the proposed plan different from that recommended by the planning commission.

15-1104 Ordinance or resolution; submit to planning department; report.

No ordinance or resolution which deals with the acquisition, extension, widening, narrowing, removal, vacation, abandonment, sale or other change relating to any public way, transportation route, ground, open space, building or structure, or other public improvement of a character included in the comprehensive plan, the subject matter of which has not been reported on by the planning department under the provisions of section 15-1103, shall be adopted by the council until such ordinance or resolution shall first have been referred to the planning department and that department has reported regarding conformity of the proposed action with the comprehensive plan. The department's report shall specify the character and degree of conformity or nonconformity of each proposed action to the comprehensive plan, and a report in writing thereon shall be rendered to the council within thirty days after the date of receipt of the referral unless a longer period is granted by the council. If the department fails to render any such report within the allotted time, the approval of the department may be presumed by the council.

15-1105 Planning director; duties; commission; hearings.

The planning director shall be responsible for preparing the zoning ordinance and for submitting it to the city planning commission for its consideration and action. The commission shall review the proposed zoning ordinance and, after holding at least one public hearing on each proposed action, shall approve or reject it in whole or in part and with or without modifications. When approved by the commission, the proposed ordinance shall be submitted to the council for its consideration, and the zoning ordinance shall become effective when adopted by the council. The city council of such primary city may amend, supplement, or otherwise modify the zoning ordinance. Any such proposed amendment, supplement or modification shall first be submitted to the planning commission for its recommendations and report. The planning commission shall hold at least one public hearing with relation thereto, before submitting its recommendations and report. After the recommendations and report of the planning commission have been filed, the city council shall, before enacting any proposed amendment, supplement or modification, hold a public hearing in relation thereto. Notice of the time and place of hearings above referred to shall be given by publication thereof in a paper of general circulation in the city at least one time at least five days before the date of hearing. The board shall also have power to decide upon petitions for variances and, subject to such standards and procedures as the council may provide in the zoning ordinance, to vary the strict application of sign regulations or height, area, parking, or density requirements to the extent necessary to permit the owner a reasonable use of his or her land in those specific instances when there are peculiar, exceptional, and unusual circumstances in connection with a specific parcel of land, which circumstances are not generally found within the locality or neighborhood concerned. The board may also have such related duties as the mayor or council may assign. The council may provide for appeals from a decision of the board.

APPEALS

Section
15-1201. Appeals; exception.
15-1202. Appeal; procedure.
15-1203. City clerk; duties.
15-1204. Petition on appeal; time for filing.
15-1205. District court; hearing; order; appeal.

15-1201 Appeals; exception.

Any person or persons, jointly or severally aggrieved by any final administrative or judicial order or decision of the board of zoning appeals, the board of equalization, the city council, or any officer or department or board of a city of the primary class, shall, except as provided for claims in sections 15-840 to 15-842.01, appeal from such order or decision to the district court in the manner herein prescribed.

Source: Laws 1969, c. 65, § 1, p. 377.

This section applies only where the various bodies controlled thereby act judicially or quasi-judicially. Quasi-judicial decisions by various organs of a city are reviewable in both the trial and appellate courts. Whitehead Oil Co. v. City of Lincoln, 245 Neb. 660, 515 N.W.2d 390 (1994).

That municipal code decision shall be final and binding upon appointing authority in collective-bargaining agreement means definitive act of official or agency is binding until and unless set aside by judicial review. City of Lincoln v. Soukup, 215 Neb. 732, 340 N.W.2d 420 (1983).

The enactment of a zoning ordinance by a municipal governing body is an exercise of legislative authority from which no direct appeal lies. This statute applies only where the bodies mentioned therein act judicially or quasi-judicially. An increase in business competition is not sufficient to confer standing to challenge a change of zone. Copple v. City of Lincoln, 210 Neb. 504, 315 N.W.2d 628 (1982).

On appeal of a final decision of a city council, only the subject matter in question may be appealed, not collateral issues beyond the scope of the particular decision. Cather & Sons Constr., Inc. v. City of Lincoln, 200 Neb. 510, 264 N.W.2d 413 (1978).

15-1202 Appeal; procedure.

The party appealing shall within thirty days from the date of the order or decision complained of:

(1) File a notice of appeal with the city clerk specifying the parties taking the appeal and the order or decision appealed from and shall serve a copy of the notice upon the city attorney. The notice of appeal shall serve as a praecipe for a transcript;

(2) Deposit with the city clerk a docket fee in the amount of the filing fee in district court for cases originally commenced in district court;

(3) Deposit with the city clerk a cash bond or undertaking with at least one good and sufficient surety approved by the city clerk, in the amount of two hundred dollars, on condition that the appellant will satisfy any judgment and costs that may be adjudged against him or her; and

(4) Deposit with the city clerk the fees for the preparation of a certified and complete transcript of the proceedings of the city relating to the order or decision appealed.

The time for appeal under this section begins to run as of the date the administrative body votes on the action to be taken, rather than the date on which the body finalizes its order. McCorison v. City of Lincoln, 218 Neb. 827, 359 N.W.2d 775 (1984).

15-1203 City clerk; duties.

The city clerk, on payment to him or her of the costs of the transcript, shall transmit within fifteen days to the clerk of the district court the docket fee and a certified and complete transcript of the proceedings of the city relating to the order or decision appealed. After receipt of such fee and transcript, the clerk of the district court shall docket the appeal.

15-1204 Petition on appeal; time for filing.

The party appealing shall file a petition within thirty days from the date the transcript is filed in the district court. Satisfaction of the requirements of section 15-1202 and this section shall perfect the appeal and give the district court jurisdiction of the matter appealed.

15-1205 District court; hearing; order; appeal.

The district court shall hear the appeal as in equity and without a jury and determine anew all questions raised before the city. The court may reverse or affirm, wholly or partly, or may modify the order or decision brought up for review. Either party may appeal from the decision of the district court to the Court of Appeals.

Source: Laws 1969, c. 65, § 5, p. 378; Laws 1991, LB 732, § 19.

This section does not limit review to illegality, but provides that appeals from various organs of a city of the primary class shall be considered as in equity. Thus, such decisions are quasi-judicial in nature and reviewable under section 15-1201 as in equity in both the trial and appellate courts. Moulton v. Board of Zoning Appeals, 251 Neb. 95, 555 N.W.2d 39 (1996).

On appeal from an order of the municipal human rights commission, the district court found the evidence insufficient to

establish any unlawful employment discrimination by the employer. American Stores v. Jordan, 213 Neb. 213, 328 N.W.2d 756 (1982).
