Appeals from a workers' compensation trial court to a review panel are controlled by the statutory provisions found in the Nebraska Workers' Compensation Act, and specifically, section 48-179 and this section, which provide for the review procedure for appeals brought from the trial court to the review panel. Section 48-179 and this section pertain to the same subject matter and must be construed, if at all possible, as consistent with one another and in a sensible manner. Notwithstanding the individuation of examples of rulings listed in section 48-179, this section makes clear that when reading the two provisions together, an order appealed from a workers' compensation trial court to a review panel must be a "final order" of the workers' compensation trial court. Neither section 48-179 nor this section defines a "final order" for purposes of a workers' compensation appeal from a trial court to a review panel, and accordingly, one must look to section 25-1902, which defines three types of final orders which may be reviewed on appeal, and the case law under it to define "final order" for purposes of an appeal from the trial court to the review panel. *Thompson v. Kiewit Constr. Co.*, 258 Neb. 323, 603 N.W.2d 368 (1999).

On appeal to district court, the filing of a petition and transcript of the proceedings is required. *Spangler v. Terry Carpenter, Inc.*, 177 Neb. 740, 131 N.W.2d 159 (1964).

Motion for new trial is not a necessary prerequisite to trial de novo on appeal. *Peek v. Ayres Auto Supply*, 155 Neb. 233, 51 N.W.2d 387 (1952).

Filing of verified petition on appeal is required. *Solheim v. Hastings Housing Co.*, 151 Neb. 264, 37 N.W.2d 212 (1949).

Both petition and transcript must be filed within fourteen days to confer jurisdiction on appeal. *Geller v. Elastic Stop Nut Corporation*, 147 Neb. 330, 23 N.W.2d 271 (1946).

Appeal from award of compensation court sitting en banc is complete when petition and transcript are filed in district court within fourteen days. *Henderson v. Wilson*, 137 Neb. 693, 291 N.W. 96 (1940).

On appeal from the compensation court, the bill of exceptions need not be served upon the adverse party or his attorney before it is filed in district court. *Wrede v. City of David City*, 137 Neb. 194, 288 N.W. 542 (1939).

An award wherein the court ordered a further hearing on medical expenses and mileage is not a final order. *Hamm v. Champion Manuf. Homes*, 11 Neb. App. 183, 645 N.W.2d 571 (2002).

48-185 Appeal; procedure; judgment by Nebraska Workers' Compensation Court; effect; grounds for modification or reversal.

Any appeal from the judgment of the Nebraska Workers' Compensation Court shall be prosecuted and the procedure, including the designation of parties, handling of costs and the amounts thereof, filing of briefs, certifying the opinion of the Supreme Court or decision of the Court of Appeals to the compensation court, handling of the bill of exceptions, and issuance of the mandate, shall be in accordance with the general laws of the state and procedures regulating appeals in actions at law from the district courts except as otherwise provided in section 48-182 and this section. The proceedings to obtain a reversal, vacation, or modification of judgments, awards, or final orders made by the compensation court shall be by filing in the office of the clerk of the Nebraska Workers' Compensation Court, within thirty days after the entry of such judgment, decree, or final order, a notice of appeal signed by the appellant or his or her attorney of record. No motion for a new trial shall be filed. An appeal shall be deemed perfected and the appellate court shall have jurisdiction of the cause when such notice of appeal shall have been filed in the office of the clerk of the Nebraska Workers' Compensation Court, and after being so perfected no appeal shall be dismissed without notice, and no step other than the filing of such notice of appeal shall be deemed jurisdictional. The clerk of the Nebraska Workers' Compensation Court shall forthwith forward a certified copy of such notice of appeal to the Clerk of the Supreme Court, whereupon the Clerk of the Supreme Court shall forthwith docket such appeal. Within thirty days after the date of filing of notice of appeal, the clerk of the Nebraska Workers' Compensation Court shall prepare and file with the Clerk of the Supreme Court a transcript certified as a true copy of the proceedings contained therein. The transcript shall contain the judgment, decree, or final order sought to be reversed, vacated, or modified and all pleadings filed with such clerk. Neither the form nor the substance of such transcript shall affect the jurisdiction of the appellate court. Such appeal shall be perfected within thirty days after the entry

of judgment by the compensation court, the cause shall be advanced for argument before the appellate court, and the appellate court shall render its judgment and write an opinion, if any, in such cases as speedily as possible. The judgment made by the compensation court shall have the same force and effect as a jury verdict in a civil case. A judgment, order, or award of the compensation court may be modified, reversed, or set aside only upon the grounds that (1) the compensation court acted without or in excess of its powers, (2) the judgment, order, or award was procured by fraud, (3) there is not sufficient competent evidence in the record to warrant the making of the order, judgment, or award, or (4) the findings of fact by the compensation court do not support the order or award.

1. Perfecting appeal

After final judgment, the filing of a motion to withdraw a party's rest is not treated as a motion for a new trial and fails to extend the time for appeal. *Battiato v. Falstaff Brewing Corp.*, 212 Neb. 474, 323 N.W.2d 105 (1982).

Appeal may be taken within thirty days from overruling of motion for a new trial. *Meester v. Schultz*, 151 Neb. 614, 38 N.W.2d 739 (1949).

Method of perfecting appeal to Supreme Court, including settling bill of exceptions, is governed by general laws regulating appeals in actions at law. *Ratay v. Wylie*, 147 Neb. 201, 22 N.W.2d 622 (1946).

Appeal to Supreme Court from district court is governed by general laws regulating appeals except the appeal must be perfected within thirty days from entry of judgment. *Adkisson v. Gamble*, 143 Neb. 417, 9 N.W.2d 711 (1943).

Upon appeal to Supreme Court in a compensation case, jurisdiction is conferred where transcript is filed within thirty days and bill of exceptions may be filed thereafter in accordance with general law. *Fallis v. Vogel*, 137 Neb. 598, 290 N.W. 461 (1940).

Statutory fees for filing appeal in Supreme Court do not apply to cases under workmen's compensation law. *Scott v. Dohrse*, 130 Neb. 847, 266 N.W. 709 (1936).

2. Review

Under this section, a judgment, order, or award of the compensation court may be modified, reversed, or set aside only upon the grounds that (1) the compensation court acted without or in excess of its powers; (2) the judgment, order, or award was procured by fraud; (3) there is not sufficient competent evidence in the record to warrant the making of the order, judgment, or award; or (4) the findings of fact by the compensation court do not support the order or award. *Picard v. P & C Group 1*, 306 Neb. 292, 945 N.W.2d 183 (2020).

Pursuant to this section, an appellate court may modify, reverse, or set aside a Workers' Compensation Court decision only when (1) the compensation court acted without or in excess of its powers; (2) the judgment, order, or award was procured

by fraud; (3) there is not sufficient competent evidence in the record to warrant the making of the order, judgment, or award; or (4) the findings of fact by the compensation court do not support the order or award. *Aboytes-Mosqueda v. LFA Inc.*, 306 Neb. 277, 944 N.W.2d 765 (2020); *Moss v. C&A Indus.*, 25 Neb. App. 877, 915 N.W.2d 615 (2018); *Moyers v. International Paper Co.*, 25 Neb. App. 282, 905 N.W.2d 87 (2017).

Where there was sufficient evidence to support a factual finding that knee surgery was not required by the prior work-related injury, a three-judge panel of the Workers' Compensation Court did not have grounds under this section to reverse the decision of a single judge of the Workers' Compensation Court denying compensability for the surgery. *Pearson v. Archer-Daniels-Midland Milling Co.*, 285 Neb. 568, 828 N.W.2d 154 (2013).

An appellate court may modify, reverse, or set aside a Workers' Compensation Court decision only upon the grounds set forth in this section. *Worline v. ABB/Alstom Power Integrated CE Services*, 272 Neb. 797, 725 N.W.2d 148 (2006).

Pursuant to this section, an appellate court may modify, reverse, or set aside a Workers' Compensation Court decision only when (1) the compensation court acted without or in excess of its powers, (2) the judgment, order, or award was procured by fraud, (3) there is not sufficient competent evidence in the record to warrant the making of the order, judgment, or award, or (4) the findings of fact by the compensation court do not support the order or award. *Torres v. Atulick Leasing*, 258 Neb. 859, 606 N.W.2d 98 (2000); *Variano v. Dial Corp.*, 256 Neb. 318, 589 N.W.2d 845 (1999); *Crouch v. This section does not provide for appeal to the Supreme Court or the Court of Appeals without a properly constituted review by

the Workers' Compensation Court. *Hagelstein v. Swift-Eckrich Div. of ConAgra*, 257 Neb. 312, 597 N.W.2d 394 (1999).

The findings of fact made by a workers' compensation court trial judge are not to be disturbed upon appeal to a workers' compensation court review panel unless they are clearly wrong on the evidence or the decision was contrary to law. *McBee v. Goodyear Tire & Rubber Co., Inc.*, 255 Neb. 903, 587 N.W.2d 687 (1999).

This section precludes an appellate court's substitution of its view of the facts for that of the Workers' Compensation Court if the record contains evidence to substantiate the factual conclusions reached by the Workers' Compensation Court. *Cords v. City of Lincoln*, 249 Neb. 748, 545 N.W.2d 112 (1996).

In testing the sufficiency of evidence to support findings of fact made by the Nebraska Workers' Compensation Court, the evidence must be considered in the light most favorable to the successful party. *Paulsen v. State*, 249 Neb. 112, 541 N.W.2d 636 (1996).

This section precludes an appellate court from substituting its view of the facts for that of the compensation court if the record contains evidence to substantiate the factual conclusions reached by the compensation court. *Surratt v. Watts Trucking*, 249 Neb. 35, 541 N.W.2d 41 (1995).

Factual determinations made by the Workers' Compensation Court will not be set aside on appeal unless such determinations are clearly erroneous. An appellate court may not substitute its view of the facts for that of the compensation court if the record contains evidence to substantiate the factual conclusions reached by the compensation court. *Aken v. Nebraska Methodist Hosp.*, 245 Neb. 161, 511 N.W.2d 762 (1994).

Findings of fact by the Workers' Compensation Court on rehearing have the same force and effect as a jury verdict in a civil case and will not be set aside on appeal where there is evidence sufficient to support them. *Willuhn v. Omaha Box Co.*, 240 Neb. 571, 483 N.W.2d 130 (1992); *McGee v. Panhandle Technical Sys.*, 223 Neb. 56, 387 N.W.2d 709 (1986).

Procedural and evidentiary rulings of the Workers' Compensation Court may predicate reversal or modification of the court's order on appeal if the court in so ruling acted without or in excess of its powers. As the trier of fact, the Workers' Compensation Court is the sole judge of the credibility of witnesses and the weight to be given testimony; furthermore, the appellate court will presume the compensation court resolved any conflicts in the evidence in favor of the successful party. Findings of fact by the Workers' Compensation Court have the same force and effect as a jury verdict and will, therefore, not be set aside unless clearly wrong. *Hernandez v. Hawkins Construction Co.*, 240 Neb. 129, 480 N.W.2d 424 (1992).

Findings of fact by the Nebraska Workers' Compensation Court after rehearing have the same force and effect as a jury verdict in a civil case and will not be set aside on appeal unless clearly wrong. *Cline v. County Seat Lounge*, 239 Neb. 42, 473 N.W.2d 404 (1991); *Brazee v. City of Lincoln*, 234 Neb. 680, 452 N.W.2d 529 (1990); *Elliott v. Midlands Animal Products*, 229 Neb. 823, 428 N.W.2d 920 (1988); *Gilbert v. Sioux City Foundry*, 228 Neb. 379, 422 N.W.2d 367 (1988); *Knudsen v. Father Flanagan's Boys' Home*, 207 Neb. 528, 300 N.W.2d 15 (1980).

To determine whether findings of fact made by the compensation court support an order granting or denying vocational rehabilitation benefits, the Supreme Court must consider the findings of fact in light of section 48-162.01. *Yager v. Bellico Midwest*, 236 Neb. 888, 464 N.W.2d 335 (1991).

Under subsection (4) of this section, an order based on findings of fact made by the compensation court may be reversed if those findings do not support the court's order. *Yager v. Bellico Midwest*, 236 Neb. 888, 464 N.W.2d 335 (1991).

The Workers' Compensation Court's judgment may not be set aside on appeal where there is evidence sufficient to support its judgment. *Bindrum v. Foote & Davies*, 235 Neb. 903, 457 N.W.2d 828 (1990); *Luehring v. Tibbs Constr. Co.*, 235 Neb. 883, 457 N.W.2d 815 (1990).

Regarding facts determined and findings made after rehearing in the compensation court, this section precludes the Supreme Court's substitution of its view of facts for that of the compensation court if the record contains evidence to substantiate the factual conclusions reached by the compensation court. *Gardner v. Beatrice Foods Co.*, 231 Neb. 464, 436 N.W.2d 542 (1989).

The findings of fact of the Nebraska Workers' Compensation Court have the same force and effect as a jury verdict in a civil case and will not be set aside where they are supported by credible evidence and are not clearly wrong. *Kalhorn v. City of Bellevue*, 227 Neb. 880, 420 N.W.2d 713 (1988).

Where the record presents nothing more than conflicting medical testimony, the Supreme Court will not substitute its judgment for that of the Workers' Compensation Court. The nature and number of examinations by a physician are factors affecting credibility of a medical witness and weight to be attached to testimony from such witness. *Vredevelde v. Gelco Express*, 222 Neb. 363, 383 N.W.2d 780 (1986).

The findings of fact made by the Workers' Compensation Court after rehearing will not be set aside unless clearly wrong. *Gast v. Continental Can Co.*, 220 Neb. 456, 370 N.W.2d 172 (1985).

Under Nebraska law, it is well settled that findings of fact by the Workmen's Compensation Court on rehearing have the same force and effect as a jury verdict in a civil case and will not be set aside unless clearly wrong. *Rutt v. Midwest Refuse Service*, 220 Neb. 255, 369 N.W.2d 93 (1985); *Paris v. J. A. Baldwin Mfg. Co.*, 216 Neb. 151, 342 N.W.2d 198 (1984); *Earnest v. Lutheran Memorial Hospital*, 211 Neb. 438, 319 N.W.2d 66 (1982); *Shaw v. Gooch Feed Mill Corp.*, 210 Neb. 17, 312 N.W.2d 682 (1981).

The findings of fact made by the Nebraska Workmen's Compensation Court on rehearing have the same force and effect as a jury verdict in a civil case and will not be reversed or set aside unless there is insufficient evidence in the record to warrant the award. *Tranmer v. Mass Merchandisers*, 218 Neb. 151, 352 N.W.2d 610 (1984).

The compensation court's findings of fact after rehearing have the same effect as a jury verdict in a civil case and will not be set aside unless clearly wrong. The decision of the compensation court after rehearing must be considered in the light most favorable to the successful party, and every controverted fact must be decided in its favor. *Noah v. Creighton Omaha Health Care Corp.*, 213 Neb. 169, 328 N.W.2d 203 (1982).

The Supreme Court is not at liberty to substitute its views for those of the Workmen's Compensation Court regarding questions of fact if there is evidence in the record to substantiate its conclusions. *Thomas v. Kayser-Roth Corp.*, 211 Neb. 704, 320 N.W.2d 111 (1982).

Where there is not sufficient competent evidence in the record to warrant the making of the award, or the findings of fact do not support the award, the award must be modified, reversed, or set aside by the Supreme Court on appeal. A workmen's compensation award cannot be based upon possibility or speculation. *Husted v. Peter Kiewit & Sons Constr. Co.*, 210 Neb. 109, 313 N.W.2d 248 (1981).

An award of the Workmen's Compensation Court will be reversed or modified where there is not sufficient evidence in the record to warrant the order, judgment, or award, or the findings of fact do not support the order or award. *Akins v. Happy Hour, Inc.*, 209 Neb. 236, 306 N.W.2d 914 (1981).

The final determination of whether there exists a master and servant relationship is an issue of law for this court and not for

the trier of fact. *Stephens v. Celeryvale Transport, Inc.*, 205 Neb. 12, 286 N.W.2d 420 (1979).

Under the provisions of this section, the findings of fact made by the Nebraska Workmen's Compensation Court after rehearing have the same force and effect as a jury verdict in a civil case. There is no longer any provision in the statutes for de novo review by the Supreme Court of workmen's compensation cases. *Herold v. Constructors, Inc.*, 201 Neb. 697, 271 N.W.2d 542 (1978).

Under this section, unless the district court acted without or in excess of its powers or the judgment, order, or award was procured by fraud, the judgment, order, or award may be modified or set aside only if the findings of fact do not support it. *Conn v. ITL, Inc.*, 187 Neb. 112, 187 N.W.2d 641 (1971).

If there is reasonable competent evidence to support findings of fact in trial court's judgment, order or award will not be modified for insufficiency of the evidence. Cause will be considered de novo in the Supreme Court only where the findings of fact are not supported by the evidence as disclosed by the record. Conflicting holdings in *Rapp v. Hale*, 170 Neb. 620, 103 N.W.2d 851 (1960), overruled. *Gifford v. Ag Lime, Sand & Gravel Co.*, 187 Neb. 57, 187 N.W.2d 285 (1971).

Supreme Court may only modify or set aside order of district court on four grounds. *Turpin v. State*, 135 Neb. 389, 281 N.W. 800 (1938).

County of Colfax*, 27 Neb. App. 41, 926 N.W.2d 675 (2019).

An appellate court may modify, reverse, or set aside a Workers' Compensation Court decision only when (1) the compensation court acted without or in excess of its powers; (2) the judgment, order, or award was procured by fraud; (3) there is no sufficient competent evidence in the record to warrant the making of the order, judgment, or award; or (4) the findings of fact by the compensation court do not support the order or award. *Nerison v. National Fire Ins. Co. of Hartford*, 17 Neb. App. 161, 757 N.W.2d 21 (2008); *McKay v. Hershey Food Corp.*, 16 Neb. App. 79, 740 N.W.2d 378 (2007); *Davis v. Crete Carrier Corp.*, 15 Neb. Pepsi Cola Bottling Co.*, 8 Neb. App. 778, 603 N.W.2d 156 (1999).

In an appeal from a review where the panel affirms the order of the trial judge, the higher appellate court may still modify, revise, or set aside the order of the review panel if the panel was clearly wrong in failing to find that (1) the trial judge acted without or in excess of his or her powers; (2) the judgment, order, or award was procured by fraud; (3) there is not sufficient competent evidence in the record to warrant the making of the order, judgment, or award; or (4) the findings of fact by the trial judge do not support the order or award. *Fordham v. Lincoln Telephone Co.*, 2 Neb. App. 703, 513 N.W.2d 361 (1994).

3. Miscellaneous

Sufficient evidence supported the Workers' Compensation Court's finding that a workers' compensation claimant's mental illness arose out of a compensable workplace injury sustained during an assault by a patient at the hospital where claimant worked as a nurse and the aggravation of that injury in two further workplace assaults. The claimant was consistently employed for over 15 years before the first assault without significant or relevant physical or mental incident, during which time she worked, was married, and had a family, and the claimant required extensive treatment after the three assaults, including electroconvulsive therapy. *Hynes v. Such employment certificate shall not be issued until such child has personally appeared before and been examined by the officer issuing the certificate and until such officer, after making such examination, signs and files in his or her office a statement that the child can read and legibly write simple sentences in the English language and that, in his or her opinion, the child has reached the normal development of a child of such child's age, and the child is in sound health and is physically able to perform the work which such child intends to do. In doubtful cases such physical fitness shall be determined by a physician provided by the Department of Labor. In addition to the requirements of this section, if the child is under fourteen years of age, the employment certificate shall be issued only for employment in connection with an employment program supervised and sponsored by the school or school district such child attends. Whenever the person authorized to issue the employment certificate is in doubt about the age of a child, he or she may require the party or parties making application for the certificate to appear before the judge of the juvenile court or the county judge where the question of the age of the child shall be determined and the judgment of the court shall be final and binding upon the person issuing the certificate. Notice of the hearing before the court shall be given to some one of the persons authorized to demand inspection of employment certificates. Every employment certificate shall be signed in the presence of the officer issuing the certificate by the child in whose name it is issued.

Applicability of section is limited to operator of plant. *Quist v. Duda*, 159 Neb. 393, 67 N.W.2d 481 (1954).

A farming and stockfeeding business is not a plant within this section. *Groat v. Clausen*, 139 Neb. 689, 298 N.W. 563 (1941).

Factory act is not intended to narrow compensation act. Fact that employer's violation of this section was cause of injury to employee does not entitle latter to sue at common law. *Navracel v. Cudahy Packing Co.*, 109 Neb. 506, 191 N.W. 659 (1922), reh'g denied, 109 Neb. 512, 193 N.W. 768 (1923).

The violation of a provision of a safety code intended to protect life, health, and safety of employees constitutes action-

able negligence but such negligence must be shown to have been the proximate cause of the injury. *Wertz v. Lincoln Liberty Life Ins. Co.*, 152 Neb. 451, 41 N.W.2d 740 (1950).

Rules of Department of Labor are not applicable to a farming and stockraising business. *Groat v. Clausen*, 139 Neb. 689, 298 N.W. 563 (1941).

Based upon the plain and ordinary meaning of the first definition contained in subsection (27) of this section, two elements must be satisfied to demonstrate unemployment: First, the individual must not perform any services for the relevant time period; and second, no wages may be payable with respect to that time period. *Wadkins v. Lecuona*, 274 Neb. 352, 740 N.W.2d 34 (2007).

In determining whether wages are payable with respect to a time period, within the meaning of subsection (27) of this section, the test is not in what week the remuneration is received but in what week it is earned or to which it may reasonably be considered to apply. Generally speaking, wages are tied to the week of work and not to the week in which they are paid. *Wadkins v. Lecuona*, 274 Neb. 352, 740 N.W.2d 34 (2007).

Vacation pay, within the meaning of subsection (18) of this section, is generally regarded, not as a gratuity or gift, but as additional wages for services performed. It is not in the nature of compensation for the calendar days it covers — it is more like a contracted-for bonus for a whole year's work. A "vacation" is also understood to be a respite from active duty, during which activity or work is suspended, purposed for rest, relaxation, and personal pursuits. *Wadkins v. Lecuona*, 274 Neb. 352, 740 N.W.2d 34 (2007).

Under former law, wages may include noncash benefits under certain circumstances. In-kind benefits received in return for

services provided may constitute wages for purposes of determining eligibility for unemployment compensation benefits. *Lecuona v. McCord*, 270 Neb. 213, 699 N.W.2d 403 (2005).

As a requisite matter, for an entity to be denominated an employee leasing company under subsection (11) of this section, it must be in the business of leasing employees to another entity. *American Employers Group Inc. v. Department of Labor*, 260 Neb. 405, 617 N.W.2d 808 (2000).

Under the former law, pursuant to subsection (24) of this section, employees who agree to take their earned vacation at a specific period of time for the employer's convenience under the expectation that their employment will continue after that period are not unemployed for the purpose of receiving unemployment insurance benefits. *Vlasic Foods International v. Lecuona*, 260 Neb. 397, 618 N.W.2d 403 (2000).

One performing services under a contract but not receiving wages, as defined by subsection (16) of this section, performs services under a contract of hire unless one is an independent contractor, as defined by the common law. *Omaha World-Herald v. Dernier*, 253 Neb. 215, 570 N.W.2d 508 (1997).

A professional symphony musician employed under a seasonal contract rather than an annual contract was entitled to unemployment benefits for the time he was unemployed during the symphony's "off season". *Hanlon v. Boden*, 209 Neb. 169, 306 N.W.2d 858 (1981).

(11) Any individual or employing unit for which service in employment as defined in subdivision (4)(d) of section 48-604 is performed; and

(12)(a) In determining whether or not an employing unit for which service other than domestic service is also performed is an employer under subdivision (1) or (10) of this section, the wages earned or the employment of an employee performing domestic service shall not be taken into account; and

(b) In determining whether or not an employing unit for which agricultural labor is also performed is an employer under subdivision (11) of this section, the wages earned or the employment of an employee performing services in agricultural labor shall not be taken into account. If an employing unit is determined an employer of agricultural labor, such employing unit shall be determined an employer for the purposes of subdivision (1) of this section.

48-603.01 Indian tribes; applicability of Employment Security Law.

(1) For purposes of the Employment Security Law, unless the context otherwise requires, the term employer shall include any Indian tribe for which services in employment as provided in subdivision (4)(a) of section 48-604 are performed.

(2) The term employment shall include service performed in the employ of an Indian tribe, as defined in 26 U.S.C. 3306(u), as such section existed on January 1, 2015, if such service is excluded from employment as defined in the Federal Unemployment Tax Act solely by reason of 26 U.S.C. 3306(c)(7), as such section existed on January 1, 2015, and is not otherwise excluded from employment under the Employment Security Law. For purposes of this section, the exclusions from employment in subdivisions (6)(f) and (6)(g) of section 48-604 shall be applicable to services performed in the employment of an Indian tribe.

(3) Benefits based on service in employment defined in this section shall be payable in the same amount, on the same terms, and subject to the same conditions as benefits payable on the basis of other covered employment under the Employment Security Law. Section 48-628.06 shall apply to services performed in an educational institution or educational service agency owned or operated by an Indian tribe.

(4)(a) Indian tribes or tribal units, subdivisions, subsidiaries, or business enterprises wholly owned by such Indian tribes, subject to the Employment Security Law, shall pay combined tax under the same terms and conditions as all other subject employers, unless they elect to make payments in lieu of contributions equal to the amount of benefits attributable to service in the employ of the Indian tribe.

(b) Indian tribes electing to make payments in lieu of contributions shall make such election in the same manner and under the same conditions as provided in section 48-649.04 pertaining to state and local governments subject to the Employment Security Law. Indian tribes shall determine if reimburse-

ment for benefits paid will be elected by the tribe as a whole, by individual tribal units, or by combinations of individual tribal units.

(c) Except as provided in subsection (7) of this section, Indian tribes or tribal units shall be billed for the full amount of benefits attributable to service in the employ of the Indian tribe or tribal unit on the same schedule as other employing units that have elected to make payments in lieu of contributions.

(d) At the discretion of the commissioner, any Indian tribe or tribal unit that elects to become liable for payments in lieu of contributions shall be required within thirty days after the effective date of its election to:

(i) Execute and file with the commissioner a surety bond approved by the commissioner; or

(ii) Deposit with the commissioner money or securities on the same basis as other employers with the same election option.

(5)(a)(i) Failure of the Indian tribe or tribal unit to make required payments, including assessments of interest and penalty, within ninety days of receipt of the bill will cause the Indian tribe to lose the option to make payments in lieu of contributions, as described in subsection (4) of this section, for the following tax year unless payment in full is received before combined tax rates for the next tax year are computed.

(ii) Any Indian tribe that loses the option to make payments in lieu of contributions due to late payment or nonpayment, as described in subdivision (5)(a)(i) of this section, shall have such option reinstated if, after a period of one year, all combined taxes have been paid timely and no combined tax, payments in lieu of contributions for benefits paid, penalties, or interest remain outstanding.

(b)(i) Failure of the Indian tribe or any tribal unit thereof to make required payments, including assessments of interest and penalty, after all collection activities deemed necessary by the commissioner have been exhausted will cause services performed for such tribe to not be treated as employment for purposes of subsection (2) of this section.

(ii) The commissioner may determine that any Indian tribe that loses coverage under subdivision (5)(b)(i) of this section may have services performed for such tribe again included as employment for purposes of subsection (2) of this section if all contributions, payments in lieu of contributions, penalties, and interest have been paid.

(6) Notices of payment and reporting delinquency to Indian tribes or their tribal units shall include information that failure to make full payment within the prescribed timeframe:

(a) Will cause the Indian tribe to be liable for taxes under the Federal Unemployment Tax Act, as the act existed on January 1, 2015;

(b) Will cause the Indian tribe to lose the option to make payments in lieu of contributions; and

(c) Could cause the Indian tribe to be excepted from the definition of employer, as provided in subsection (1) of this section, and services in the employ of the Indian tribe, as provided in subsection (2) of this section, to be excepted from employment.

(7) Extended benefits paid that are attributable to service in the employ of an Indian tribe and not reimbursed by the federal government shall be financed in their entirety by such Indian tribe.

(8) If an Indian tribe fails to make payments required under this section, including assessments of interest and penalty, within ninety days after a final notice of delinquency, the commissioner shall immediately notify the United States Internal Revenue Service and the United States Department of Labor.

As used in this subdivision, the term pay period

means a period, of not more than thirty-one consecutive days, for which a payment of remuneration is ordinarily made to such individual by the person employing him or her. Services performed in the position of county attorney are excepted from the definition of employment, and thus, wages earned in that capacity are not for covered "employment" for purposes of unemployment insurance benefits. *Lang v. Howard County*, 287 Neb. 66, 840 N.W.2d 876 (2013).

The position of county attorney is one that has been designated "a major nontenured policymaking or advisory position" under or pursuant to Nebraska law. *Lang v. Howard County*, 287 Neb. 66, 840 N.W.2d 876 (2013).

Since subsection (5) of this section refers only to services performed for wages, the ABC test embodied therein does not apply in determining whether one engages in employment under a contract of hire. *Omaha World-Herald v. Dernier*, 253 Neb. 215, 570 N.W.2d 508 (1997).

For the purpose of determining unemployment tax liability, the common-law definition of independent contractor is superseded by the definition found in this section. *Commissioner of Labor v. Lyric Co.*, 224 Neb. 190, 397 N.W.2d 32 (1986).

Individuals who provide services for welfare recipients at the request of the Nebraska Department of Public Welfare, now Department of Social Services, pursuant to 42 U.S.C. 1397 (1982) are independent contractors and not employees of the Department of Public Welfare within the meaning of this section. *State v. Saville*, 219 Neb. 81, 361 N.W.2d 215 (1985).

Where school has certified to an employer that work-study is an integral part of its educational program, the employer should be allowed to rely on that assurance, particularly when such conclusion is adequately supported by the record. The exemption from the term "employment" in section 48-604(6)(o) includes participation in a voluntary work-study program as long as grades and credits received are applied toward high school degree and it is part of an approved course of study. Exclusion of section 48-604(6)(o) is intended to encourage employers to participate in cooperative educational plans. *Seldin Development & Management Co. v. Chizek*, 208 Neb. 315, 303 N.W.2d 300 (1981).

Where orchestra leader was engaged by hotel for specific services at a fixed price, hired his own employees and paid and controlled them in the performance of their duties without interference, leader was an independent contractor and hotel was not liable for unemployment compensation for member of orchestra. *Hill Hotel Co. v. Kinney*, 138 Neb. 760, 295 N.W. 397 (1940).

The term "places of business" in subsection (5)(b) of this section includes the jobsites and the office of a construction company. *Bay Constr. Co. v. Dolan*, 2 Neb. App. 739, 513 N.W.2d 555 (1994).

For such purposes and to the extent required, credits to the account pursuant to section 903 of the federal Social Security Act may be transferred to the Employment Security Administration Fund established in subdivision (1)(a) of section 48-621. The commissioner shall from time to time requisition from the Unemployment Trust Fund such amounts as he or she deems necessary for the payment of benefits for a reasonable future period, not to exceed the amounts standing to this state's account therein. Upon receipt thereof, the treasurer shall deposit such money in the benefit account and shall issue his or her warrants as provided by law for the payment of benefits solely from such benefit account. Expenditures of such money in the benefit account and refunds from the clearing account shall not be subject to any provisions of law requiring specific appropriations.

48-621 Employment Security Administration Fund; Employment Security Special Contingent Fund; created; use; investment; federal funds; treatment.

(1) The administrative fund shall consist of the Employment Security Administration Fund and the Employment Security Special Contingent Fund. Each fund shall be maintained as a separate and distinct account in all respects, as follows:

(a) There is hereby created in the state treasury a special fund to be known as the Employment Security Administration Fund. All money credited to this fund is hereby appropriated and made available to the Commissioner of Labor. All money in this fund shall be expended solely for the purposes and in the amounts found necessary as defined by the specific federal programs, state statutes, and contract obligations for the proper and efficient administration of all programs of the Department of Labor. The fund shall consist of all money appropriated by this state and all money received from the United States of America or any agency thereof, including the Department of Labor and the Railroad Retirement Board, or from any other source for such purpose. Money

received from any agency of the United States or any other state as compensation for services or facilities supplied to such agency, any amounts received pursuant to any surety bond or insurance policy for losses sustained by the Employment Security Administration Fund or by reason of damage to equipment or supplies purchased from money in such fund, and any proceeds realized from the sale or disposition of any equipment or supplies which may no longer be necessary for the proper administration of such programs shall also be credited to this fund. All money in the Employment Security Administration Fund shall be deposited, administered, and disbursed in the same manner and under the same conditions and requirements as provided by law for other special funds in the state treasury. Any balances in this fund, except balances of money therein appropriated from the General Fund of this state, shall not lapse at any time. Fund balances shall be continuously available to the commissioner for expenditure consistent with the Employment Security Law. Any money in the Employment Security Administration Fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act; and

(b) There is hereby created in the state treasury a special fund to be known as the Employment Security Special Contingent Fund. Any money in the Employment Security Special Contingent Fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act. All money collected under section 48-655 as interest on delinquent contributions, less refunds, shall be credited to this fund from the clearing account of the Unemployment Compensation Fund at the end of each calendar quarter. Such money shall not be expended or available for expenditure in any manner to permit substitution for, or a corresponding reduction in, federal funds which, in the absence of such money, would be available to finance expenditures for the administration of the unemployment insurance law. However, nothing in this section shall prevent the money in the Employment Security Special Contingent Fund from being used as a revolving fund to cover necessary and proper expenditures under the law for which federal, state, or contractual funds are owed but have not yet been received. Upon receipt of such funds, covered expenditures shall be charged against such funds. Money in the Employment Security Special Contingent Fund may only be used by the Commissioner of Labor as follows:

(i) To replace within a reasonable time any money received by this state pursuant to section 302 of the federal Social Security Act, as amended, and required to be paid under section 48-622;

(ii) To meet special extraordinary and contingent expenses which are deemed essential for good administration but which are not provided in grants from the Secretary of Labor of the United States. No expenditures shall be made from this fund for this purpose except on written authorization by the Governor at the request of the Commissioner of Labor; and

(iii) To be transferred to the Job Training Cash Fund.

(2)(a) Money credited to the account of this state in the Unemployment Trust Fund by the United States Secretary of the Treasury pursuant to section 903 of the Social Security Act may not be requisitioned from this state's account or used except:

(i) For the payment of benefits pursuant to section 48-619; and

(ii) For the payment of expenses incurred for the administration of the Employment Security Law and public employment offices. Money requisitioned or used for this purpose must be pursuant to a specific appropriation by the Legislature. Any such appropriation law shall specify the amount and purposes for which the money is appropriated and must be enacted before expenses may be incurred and money may be requisitioned. Such appropriation is subject to the following conditions:

(A) Money may be obligated for a limited period ending not more than two years after the effective date of the appropriation law; and

(B) An obligated amount shall not exceed the aggregate amounts transferred to the account of this state pursuant to section 903 of the Social Security Act less the aggregate of amounts used by this state pursuant to the Employment Security Law and amounts charged against the amounts transferred to the account of this state.

(b) For purposes of subdivision (2)(a)(ii)(B) of this section, amounts appropriated for administrative purposes shall be charged against transferred amounts when the obligation is entered into.

(c) The appropriation, obligation, and expenditure or other disposition of money appropriated under this subsection shall be accounted for in accordance with standards established by the United States Secretary of Labor.

(d) Money appropriated as provided in this subsection for the payment of administration expenses shall be requisitioned as needed for the payment of obligations incurred under such appropriation. Upon requisition, administration expenses shall be credited to the Employment Security Administration Fund from which such payments shall be made. Money so credited shall, until expended, remain a part of the Employment Security Administration Fund. If not immediately expended, credited money shall be returned promptly to the account of this state in the Unemployment Trust Fund.

In no event shall the benefit amount based on employment for any employer be reduced to less than one benefit week when the individual was or could have been determined disqualified under section 48-628.12.

(2) For any benefit year beginning on or after October 1, 2018, any otherwise eligible individual shall be entitled during any benefit year to a total amount of benefits equal to whichever is the lesser of (a) twenty-six times his or her weekly benefit amount or (b) one-third of his or her wages in the employment of each employer per calendar quarter of his or her base period; except that when any individual has been separated from his or her employment with a base period employer under circumstances under which he or she was or could have been determined disqualified under section 48-628.10 or 48-628.12, the total benefit amount based on the employment from which he or she was so separated shall be reduced by an amount determined pursuant to subsection (3) of this section, but not more than one reduction may be made for each separation. In no event shall the benefit amount based on employment for any employer be reduced to less than one benefit week when the individual was or could have been determined disqualified under section 48-628.12.

(3) For purposes of determining the reduction of benefits described in subsection (2) of this section:

(a) If the claimant has been separated from his or her employment under circumstances under which he or she was or could have been determined disqualified under section 48-628.12, his or her total benefit amount shall be reduced by:

(i) Two times his or her weekly benefit amount if he or she left work voluntarily for the sole purpose of accepting previously secured, permanent, full-time, insured work, which he or she does accept, which offers a reasonable expectation of betterment of wages or working conditions, or both, and for which he or she earns wages payable to him or her; or

(ii) Thirteen times his or her weekly benefit amount if he or she left work voluntarily without good cause for any reason other than that described in subdivision (3)(a)(i) of this section; and

(b) If the claimant has been separated from his or her employment under circumstances under which he or she was or could have been determined disqualified under section 48-628.10, his or her total benefit amount shall be reduced by fourteen times his or her weekly benefit amount.

(4) For purposes of sections 48-623 to 48-626, wages shall be counted as wages for insured work for benefit purposes with respect to any benefit year only if such benefit year begins subsequent to the date on which the employer by whom such wages were paid has satisfied the conditions of section 48-603 or subsection (3) of section 48-661 with respect to becoming an employer.

(5) In order to determine the benefits due under this section and sections 48-624 and 48-625, each employer shall make reports, in conformity with reasonable rules and regulations adopted and promulgated by the commissioner, of the wages of any claimant. If any employer fails to make such a report within the time prescribed, the commissioner may accept the statement of such claimant as to his or her wages, and any benefit payments based on such statement of earnings, in the absence of fraud or collusion, shall be final as to the amount.

48-627 Benefits; eligibility conditions; availability for work; requirements.

An unemployed individual shall be eligible to receive benefits with respect to any week, only if the Commissioner of Labor finds:

(1) He or she has registered for work at an employment office, is actively searching for work, and thereafter reports at an employment office in accordance with such rules and regulations as the commissioner may adopt and promulgate. The commissioner may, by rule and regulation, waive or alter any of the requirements of this subdivision as to individuals attached to regular jobs and as to such other types of cases or situations if the commissioner finds that compliance with such requirements would be oppressive or inconsistent with the purposes of the Employment Security Law;

(2) He or she has made a claim for benefits in accordance with section 48-629;

(3)(a) He or she is able to work and is available for work.

(b) No individual, who is otherwise eligible, shall be deemed ineligible, or unavailable for work, because he or she is on vacation without pay during such week, if such vacation is not the result of his or her own action as distinguished from any collective action by a collective-bargaining agent or other action beyond his or her individual control, and regardless of whether he or she was notified of the vacation at the time of his or her hiring.

(c) An individual who is otherwise eligible shall not be deemed unavailable for work or failing to engage in an active work search solely because such individual is seeking part-time work if the majority of the weeks of work in an individual's base period include part-time work. For purposes of this subdivision, seeking only part-time work shall mean seeking less than full-time work having comparable hours to the individual's part-time work in the base period, except that the individual must be available for work at least twenty hours per week.

(d) Receipt of a non-service-connected total disability pension by a veteran at the age of sixty-five or more shall not of itself bar the veteran from benefits as not able to work.

(e) An otherwise eligible individual while engaged in a training course approved for him or her by the commissioner shall be considered available for work for the purposes of this section.

(f) An inmate sentenced to and in custody of a penal or custodial institution shall be considered unavailable for work for purposes of this section;

(4) He or she has been unemployed for a waiting period of one week. No week shall be counted as a week of unemployment for the purpose of this subdivision (a) unless it occurs within the benefit year, which includes the week with respect to which he or she claims payment of benefits, (b) if benefits have been paid with respect thereto, or (c) unless the individual was eligible for benefits with respect thereto, as provided in sections 48-627, 48-627.01, 48-628, and 48-628.02 to 48-628.12, except for the requirements of this subdivision; and

(5) He or she is participating in reemployment services at no cost to such individual as directed by the commissioner, such as job search assistance services, if the individual has been determined to be likely to exhaust regular benefits and to need reemployment services pursuant to a profiling system established by rule and regulation of the commissioner which is in compliance with section 303(j)(1) of the federal Social Security Act, unless the commissioner determines that:

(a) The individual has completed such services; or

(b) There is justifiable cause for the claimant's failure to participate in such services.

Without an order from the sentencing court granting the privilege to leave the jail for work, an inmate was not "available" for work under this section. *Robinson v. Commissioner of Labor*, 267 Neb. 579, 675 N.W.2d 683 (2004).

This section describes weekly requirements for continuing eligibility and does not address the reasons why a person became unemployed or threshold questions of eligibility. *Ponderosa Villa v. Hughes*, 224 Neb. 627, 399 N.W.2d 813 (1987).

A lump-sum severance allowance paid to a claimant is not to be prorated to the calendar quarters immediately following the date of payment in order to determine whether the monetary eligibility requirements of subdivision (e) of this section have been met. *Sorensen v. Meyer*, 220 Neb. 457, 370 N.W.2d 173 (1985).

The provision that a claimant earn a certain amount of wages during any benefit year and during each of two quarters thereof is intended to prevent a claimant from electing to simply collect unemployment benefits rather than work. *Sorensen v. Meyer*, 220 Neb. 457, 370 N.W.2d 173 (1985).

A professional symphony musician employed under a seasonal contract rather than an annual contract was entitled to unemployment benefits for the time he was unemployed during the symphony's "off season". *Hanlon v. Boden*, 209 Neb. 169, 306 N.W.2d 858 (1981).

Registration for work alone is not sufficient to show prima facie a right to benefits. *Hunter v. Miller*, 148 Neb. 402, 27 N.W.2d 638 (1947).

For purposes of section 48-628(7), a student is not "registered for full attendance" and therefore disqualified from receiving unemployment benefits if the student's educational program allows him or her to remain "available for work" pursuant to subdivision (3) of this section. *Lecuona v. Cramer*, 14 Neb. App. 770, 714 N.W.2d 786 (2006).

48-627.01 Benefits; monetary eligibility; earned wages; adjustment.

(1) In addition to the requirements of section 48-627, for any benefit year beginning on or after January 1, 2018, an unemployed individual shall be monetarily eligible to receive benefits if the commissioner finds he or she has:

(a) Earned total wages for employment by employers equal to not less than four thousand one hundred forty-five dollars and seventy-four cents within his or her base period. Of such total wages, at least one thousand eight hundred fifty dollars shall have been paid in one quarter in his or her base period and eight hundred dollars shall have been paid in a second quarter of his or her base period; and

(b) Earned wages in insured work of at least six times his or her weekly benefit amount for the previous benefit year subsequent to filing the claim which establishes the previous benefit year.

(2) Beginning on January 1, 2019, and each January 1 thereafter, the amount which an individual is required to earn within his or her base period under subdivision (1)(a) of this section shall be adjusted annually. The adjusted amount shall be equal to the then current amount adjusted by the cumulative percentage change in the Consumer Price Index for All Urban Consumers published by the Federal Bureau of Labor Statistics for the one-year period ending on the previous September 30. If such adjusted amount is not a whole dollar amount, the adjusted amount shall be rounded down to the nearest whole dollar amount.

(3) For purposes of this section:

(a) For the determination of monetary eligibility, wages paid within a base period shall not include wages from any calendar quarter previously used to establish a valid claim for benefits; and

(b) For benefit purposes, wages shall be counted as wages for insured work with respect to any benefit year only if such benefit year begins subsequent to the date on which the employer, by whom such wages were paid, has satisfied the conditions of section 48-603 or subsection (3) of section 48-661 with respect to becoming an employer.

48-628 Benefits; conditions disqualifying applicant; exceptions.

(1) An individual shall be disqualified for benefits for any week of unemployment in which the commissioner finds he or she has failed, without good cause, to apply for available, suitable work when so directed by the employment office or the commissioner, to accept suitable work offered him or her, or to return to his or her customary self-employment, if any, and for the twelve weeks immediately thereafter. The total benefit amount to which he or she is then entitled shall be reduced by an amount equal to the number of weeks for which he or she has been disqualified by the commissioner.

(2) In determining whether or not any work is suitable for an individual, the commissioner shall consider the following:

- (a) The degree of risk involved to the individual's health, safety, and morals;
- (b) His or her physical fitness and prior training;
- (c) His or her experience and prior earnings;
- (d) His or her length of unemployment and prospects for securing local work in his or her customary occupation; and
- (e) The distance of the available work from his or her residence.

(3) Notwithstanding any other provisions of the Employment Security Law, no work shall be deemed suitable and benefits shall not be denied under such law to any otherwise eligible individual for refusing to accept new work under any of the following conditions:

- (a) If the position offered is vacant due directly to a strike, lockout, or other labor dispute;
- (b) If the wages, hours, or other conditions of the work offered are substantially less favorable to the individual than those prevailing for similar work in the locality; or
- (c) If, as a condition of being employed, the individual would be required to join a company union or to resign from or refrain from joining any bona fide labor organization.

(4) Notwithstanding any other provisions in this section relating to failure to apply for or a refusal to accept suitable work, no otherwise eligible individual shall be denied benefits with respect to any week in which he or she is in training with the approval of the commissioner.

(5) No individual shall be disqualified for refusing to apply for available, full-time work or accept full-time work under subsection (1) of this section solely because such individual is seeking part-time work if the majority of the weeks of work in an individual's base period include part-time work. For purposes of this subsection, seeking only part-time work shall mean seeking less than full-time work having comparable hours to the individual's part-time work in the base period, except that the individual must be available for work at least twenty hours per week.

- 1. Eligibility for benefits
- 2. Voluntary termination of employment
- 3. Stoppage of work
- 4. Misconduct
- 5. Miscellaneous

1. Eligibility for benefits

In the circumstances of multiple employment, a decision to voluntarily leave part-time employment without good cause does not disqualify one from receiving full unemployment compensation benefits resulting from being laid off from one's full-time position. *Fountain v. Hanlon*, 214 Neb. 700, 335 N.W.2d 319 (1983).

When determining if an employee, discharged for violating a company rule forbidding company employees from having contact with prior employees, is to be disqualified from receiving benefits under this statute, it must be determined if the rule has a reasonable relationship to the employer's interest. Rule here held not to be so related to the employer's interest. *Snyder Industries, Inc. v. Otto*, 212 Neb. 40, 321 N.W.2d 77 (1982).

The disqualification of employees of educational institutions and professional athletes for unemployment benefits under this provision does not include professional symphony musicians. The provisions of the unemployment compensation act should be liberally construed in favor of those claiming benefits under it. *Hanlon v. Boden*, 209 Neb. 169, 306 N.W.2d 858 (1981).

Pursuant to subsection (5)(b) of this section, receipt of workers' compensation temporary disability benefits disqualifies a person from receiving unemployment benefits unless the amount of workers' compensation benefits is less than the amount recoverable for unemployment. In that situation, the individual is entitled to the difference. *Hernandez v. JBS USA*, 20 Neb. App. 634, 828 N.W.2d 765 (2013).

For purposes of subdivision (7) of this section, a student is not "registered for full attendance" and therefore disqualified from receiving unemployment benefits if the student's educational program allows him or her to remain "available for work" pursuant to section 48-627(3). *Lecuona v. Cramer*, 14 Neb. App. 770, 714 N.W.2d 786 (2006).

2. Voluntary termination of employment

In the context of subsection (1)(a) of this section, to leave work voluntarily means to sever the employment relationship with the intent not to return to, or to intentionally terminate, the employment. *Lancaster Cty. Sch. Dist. No. 0001 v. State Dept. of Labor*, 260 Neb. 108, 615 N.W.2d 441 (2000).

Pursuant to subsection (1)(a) of this section, a court will separately consider the circumstances under which each of multiple employments was terminated in determining the benefits against which the statutory disqualification shall apply. *Lancaster Cty. Sch. Dist. No. 0001 v. State Dept. of Labor*, 260 Neb. 108, 615 N.W.2d 441 (2000).

Pursuant to subsection (1)(a) of this section, a paraeducator comes within the scope of this statutory provision. *Lancaster Cty. Sch. Dist. No. 0001 v. State Dept. of Labor*, 260 Neb. 108, 615 N.W.2d 441 (2000).

Pursuant to subsection (1)(a) of this section, an employee has "good cause" for voluntarily leaving employment if the employee's decision to leave is prompted by a circumstance which has some justifiably reasonable connection with or relation to the conditions of the employment. *Lancaster Cty. Sch. Dist. No. 0001 v. State Dept. of Labor*, 260 Neb. 108, 615 N.W.2d 441 (2000).

For purposes of subsection (a)(1) of this section, an employee has not "left work voluntarily without good cause" when the employee voluntarily resigns from work but is subsequently terminated by the employer during the notice period. *Dillard Dept. Stores v. Polinsky*, 247 Neb. 821, 530 N.W.2d 637 (1995).

An employee who has engaged in no misconduct and who desires to keep his or her employment, but nonetheless resigns because the employer has clearly manifested that the employment will be terminated, has not left his or her employment "voluntarily," as that term is used in subsection (a)(1) of this section. *Perkins v. Equal Opportunity Comm.*, 234 Neb. 359, 451 N.W.2d 91 (1990).

An employee has good cause for voluntarily leaving employment if the employee's decision to leave is prompted by a circumstance which has some justifiably reasonable connection with or relation to the conditions of the employment. *Stackley v. State*, 222 Neb. 767, 386 N.W.2d 884 (1986).

A change in work hours, absent some compelling circumstance, does not constitute good cause for leaving employment under subsection (a)(1) of this section. *Montclair Nursing Center v. Wills*, 220 Neb. 547, 371 N.W.2d 121 (1985).

Employee failed to meet burden of proof as to good cause of employment termination where employee failed to offer competent medical evidence to substantiate claim that her health would be affected by a change in work hours. *Montclair Nursing Center v. Wills*, 220 Neb. 547, 371 N.W.2d 121 (1985).

An employer acts within the meaning of subsection (a) of this section by removing duties after a job change due to the physical incapacity to carry out those particular duties. *Norman v. Sorensen*, 220 Neb. 408, 370 N.W.2d 147 (1985).

To leave work voluntarily means to intentionally terminate the employment, but such leaving is with good cause if it has some justifiably reasonable connection with or relation to the conditions of employment. *McClemens v. United Parcel Serv.*, 218 Neb. 689, 358 N.W.2d 748 (1984).

The burden of proof is on the employee to show that he involuntarily left his employment or did so with good cause. *Taylor v. Collateral Control Corp.*, 218 Neb. 432, 355 N.W.2d 788 (1984).

One is disqualified for benefits if, by leaving work voluntarily and without good cause, one thereby makes oneself unemployed. Each job and the facts of its termination must be

considered separately with regard to disqualification for benefits. *Gilbert v. Hanlon*, 214 Neb. 676, 335 N.W.2d 548 (1983).

Evidence held to show that claimant left work voluntarily. To leave work voluntarily under this section means to intentionally sever the employment relationship with the intent not to return to, or to intentionally terminate, the employment. *Gastineau v. Tomahawk Oil Co., Limited*, 211 Neb. 537, 319 N.W.2d 107 (1982).

An employee who desires to retain his employment but resigns because the employer has clearly indicated that if he does not resign his employment will be terminated has not left his employment voluntarily. *School Dist. No. 20 v. Commissioner of Labor*, 208 Neb. 663, 305 N.W.2d 367 (1981).

A wife who voluntarily leaves her employment for the sole and only reason of being with her husband in another city does so without good cause and disqualifies herself as a claimant for unemployment benefits. *Woodmen of the World Life Ins. Soc. v. Olsen*, 141 Neb. 776, 4 N.W.2d 923 (1942).

An employee who leaves work voluntarily has the burden to prove that he or she left employment with good cause. *Speedway Motors v. Commissioner of Labor*, 1 Neb. App. 606, 510 N.W.2d 341 (1993).

3. Stoppage of work

A work stoppage cannot be determined solely on the basis of the proportionate number of employees affected. *Bell Fed. Credit Union v. Christianson*, 237 Neb. 519, 466 N.W.2d 546 (1991).

Depending on the facts of the case, various factors become relevant as to the determination of a work stoppage within the meaning of subsection (d) of this section. *Bell Fed. Credit Union v. Christianson*, 237 Neb. 519, 466 N.W.2d 546 (1991).

One disqualified from receiving benefits under subdivision (d) of this section can avoid continued disqualification if the employer fails to prove that for the week in question, the cause of work stoppage is the labor dispute. *IBP, Inc. v. Aanenson*, 234 Neb. 603, 452 N.W.2d 59 (1990).

No work stoppage occurred where workers' refusing to cross a picket line resulted in a four and nine-tenths percent loss in production, together with a two and nine-tenths percent loss of total work hours; there was no total operational shutdown at the plant; ninety-eight percent of the affected positions were filled by the end of the first week following the establishment of the picket line; and the company informed the Department of Labor that no work stoppage had occurred. *George A. Hormel & Co. v. Hair*, 229 Neb. 284, 426 N.W.2d 281 (1988).

One who is a member of the same grade or class of workers participating in a labor dispute is ineligible for unemployment compensation benefits. *Laursen v. Kiewit Constr. Co.*, 223 Neb. 471, 390 N.W.2d 534 (1986).

Members of nonstriking unions and nonunion employees who are not participating in or financing or directly interested in a labor dispute which caused a work stoppage and who do not belong to a grade or class of workers who, immediately before the commencement of the stoppage, were members employed at the premises at which the stoppage occurs, and are participating in, financing, or directly interested in the labor dispute, are not disqualified from receiving benefits. An employee is not directly interested in a labor dispute within the meaning of this provision merely because the employee may obtain a benefit by reason of the labor dispute. *Gilmore Constr. Co. v. Miller*, 213 Neb. 133, 327 N.W.2d 628 (1982).

Disqualification for benefits exists when unemployment is due to stoppage of work because of a labor dispute. *A. Borchman Sons v. Carpenter*, 166 Neb. 322, 89 N.W.2d 123 (1958).

Where a labor dispute develops into a strike, causing a substantial stoppage of work in the business of the employer, the employees striking are not entitled to benefits under the Unemployment Compensation Act. *Magner v. Kinney*, 141 Neb. 122, 2 N.W.2d 689 (1942).

The term stoppage of work, as used in Unemployment Compensation Act, means a substantial curtailment of work in an

employing establishment. *Deshler Broom Factory v. Kinney*, 140 Neb. 889, 2 N.W.2d 332 (1942).

4. Misconduct

An employee's actions do not rise to the level of misconduct if the individual is merely unable to perform the duties of the job. *Meyers v. Nebraska State Penitentiary*, 280 Neb. 958, 791 N.W.2d 607 (2010).

Under subsection (2) of this section, an individual shall be disqualified for unemployment benefits for misconduct related to his work. *Meyers v. Nebraska State Penitentiary*, 280 Neb. 958, 791 N.W.2d 607 (2010).

The degree of damage caused should not be a determining factor in whether an employee engaged in misconduct under subsection (2) of this section. Instead, the focus should be on the employee's culpability as demonstrated by his or her conduct and intentions. *NEBCO, Inc. v. Murphy*, 280 Neb. 145, 784 N.W.2d 447 (2010).

Misconduct has been defined, pursuant to this section, as behavior evidencing (1) wanton and willful disregard of the employer's interests, (2) deliberate violation of rules, (3) disregard of standards of behavior which the employer can rightfully expect from the employee, or (4) negligence which manifests culpability, wrongful intent, evil design, or intentional and substantial disregard of the employer's interests or of the employee's duties and obligations. *Douglas Cty. Sch. Dist. 001 v. Dutcher*, 254 Neb. 317, 576 N.W.2d 469 (1998).

In order for a violation of an employer's rule to constitute misconduct, the rule must bear a reasonable relationship to the employer's interests. *Dolan v. Svitak*, 247 Neb. 410, 527 N.W.2d 621 (1995).

Under subsection (b) of this section, conduct of a governmental employee which evinces a conscious and intentional disregard of standards of behavior which his or her governmental employer would have a right to expect from such employee constitutes misconduct in connection with the employee's employment, where continued employment would create a genuine threat to the integrity of the governmental employer and reflect unfavorably upon the governmental employer in the eyes of the general public. *Poore v. City of Minden*, 237 Neb. 78, 464 N.W.2d 791 (1991).

An employee who is discharged for misconduct may be disqualified from unemployment compensation benefits. *Caudill v. Surgical Concepts, Inc.*, 236 Neb. 266, 460 N.W.2d 662 (1990).

The term "misconduct," as used in subsection (b) of this section, includes behavior that evidences wanton and willful disregard of the employer's interests; deliberate violations of rules; disregard of standards of behavior rightfully expected from the employee; or negligence which manifests culpability, wrongful intent, evil design, or intentional and substantial disregard of the employer's interests or of the employee's duties and obligations. *Jensen v. Mary Lanning Memorial Hosp.*, 233 Neb. 66, 443 N.W.2d 891 (1989).

Where an employee has close personal contact with persons served by the employer, it is not unreasonable for the employer to require the employee to report to work without the odor of alcohol on his breath. Violation of the requirement, after warnings to the employee, is misconduct under subsection (b) of the statute. *Jensen v. Mary Lanning Memorial Hosp.*, 233 Neb. 66, 443 N.W.2d 891 (1989).

Misconduct for which a disqualification from receiving unemployment benefits under subsection (b) of this section may result must be committed in connection with the employee's work. Failure to cooperate with an employer which is attempting to furnish a smoke-free environment by a good faith trial and error method constitutes misconduct in connection with the employee's work sufficient to disqualify the employee from receiving unemployment compensation benefits. Failure to furnish medical justification for prolonged absences from employment, when an employee has stated that such justification will be furnished, also constitutes sufficient misconduct in connection with the employee's work. *Tuma v. Omaha Public Power Dist.*, 226 Neb. 19, 409 N.W.2d 306 (1987).

Misconduct for which a disqualification from receiving unemployment benefits may result must be committed in connection with the employee's work. Conduct of an employee in so acting as to create a situation where garnishments are filed with his or her employer is not "misconduct connected with his or her work" and therefore will not disqualify a discharged employee from receiving unemployment compensation benefits. *Great Plains Container Co. v. Hiatt*, 225 Neb. 558, 407 N.W.2d 166 (1987).

While absences due to illness may not constitute an employee's misconduct, an employee's chronic and excessive absenteeism demonstrates a wanton and willful disregard of the employer's interests for the purpose of this section. *O'Keefe v. Tabitha, Inc.*, 224 Neb. 574, 399 N.W.2d 798 (1987).

Misconduct under subsection (b) of this section is defined as behavior which evidences (1) wanton and willful disregard of the employer's interests, (2) deliberate violation of rules, (3) disregard of standards of behavior which the employer can rightfully expect from the employee, or (4) negligence which manifests culpability, wrongful intent, evil design, or intentional and substantial disregard of the employer's interests or of the employee's duties and obligations. *Smith v. Sorensen*, 222 Neb. 599, 386 N.W.2d 5 (1986).

The falsifying of entries by an employee of his employer's work records constitutes misconduct. What constitutes misconduct is a fact question. In order for a violation of an employer's rules to constitute misconduct, it is necessary that the rule be a reasonable one. *Smith v. Sorensen*, 222 Neb. 599, 386 N.W.2d 5 (1986).

Misconduct within the meaning of this statute is a deliberate, willful, or wanton disregard of an employer's interest or of the standards of behavior which the employer has a right to expect of his employees, or carelessness or negligence of such a degree or recurrence as to manifest culpability, wrongful intent, or evil design. *Barada v. Sorensen*, 222 Neb. 391, 383 N.W.2d 799 (1986).

Excessive absences from work, except when excused or authorized by employment rules, may constitute misconduct. *McCorison v. City of Lincoln*, 215 Neb. 474, 339 N.W.2d 294 (1983).

Misconduct, under this section, is the deliberate, willful, or wanton disregard of an employer's interest or of the standards of behavior which the employer has a right to expect of his employees, or carelessness or negligence of such a degree or recurrence as to manifest culpability, wrongful intent, or evil design. *Bristol v. Hanlon*, 210 Neb. 37, 312 N.W.2d 694 (1981).

5. Miscellaneous

The language of subsection (5)(b) of this section in its current form does not include temporary total disability as a disqualifying event for the receipt of unemployment benefits. *Memorial Hosp. of Dodge Cty. v. Porter*, 251 Neb. 327, 557 N.W.2d 21 (1996).

In an appeal regarding disqualification under subsection (b) of this section, the Supreme Court retries factual questions de novo on the record and reaches conclusions independent of those reached by the district court. *Jensen v. Mary Lanning Memorial Hosp.*, 233 Neb. 66, 443 N.W.2d 891 (1989).

Subsection (c) of this section disqualifies unemployed persons refusing suitable work from receiving benefits. This subsection does not apply to employed persons who reject demotions. *Ponderosa Villa v. Hughes*, 224 Neb. 627, 399 N.W.2d 813 (1987).

The correct inquiry in cases where an employed person refuses a demotion and quits is whether the employee left with or without good cause. *Ponderosa Villa v. Hughes*, 224 Neb. 627, 399 N.W.2d 813 (1987).

In an appeal regarding disqualification of benefits under this section, the Supreme Court retries factual questions de novo on the record and reaches conclusions independent of those reached by the district court. *O'Keefe v. Tabitha, Inc.*, 224 Neb. 574, 399 N.W.2d 798 (1987).

The burden of proof under subsection (a)(1) of this section is upon the employee to show that he or she left his or her employment for good cause. *Montclair Nursing Center v. Wills*, 220 Neb. 547, 371 N.W.2d 121 (1985).

The requirement of subdivision (e) of this section, that a lump-sum severance allowance be prorated, is intended to prevent a claimant from receiving double payments for the same period of time in the form of unemployment benefits and severance compensation. *Sorensen v. Meyer*, 220 Neb. 457, 370 N.W.2d 173 (1985).

Subsection (c) of this section provides an employer with an additional reason for disqualification from benefits when a person refuses suitable work, and work is suitable when duties are excused upon the employee's showing of physical incapacity to perform the particular duties. *Norman v. Sorensen*, 220 Neb. 408, 370 N.W.2d 147 (1985).

Regular terms refers to definite period representing regular division of academic year and does not include six-week summer program. *School Dist. No. 21 v. Ochoa*, 216 Neb. 191, 342 N.W.2d 665 (1984).

"Good cause" as used herein does not include a mere disappointment at not being assigned to a particular job or task. *Heimsoth v. Kellwood Co.*, 211 Neb. 167, 318 N.W.2d 1 (1982).

Up to the point of appeal to district court, interpretation and application of law to facts in each case is made by administrative agency. *Beecham v. Falstaff Brewing Corporation*, 150 Neb. 792, 36 N.W.2d 233 (1949).

The receipt of workers' compensation benefits for temporary total disability is not a disqualifying event for unemployment benefits. *Memorial Hosp. of Dodge Cty. v. Porter*, 4 Neb. App. 716, 548 N.W.2d 361 (1996).

48-628.01 Benefits; disqualification; receipt of other unemployment benefits.

An individual shall be disqualified for benefits for any week with respect to which, or a part of which, he or she has received or is seeking unemployment benefits under an unemployment compensation law of any other state or of the United States. If the appropriate agency of such other state or of the United States finally determines that he or she is not entitled to such unemployment benefits, the disqualification provided in this section shall not apply.

48-628.02 Benefits; disqualification; receipt of other remuneration.

(1) An individual shall be disqualified for benefits for any week in which he or she is receiving or has received remuneration in the form of:

- (a) Wages in lieu of notice or a dismissal or separation allowance;
- (b) Vacation leave pay, including that received in a lump sum or upon separation from employment;
- (c) Compensation for temporary disability under the workers' compensation law of any state or under a similar law of the United States;
- (d) Retirement or retired pay, pension, annuity, or other similar periodic payment under a plan maintained or contributed to by a base period or chargeable employer; or
- (e) A gratuity or a bonus from an employer, paid after termination of employment, on account of prior length of service, or disability not compensated under the workers' compensation law.

(2) Payments described in subsection (1) of this section that are made in a lump sum shall be prorated in an amount which is reasonably attributable to such week. If the prorated remuneration is less than the benefits which would otherwise be due, he or she shall be entitled to receive for such week, if otherwise eligible, benefits reduced by the amount of such remuneration. The prorated remuneration shall be considered wages for the quarter to which it is attributed.

(3) Military service-connected disability compensation payable under 38 U.S.C. chapter 11 and primary insurance benefits payable under Title II of the Social Security Act, as amended, or similar payments under any act of Congress shall not be deemed to be disqualifying or deductible from the benefit amount.

(4) No deduction shall be made for the part of any retirement pension which represents return of payments made by the individual. In the case of a transfer by an individual or his or her employer of an amount from one retirement plan to a second qualified retirement plan under the Internal Revenue Code, the amount transferred shall not be deemed to be received by the claimant until actually paid from the second retirement plan to the claimant.

(5) No deduction shall be made for any benefit received under a supplemental unemployment benefit plan described in subdivision (35)(g) of section 48-602.

(6) No deduction shall be made for any supplemental payments received by a claimant under the provisions of subsection (b) of section 408 of Title IV of the Veterans' Readjustment Assistance Act of 1952.

48-628.03 Benefits; disqualification; student.

(1) An individual shall be disqualified for benefits for any week of unemployment if such individual is a student unless the major portion of his or her wages for insured work during his or her base period was for services performed while attending school. Attendance at a school, college, or university for training purposes, under a plan approved by the commissioner for such individual, shall not be disqualifying.

(2) For purposes of this section, student means an individual who is registered for full-time status at and regularly attends an established school, college, university, training facility, or other educational institution or who is on vacation during or between two successive academic years or terms.

(a) Is an individual who was lawfully admitted for permanent residence at the time such services were performed;

(b) Was lawfully present for purposes of performing such services; or

(c) Was permanently residing in the United States under color of law at the time such services were performed, including an alien who was lawfully present in the United States as a result of the application of section 212(d)(5) of the Immigration and Nationality Act, 8 U.S.C. 1182(d)(5).

(2) Any data or information required of individuals applying for benefits to determine whether benefits are not payable to them because of their alien status shall be uniformly required from all applicants for benefits. In the case of an individual whose application for benefits would otherwise be approved, no determination that benefits to such individual are not payable because of his or her alien status shall be made except upon a preponderance of the evidence.

48-628.05 Benefits; disqualification; sports or athletic events.

An individual shall be disqualified for unemployment benefits for any week if substantially all the services upon which such benefits are based consist of participating in sports or athletic events or training or preparing to so participate, if:

(1) Such week of unemployment begins during the period between two successive sport seasons or similar periods;

(2) Such individual performed such services in the first of such seasons or similar periods; and

(3) There is a reasonable assurance that such individual will perform such services in the later of such seasons or similar periods.

48-628.06 Benefits; disqualification; educational institution.

An individual shall be disqualified for benefits for any week of unemployment if claimed benefits are based on services performed:

(1) In an instructional, research, or principal administrative capacity for an educational institution, if:

(a) Such week commences during the period between two successive academic years or terms, or when an agreement provides instead for a similar period between two regular, but not successive, terms during such period;

(b) Such individual performs such services in the first of such academic years or terms; and

(c) There is a contract or reasonable assurance that such individual will perform services in any such capacity for any educational institution in the second of such academic years or terms;

(2) In any other capacity for an educational institution, if such week commences during a period between two successive academic years or terms, such

individual performs such services in the first of such academic years or terms, and there is a reasonable assurance that such individual will perform such services in the second of such academic years or terms. If benefits are denied to any individual for any week under this subdivision and such individual was not offered an opportunity to perform such services for the educational institution for the second of such academic years or terms, such individual shall be entitled to a retroactive payment of the benefits for each week for which the individual filed a timely claim for benefits and for which benefits were denied solely by reason of this subdivision;

(3) In any capacity described in subdivision (1) or (2) of this section in an educational institution while in the employ of an educational service agency, and such individual shall be disqualified as specified in subdivisions (1) and (2) of this section. As used in this subdivision, educational service agency means a governmental agency or governmental entity which is established and operated exclusively for the purpose of providing services to one or more educational institutions;

Such an individual shall not be denied benefits by reason of leaving work to enter such training if the work left is not suitable employment or because of the application to any such week in training of provisions of the Employment Security Law, or any applicable federal unemployment compensation law, relating to availability for work, active search for work, or refusal to accept work.

(1) An individual shall be disqualified for benefits for any week with respect to which the commissioner finds that his or her total unemployment is due to a stoppage of work which exists because of a labor dispute at the factory, establishment, or other premises where he or she is or was last employed. This section shall not apply if it is shown to the satisfaction of the commissioner that:

(a) The individual is not participating in, financing, or directly interested in the labor dispute which caused the stoppage of work; and

(b) He or she does not belong to a grade or class of workers that includes members who, immediately before the commencement of the stoppage, were employed at the premises where the stoppage occurs and who are participating, financing, or directly interested in the dispute.

48-628.10 Benefits; disqualification; discharge for misconduct.

(1) An individual shall be disqualified for benefits for the week in which he or she has been discharged for misconduct connected with his or her work, if so found by the commissioner, and for the fourteen weeks immediately thereafter.

An individual shall be disqualified for benefits for any week of unemployment benefits or for waiting week credit if he or she has been disqualified from the receipt of benefits pursuant to section 48-663.01 two or more times in the five-year period immediately prior to filing his or her most recent claim. 48-628.12 Benefits; disqualification; leave work voluntarily without good cause.

An individual shall be disqualified for benefits:

(1) For any benefit year beginning before October 1, 2018:

(a) For the week in which he or she has left work voluntarily without good cause, if so found by the commissioner, and for the thirteen weeks immediately thereafter. For purposes of this subdivision, a temporary employee of a temporary help firm has left work voluntarily without good cause if the temporary employee does not contact the temporary help firm for reassignment upon completion of an assignment and the temporary employee has been advised by the temporary help firm of his or her obligation to contact the temporary help firm upon completion of assignments and has been advised by the temporary help firm that the temporary employee may be denied benefits for failure to do so; or

(b) For the week in which he or she has left work voluntarily for the sole purpose of accepting previously secured, permanent, full-time, insured work, if so found by the commissioner, and for the two weeks immediately thereafter. For this subdivision to apply, such work shall:

(i) Be accepted by the individual;

(ii) Offer a reasonable expectation of betterment of wages or working conditions, or both; and

(iii) Enable the individual to earn wages payable to him or her; or

(2) For any benefit year beginning on or after October 1, 2018, for the week in which he or she has left work voluntarily without good cause, if so found by the commissioner, and for all subsequent weeks until the individual has earned wages in insured work in an amount of at least four times his or her weekly benefit amount and has separated from the most recent subsequent employment under nondisqualifying conditions. For purposes of this subdivision, a temporary employee of a temporary help firm has left work voluntarily without good cause if the temporary employee does not contact the temporary help firm for reassignment upon completion of an assignment and the temporary employee has been advised by the temporary help firm of his or her obligation to contact the temporary help firm upon completion of assignments and has been advised by the temporary help firm that the temporary employee may be denied benefits for failure to do so.

48-628.13 Good cause for voluntarily leaving employment, defined.

Good cause for voluntarily leaving employment shall include, but not be limited to, the following reasons:

(1) An individual has made all reasonable efforts to preserve the employment but voluntarily leaves his or her work for the necessary purpose of escaping abuse at the place of employment or abuse as defined in section 42-903 between household members;

(2) An individual left his or her employment voluntarily due to a bona fide non-work-connected illness or injury that prevented him or her from continuing the employment or from continuing the employment without undue risk of harm to the individual;

(3) An individual left his or her employment to accompany his or her spouse to the spouse's employment in a different city or new military duty station;

(4) An individual left his or her employment because his or her employer required the employee to relocate;

(5)(a) An individual is a construction worker and left his or her employment voluntarily for the purpose of accepting previously secured insured work in the construction industry if the commissioner finds that:

(ii)(A) The construction worksite of the job which the worker quit was more than fifty miles from his or her place of residence, (B) the new construction job was fifty or more miles closer to his or her residence than the job which he or she quit, and (C) the worker actually worked twenty days or more at the new job unless the new job was terminated by a contract cancellation.

(b) The provisions of this subdivision (5) shall not apply if the individual is separated from the new job under conditions resulting in a disqualification from benefits under section 48-628.10 or 48-628.12;

(6) An individual accepted a voluntary layoff to avoid bumping another worker;

(7) An individual left his or her employment as a result of being directed to perform an illegal act;

(i) A biological, adopted, or foster child, a stepchild, or a legal ward of the individual or the individual's spouse or a person to whom the individual or the individual's spouse stood in loco parentis when such person was a minor child, regardless of the age or dependency status of such child, stepchild, legal ward, or person;

(ii) A biological, adoptive, or foster parent, a stepparent, or a legal guardian of the individual or the individual's spouse or a person who stood in loco

parentis to the individual or the individual's spouse when the individual or the individual's spouse was a minor child;

(iii) The individual's spouse; or

(iv) A grandparent, grandchild, or sibling, whether of a biological, foster, adoptive, or step relationship, of the individual or the individual's spouse; and

48-628.14 Extended benefits; terms, defined; weekly extended benefit amount; payment of emergency unemployment compensation.

(1) As used in the Employment Security Law, unless the context otherwise requires:

(a) Extended benefit period means a period which begins with the third week after a week for which there is a state "on" indicator and ends with either of the following weeks, whichever occurs later: (i) The third week after the first week for which there is a state "off" indicator or (ii) the thirteenth consecutive week of such period, except that no extended benefit period may begin by reason of a state "on" indicator before the fourteenth week following the end of a prior extended benefit period which was in effect with respect to this state;

(b) Extended benefits means benefits, including benefits payable to federal civilian employees and to ex-servicemen or ex-servicewomen pursuant to 5 U.S.C. chapter 85, payable to an individual for weeks of unemployment in his or her eligibility period;

(c) Eligibility period of an individual means the period consisting of the weeks in his or her benefit year which begin in an extended benefit period and, if his or her benefit year ends within such extended benefit period, any weeks thereafter which begin in such period. Notwithstanding any other provision of the Employment Security Law, if the benefit year of any individual ends within an extended benefit period, the remaining balance of extended benefits that such individual would, but for this section, be entitled to receive in that extended benefit period, with respect to weeks of unemployment beginning after the end of the benefit year, shall be reduced, but not below zero, by the product of the number of weeks for which the individual received any amounts as trade readjustment allowances within that benefit year multiplied by the individual's weekly benefit amount for extended benefits;

(d) Exhaustee means an individual who, with respect to any week of unemployment in his or her eligibility period:

(i)(A) Has received, prior to such week, all of the regular benefits that were available to him or her under the Employment Security Law of this state or under the unemployment insurance law of any other state, including dependents' allowances and benefits payable to federal civilian employees and ex-servicemen or ex-servicewomen under 5 U.S.C. chapter 85, in his or her current benefit year that includes such week, except for the purposes of this subdivision, an individual shall be deemed to have received all of the regular benefits that were available to him or her although as a result of a pending

appeal with respect to wages or employment or both wages and employment that were not considered in the original monetary determination in his or her benefit year, he or she may subsequently be determined to be entitled to added regular benefits; or (B) his or her benefit year having expired prior to such week, has no, or insufficient, wages or employment or both wages and employment on the basis of which he or she could establish a new benefit year that would include such week;

(ii) Has no right to unemployment benefits or allowances, as the case may be, under the Railroad Unemployment Insurance Act, the Trade Expansion Act of 1962, the Automotive Products Trade Act of 1965, and such other federal laws as are specified in regulations issued by the United States Secretary of Labor; and

(iii) Has not received and is not seeking unemployment benefits under the unemployment compensation law of Canada, but if he or she is seeking such benefits and the appropriate agency finally determines that he or she is not entitled to benefits under such law, he or she is considered an exhaustee;

(e) Rate of insured unemployment means the percentage, used by the commissioner in determining whether there is a state "on" or state "off" indicator, derived by dividing (i) the average weekly number of individuals filing claims for regular compensation under the Employment Security Law for weeks of unemployment with respect to the most recent thirteen-consecutive-week period, as determined by the commissioner on the basis of his or her reports to the United States Secretary of Labor, by (ii) the average monthly employment covered under the Employment Security Law for the first four of the most recent six completed calendar quarters ending before the end of such thirteen-week period;

(f) Regular benefits means benefits payable to an individual under the Employment Security Law of this state or under the unemployment insurance law of any other state, including benefits payable to federal civilian employees and to ex-servicemen or ex-servicewomen pursuant to 5 U.S.C. chapter 85, other than extended benefits;

(g) State "off" indicator means a week for which the commissioner determines that, for the period consisting of such week and the immediately preceding twelve weeks, neither subdivision (1)(h)(i) or (1)(h)(ii) of this section was satisfied; and

(h) State "on" indicator means a week for which the commissioner determines that, for the period consisting of such week and the immediately preceding twelve weeks, the rate of insured unemployment, not seasonally adjusted, under the Employment Security Law: (i) Equaled or exceeded one hundred twenty percent of the average of such rates for the corresponding thirteen-week period ending in each of the preceding two calendar years and equaled or exceeded five percent or (ii) equaled or exceeded six percent.

(2) Except when the result would be inconsistent with the other provisions of this section, as provided in the rules and regulations of the commissioner, the provisions of the Employment Security Law which apply to claims for or payment of regular benefits shall apply to claims for and payment of extended benefits. An individual shall be eligible to receive extended benefits with respect to any week of unemployment in his or her eligibility period only if the commissioner finds that with respect to such week:

(a) Such individual is an exhaustee;

(b) Such individual has satisfied the requirements of the Employment Security Law for the receipt of regular benefits that are applicable to individuals claiming extended benefits, including not being subject to a disqualification for the receipt of benefits;

(c) Sections 48-628.15 and 48-628.16 do not apply; and

(d) Such individual has been paid wages for insured work during the individual's base period equal to at least one and one-half times the wages paid in that calendar quarter of the individual's base period in which such wages were highest.

(3) The weekly extended benefit amount payable to an individual for a week of total unemployment in his or her eligibility period shall be an amount equal to the weekly benefit amount payable to him or her during his or her applicable benefit year. The total extended benefit amount payable to any eligible individual with respect to his or her applicable benefit year shall be the least of the following amounts:

(a) Fifty percent of the total amount of regular benefits which were payable to him or her under the Employment Security Law in his or her applicable benefit year; or

(b) Thirteen times his or her weekly benefit amount which was payable to him or her under the Employment Security Law for a week of total unemployment in the applicable benefit year.

(4) Whenever an extended benefit period is to become effective in this state as a result of a state "on" indicator or an extended benefit period is to be terminated in this state as a result of a state "off" indicator, the commissioner shall make an appropriate public announcement. Computations required to determine the rate of insured unemployment shall be made by the commissioner in accordance with regulations prescribed by the United States Secretary of Labor. Any amount of extended benefits payable to any individual for any week, if not an even dollar amount, shall be rounded to the next lower full dollar amount.

(5) Notwithstanding any other provision of the Employment Security Law, during an extended benefit period, the Governor may provide for the payment of emergency unemployment compensation pursuant to Public Law 110-252, as amended, or any substantially similar federal unemployment compensation paid entirely from federal funds to individuals prior to the payment of extended benefits pursuant to this section and sections 48-628.15 and 48-628.16.

48-628.15 Extended benefits; eligibility; seek or accept suitable work; suitable work, defined.

(1) An individual shall be ineligible for payment of extended benefits for any week of unemployment in his or her eligibility period if the commissioner finds that during such period (a) he or she failed to accept any offer of suitable work or failed to apply for any suitable work to which he or she was referred by the

commissioner or (b) he or she failed to actively engage in seeking work as prescribed under subsection (5) of this section.

(2) Any individual who has been found ineligible for extended benefits by reason of subsection (1) of this section shall also be denied benefits beginning with the first day of the week following the week in which such failure occurred and until he or she (a) has been employed in each of four subsequent weeks, whether or not consecutive, and (b) has earned remuneration equal to not less than four times the extended weekly benefit amount.

(3) For purposes of this section, the term suitable work means, with respect to any individual, any work which is within such individual's capabilities and for which the gross average weekly remuneration payable for the work exceeds the sum of the individual's average weekly benefit amount payable to him or her during his or her applicable benefit year, plus the amount, if any, of supplemental unemployment compensation benefits as defined in section 501(c)(17)(D) of the Internal Revenue Code payable to such individual for such week. Such work must also pay wages equal to the higher of the federal minimum wage or the applicable state or local minimum wage. No individual shall be denied extended benefits for failure to accept an offer or referral to any job which meets the definition of suitability contained in this subsection if (a) the position was not offered to such individual in writing or was not listed with the employment service, (b) such failure could not result in a denial of benefits under the definition of suitable work for regular benefit claimants in section 48-628, to the extent that the criteria of suitability in that section are not inconsistent with the provisions of this subsection, or (c) the individual furnishes satisfactory evidence to the commissioner that his or her prospects for obtaining work in his or her customary occupation within a reasonably short period are good. If such evidence is deemed satisfactory for this purpose, the determination of whether any work is suitable with respect to such individual shall be made in accordance with the definition of suitable work in section 48-628 without regard to the definition specified by this subsection.

(4) Notwithstanding the provisions of subsection (3) of this section to the contrary, no work shall be deemed to be suitable work for an individual which does not accord with the labor standard provisions set forth under subsection (3) of section 48-628, nor shall an individual be denied benefits if such benefits would not be deniable by reason of subsection (4) of section 48-628.

(5) For the purposes of subsection (1) of this section, an individual shall be treated as actively engaged in seeking work during any week if the individual has engaged in a systematic and sustained effort to obtain work during such week and the individual furnishes tangible evidence that he or she has engaged in such effort during such week.

(6) The state employment service shall refer any claimant entitled to extended benefits under this section to any suitable work which meets the criteria prescribed in subsection (3) of this section.

(7) An individual shall not be eligible to receive extended benefits with respect to any week of unemployment in his or her eligibility period if such individual has been disqualified for benefits under section 48-628, 48-628.10, or 48-628.12 unless such individual has earned wages for services performed in subsequent employment in an amount not less than four hundred dollars.

(1) Except as provided in subsection (2) of this section, payment of extended benefits shall not be made to any individual for any week if (a) extended benefits would, but for this section, have been payable for such week pursuant to an interstate claim filed in any state under the interstate benefit payment plan, and (b) an extended benefit period is not in effect for such week in such state.

(2) Subsection (1) of this section shall not apply with respect to the first two weeks for which extended benefits are payable, determined without regard to this section, pursuant to an interstate claim filed under the interstate benefit payment plan to the individual from the extended benefit account established for the benefit year.

(2) The amount of unemployment benefits payable to an individual for a week of unemployment under this section shall be equal to the amount of unemployment benefits which he or she has been determined eligible for under section 48-624 less any deductions or offsets authorized under the Employment Security Law.

(3) If an individual begins to receive unemployment benefits under this section while enrolled in a training program described in subsection (1) of this section during a benefit year, such individual shall continue to receive such benefits so long as he or she continues to make satisfactory progress in such training program, except that such benefits shall not exceed twenty-six times

the individual's weekly benefit amount for the most recent benefit year as determined under section 48-624.

(4) No benefits shall be payable under this section until the individual has exhausted all (a) regular unemployment benefits, (b) extended benefits as defined in subdivision (1)(b) of section 48-628.14, and (c) unemployment benefits paid entirely from federal funds to which he or she is entitled, including, but not limited to, trade readjustment assistance, emergency unemployment compensation, or other similar federally funded unemployment benefits.

48-630 Claims; determinations by adjudicator.

(1) A determination upon a claim filed pursuant to section 48-629 shall be made promptly by a representative designated by the commissioner, hereinafter referred to as an adjudicator.

(2) A determination shall include a statement as to whether and in what amount claimant is entitled to benefits for the week with respect to which the determination is made. A determination with respect to the first week of a benefit year shall also include a statement as to whether the claimant has been paid the wages required under section 48-627.01, and, if so, the first day of the benefit year, his or her weekly benefit amount, and the maximum total amount of benefits payable to him or her with respect to such benefit year. Whenever any claim involves the application of the provisions of section 48-628.09, the adjudicator shall promptly transmit his or her full findings of fact, with respect to such section, to the commissioner, who, on the basis of the evidence submitted and such additional evidence as he or she may require, shall affirm, modify, or set aside such findings of fact and transmit to the adjudicator a decision upon the issue involved under such section, which shall be deemed to be the decision of the adjudicator. All claims arising out of the same alleged labor dispute may be considered at the same time.

(3) In the event a claim is denied, a determination shall state the reasons therefor. Regardless of the outcome, the parties shall be promptly notified of the determination, together with the reasons therefor, and such determination shall be deemed to be the final decision on the claim, unless an appeal is filed with the department in the manner prescribed in section 48-634.

(4) Any benefits for which a claimant has been found eligible shall not be withheld because of an appeal filed under section 48-634, and such benefits shall be paid until a hearing officer has rendered a decision modifying or reversing the determination allowing such benefits if the claimant is otherwise eligible. Any benefits received by any person to which he or she had been found not entitled, under a redetermination or decision pursuant to sections 48-630 to 48-638, shall be treated as erroneous payments in accordance with section 48-665.

48-631 Claims; redetermination; time; notice; appeal.

(1) The adjudicator may reconsider a determination if he or she finds that:

(a) An error in computation or identity has occurred in connection with the determination;

(b) Wages of the claimant pertinent to such determination, but not considered in connection therewith, have been newly discovered; or

(c) Benefits have been allowed or denied or the amount of benefits has been set based on misrepresentations of fact.

(2) No such redetermination shall be made after two years from the date of the original determination.

(3) Notice of any redetermination shall be promptly given to the parties entitled to notice of the original determination, in the manner prescribed in section 48-630 with respect to notice of an original determination.

(4) If the amount of benefits is increased or decreased by a redetermination, an appeal therefrom may be filed solely with respect to the matters involved in such increase or decrease in the manner and subject to the limitations provided in section 48-634. Subject to the same limitations and for the same reasons, the Commissioner of Labor may reconsider the determination, in any case in which the final decision has been rendered by a hearing officer or a court, and may apply to the hearing officer or court which rendered such final decision to issue a revised decision. In the event that an appeal involving an original determination is pending as of the date a redetermination is issued, such appeal, unless withdrawn, shall be treated as an appeal of the redetermination.

(1) Notice of a determination upon a claim shall be promptly given to the claimant by electronic notice or by mailing such notice to his or her last-known address. A claimant shall elect to receive either electronic notice or mailed notice when he or she files a new claim or establishes a new benefit year. A claimant may change his or her election at any time. In addition, notice of any determination, together with the reasons therefor, shall be promptly given in the same manner to any employer from whom the claimant received wages on or after the first day of the base period for his or her most recent claim if such employer has indicated prior to the determination, in such manner as required by rule and regulation of the commissioner, that such individual may be ineligible or disqualified under any provision of the Employment Security Law. An employer shall provide information to the department in respect to the request for information within ten days after the mailing or electronic transmission of a request.

(2) If the employer provided information pursuant to subsection (6) of section 48-652 on the claim establishing the previous benefit year but did not receive a determination because of no involvement of base period wages and there are

wages from that employer in the base period for the most recent claim, the employer shall be provided the opportunity to provide new information that such individual may be ineligible or disqualified under any provision of the Employment Security Law on the current claim. This subsection shall not apply to employers who did not receive a determination because the separation was determined to result from a lack of work.

(3) If an employer fails to provide information to the department within the time period specified in subsection (1) of this section, the employer shall forfeit any appeal rights otherwise available pursuant to section 48-634.

(3) In accordance with section 303 of the federal Social Security Act, 42 U.S.C. 503, the commissioner shall provide the opportunity for a fair hearing before an impartial hearing officer on each appeal.

(4) Unless the appeal is withdrawn, a hearing officer, after affording the parties reasonable opportunities for a fair hearing, shall make findings and conclusions and on the basis thereof affirm, modify, or reverse such determination.

(5) If an appeal involves a question as to whether services were performed by the claimant in employment or for an employer, a hearing officer shall give special notice of such issue and of the pendency of the appeal to the employer and to the commissioner, both of whom shall be parties to the proceeding and be afforded a reasonable opportunity to adduce evidence bearing on such question.

(6) The parties shall be promptly notified of a hearing officer's decision and shall be furnished with a copy of the decision and the findings and conclusions in support of the decision.

Subject to appeal proceedings and judicial review as provided in sections 48-634 to 48-644, any determination, redetermination, or decision as to rights to benefits shall be conclusive for all the purposes of such law and shall not be subject to collateral attack by any employer.

48-637 Administrative appeal; decision; effect in subsequent proceeding; certification of question.

The final decisions of a hearing officer and the principles of law declared by him or her in arriving at such decisions, unless expressly or impliedly overruled by a later decision of a hearing officer or by a court of competent jurisdiction, shall be binding upon the commissioner and any adjudicator in subsequent proceedings which involve similar questions of law, except that if in connection with any subsequent proceeding the commissioner or an adjudicator has

serious doubt as to the correctness of any principle so declared, he or she may certify his or her findings of fact in such case together with the question of law involved to a hearing officer who, after giving notice and reasonable opportunity for hearing upon the law to all parties to such proceedings, shall thereupon certify to the commissioner, such adjudicator, and such parties his or her answer to the question submitted. If the question thus certified to a hearing officer arises in connection with a claim for benefits, a hearing officer in his or her discretion may remove to himself or herself the entire proceedings on such claim and, after proceeding in accordance with the requirements of sections 48-634 to 48-643 with respect to proceedings before a hearing officer, shall render his or her decision upon the entire claim.

(2) If the commissioner is not the petitioning party, he or she shall be a party defendant in every appeal. Such appeal shall otherwise be governed by the Administrative Procedure Act.

(3) An appeal may be taken from the decision of the district court to the Court of Appeals in accordance with the Administrative Procedure Act.

(4) No bond shall be required as a condition of initiating a proceeding for judicial review or entering an appeal from the decision of the court upon such review. Costs which would be otherwise taxed to a claimant shall be taxed in such courts to the commissioner regardless of the result of the action unless justice and equity otherwise require. Notwithstanding any general statute to the contrary, no filing fee shall be charged by a hearing officer or by the clerk of any court for any service required by sections 48-634 to 48-638.

The assignment shall be held in abeyance pending the outcome of the hearing. The department shall notify the individual and the commissioner of its decision within fifteen days of the hearing; and

(vi) The collection system shall be in addition to and not in substitution for or derogation of any other available remedy; and

(vii) The Department of Health and Human Services and the commissioner shall adopt and promulgate rules and regulations to carry out subdivision (2)(g) of this section.

(h) For purposes of this subsection, the term child support obligations shall include only obligations which are being enforced pursuant to a plan described in section 454 of the federal Social Security Act which has been approved by the Secretary of Health and Human Services under Part D of Title IV of the federal Social Security Act.

(i) For purposes of this subsection, the term legal process shall mean any writ, order, summons, or other similar process in the nature of garnishment, which:

For purposes of this subdivision, the chief executive officer of the Department of Health and Human Services shall be deemed an authorized official pursuant to order of a court of competent jurisdiction or pursuant to state law; and

(ii) Is directed to, and the purpose of which is to compel, the commissioner to make a payment for unemployment compensation otherwise payable to an

individual in order to satisfy a legal obligation of such individual to provide child support.

(j) Nothing in this subsection shall be construed to authorize withholding from unemployment compensation of any support obligation other than child support obligations.

(3)(a) An individual filing a new claim for unemployment compensation shall, at the time of filing such claim, disclose whether or not he or she owes an uncollected overissuance, as defined in 7 U.S.C. 2022(c)(1) as such section existed on January 1, 2017, of Supplemental Nutrition Assistance Program benefits, if not otherwise known or disclosed to the state Supplemental Nutrition Assistance Program agency. The commissioner shall notify the state Supplemental Nutrition Assistance Program agency enforcing such obligation of any individual disclosing that he or she owes an uncollected overissuance whom the commissioner determines is eligible for unemployment compensation.

(b) The commissioner shall deduct and withhold from any unemployment compensation payable to an individual who owes an uncollected overissuance:

(i) The amount specified by the individual to the commissioner to be deducted and withheld under this subsection;

(d) Any amount deducted and withheld under subdivision (b) of this subsection shall be treated as if it were paid to the individual as unemployment compensation and paid by such individual to the state Supplemental Nutrition Assistance Program agency as repayment of the individual's uncollected overissuance.

(e) For purposes of this subsection, unemployment compensation means any compensation payable under the Employment Security Law, including amounts payable by the commissioner pursuant to an agreement under any federal law providing for compensation, assistance, or allowances with respect to unemployment.

(f) This subsection applies only if arrangements have been made for reimbursement by the state Supplemental Nutrition Assistance Program agency for the administrative costs incurred by the commissioner under this subsection which are attributable to the repayment of uncollected overissuances to the state Supplemental Nutrition Assistance Program agency.

(1) With respect to wages for employment, combined tax shall accrue and become payable by each employer not otherwise entitled to make payments in lieu of contributions for each calendar year in which he or she is subject to the Employment Security Law. Such combined tax shall become due and be paid by each employer to the commissioner for the State Unemployment Insurance Trust Fund and the Unemployment Trust Fund in such manner and at such times as the commissioner may, by rule and regulation, prescribe. Such combined tax shall not be deducted, in whole or in part, from the wages of individuals in such employer's employ.

(2) The commissioner may require any employer whose annual payroll for either of the two preceding calendar years has equaled or exceeded one hundred thousand dollars to file combined tax returns and pay combined taxes owed by an electronic method approved by the commissioner, except when the employer establishes to the satisfaction of the commissioner that filing the combined tax return or payment of the tax by an electronic method would create a hardship for the employer.

(3) In the payment of any combined tax, a fractional part of a cent shall be disregarded unless it amounts to one-half cent or more, in which case it shall be increased to one cent. If the combined tax due for any reporting period is less than five dollars, the employer need not remit the combined tax.

(4) If two or more related corporations or limited liability companies concurrently employ the same individual and compensate such individual through a common paymaster which is one of such corporations or limited liability companies, each such corporation or limited liability company shall be considered to have paid as remuneration to such individual only the amounts actually disbursed by it to such individual and shall not be considered to have paid as remuneration to such individual amounts actually disbursed to such individual by another of such corporations or limited liability companies. An employee of a wholly owned subsidiary shall be considered to be concurrently employed by the parent corporation, company, or other entity and the wholly owned subsidiary whether or not both companies separately provide remuneration.

(5) The professional employer organization shall report and pay combined tax, penalties, and interest owed for wages earned by worksite employees under the client's employer account number using the client's combined tax rate. The client is liable for the payment of unpaid combined tax, penalties, and interest owed for wages paid to worksite employees, and the worksite employees shall be considered employees of the client for purposes of the Employment Security Law.

(6) The Commissioner of Labor may require by rule and regulation that each employer subject to the Employment Security Law shall submit to the commissioner quarterly wage reports on such forms and in such manner as the

commissioner may prescribe. The commissioner may require any employer whose annual payroll for either of the two preceding calendar years has equaled or exceeded one hundred thousand dollars to file wage reports by an electronic method approved by the commissioner, except when the employer establishes to the satisfaction of the commissioner that filing by an electronic method would create a hardship for the employer. The quarterly wage reports shall be used by the commissioner to make monetary determinations of claims for benefits.

48-649.01 State unemployment insurance tax rate.

(1) By December 1 of each calendar year, the commissioner shall determine the state unemployment insurance tax rate for the following year based on information available through the department. The state unemployment insurance tax rate shall be zero percent if:

(a) The average balance in the State Unemployment Insurance Trust Fund at the end of any three months in the preceding calendar year is greater than one percent of state taxable wages for the same preceding year; or

(b) The balance in the State Unemployment Insurance Trust Fund equals or exceeds thirty percent of the average month end balance of the state's account in the Unemployment Trust Fund for the three lowest calendar months in the preceding year.

(2) If the state unemployment insurance tax rate is determined to be zero percent pursuant to subsection (1) of this section, the contribution rate for all employers shall equal one hundred percent of the combined tax rate.

(3) If the state unemployment insurance tax rate is not zero percent as determined in this section, the combined tax rate shall be divided so that not less than eighty percent of the combined tax rate equals the contribution rate and not more than twenty percent of the combined tax rate equals the state unemployment insurance tax rate except for employers who are assigned a combined tax rate of five and four-tenths percent or more. For those employers, the state unemployment insurance tax rate shall equal zero and their combined tax rate shall equal their contribution rate.

48-649.02 Employer's combined tax rate before benefits have been payable.

(1) Until benefits have been payable from and chargeable to an employer's experience account throughout the preceding four calendar quarters and wages for employment have been paid by the employer in each of the two preceding four-calendar-quarter periods, the employer's combined tax rate shall be:

(a) For employers not engaged in the construction industry, the lesser of the value of the state's average combined tax rate as determined pursuant to section 48-649.03 or two and five-tenths percent; and

(b) For employers engaged in the construction industry, the value of the category twenty rate determined pursuant to section 48-649.03.

(2) In no event shall the combined tax rate under subsection (1) of this section be less than one and twenty-five hundredths percent.

(3) For any employer who has not paid wages for employment during each of the two preceding four-calendar-quarter periods ending on September 30, but has paid wages for employment in any two four-calendar-quarter periods, regardless of whether such four-calendar-quarter periods are consecutive, such employer's combined tax rate for the following tax year shall be:

(a) The highest combined tax rate for employers with a positive experience account balance if the employer's experience account balance exhibits a positive balance as of September 30 of the year of rate computation; or

(b) The standard rate if the employer's experience account exhibits a negative balance as of September 30 of the year of rate computation.

48-649.03 Employer's combined tax rate once benefits payable from experience account; experience factor.

(1) Once benefits have been payable from and chargeable to an employer's experience account throughout the preceding four calendar quarters and wages for employment have been paid by the employer in each of the two preceding four-calendar-quarter periods, the employer's combined tax rate shall be calculated according to this section. The combined tax rate shall be based upon the employer's experience rating record and determined from the employer's reserve ratio.

(2) The employer's reserve ratio is the percent obtained by dividing (a) the amount by which the employer's contributions credited from the time the employer first or most recently became an employer, whichever date is later, and up to and including September 30 of the year the rate computation is made, plus any part of the employer's contributions due for that year paid on or before October 31 of such year, exceed the employer's benefits charged during the same period, by (b) the employer's average annual taxable payroll for the sixteen-consecutive-calendar-quarter period ending September 30 of the year in which the rate computation is made. For an employer with less than sixteen consecutive calendar quarters of contribution experience, the employer's average taxable payroll shall be determined based upon the four-calendar-quarter periods for which contributions were payable.

(3) Each eligible experience rated employer shall be assigned to one of twenty rate categories with a corresponding experience factor as follows:

Category	Experience Factor
1	0.00
2	0.25
3	0.40
4	0.45
5	0.50
6	0.60
7	0.65
8	0.70
9	0.80

11	0.95
12	1.00
13	1.05
14	1.10
15	1.20
16	1.35
17	1.55
18	1.80
19	2.15
20	2.60

Eligible experience rated employers shall be assigned to rate categories from highest to lowest according to their experience reserve ratio, with category one assigned to accounts with the highest reserve ratios and category twenty assigned to accounts with the lowest reserve ratios. Each category shall be limited to no more than five percent of the state’s total taxable payroll, except that:

(a) Any employer with a portion of its taxable wages falling into two consecutive categories shall be assigned to the lower category;

(b) No employer with a reserve ratio calculated to five decimal places equal to the similarly calculated reserve ratio of another employer shall be assigned to a higher rate than the employer to which it has the equal reserve ratio; and

(c) No employer with a positive experience account balance shall be assigned to category twenty.

(4) The state’s reserve ratio shall be calculated annually by dividing the amount available to pay benefits in the Unemployment Trust Fund and the State Unemployment Insurance Trust Fund as of September 30, plus any amount of combined tax owed by employers eligible for and electing annual payment status for the four most recent quarters ending on September 30 in accordance with rules and regulations adopted by the commissioner, by the state’s total wages from the four calendar quarters ending on September 30. For purposes of this section, total wages means all remuneration paid by an employer in employment. The state’s reserve ratio shall be applied to the table in this subsection to determine the yield factor for the upcoming rate year.

State’s Reserve Ratio	Yield Factor
1.45 percent and above	= 0.70
1.30 percent up to but not including 1.45	= 0.75
1.15 percent up to but not including 1.30	= 0.80
1.00 percent up to but not including 1.15	= 0.90
0.85 percent up to but not including 1.00	= 1.00
0.70 percent up to but not including 0.85	= 1.10
0.60 percent up to but not including 0.70	= 1.20
0.50 percent up to but not including 0.60	= 1.25
0.45 percent up to but not including 0.50	= 1.30
0.40 percent up to but not including 0.45	= 1.35
0.35 percent up to but not including 0.40	= 1.40
0.30 percent up to but not including 0.35	= 1.45
Below 0.30 percent	= 1.50

The commissioner may adjust the yield factor determined pursuant to the preceding table to a lower scheduled yield factor if the state’s reserve ratio is

1.00 percent or greater. Once the yield factor for the upcoming rate year has been determined, it is multiplied by the amount of unemployment benefits paid from combined tax during the four calendar quarters ending September 30 of the preceding year. The resulting figure is the planned yield for the rate year. The planned yield is divided by the total taxable wages for the four calendar quarters ending September 30 of the previous year and carried to four decimal places to create the average combined tax rate for the rate year.

(5) The average combined tax rate is assigned to rate category twelve as established in subsection (3) of this section. Rates for each of the remaining nineteen categories are determined by multiplying the average combined tax rate by the experience factor associated with each category and carried to four decimal places. Employers who are delinquent in filing their combined tax reports as of October 31 of any year shall be assigned to category twenty for the following calendar year unless the delinquency is corrected prior to December 31 of the year of rate calculation.

(6) In addition to required contributions, an employer may make voluntary contributions to the fund to be credited to his or her account. Voluntary contributions by employers may be made up to the amount necessary to qualify for one rate category reduction. Voluntary contributions received after January 10 shall not be used in rate calculations for the same calendar year.

(7) As used in sections 48-648 to 48-654, the term payroll means the total amount of wages during a calendar year, except as otherwise provided in section 48-654, by which the combined tax was measured.

48-649.04 State or political subdivision; combined tax; election to make payments in lieu of contributions.

(1) The state or any of its political subdivisions and any instrumentality of one or more of the foregoing or any other governmental entity for which services in employment as provided in subdivision (4)(a) of section 48-604 are performed shall be required to pay combined tax on wages paid for services rendered in its or their employment on the same basis as any other employer who is liable for the payment of combined tax under the Employment Security Law, unless the state or any political subdivision thereof and any instrumentality of one or more of the foregoing or any other governmental entity for which such services are performed files with the commissioner its written election not later than thirty days after such employer becomes subject to this section to become liable to make payments in lieu of contributions in an amount equal to the full amount of regular benefits plus the full amount of extended benefits paid during each calendar quarter that is attributable to service in employment of such electing employer.

(2) Eligible employers electing to make payments in lieu of contributions shall not be liable for combined tax payments.

(3) The commissioner, after the end of each calendar quarter, shall notify any such employer that has elected to make payments in lieu of contributions of the amount of benefits for which it is liable to pay pursuant to its election that have been paid that are attributable to service in its employment and the employer so notified shall reimburse the fund within thirty days after receipt of such notice.

(4) Any employer which makes an election in accordance with this section to become liable for payments in lieu of contributions shall continue to be liable for payments in lieu of contributions for all benefits paid based upon wages paid for service in employment of such employer while such election is effective. Any such election shall continue until such employer files with the commissioner, not later than December 1 of any calendar year, a written notice terminating its election as of December 31 of that year. Upon termination of the election, such employer shall again be liable for the payment of contributions and for the reimbursement of such benefits as may be paid based upon wages paid for services in employment of such employer while such election was effective.

(5) The commissioner may require any employer subject to this section whose annual payroll for either of the two preceding calendar years has equaled or exceeded one hundred thousand dollars to pay the amount owed pursuant to this section by an electronic method approved by the commissioner, except when the employer establishes to the satisfaction of the commissioner that payment by an electronic method would create a hardship for the employer.

48-650 Combined tax rate; determination of employment; notice; review; redetermination; proceedings; appeal.

The commissioner shall determine the rate of combined tax applicable to each employer pursuant to sections 48-649 to 48-649.04 and may determine, at any time during the year, whether services performed by an individual were employment or for an employer. Any such determination shall become conclusive and binding upon the employer unless, within thirty days after the prompt mailing of notice thereof to his or her last-known address or in the absence of mailing within thirty days after the delivery of such notice, the employer files an appeal with the department in accordance with rules and regulations adopted and promulgated by the commissioner. No employer shall have standing, in any proceeding involving his or her combined tax rate or combined tax liability, to contest the chargeability to his or her account of any benefits paid in accordance with a determination, redetermination, or decision pursuant to sections 48-629 to 48-644 except upon the ground that the services on the basis of which such benefits were found to be chargeable did not constitute services performed in employment for him or her and only in the event that he or she was not a party to such determination, redetermination, or decision or to any other proceedings under the Employment Security Law in which the character of such services was determined. A full and complete record shall be kept of all proceedings in connection with such hearing. All testimony at any such hearing shall be recorded but need not be transcribed unless there is a further appeal. The employer shall be promptly notified of a hearing officer's decision which shall become final unless the employer or the commissioner appeals within thirty days after the date of service of the decision of the hearing officer. The appeal shall otherwise be governed by the Administrative Procedure Act.

48-651 Employer's account; benefit payments; notice; effect.

(1) The commissioner may provide for the following by rule and regulation:

- (a) Periodic notification to employers of benefits paid and chargeable to their accounts or of the status of such accounts; and
- (b) Notification to all base period employers of any individual of the establishment of such individual's benefit year.

Such redeterminations, made after notice and opportunity for hearing, and the commissioner's findings of fact in connection therewith may be introduced in any subsequent administrative or judicial proceedings involving the determination of the combined tax rate of any employer for any calendar year.

48-652 Employer's experience account; reimbursement account; combined tax; liability; termination; reinstatement.

(1)(a) A separate experience account shall be established for each employer who is liable for payment of combined tax. Whenever and wherever in the Employment Security Law the terms reserve account or experience account are used, unless the context clearly indicates otherwise, such terms shall be deemed interchangeable and synonymous and reference to either of such accounts shall refer to and also include the other.

(b) A separate reimbursement account shall be established for each employer who is liable for payments in lieu of contributions. All benefits paid with respect to service in employment for such employer shall be charged to his or her reimbursement account, and such employer shall be billed for and shall be liable for the payment of the amount charged when billed by the commissioner. Payments in lieu of contributions received by the commissioner on behalf of each such employer shall be credited to such employer's reimbursement account, and two or more employers who are liable for payments in lieu of contributions may jointly apply to the commissioner for establishment of a group account for the purpose of sharing the cost of benefits paid that are attributable to service in the employ of such employers. The commissioner shall adopt and promulgate such rules and regulations as he or she deems necessary with respect to applications for establishment, maintenance, and termination of group accounts authorized by this subdivision.

(2) All contributions paid by an employer shall be credited to the experience account of such employer. State unemployment insurance tax payments shall not be credited to the experience account of each employer. Partial payments of combined tax shall be credited so that at least eighty percent of the combined tax payment excluding interest and penalty is credited first to contributions due. Contributions with respect to prior years which are received on or before January 31 of any year shall be considered as having been paid at the beginning of the calendar year. All voluntary contributions which are received on or before January 10 of any year shall be considered as having been paid at the beginning of the calendar year.

(3)(a) Each experience account shall be charged only for benefits based upon wages paid by such employer. No benefits shall be charged to the experience account of any employer if:

(i) Such benefits were paid on the basis of a period of employment from which the claimant (A) left work voluntarily without good cause, (B) left work voluntarily due to a nonwork-connected illness or injury, (C) left work voluntarily with good cause to escape abuse as defined in section 42-903 between household members as provided in subdivision (1) of section 48-628.13, (D) left work from which he or she was discharged for misconduct connected with his or her work, (E) left work voluntarily and is entitled to unemployment benefits without disqualification in accordance with subdivision (3), (5), or (11) of section 48-628.13, or (F) was involuntarily separated from employment and such benefits were paid pursuant to section 48-628.17; and

(ii) The employer has filed timely notice of the facts on which such exemption is claimed in accordance with rules and regulations adopted and promulgated by the commissioner.

(b) No benefits shall be charged to the experience account of any employer if such benefits were paid during a week when the individual was participating in training approved under section 236(a)(1) of the federal Trade Act of 1974, 19 U.S.C. 2296(a)(1).

(c) Each reimbursement account shall be charged only for benefits paid that were based upon wages paid by such employer in the base period that were wages for insured work solely by reason of section 48-627.01.

(d) Benefits paid to an eligible individual shall be charged against the account of his or her most recent employers within his or her base period against whose accounts the maximum charges hereunder have not previously been made in the inverse chronological order in which the employment of such individual occurred. The maximum amount so charged against the account of any employer, other than an employer for which services in employment as provided in subdivision (4)(a) of section 48-604 are performed, shall not exceed the total benefit amount to which such individual was entitled as set out in section 48-626 with respect to base period wages of such individual paid by such employer plus one-half the amount of extended benefits paid to such eligible individual with respect to base period wages of such individual paid by such employer. The commissioner shall adopt and promulgate rules and regulations determining the manner in which benefits shall be charged against the account of several employers for whom an individual performed employment during the same quarter or during the same base period.

(4)(a) An employer's experience account shall be terminated one calendar year after such employer has ceased to be subject to the Employment Security

Law, except that if the commissioner finds that an employer's business is closed solely because one or more of the owners, officers, partners, or limited liability company members or the majority stockholder entered the armed forces of the United States, or of any of its allies, such employer's account shall not be terminated and, if the business is resumed within two years after the discharge or release from active duty in the armed forces of such person or persons, the employer's experience account shall be deemed to have been continuous throughout such period.

(b) An experience account terminated pursuant to this subsection shall be reinstated if:

(i) The employer becomes subject again to the Employment Security Law within one calendar year after termination of such experience account;

(ii) The employer makes a written application for reinstatement of such experience account to the commissioner within two calendar years after termination of such experience account; and

(iii) The commissioner finds that the employer is operating substantially the same business as prior to the termination of such experience account.

(5) All money in the Unemployment Compensation Fund shall be kept mingled and undivided. In no case shall the payment of benefits to an individual be denied or withheld because the experience account of any employer does not have a total of contributions paid in excess of benefits charged to such experience account.

(6)(a) For benefit years beginning before September 3, 2017, if an individual's base period wage credits represent part-time employment for a contributory employer and the contributory employer continues to employ the individual to the same extent as during the base period, then the contributory employer's experience account shall not be charged if the contributory employer has filed timely notice of the facts on which such exemption is claimed in accordance with rules and regulations adopted and promulgated by the commissioner.

(b) For benefit years beginning on or after September 3, 2017, if an individual's base period wage credits represent part-time employment for an employer and the employer continues to employ the individual to the same extent as during the base period, then the employer's experience account, in the case of a contributory employer, or the employer's reimbursement account, in the case of a reimbursable employer, shall not be charged if the employer has filed timely notice of the facts on which such exemption is claimed in accordance with rules and regulations prescribed by the commissioner.

(7) If a contributory employer responds to the department's request for information within the time period set forth in subsection (1) of section 48-632 and provides accurate information as known to the employer at the time of the response, the employer's experience account shall not be charged if the individual's separation from employment is voluntary and without good cause as determined under section 48-628.12.

48-653 Repealed. Laws 1949, c. 163, § 19.

48-654 Employer's experience account; acquisition by transferee-employer; transfer; contribution rate.

(1) Subject to section 48-654.01, any employer that acquires the organization, trade, or business, or substantially all the assets of another employer shall immediately notify the commissioner of the acquisition and may, pursuant to rules and regulations adopted and promulgated by the commissioner, assume the position of such acquired employer with respect to the resources and liabilities of such acquired employer's experience account as if no change with respect to such acquired employer's experience account has occurred.

(2) The commissioner may provide by rule and regulation for partial transfers of experience accounts, except that such partial transfers of accounts shall be construed to allow computation and fixing of contribution rates only where an employer has transferred at any time a definable and segregable portion of his or her payroll and business to a transferee-employer.

(3) For an acquisition which occurs during either of the first two calendar quarters of a calendar year or during the fourth quarter of the preceding calendar year, a new rate of contributions, payable by the transferee-employer with respect to wages paid by him or her after midnight of the last day of the calendar quarter in which such acquisition occurs and prior to midnight of the following September 30, shall be computed in accordance with this section. For the purpose of computing such new rate of contributions, the computation date with respect to any such acquisition shall be September 30 of the preceding calendar year and the term payroll shall mean the total amount of wages by which contributions to the transferee's account and to the transferor's account were measured for four calendar quarters ending September 30 preceding the computation date.

This section, which allows an acquiring organization to assume the position of its predecessor with respect to the latter's experience account, is referring to the contribution rate of that employer. The experience account balance is used to determine the rate at which the employer must contribute, and it is not a cash account which may be treated as a liquid asset. *West Nebraska General Hospital v. Hanlon*, 208 Neb. 173, 302 N.W.2d 694 (1981).

48-654.01 Employer's experience account; transferable; when; violation; penalty.

(1) For purposes of this section:

(a) Knowingly means having actual knowledge of or acting with deliberate ignorance or reckless disregard of the prohibition involved;

(b) Person means an individual, a partnership, a limited liability company, a corporation, or any other legally recognized entity;

(c) Trade or business includes the employer's workforce; and

(d) Violates or attempts to violate includes intent to evade, misrepresentation, or willful nondisclosure.

(2) Notwithstanding any other provision of law, the following shall apply regarding assignment of combined tax rates and transfer of an employer's experience account:

(a) If an employer transfers its trade or business, or a portion thereof, to another employer and, at the time of the transfer, there is substantially common ownership, management, or control of the two employers, then the employer's experience account attributable to the transferred trade or business shall be transferred to the employer to whom such business is transferred. The rates of both employers shall be recalculated in accordance with section 48-654. The transfer of some or all of an employer's workforce to another employer shall be considered a transfer of trade or business when, as the result of such transfer, the transferring employer no longer performs trade or business with respect to the transferred workforce and such trade or business is performed by the employer to whom the workforce is transferred. If, following a transfer of experience under this subdivision, the commissioner determines that a substantial purpose of the transfer of trade or business was to obtain a lower combined tax rate, then the experience rating accounts of the employers involved shall be combined into a single account and a single rate assigned to such account; or

(b) Whenever a person is not an employer at the time it acquires the trade or business of an employer, the employer's experience account of the acquired business shall not be transferred to such person if the commissioner finds that the business was acquired solely or primarily for the purpose of obtaining a lower combined tax rate. Instead, such person shall be assigned the new employer combined tax rate under sections 48-649 and 48-649.02. In determining whether the business was acquired solely or primarily for the purpose of obtaining a lower combined tax rate, the commissioner shall use objective factors which may include:

(i) The cost of acquiring the business;

(ii) Whether the person continued the business enterprise of the acquired business;

(iii) How long such business enterprise was continued; or

(iv) Whether a substantial number of new employees were hired for performance of duties unrelated to the business activity conducted prior to the acquisition.

(3)(a) If a person knowingly violates or attempts to violate this section, or if a person knowingly advises another person in a way that results in a violation of this section and:

(i) The person is an employer, such employer shall be assigned the highest combined tax rate assignable under sections 48-649 to 48-649.04 for the rate year during which the violation or attempted violation occurred and for the three rate years immediately following such rate year. However, if the person's business is already at the highest combined tax rate or if the amount of increase in the combined tax rate would be less than two percent, then a penalty combined tax rate of two percent of taxable wages shall be imposed for the rate year during which the violation or attempted violation occurred and for the three rate years immediately following such year; or

(ii) The person is not an employer, such person shall be subject to a civil penalty of not more than five thousand dollars.

(b) In addition to any civil penalties that may apply under this subsection, such person shall be guilty of a Class IV felony.

(4) The commissioner shall establish procedures to identify the transfer or acquisition of a business for purposes of evading combined tax liability.

48-655 Combined taxes; payments in lieu of contributions; collections; set-offs; interest; actions; setoff against federal income tax refund; procedure.

(1) Combined taxes or payments in lieu of contributions unpaid on the date on which they are due and payable, as prescribed by the commissioner, shall bear interest at the rate of one and one-half percent per month from such date until payment, plus accrued interest, is received by the commissioner, except that no interest shall be charged subsequent to the date of the erroneous payment of an amount equal to the amount of the delayed payment into the unemployment trust fund of another state or to the federal government. Interest collected pursuant to this section shall be paid in accordance with subdivision (1)(b) of section 48-621. If, after due notice, any employer defaults in any payment of combined taxes or payments in lieu of contributions or interest thereon, the amount due may be collected (a) by civil action in the name of the commissioner and the employer adjudged in default shall pay the costs of such action, (b) by setoff against any state income tax refund due the employer pursuant to sections 77-27,197 to 77-27,209, or (c) as provided in subsection (2) of this section. Civil actions brought under this section to collect combined taxes or interest thereon or payments in lieu of contributions or interest thereon from an employer shall be heard by the court at the earliest possible date and shall be entitled to preference upon the calendar of the court over all other civil actions except petitions for judicial review under section 48-638.

(2) The commissioner may recover a covered unemployment compensation debt, as defined in 26 U.S.C. 6402, by setoff against a liable party's federal income tax refund. Such setoff shall be made in accordance with such section and United States Treasury regulations and guidelines adopted pursuant thereto. The commissioner shall notify the debtor that the commissioner plans to recover the debt through setoff against any federal income tax refund, and the debtor shall be given sixty days to present evidence that all or part of the liability is either not legally enforceable or is not a covered unemployment compensation debt. The commissioner shall review any evidence presented and determine that the debt is legally enforceable and is a covered unemployment compensation debt before proceeding further with the offset. The amount recovered, less any administrative fees charged by the United States Treasury,

shall be credited to the debt owed. Any determination rendered under this subsection that the liable party's federal income tax refund is not subject to setoff does not require the commissioner to amend the commissioner's initial determination that formed the basis for the proposed setoff.

48-656 Combined taxes; report or return; requirements; assessment; notice; protest; penalty.

(1) If any employer fails to file a report or return required by the commissioner for the determination of combined taxes, the commissioner may make such reports or returns or cause them to be made and determine the combined taxes payable, on the basis of such information as he or she may be able to obtain, and shall collect the combined taxes as determined together with any interest thereon due under section 48-655. The commissioner shall immediately notify the employer of the assessment, in writing, by registered or certified mail, in the usual course, and such assessment shall be final unless the employer protests such assessment within fifteen days after the mailing of the notice. If the employer protests such assessment, the employer shall have an opportunity to be heard by a hearing officer upon written request therefor. After the hearing, the hearing officer shall immediately notify the employer in writing of his or her decision, and the assessment, if any, shall be final upon issuance of such notice.

(2) If any employer files a report or return required by the commissioner for the determination of combined taxes but fails to pay all or some part of the combined taxes actually due for the reported period, the commissioner may determine the combined taxes actually payable on the basis of such information as he or she may be able to obtain and shall collect the combined taxes as determined together with any interest due under section 48-655. The commissioner shall immediately notify the employer of the assessment, in writing by registered or certified mail in the usual course, and such assessment shall be

final unless the employer protests such assessment within fifteen days after the mailing of the notice. If the employer protests such assessment, the employer shall have an opportunity to be heard by a hearing officer upon a written request therefor. After the hearing, the hearing officer shall immediately notify the employer in writing of his or her decision and the assessment, if any, shall be final upon issuance of such notice.

(3) Any employer or any officer or agent of an employer who fails to file a required quarterly combined tax report and wage schedule by the tenth day of the second month following the end of the calendar quarter shall pay a penalty to the commissioner of one-tenth of one percent of the total wages paid during the quarter, except that the penalty shall not be less than twenty-five nor more than two hundred dollars. For good cause shown, the commissioner may waive the penalty in accordance with rules and regulations adopted and promulgated by the commissioner. The commissioner shall remit any penalty collected to the State Treasurer who shall credit it to the pool account of the Employment Security Special Contingent Fund.

48-657 Combined tax or interest; default; lien; contracts for public works; requirements.

(1)(a) If any employer defaults in any payment of combined tax or interest, the commissioner may make in any manner feasible and cause to be filed as a secured transaction as provided in article 9, Uniform Commercial Code, and in the real estate mortgage records of any county in which such employer is engaged in business or owns real or personal property, a statement, under oath, showing the amount of combined tax and interest in default, which statement, when filed for record, shall operate as a lien and mortgage on all of the real and personal property of the employer, subject only to the liens of prior record, and the property of such employer shall be subject to seizure and sale for the payment of such combined taxes and interest. Such lien on personal property may be enforced or dissolved in the manner provided by article 9, Uniform Commercial Code, and such liens on real estate may be enforced or dissolved in the manner provided by Chapter 25, article 21, in the enforcing and dissolving of real estate mortgages. This subdivision shall only apply to liens filed prior to May 1, 1999.

(b) A lien for unpaid combined taxes filed or recorded pursuant to subdivision (a) of this subsection shall lapse at the earlier of its expiration date or the fifth anniversary of the filing or recording date, unless the commissioner files a notice of continuation in the place of the original filing or recording and with the appropriate filing officer in the manner provided for in the Uniform State Tax Lien Registration and Enforcement Act before such lien lapses. A notice of continuation shall include all of the information required by the act, the date of the filing or recording of the original lien, and a statement that the original lien is to be continued for ten years. Thereafter, such lien shall be enforced and notices of continuation filed in accordance with the act.

(c) On and after May 1, 1999, if any employer defaults in any payment of combined tax or interest, the commissioner may file a lien against such

(3) No contract referred to in subsection (2) of this section shall be entered into by the State of Nebraska, a department or agency thereof, an officer or officers, or a board referred to in such subsection unless the contract contains the proviso mentioned in such subsection.

(4) Before final payment may be made on the final three percent of any such contract awarded on or after June 1, 1957, the State of Nebraska, department or agency thereof, officer or officers, or board awarding the contract must have received from the contractor a written clearance from the commissioner certifying that all payments then due of combined tax or interest which may have arisen under such contract have been made by the contractor or his or her subcontractor to the Unemployment Compensation Fund.

(5) The final three percent of any such contract referred to in subsection (4) of this section may be paid if the contractor has supplied a bond with a satisfactory surety company guaranteeing full payment to the Unemployment Compensation Fund and the State Unemployment Insurance Trust Fund of all combined tax and interest due under the Employment Security Law.

48-660.01 Benefits; nonprofit organizations; combined tax; payments in lieu of contributions; election; notice; appeal; lien; liability.

(1) Benefits paid to employees of nonprofit organizations shall be financed in accordance with this section. For the purpose of this section, a nonprofit organization is an organization, or group of organizations, described in subdivision (9) of section 48-603.

(2)(a) Any nonprofit organization which is, or becomes, subject to the Employment Security Law shall pay combined tax under sections 48-648 to 48-661 unless it elects, in accordance with this subsection, to pay to the commissioner for the unemployment fund an amount, equal to the amount of regular benefits and of one-half of the extended benefits paid, that is attributable to service in the employ of such nonprofit organization, to individuals for weeks of unemployment which begin during the effective period of such election.

(b) Any nonprofit organization which is, or becomes, subject to the Employment Security Law may elect to become liable for payments in lieu of contributions for a period of not less than twelve months beginning with the date on which such subjectivity begins by filing a written notice of its election with the commissioner not later than thirty days immediately following the date of the determination of such subjectivity.

(c) Any nonprofit organization which makes an election in accordance with subdivision (b) of this subsection shall continue to be liable for payments in lieu of contributions until it files with the commissioner a written notice terminating its election not later than thirty days prior to the beginning of the taxable year for which such termination shall first be effective.

(d) Any nonprofit organization which has been paying combined tax under the Employment Security Law may change to a reimbursable basis by filing with the commissioner not later than thirty days prior to the beginning of any taxable year a written notice of election to become liable for payments in lieu of contributions. Such election shall not be terminable by the organization for that and the next year.

(e) The commissioner may for good cause extend the period within which a notice of election, or a notice of termination, must be filed and may permit an election to be retroactive but not any earlier than with respect to benefits paid after December 31, 1969.

(f) The commissioner, in accordance with such rules and regulations as he or she may adopt and promulgate, shall notify each nonprofit organization of any determination which he or she may make of its status as an employer and of the effective date of any election which it makes and of any termination of such election. Such determinations shall be subject to redetermination and appeal, and the appeal shall be in accordance with the Administrative Procedure Act.

(3) Payments in lieu of contributions shall be made in accordance with this subsection as follows:

(a) At the end of each calendar quarter, or at the end of any other period as determined by the commissioner, the commissioner shall bill each nonprofit organization, or group of such organizations, which has elected to make payment in lieu of contributions for an amount equal to the full amount of regular benefits plus one-half of the amount of extended benefits paid during such quarter or other prescribed period that is attributable to service in the employ of such organization;

(b) Payment of any bill rendered under subdivision (a) of this subsection shall be made not later than thirty days after such bill was mailed to the last-known address of the nonprofit organization or was otherwise delivered to it unless there has been an application for review and redetermination in accordance with subdivision (d) of this subsection;

(c) Payments made by any nonprofit organization under this subsection shall not be deducted or deductible, in whole or in part, from the remuneration of individuals in the employ of the organization;

(d) The amount due specified in any bill from the commissioner shall be conclusive on the organization unless, not later than thirty days after the bill was mailed to its last-known address or otherwise delivered to it, the organization files an application for redetermination by the commissioner setting forth the grounds for such application. The commissioner shall promptly review and

reconsider the amount due specified in the bill and shall thereafter issue a redetermination in any case in which such application for redetermination has been filed. Any such redetermination shall be conclusive on the organization unless the organization appeals the redetermination, and the appeal shall be in accordance with the Administrative Procedure Act; and

(e) Past-due payments of amounts in lieu of contributions shall be subject to the same interest that, pursuant to section 48-655, applies to past-due contributions, and the commissioner may file a lien against such nonprofit organization in accordance with the Uniform State Tax Lien Registration and Enforcement Act. Such liens shall set forth the amount of payments in lieu of contributions and interest in default and shall be enforced as provided in the Uniform State Tax Lien Registration and Enforcement Act.

(4) If any nonprofit organization is delinquent in making payments in lieu of contributions as required under subsection (3) of this section, the commissioner may terminate such organization's election to make payments in lieu of contributions as of the beginning of the next taxable year, and such termination shall be effective for that and the next taxable year.

(5) Each employer that is liable for payments in lieu of contributions shall pay to the commissioner for the fund the amount of regular benefits plus the amount of one-half of extended benefits paid that are attributable to service in the employ of such employer. If benefits paid to an individual are based on wages paid by more than one employer and one or more of such employers are liable for payments in lieu of contributions, the amount payable to the fund by each employer that is liable for such payments shall be determined in accordance with section 48-652.

48-663.01 Benefits; false statements by employee; forfeit; appeal; failure to repay overpayment of benefits; penalty; levy authorized; procedure; failure or refusal to honor levy; liability.

(1)(a) Notwithstanding any other provision of this section, or of section 48-627 or 48-663, an individual who willfully fails to disclose amounts earned during any week with respect to which benefits are claimed by him or her or who willfully fails to disclose or has falsified as to any fact which would have disqualified him or her or rendered him or her ineligible for benefits during such week, shall forfeit all or part of his or her benefit rights, as determined by an adjudicator, with respect to uncharged wage credits accrued prior to the date of such failure or to the date of such falsifications.

(b) In addition to any benefits which he or she may be required to repay pursuant to subdivision (1)(a) of this section, if an overpayment is established pursuant to this section, an individual shall be required to pay to the department a penalty equal to fifteen percent of the amount of benefits received as a result of such willful failure to disclose or falsification. All amounts collected pursuant to this subdivision shall be remitted for credit to the Unemployment Compensation Fund.

(c) An appeal may be taken from any determination made pursuant to subdivision (1)(a) of this section in the manner provided in section 48-634.

48-665 Benefits; erroneous payments; recovery; setoff against federal income tax refund; procedure.

(1) Any person who has received any sum as benefits under the Employment Security Law to which he or she was not entitled shall be liable to repay such sum to the commissioner for the fund. Any such erroneous benefit payments shall be collectible (a) without interest by civil action in the name of the commissioner, (b) by offset against any future benefits payable to the claimant with respect to the benefit year current at the time of such receipt or any benefit year which may commence within three years after the end of such current benefit year, except that no such recoupment by the withholding of future benefits shall be had if such sum was received by such person without fault on his or her part and such recoupment would defeat the purpose of the Employment Security Law or would be against equity and good conscience, (c) by setoff against any state income tax refund due the claimant pursuant to sections 77-27,197 to 77-27,209, or (d) as provided in subsection (2) of this section.

(2) The commissioner may recover a covered unemployment compensation debt, as defined in 26 U.S.C. 6402, by setoff against a liable party's federal income tax refund. Such setoff shall be made in accordance with such section and United States Treasury regulations and guidelines adopted pursuant thereto. The commissioner shall notify the debtor that the commissioner plans to recover the debt through setoff against any federal income tax refund, and the

debtor shall be given sixty days to present evidence that all or part of the liability is either not legally enforceable or is not a covered unemployment compensation debt. The commissioner shall review any evidence presented and determine that the debt is legally enforceable and is a covered unemployment compensation debt before proceeding further with the offset. The amount recovered, less any administrative fees charged by the United States Treasury, shall be credited to the debt owed. Any determination rendered under this subsection that the liable party's federal income tax refund is not subject to setoff does not require the commissioner to amend the commissioner's initial determination that formed the basis for the proposed setoff.

Such amount, without interest, may be collected (1) by civil action in the name of the commissioner acting as agent for such agency, (2) by offset against any future benefits payable to the claimant under the Employment Security Law for any benefit year which may commence within three years after the claimant was notified such amount was due, except that no such recoupment by the withholding of future benefits shall be had if such sum was received by such person without fault on his or her part and such recoupment would defeat the purpose of the Employment Security Law or would be against equity and good conscience, (3) by setoff against any state income tax refund due the claimant pursuant to sections 77-27,197 to 77-27,209, or (4) as provided in subsection (2) of section 48-665.

48-668 Unemployment compensation; services performed in another state; arrangements with other states.

(1) The commissioner is hereby authorized to enter into arrangements with the appropriate and duly authorized agencies of other states or the federal government, or both, whereby:

(a) Services performed by an individual for a single employer for which services are customarily performed by such individual in more than one state shall be deemed to be services performed entirely within any one of the states in which (i) any part of such individual's service is performed, (ii) such individual has his or her residence, or (iii) the employer maintains a place of business, if there is in effect, as to such services, an election by an employer with the acquiescence of such individual, approved by the agency charged with the administration of such state's unemployment compensation law, pursuant to which services performed by such individual for such employer are deemed to be performed entirely within such state;

(b) Service performed by not more than three individuals, on any portion of a day but not necessarily simultaneously, for a single employer which customarily operates in more than one state shall be deemed to be service performed entirely within the state in which such employer maintains the headquarters of his or her business if there is in effect, as to such service, an approved election by an employer with the affirmative consent of each such individual, pursuant to which service performed by such individual for such employer is deemed to be performed entirely within such state;

(c) Potential rights to benefits under the Employment Security Law may constitute the basis for payment of benefits by another state or the federal government and potential rights to benefits accumulated under the law of another state or the federal government may constitute the basis for the payment of benefits by this state. Such benefits shall be paid under the Employment Security Law or under the law of such state or the federal government or under such combination of the provisions of both laws, as may be agreed upon as being fair and reasonable to all affected interests. No such arrangement shall be entered into unless it contains provisions for reimbursement to the fund for such benefits as are paid on the basis of wages and service subject to the law of another state or the federal government, and provision for reimbursement from the fund for such benefits as are paid by another state or the federal government on the basis of wages and service subject to the Employment Security Law. Reimbursements paid from the fund pursuant to

this section shall be deemed to be benefits for the purposes of the Employment Security Law; and

(d) Wages, upon the basis of which an individual may become entitled to benefits under an employment security law of another state or of the federal government, shall be deemed to be wages for insured work for the purpose of determining his or her benefits under the Employment Security Law; and wages for insured work, on the basis of which an individual may become entitled to benefits under the Employment Security Law, shall be deemed to be wages on the basis of which unemployment insurance is payable under such law of another state or of the federal government. No such arrangement shall be entered into unless it contains provisions for reimbursement to the fund for such of the benefits paid under the Employment Security Law upon the basis of such wages and provision for reimbursement from the fund for such benefits paid under such other law upon the basis of wages for insured work, as the commissioner finds will be fair and reasonable to all affected interests. Reimbursement paid from the fund pursuant to this section shall be deemed to be benefits for the purposes of the Employment Security Law.

(2) Notwithstanding any other provisions of this section, the commissioner shall participate in any arrangements for the payment of benefits on the basis of combining an individual's wages and employment covered under the Employment Security Law with his or her wages and employment covered under the unemployment compensation laws of other states which are approved by the United States Secretary of Labor in consultation with the state unemployment compensation agencies as reasonably calculated to assure the prompt and full payment of benefits in such situations and which include provisions for (a) applying the base period of a single state law to a claim involving the combining of an individual's wages and employment covered under two or more state unemployment compensation laws and (b) avoiding the duplicate use of wages and employment by reason of such combining. However, no benefits paid pursuant to an agreement to combine wages entered into under this subsection shall be charged against any employer's experience account if the employer's experience account, under the same or similar circumstances, would not be charged under the Employment Security Law. Benefits received by a claimant pursuant to an agreement entered into under this subsection to which he or she is not entitled shall be credited to an employer's experience account or reimbursement account in the same manner as claims paid based solely upon the laws of this state.

If after entering into an arrangement provided by sections 48-668 to 48-668.03 the commissioner finds that the employment security law of any state or of the federal government participating in such arrangement has been changed in a material respect, the commissioner shall make a new finding as to

whether such arrangement shall be continued with such state or with the federal government.

48-673 Short-time compensation program; terms, defined.

For purposes of sections 48-672 to 48-683:

(1) Affected unit means a specified plant, department, shift, or other definable unit which includes three or more employees to which an approved short-time compensation plan applies;

(2) Commissioner means the Commissioner of Labor or any delegate or subordinate responsible for approving applications for participation in a short-time compensation plan;

(3) Health and retirement benefits means employer-provided health benefits and retirement benefits under a defined benefit plan, as defined in section 414(j) of the Internal Revenue Code, or contributions under a defined contribution plan, as defined in section 414(i) of the Internal Revenue Code, which are incidents of employment in addition to the cash remuneration earned;

(4) Short-time compensation means the unemployment benefits payable to employees in an affected unit under an approved short-time compensation plan, as distinguished from the unemployment benefits otherwise payable under the Employment Security Law;

(5) Short-time compensation plan means a plan submitted by an employer, for written approval by the commissioner, under which the employer requests the payment of short-time compensation to workers in an affected unit of the employer to avert layoffs;

(6) Unemployment compensation means the unemployment benefits payable under the Employment Security Law other than short-time compensation and includes any amounts payable pursuant to an agreement under any federal law providing for compensation, assistance, or allowances with respect to unemployment; and

(7) Usual weekly hours of work means the usual hours of work for full-time or part-time employees in the affected unit when that unit is operating on its regular basis, not to exceed forty hours and not including hours of overtime work.

Source: Laws 2014, LB961, § 14.

48-674 Short-time compensation program; participation; application; form; contents.

An employer wishing to participate in the short-time compensation program shall submit a signed written short-time compensation plan to the commissioner for approval. The commissioner shall develop an application form to request approval of a short-time compensation plan and an approval process. The application shall include:

(1) The affected unit or units covered by the plan, including the number of full-time or part-time employees in such unit, the percentage of employees in the affected unit covered by the plan, identification of each individual employee in the affected unit by name, social security number, and the employer's unemployment tax account number, and any other information required by the commissioner to identify plan participants;

(2) A description of how employees in the affected unit will be notified of the employer's participation in the short-time compensation plan if such application is approved, including how the employer will notify those employees in a collective-bargaining unit as well as any employees in the affected unit who are not in a collective-bargaining unit. If the employer will not provide advance notice to employees in the affected unit, the employer shall explain in a statement in the application why it is not feasible to provide such notice;

(3) A requirement that the employer identify the usual weekly hours of work for employees in the affected unit and the specific percentage by which their hours will be reduced during all weeks covered by the plan. An application shall specify the percentage of reduction for which a short-time compensation plan application may be approved which shall be not less than ten percent and not more than sixty percent. If the plan includes any week for which the employer regularly provides no work due to a holiday or other plant closing, then such week shall be identified in the application;

(4)(a) Certification by the employer that, if the employer provides health and retirement benefits to any employee whose usual weekly hours of work are reduced under the program, such benefits will continue to be provided to employees participating in the short-time compensation program under the same terms and conditions as though the usual weekly hours of work of such employee had not been reduced or to the same extent as other employees not participating in the short-time compensation program.

(b) For defined benefit retirement plans, the hours that are reduced under the short-time compensation plan shall be credited for purposes of participation, vesting, and accrual of benefits as though the usual weekly hours of work had not been reduced. The dollar amount of employer contributions to a defined contribution plan that are based on a percentage of compensation may be less due to the reduction in the employee's compensation.

(c) Notwithstanding subdivisions (4)(a) and (b) of this section, an application may contain the required certification when a reduction in health and retirement benefits scheduled to occur during the duration of the plan will be applicable equally to employees who are not participating in the short-time compensation program and to those employees who are participating;

(5) Certification by the employer that the aggregate reduction in work hours is in lieu of layoffs, temporary or permanent layoffs, or both. The application shall include an estimate of the number of employees who would have been laid off in the absence of the short-time compensation plan;

(6) Certification by the employer that the short-time compensation program shall not serve as a subsidy of seasonal employment during the off-season, nor as a subsidy of temporary part-time or intermittent employment;

(7) Agreement by the employer to: Furnish reports to the commissioner relating to the proper conduct of the plan; allow the commissioner access to all records necessary to approve or disapprove the plan application and, after approval of a plan, to monitor and evaluate the plan; and follow any other

directives the commissioner deems necessary for the agency to implement the plan and which are consistent with the requirements for short-time compensation plan applications;

(8) Certification by the employer that participation in the short-time compensation plan and its implementation is consistent with the employer's obligations under applicable federal and state laws;

(9) The effective date and duration of the plan that shall expire not later than the end of the twelfth full calendar month after the effective date;

(10) Certification by the employer that it has obtained the written approval of any applicable collective-bargaining unit representative and has notified all affected employees who are not in a collective-bargaining unit of the proposed short-time compensation plan;

(11) Certification by the employer that it will not hire additional part-time or full-time employees for the affected unit while the short-time compensation plan is in effect; and

(12) Any other provision added to the application by the commissioner that the United States Secretary of Labor determines to be appropriate for purposes of a short-time compensation program.

48-675 Short-time compensation program; commissioner; decision; eligibility.

(1) The commissioner shall approve or disapprove a short-time compensation plan in writing within thirty days after its receipt and promptly communicate the decision to the employer. A decision disapproving the plan shall clearly identify the reasons for the disapproval. The disapproval shall be final, but the employer shall be allowed to submit another short-time compensation plan for approval not earlier than forty-five days after the date of the disapproval.

(2)(a) A short-time compensation plan will only be approved for a contributory employer that (a) is eligible for experience rating under section 48-649.03, (b) has a positive balance in the employer's experience account, (c) has filed all quarterly reports and other reports required under the Employment Security Law, and (d) has paid all obligation assessments, contributions, interest, and penalties due through the date of the employer's application.

(b) A short-time compensation plan will only be approved for an employer liable for making payments in lieu of contributions that has filed all quarterly reports and other reports required under the Employment Security Law and has paid all obligation assessments, payments in lieu of contributions, interest, and penalties due through the date of the employer's application.

48-676 Short-time compensation program; plan; effective date; notice of approval; expiration; revocation; termination.

(1) A short-time compensation plan shall be effective on the date that is mutually agreed upon by the employer and the commissioner, which shall be specified in the notice of approval to the employer. The plan shall expire on the date specified in the notice of approval, which shall be either the date at the end of the twelfth full calendar month after its effective date or an earlier date mutually agreed upon by the employer and the commissioner.

(2) If a short-time compensation plan is revoked by the commissioner under section 48-677, the plan shall terminate on the date specified in the commissioner's written order of revocation.

(3) An employer may terminate a short-time compensation plan at any time upon written notice to the commissioner. Upon receipt of such notice from the employer, the commissioner shall promptly notify each member of the affected unit of the termination date.

(4) An employer may submit a new application to participate in another short-time compensation plan at any time after the expiration or termination date.

Source: Laws 2014, LB961, § 17.

48-677 Short-time compensation program; plan; revocation; procedure; grounds; order.

(1) The commissioner may revoke approval of a short-time compensation plan for good cause at any time, including upon the request of any of the affected unit's employees. The revocation order shall be in writing and shall specify the reasons for the revocation and the date the revocation is effective.

(2) The commissioner may periodically review the operation of each employer's short-time compensation plan to assure that no good cause exists for revocation of the approval of the plan. Good cause shall include, but not be limited to, failure to comply with the assurances given in the plan, unreasonable revision of productivity standards for the affected unit, conduct or occurrences tending to defeat the intent and effective operation of the short-time compensation plan, and violation of any criteria on which approval of the plan was based.

Source: Laws 2014, LB961, § 18.

48-678 Short-time compensation program; plan; modification; request; decision; employer; report.

(1) An employer may request a modification of an approved plan by filing a written request with the commissioner. The request shall identify the specific provisions proposed to be modified and provide an explanation of why the proposed modification is appropriate for the short-time compensation plan. The commissioner shall approve or disapprove the proposed modification in writing within thirty days after receipt and promptly communicate the decision to the employer.

(2) The commissioner may approve a request for modification of the plan based on conditions that have changed since the plan was approved if the modification is consistent with and supports the purposes for which the plan was initially approved. A modification does not extend the expiration date of the original plan, and the commissioner shall promptly notify the employer whether the plan modification has been approved and, if approved, the effective date of the modification.

(3) An employer is not required to request approval of a plan modification from the commissioner if the change is not substantial, but the employer must report every change to the plan to the commissioner promptly and in writing. The commissioner may terminate an employer's plan if the employer fails to meet this reporting requirement. If the commissioner determines that the

reported change is substantial, the commissioner shall require the employer to request a modification to the plan.

48-679 Short-time compensation program; individual; eligibility.

An individual is eligible to receive short-time compensation with respect to any week only if the individual is monetarily eligible for unemployment compensation, not otherwise disqualified for unemployment compensation, and:

(1) During the week, the individual is employed as a member of an affected unit under an approved short-time compensation plan, which was approved prior to that week, and the plan is in effect with respect to the week for which short-time compensation is claimed;

(2) Notwithstanding any other provisions of the Employment Security Law relating to availability for work and actively seeking work, the individual is available for the individual's usual hours of work with the short-time compensation employer, which may include, for purposes of this section, participating in training to enhance job skills that is approved by the commissioner such as employer-sponsored training or training funded under the federal Workforce Innovation and Opportunity Act, 29 U.S.C. 3101 et seq.; and

(3) Notwithstanding any other provision of law, an individual covered by a short-time compensation plan is deemed unemployed in any week during the duration of such plan if the individual's remuneration as an employee in an affected unit is reduced based on a reduction of the individual's usual weekly hours of work under an approved short-time compensation plan.

Source: Laws 2014, LB961, § 20; Laws 2017, LB172, § 82.

48-680 Short-time compensation program; weekly benefit amount; provisions applicable to individuals.

(1) The short-time compensation weekly benefit amount shall be the product of the regular weekly unemployment compensation amount for a week of total unemployment multiplied by the percentage of reduction in the individual's usual weekly hours of work.

(2) An individual may be eligible for short-time compensation or unemployment compensation, as appropriate, except that no individual shall be eligible for combined benefits in any benefit year in an amount more than the maximum entitlement established for regular unemployment compensation, nor shall an individual be paid short-time compensation benefits for more than fifty-two weeks under a short-time compensation plan.

(3) The short-time compensation paid to an individual shall be deducted from the maximum entitlement amount of unemployment compensation established for that individual's benefit year.

(4) Provisions applicable to unemployment compensation claimants shall apply to short-time compensation claimants to the extent that they are not inconsistent with short-time compensation provisions. An individual who files an initial claim for short-time compensation benefits shall receive a monetary determination.

(5) The following provisions apply to individuals who work for both a short-time compensation employer and another employer during weeks covered by the approved short-time compensation plan:

(a) If combined hours of work in a week for both employers does not result in a reduction of at least ten percent, or, if higher, the minimum percentage of reduction required to be eligible for a short-time compensation, of the usual weekly hours of work with the short-time employer, the individual shall not be entitled to short-time compensation;

(b) If the combined hours of work for both employers results in a reduction equal to or greater than ten percent, or, if higher, the minimum percentage reduction required to be eligible for short-time compensation, of the usual weekly hours of work for the short-time compensation employer, the short-time compensation payable to the individual is reduced for that week and is determined by multiplying the weekly unemployment benefit amount for a week of total unemployment by the percentage by which the combined hours of work have been reduced by ten percent, or, if higher, the minimum percentage reduction required to be eligible for short-time compensation, or more of the individual's usual weekly hours of work. A week for which benefits are paid under this subdivision shall be reported as a week of short-time compensation; and

(c) If an individual worked the reduced percentage of the usual weekly hours of work for the short-time compensation employer and is available for all his or her usual hours of work with the short-time compensation employer, and the individual did not work any hours for the other employer, either because of the lack of work with that employer or because the individual is excused from work with the other employer, the individual shall be eligible for short-time compensation for that week. The benefit amount for such week shall be calculated as provided in subsection (1) of this section.

(6) An individual who is not provided any work during a week by the short-time compensation employer, or any other employer, and who is otherwise eligible for unemployment compensation shall be eligible for the amount of unemployment compensation to which he or she would otherwise be eligible.

(7) An individual who is not provided any work by the short-time compensation employer during a week, but who works for another employer and is otherwise eligible, may be paid unemployment compensation for that week subject to the disqualifying income and other provisions applicable to claims for regular compensation.

48-681 Short-time compensation; charged to employer's experience account.

Employers liable for payments in lieu of contributions shall have short-time compensation attributed to service in their employ in the same manner as unemployment compensation is attributed.

48-682 Short-time compensation; when considered exhaustee.

An individual who has received all of the short-time compensation or combined unemployment compensation and short-time compensation available in a benefit year shall be considered an exhaustee for purposes of extended benefits

under section 48-628.14 and, if otherwise eligible under such section, shall be eligible to receive extended benefits.

(2) The department shall submit an annual report to the Governor and electronically to the Legislature on the short-time compensation program trends, including the number of employers filing short-time compensation program plans, the number of layoffs averted through the use of the short-time compensation program, the amount of short-time compensation program benefits paid, and other information pertinent to the short-time compensation program.

- 1. Constitutionality
- 2. Jurisdiction of commission
- 3. Bargaining units
- 4. Miscellaneous

1. Constitutionality

The statutes which give the Court of Industrial Relations jurisdiction over public employees are not unconstitutional. *American Fed. of S., C. & M. Emp. v. Department of Public Institutions*, 195 Neb. 253, 237 N.W.2d 841 (1976).

To pass scrutiny of Constitution of the United States, Nebraska Court of Industrial Relations, in case within its jurisdiction, must be deemed to have sufficient power to fully vindicate, preserve, and protect a federal constitutional right. *Teamsters Pub. Emp. U. Loc. 594 v. City of West Point*, 338 F.Supp. 927 (D. Neb. 1972).

2. Jurisdiction of commission

A mere request by a union for information regarding employee transfer lists and test results which is declined by the employer does not constitute an industrial dispute. *Neb. Pub. Emp. v. City of Omaha*, 235 Neb. 768, 457 N.W.2d 429 (1990).

A uniquely personal termination of employment does not constitute an industrial dispute, notwithstanding the fact it may involve a controversy concerning terms, tenure, or conditions of employment. *Wood v. Tesch*, 222 Neb. 654, 386 N.W.2d 436 (1986).

The Commission of Industrial Relations has jurisdiction, that is, authorized power, to resolve industrial disputes between agencies or departments of the State of Nebraska and their employees. *State Code Agencies Ed. Assn. v. Department of Pub. Insts.*, 219 Neb. 555, 364 N.W.2d 44 (1985).

The authority of the Court of Industrial Relations, now Commission of Industrial Relations, is limited to industrial disputes, as defined in this section. *University Police Officers Union v. University of Nebraska*, 203 Neb. 4, 277 N.W.2d 529 (1979).

The University of Nebraska has the primary authority for establishing its own schedule of wages, terms and conditions of employment, and hours of labor but when an industrial dispute, as defined in this section, arises, the Commission of Industrial Relations acquires jurisdiction for the limited purpose of resolving such dispute. *University Police Officers Union v. University of Nebraska*, 203 Neb. 4, 277 N.W.2d 529 (1979).

3. Bargaining units

House officers of the University of Nebraska Medical Center are employees of the state entitled to participate in an appropriate bargaining unit. *House Officers Assn. v. University of Nebraska Medical Center*, 198 Neb. 697, 255 N.W.2d 258 (1977).

Supervisory or managerial personnel may not enter into a bargaining unit with rank and file employees and may not retain

the same bargaining agent. *Nebraska Assn. of Pub. Emp. v. Nebraska Game & Parks Commission*, 197 Neb. 178, 247 N.W.2d 449 (1976).

4. Miscellaneous

Employees lose the statutory protection of the Industrial Relations Act for conduct or speech if it is flagrant misconduct, which includes, but is not limited to, statements or actions that (1) are of an outrageous and insubordinate nature, (2) compromise the public employer's ability to accomplish its mission, or (3) disrupt discipline, as well as conduct that is clearly outside the bounds of any protection such as assault and battery or racial discrimination. *Omaha Police Union Local 101 v. City of Omaha*, 274 Neb. 70, 736 N.W.2d 375 (2007).

Public employees belonging to a labor organization have the protected right to engage in conduct and make remarks, including publishing statements through the media, concerning wages, hours, or terms and conditions of employment. *Omaha Police Union Local 101 v. City of Omaha*, 274 Neb. 70, 736 N.W.2d 375 (2007).

The Commission of Industrial Relations must balance the employee's right to engage in protected activity, which permits some leeway for impulsive behavior, against the employer's right to maintain order and respect for its supervisory staff. Factors that the commission may consider, but would not necessarily be determinative, include: (1) the place and subject matter of the conduct or speech, (2) whether the employee's conduct or speech was impulsive or designed, (3) whether the conduct or speech was provoked by the employer's conduct, and (4) the nature of the intemperate language or conduct. *Omaha Police Union Local 101 v. City of Omaha*, 274 Neb. 70, 736 N.W.2d 375 (2007).

The Industrial Relations Act is not only an attempt to level the employment playing field, but is also a mechanism designed to protect the citizens of Nebraska from the effects and consequences of labor strife in public sector employment. *Omaha Police Union Local 101 v. City of Omaha*, 274 Neb. 70, 736 N.W.2d 375 (2007).

Teachers in Class III, IV, and VI school districts are subject to provisions of Teachers' Professional Negotiation Act. *Lincoln Ed. Assn. v. School Dist. of Lincoln*, 214 Neb. 895, 336 N.W.2d 587 (1983).

School districts are employers and teachers are employees within terms of this act. *Sidney Education Assn. v. School Dist. of Sidney*, 189 Neb. 540, 203 N.W.2d 762 (1973).

48-802 Public policy.

To make operative the provisions of section 9, Article XV, of the Constitution of Nebraska, the public policy of the State of Nebraska is hereby declared to be as follows:

(1) The continuous, uninterrupted and proper functioning and operation of the governmental service including governmental service in a proprietary capacity and of public utilities engaged in the business of furnishing transportation for hire, telephone service, telegraph service, electric light, heat, or power service, gas for heating or illuminating, whether natural or artificial, or water service, or any one or more of them, to the people of Nebraska are hereby declared to be essential to their welfare, health, and safety. It is contrary to the public policy of the state to permit any substantial impairment or suspension of the operation of governmental service, including governmental service in a proprietary capacity or any such utility by reason of industrial disputes therein. It is the duty of the State of Nebraska to exercise all available means and every power at its command to prevent the same so as to protect its citizens from any dangers, perils, calamities, or catastrophes which would result therefrom. It is therefor further declared that governmental service, including governmental service in a proprietary capacity, and the service of such public utilities are clothed with a vital public interest and to protect the same it is necessary that the relations between the public employers and public employees in such industries be regulated by the State of Nebraska to the extent and in the manner provided in the Industrial Relations Act;

(2) No right shall exist in any natural or corporate person or group of persons to hinder, delay, limit, or suspend the continuity or efficiency of any governmental service or governmental service in a proprietary capacity of this state, either by strike, lockout, or other means; and

(3) No right shall exist in any natural or corporate person or group of persons to hinder, delay, limit, or suspend the continuity or efficiency of any public utility service, either by strike, lockout, or other means.

If the Commission of Industrial Relations finds that an accused party has committed a prohibited practice under subsection (2) of section 48-825, it has the authority to order an appropriate remedy, and such authority is to be liberally construed to effectuate the public policy enunciated in this section. *Operating Engrs. Local 571 v. City of Plattsmouth*, 265 Neb. 817, 660 N.W.2d 480 (2003).

If public employees may not refuse to work without risk of discharge, public employers may not refuse to pay employees the wage established by the governmental employer for such work. *AFSCME Local No. 2088 v. County of Douglas*, 208 Neb. 511, 304 N.W.2d 368 (1981).

It is the public interest in having uninterrupted public service that is principally sought to be protected by the Commission of Industrial Relations Act, not the creation of a specialty forum

for the trying of breach of contract cases by public employees. *Transport Workers of America v. Transit Authority of City of Omaha*, 205 Neb. 26, 286 N.W.2d 102 (1979).

Supervisory or managerial personnel may not enter into a bargaining unit with rank and file employees and may not retain the same bargaining agent. *Nebraska Assn. of Pub. Emp. v. Nebraska Game & Parks Commission*, 197 Neb. 178, 247 N.W.2d 449 (1976).

While there are many nebulous areas that may overlap working conditions, school boards should not be required to enter into negotiations which are predominately of educational policy, management prerogatives, or statutory duties of the board of education. *School Dist. of Seward Education Assn. v. School Dist. of Seward*, 188 Neb. 772, 199 N.W.2d 752 (1972).

- 1. Right to appeal
- 2. Manner of consideration
- 3. Miscellaneous

1. Right to appeal

A party appealing from an order of the Commission of Industrial Relations is not required to file a motion for new trial before the commission as a prerequisite to an appeal to the Nebraska Supreme Court. Fraternal Order of Police v. County of Adams, 205 Neb. 682, 289 N.W.2d 535 (1980); Plattsmouth Police Dept. Collective Bargaining Committee v. City of Plattsmouth, 205 Neb. 567, 288 N.W.2d 729 (1980).

In the absence of a specific statute requiring it, the filing of a motion for new trial is not a prerequisite to the appeal of a decision of an administrative body. This section creates no such requirement for appeals from the Commission of Industrial Relations. Plattsmouth Pol. Dept. Collective Bargaining Committee v. City of Plattsmouth, 205 Neb. 567, 288 N.W.2d 729 (1980).

An order of the Court of Industrial Relations establishing bargaining units is a final order under this section, and becomes immediately appealable. American Assn. of University Professors v. Board of Regents, 198 Neb. 243, 253 N.W.2d 1 (1977).

2. Manner of consideration

In reviewing the findings and order of the Commission of Industrial Relations, the Supreme Court will only consider whether the order of the commission is supported by substantial evidence, whether the commission acted within the scope of its authority, and whether its action was arbitrary, capricious, or

unreasonable. Fraternal Order of Police v. County of Adams, 205 Neb. 682, 289 N.W.2d 535 (1980).

Review of collective bargaining decision by Court of Industrial Relations is in manner provided for disposition of equity cases. American Fed. S., C., & M. Emp., AFL-CIO v. County of Lancaster, 196 Neb. 89, 241 N.W.2d 523 (1976).

Appeals from the Court of Industrial Relations are to be heard and disposed of de novo, but the superior position of the original trier of fact is to be respected and accorded great weight. Crete Education Assn. v. School Dist. of Crete, 193 Neb. 245, 226 N.W.2d 752 (1975); Mid-Plains Education Assn. v. Mid-Plains Nebraska Tech. College, 189 Neb. 37, 199 N.W.2d 747 (1972).

An intervenor in a proceeding before the Commission of Industrial Relations may be required to make a reasonable showing of interest in support of the intervention. American Assn. of University Professors v. Board of Regents, 203 Neb. 628, 279 N.W.2d 621 (1979).

48-813 Commission; notice of pendency of proceedings; service; response; filing; final offer; included with petition; included with answers; procedure; exception; hearing; waiver of notice.

(1) Whenever the jurisdiction of the commission is invoked, notice of the pendency of the proceedings shall be given in such manner as the commission shall provide for serving a copy of the petition and notice of filing upon the adverse party. A public employer or labor organization may be served by sending a copy of the petition filed to institute the proceedings and a notice of filing, which shall show the filing date, in the manner provided for service of a summons in a civil action. Such employer or labor organization shall have twenty days after receipt of the petition and notice of filing in which to serve and file its response.

(2) The petitioner shall include its final offer, as voted by the petitioner, the governing body, or the bargaining unit or as considered pursuant to a ratifica-

tion process, with its petition. The respondent shall include its final offer, as voted by the respondent, the governing body, or the bargaining unit or as considered pursuant to a ratification process, with its answer. Within fourteen days after filing of the answer, the parties shall vote to accept or reject or consider pursuant to a ratification process the other's final offer and file a subsequent pleading indicating the result. The vote concerning the governing body's final offer shall be published on its agenda and held where the public may attend. The commission shall not enter a final order on wages or conditions of employment unless both parties have rejected the others' final offer. This subsection does not apply to public employers subject to the State Employees Collective Bargaining Act.

(3) When a petition is filed to resolve an industrial dispute, a hearing shall mandatorily be held within sixty days from the date of filing thereof. A recommended decision and order in cases arising under section 48-818, an order in cases not arising under section 48-818, and findings if required, shall mandatorily be made and entered thereon within thirty days after such hearing. The time requirements specified in this section may be extended for good cause shown on the record or by agreement of the parties. Failure to meet such mandatory time requirements shall not deprive the commission of jurisdiction. However, if the commission fails to hold a hearing on the industrial dispute within sixty days of filing or has failed to make a recommended decision and order, and findings of fact if required, in cases arising under section 48-818, or an order, and findings of fact if required, in cases not arising under section 48-818, and findings, within thirty days after the hearing and good cause is not shown on the record or the parties to the dispute have not jointly stipulated to the enlargement of the time limit, then either party may file an action for mandamus in the district court for Lancaster County to require the commission to hold the hearing or to render its order and findings if required. For purposes of this section, the hearing on an industrial dispute shall not be deemed completed until the record is prepared and counsel briefs have been submitted, if such are required by the commission.

(4) Any party, including the State of Nebraska or any of its employer-representatives as defined in section 81-1371 or any political subdivision of the State of Nebraska, may waive such notice and may enter a voluntary appearance in any matter in the commission. The giving of such notice in such manner shall subject the public employers, the labor organizations, and the persons therein to the jurisdiction of the commission.

48-816 Preliminary proceedings; commission; powers; duties; collective bargaining; posttrial conference.

(1)(a) After a petition has been filed under section 48-811, the clerk shall immediately notify the commission which shall promptly take such preliminary proceedings as may be necessary to ensure prompt hearing and speedy adjudication of the industrial dispute. The commission may, upon its own initiative or upon request of a party to the dispute, make such temporary findings and orders as necessary to preserve and protect the status of the parties, property, and public interest involved pending final determination of the issues. In the event of an industrial dispute between a public employer and a public employee or a labor organization when such public employer and public employee or labor organization have failed or refused to bargain in good faith concerning the matters in dispute, the commission may order such bargaining to begin or resume, as the case may be, and may make any such order or orders as appropriate to govern the situation pending such bargaining. The commission shall require good faith bargaining concerning the terms and conditions of employment of its employees by any public employer. Upon the request of either party, the commission shall require the parties to an industrial dispute to submit to mediation or factfinding. Before July 1, 2012, upon the request of both parties, a special master may be appointed if the parties are within the provisions of section 48-811.02. On and after July 1, 2012, upon the request of either party, a resolution officer may be appointed if the parties are within the provisions of section 48-818.01. Such orders for bargaining, mediation, factfinding, or before July 1, 2012, a special master proceeding and on and after such date a resolution officer proceeding may be issued at any time during

the pendency of an action to resolve an industrial dispute. To bargain in good faith means the performance of the mutual obligation of the public employer and the labor organization to meet at reasonable times and confer in good faith with respect to wages, hours, and other terms and conditions of employment or any question arising thereunder and the execution of a written contract incorporating any agreement reached if requested by either party, but such obligation does not compel either party to agree to a proposal or require the making of a concession.

(b) In negotiations between a municipality, municipally owned utility, or county and a labor organization, staffing related to issues of safety shall be mandatory subjects of bargaining and staffing relating to scheduling work, such as daily staffing, staffing by rank, and overall staffing requirements, shall be permissive subjects of bargaining.

(2) Except as provided in the State Employees Collective Bargaining Act, public employers may recognize employee organizations for the purpose of negotiating collectively in the determination of and administration of grievances arising under the terms and conditions of employment of their public employees as provided in the Industrial Relations Act and may negotiate and enter into written agreements with such employee organizations in determining such terms and conditions of employment.

(3)(a) Except as provided in subdivisions (b) and (c) of this subsection, a supervisor shall not be included in a single bargaining unit with any other public employee who is not a supervisor.

(b) All firefighters and police officers employed in the fire department or police department of any municipality in a position or classification subordinate to the chief of the department and his or her immediate assistant or assistants holding authority subordinate only to the chief shall be presumed to have a community of interest and may be included in a single bargaining unit represented by a public employee organization for the purposes of the Industrial Relations Act. Public employers shall be required to recognize a public employees bargaining unit composed of firefighters and police officers holding positions or classifications subordinate to the chief of the fire department or police department and his or her immediate assistant or assistants holding authority subordinate only to the chief when such bargaining unit is designated or elected by public employees in the unit.

(c) All administrators employed by a Class V school district shall be presumed to have a community of interest and may join a single bargaining unit composed otherwise of teachers and other certificated employees for purposes of the Industrial Relations Act, except that the following administrators shall be exempt: The superintendent, associate superintendent, assistant superintendent, secretary and assistant secretary of the board of education, executive director, administrators in charge of the offices of state and federal relations and research, chief negotiator, and administrators in the immediate office of the superintendent. A Class V school district shall recognize a public employees bargaining unit composed of teachers and other certificated employees and administrators, except the exempt administrators, when such bargaining unit is formed by the public employees as provided in section 48-838 and may recognize such a bargaining unit as provided in subsection (2) of this section. In addition, all administrators employed by a Class V school district, except the exempt administrators, may form a separate bargaining unit represented either

by the same bargaining agent for all collective-bargaining purposes as the teachers and other certificated employees or by another collective-bargaining agent of such administrators' choice. If a separate bargaining unit is formed by election as provided in section 48-838, a Class V school district shall recognize the bargaining unit and its agent for all purposes of collective bargaining. Such separate bargaining unit may also be recognized by a Class V school district as provided in subsection (2) of this section.

(4) When a public employee organization has been certified as an exclusive collective-bargaining agent or recognized pursuant to any other provisions of the Industrial Relations Act, the appropriate public employer shall be and is hereby authorized to negotiate collectively with such public employee organization in the settlement of grievances arising under the terms and conditions of employment of the public employees as provided in such act and to negotiate and enter into written agreements with such public employee organizations in determining such terms and conditions of employment, including wages and hours.

(5) Upon receipt by a public employer of a request from a labor organization to bargain on behalf of public employees, the duty to engage in good faith bargaining shall arise if the labor organization has been certified by the commission or recognized by the public employer as the exclusive bargaining representative for the public employees in that bargaining unit.

(6) A party to an action filed with the commission may request the commission to send survey forms or data request forms. The requesting party shall prepare its own survey forms or data request forms and shall provide the commission the names and addresses of the entities to whom the documents shall be sent, not to exceed twenty addresses in any case. All costs resulting directly from the reproduction of such survey or data request forms and the cost of mailing such forms shall be taxed by the commission to the requesting party. The commission may (a) make studies and analyses of and act as a clearinghouse of information relating to conditions of employment of public employees throughout the state, (b) request from any government, and such governments are authorized to provide, such assistance, services, and data as will enable it properly to carry out its functions and powers, (c) conduct studies of problems involved in representation and negotiation, including, but not limited to, those subjects which are for determination solely by the appropriate legislative body, and make recommendations from time to time for legislation based upon the results of such studies, (d) make available to public employee organizations, governments, mediators, factfinding boards and joint study committees established by governments, and public employee organizations statistical data relating to wages, benefits, and employment practices in public and private employment applicable to various localities and occupations to assist them to resolve complex issues in negotiations, and (e) establish, after consulting representatives of public employee organizations and administrators of public services, panels of qualified persons broadly representative of the public to be available to serve as mediators, before July 1, 2012, special masters and on and after such date resolution officers, or members of factfinding boards.

(7)(a) Except for those cases arising under section 48-818, the commission shall make findings of facts in all cases in which one of the parties to the dispute requests findings. Such request shall be specific as to the issues on which the party wishes the commission to make findings of fact.

(b) In cases arising under section 48-818, findings of fact shall not be required of the commission unless both parties to the dispute stipulate to the request and to the specific issues on which findings of fact are to be made.

(c) If findings of fact are requested under subdivision (a) or (b) of this subsection, the commission may require the parties making the request to submit proposed findings of fact to the commission on the issues on which findings of facts are requested.

(d) In cases arising under section 48-818, the commission shall issue a recommended decision and order, which decision and order shall become final within twenty-five days of entry unless either party to the dispute files with the commission a request for a posttrial conference. If such a request is filed, the commission shall hold a posttrial conference within ten days of receipt of such request and shall issue an order within ten days after holding such posttrial conference, which order shall become the final order in the case. The purpose of such posttrial conference shall be to allow the commission to hear from the parties on those portions of the recommended decision and order which is not based upon or which mischaracterizes evidence in the record and to allow the commission to correct any such errors after having heard the matter in a conference setting in which all parties are represented.

For purposes of bringing error proceedings, this statute does not require public employers to act in a judicial manner when administering pay scale grievances. *Kropp v. Grand Island Pub. Sch. Dist. No. 2*, 246 Neb. 138, 517 N.W.2d 113 (1994).

Subsection (1) of this section requires good faith bargaining, but only after a petition has been filed invoking the jurisdiction of the commission. Subsection (4) of this section does not require good faith bargaining; it simply authorizes public employers to negotiate with unions regarding the settlement of grievances and the establishment of written agreements as to wages, hours, and other conditions of employment. Subsection (5) of this section requires good faith bargaining, but only after an employer receives a request to bargain from the union. This section, unlike the National Labor Relations Act, does not establish a duty to bargain. Without this statutory authorization, a public employer would not have the right to bargain with public employees. *Kuhl v. Skinner*, 245 Neb. 794, 515 N.W.2d 641 (1994).

48-816.01 Hearing officer; appointment; when.

The presiding officer of the commission may, when he or she deems it necessary to expedite the determination of cases filed with the commission, appoint a hearing officer to hear evidence and make recommended findings and orders in any case or to make recommended determinations after a representation election has been ordered and during the course of such election. Any person appointed as a hearing officer shall be an attorney admitted to practice in Nebraska and shall be knowledgeable in the rules of civil procedure and evidence applicable to the district courts.

In any request for temporary relief under the Industrial Relations Act, the commission shall mandatorily hold the initial hearing within ten days from the date of the filing.

48-817 Commission; findings; decisions; orders.

After the hearing and any investigation, the commission shall make all findings, findings of fact, recommended decisions and orders, and decisions and orders in writing, which findings, findings of fact, recommended decisions and orders, and decisions and orders shall be entered of record. Except as provided in the State Employees Collective Bargaining Act, the final decision and order or orders shall be in effect from and after the date therein fixed by the commission, but no such order or orders shall be retroactive except as provided otherwise in the Industrial Relations Act. Except as provided otherwise in the Industrial Relations Act, in the making of any findings or orders in connection with any such industrial dispute, the commission shall give no consideration to any evidence or information which it may obtain through an investigation or otherwise receive, except matters of which the district court might take judicial notice, unless such evidence or information is presented and made a part of the record in a hearing and opportunity is given, after

reasonable notice to all parties to the controversy of the initiation of any investigation and the specific contents of the evidence or information obtained or received, to rebut such evidence or information either by cross-examination or testimony.

48-818 Commission; findings; order; powers; duties; orders authorized; modification.

(1) Except as provided in the State Employees Collective Bargaining Act, the findings and order or orders may establish or alter the scale of wages, hours of labor, or conditions of employment, or any one or more of the same. In making such findings and order or orders, the commission shall establish rates of pay and conditions of employment which are comparable to the prevalent wage rates paid and conditions of employment maintained for the same or similar work of workers exhibiting like or similar skills under the same or similar working conditions. In establishing wage rates the commission shall take into consideration the overall compensation presently received by the employees, having regard not only to wages for time actually worked but also to wages for time not worked, including vacations, holidays, and other excused time, and all benefits received, including insurance and pensions, and the continuity and stability of employment enjoyed by the employees. Any order or orders entered may be modified on the commission's own motion or on application by any of the parties affected, but only upon a showing of a change in the conditions from those prevailing at the time the original order was entered.

(2) For purposes of industrial disputes involving public employers other than school districts, educational service units, and community colleges with their certificated and instructional employees and public employers subject to the State Employees Collective Bargaining Act:

(a) Job matches shall be sufficient for comparison if (i) evidence supports at least a seventy percent match based on a composite of the duties and time spent performing those duties and (ii) at least three job matches per classification are available for comparison. If three job matches are not available, the commission shall base its order on the historic relationship of wages paid to such position over the last three fiscal years, for which data is available, as compared to wages paid to a position for which a minimum of three job matches are available;

(b) The commission shall adhere to the following criteria when establishing an array:

(i) Geographically proximate public employers and Nebraska public employers are preferable for comparison;

(ii) The preferred size of an array is seven to nine members. As few as five members may be chosen if all array members are Nebraska employers. The

commission shall include members mutually agreed to by the parties in the array;

(iii) If more than nine employers with job matches are available, the commission shall limit the array to nine members, based upon selecting array members with the highest number of job matches at the highest job match percentage;

(iv) Nothing in this subdivision (2)(b) of this section shall prevent parties from stipulating to an array member that does not otherwise meet the criteria in such subdivision, and nothing in such subdivision shall prevent parties from stipulating to less than seven or more than nine array members;

(v) The commission shall not require a balanced number of larger or smaller employers or a balanced number of Nebraska or out-of-state employers;

(vi) If the array includes a public employer in a metropolitan statistical area other than the metropolitan statistical area in which the employer before the commission is located, only one public employer from such metropolitan statistical area may be included in the array;

(vii) Arrays for public utilities with annual revenue of five hundred million dollars or more shall include both comparable public and privately owned utilities. Arrays for public utilities with annual revenue of less than five hundred million dollars may include both comparable public and privately owned utilities. Public utilities that produce radioactive material and energy pursuant to section 70-627.02 shall have at least four members in its array that produce radioactive material and energy when employees directly involved in this production are included in the bargaining unit. For public utilities that generate, transmit, and distribute power, the array shall include members that also perform these functions. For a public utility serving a city of the primary class, the array shall only include public power districts in Nebraska that generate, transmit, and distribute power and any out-of-state utilities whose number of meters served is not more than double or less than one-half of the number of meters served by the public utility serving a city of the primary class unless evidence establishes that there are substantial differences which cause the work or conditions of employment to be dissimilar;

(viii) In constructing an array for a public utility, the commission shall use fifty-mile concentric circles until it reaches the optimum array pursuant to subdivision (2)(b)(ii) of this section; and

(ix) For a statewide public utility that provides service to a majority of the counties in Nebraska, any Nebraska public or private job match may be used without regard to the population or full-time equivalent employment requirements of this section, and any out-of-state job match may be used if the full-time equivalent employment of the out-of-state employer is no more than double and no less than one-half of the full-time equivalent employment of the bargaining unit of the statewide public utility in question;

(c) In determining same or similar working conditions, the commission shall adhere to the following:

(i) Public employers in Nebraska shall be presumed to provide same or similar working conditions unless evidence establishes that there are substantial differences which cause the work or conditions of employment to be dissimilar;

(ii) Public employers shall be presumed to provide the same or similar working conditions if (A) for public employers that are counties or municipali-

ties, the population of such public employer is not more than double or less than one-half of the population of the public employer before the commission, unless evidence establishes that there are substantial differences which cause the work or conditions of employment to be dissimilar, (B) for public employers that are public utilities, the number of such public employer's employees is not more than double or less than one-half of the number of employees of the public employer before the commission, unless evidence establishes that there are substantial differences which cause the work or conditions of employment to be dissimilar, or (C) for public employers that are school districts, educational service units, or community colleges with noncertificated and noninstructional school employees, the student enrollment of such public employer is not more than double or less than one-half of the student enrollment of the public employer before the commission, unless evidence establishes that there are substantial differences which cause the work or conditions of employment to be dissimilar;

(iii)(A) Public employers located within a metropolitan statistical area who meet the population requirements of subdivision (2)(c)(ii)(A) of this section, if the public employer is a county or municipality, or the student enrollment requirements of subdivision (2)(c)(ii)(C) of this section, if the public employer is a school district or an educational service unit, shall be presumed to provide the same or similar working conditions if the metropolitan statistical area population in which they are located is not more than double or less than one-half the metropolitan statistical area population of the public employer before the commission, unless evidence establishes that there are substantial differences which cause the work or conditions of employment to be dissimilar.

(B) The presumption created by subdivision (2)(c)(iii)(A) of this section may be overcome in situations where evidence establishes that there are substantial similarities which cause the work or conditions of employment to be similar, allowing the commission to consider public employers located within a metropolitan statistical area even if the metropolitan statistical area population in which that employer or employers are located is more than double or less than one-half the metropolitan statistical area population of the public employer before the commission. The burden of establishing sufficient similarity is on the party seeking to include a public employer pursuant to this subdivision (2)(c)(iii)(B) of this section; and

(iv) Public employers other than public utilities which are not located within a metropolitan statistical area shall not be compared to public employers located in a metropolitan statistical area. For purposes of this subdivision, metropolitan statistical area includes municipalities with populations of fifty thousand inhabitants or more;

(d) Prevalent shall be determined as follows: (i) For numeric values, prevalent shall be the midpoint between the arithmetic mean and the arithmetic median. For fringe benefits, prevalent shall be the midpoint between the arithmetic mean and the arithmetic median as long as a majority of the array members provide the benefit; and (ii) for nonnumeric comparisons, prevalent shall be the mode that the majority of the array members provide if the compared-to benefit is similar in nature. If there is no clear mode, the benefit or working condition shall remain unaltered by the commission;

(e) For any out-of-state employer, the parties may present economic variable evidence and the commission shall determine what, if any, adjustment is to be

made if such evidence is presented. The commission shall not require that any such economic variable evidence be shown to directly impact the wages or benefits paid to employees by such out-of-state employer;

(f) In determining total or overall compensation, the commission shall value every economic item even if the year in question has expired. The commission shall require that all wage and benefit levels be leveled over the twelve-month period in dispute to account for increases or decreases which occur in the wage or benefit levels provided by any array member during such twelve-month period;

(g) In cases filed pursuant to this subsection (2) of this section, the commission shall not be bound by the usual common law or statutory rules of evidence or by any technical or formal rules of procedure, other than those adopted by rule pursuant to section 48-809. The commission shall receive evidence relating to array selection, job match, and wages and benefits which have been assembled by telephone, electronic transmission, or mail delivery, and any such evidence shall be accompanied by an affidavit from the employer or any other person with personal knowledge which affidavit shall demonstrate the affiant's personal knowledge and competency to testify on the matters thereon. The commission, with the consent of the parties to the dispute, and in the presence of the parties to the dispute, may contact an individual employed by an employer under consideration as an array member by telephone to inquire as to the nature or value of a working condition, wage, or benefit provided by that particular employer as long as the individual in question has personal knowledge about the information being sought. The commission may rely upon information gained in such inquiry for its decision. Opinion testimony shall be received by the commission based upon evidence provided in accordance with this subdivision. Testimony concerning job match shall be received if job match inquiries were conducted by telephone, electronic transmission, or mail delivery if the witness providing such testimony verifies the method of such job match inquiry and analysis;

(h) In determining the value of defined benefit and defined contribution retirement plans and health insurance plans or health benefit plans, the commission shall use an hourly rate value calculation as follows:

(i) Once the array has been chosen, each array member and the public employer of the subject bargaining unit shall provide a copy of its most recent defined benefit pension actuarial valuation report. Each array member and the public employer of the subject bargaining unit shall provide the most recent copy of its health insurance plans or health benefit plans, covering the preceding twelve-month period, with associated employer and employee costs, to the parties and the commission. Each array member shall also provide information concerning premium equivalent payments and contributions for health savings accounts. Each array member and the public employer of the subject bargaining unit shall indicate which plans are most used. The plans that are most used shall be used for comparison;

(ii) Once the actuarial valuation reports are received, the parties shall have thirty calendar days to determine whether to have the pensions actuarially valued at an hourly rate value other than equal. The hourly rate value for defined benefit plans shall be presumed to be equal to that of the array selected unless one or both of the parties presents evidence establishing that the actuarially derived annual normal cost of the pension benefit for each job

classification in the subject bargaining unit is above or below the midpoint of the average normal cost. Consistent methods and assumptions are to be applied to determine the annual normal cost of any defined benefit pension plan of the subject bargaining unit and each array member. For this purpose, the entry age normal actuarial cost method is recommended. The actuarial assumptions that are selected for this purpose should reflect expectations for a defined benefit pension plan maintained for the employees of the subject bargaining unit and acknowledge the eligibility and benefit provisions for each respective defined benefit pension plan. In this regard, different eligibility and benefit provisions may suggest different retirement or termination of employment assumptions. The methods and assumptions shall be attested to by an actuary holding a current membership with the American Academy of Actuaries. Any party who requests or presents evidence regarding actuarial valuation of a defined benefit plan shall be responsible for costs associated with such valuation and testimony. The actuarial valuation is presumed valid, unless a party presents competent actuarial evidence that the valuation is invalid;

(iii) The hourly rate value for defined contribution plans shall be established upon comparison of employer contributions;

(iv) The hourly rate value for health insurance plans or health benefit plans shall be established based upon the public employer's premium payments, premium equivalent payments, and public employer and public employee contributions to health savings accounts;

(v) The commission shall not compare defined benefit plans to defined contribution plans or defined contribution plans to defined benefit plans; and

(vi) The commission shall order increases or decreases in wage rates by job classification based upon the hourly rate value for health-related benefits, benefits provided for retirement plans, and wages;

(i) For benefits other than defined benefit and defined contribution retirement plans and health insurance plans or health benefit plans, the commission shall issue an order based upon a determination of prevalency as determined under subdivision (2)(d) of this section; and

(j) The commission shall issue an order regarding increases or decreases in base wage rates or benefits as follows:

(i) The order shall be retroactive with respect to increases and decreases to the beginning of the bargaining year in dispute;

(ii) The commission shall determine whether the hourly rate value of the bargaining unit's members or classification falls within a ninety-eight percent to one hundred two percent range of the array's midpoint. If the hourly rate value falls within the ninety-eight percent to one hundred two percent range, the commission shall order no change in wage rates. If the hourly rate value is less than ninety-eight percent of the midpoint, the commission shall enter an order increasing wage rates to ninety-eight percent of the midpoint. If the hourly rate value is more than one hundred two percent of the midpoint, the commission shall enter an order decreasing wage rates to one hundred two percent of the midpoint. If the hourly rate value is more than one hundred seven percent of the midpoint, the commission shall enter an order reducing wage rates to one hundred two percent of the midpoint in three equal annual reductions. If the hourly rate value is less than ninety-three percent of the midpoint, the commission shall enter an order increasing wage rates to ninety-eight percent of the midpoint in three equal annual increases. If the commis-

sion finds that the year in dispute occurred during a time of recession, the applicable range will be ninety-five percent to one hundred two percent. For purposes of this subdivision (2)(j) of this section, recession occurrence means the two nearest quarters in time, excluding the immediately preceding quarter, to the effective date of the contract term in which the sum of the net state sales and use tax, individual income tax, and corporate income tax receipts are less than the same quarters for the prior year. Each of these receipts shall be rate and base adjusted for state law changes. The Department of Revenue shall report and publish such receipts on a quarterly basis;

(iii) The parties shall have twenty-five calendar days to negotiate modifications to wages and benefits. If no agreement is reached, the commission’s order shall be followed as issued; and

(iv) The commission shall provide an offset to the public employer when a lump-sum payment is due because benefits were paid in excess of the prevalent as determined under subdivision (2)(d) of this section or when benefits were paid below the prevalent as so determined but wages were above prevalent.

1. Commission of Industrial Relations, powers and duties

A contract continuation clause deals with hours, wages, or terms and conditions of employment as set forth in this section and thus is mandatorily bargainable. *Central City Ed. Assn. v. Merrick Cty. Sch. Dist.*, 280 Neb. 27, 783 N.W.2d 600 (2010).

A prevalence determination by the Commission of Industrial Relations is a subjective determination, and the standard inherent in the word “prevalent” will be one of general practice, occurrence, or acceptance. *Hyannis Ed. Assn. v. Grant Cty. Sch. Dist.* No. 38-0011, 269 Neb. 956, 698 N.W.2d 45 (2005).

A valid prevalence analysis by the Commission of Industrial Relations does not require as a prerequisite a complete identity of provisions in the array. *Hyannis Ed. Assn. v. Grant Cty. Sch. Dist.* No. 38-0011, 269 Neb. 956, 698 N.W.2d 45 (2005).

When discussing the Commission of Industrial Relations’ authority under this section, the Nebraska Supreme Court has acknowledged that a prevalent wage rate to be determined by the commission must almost invariably be determined after consideration of a combination of factors. *Hyannis Ed. Assn. v. Grant Cty. Sch. Dist.* No. 38-0011, 269 Neb. 956, 698 N.W.2d 45 (2005).

In industrial disputes involving governmental services, the Commission of Industrial Relations is empowered to establish rates of pay and conditions of employment comparable to those prevalent for the same or similar work of workers exhibiting like or similar skills under the same or similar working conditions. Employers selected for the comparative array must be demonstrated to be similar. The Commission is required to take into consideration the overall compensation received by the employees, including all fringe benefits, but dollar-for-dollar costing out of each benefit is not required. The Commission’s findings and order may establish or alter the scale of wages, including establishing wage-step progression schedules. *Lincoln Firefighters Assn. Local 644 v. City of Lincoln*, 253 Neb. 837, 572 N.W.2d 369 (1998).

The Commission of Industrial Relations is without the power to declare that interest shall be due on its orders from the date of their entry since the power is not specifically conferred by

statute, and such a construction is not necessary to accomplish the plain purpose of the act. *IBEW Local 763 v. Omaha P.P. Dist.*, 209 Neb. 335, 307 N.W.2d 795 (1981).

The Commission of Industrial Relations has no jurisdiction to hear breach of contract cases. Such cases must be heard in a court of competent jurisdiction. The Commission of Industrial Relations also lacks jurisdiction to grant declaratory or equitable relief, both of which are judicial functions and may not be exercised by an administrative agency. *State Coll. City of West Point*, 204 Neb. 238, 281 N.W.2d 772 (1979).

The Commission of Industrial Relations’ authority is limited to the provisions of this section which, at the time, provide that Commission of Industrial Relations’ findings and orders may only establish or alter the scale of wages, hours of labor, or condition of employment. *University Police Officers Union v. University of Nebraska*, 203 Neb. 4, 277 N.W.2d 529 (1979).

While Court of Industrial Relations may not order a school district to enter into a contract, it has the power to settle a dispute. *School Dist. of Seward Education Assn. v. School Dist. of Seward*, 188 Neb. 772, 199 N.W.2d 752 (1972).

2. Establishing wage rates

Employees have no vested right to placement on the top step of a new pay plan based upon 1 year of employment, and the employer does not act arbitrarily or capriciously in placing the

employees on the new pay plan. *Nebraska Pub. Emp. v. City of Omaha*, 247 Neb. 468, 528 N.W.2d 297 (1995).

In a case to establish or alter the scale of wages under this section, the burden is on the moving party to demonstrate that existing wages are not comparable to the prevalent wage rate. *Douglas Cty. Health Dept. Emp. Assn. v. Douglas Cty.*, 229 Neb. 301, 427 N.W.2d 28 (1988).

Where large number of job classifications exist and established lines of progression and relationships are present, key job classifications may be utilized to establish wages, provided reasonable requirements of prevalence and relevance are met. *IBEW Local 1536 v. City of Fremont*, 216 Neb. 357, 345 N.W.2d 291 (1984).

With regard to comparability, the Commission of Industrial Relations will enter an order either adjusting condition of employment or find subject city's condition to be lesser or greater than prevalent and adjust overall compensation accordingly. *IBEW Local 1536 v. City of Fremont*, 216 Neb. 357, 345 N.W.2d 291 (1984).

The Commission of Industrial Relations is required to consider every possible array which is sufficiently representative so as to determine whether the wage paid or benefits given are comparable. The Commission of Industrial Relation's determination of an array consisting of Nebraska counties excluding outstate counties fully complied with the statutory standard. *Lincoln Co. Sheriff's Emp. Assn. v. Co. of Lincoln*, 216 Neb. 274, 343 N.W.2d 735 (1984).

Absent evidence to show dissimilarities of work performed, or working conditions, where there are local comparisons which can or should be made, the Commission of Industrial Relations cannot disregard them and create an array which is not reflective of the local labor market. The use of the "key job" classification system in situations involving a large number of employee classifications is approved. *AFSCME Local No. 2088 v. County of Douglas*, 208 Neb. 511, 304 N.W.2d 368 (1981).

Determinations made as to the acceptance and rejection of proposed "comparables" were within the expertise of the commission, were made after consideration and comparison of the evidence, and were arrived at by methods in accord with the requirements of this section, and are affirmed. *Fraternal Order of Police v. County of Adams*, 205 Neb. 682, 289 N.W.2d 535 (1980).

Prevalent wage rates for firemen must be determined by comparison with wages paid for comparable services in similar labor markets, determined upon the factors in this section, and adjusted for economic dissimilarities shown to exist with the compared markets. *Lincoln Fire Fighters Assn. v. City of Lincoln*, 198 Neb. 174, 252 N.W.2d 607 (1977).

In establishing wages, the Court of Industrial Relations must consider overall compensation, including fringe benefits, and it may compare with wages in similar labor markets. *Omaha Assn. of Firefighters v. City of Omaha*, 194 Neb. 436, 231 N.W.2d 710 (1975).

In selecting school districts for purpose of comparison, the ultimate question is whether those selected are sufficiently similar to the subject district and in establishing wage rates the entire situation, including fringe benefits, should be considered. *Crete Education Assn. v. School Dist. of Crete*, 193 Neb. 245, 226 N.W.2d 752 (1975).

3. Miscellaneous

Act establishing Court of Industrial Relations does not violate any constitutional provision and the standards for its guidance are adequate. *Orleans Education Assn. v. School Dist. of Orleans*, 193 Neb. 675, 229 N.W.2d 172 (1975).

This section lists the factors that the Court of Industrial Relations should consider in establishing wage scales, hours of labor, and conditions of employment. *International Brotherhood of Electrical Workers v. City of Hastings*, 179 Neb. 455, 138 N.W.2d 822 (1965).

48-818.01 School districts, educational service units, and community colleges; collective bargaining; timelines; procedure; resolution officer; powers; duties; action filed with commission; when; collective-bargaining agreement; contents.

(1) The Legislature finds that it is in the public's interest that collective bargaining involving school districts, educational service units, and community colleges and their certificated and instructional employees commence and conclude in a timely fashion consistent with school district budgeting and financing requirements. To that end, the timelines in this section shall apply when the public employer is a school district, educational service unit, or community college.

(2) On or before September 1 of the year preceding the contract year in question, the certificated and instructional employees' collective-bargaining agent shall request recognition as bargaining agent. The governing board shall respond to such request not later than the following October 1. A request for recognition need not be filed if the certificated and instructional employees' bargaining agent has been certified by the commission as the exclusive collective-bargaining agent. On or before November 1 of the year preceding the contract year in question, negotiations shall begin. There shall be no fewer than four negotiations meetings between the certificated and instructional employees' collective-bargaining agent and the governing board's bargaining agent. Either party may seek a bargaining order pursuant to subsection (1) of section 48-816 at any stage in the negotiations. If an agreement is not reached on or before the following February 8, the parties shall submit to mandatory mediation or factfinding as ordered by the commission pursuant to sections 48-811

and 48-816 unless the parties mutually agree in writing to forgo mandatory mediation or factfinding.

(3)(a) The mediator or factfinder as ordered by the commission under subsection (2) of this section shall be a resolution officer. The commission shall provide the parties with the names of five individuals qualified to serve as the resolution officer. If the parties cannot agree on an individual, each party shall alternately strike names. The remaining individual shall serve as the resolution officer.

(b) The resolution officer may:

(i) Determine whether the issues are ready for adjudication;

(ii) Identify for resolution terms and conditions of employment that are in dispute and which were negotiated in good faith but upon which no agreement was reached;

(iii) Accept stipulations;

(iv) Schedule hearings;

(v) Prescribe rules of conduct for conferences;

(vi) Order additional mediation if necessary;

(vii) Take any other action which may aid in resolution of the industrial dispute; and

(viii) Consult with a party ex parte only with the concurrence of all parties.

(c) The resolution officer shall choose the most reasonable final offer on each issue in dispute. In making such choice, he or she shall consider factors relevant to collective bargaining between public employers and public employees, including comparable rates of pay and conditions of employment as described in subsection (1) of section 48-818. The resolution officer shall not apply strict rules of evidence. Persons who are not attorneys may present cases to the resolution officer.

(d) If either party to a resolution officer proceeding is dissatisfied with the resolution officer's decision, such party shall have the right to file an action with the commission seeking a determination of terms and conditions of employment pursuant to subsection (1) of section 48-818. Such action shall not constitute an appeal of the resolution officer's decision, but rather shall be heard by the commission as an action brought pursuant to subsection (1) of section 48-818. The commission shall resolve, pursuant to the mandates of such section, all of the issues identified by either party and which were recognized by the resolution officer as an industrial dispute. If parties have not filed with the commission pursuant to subsection (6) of this section, the decision of the resolution officer shall be deemed final and binding.

(4) For purposes of this section, issue means broad subjects of negotiation which are presented to the resolution officer pursuant to this section. All aspects of wages are a single issue, all aspects of insurance are a single issue, and all other subjects of negotiations classified in broad categories are single issues.

(5) On or before March 25 of the year preceding the contract year in question or within twenty-five days after the certification of the amounts to be distributed to each local system and each school district pursuant to the Tax Equity and Educational Opportunities Support Act as provided in section 79-1022 for the

contract year in question, whichever occurs last in time, negotiations, mediation, and factfinding shall end.

(6) If an agreement for the contract year in question has not been achieved on or before the date for negotiation, mediation, or factfinding to end in subsection (5) of this section, either party may, within fourteen days after such date, file a petition with the commission pursuant to section 48-811 and subsection (1) of section 48-818 to resolve the industrial dispute for the contract year in question. The commission shall render a decision on such industrial dispute on or before September 15 of the contract year in question.

(7) Any existing collective-bargaining agreement will continue in full force and effect until superseded by further agreement of the parties or by an order of the commission. The parties may continue to negotiate unresolved issues by mutual agreement while the matter is pending with the commission.

(8) All collective-bargaining agreements shall be written and executed by representatives of the governing board and representatives of the certificated and instructional employees' bargaining unit. The agreement shall contain at a minimum the following:

(a) A salary schedule or objective method of determining salaries;

(b) A description of benefits being provided or agreed upon including a specific level of coverage provided in any group insurance plan, a dollar amount, or percentage of premiums to be paid, and by whom; and

(c) A provision that the existing agreement will continue until replaced by a successor agreement or as amended by a final order of the commission.

When establishing wage rates pursuant to subsection (1) of section 48-818 for a school district, educational service unit, or community college with their certificated and instructional employees, the commission shall determine whether the total compensation of the members of the bargaining unit or classification falls within a ninety-eight percent to one hundred two percent range of the array's midpoint. If the total compensation falls within the ninety-eight percent to one hundred two percent range, the commission shall order no change in wage rates. If the total compensation is less than ninety-eight percent

of the midpoint, the commission shall enter an order increasing wage rates to ninety-eight percent of the midpoint. If the total compensation is more than one hundred two percent of the midpoint, the commission shall enter an order decreasing wage rates to one hundred two percent of the midpoint. If the total compensation is more than one hundred seven percent of the midpoint, the commission shall enter an order reducing wage rates to one hundred two percent of the midpoint in three equal annual reductions. If the total compensation is less than ninety-three percent of the midpoint, the commission shall enter an order increasing wage rates to ninety-eight percent of the midpoint in three equal annual increases. If the commission finds that the year in dispute occurred during a time of recession, the applicable range will be ninety-five percent to one hundred two percent. For purposes of this section, recession occurrence means the two nearest quarters in time, excluding the immediately preceding quarter, to the effective date of the contract term in which the sum of the net state sales and use tax, individual income tax, and corporate income tax receipts are less than the same quarters for the prior year. In an appeal from an order of the Commission of Industrial Relations regarding prohibited practices under this section, concerning a factual finding, the court will affirm that finding if, considering the whole record, a trier of fact could reasonably conclude that the finding is supported by a preponderance of the competent evidence. The court will consider that fact that the commission, sitting as the trier of fact, saw and heard the witnesses and observed their demeanor while testifying and will give weight to the commission’s judgment as to credibility. *Nebraska Public Employees Local Union 251 v. 48-825 Labor negotiations; prohibited practices; complaints; procedure.

(1) A proceeding against a party alleging a violation of section 48-824 is commenced by filing a complaint with the commission within one hundred eighty days after the alleged violation thereby causing a copy of the complaint to be served upon the accused party. The accused party has ten days within which to file a written answer to the complaint. If the commission determines that the complaint has no basis in fact, the commission may dismiss the complaint. If the complaint has a basis in fact, the commission shall set a time for hearing. The parties may be represented by counsel, summon witnesses, and request the commission to subpoena witnesses on the requester’s behalf.

(2) The commission shall file its findings of fact and conclusions of law. If the commission finds that the party accused has committed a prohibited practice, the commission, within thirty days after its decision, shall order an appropriate remedy. Any party may petition the district court for injunctive relief pursuant to the rules of civil procedure.

(3) Any party aggrieved by any decision or order of the commission may, within thirty days after the date such decision or order is filed, appeal to the Court of Appeals.

(4) Any order or decision of the commission may be modified, reversed, or set aside by the appellate court on one or more of the following grounds and no other:

- (a) If the commission acts without or in excess of its powers;
- (b) If the order was procured by fraud or is contrary to law;
- (c) If the facts found by the commission do not support the order; and
- (d) If the order is not supported by a preponderance of the competent evidence on the record considered as a whole.

48-838 Collective bargaining; questions of representation; elections; non-member employee duty to reimburse; when.

(1) The commission shall determine questions of representation for purposes of collective bargaining for and on behalf of public employees and shall make rules and regulations for the conduct of elections to determine the exclusive collective-bargaining agent for public employees, except that in no event shall a

contract between a public employer and an exclusive collective-bargaining agent act as a bar for more than three years to any other party seeking to represent public employees, nor shall any contract bar for more than three years a petition by public employees seeking an election to revoke the authority of an agent to represent them. Except as provided in the State Employees Collective Bargaining Act, the commission shall certify the exclusive collective-bargaining agent for employees affected by the Industrial Relations Act following an election by secret ballot, which election shall be conducted according to rules and regulations established by the commission.

(2) The election shall be conducted by one member of the commission who shall be designated to act in such capacity by the presiding officer of the commission, or the commission may appoint the clerk of the district court of the county in which the principal office of the public employer is located to conduct the election in accordance with the rules and regulations established by the commission. Except as provided in the State Employees Collective Bargaining Act, the commission shall also determine the appropriate unit for bargaining and for voting in the election, and in making such determination, the commission shall consider established bargaining units and established policies of the public employer. It shall be presumed, in the case of governmental subdivisions such as municipalities, counties, power districts, or utility districts with no previous history of collective bargaining, that units of public employees of less than departmental size shall not be appropriate.

(3) Except as provided in the State Employees Collective Bargaining Act, the commission shall not order an election until it has determined that at least thirty percent of the employees in an appropriate unit have requested in writing that the commission hold such an election. Such request in writing by an employee may be in any form in which an employee specifically either requests an election or authorizes the employee organization to represent him or her in bargaining, or otherwise evidences a desire that an election be conducted. Such request of an employee shall not become a matter of public record. No election shall be ordered in one unit more than once a year.

(4) Except as provided in the State Employees Collective Bargaining Act, the commission shall only certify an exclusive collective-bargaining agent if a majority of the employees voting in the election vote for the agent. A certified exclusive collective-bargaining agent shall represent all employees in the appropriate unit with respect to wages, hours, and conditions of employment, except that such right of exclusive recognition shall not preclude any employee, regardless of whether or not he or she is a member of a labor organization, from bringing matters to the attention of his or her superior or other appropriate officials.

Any employee may choose his or her own representative in any grievance or legal action regardless of whether or not an exclusive collective-bargaining agent has been certified. If an employee who is not a member of the labor organization chooses to have legal representation from the labor organization in any grievance or legal action, such employee shall reimburse the labor organization for his or her pro rata share of the actual legal fees and court costs incurred by the labor organization in representing the employee in such grievance or legal action.

The certification of an exclusive collective-bargaining agent shall not preclude any public employer from consulting with lawful religious, social, fraternal

nal, or other similar associations on general matters affecting public employees so long as such contracts do not assume the character of formal negotiations in regard to wages, hours, and conditions of employment. Such consultations shall not alter any collective-bargaining agreement which may be in effect.

48-901 Public policy.

The public policy of the state as to employment relations in the furtherance of which sections 48-901 to 48-912 are passed is declared to be as follows:

(1) It recognizes that there are three major interests involved, namely: That of the public, the employee, and the employer. These three interests are to a considerable extent interrelated. It is the policy of the state to protect and promote each of these interests with due regard to the situation and to the rights of the others.

(2) Industrial peace, regular and adequate income for the employee, and uninterrupted production of goods and services are promotive of all of these interests. They are largely dependent upon the maintenance of fair, friendly and mutually satisfactory employment relations and the availability of suitable machinery for the peaceful adjustment of whatever controversies may arise. It is recognized that certain employers, including farmers and farmer cooperatives, in addition to their general employer problems, face special problems arising from perishable commodities and seasonal production which require adequate consideration. It is also recognized that whatever may be the rights of disputants with respect to each other in any controversy regarding employment relations, they should not be permitted, in the conduct of their controversy, to intrude directly into the primary rights of third parties to earn a livelihood, transact business and engage in the ordinary affairs of life by any lawful means and free from molestation, interference, restraint or coercion.

(3) Negotiation of terms and conditions of work should result from voluntary agreement between employer and employee. For the purpose of such negotiation an employee has the right, if he desires, to associate with others in organizing and bargaining collectively through representatives of his own choosing, without intimidation or coercion from any source.

(4) It is the policy of the state, in order to preserve and promote the interests of the public, the employee, and the employer alike, to establish standards of

fair conduct in employment relations and to provide a convenient and expeditious method through the courts by which these interests may have their respective rights and obligations adjudicated. While limiting individual and group rights of aggression and defense, the state substitutes processes of justice for the more primitive methods of trial by combat.

48-1001 Act, how cited; discrimination in employment because of age; policy; declaration of purpose.

(1) Sections 48-1001 to 48-1010 shall be known and may be cited as the Age Discrimination in Employment Act.

(2)(a) The Legislature hereby finds that the practice of discriminating in employment against properly qualified persons because of their age is contrary to American principles of liberty and equality of opportunity, is incompatible with the Constitution, deprives the state of the fullest utilization of its capacities for production, and endangers the general welfare.

(b) Hiring bias against workers forty years or more of age deprives the state of its most important resource of experienced employees, adds to the number of

persons receiving public assistance, and deprives older people of the dignity and status of self-support.

(c) The right to employment otherwise lawful without discrimination because of age, where the reasonable demands of the position do not require such an age distinction, is hereby recognized as and declared to be a right of all the people of the state which shall be protected as provided in the act.

(d) It is hereby declared to be the policy of the state to protect the right recognized and declared in subdivision (2)(c) of this section and to eliminate all such discrimination to the fullest extent permitted. The Age Discrimination in Employment Act shall be construed to effectuate such policy.

In an age discrimination suit brought under the Act Prohibiting Unjust Discrimination in Employment Because of Age, the jury is not to be instructed on the elements which constitute a submissible case. Although the ultimate burden of persuasion by a preponderance of the evidence in an age discrimination action at all times remains with plaintiff, the method of proof is for plaintiff to prove a prima facie case; if plaintiff succeeds in proving a prima facie case, defendant has the burden of articulating some legitimate, nondiscriminatory reason for its action. Should defendant succeed in so doing, plaintiff must establish by a preponderance of the evidence that the legitimate reasons offered by defendant were not its true reasons, but a pretext for discrimination. *Humphrey v. Nebraska Public Power Dist.*, 243 Neb. 872, 503 N.W.2d 211 (1993).

Persons seeking relief under this section must allege a violation by an employer of 25 or more persons. *Steier v. Crosier Fathers of Hastings*, 242 Neb. 16, 492 N.W.2d 870 (1992).

The federal practice for cases arising under the federal Age Discrimination in Employment Act of 1967, 29 U.S.C. sec. 621 et seq. (1982), may be instructive as to cases arising under the subject act. *Allen v. AT&T Technologies*, 228 Neb. 503, 423 N.W.2d 424 (1988).

The state, through its Legislature, has acted to prohibit unjust discrimination in employment because of age. *Midwest Employers Council, Inc. v. City of Omaha*, 177 Neb. 877, 131 N.W.2d 609 (1964).

48-1002 Terms, defined.

For purposes of the Age Discrimination in Employment Act:

(1) Person includes one or more individuals, partnerships, limited liability companies, associations, labor organizations, corporations, business trusts, legal representatives, or any organized group of persons;

(2) Employer means any person having in his or her employ twenty or more employees for each working day in each of twenty or more calendar weeks in the current or preceding calendar year and includes the State of Nebraska, governmental agencies, and political subdivisions, regardless of the number of employees, any person acting for or in the interest of an employer, directly or indirectly, and any party whose business is financed in whole or in part under the Nebraska Investment Finance Authority Act, but such term does not include (a) the United States, (b) a corporation wholly owned by the government of the United States, or (c) an Indian tribe;

(3) Labor organization means any organization of employees which exists for the purpose, in whole or in part, of collective bargaining or of dealing with employers concerning grievances, terms, or conditions of employment, or for other mutual aid or protection in connection with employment;

(4) Employee means an individual employed by any employer; and

(5) Employment agency means any person regularly undertaking with or without compensation to procure employees for an employer or to procure for employees opportunities to work for an employer and includes an agent of such a person, but does not include an agency of the United States, except that such

term does include the United States Employment Service and the system of state and local employment services receiving federal assistance.

BFM Liquor Mgmt.*, 264 Neb. 56, 645 N.W.2d 791 (2002).

48-1003 Limitation on prohibitions; practices not prevented or precluded.

(1) The prohibitions of the Age Discrimination in Employment Act shall be limited to the employment of individuals who are forty years or more of age.

(2) Nothing contained in the act shall be construed as making it unlawful for an employer, employment agency, or labor organization (a) to take action otherwise prohibited under the act when age is a bona fide occupational qualification reasonably necessary to the normal operation of the particular business, or when the differentiation is based on reasonable factors other than age, such as physical conditions; or (b) to discharge or otherwise discipline an employee for good cause.

48-1004 Unlawful employment practices; enumerated.

(1) It shall be an unlawful employment practice for an employer:

(a) To refuse to hire, to discharge, or otherwise to discriminate against any individual with respect to the employee's terms, conditions, or privileges of employment, otherwise lawful, because of such individual's age, when the reasonable demands of the position do not require such an age distinction; or

(b) To willfully utilize in the hiring or recruitment of individuals for employment otherwise lawful, any employment agency, placement service, training school or center, labor organization, or any other source which so discriminates against individuals because of their age.

(2) It shall be an unlawful employment practice for any labor organization to so discriminate against any individual or to limit, segregate, or classify its membership in any way which would deprive or tend to deprive an individual of otherwise lawful employment opportunities, or would limit such employment opportunities or otherwise adversely affect his or her status as an employee or would affect adversely his or her wages, hours, or employment.

(3) It shall be an unlawful employment practice for an employment agency to fail or refuse to refer for employment or otherwise to discriminate against any individual because of such individual's age or to classify or refer for employment any individual on the basis of his or her age.

(4) It shall be an unlawful employment practice for any employer, employment agency, or labor organization to discharge, expel, or otherwise discriminate against any person because he or she opposed any unlawful employment practice specified in the Age Discrimination in Employment Act or has filed a charge or suit, testified, participated, or assisted in any proceeding under the act.

1. Ultimate issue
2. Miscellaneous

1. Ultimate issue

Although the burden of production shifts between the plaintiff and the employer, the plaintiff retains the ultimate burden of persuasion, and the ultimate question is discrimination or retaliation *vel non*. *Oldfield v. Nebraska Machinery Co.*, 296 Neb. 469, 894 N.W.2d 278 (2017).

The ultimate issue in an age discrimination case is whether age was a determining factor in the employer's decision to take the adverse employment action. *Oldfield v. Nebraska Machinery Co.*, 296 Neb. 469, 894 N.W.2d 278 (2017).

To survive summary judgment in a discrimination case, the nonmoving party must do more than simply create a factual dispute as to the issue of pretext; he or she must offer sufficient evidence for a reasonable trier of fact to infer discrimination. *Oldfield v. Nebraska Machinery Co.*, 296 Neb. 469, 894 N.W.2d 278 (2017).

Once an age discrimination case has been fully tried on the merits, the focus is on the ultimate question of whether the employer intentionally discriminated against the employee and not on the adequacy of a party's showing at any particular stage of the trial. Although an employer's proffered reason for discharging an employee may not be truthful, that in and of itself does not prove a pretext; the pretext must be shown to be a pretext for discrimination. *Synacek v. Omaha Cold Storage*, 247 Neb. 244, 526 N.W.2d 91 (1995).

2. Miscellaneous

One isolated comment about retirement is not enough to demonstrate pretext for purposes of age discrimination. *Oldfield v. Nebraska Machinery Co.*, 296 Neb. 469, 894 N.W.2d 278 (2017).

Retirement inquiries can sometimes be so unnecessary and excessive as to constitute evidence of discriminatory harassment. *Oldfield v. Nebraska Machinery Co.*, 296 Neb. 469, 894 N.W.2d 278 (2017).

The *McDonnell Douglas Corp. v. Green*, 411 U.S. 792, 93 S. Ct. 1817, 36 L. Ed. 2d 668 (1973), framework is a procedural device of order of proof and production, designed to force an employer to reveal information that is available only to the employer, i.e., any unstated reasons for the adverse employment action, as well as any discretionary factors underlying its decision. *Oldfield v. Nebraska Machinery Co.*, 296 Neb. 469, 894 N.W.2d 278 (2017).

After the plaintiff proves a prima facie case of age discrimination in a suit brought under the disparate impact theory, the

employer must show the employment practice is related to job performance or justified by job necessity. Although intent is irrelevant in a disparate impact theory, the plaintiff may then rebut the defendant's reason of business necessity by showing that an alternative practice lacking a discriminatory effect would satisfy the employer's legitimate interests. *Allen v. AT&T Technologies*, 228 Neb. 503, 423 N.W.2d 424 (1988).

Although the ultimate burden of persuasion by a preponderance of the evidence at all times remains with the plaintiff, the method of proof is for the plaintiff to prove a prima facie case; if the plaintiff succeeds in so doing, the defendant has the burden of articulating some legitimate, nondiscriminatory reason for its action. Should the defendant succeed in so doing, the plaintiff must establish by a preponderance of the evidence that the legitimate reasons offered by the defendant were a pretext for discrimination. *Allen v. AT&T Technologies*, 228 Neb. 503, 423 N.W.2d 424 (1988).

Following the lead of federal courts, a plaintiff may show pretext in an age discrimination case brought under the disparate treatment theory by showing either that the employment decision was motivated by a discriminatory reason or by showing the employer's stated reason is not worthy of credence. *Allen v. AT&T Technologies*, 228 Neb. 503, 423 N.W.2d 424 (1988).

Following the lead of the federal courts, a plaintiff may establish a prima facie case of age discrimination by virtue of disparate treatment by showing that (1) she or he was in the protected age category, (2) she or he met the applicable qualifications, (3) despite those qualifications she or he was not promoted, and (4) other employees of similar qualifications, who were not members of a protected group, were promoted at the time plaintiff's request for a promotion was denied. *Allen v. AT&T Technologies*, 228 Neb. 503, 423 N.W.2d 424 (1988).

In order to prove a prima facie case of retaliation, a plaintiff must show she or he was not promoted following protected activities of which the employer was aware. *Allen v. AT&T Technologies*, 228 Neb. 503, 423 N.W.2d 424 (1988).

To prove a prima facie case of disparate impact in an age discrimination suit under the federal Age Discrimination in Employment Act of 1967, 29 U.S.C. sec. 621 et seq. (1982), the plaintiff must show (1) an outwardly neutral employment practice, and (2) a significantly adverse or disproportionate impact on the protected age group produced by the facially neutral employment practice. *Allen v. AT&T Technologies*, 228 Neb. 503, 423 N.W.2d 424 (1988).

48-1005 Violations; penalty.

Any person who violates any provision of the Age Discrimination in Employment Act or who forcibly resists, opposes, impedes, intimidates, or interferes with the Equal Opportunity Commission or any of its duly authorized representatives while engaged in its, his, or her duties under the act shall be guilty of a Class III misdemeanor. No person shall be imprisoned under this section except for a second or subsequent conviction.

48-1006 Repealed. Laws 2007, LB 265, § 40.**48-1007 Equal Opportunity Commission; enforcement; powers.**

The Age Discrimination in Employment Act shall be administered by the Equal Opportunity Commission as established by section 48-1116. The commission shall have the power (1) to make delegations, to appoint such agents and employees and to pay for technical assistance, including legal assistance, on a fee-for-service basis, as it deems necessary to assist it in the performance of its functions under the act, (2) to cooperate with other federal, state, and local agencies and to cooperate with and furnish technical assistance to employers, labor organizations, and employment agencies to aid in effectuating the purposes of the act, (3) to make investigations, to issue or cause to be served interrogatories, and to require keeping of records necessary or appropriate for the administration of the act, and (4) to bring civil action in its name in any court of competent jurisdiction against any person deemed to be violating the act to compel compliance with the act or to enjoin any such person from continuing any practice that is deemed to be in violation of the act. The commission may seek judicial enforcement through the office of the Attorney General to require the answering of interrogatories and to gain access to evidence or records relevant to the charge under investigation.

48-1008 Alleged violation; aggrieved person; complaint; investigation; civil action, when; filing, effect; written charge; limitation on action; respondent; file written response; commission; powers.

(1) Any person aggrieved by a suspected violation of the Age Discrimination in Employment Act shall file with the Equal Opportunity Commission a formal complaint in such manner and form prescribed by the commission. The commission shall make an investigation and may initiate an action to enforce the rights of such employee under the provisions of the act. If the commission does not initiate an action within sixty days after receipt of a complaint, the person aggrieved may bring a civil action in any court of competent jurisdiction for such legal or equitable relief as will effectuate the purposes of the act. Filing of an action by either the commission or the person aggrieved shall be a bar to the filing of the action by the other.

(2) A written charge alleging violation of the Age Discrimination in Employment Act shall be filed within three hundred days after the occurrence of the alleged unlawful employment practice, and notice of the charge, including a statement of the date, place, and circumstances of the alleged unlawful employment practice, shall be served upon the person against whom such charge is made within ten days thereafter.

(3) A respondent shall file with the commission a written response to the written charge of violation within thirty days after service upon the respondent. Failure to file a written response within thirty days, except for good cause shown, shall result in a mandatory reasonable cause finding against the respondent by the commission. Failure by any complainant to cooperate with the commission, its investigators, or its staff, except for good cause shown, shall result in dismissal of the complaint by the commission.

(4) In connection with any investigation of a charge filed under this section, the commission or its authorized agents may, at any time after a charge is filed, issue or cause to be served interrogatories and shall have at all reasonable times access to, for the purposes of examination, and the right to copy any evidence or records of any person being investigated or proceeded against that relate to unlawful employment practices covered by the act and are relevant to the charge under investigation. The commission may seek preparation of and judicial enforcement of any legal process or interrogatories through the office of the Attorney General.

The thirty-day period herein is a condition precedent to the ripening of the cause of action of an aggrieved employee claiming age discrimination in employment. Equal Opportunity Commission v. Weyerhaeuser Co., 198 Neb. 104, 251 N.W.2d 730 (1977).

48-1009 Court; jurisdiction; relief.

In any action brought to enforce the Age Discrimination in Employment Act, the court shall have jurisdiction to grant such legal or equitable relief as the court deems appropriate to effectuate the purposes of the act, including judgments compelling employment, reinstatement, or promotion, or enforcing liability for amounts deemed to be unpaid minimum wages or unpaid overtime compensation.

The proper procedure under this section is for the trial court to submit the damages issue to the jury, if one is empaneled, and reserve ruling on a plaintiff's requested equitable relief until after the jury renders a verdict. A trial court should then enter an order on the jury verdict and reserve entering judgment until after the court has considered any requests for equitable relief. Billingsley v. BFM Liquor Mgmt., Inc., 259 Neb. 992, 613 N.W.2d 478 (2000). Age discrimination cases that seek mandatory injunctions as well as damages are equitable in nature. A jury empaneled in an equity case is advisory only. Synacek v. Omaha Cold Storage, 247 Neb. 244, 526 N.W.2d 91 (1995).

48-1010 Suits against governmental bodies; authorized.

The state, governmental agencies, and political subdivisions may be sued upon claims arising under the Age Discrimination in Employment Act in the same manner as provided by such act for suits against other employers.

48-1101 Purpose.

It is the policy of this state to foster the employment of all employable persons in the state on the basis of merit regardless of their race, color, religion, sex, disability, or national origin and to safeguard their right to obtain and hold employment without discrimination because of their race, color, religion, sex, disability, or national origin. Denying equal opportunity for employment because of race, color, religion, sex, disability, or national origin is contrary to the principles of freedom and is a burden on the objectives of the public policy of this state. The policy of this state does not require any person to employ an applicant for employment because of his or her race, color, religion, sex, disability, or national origin, and the policy of this state does not require any employer, employment agency, labor organization, or joint labor-management committee to grant preferential treatment to any individual or to any group because of race, color, religion, sex, disability, or national origin.

It is the public policy of this state that all people in Nebraska, both with and without disabilities, shall have the right and opportunity to enjoy the benefits of living, working, and recreating within this state. It is the intent of the Legislature that state and local governments, Nebraska businesses, Nebraska labor organizations, and Nebraskans with disabilities understand their rights and responsibilities under the law regarding employment discrimination and the prevention of discrimination on the basis of disability.

2. Miscellaneous

1. Burden-shifting framework

The three-part burden-shifting framework from *McDonnell Douglas Corp. v. Green*, 411 U.S. 792, 93 S. Ct. 1817, 36 L. Ed. 2d 668 (1973), is not the exclusive method of proving disparate treatment and was never intended to be rigid, mechanized, or ritualistic. *Hartley v. Metropolitan Util. Dist.*, 294 Neb. 870, 885 N.W.2d 675 (2016).

In a discrimination suit brought under the provisions of the Nebraska Fair Employment Practice Act, the evidence presented on the issue of discrimination against a disabled person shall be as follows: (1) The complainant has the burden of proving a prima facie case of discrimination; (2) if the complainant succeeds in proving that prima facie case, the burden shifts to the respondent to articulate some legitimate, nondiscriminatory reason for the employee's rejection or discharge from employment; and (3) should the respondent carry the burden, the complainant must then have an opportunity to prove by a preponderance of the evidence that the legitimate reasons offered by the respondent were not its true reasons, but were a pretext for discrimination. *IBP, Inc. v. Sands*, 252 Neb. 573, 563 N.W.2d 353 (1997).

2. Miscellaneous

A plaintiff alleging he or she was subjected to retaliatory action based upon opposing or refusing to participate in a practice or action which was unlawful only has to show a reasonable, good faith belief such practice or action was unlawful. *Haffke v. Signal 88*, 306 Neb. 625, 947 N.W.2d 103 (2020).

In order to show retaliation under the Nebraska Fair Employment Practice Act, a plaintiff must establish (1) he or she engaged in protected conduct, (2) he or she was subjected to an adverse employment action, and (3) there was a causal connection between the protected conduct and the adverse action. *Haffke v. Signal 88*, 306 Neb. 625, 947 N.W.2d 103 (2020).

A prima facie case of discrimination may be proved by showing (1) that the complainant is a member of a protected class within the meaning of the Nebraska Fair Employment Practice

Act; (2) that the complainant is qualified for the position of employment sought; (3) that the complainant applied for and was rejected or discharged from that position; and (4) that after the complainant was rejected or discharged, the job remained open. *IBP, Inc. v. Sands*, 252 Neb. 573, 563 N.W.2d 353 (1997).

Persons seeking relief under this section must allege a violation by an employer of 15 or more persons. *Steier v. Crosier Fathers of Hastings*, 242 Neb. 16, 492 N.W.2d 870 (1992).

A female is a member of a protected class. *Lincoln County Sheriff's Office v. Horne*, 228 Neb. 473, 423 N.W.2d 412 (1988).

"Disability" designates a protected class regarding employment in Nebraska. *Father Flanagan's Boys' Home v. Goerke*, 224 Neb. 731, 401 N.W.2d 461 (1987).

The purpose of the Fair Employment Practice Act is to establish a policy by the state to foster the employment of employable persons; the state policy does not require an employer to grant preferential treatment to any individual or group because of race, color, religion, sex, disability, or national origin. *Nebraska P.P. Dist. v. Lacy*, 215 Neb. 462, 339 N.W.2d 286 (1983).

These sections do not mandate the employment of firemen with visual defects which would affect their ability to engage in that occupation. *McCrea v. Cunningham*, 202 Neb. 638, 277 N.W.2d 52 (1979).

One hundred eighty day statute of limitations under Fair Employment Practices Act may not be applied in federal civil rights action. *Chambers v. Omaha Public School Dist.*, 536 F.2d 222 (8th Cir. 1976).

Petition for civil rights relief alleging employment discrimination dismissed where requisite prior exhaustion of administrative remedies disregarded. *Thorson v. City of Omaha*, 445 F.Supp. 268 (D. Neb. 1978).

Under subdivision (9) of this section, “major life activities” are those activities that are of central importance to daily life. *Marshall v. EyeCare Specialties*, 293 Neb. 91, 876 N.W.2d 372 (2016).

Under subdivision (9) of this section, to be substantially limited in the major life activity of working, the plaintiff must show that he or she was significantly restricted in the ability to perform either a class of jobs or a broad range of jobs in various classes as compared to the average person having comparable training, skills, and abilities. *Marshall v. EyeCare Specialties*, 293 Neb. 91, 876 N.W.2d 372 (2016).

2. Drug use

Drug addiction is an impairment under subdivision (9) of this section, but it is not a disability unless it substantially limits a major life activity or is perceived by the employer to substantially limit a major life activity. *Marshall v. EyeCare Specialties*, 293 Neb. 91, 876 N.W.2d 372 (2016).

3. Miscellaneous

To show that an employer regarded an employee as disabled under subdivision (9)(c) of this section, the employee must demonstrate either that (1) despite having no impairment at all, the employer mistakenly believed that the employee had an impairment that substantially limited one or more major life activities, or (2) the employee had a nonlimiting impairment

that the employer mistakenly believed substantially limited one or more major life activities. *Marshall v. EyeCare Specialties*, 293 Neb. 91, 876 N.W.2d 372 (2016).

Krzyzanowski*, 4 Neb. App. 380, 543 N.W.2d 761 (1996).

It shall be an unlawful employment practice for an employer:

(1) To fail or refuse to hire, to discharge, or to harass any individual, or otherwise to discriminate against any individual with respect to compensation, terms, conditions, or privileges of employment, because of such individual's race, color, religion, sex, disability, marital status, or national origin; or

(2) To limit, advertise, solicit, segregate, or classify employees in any way which would deprive or tend to deprive any individual of employment opportunities or otherwise adversely affect such individual's status as an employee, because of such individual's race, color, religion, sex, disability, marital status, or national origin.

1. Burden-shifting framework

Although the burden of production shifts between the plaintiff and the employer, the plaintiff retains the ultimate burden of persuasion, and the ultimate question is discrimination or retaliation *vel non*. *Oldfield v. Nebraska Machinery Co.*, 296 Neb. 469, 894 N.W.2d 278 (2017).

The *McDonnell Douglas Corp. v. Green*, 411 U.S. 792, 93 S. Ct. 1817, 36 L. Ed. 2d 668 (1973), framework is a procedural device of order of proof and production, designed to force an employer to reveal information that is available only to the employer, i.e., any unstated reasons for the adverse employment action, as well as any discretionary factors underlying its decision. *Oldfield v. Nebraska Machinery Co.*, 296 Neb. 469, 894 N.W.2d 278 (2017).

To survive summary judgment in a discrimination case, the nonmoving party must do more than simply create a factual dispute as to the issue of pretext; he or she must offer sufficient evidence for a reasonable trier of fact to infer discrimination. *Oldfield v. Nebraska Machinery Co.*, 296 Neb. 469, 894 N.W.2d 278 (2017).

The procedure to be followed in presenting evidence relevant to a question about discrimination against a disabled person is: (1) The complainant has the burden of proving a *prima facie* case of discrimination; (2) the respondent then must articulate some legitimate, nondiscriminatory reason for the rejection or firing; and (3) the complainant must then have an opportunity to prove by a preponderance of the evidence that the legitimate reasons offered by the respondent were not its true reasons, but were a pretext for discrimination. *Father Flanagan's Boys' Home v. Goerke*, 224 Neb. 731, 401 N.W.2d 461 (1987).

2. Miscellaneous

Generally, a temporal connection between the protected conduct and the adverse employment action by itself is not enough to present a genuine factual issue on retaliation. *Oldfield v. Nebraska Machinery Co.*, 296 Neb. 469, 894 N.W.2d 278 (2017).

It is unlawful for an employer to discriminate against an individual because of a perceived disability. *Marshall v. EyeCare Specialties*, 291 Neb. 264, 865 N.W.2d 343 (2015).

A mere showing that one was not interviewed or hired for a position is insufficient to establish a violation of the Fair Employment Practice Act because in order to recover for a violation, complainant must prove by a preponderance of the evidence that complainant was refused hire on the basis of sex. Where there is no charge of a universal discriminatory practice, complainant must establish, by a preponderance of the evidence, an act done intentionally to discriminate. *Nebraska P.P. Dist. v. It is not a violation of this section to refuse to hire a woman to the position of a police patrolman when in each instance, there were better qualified male applicants available for the position, even if the male applicants with the higher test scores were added to the list after the score of the female applicant had placed her at the top of the list. *Snygg v. This section does not provide a private cause of action to a person claiming to be aggrieved by an employer's unlawful employment practice. Sections 48-1116 to 48-1120 do provide a comprehensive administrative remedy from which an appeal may be taken to state district court. *Miller v. Union Pacific R. Co.*, 539 F.Supp. 134 (D. 48-1105 Unlawful employment practice for employment agency.

It shall be an unlawful employment practice for an employment agency to fail or refuse to refer for employment, or otherwise to discriminate against, any individual because of race, color, religion, sex, disability, marital status, or national origin, or to classify or refer for employment any individual on the basis of race, color, religion, sex, disability, marital status, or national origin.

It shall be an unlawful employment practice for a labor organization:

(1) To exclude or to expel from its membership, or otherwise to discriminate against, any individual because of race, color, religion, sex, disability, marital status, or national origin;

(2) To limit, segregate, or classify its membership, or to classify or fail or refuse to refer for employment any individual, in any way which would deprive or tend to deprive any individual of employment opportunities, or would limit such employment opportunities or otherwise adversely affect such individual's status as an employee or as an applicant for employment, because of such individual's race, color, religion, sex, disability, marital status, or national origin; or

(3) To cause or attempt to cause an employer to discriminate against an individual in violation of this section.

It shall be an unlawful employment practice for any employer, labor organization, or joint labor-management committee controlling apprenticeship or other training or retraining, including on-the-job training programs to discriminate against any individual because of race, color, religion, sex, disability, marital status, or national origin in admission to, or employment in, any program established to provide apprenticeship or other training.

It shall be an unlawful employment practice for a covered entity to:

(1) Discriminate against a qualified individual with a disability because of the disability of such individual in regard to job application procedures, the hiring, advancement, or discharge of employees, employee compensation, job training, and other terms, conditions, and privileges of employment; or

Apart from an exception for summary judgments, in a discrimination action brought under the Nebraska Fair Employment Practice Act, a court evaluates the evidence under the three-part burden-shifting framework from *McDonnell Douglas Corp. v. Green*, 411 U.S. 792, 93 S. Ct. 1817, 36 L. Ed. 2d 668 (1973). Under that framework, (1) the plaintiff has the burden of proving a prima facie case of discrimination; (2) if the plaintiff proves a prima facie case, the burden shifts to the employer to articulate some legitimate, nondiscriminatory reason for the

adverse employment action; and (3) if the employer articulates a nondiscriminatory reason for its action, the employee maintains the burden of proving that the stated reason was pretextual. *Arens v. NEBCO, Inc.*, 291 Neb. 834, 870 N.W.2d 1 (2015).

The threshold fact of consequence in a disability discrimination action is whether the plaintiff is a qualified individual with a disability—i.e., one who can perform the essential functions of the job with or without reasonable accommodations. *Arens v. 48-1107.02 Qualified individual with a disability; individual who is pregnant, who has given birth, or who has a related medical condition; discrimination, defined.

(1) When referring to a qualified individual with a disability, discrimination shall include:

(a) Limiting, segregating, or classifying a job applicant or employee in a way that adversely affects the opportunities or status of the applicant or employee because of the disability of the applicant or employee;

(b) Participating in a contractual or other arrangement or relationship that has the effect of subjecting a qualified individual with a disability to discrimination in the application or employment process, including a relationship with an employment agency, a labor union, an organization providing fringe benefits to an employee of the covered entity, or an organization providing training and apprenticeship programs;

(c) Utilizing standards, criteria, or methods of administration (i) that have the effect of discrimination on the basis of disability or (ii) that perpetuate the discrimination against others who are subject to common administrative control;

(d) Excluding or otherwise denying equal jobs or benefits to a qualified individual with a disability because of the known disability of an individual with whom the qualified individual with a disability is known to have a relationship or association;

(e) Not making reasonable accommodations to the known physical or mental limitations of an otherwise qualified individual with a disability who is an applicant or employee unless such covered entity can demonstrate that the accommodation would impose an undue hardship on the operation of the business of the covered entity;

(f) Denying employment opportunities to a job applicant or employee who is otherwise a qualified individual with a disability if the denial is based upon the need of such covered entity to make reasonable accommodation to the physical or mental impairments of the employee or applicant;

(g) Using qualification standards, employment tests, or other selection criteria that screen out or tend to screen out an individual with a disability or a class of individuals with disabilities unless the standard, test, or other selection criteria, as used by the covered entity, is shown to be job-related for the position in question and is consistent with business necessity;

(h) Failing to select and administer tests concerning employment in the most effective manner to ensure that, when the test is administered to a job applicant

or employee who has a disability that impairs sensory, manual, or speaking skills, the test results accurately reflect the skills, aptitude, or whatever other factor of the applicant or employee that the test purports to measure rather than reflecting the impaired sensory, manual, or speaking skills of the employee or applicant except when such skills are the factors that the test purports to measure;

(i) Conducting a medical examination or making inquiries of a job applicant as to whether the applicant is an individual with a disability or as to the nature or severity of the disability, except that:

(i) A covered entity may make preemployment inquiries into the ability of an applicant to perform job-related functions;

(ii) A test to determine the illegal use of drugs shall not be considered a medical examination; and

(iii) A covered entity may require a medical examination after an offer of employment has been made to a job applicant and prior to the commencement of the employment duties of the applicant and may condition an offer of employment on the results of the examination if:

(A) All entering employees are subjected to such an examination regardless of disability;

(B) Information obtained regarding the medical condition or history of the applicant is collected and maintained on separate forms and in separate medical files and is treated as a confidential medical record, except that (I) supervisors and managers may be informed regarding necessary restrictions on the work or duties of the employee and necessary accommodations, (II) first-aid and safety personnel may be informed, when appropriate, if the disability might require emergency treatment, (III) government officials investigating compliance with the Nebraska Fair Employment Practice Act shall be provided relevant information on request, and (IV) information shall be made available in accordance with the Nebraska Workers' Compensation Act; and

(C) The results of the examination are used only in a manner not inconsistent with the Nebraska Fair Employment Practice Act; and

(j) Requiring a medical examination or making inquiries of an employee as to whether the employee is an individual with a disability or as to the nature or severity of the disability, unless the examination or inquiry is shown to be job-related and consistent with business necessity. A test to determine the illegal use of drugs shall not be considered a medical examination. A covered entity may conduct voluntary medical examinations, including voluntary medical histories, which are part of an employee health program available to employees at the worksite and may make inquiries into the ability of an employee to perform job-related functions if the information obtained regarding the medical condition or history of the employee is subject to the requirements in subdivisions (1)(i)(iii)(B) and (C) of this section.

(2) When referring to an individual who is pregnant, who has given birth, or who has a related medical condition, discrimination shall include:

(a) Limiting, segregating, or classifying a job applicant or employee in a way that adversely affects the opportunities or status of the applicant or employee because of the pregnancy, childbirth, or related medical conditions of the applicant or employee;

(b) Participating in a contractual or other arrangement or relationship that has the effect of subjecting an individual who is pregnant, who has given birth, or who has a related medical condition to discrimination in the application or employment process, including a relationship with an employment agency, a labor union, an organization providing fringe benefits to an employee of the covered entity, or an organization providing training and apprenticeship programs;

(c) Utilizing standards, criteria, or methods of administration (i) that have the effect of discrimination on the basis of pregnancy, childbirth, or related medical conditions or (ii) that perpetuate the discrimination against others who are subject to common administrative control;

(d) Not making reasonable accommodations to the known physical limitations of an individual who is pregnant, who has given birth, or who has a related medical condition and who is an applicant or employee unless such covered entity can demonstrate that the accommodation would impose an undue hardship on the operation of the business of the covered entity;

(e) Denying employment opportunities to a job applicant or employee who is pregnant, who has given birth, or who has a related medical condition if the denial is based upon the need of such covered entity to make reasonable accommodation to the physical limitations due to the pregnancy, childbirth, or related medical conditions of the employee or applicant;

(f) Using qualification standards, employment tests, or other selection criteria that screen out or tend to screen out an individual or a class of individuals who are pregnant, who have given birth, or who have a related medical condition unless the standard, test, or other selection criteria, as used by the covered entity, is shown to be job-related for the position in question and is consistent with business necessity;

(g) Conducting a medical examination or making inquiries of a job applicant as to whether the applicant is pregnant, has given birth, or has a related medical condition, except that:

(i) A covered entity may make preemployment inquiries into the ability of an applicant to perform job-related functions;

(ii) A test to determine the illegal use of drugs shall not be considered a medical examination; and

(iii) A covered entity may require a medical examination after an offer of employment has been made to a job applicant and prior to the commencement of the employment duties of the applicant and may condition an offer of employment on the results of the examination if:

(A) All entering employees are subjected to such an examination;

(B) Information obtained regarding the medical condition or history of the applicant is collected and maintained on separate forms and in separate medical files and is treated as a confidential medical record, except that (I) supervisors and managers may be informed regarding necessary restrictions on the work or duties of the employee and necessary accommodations, (II) first-aid and safety personnel may be informed, when appropriate, if the pregnancy, childbirth, or related medical conditions might require emergency treatment, (III) government officials investigating compliance with the Nebraska Fair Employment Practice Act shall be provided relevant information on request,

and (IV) information shall be made available in accordance with the Nebraska Workers' Compensation Act; and

(C) The results of the examination are used only in a manner not inconsistent with the Nebraska Fair Employment Practice Act;

(h) Requiring a medical examination or making inquiries of an employee as to whether the employee is pregnant, has given birth, or has a related medical condition unless the examination or inquiry is shown to be job-related and consistent with business necessity. A test to determine the illegal use of drugs shall not be considered a medical examination. A covered entity may conduct voluntary medical examinations, including voluntary medical histories, which are part of an employee health program available to employees at the worksite and may make inquiries into the ability of an employee to perform job-related functions if the information obtained regarding the medical condition or history of the employee is subject to the requirements in subdivisions (2)(g)(iii)(B) and (C) of this section;

(i) Requiring an employee to take leave under any leave law or policy of the covered entity if another reasonable accommodation can be provided to the known limitations related to the pregnancy, childbirth, or related medical conditions of the employee; and

(j) Taking adverse action against an employee in the terms, conditions, or privileges of employment for requesting or using a reasonable accommodation to the known limitations related to the pregnancy, childbirth, or related medical conditions of the employee.

A covered employer's failure to make reasonable accommodations for a qualified individual's known physical or mental limitations is discrimination, unless the employer demonstrates that accommodating the individual's limitations would impose an undue hardship on business operations. *Arens v. Former subdivision (9)(c) of this section applies to entrance medical examinations of applicants who have been offered employment, whereas former subsection (10) applies to medical examinations of employees. The latter is prohibited unless the employer shows that the examination is job-related and consistent with business necessity. *Arens v. NEBCO, Inc.*, 291 Neb. 834, 870 N.W.2d 1 (2015).

Psychological counseling is usually a medical examination under former subsection (10) of this section. *Arens v. NEBCO, Inc.*, 291 Neb. 834, 870 N.W.2d 1 (2015).

The court erred in excluding the testimony of an employee's expert that was relevant to establishing the employee's permanent disability, the employer's knowledge of his disability, and whether he had previously performed his job with accommodations that the employer had considered reasonable. *Arens v. NEBCO, Inc.*, 291 Neb. 834, 870 N.W.2d 1 (2015).

The threshold fact of consequence in a disability discrimination action is whether the plaintiff is a qualified individual with a disability—i.e., one who can perform the essential functions of the job with or without reasonable accommodations. *Arens v. NEBCO, Inc.*, 291 Neb. 834, 870 N.W.2d 1 (2015).

Under former subsection (10) of this section, an employer's doubts about an employee's ability to perform the essential functions of a job may be created by an employee's request for

accommodations, frequent absences, or request for leave because of his or her medical condition. Such doubts can also be raised by the employer's knowledge of an employee's behavior that poses a direct threat to the employee or others. *Arens v. NEBCO, Inc.*, 291 Neb. 834, 870 N.W.2d 1 (2015).

Under former subsection (10) of this section, to show a business necessity for requiring an employee to submit to a medical examination, an employer has the burden to show that (1) the business necessity is vital to the business; (2) it has a legitimate, nondiscriminatory reason to doubt the employee's ability to perform the essential functions of his or her duties; and (3) the examination is no broader than necessary. There must be significant evidence that could cause a reasonable person to inquire as to whether an employee is still capable of performing his job. An employee's behavior cannot be merely annoying or inefficient to justify an examination; rather, there must be genuine reason to doubt whether that employee can perform job-related functions. *Arens v. NEBCO, Inc.*, 291 Neb. 834, 870 N.W.2d 1 (2015).

Under former subsection (10) of this section, whether an employer requires similarly situated employees to submit to a medical examination is relevant to whether the employer considers such examinations a business necessity. But any comparison between employees must be made with an eye to the ultimate inquiry, i.e., the necessity of the examination of the plaintiff employee. An employer's disparate treatment of employees regarding medical examinations cannot override substantial evidence that the employer had good reason to doubt the employee's ability to perform the essential functions of the job. *Arens v. NEBCO, Inc.*, 291 Neb. 834, 870 N.W.2d 1 (2015).

48-1111 Different standards of compensation, conditions, or privileges of employment; lawful employment practices; effect of pregnancy and related medical conditions.

(1) Except as otherwise provided in the Nebraska Fair Employment Practice Act, it shall not be an unlawful employment practice for an employer to apply different standards of compensation, or different terms, conditions, or privileges of employment pursuant to a bona fide seniority or merit system or a system which measures earnings by quantity or quality of production or to employees who work in different locations, if such differences are not the result of an intention to discriminate because of race, color, religion, sex, disability, marital status, or national origin, nor shall it be an unlawful employment practice for an employer to give and to act upon the results of any professionally developed ability test if such test, its administration, or action upon the results is not designed, intended, or used to discriminate because of race, color, religion, sex, disability, marital status, or national origin.

It shall not be an unlawful employment practice for a covered entity to deny privileges of employment to an individual with a disability when the qualification standards, tests, or selection criteria that screen out or tend to screen out or otherwise deny a job or benefit to an individual with a disability:

(2) Except as otherwise provided in the Nebraska Fair Employment Practice Act, women affected by pregnancy, childbirth, or related medical conditions shall be treated the same for all employment-related purposes, including receipt of employee benefits, as other persons not so affected but similar in their ability or inability to work, and nothing in this section shall be interpreted to provide otherwise.

48-1113 Preferential treatment; when not required.

48-1114 Opposition to unlawful practice; participation in investigation; communication regarding employee wages, benefits, or other compensation; discrimination prohibited.

(1) It shall be an unlawful employment practice for an employer to discriminate against any of his or her employees or applicants for employment, for an employment agency to discriminate against any individual, or for a labor organization to discriminate against any member thereof or applicant for membership, because he or she (a) has opposed any practice made an unlawful employment practice by the Nebraska Fair Employment Practice Act, (b) has made a charge, testified, assisted, or participated in any manner in an investigation, proceeding, or hearing under the act, (c) has opposed any practice or refused to carry out any action unlawful under federal law or the laws of this state, or (d) has inquired about, discussed, or disclosed information regarding employee wages, benefits, or other compensation. This subdivision (d) shall not apply to instances in which an employee who has authorized access to the information regarding wages, benefits, or other compensation of other employees as a part of such employee's job functions discloses such information to a person who does not otherwise have authorized access to such information, unless such disclosure is in response to a charge or complaint or in furtherance of an investigation, proceeding, hearing, or other action, including an investigation conducted by the employer.

(2) Nothing in this subsection or subdivision (1)(d) of this section shall be contrary to applicable state or federal law or:

(b) Permit an employee, without the written consent of the employer, to disclose proprietary information, trade secret information, or information that is otherwise subject to a legal privilege or protected by law. For purposes of this subdivision, proprietary information does not include information regarding employee wages, benefits, or other compensation;

(c) Permit an employee to disclose information regarding wages, benefits, or other compensation of other employees to a competitor of the employer;

(d) Apply to employers which are exempt from the Nebraska Fair Employment Practice Act under section 48-1102;

(e) Permit an employee to discuss information regarding employee wages, benefits, or other compensation during working hours, as defined in existing workplace policies, or in violation of specific contractual obligations; or

(f) Permit an employee to disseminate information regarding employee wages, benefits, or other compensation to the general public. For purposes of this subdivision, general public does not include public officials, judicial officers, legislators, trade associations, or other reasonable third parties for the employee's mutual aid or protection.

A plaintiff must establish a prima facie case of retaliation under this section by showing (1) he or she engaged in protected conduct, (2) he or she was subjected to an adverse employment action, and (3) there was a causal connection between the protected conduct and the adverse action. *Knapp v. Ruser*, 297 Neb. 639, 901 N.W.2d 31 (2017).

The unlawful practice, the opposition to which is protected by subsection (3) of this section, is that of the employer and not that of fellow employees. *Wolfe v. Becton Dickinson & Co.*, 266 Neb. 53, 662 N.W.2d 599 (2003).

A violation of the provision of the Nebraska Fair Employment Practice Act prohibiting employers from discriminating against an employee who has opposed any practice or refused to carry out any action unlawful under federal or state law must include either the employee's opposition to an unlawful practice of the employer or the employee's refusal to honor an employer's demand that the employee do an unlawful act. *Bonn v. City of Omaha*, 19 Neb. App. 874, 814 N.W.2d 114 (2012).

The evil addressed by provision of the Nebraska Fair Employment Practice Act prohibiting employers from discriminating against an employee who has opposed any practice or refused to carry out any action unlawful under federal law or the laws of the state is the exploitation of the employer's power over the employee when used to coerce the employee to endorse, through participation or acquiescence, the unlawful acts of the employer. *Bonn v. City of Omaha*, 19 Neb. App. 874, 814 N.W.2d 114 (2012).

The Nebraska Fair Employment Practice Act makes it unlawful for an employer to discriminate against its employee on the basis of the employee's opposition to an unlawful practice. *Bonn v. City of Omaha*, 19 Neb. App. 874, 814 N.W.2d 114 (2012).

The provision of the Nebraska Fair Employment Practice Act prohibiting employers from discriminating against an employee who has opposed any practice or refused to carry out any action

unlawful under federal or state law and reasonable policy dictate that an employee's opposition to any unlawful act of the employer, whether or not the employer pressures the employee to actively join in the illegal activity, is protected under the act. *Bonn v. City of Omaha*, 19 Neb. App. 874, 814 N.W.2d 114 (2012).

The public safety auditor for the city did not oppose an unlawful employment practice or refuse to honor the city's demand that she do an unlawful act by publishing her report critical of the police department's practices regarding traffic stops of minorities, as required to support her retaliation claim under the Nebraska Fair Employment Practice Act against the city following her termination; the auditor's claim was based on her contention that she was fired for opposing unlawful practices of the city, but the unlawful practices that the auditor opposed were the alleged discriminatory tactics by some police officers against minority members of the public, rather than unlawful practices of the city. *Bonn v. City of Omaha*, 19 Neb. App. 874, 814 N.W.2d 114 (2012).

The term "practice," as used in the Nebraska Fair Employment Practice Act provision making it unlawful for an employer to discriminate against an employee because he has opposed any practice unlawful under federal or state law, refers to an unlawful practice of the employer, not unlawful or prohibited actions of coemployees. *Bonn v. City of Omaha*, 19 Neb. App. 874, 814 N.W.2d 114 (2012).

An individual who has opposed discriminatory employment practices is protected by this section of the Nebraska Fair Employment Practice Act, making it unlawful for an employer to discriminate against an employee because he or she has opposed any practice unlawful under federal law or the laws of Nebraska. *Helvering v. Union Pacific RR. Co.*, 13 Neb. App. 818, 703 N.W.2d 134 (2005).

48-1115 Notice of employment; preference or discrimination; race, color, religion, sex, disability, marital status, national origin; unlawful; exception.

It shall be an unlawful employment practice for an employer, labor organization, or employment agency to print or publish or cause to be printed or published any notice or advertisement relating to employment by such an employer or membership in or any classification or referral for employment by such a labor organization, or relating to any classification or referral for employment by such an employment agency, indicating any preference, limitation, specification, or discrimination based on race, color, religion, sex, disability, marital status, or national origin, except that such a notice or advertisement may indicate a preference, limitation, specification or discrimination based on religion, sex, disability, marital status, or national origin when religion, sex, disability, marital status, or national origin is a bona fide occupational qualification for employment.

48-1116 Equal Opportunity Commission; members; appointment; term; quorum; compensation; executive director; representation.

There is hereby established an Equal Opportunity Commission to consist of seven members to be appointed by the Governor. Terms of members shall be three years. As the terms of the members expire, the Governor shall appoint or reappoint the members of the commission for terms of three years to succeed the members whose terms expire. The commission shall elect one member to serve as chairperson of the commission.

Four members of the commission shall constitute a quorum for the purpose of conducting the business thereof. Any action of the commission shall require at least four votes. A vacancy in the commission shall not impair the right of the remaining members to exercise all the powers of the commission.

Members of the commission shall receive fifty dollars per day for their services and shall be reimbursed for expenses incurred in the performance of their duties as provided in sections 81-1174 to 81-1177. Reimbursement shall be for not more than two regular meetings per month and not more than three training sessions for any one fiscal year. Any member of the commission may be removed by the Governor for inefficiency, neglect of duty, misconduct, or malfeasance in office after being given a written statement of the charges and an opportunity to be heard thereon.

The commission shall establish and maintain its principal office in the city of Lincoln and such other offices within the state as it may deem necessary. The commission may meet and function at any place within the state. The commission shall appoint an executive director who shall be directly responsible to the commission. The executive director may appoint such assistants, clerks, agents, and other employees as such executive director may deem necessary, fix their compensation within the limitations provided by law, and prescribe duties of such employees. The executive director may appoint additional staff as the commission deems necessary.

The Attorney General shall represent and appear for the commission in all actions and proceedings involving any question under the Nebraska Fair Employment Practice Act, the Nebraska Fair Housing Act, or section 20-123, 20-124, or 20-132 and shall aid in any investigation or hearing had under either act or any of such sections. The commission shall have an official seal which shall be judicially noticed.

48-1117 Commission; powers; duties; enumerated.

The commission shall have the following powers and duties:

(1) To receive, investigate, and pass upon charges of unlawful employment practices anywhere in the state;

(2) To hold hearings, subpoena witnesses, compel their attendance, administer oaths, and take the testimony of any person under oath and, in connection therewith, to require the production for examination of any books and papers relevant to any allegation of unlawful employment practice pending before the commission. The commission may make rules as to the issuance of subpoenas, subject to the approval by a constitutional majority of the elected members of the Legislature;

(3) To cooperate with the federal government and with local agencies to effectuate the purposes of the Nebraska Fair Employment Practice Act, including the sharing of information possessed by the commission on a case that has also been filed with the federal government or local agencies if both the employer and complainant have been notified of the filing;

(4) To attempt to eliminate unfair employment practices by means of conference, mediation, conciliation, arbitration, and persuasion;

(5) To require that every employer, employment agency, and labor organization subject to the act shall (a) make and keep such records relevant to the determinations of whether unlawful employment practices have been or are being committed, (b) preserve such records for such periods, and (c) make such reports therefrom, as the commission shall prescribe by regulation or order, after public hearing, as reasonable, necessary, or appropriate for the enforcement of the act or the regulations or orders thereunder. The commission shall, by regulation, require each employer, labor organization, and joint labor-management committee subject to the act which controls an apprenticeship or other training program to maintain such records as are reasonably necessary to carry out the purposes of the act, including, but not limited to, a list of applicants who wish to participate in such program, including the chronological order in which such applications were received, and to furnish to the commission, upon request, a detailed description of the manner in which persons are selected to participate in the apprenticeship or other training program. Any employer, employment agency, labor organization, or joint labor-management committee which believes that the application to it of any regulation or order issued under this section would result in undue hardship may either apply to the commission for an exemption from the application of such regulation or order or bring a civil action in the district court for the district where such records are kept. If the commission or the court, as the case may be, finds that the application of the regulation or order to the employer, employment agency, or labor organization in question would impose an undue hardship, the commission or the court, as the case may be, may grant appropriate relief;

(6) To report, not less than once every two years, to the Clerk of the Legislature and the Governor, on the hearings it has conducted and the decisions it has rendered, the other work performed by it to carry out the purposes of the act, and to make recommendations for such further legislation concerning abuses and discrimination because of race, color, religion, sex, disability, marital status, or national origin, as may be desirable. The report shall also include the number of complaints filed under the act alleging a violation of subdivision (2) of section 48-1107.01 and the resolution of such complaints. The report submitted to the Clerk of the Legislature shall be submitted electronically. Each member of the Legislature shall receive an electronic copy of the report required by this subdivision by making a request for it to the chairperson of the commission; and

(7) To adopt and promulgate rules and regulations necessary to carry out the duties prescribed in the act.

48-1118 Unlawful practice; charge; time for filing; prescreening procedure and determination; investigation; confidential informal actions; procedure; violation; penalty; interrogatories.

(1) Whenever it is charged in writing under oath or affirmation by or on behalf of a person or persons claiming to be aggrieved and such charge sets forth the facts upon which it is based that an employer, employment agency, or labor organization has engaged in an unlawful employment practice, the commission staff shall furnish such employer, employment agency, or labor organization with a copy of such charge within ten days, including a statement of the date, place, and circumstances of the alleged unlawful employment practice. Prior to initiating any investigation, the commission staff shall screen a charge pursuant to an established, clearly defined prescreening procedure to determine subject matter jurisdiction to handle such charge. Any charge without sufficient subject matter jurisdiction shall not be investigated and notice of such prescreening determination shall be promptly conveyed by the executive director to the person claiming to be aggrieved. When a charge is determined to be within the subject matter jurisdiction of the commission, the commission staff shall make an investigation of such charge, but such charge shall not be made public by the commission. If the executive director determines after such investigation that there is not reasonable cause to believe that the charge is true, the executive director shall dismiss the charge and promptly notify the person claiming to be aggrieved and the respondent of his or her action. If the executive director determines after such investigation that there is reasonable cause to believe that the charge is true, the commission shall endeavor to eliminate any such alleged unlawful employment practice and settle any claim by informal methods of conference, conciliation, persuasion, mediation, or arbitration. The settlement efforts shall be scheduled and completed within thirty days of the probable cause finding. Nothing said or done during and as a part of such endeavors may be made public by the commission without the written consent of the parties or used as evidence in a subsequent proceeding. Any officer or employee of the commission who makes public in any manner whatever any information in violation of this subsection shall be guilty of a Class III misdemeanor except as provided in subdivision (3) of section 48-1117.

(2) A written charge of violation of the Nebraska Fair Employment Practice Act shall be filed within three hundred days after the occurrence of the alleged unlawful employment practice and notice of the charge, including a statement of the date, place, and circumstances of the alleged unlawful employment practice, shall be served upon the person against whom such charge is made within ten days thereafter.

(3) A respondent shall be required to file with the commission a written response to the written charge of violation within thirty days after service upon the respondent. Failure to file a written response within thirty days, except for good cause shown, shall result in a mandatory reasonable cause finding against the respondent by the executive director. Failure by any complainant to cooperate with the commission, its investigators, or staff, except for good cause shown, shall result in dismissal of the complaint by the executive director.

(4) In connection with any investigation of a charge filed under this section, the commission or its authorized agents may, at any time after a charge is filed, issue or cause to be served interrogatories and shall have at all reasonable times access to, for the purposes of examination, and the right to copy any evidence or records of any person being investigated or proceeded against that relate to unlawful employment practices covered by the act and are relevant to the charge under investigation. The commission may seek preparation of and

judicial enforcement of any legal process or interrogatories through the office of the Attorney General.

Generally, when a private individual brings a discrimination action against an employer covered by the Nebraska Fair Em-

ployment Practice Act, the Nebraska Equal Opportunity Commission is not a proper party to any subsequent appeal. *Zalkins Peerless Co. v. Nebraska Equal Opp. Comm.*, 217 Neb. 289, 348 N.W.2d 846 (1984).

48-1119 Unlawful practice; complaint; notice; hearing; witnesses; evidence; findings; civil action authorized; order.

(1) In case of failure to eliminate any unlawful employment practice by informal methods of conference, conciliation, persuasion, mediation, or arbitration, the commission may order a public hearing. If such hearing is ordered, the commission shall cause to be issued and served a written notice, together with a copy of the complaint, requiring the person, employer, labor organization, or employment agency named in the complaint, hereinafter referred to as respondent, to answer such charges at a hearing before the commission at a time and place which shall be specified in such notice. Such hearing shall be within the county where the alleged unlawful employment practice occurred. The complainant shall be a party to the proceeding, and in the discretion of the commission any other person whose testimony has a bearing on the matter may be allowed to intervene therein. Both the complainant and the respondent, in addition to the commission, may introduce witnesses at the hearing. The respondent may file a verified answer to the allegations of the complaint and may appear at such hearing in person and with or without counsel. Testimony or other evidence may be introduced by either party. All evidence shall be under oath and a record thereof shall be made and preserved. Such proceedings shall, so far as practicable, be conducted in accordance with the rules of evidence applicable in the district courts of the State of Nebraska, and shall be of public record.

(2) No person shall be excused from testifying or from producing any book, document, paper, or account in any investigation, or inquiry by, or hearing before the commission when ordered to do so, upon the ground that the testimony or evidence, book, document, paper, or account required of such person may tend to incriminate such person in or subject such person to penalty or forfeiture; but no person shall be prosecuted, punished, or subjected to any forfeiture or penalty for or on account of any act, transaction, matter, or thing concerning which such person shall have been compelled under oath to testify or produce documentary evidence, except that no person so testifying shall be exempt from prosecution or punishment for any perjury committed by such person in his or her testimony. Such immunity shall extend only to a natural person who, in obedience to a subpoena, gives testimony under oath or produces evidence, documentary or otherwise, under oath. Nothing in this subsection shall be construed as precluding any person from claiming any right or privilege available to such person under the fifth amendment to the Constitution of the United States.

(3) After the conclusion of the hearing, the commission shall, within ten days of the receipt of the transcript or the receipt of the recommendations from the hearing officer, make and file its findings of fact and conclusions of law and make and enter an appropriate order. The hearing officer need not refer to the page and line numbers of the transcript when making his or her recommendation to the commission. Such findings of fact and conclusions of law shall be in sufficient detail to enable a court on appeal to determine the controverted questions presented by the proceedings and whether proper weight was given to the evidence. If the commission determines that the respondent has intentionally engaged in or is intentionally engaging in any unlawful employment practice, it shall issue and cause to be served on such respondent an order requiring such respondent to cease and desist from such unlawful employment practice and order such other affirmative action as may be appropriate which may include, but shall not be limited to, reinstatement or hiring of employees, with or without backpay. Backpay liability shall not accrue from a date more than two years prior to the filing of the charge with the commission. Interim earnings or amounts earnable with reasonable diligence by the person or persons discriminated against shall operate to reduce the backpay otherwise allowable.

(4) A complainant who has suffered physical, emotional, or financial harm as a result of a violation of section 48-1104 or 48-1114 may, at any stage of the proceedings prior to dismissal, file an action directly in the district court of the county where such alleged violation occurred. If the complainant files a district court action on the charge, the complainant shall provide written notice of such filing to the commission, and such notification shall immediately terminate all proceedings before the commission. The district court shall file and try such case as any other civil action, and any successful complainant shall be entitled to appropriate relief, including temporary or permanent injunctive relief, general and special damages, reasonable attorney's fees, and costs.

(5) No order of the commission shall require the admission or reinstatement of an individual as a member of a labor organization or the hiring, reinstatement, or promotion of an individual as an employee, or the payment to him or her of any backpay, if such individual was refused admission, suspended, or expelled, or was refused employment or advancement or was suspended or discharged for any reason other than discrimination on account of race, color, religion, sex, disability, marital status, or national origin or in violation of section 48-1114. If the commission finds that a respondent has not engaged in any unfair employment practice, it shall within thirty days state its findings of fact and conclusions of law. A copy of any order shall be served upon the person against whom it runs or his or her attorney and notice thereof shall be given to the other parties to the proceedings or their attorneys. Such order shall take effect twenty days after service thereof unless otherwise provided and shall continue in force either for a period which may be designated therein or until changed or revoked by the commission.

(6) Except as provided in subsection (4) of this section, until a transcript of the record of the proceedings is filed in the district court as provided in section 48-1120, the commission may, at any time upon reasonable notice and in such a manner it shall deem proper, modify or set aside, in whole or in part, any finding or order made by it.

Under subsection (3) of this section, in order to show a prima facie case of discrimination, the plaintiff must show that the discrimination was intentional. *Lincoln County Sheriff's Office v. Horne*, 228 Neb. 473, 423 N.W.2d 412 (1988).

Backpay awards under the Nebraska Fair Employment Practice Act must be reduced by earnings or amounts earnable with reasonable diligence by the person or persons discriminated against. Once an unlawfully discharged employee produces evidence in support of his claim for backpay, contending that he was unable to find comparable work, the employer has the burden of showing that the discharged employee did not exercise reasonable diligence in mitigating his damages. *Airport Inn v. Nebraska Equal Opp. Comm.*, 217 Neb. 852, 353 N.W.2d 727 (1984).

Prejudgment interest is not generally allowed on backpay awards under the Nebraska Fair Employment Practice Act. *Airport Inn v. Nebraska Equal Opp. Comm.*, 217 Neb. 852, 353 N.W.2d 727 (1984).

Unemployment compensation benefits should be deducted from a backpay award under the Nebraska Fair Employment

Practice Act. *Airport Inn v. Nebraska Equal Opp. Comm.*, 217 Neb. 852, 353 N.W.2d 727 (1984).

Generally, when a private individual brings a discrimination action against an employer covered by the Nebraska Fair Employment Practice Act, the Nebraska Equal Opportunity Commission is not a proper party to any subsequent appeal. *Zalkins Peerless Co. v. Nebraska Equal Opp. Comm.*, 217 Neb. 289, 348 N.W.2d 846 (1984).

To sustain a charge of discrimination where there is no charge of a universal discriminatory practice or system, complainant, in the record, must establish that the employer intentionally engaged in acts which discriminated against complainant in violation of the statutory prohibitions. *Duffy v. Physicians Mut. Ins. Co.*, 191 Neb. 233, 214 N.W.2d 471 (1974).

An award of punitive damages by the commission is not required for a statutory violation, but if it would be required to fully vindicate a federal constitutional right when before a federal court, it would be required before the commission or a state court. *Gilliam v. City of Omaha*, 331 F.Supp. 4 (D. Neb. 1971).

48-1120 Appeal; procedure; attorney's fees; failure to appeal; effect.

(1) Any party to a proceeding before the commission aggrieved by such decision and order and directly affected thereby may appeal the decision and order, and the appeal shall be in accordance with the Administrative Procedure Act.

(2) In any action or proceeding under the Nebraska Fair Employment Practice Act wherein an appeal is lodged in the district court, the court, in its discretion, may allow the prevailing party reasonable attorney's fees as part of the costs.

(3) If a respondent does not appeal an order, the commission may obtain a decree of the court for the enforcement of such order upon showing that respondent is subject to the commission's jurisdiction and resides or transacts business within the county in which the petition for enforcement is brought.

- 3. Miscellaneous

1. Standard of review

On appeal to the district court from an order of the Nebraska Equal Opportunity Commission, the review is by trial de novo upon the record. On further appeal to the Supreme Court, the district court's findings will not be disturbed if they are supported by substantial evidence. *Hinzman v. Richman Gordman*, 219 Neb. 875, 367 N.W.2d 131 (1985).

On appeal of review by the district court of an order of the Nebraska Equal Opportunity Commission, the Supreme Court will not disturb the district court's findings if they are supported by substantial evidence. *Zalkins Peerless Co. v. Nebraska Equal Opp. Comm.*, 217 Neb. 289, 348 N.W.2d 846 (1984).

On appeal to the district court from an order of the Nebraska Equal Opportunity Commission, the review is by trial de novo upon the record. *Zalkins Peerless Co. v. Nebraska Equal Opp. Comm.*, 217 Neb. 289, 348 N.W.2d 846 (1984).

The standard of review to be applied in review by the district court and the Supreme Court of an order entered by the Nebraska Equal Opportunity Commission is whether the findings of the commission in support of such order are unreason-

able or arbitrary or not supported by a preponderance of the evidence. The court shall affirm if the finding is supported by substantial evidence on the record. *Nebraska P.P. Dist. v. Lacy*, 215 Neb. 462, 339 N.W.2d 286 (1983).

On appeal to district court from an order of the Equal Opportunity Commission, review is de novo upon the record to determine whether the order was based upon substantial evidence. *Farmer v. Richman Gordman Stores, Inc.*, 203 Neb. 222, 278 N.W.2d 332 (1979).

Upon an appeal to the district court from an order of the Equal Opportunity Commission, the district court review is de novo on the record. *Snygg v. City of Scottsbluff Police Dept.*, 201 Neb. 16, 266 N.W.2d 76 (1978).

2. Attorney's fees

The plain meaning of subsection (6) of this section is to permit an award of attorney fees only where they were necessarily incurred in determining an issue over which the district court had jurisdiction. *Nebraska Dept. of Correctional Servs. v. Carroll*, 222 Neb. 307, 383 N.W.2d 740 (1986).

While awarding of attorney fees under this section is discretionary with the district court, absent special circumstances, the failure to award such fees is an abuse of discretion. *Williams v. Goodyear Tire & Rubber Co.*, 219 Neb. 748, 366 N.W.2d 132 (1985).

Unless there are special circumstances a prevailing plaintiff, under the Nebraska Fair Employment Practice Act, should be awarded a reasonable attorney fee for all stages of the proceedings. In any action or proceeding under the Nebraska Fair Employment Practice Act, the district court, in its discretion, may allow the prevailing party a reasonable attorney fee. *Airport Inn v. Nebraska Equal Opp. Comm.*, 217 Neb. 852, 353 N.W.2d 727 (1984).

This section does not provide for an attorney fee for services provided in appeals taken from the district court. *Northern States Beef v. Stennis*, 2 Neb. App. 340, 509 N.W.2d 656 (1993).

3. Miscellaneous

This section requires the filing of a petition and a certified copy of the transcript of proceedings before the Nebraska Equal Opportunity Commission within 30 days from the date of the NEOC's final order in order to confer jurisdiction on the district

court. *Transcon Lines, Inc., v. O'Neal*, 230 Neb. 31, 429 N.W.2d 718 (1988).

There has been no entry of the order of the Nebraska Equal Opportunity Commission until the date that written evidence of that order has been prepared, authoritatively signed, and placed of record in the public files of such commission. *Lincoln Co. Sheriff's Office v. Horne*, 221 Neb. 867, 381 N.W.2d 159 (1986).

Substantial compliance with this section will be adequate to meet the requirements thereof. Held facts of this case constituted substantial compliance. *Ranger Division v. Bayne*, 214 Neb. 251, 333 N.W.2d 891 (1983).

Appeal in proceedings under this act are governed by specific provision herein for manner and scope of appeal, rather than the appeal provisions of the Administrative Procedure Act, sections 84-901 to 84-919. *Duffy v. Physicians Mut. Ins. Co.*, 191 Neb. 233, 214 N.W.2d 471 (1974).

Since award of back pay by commission would be equivalent to similar award in federal court and appeal is provided for, state administrative remedy is adequate. *Gilliam v. City of Omaha*, 331 F.Supp. 4 (D. Neb. 1971).

48-1120.01 Action in district court; deadline; notice by commission.

The deadline for filing an action directly in the district court is ninety days after the complainant receives notice of the last action the commission will take on the complaint or charge. The last action on the complaint or charge includes the issuance of the final order after hearing, the determination of reasonable cause or no reasonable cause, and any other administrative action which ends the commission's involvement with the complaint or charge.

It is declared to be the policy of this state (1) to establish a minimum wage for all workers at levels consistent with their health, efficiency and general well-being, and (2) to safeguard existing minimum wage compensation standards which are adequate to maintain the health, efficiency and general well-being of workers against the unfair competition of wage and hours standards which do not provide adequate standards of living.

(2) For persons compensated by way of gratuities such as waitresses, waiters, hotel bellhops, porters, and shoeshine persons, the employer shall pay wages at the minimum rate of two dollars and thirteen cents per hour, plus all gratuities given to them for services rendered. The sum of wages and gratuities received by each person compensated by way of gratuities shall equal or exceed the minimum wage rate provided in subsection (1) of this section. In determining

whether or not the individual is compensated by way of gratuities, the burden of proof shall be upon the employer.

(3) Any employer employing student-learners as part of a bona fide vocational training program shall pay such student-learners' wages at a rate of at least seventy-five percent of the minimum wage rate which would otherwise be applicable.

Under subsection (2) of this section, an employer is not required to notify an employee that he or she will be compensated as a tipped employee. Instead, the employer only needs to prove the employee received tips sufficient to compensate the employee at a rate greater than or equal to the minimum wage. *Mays v. Midnite Dreams*, 300 Neb. 485, 915 N.W.2d 71 (2018).

48-1203.01 Training wage; rate; limitations.

An employer may pay a new employee who is younger than twenty years of age and is not a seasonal or migrant worker a training wage of at least seventy-five percent of the federal minimum wage for ninety days from the date the new employee was hired. An employer may pay such new employee the training wage rate for an additional ninety-day period while the new employee is participating in on-the-job training which (1) requires technical, personal, or other skills which are necessary for his or her employment and (2) is approved by the Commissioner of Labor. No more than one-fourth of the total hours paid by the employer shall be at the training wage rate.

An employer shall not pay the training wage rate if the hours of any other employee are reduced or if any other employee is laid off and the hours or position to be filled by the new employee is substantially similar to the hours or position of such other employee. An employer shall not dismiss or reduce the hours of any employee with the intention of replacing such employee or his or her hours with a new employee receiving the training wage rate.

The court in which any action is brought under this subsection shall, in addition to any judgment awarded to the plaintiff or plaintiffs, allow costs of the action and reasonable attorney's fees to be paid by the defendant. In any proceedings brought pursuant to this subsection, the employee shall not be required to pay any filing fee or other court costs necessarily incurred in such proceedings.

48-1207 Bargaining collectively; sections not applicable.

Nothing in sections 48-1201 to 48-1209 shall be deemed to interfere with, impede or in any way diminish the right of employees to bargain collectively with their employers through representatives of their own choosing in order to establish wages or other conditions of work in excess of the applicable minimum under the provisions of sections 48-1201 to 48-1209.

48-1219 Discriminatory wage practices based on sex; policy.

(1) The practice of discriminating on the basis of sex by paying wages to employees of one sex at a lesser rate than the rate paid to employees of the opposite sex for comparable work on jobs which have comparable requirements:

- (a) Unjustly discriminates against the person receiving the lesser rate;
- (b) Leads to low worker morale, high turnover, and frequent labor unrest;
- (c) Discourages workers paid at the lesser wage rates from training for higher level jobs;
- (d) Curtails employment opportunities, decreases workers' mobility, and increases labor costs;
- (e) Impairs purchasing power and threatens the maintenance of an adequate standard of living by such workers and their families;
- (f) Prevents optimum utilization of the state's available labor resources; and
- (g) Threatens the well-being of citizens of this state, and adversely affects the general welfare.

(2) It is therefor declared to be the policy of this state through exercise of its police power to correct and, as rapidly as possible, to eliminate discriminatory wage practices based on sex.

48-1221 Prohibited acts.

(1) No employer shall discriminate between employees in the same establishment on the basis of sex, by paying wages to any employee in such establishment at a wage rate less than the rate at which the employer pays any employee of the opposite sex in such establishment for equal work on jobs which require equal skill, effort and responsibility under similar working conditions. Wage differentials are not within this prohibition where such payments are made pursuant to: (a) An established seniority system; (b) a merit increase system; or (c) a system which measures earning by quantity or quality of production or any factor other than sex.

(2) An employer who is paying a wage differential in violation of the provisions of sections 48-1219 to 48-1227 shall not, in order to comply with it, reduce the wage rates of any employee.

(3) No person shall cause or attempt to cause an employer to discriminate against any employee in violation of the provisions of sections 48-1219 to 48-1227.

(4) No employer may discharge or discriminate against any employee by reason of any action taken by such employee to invoke or assist in any manner the enforcement of the provisions of sections 48-1219 to 48-1227.

When bringing a claim of wage discrimination based on sex under subsection (1) of this section, a plaintiff must first establish a prima facie case by showing by a preponderance of the evidence that (1) the plaintiff was paid less than a person of the opposite sex employed in the same establishment; (2) for equal work on jobs requiring equal skill, effort, and responsibility; (3)

which were performed under similar working conditions. If a plaintiff establishes a prima facie case of wage discrimination based on sex, the burden then shifts to the defendant to prove one of the affirmative defenses set forth in subsection (1) of this section. *Knapp v. Ruser*, 297 Neb. 639, 901 N.W.2d 31 (2017).

48-1222 Equal Opportunity Commission; powers.

(1) The commission shall have the power and the duty to carry out the provisions of sections 48-1219 to 48-1227.

(2) For this purpose, the commission shall have the power to enter the place of employment of any employer to inspect and copy payrolls and other employment records, to compare character of work and operations on which persons employed by him are engaged, to question such person, and to obtain such other information as is reasonably necessary to the administration and enforcement of the provisions of sections 48-1219 to 48-1227.

(3) The commission shall have power to examine witnesses under oath, and to require by subpoena the attendance and testimony of witnesses and the production of any documentary evidence relating to the subject matter of any investigation undertaken pursuant to this section. Witnesses summoned by the commission shall be paid the same fees as are allowed witnesses attending the district court. In the event of the failure of a person to attend, testify or produce documents under or in response to a subpoena, the district court for the county in which the appearance is requested on application of the commission may issue an order requiring such person to appear before the commission, or to produce documentary evidence, and any failure to obey such order of the court may be punished by the court as a contempt thereof.

(4) The commission is authorized to endeavor to eliminate pay practices unlawful under the provisions of sections 48-1219 to 48-1227, by informal methods of conference, conciliation and persuasion, and to supervise the payment of wages owing to any employee under the provisions of sections 48-1219 to 48-1227.

(5) The commission shall have power to issue such regulations, not inconsistent with the purpose of sections 48-1219 to 48-1227, as it deems necessary or appropriate to carry out its provisions.

48-1229 Terms, defined.

For purposes of the Nebraska Wage Payment and Collection Act, unless the context otherwise requires:

(1) Employee means any individual permitted to work by an employer pursuant to an employment relationship or who has contracted to sell the goods or services of an employer and to be compensated by commission. Services performed by an individual for an employer shall be deemed to be employment, unless it is shown that (a) such individual has been and will continue to be free from control or direction over the performance of such services, both under his or her contract of service and in fact, (b) such service is either outside the usual course of business for which such service is performed or such service is performed outside of all the places of business of the enterprise for which such service is performed, and (c) such individual is customarily engaged in an independently established trade, occupation, profession, or business. This sub-

division is not intended to be a codification of the common law and shall be considered complete as written;

(2) Employer means the state or any individual, partnership, limited liability company, association, joint-stock company, trust, corporation, political subdivision, or personal representative of the estate of a deceased individual, or the receiver, trustee, or successor thereof, within or without the state, employing any person within the state as an employee;

(3) Federally insured financial institution means a state or nationally chartered bank or a state or federally chartered savings and loan association, savings bank, or credit union whose deposits are insured by an agency of the United States Government;

(4) Fringe benefits includes sick and vacation leave plans, disability income protection plans, retirement, pension, or profit-sharing plans, health and accident benefit plans, and any other employee benefit plans or benefit programs regardless of whether the employee participates in such plans or programs;

(5) Payroll debit card means a stored-value card issued by or on behalf of a federally insured financial institution that provides an employee with immediate access for withdrawal or transfer of his or her wages through a network of automatic teller machines. Payroll debit card includes payroll debit cards, payroll cards, and paycards; and

(6) Wages means compensation for labor or services rendered by an employee, including fringe benefits, when previously agreed to and conditions stipulated have been met by the employee, whether the amount is determined on a time, task, fee, commission, or other basis. Paid leave, other than earned but unused vacation leave, provided as a fringe benefit by the employer shall not be included in the wages due and payable at the time of separation, unless the employer and the employee or the employer and the collective-bargaining representative have specifically agreed otherwise. Unless the employer and employee have specifically agreed otherwise through a contract effective at the commencement of employment or at least ninety days prior to separation, whichever is later, wages includes commissions on all orders delivered and all orders on file with the employer at the time of separation of employment less any orders returned or canceled at the time suit is filed.

- 1. Vacation and sick leave
- 2. Consideration as wages
- 3. Miscellaneous

1. Vacation and sick leave

Former employees were not entitled to paid time off compensation under the Nebraska Wage Payment and Collection Act where they did not meet the written employment agreement's stated conditions to earn paid time off. *Drought v. Marsh*, 304 Neb. 860, 937 N.W.2d 229 (2020).

Under the 2007 amendments to this section, unused "paid time off" hours constitute unused vacation leave when the only stipulated condition for earning the hours is the rendering of services and an employee has an absolute right to take this time off for any purpose that he or she wishes. In that circumstance, an employee's unused paid time off hours are wages that an employer must pay upon separation of employment. *Fisher v. PayFlex Systems USA*, 285 Neb. 808, 829 N.W.2d 703 (2013).

The Nebraska Wage Payment and Collection Act does not prohibit an employer from providing a sick leave benefit which may be used only in the event of illness or injury and which has no monetary value upon termination of employment if it is not so used. *Loves v. World Ins. Co.*, 277 Neb. 359, 773 N.W.2d 348 (2009).

The Nebraska Wage Payment and Collection Act does not prohibit an employer from providing a sick leave benefit which may be used only in the event of illness or injury and which has no monetary value upon termination of employment if it is not so used. *Loves v. World Ins. Co.*, 276 Neb. 936, 758 N.W.2d 640 (2008).

Under the plain language of subsection (4) of this section, unused sick leave is not a part of wages payable to a separating

employee unless there is a specific agreement otherwise. *Loves v. World Ins. Co.*, 276 Neb. 936, 758 N.W.2d 640 (2008).

Accrued vacation time, which is part of an employment agreement, is due and payable as wages upon termination of employment. *Roseland v. Strategic Staff Mgmt.*, 272 Neb. 434, 722 N.W.2d 499 (2006).

2. Consideration as wages

An appellate court will consider a payment a wage subject to the Nebraska Wage Payment and Collection Act if (1) it is compensation for labor or services, (2) it was previously agreed to, and (3) all the conditions stipulated have been met. *Timberlake v. Douglas County*, 291 Neb. 387, 865 N.W.2d 788 (2015).

The list of fringe benefits under the former subsection (3) of this section is not exclusive. Under the former subsection (4), "injured on duty" agreed-upon benefits for employees who are injured while performing a high-risk duty are wages that an employee can earn just by rendering the specified services. *Timberlake v. Douglas County*, 291 Neb. 387, 865 N.W.2d 788 (2015).

A payment will be considered a wage subject to the Nebraska Wage Payment and Collection Act if (1) it is compensation for labor or services, (2) it was previously agreed to, and (3) all the conditions stipulated have been met. *Eikmeier v. City of Omaha*, 280 Neb. 173, 783 N.W.2d 795 (2010).

Payments pursuant to a severance agreement that were not earned and did not accrue through continued employment are not compensation for labor or services rendered, and therefore, the employee is not entitled to attorney fees. *Eikmeier v. City of Omaha*, 280 Neb. 173, 783 N.W.2d 795 (2010).

Pursuant to subsection (3) of this section, deferred compensation constitutes wages under the Nebraska Wage Payment and Collection Act. *Sindelar v. Canada Transport, Inc.*, 246 Neb. 559, 520 N.W.2d 203 (1994).

Where an employment contract provides for the sharing of possible financial losses, sums collected under such a provision are not "benefits" which could be considered "wages" under subsection (3) of this section. *Brown v. Clayton Brokerage Co.*, 238 Neb. 646, 472 N.W.2d 381 (1991).

Where an employment agreement provides for sharing of possible financial losses, sums collected under such a provision are not "benefits" which could be considered "wages" under subsection (3) of this section. *Waite v. A. S. Battiatto Co.*, 238 Neb. 151, 469 N.W.2d 766 (1991).

An employee's share of the profits of his employer under a profit-sharing plan can be wages within the meaning of subsection (3) of this section. *Suess v. Lee Sapp Leasing*, 229 Neb. 755, 428 N.W.2d 899 (1988).

Subdivision (4) of this section provides that the term "wages" includes orders on file with the employer at the time of termination of employment. Thus, an employment agreement policy which clearly conflicts with such definition of wages, even though said policy is common within the industry, is void because it is prohibited by the Nebraska Wage Payment and Collection Act. *Sanford v. Clear Channel Broadcasting*, 14 Neb. App. 908, 719 N.W.2d 312 (2006).

Overtime wages can be claimed under the Nebraska Wage Payment and Collection Act only if those overtime wages were previously agreed to by the employer and the employee. Nonetheless, even in the absence of a previous agreement concerning overtime compensation, compensation for overtime can be claimed under the federal Fair Labor Standards Act for hours worked in excess of 40 during a given week. *Freeman v. Central States Health & Life Co.*, 2 Neb. App. 803, 515 N.W.2d 131 (1994).

3. Miscellaneous

The Nebraska Wage Payment and Collection Act does not represent a very clear mandate of public policy which would warrant recognition of an exception to the employment-at-will doctrine. *Malone v. American Bus. Info.*, 262 Neb. 733, 634 N.W.2d 788 (2001).

48-1230 Employer; regular paydays; altered; notice; deduct, withhold, or divert portion of wages; when; wage statement; use of payroll debit card; conditions; unpaid wages; when due.

(1) Except as otherwise provided in this section, each employer shall pay all wages due its employees on regular days designated by the employer or agreed upon by the employer and employee. Thirty days' written notice shall be given to an employee before regular paydays are altered by an employer. An employer may deduct, withhold, or divert a portion of an employee's wages only when the employer is required to or may do so by state or federal law or by order of a court of competent jurisdiction or the employer has a written agreement with the employee to deduct, withhold, or divert.

(2) On each regular payday, the employer shall deliver or make available to each employee, by mail or electronically, or shall provide at the employee's normal place of employment during employment hours for all shifts a wage statement showing, at a minimum, the identity of the employer, the hours for which the employee was paid, the wages earned by the employee, and deductions made for the employee. However, the employer need not provide information on hours worked for employees who are exempt from overtime under the federal Fair Labor Standards Act of 1938, under 29 C.F.R. part 541, unless the employer has established a policy or practice of paying to or on behalf of exempt employees overtime, or bonus or a payment based on hours worked, whereupon the employer shall send or otherwise provide a statement to the

exempt employees showing the hours the employee worked or the payments made to the employee by the employer, as applicable.

(3) When an employer elects to pay wages with a payroll debit card, the employer shall comply with the compulsory-use requirements prescribed in 15 U.S.C. 1693k. Additionally, the employer shall allow an employee at least one means of fund access withdrawal per pay period, but not more frequently than once per week, at no cost to the employee for an amount up to and including the total amount of the employee's net wages, as stated on the employee's earnings statement. An employer shall not require an employee to pay any fees or costs incurred by the employer in connection with paying wages with a payroll debit card.

(4) Except as otherwise provided in section 48-1230.01:

(a) Whenever an employer, other than a political subdivision, separates an employee from the payroll, the unpaid wages shall become due on the next regular payday or within two weeks of the date of termination, whichever is sooner; and

(b) Whenever a political subdivision separates an employee from the payroll, the unpaid wages shall become due within two weeks of the next regularly scheduled meeting of the governing body of the political subdivision if such employee is separated from the payroll at least one week prior to such meeting, or if an employee of a political subdivision is separated from the payroll less than one week prior to the next regularly scheduled meeting of the governing body of the political subdivision, the unpaid wages shall be due within two weeks of the following regularly scheduled meeting of the governing body of the political subdivision.

48-1230.01 Employer; unpaid wages constituting commissions; duties.

Whenever an employer separates an employee from the payroll, the unpaid wages constituting commissions shall become due on the next regular payday following the employer's receipt of payment for the goods or services from the customer from which the commission was generated. The employer shall provide an employee with a periodic accounting of outstanding commissions until all commissions have been paid or the orders have been returned or canceled by the customer.

48-1231 Employee; claim for wages or unlawful retaliation or discrimination; suit; judgment; costs and attorney's fees; failure to furnish wage statement; penalty.

(1) An employee having a claim for wages which are not paid within thirty days of the regular payday designated or agreed upon may institute suit for such unpaid wages in the proper court. If an employee establishes a claim and secures judgment on the claim, such employee shall be entitled to recover the

full amount of the judgment and all costs of such suit, including reasonable attorney's fees. If the cause is taken to an appellate court and the employee recovers a judgment, the appellate court shall award reasonable attorney's fees to the employee. If the employee fails to recover a judgment in excess of the amount that may have been tendered within thirty days of the regular payday by an employer, such employee shall not recover the attorney's fees provided by this subsection. If the court finds that no reasonable dispute existed as to the fact that wages were owed or as to the amount of such wages, the court may order the employee to pay the employer's attorney's fees and costs of the action as assessed by the court.

(2) If an employee works for an employer that is not subject to the Nebraska Fair Employment Practice Act and such employee is aggrieved by a violation of section 48-1235, the employee may bring a suit against such employer in the proper court to recover the damages sustained by reason of such violation. If an employee prevails in a suit brought pursuant to this subsection, such employee shall be entitled to recover the full amount of the judgment and all costs of such suit, including reasonable attorney's fees. If the cause is taken to an appellate court and the employee recovers a judgment, the appellate court shall award reasonable attorney's fees to the employee.

(3) An employer who fails to furnish a wage statement under subsection (2) of section 48-1230 shall be guilty of an infraction as defined in section 29-431 and shall be subject to a fine pursuant to section 29-436.

(4) If an employee institutes suit against an employer under subsection (1) or (2) of this section, any citation that is issued against such employer under section 48-1234 and that relates directly to the facts in dispute shall be admitted into evidence unless specifically excluded by the court. If a citation has been contested as described in subsection (3) of section 48-1234, it shall not be admitted into evidence under this subsection until after such contest has been resolved.

DEFERRED COMPENSATION

Section

- 48-1401. Political subdivisions; exception; deferred compensation plan; provisions; investment.

48-1401 Political subdivisions; exception; deferred compensation plan; provisions; investment.

(1)(a) Any county, municipality, or other political subdivision, instrumentality, or agency of the State of Nebraska, except any agency subject to sections 84-1504 to 84-1506 or section 85-106, 85-320, or 85-606.01, may enter into an agreement to defer a portion of any individual's compensation derived from such county, municipality, or other political subdivision, instrumentality, or agency to a future period in time pursuant to section 457 of the Internal Revenue Code. Such plan of deferred compensation may provide for the deferral of an individual's compensation on either a pretax basis or an after-tax Roth contribution basis under a qualified Roth contribution program pursuant to section 402A of the Internal Revenue Code. Such deferred compensation plan shall be voluntary and shall be available to all regular employees and elected officials except as otherwise provided in this section.

(b) This section shall not authorize an entity excepted from this section pursuant to subdivision (1)(a) of this section to modify a plan of deferred compensation or establish a separate plan of deferred compensation. This section shall not require either the Public Employees Retirement Board or the Nebraska Public Employees Retirement Systems to modify a plan of deferred compensation established pursuant to sections 84-1504 to 84-1506 to allow for after-tax Roth contributions pursuant to a qualified Roth contributions program under section 402A of the Internal Revenue Code.

(2) All compensation to be deferred under this section may never exceed the total compensation to be received by the individual from the employer or exceed the limits established by the Internal Revenue Code for such a plan.

(3) All compensation deferred under the plan, all property and rights purchased with the deferred compensation, and all investment income attributable to the deferred compensation, property, or rights shall be held in trust for the exclusive benefit of participants and their beneficiaries by the county, municipality, or other political subdivision, instrumentality, or agency until such time as payments are made under the terms of the deferred compensation plan.

(4) The county, municipality, or other political subdivision, instrumentality, or agency shall designate its treasurer or an equivalent official, including the State Treasurer, to be the custodian of the funds and securities of the deferred compensation plan.

(5) The county, municipality, or other political subdivision, instrumentality, or agency may invest the compensation to be deferred under an agreement in or with: (a) Annuities; (b) mutual funds; (c) banks; (d) savings and loan associations; (e) trust companies qualified to act as fiduciaries in this state; (f) an organization established for the purpose of administering public employee deferred compensation retirement plans and authorized to do business in the State of Nebraska; or (g) investment advisers as defined in the federal Investment Advisers Act of 1940.

(6) The deferred compensation program authorized under this section shall exist and serve in addition to, and shall not be a part of, any existing retirement or pension system provided for state, county, municipal, or other political subdivision, instrumentality, or agency employees, or any other benefit program.

(7) Any compensation deferred under such a deferred compensation plan, including an individual's compensation deferred on either a pretax basis or an after-tax Roth contribution basis under a qualified Roth contribution program pursuant to section 402A of the Internal Revenue Code, shall continue to be included as regular compensation for the purpose of computing the retirement, pension, or social security contributions made or benefits earned by any employee.

(8)(a) Any sum so deferred on a pretax basis shall not be included in the computation of any federal or state taxes withheld on behalf of any such individual at the time of deferral.

(b) Any sum so deferred on an after-tax Roth contribution basis pursuant to a qualified Roth contribution program under section 402A of the Internal Revenue Code shall be included in the computation of any federal or state taxes withheld on behalf of any such individual at the time of deferral.

(9) The state, county, municipality, or other political subdivision, instrumentality, or agency shall not be responsible for any investment results entered into by the individual in the deferred compensation agreement.

(10) All compensation deferred under the plan, including compensation deferred on either a pretax basis or an after-tax Roth contribution basis under a qualified Roth contribution program pursuant to section 402A of the Internal Revenue Code, all property and rights purchased with the deferred compensation, and all investment income attributable to the deferred compensation, property, or rights shall not be subject to garnishment, attachment, levy, the

operation of bankruptcy or insolvency laws, or any other process of law whatsoever and shall not be assignable.

(11) Nothing contained in this section shall in any way limit, restrict, alter, amend, invalidate, or nullify any deferred compensation plan previously instituted by any county, municipality, or other political subdivision, instrumentality, or agency of the State of Nebraska, and any such plan is hereby authorized and approved.

(12) If a county has not established a deferred compensation plan pursuant to this section, each individual may require that the county enter into an agreement with the individual to defer a portion of such individual's compensation and place it under the management and supervision of the state deferred compensation plan created pursuant to sections 84-1504 to 84-1506. If such an agreement is made, the county shall designate the State Treasurer as custodian of such deferred compensation funds and such deferred compensation funds shall become a part of the trust administered by the Public Employees Retirement Board or the Nebraska Public Employees Retirement Systems pursuant to sections 84-1504 to 84-1506. Nothing in this subsection shall require a plan of deferred compensation that is administered by the Public Employees Retirement Board or the Nebraska Public Employees Retirement Systems pursuant to sections 84-1504 to 84-1506 to provide for the ability of an individual to defer compensation on an after-tax Roth contribution basis pursuant to a qualified Roth contribution program under section 402A of the Internal Revenue Code.

(13) For purposes of this section, individual means (a) any person designated by the county, municipality, or other political subdivision, instrumentality, or agency of the State of Nebraska, except any agency subject to sections 84-1504 to 84-1506 or section 85-106, 85-320, or 85-606.01, as a permanent part-time or full-time employee of the county, municipality, or other political subdivision, instrumentality, or agency and (b) a person under contract providing services to the county, municipality, or other political subdivision, instrumentality, or agency of the State of Nebraska, except any agency subject to sections 84-1504 to 84-1506 or section 85-106, 85-320, or 85-606.01, and who has entered into a contract with such county, municipality, political subdivision, instrumentality, or agency to have compensation deferred prior to August 28, 1999.

48-1704 Farm labor contractor; license; form; contents.

(1) Except as otherwise provided by the Farm Labor Contractors Act, no person shall act as a farm labor contractor and engage in farm labor contracting activity unless such person holds a valid license issued by the department.

(1) Each applicant shall submit with the application and shall continually maintain proof of financial responsibility to ensure the prompt payment of wages of employees and other obligations that may arise under the Farm Labor Contractors Act. The proof shall be in the form of a corporate surety bond of a company licensed to do business in the State of Nebraska, a cash deposit, or a deposit the equivalent of cash. The department shall determine the amount of surety required, except that such amount shall not be less than five thousand dollars. In lieu of such surety, the farm labor contractor may establish a savings account at a financial institution in Nebraska in the name of the Commissioner of Labor as trustee for the employees of the farm labor contractor, and others as their interest may appear, and deliver the evidence of the account and the ability to withdraw funds to the department under terms approved by the department. No farm labor contractor license shall be issued to any applicant who has an unsatisfied final judgment of a court or decision of an administrative agency which would be covered by the bond or deposit required by the act against himself or herself. All corporate surety bonds filed under this section shall be executed to cover liability for a period of one year, during which the bond cannot be canceled or otherwise terminated.

(2) The surety company or the department shall make prompt and periodic payments on the farm labor contractor's liability to the extent of the total sum of the bond or deposit. Payments shall be made in the following manner:

(a) Payment shall be made based upon priority of wage claims over advances made by the grower or producer of agricultural commodities;

(b) Payment in full of all sums due to each person who presents adequate proof of a claim; and

(c) If there are insufficient funds to pay in full, the person next entitled to payment shall be paid in part.

(3) All claims against the bond or deposit shall be unenforceable unless request for payment of a judgment or other form of adequate proof of liability or a notice of the claim has been sent by certified mail to the surety or the department within six months from the end of the year for which the bond or deposit has been made.

(4) If the department has not received notice of the claim within six months after a farm labor contractor is no longer required to provide and maintain a surety bond or deposit, the department shall terminate and surrender any bond or any deposit under control of the department to the person who is entitled thereto upon receiving appropriate proof of such entitlement.

(5) The surety bond or deposit shall be payable to the Commissioner of Labor and shall be conditioned upon:

(a) Payment in full of all sums due on wage claims of employees; and

(b) Payment by the farm labor contractor of all sums due to the grower or producer of agricultural commodities for advances made to or on behalf of the farm labor contractor.

The fee shall be established with due regard for the costs of administering the Farm Labor Contractors Act. All fees so collected shall be deposited in the Contractor and Professional Employer Organization Registration Cash Fund.

(4) The licensing year shall run from April 1 to the following March 31 and each license shall expire on March 31 following the date of its issuance unless sooner revoked by the department.

- (3) Co-employment relationship means a relationship which is intended to be an ongoing relationship rather than a temporary or project-specific one, wherein the rights, duties, and obligations of an employer which arise out of an employment relationship have been allocated between the client employer and a professional employer organization as co-employers pursuant to a professional employer agreement and the act. In such a co-employment relationship:
- (a) The professional employer organization is entitled to enforce only such employer rights and is subject to only those employer obligations specifically allocated to the professional employer organization by the professional employer agreement or the act;
- (b) The client is entitled to enforce those rights and is obligated to provide and perform those employer obligations allocated to such client by the professional employer agreement or the act; and

(c) The client is entitled to enforce any right and is obligated to perform any obligation of an employer not specifically allocated to the professional employer organization by the professional employer agreement or the act;

(4) Covered employee means an individual having a co-employment relationship with a professional employer organization and a client who meets all of the following criteria: (a) The individual has received written notice of co-employment with the professional employer organization; and (b) the individual's co-employment relationship is pursuant to a professional employer agreement subject to the act. Individuals who are officers, directors, shareholders, partners, and managers of the client or who are members of a limited liability company if such company is the client are covered employees to the extent the professional employer organization and the client have expressly agreed in the professional employer agreement that such individuals are covered employees, if such individuals meet the criteria of this subdivision and act as operational managers or perform day-to-day operational services for the client;

(5) Department means the Department of Labor;

(7) Master policy means a workers' compensation insurance policy issued to a professional employer organization that provides coverage for more than one client and may provide coverage to the professional employer organization with respect to its direct-hire employees or that provides coverage for one client in addition to the professional employer organization's direct-hire employees. Two or more clients insured under the same policy solely because they are under common ownership are considered a single client for purposes of this subdivision;

(8) Multiple coordinated policy means a workers' compensation insurance policy that provides coverage for only a single client or group of clients under common ownership but with payment obligations and certain policy communications coordinated through the professional employer organization;

(9) Person means any individual, partnership, corporation, limited liability company, association, or any other form of legally recognized entity;

(b) The following are not professional employer organizations or professional employment services for purposes of the act:

(i) Arrangements wherein a person, whose principal business activity is not entering into professional employer arrangements and which does not hold itself out as a professional employer organization, shares employees with a commonly owned company within the meaning of sections 414(b) and (c) of the Internal Revenue Code;

Such rule and regulation shall permit a professional employer organization to authorize the entity approved by the department to act on the professional employer organization's behalf in complying with the registration requirements of the act, including electronic filings of information and payment of registration fees. (2) Except as specifically provided in the Professional Employer Organization Registration Act or in the professional employer agreement, in each co-employment relationship:

(a) The client shall be entitled to exercise all rights and shall be obligated to perform all duties and responsibilities otherwise applicable to an employer in an employment relationship;

(b) The professional employer organization shall be entitled to exercise only those rights and obligated to perform only those duties and responsibilities specifically required by the act or in the professional employer agreement. (c) Unless otherwise expressly agreed by the professional employer organization and the client in a professional employer agreement, the client retains the exclusive right to direct and control the covered employees as is necessary to conduct the client's business, to discharge any of the client's fiduciary responsibilities, or to comply with any licensure requirements applicable to the client or to the covered employees.

(3) Except as specifically provided in the Professional Employer Organization Registration Act, the co-employment relationship between the client and the

(a) The allocation of rights, duties, and obligations as described in this section;

(b) A provision that the professional employer organization shall have responsibility to pay wages to covered employees; to withhold, collect, report, and remit payroll-related and unemployment taxes; and, to the extent the professional employer organization has assumed responsibility in the professional employer agreement, to make payments for employee benefits for covered employees. For purposes of this section, wages does not include any obligation between a client and a covered employee for payments beyond or in addition to the covered employee's salary, draw, or regular rate of pay, such as bonuses, commissions, severance pay, deferred compensation, profit sharing, or vacation, sick, or other paid time off pay, unless the professional employer organization has expressly agreed to assume liability for such payments in the professional employer agreement;

(c) A provision that the professional employer organization shall have a right to hire, discipline, and terminate a covered employee as may be necessary to fulfill the professional employer organization's responsibilities under the act and the professional employer agreement. The client shall have a right to hire, discipline, and terminate a covered employee; and

(d) A provision that the responsibility to obtain workers' compensation coverage for covered employees and for other employees of the client from an insurer licensed to do business in this state and otherwise in compliance with all applicable requirements shall be specified in the professional employer agreement in accordance with section 48-2709. The client shall not be relieved of its obligations under the Nebraska Workers' Compensation Act to provide workers' compensation coverage in the event that the professional employer organization fails to obtain workers' compensation insurance for which it has assumed responsibility.

(4) With respect to each professional employer agreement entered into by a professional employer organization, such professional employer organization shall provide written notice to each covered employee affected by such agreement. The professional employer organization shall provide, and the client shall post in a conspicuous place at the client's worksite, the following:

of the covered employees with regard to such activities or when such employees are otherwise acting under the express direction and control of the client;

(c) A client shall not be liable for the acts, errors, or omissions of a professional employer organization or of any covered employee of the client and a professional employer organization when such covered employee is acting under the express direction and control of the professional employer organization;

(d) Nothing in this subsection shall limit any contractual liability or obligation specifically provided in a professional employer agreement; and

(e) A covered employee is not, solely as the result of being a covered employee of a professional employer organization, an employee of the professional employer organization for purposes of general liability insurance, fidelity bonds, surety bonds, employer's liability which is not covered by workers' compensation, or liquor liability insurance carried by the professional employer organization unless the covered employee is included for such purposes by specific reference in the professional employer agreement and in any applicable prearranged employment contract, insurance contract, or bond.

(6) When a professional employer organization obtains workers' compensation coverage for its clients that is written by an authorized insurer, it shall not be considered to be an insurer based on its provision of workers' compensation insurance coverage to a client, even if the professional employer organization charges the client a different amount than it is charged by the authorized insurer.

(7) For purposes of this state or any county, municipality, or other political subdivision thereof:

(a) Covered employees whose services are subject to sales tax shall be deemed the employees of the client for purposes of collecting and levying sales tax on the services performed by the covered employee. Nothing contained in the Professional Employer Organization Registration Act shall relieve a client of any sales tax liability with respect to its goods or services;

(b) Any tax or assessment imposed upon professional employer services or any business license or other fee which is based upon gross receipts shall allow a deduction from the gross income or receipts of the business derived from performing professional employer services that is equal to that portion of the fee charged to a client that represents the actual cost of wages and salaries, benefits, workers' compensation, payroll taxes, withholding, or other assessments paid to or on behalf of a covered employee by the professional employer organization under a professional employer agreement;

(c) Any tax assessed or assessment or mandated expenditure on a per capita or per employee basis shall be assessed against the client for covered employees and against the professional employer organization for its employees who are not covered employees co-employed with a client. Any benefit or monetary consideration that meets the requirements of mandates imposed on a client and that is received by covered employees through the professional employer organization either through payroll or through benefit plans sponsored by the professional employer organization shall be credited against the client's obligation to fulfill such mandates; and

(d) In the case of a tax or an assessment imposed or calculated upon the basis of total payroll, the professional employer organization shall be eligible to apply

any small business allowance or exemption available to the client for the covered employees for the purpose of computing the tax.

(8) A professional employer organization shall not offer its covered employees any health benefit plan which is not fully insured by an authorized insurer.

(2)(a) If all employees of the client are not covered employees under the professional employer agreement, then a workers' compensation insurance policy obtained by the professional employer organization to cover employees of the client may be written to limit coverage to those employees who are co-employees of the professional employer organization and the client. If a professional employer organization's policy limits coverage to co-employees as specified in the professional employer agreement, then the client shall obtain an additional workers' compensation insurance policy. The policy obtained by the client shall be written to cover any and all employees not covered by the professional employer organization's policy, including any potential new or unknown employees. All insurance policies issued pursuant to this subsection shall be subject to and shall comply with the requirements of this subsection and any rule or regulation adopted by the Department of Insurance.

(b) If all employees of the client are covered employees under the professional employer agreement, then a workers' compensation insurance policy obtained by the professional employer organization to cover employees of the client must be written to cover any and all employees of the client, including potential new or unknown employees that may not be covered employees under the agreement.

(c) A professional employer organization shall not split coverage that it obtains for a client between two or more policies.

(d) A professional employer organization shall not split coverage for its direct-hire employees between two or more policies.

(e) The Department of Insurance may adopt and promulgate rules and regulations to implement this subsection.

(3) If the professional employer agreement allocates responsibility to the professional employer organization to obtain workers' compensation coverage only for co-employees, then the professional employer organization shall provide the following information to the administrator of the Nebraska Workers' Compensation Court. Such information shall be provided for any such professional employer agreement in effect on January 1, 2012, and prior to the effective date of any new professional employer agreement or any amendment of an agreement adding such a provision after January 1, 2012, and shall be provided in a form and manner prescribed by the administrator:

(a) The names and addresses of the client and the professional employer organization;

(b) The effective date of the professional employer agreement;

(c) A description of the employees covered under the professional employer agreement;

(d) Evidence that any and all other employees of the client are covered by a valid workers' compensation insurance policy; and

(e) Any other information the administrator may require regarding workers' compensation coverage of the professional employer organization, the client, or the covered employees.

(4) If workers' compensation coverage for a client's employees covered by the professional employer agreement and for other employees of the client is not entirely available in the voluntary market, then assigned risk workers' compensation coverage written subject to section 44-3,158 may only be written on a single policy that covers all employees and co-employees of the client. Assigned risk workers' compensation insurance for the professional employer organization may also be written, but only on a basis that covers its direct-hire employees and excludes employees and co-employees of its clients. The Department of Insurance may adopt and promulgate rules and regulations to implement this subsection.

(5) If a master policy or multiple coordinated policy providing coverage to a client is obtained by a professional employer organization, then the professional employer organization shall provide the client with a notice that the client shall conspicuously post at its workplace. Such notice shall provide the name and address of the workers' compensation insurer and the individual to whom claims shall be directed. If more than one workers' compensation insurer provides coverage for employees and co-employees of the client, the client shall post such information for all such workers' compensation insurers.

(6) Both the client and the professional employer organization shall be considered the employer for purposes of coverage under the Nebraska Workers' Compensation Act. The protection of the exclusive remedy provision of the act shall apply to the professional employer organization, to the client, and to all covered employees and other employees of the client regardless of which co-employer obtains such workers' compensation coverage.

(7) If a client receives notice of the cancellation, nonrenewal, or termination of workers' compensation coverage obtained by the professional employer organization, then the client may withdraw from the professional employer agreement without penalty unless the client is notified by the professional employer organization of replacement coverage within fifteen days after the notice.

(8) A professional employer organization shall not impose any fee increase on a client based on the actual or anticipated cost of workers' compensation coverage without giving the client at least thirty days' advance notice and an opportunity to withdraw from the professional employer agreement without penalty.

(9) The professional employer organization shall not make any materially inaccurate, misleading, or fraudulent representations to the client regarding the cost of workers' compensation coverage. If the professional employer organization charges the client an itemized amount for workers' compensation coverage, the professional employer organization shall provide the client with an accurate and concise description of the basis upon which it was calculated and the services that are included. A professional employer organization shall not charge a client an itemized amount for workers' compensation coverage that is materially inconsistent with the actual amounts that the professional employer organization is charged by the insurer, given reasonably anticipated loss-

(2) The application shall contain:

(a) A written statement describing the expected employment of qualifying employees in this state;

(b) Sufficient documents, plans, and specifications as required by the director to support the plan and to define a project; and

(c) A copy of the letter submitted to the director seeking approval of the employer's qualified training program.

(3) The application and all supporting information shall be confidential except, for each project:

(a) The name of the employer;

(b) The amount of the job training reimbursement;

(c) The number of persons trained, with such number divided into three categories: The number who reside in rural areas; the number who reside in poverty areas; and the number who reside in all other parts of Nebraska, based on the rural areas and poverty areas described in section 48-3006; and

qualifying employee on his or her employment application, within three hundred sixty-five days prior to the date of application, for the year of the project, and for the following twelve months.

The employer shall be required to provide this information to the director upon written request by the director.

The employer shall, to the extent of available job positions, give a hiring priority preference, over other similarly qualified applicants, to those applicants who (a) reside in Nebraska counties of less than one hundred thousand inhabitants, as determined by the most recent federal decennial census, with such residence as determined by the statement of the qualifying employee on his or her employment application, or (b) reside in areas of high concentration of poverty within the corporate limits of a city or village consisting of one or more contiguous census tracts, as determined by the most recent federal decennial census, which contain a percentage of persons below the poverty line of greater than thirty percent, and all census tracts contiguous to such tract or tracts, as determined by the most recent federal decennial census. Such job positions shall pay a wage of at least the then-required minimum hourly wage required by federal law. If the employer fails to provide such a hiring priority preference to one or more of the persons entitled to it, then the employer shall lose the right to one job training reimbursement for each such failure.

(2) The amount of the job training reimbursements allowed under subsection (1) of this section shall be three hundred dollars for each new qualifying employee hired by the employer after the application filing date, up to a total of five hundred qualifying employees per project, resulting in a maximum reimbursement per project of one hundred fifty thousand dollars.

(2) The acquiring employer, as of the date of notification of the director of the completed transfer, shall be entitled to any unused job training reimbursements and to any future job training reimbursements allowable under the act.

Ricketts*, 84 F.2d 795 (8th Cir. 1936).

3. Inconsistent with needs

Administrator may maintain action for damages after death of his intestate for pain and suffering inflicted on deceased, notwithstanding cause of action did not survive at common law. *Wilfong v. Omaha & C. B. St. Ry. Co.*, 129 Neb. 600, 262 N.W. 537 (1935).

4. Miscellaneous

If a defendant is denied his right to appeal because of counsel's failure to timely file notice of appeal, the proper means to attack such denial is a motion for postconviction relief and not a motion for writ of error coram nobis. A motion for writ of error coram nobis reaches only matters of fact unknown to the applicant at the time of judgment, not discoverable through reasonable diligence, and which, if known by the court, would have prevented entry of judgment. *State v. Johnson*, 243 Neb. 758, 502 N.W.2d 477 (1993).

Absence of statute granting interest in improvements to lessee at time school land lease entered required application of rules of this section. *State v. Bardsley*, 185 Neb. 629, 177 N.W.2d 599 (1970).

Cited in consideration of municipal tort immunity. *Brown v. City of Omaha*, 183 Neb. 430, 160 N.W.2d 805 (1968).

Doctrine of the right of privacy was not recognized in the common law. *Brunson v. Ranks Army Store*, 161 Neb. 519, 73 N.W.2d 803 (1955).

The common law is flexible, and by its own principles adapts itself to varying conditions. *State v. Tautges, Rerat & Welch*, 146 Neb. 439, 20 N.W.2d 232 (1945).

Notwithstanding common-law rule forbidding action for damages for death by wrongful act, pending action for personal injuries does not abate by death of plaintiff. *Murray v. Omaha Transfer Co.*, 98 Neb. 482, 153 N.W. 488 (1915), affirming 95 Neb. 175, 145 N.W. 360 (1914).

Term common law refers to that general system of law prevailing in England and most of the United States, by derivation from England, as distinguished from Roman or civil law system, in force in this territory prior to Louisiana Purchase. *Williams v. Miles*, 68 Neb. 463, 94 N.W. 705 (1903), 96 N.W. 151 (1903).

Rule that in adopting a statute from another state Legislature also adopts construction put upon it by that state is not absolute. *Rhea v. State*, 63 Neb. 461, 88 N.W. 789 (1902).

Whether rule of common law, that statutes in derogation thereof are to be strictly construed, is in force in this state, is doubted. *Kearney Electric Co. v. Laughlin*, 45 Neb. 390, 63 N.W. 941 (1895).

The plaintiff's characterization of his action as one seeking damages for misappropriation of his name and image could not serve as a means to escape the rule announced by the Nebraska Supreme Court that under Nebraska law one has no right to control the use of his name and image. *Carson v. National Bank of Commerce Trust & Sav.*, 501 F.2d 1082 (8th Cir. 1974).

It is not presumed that, in repeal of criminal statute, Legislature intended to cause dismissal of pending prosecution. *Lower v. State*, 109 Neb. 590, 191 N.W. 674 (1923).

Action foreclosing mortgage and for deficiency is pending action. *Hanscom v. Meyer*, 61 Neb. 798, 86 N.W. 381 (1901).

Repeal of statute will not affect pending suit to enforce right founded thereon. *Thompson v. West*, 59 Neb. 677, 82 N.W. 13 (1900).

Effect of repeal on pending proceeding, and legislative powers, is discussed. *Kleckner v. Turk*, 45 Neb. 176, 63 N.W. 469 (1895).

A suit pending to enforce a right or remedy conferred solely by statute is abated by the unconditional repeal of such statute before judgment. *Globe Pub. Co. v. State Bank of Nebraska at Crete*, 41 Neb. 175, 59 N.W. 683 (1894).

2. Causes of action not in suit

General saving statute preserves right of action on claim for deficiency judgment in suit to foreclose mortgage not due nor in litigation at time Legislature repealed statute permitting deficiency judgment. *Vlazny v. Dittrich*, 136 Neb. 266, 285 N.W. 697 (1939); *Filley v. Mancuso*, 135 Neb. 403, 281 N.W. 850 (1938); *First Trust Co. v. Eastridge Club*, 134 Neb. 785, 279 N.W. 720 (1938).

Right to deficiency judgment on a mortgage obligation created prior to amendment of law regulating foreclosure proceedings is preserved. *Vlazny v. Dittrich*, 136 Neb. 266, 285 N.W. 697 (1939).

Repeal of statute permitting recovery of a deficiency judgment does not prevent action to revive a dormant deficiency judgment. *McCormack v. Murray*, 133 Neb. 125, 274 N.W. 383 (1937).

The general saving statute preserves right of action on a claim for deficiency judgment in suit to foreclose a mortgage not due nor in litigation at time act was passed without a special saving clause. *Stowers v. Stuck*, 131 Neb. 409, 268 N.W. 310 (1936).

Repeal of statute relating to claims against bank depositors' guaranty fund did not affect claim already pending. *State ex rel. Spillman v. Security State Bank of Eddyville*, 116 Neb. 223, 216 N.W. 803 (1927).

Right to a deficiency judgment in an action based upon a mortgage executed before, but matured after, act of 1897 abolishing deficiency judgments was preserved. *Burrows v. Vanderbergh*, 69 Neb. 43, 95 N.W. 57 (1903).

Section relates only to causes of action accrued before such repeal. *City of Lincoln v. First Nat. Bank of Lincoln*, 67 Neb. 401, 93 N.W. 698 (1903).

3. Construction of statutes

The simultaneous repeal and reenactment of substantially the same statutory provisions is ordinarily construed to be an affirmation or continuation of the original provisions rather than a true repeal. Where a statute has been repealed and substantially reenacted with additions or changes, the additions or changes are treated as amendments effective from the time the new statute goes into effect. *Dairyland Power Co-op v. State Bd. of Equal.*, 238 Neb. 696, 472 N.W.2d 363 (1991).

A general savings statute providing that if a statute is repealed such repeal shall in no manner affect pending actions nor causes of action not in suit which accrued prior to such repeal, except as may be provided in the repealing statute, relates to substantive and not procedural law. *Denver Wood Products Co. v. Frye*, 202 Neb. 286, 275 N.W.2d 67 (1979).

The rule that punishment for an act is mitigated by amendment before final judgment does not apply where a new statute does not merely lessen the punishment but defines new categories of crimes and taken as a whole evidences a legislative intent that the penalty provision thereof not apply retroactively. *State v. Trowbridge*, 194 Neb. 582, 234 N.W.2d 598 (1975).

This saving clause on appeal applies to both civil and criminal statutes. *State v. Goham*, 187 Neb. 34, 187 N.W.2d 305 (1971).

Where a criminal statute is amended by mitigating the punishment after commission of a prohibited act but before final judgment, the punishment is that provided by the amendatory act unless the Legislature has specifically provided otherwise. *State v. Randolph*, 186 Neb. 297, 183 N.W.2d 225 (1971).

Repeal of a statute does not affect pending cases, nor accrued causes of action except as may be provided in the repealing statute. *State v. Duitsman*, 186 Neb. 39, 180 N.W.2d 685 (1970).

This section does not apply when the Legislature expressly provides that repealing act shall apply retroactively. *Davis v. General Motors Acceptance Corp.*, 176 Neb. 865, 127 N.W.2d 907 (1964).

General saving statute relates to substantive and not to procedural law. *Lindgren v. School Dist. of Bridgeport*, 170 Neb. 279, 102 N.W.2d 599 (1960).

The general saving clause applies as though it were expressly incorporated in a legislative act. *State ex rel. City of Grand Island v. Union Pacific R. R. Co.*, 152 Neb. 772, 42 N.W.2d 867 (1950).

Statutes in *pari materia* should be construed together. *State v. Omaha Elevator Co.*, 75 Neb. 637, 106 N.W. 979 (1906), 110 N.W. 874 (1906).

That accrued prior to any such repeal refers to time that obligation, out of which action arose, came into existence. *Hunter v. Lang*, 5 Neb. Unof. 323, 98 N.W. 690 (1904).

4. Miscellaneous

This section points the way for the Legislature in dealing with a resolution as distinguished from a statute. *State v. Goham*, 191 Neb. 639, 216 N.W.2d 869 (1974).

Where, in amending a statute, the Legislature specifically provides that such amendment shall take effect immediately, and shall apply to pending cases and to all cases hereafter brought, such act is controlling over general saving clause. *City*

of *Fremont v. Dodge County*, 130 Neb. 856, 266 N.W. 771 (1936).

Effect of repealing clause that certain sections and all acts and parts of acts in conflict are repealed is discussed. *State ex rel. Adair v. Drexel*, 74 Neb. 776, 105 N.W. 174 (1905).

Interpretation of statute by court of last resort is binding upon all departments of government. *State ex rel. Norton v. Van Camp*, 36 Neb. 91, 54 N.W. 113 (1893).

Where intention is not doubtful and amendatory act is not incongruous with title and scope of amended statute, amendment is valid. *Fenton v. Yule*, 27 Neb. 758, 43 N.W. 1140 (1889).

49-302 Repeal of law repealing former law; effect.

History of the enactment and repeal by the Nebraska Legislature of statutes relative to writ of certiorari in no manner supports the conclusion that the effect thereof is to abolish the writ of prohibition. *State ex rel. Wright v. Barney*, 133 Neb. 676, 276 N.W. 676 (1937).

Act amendatory of unconstitutional act is invalid. *City of Plattsmouth v. Murphy*, 74 Neb. 749, 105 N.W. 293 (1905).

Repeals by implication are not favored and such construction of a statute repealing another will not be adopted unless made necessary by evident intent of Legislature. *Schafer v. Schafer*, 71 Neb. 708, 99 N.W. 482 (1904); *Dawson County v. Clark*, 58 Neb. 756, 79 N.W. 822 (1899).

Where one section refers to another for its powers, provisions referred to become part of section and remain part thereof, although section referred to is repealed. *Shull v. Barton*, 58 Neb. 741, 79 N.W. 732 (1899).

Abortive attempt to limit operation of existing statute does not change its force. *Barker v. Potter*, 55 Neb. 25, 75 N.W. 57 (1898).

Legislative act, containing provision repugnant to an existing law, repeals that law by implication. *State ex rel. Smythe v. Magney*, 52 Neb. 508, 72 N.W. 1006 (1897).

Repeal and reenactment, clearly intended to continue uninterrupted operation of old statute, will be so construed. *State v. Wish*, 15 Neb. 448, 19 N.W. 686 (1884).

49-303 Repeal of statutes; deferred operative date; effect.

When any act of the Legislature provides for a deferred operative date and also contains a repeal section, the action of a subsequent Legislature in postponing or accelerating such operative date whether by reference to the session laws or to the sections of the act as caused to be printed by the Revisor of Statutes shall act as a corresponding postponement or acceleration of the operative date of the repeal section without the necessity of specific reference thereto unless the Legislature specifically and clearly expresses a different intent.

49-701 Revisor of Statutes; office created.

There is hereby created within the Legislative Council the office of Revisor of Statutes.

Source: Laws 1945, c. 119, § 1, p. 392; Laws 1967, c. 328, § 2, p. 869.

Legislature created the office of Revisor of Statutes to implement constitutional provision with respect to report of Judges of Supreme Court to Legislature of defects in Constitution and laws. *Haffke v. State*, 149 Neb. 83, 30 N.W.2d 462 (1948).

49-702 Revisor of Statutes; duties.

It shall be the duty of the Revisor of Statutes:

(1) To consult with and assist the Legislative Council prior to each regular session of the Legislature in the preparation of the report of the Legislative Council as to defects in the Constitution of Nebraska and laws of Nebraska and to draft in the form of bills proposed legislation to carry out the recommendations contained in the report;

(2) To prepare for submission to the Legislature, from time to time, when recommended by the Legislative Council in its report as to defects in the Constitution of Nebraska and laws of Nebraska, a rewriting and revision, chapter by chapter, in simplified style and phraseology, of the various chapters of the statutes of Nebraska;

(3) To publish annotations of the decisions of the Supreme Court of Nebraska, the Court of Appeals, and the federal courts as received from the Reporter of the Supreme Court and Court of Appeals; and

(4) To prepare, arrange, and correlate for publication, at the end of each legislative session, the laws enacted during the session and to arrange and correlate for publication replacements of the permanent volumes of the statutes.

The duties under subsection (4) of this section are continuing duties imposed upon the Revisor of Statutes each day during which the revisor occupies that office. *State ex rel. Wright v. Pepperl*, 221 Neb. 664, 380 N.W.2d 259 (1986).

Changes made by the Revisor of Statutes in preparing supplements and reissued or replacement volumes of revised statutes cannot change substantive meaning of any statute as enacted by

the Legislature. *State v. Karel*, 204 Neb. 573, 284 N.W.2d 12 (1979).

It is the duty of the Revisor of Statutes to prepare report of Judges of Supreme Court to Legislature and to draft legislation to carry out recommendations. *Haffke v. State*, 149 Neb. 83, 30 N.W.2d 462 (1948).

49-704 Revisor of Statutes; printing contracts; approval; number of volumes.

(1) The Revisor of Statutes may, subject to the approval of the Executive Board of the Legislative Council, negotiate and enter into a contract without advertising for bids for the editing, printing, binding, and publication, under his supervision and direction, of the supplements and reissued or replacement volumes to the statutes of Nebraska.

(2) The Revisor of Statutes shall cause a sufficient number of copies of such volumes to be printed under contract according to specifications to be formulated by the Revisor of Statutes.

49-705 Revisor of Statutes; supplements and reissued or replacement volumes; powers; clauses to be omitted; changes to be made, how shown.

(1) The Revisor of Statutes, in preparing supplements and reissued or replacement volumes for publication and distribution, shall not alter the sense, meaning or effect of any act of the Legislature, but may (a) renumber sections and parts of sections, (b) rearrange sections, (c) change reference numbers to agree with renumbered chapters, articles, or sections, (d) substitute the proper section, article, or chapter numbers for the terms the preceding section, this article, this act, and like terms, (e) strike out figures where they are merely a repetition of written words, (f) change capitalization for the purpose of uniformity, and (g) correct manifest clerical or typographical errors. The Revisor of Statutes shall omit all titles to acts, all enacting and repealing clauses, all declarations of emergency, and all validity and construction clauses, including sections stating the effective date of salary changes, unless, from their nature, it may be necessary to retain some of them to preserve the full meaning and intent of the law.

(2) In addition to the authority provided in subsection (1) of this section, the Revisor of Statutes, in preparing supplements and reissued or replacement volumes for publication and distribution, may (a) remove obsolete matter within any section, (b) omit obsolete sections stating the effective date of salary changes, (c) remove from within any section language which the Supreme Court has held to be unconstitutional without impairing the constitutionality of the remainder of the section, (d) omit any section or sections, or any complete act, which the Supreme Court has held to be unconstitutional, (e) reinstate a section as it existed immediately prior to an amendment which the Supreme Court has held unconstitutional, (f) correct faulty internal references, and (g)

harmonize provisions with former acts of the Legislature. Changes made under the provisions of this subsection shall be effective only upon publication in the supplement or replacement volume, which publication shall contain a brief note explaining the change made and citing this subsection as the authority therefor. No change made under the provisions of this subsection shall effect any change in the substantive meaning of any section. If the Revisor of Statutes is in doubt whether or not a specific change is authorized by this subsection, he shall not make the change but shall propose it as a legislative bill at the next regular session of the Legislature.

The Revisor of Statutes is obligated by law to print and publish laws as enacted by the Legislature and to not exercise discretion in excising a portion of these laws. The Revisor cannot make corrections or modifications which change the substantive meaning of a statute as enacted by the Legislature. *State v. Urbano*, 256 Neb. 194, 589 N.W.2d 144 (1999).

The fact that the language of a later-enacted statute is nearly identical to the language of an earlier-enacted statute which the Supreme Court has declared unconstitutional does not render the more recent statute unconstitutional unless and until it is

declared so by the Supreme Court, and, unless and until a law is declared unconstitutional by the Supreme Court, the authority granted to the Revisor of Statutes in subsection (2) of this section does not become operative. *State ex rel. Wright v. Pepperl*, 221 Neb. 664, 380 N.W.2d 259 (1986).

Changes made by the Revisor of Statutes in preparing supplements and reissued or replacement volumes of revised statutes cannot change substantive meaning of any statute as enacted by the Legislature. *State v. Karel*, 204 Neb. 573, 284 N.W.2d 12 (1979).

49-707 Copyright; distribution; price; disposition of proceeds; receipts.

The Revisor of Statutes shall cause the supplements and reissued volumes to be copyrighted under the copyright laws of the United States for the benefit of the people of Nebraska.

The supplements and reissued or replacement volumes shall be sold and distributed by the Supreme Court at such price as shall be prescribed by the Executive Board of the Legislative Council, which price shall be sufficient to recover all costs of publication and distribution.

The Supreme Court may sell for one dollar per volume any compilation or revision of the statutes of Nebraska that has been superseded by a later official revision, compilation, or replacement volume. The Supreme Court may dispose of any unsold superseded volumes in any manner it deems proper.

All money received by the Supreme Court from the sale of the supplements and reissued or replacement volumes shall be paid into the state treasury to the credit of the Nebraska Statutes Cash Fund or the Nebraska Statutes Distribution Cash Fund, as appropriate. That portion of the money received that represents the costs of publication shall be credited to the Nebraska Statutes Cash Fund, and that portion of the money received that represents the costs of distribution shall be credited to the Nebraska Statutes Distribution Cash Fund. The court shall take receipts for all such money paid into the funds.

Supplements and reissued volumes shall be furnished and delivered free of charge in the same number and to the same parties as are designated in section 49-617.

The constitutionality of the Nebraska Political Accountability and Disclosure Act is generally irrelevant to a disciplinary proceeding. Ordinarily, a respondent has no standing to challenge the act. *State ex rel. NSBA v. Douglas*, 227 Neb. 1, 416 N.W.2d 515 (1987).

49-1402 Legislative findings.

The Legislature finds:

(1) That the public interest in the manner in which election campaigns are conducted has increased greatly in recent years, creating a need for additional disclosure and accountability;

(2) That there is a compelling state interest in ensuring that the state and local elections are free of corruption and the appearance of corruption and that

this can only be achieved if (a) the sources of funding of campaigns are fully disclosed and (b) the use of money in campaigns is fully disclosed;

(3) That it is essential to the proper operation of democratic government that public officials and employees be independent and impartial, that governmental decisions and policy be made in the proper channels of governmental structure, and that public office or employment not be used for private gain other than the compensation provided by law; and

(4) That the attainment of one or more of these ends is impaired when there exists, or appears to exist, a substantial conflict between the private interests of a public official and his or her duties as such official; and that although the vast majority of public officials and employees are dedicated and serve with high integrity, the public interest requires that the law provide greater accountability, disclosure, and guidance with respect to the conduct of public officials and employees.

49-1476 Lottery contractor; legislative findings.

The Legislature finds that in sponsoring a lottery, the state undertakes a unique enterprise which can succeed only if the public has confidence in the integrity of the lottery and the process by which government decisions relating to the lottery are made. The Legislature finds that there is a compelling state interest in ensuring the integrity and the appearance of integrity of elections for state elective office and of the state-sponsored lottery. The Legislature further finds that the practice of contributions being given to candidates for state elective offices by individuals or entities holding contracts with the state to supply goods or services in connection with the state-sponsored lottery for significant monetary prizes contributes to actual corruption or the appearance of corruption and diminishes public confidence in government and in the state-

sponsored lottery. The Legislature finds that sections 49-1476.01 and 49-1476.02 are consistent with these findings.

CONSTITUTION OF NEBRASKA

Section

49-1701. Constitution of Nebraska; Revisor of Statutes; duties; Secretary of State; review; Clerk of the Legislature; duties.

49-1701 Constitution of Nebraska; Revisor of Statutes; duties; Secretary of State; review; Clerk of the Legislature; duties.

(1) Except as provided in subsection (6) of this section, following each regular session of the Legislature, the Revisor of Statutes shall compile an updated copy of the Constitution of Nebraska, showing all sections as they exist at that time and including notes after the end of each section as follows:

(a) For each section, the Revisor of Statutes shall provide a note referencing the source of such section and any amendments thereto;

(b) If a section is declared unconstitutional or inoperative, in whole or in part, by the final judgment of a federal court or the Nebraska Supreme Court, the Revisor of Statutes shall provide a note to that effect. The Attorney General shall assist the Revisor of Statutes in complying with this subdivision by promptly notifying the Revisor of Statutes when any section is declared unconstitutional or inoperative; and

(c) For any section, the Revisor of Statutes may provide additional notes at his or her discretion.

(2) The Revisor of Statutes shall, within two days after the Legislature has adjourned sine die, transmit the updated copy of the Constitution of Nebraska as compiled under subsection (1) of this section to the Secretary of State for his or her review to determine whether the updated copy accurately reflects the text of the Constitution of Nebraska as it exists at that time. If the Secretary of State determines that any changes are necessary, he or she shall, within five days after receipt of the updated copy, notify the Revisor of Statutes of the changes. The Revisor of Statutes shall make such changes and then promptly return the updated copy to the Secretary of State for further review. If the Secretary of State determines that no changes are necessary or that all necessary changes have been made by the Revisor of Statutes, the Secretary of State shall certify the updated copy as an accurate reflection of the text of the Constitution of Nebraska as it exists at that time. The Secretary of State shall then transmit the certified copy to the Clerk of the Legislature for distribution no later than ten days after the Legislature has adjourned sine die.

(3) After receiving the certified copy of the Constitution of Nebraska from the Secretary of State pursuant to subsection (2) of this section, the Clerk of the Legislature shall:

(a) Make the certified copy available in electronic form on the Legislature's website;

(b) Include the certified copy in the session laws compiled and published pursuant to section 49-501.01; and

(c) Print pamphlets of the certified copy for distribution to the public upon request.

(4) The certified copies printed by the Clerk of the Legislature pursuant to subdivisions (3)(b) and (3)(c) of this section shall constitute the official version of the Constitution of Nebraska and may be cited as prima facie evidence of the law in all courts of this state.

(5) The Secretary of State shall maintain in his or her office a copy of every edition of the Constitution of Nebraska certified pursuant to this section.

(6) Following any regular session of the Legislature, if the Revisor of Statutes determines that there have been no changes to the text of the Constitution of Nebraska and no changes to the notes required by subsection (1) of this section, the Revisor of Statutes may decide not to compile an updated copy of the Constitution of Nebraska for that year. If the Revisor of Statutes decides not to compile an updated copy for the year, he or she shall notify the Secretary of State and the Clerk of the Legislature of such fact and the Clerk of the Legislature shall continue to use the most recent year's certified copy for purposes of subsection (3) of this section.

50-102 Members; credentials committee; report; when waived.

(1) When the Legislature is temporarily organized it shall elect a committee of five by ballot, which committee shall examine and report upon the credentials of those claiming to be elected members, and, when such report is made, those reported as elected shall proceed to the permanent organization of the Legislature. The Legislature shall be the sole judge of the election returns and qualifications of its own members.

(2) The Legislature may waive the requirements set forth in subsection (1) of this section whenever it is reasonably apparent to the members of the Legislature that there is not, or is not likely to be, a contest of any election result. If the provisions of subsection (1) are waived, the Legislature may, by rule, provide for the certification of members elected to the Legislature.

50-103 Oaths; members may administer.

Any member may administer oaths in the Legislature, and while acting on a committee may administer oaths on the business of such committee.

Although this section provides that any member of the Legislature "May administer oaths in the Legislature, and while acting on a committee may administer oaths on the business of such committee" no Nebraska statute requires that an oath be administered to individuals testifying before a legislative committee. *State v. Douglas*, 222 Neb. 833, 388 N.W.2d 801 (1986).

50-104 Speech; legislative privilege.

No member of the Legislature shall be questioned in any other place for any speech or words spoken in debate in the Legislature.

50-105 Contempt, defined; punishment.

The Legislature has power and authority to punish as a contempt by fine or imprisonment, or either of them, the offense of knowingly arresting a member in violation of his privilege; of assaulting or threatening to assault a member, or threatening to do him any harm, in person or property, for anything said or done as a member thereof; of attempting, by menace or other corrupt means, to control or influence a member in giving his vote, or to prevent his giving it; of disorderly or contemptuous conduct tending to disturb its proceedings; of refusing to attend or to be sworn or to be examined as a witness before the Legislature or a committee, when duly summoned; of assaulting or preventing any person going to the Legislature, or its committee, by order thereof, knowing the same; of rescuing or attempting to rescue any person arrested by order of the Legislature, knowing of such arrest; and of knowingly injuring any officer of the Legislature in the discharge of his duties as such.

Although this section authorizes the Legislature to hold in contempt a person refusing to be sworn, when required by a committee of the Legislature pursuant to a rule of the Nebraska Unicameral, the statute does not explicitly require an oath to be administered to persons testifying before a committee. *State v. Douglas*, 222 Neb. 833, 388 N.W.2d 801 (1986).

50-106 Contempt; imprisonment; maximum sentence.

Imprisonment for contempt of the Legislature shall not be for more than six hours, and shall be in the jail of the county in which the Legislature may be sitting.

50-108 Contempt; fines and imprisonment; how effected.

Fines and imprisonment shall be only by virtue of an order of the Legislature, entered on its journal stating the grounds therefor. Imprisonment shall be effected by a warrant, under the hand of the presiding officer for the time being, countersigned by the Clerk of the Legislature, running in the name of the state and directed to the sheriff of the proper county. Under such warrant, the officer of the Legislature, sheriff, and jailer will be authorized to arrest and detain the person.

50-109 Contempt; fines; collection.

Fines shall be collected by virtue of a similar warrant, directed to any proper officer of the county in which the offender has property, and executed in the same manner as executions for fines issued by courts of justice, and the proceeds shall be paid into the state treasury.

50-449 Youth Rehabilitation and Treatment Center-Geneva; legislative findings.

The Legislature finds that in the summer of 2019, the Department of Health and Human Services notified the Health and Human Services Committee of the Legislature of deteriorating conditions at the Youth Rehabilitation and Treatment Center-Geneva. Such conditions necessitated the relocation of female youth from the Youth Rehabilitation and Treatment Center-Geneva due to living conditions posing a threat to the health, safety, and welfare of the female youth residing at the facility under court order. The Health and Human Services Committee of the Legislature found, through a series of public hearings and comments during the 2019 interim, that there was a breakdown in the day-to-day operations of the Youth Rehabilitation and Treatment Center-Geneva, including (1) disrepair of the facilities making them uninhabitable, (2) inadequate staffing, (3) a lack of proper behavioral or mental health services and treatment programming, and (4) a lack of health care, including, but not limited to, medication management. The Department of Health and Human Services has released a business plan to reorganize the youth rehabilitation and treatment center model in Nebraska on a condensed timeline without consultation or input from the Legislature or stakeholders with experience and expertise in youth rehabilitation and treatment. The safety, quality of life, and right to

a safe treatment environment for these youth is of the utmost concern to the Legislature, and it is clear the Youth Rehabilitation and Treatment Center-Geneva has reached a critical point in its ability to care for the female youth entrusted to its care.

As people consider where to live, access to sustainable water resources and outdoor recreational opportunities will be important considerations in making Nebraska a competitive choice for the future;

- 50-1303. Government, Military and Veterans Affairs Committee; conduct evaluation.

50-1301 Legislative findings.

The Legislature finds that state government actions have produced an increase in the numbers of boards, commissions, and similar entities that support, advise, direct, or administer various state programs. The process has evolved without sufficient legislative and executive oversight and without a system of checks and balances. Because the Legislature is responsible for the expenditure of public money and the shaping of the administration of state

government and is held accountable for fiscal policy, the Legislature should also be responsible for the termination, continuation, or modification of such boards, commissions, and similar entities so that it may be assured that its directives have been faithfully carried out.

Source: Laws 1999, LB 298, § 1.

50-1302 Government, Military and Veterans Affairs Committee; report.

(1) Every four years, beginning in 2008, the Government, Military and Veterans Affairs Committee of the Legislature shall prepare and publish a report pertaining to boards, commissions, and similar entities created by law that are made part of or are placed in the executive branch of state government. The committee may also include entities created by executive order or by an agency director. The report shall be submitted electronically to the Legislature on December 1 of such year.

(2) The report shall include, but not be limited to, the following:

- (a) The name of each board, commission, or similar entity;
- (b) The name of a parent agency, if any;
- (c) The statutory citation or other authorization for the creation of the board, commission, or entity;
- (d) The number of members of the board, commission, or entity and how the members are appointed;
- (e) The qualifications for membership on the board, commission, or entity;
- (f) The number of times the board, commission, or entity is required to meet during the year and the number of times it actually met;
- (g) Budget information of the board, commission, or entity for the four most recently completed fiscal years; and
- (h) A brief summary of the accomplishments of the board, commission, or entity for the past four years.

50-1303 Government, Military and Veterans Affairs Committee; conduct evaluation.

(1) The Government, Military and Veterans Affairs Committee of the Legislature may randomly select and conduct an evaluation of any board, commission, or similar entity. An evaluation conducted by the committee shall include, but not be limited to, the following:

- (a) A review of the basic assumptions underlying the creation of the board, commission, or entity;
- (b) A statement of the impact and effectiveness of the programs, policies, services, or activities administered by, or under the supervision of, the board, commission, or entity; and
- (c) A recommendation as to whether the board, commission, or entity should be terminated, continued, or modified.

(2) If the committee believes that a more extensive evaluation of a board, commission, or entity is necessary, the chairperson of the committee, on the committee's behalf, may request the Legislative Performance Audit Committee

to conduct a performance audit pursuant to the Legislative Performance Audit Act. Nothing in this section shall be construed to give requests for performance audits under this section priority over other requests under consideration by the Legislative Performance Audit Committee.

(2) The Government, Military and Veterans Affairs Committee of the Legislature shall use its staff and may also request assistance from the Director of Research of the Legislature, the Legislative Fiscal Analyst, or any other division within the Legislature as may be necessary in the performance of the duties set forth in sections 50-1301 to 50-1304.

The city council of any city, the board of trustees of any incorporated village, the county board of any county, and the electors of any township at their annual town meeting shall have the power to establish a public library free of charge for the use of the inhabitants of such city, village, county, or township.

Any such council, board, or electors may also contract for the use of a public library already established and may levy a tax of not more than ten and five-tenths cents on each one hundred dollars upon the taxable value of all the taxable property in such city, village, county, or township annually to be levied and collected in like manner as other taxes in such city, village, county, or township, except that when any county discontinues township organization, the county shall levy and collect a tax of not more than ten and five-tenths cents on each one hundred dollars for such public library. The levy shall be subject to sections 77-3442 and 77-3443. The amount collected from such levy shall be known as the library fund.

Before establishing a county library, the county board shall submit the question to the voters of the county at a general election pursuant to section 32-559, including only incorporated and unincorporated areas which do not have a public library, and a majority of the voters voting on the question of whether to establish a county library shall authorize the establishment of such county library and the levying of the tax. A city, village, or township within the county that has a public library may merge with the county library, if established, upon a majority vote pursuant to section 51-201.04. When such questions are submitted and carried, the county board shall include the county library in its next succeeding estimate and levy. Such submission shall not be required when the board levies a tax for the purpose of contracting for use of a library already established. When the county board makes a levy for a county library or for the purpose of contracting for use of a public library already established, the county board shall omit from the levy of the library tax all property within the limits of any city, village, or township in such county which already maintains a library by public tax unless the voters of the city, village, or township have voted to merge with the county library.

The method of merger of libraries provided in this section and sections 51-201.03 to 51-201.07 shall not be construed as the exclusive way to merge libraries or library facilities. Nothing in such sections shall prohibit a county, city, village, or township from entering into an agreement pursuant to the Interlocal Cooperation Act or the Joint Public Agency Act relating to library services.

51-704 Acquisition of title to loaned property; when.

Subject to any existing security interest in the property, a museum may acquire title to property on permanent loan or loaned for a specified term that has expired if:

- (1) The museum gives written notice that the museum is terminating the loan of the property;
- (2) The notice that the loan of the property is being terminated includes a statement containing substantially the following information:

The records of (name of museum) indicate that you have property on loan to it. The institution wishes to terminate the loan. If you desire to claim the property, you must contact the institution, establish your ownership of the property, and make arrangements to collect the property. If you fail to do so promptly, you will be considered to have donated the property to the institution; and

- (3) The lender does not respond to the notice of termination provided under subdivision (1) of this section within one year after receipt of the notice by filing a notice of intent to preserve an interest in the property on loan.

51-705 Acquisition of title to undocumented property; when.

Subject to any existing security interest in the property, a museum may acquire title to undocumented property held by the museum for at least seven years as follows:

- (1) The museum must give notice as provided in subsection (3) of section 51-703 that the museum is asserting title to the undocumented property;
- (2) The notice that the museum is asserting title to the property must include a statement containing substantially the following information:

The records of (name of museum) fail to indicate the owner of record of certain property in its possession. The museum hereby asserts title to the following property: (general description of property). If you claim ownership or other legal interest in this property, you must contact the museum, establish ownership of the property, and make arrangements to collect the property. If you fail to do so within three years, you will be considered to have waived any claim you may have had to the property; and

- (3) If a claimant or lender does not respond to the notice provided in subdivision (2) of this section within three years by giving a written notice of

intent to retain an interest in the property on loan, the museum's title to the property becomes absolute.

Source: Laws 1996, LB 1276, § 5.

51-706 Preservation of interest in loaned property; notice; contents.

(1) A notice of intent to preserve an interest in property on loan to a museum filed pursuant to the Museum Property Act shall be in writing and contain all of the following information:

(a) A description of the property adequate to enable the museum to identify the property;

(b) Documentation sufficient to establish the claimant as owner of the property or a holder of a security interest in the property;

(c) A statement attesting to the truth, to the best of the signer's knowledge, of all information included in or with the notice; and

(d) The signature, under penalty of perjury, of the claimant or a person authorized to act on behalf of the claimant.

(2) The museum need not retain a notice which does not meet the requirements set forth in subsection (1) of this section. If the museum does not intend to retain a notice for this reason, the museum shall promptly notify the claimant at the address given on the notice that the museum believes the notice is ineffective to preserve an interest and the reasons for the insufficiency. The fact that a museum retains a notice under section 51-710 does not mean that the museum accepts the sufficiency or accuracy of the notice or that the notice is effective to preserve an interest in property on loan to the museum.

Source: Laws 1996, LB 1276, § 6.

51-707 Conservation measures; authorized; effect.

(1) Unless there is a written loan agreement to the contrary, a museum may apply conservation measures to loaned property if immediate action is required to protect the property on loan or to protect other property in the custody of the museum, or the property on loan has become a hazard to the health and safety of the public or of the museum's staff, and:

(a) The museum cannot reach the lender at the lender's last address of record so that the museum and the lender can promptly agree on a solution; or

(b) The lender will not agree to the protective measures the museum recommends, yet is unwilling or unable to terminate the loan and retrieve the property.

(2) If a museum applies conservation measures under subsection (1) of this section, the museum:

(a) Has a lien on the property and on the proceeds from any disposition of the property for the costs incurred by the museum; and

(b) Is not liable for injury to or loss of the property if the museum:

(i) Had a reasonable belief at the time the action was taken that the action was necessary to protect the property on loan or other property in the custody of the museum or that the property on loan constituted a hazard to the health and safety of the public or the museum's staff; and

(ii) Exercised reasonable care in the choice and application of the conservation measures.

Source: Laws 1996, LB 1276, § 7.

51-708 Limitation of actions; liability.

(1) An action shall not be brought against a museum for damages because of injury to or loss of property loaned to the museum more than three years from the date the museum gives the lender or claimant notice of the injury or loss or ten years from the date of the injury or loss, whichever occurs earlier.

(2) An action shall not be brought against a museum to recover property on loan more than one year after the date the museum gives the lender or claimant notice of its intent to terminate the loan or notice of acquisition of title to undocumented property.

(3) An action shall not be brought against a museum to recover property on loan more than seven years from the date of the last written contact between the lender or claimant and the museum as evidenced by the museum's records.

(4) A lender or claimant is considered to have donated loaned property to the museum if the lender fails to file an action to recover the property on loan to the museum within the time periods specified in subsections (1) through (3) of this section.

(5) Notwithstanding subsections (3) and (4) of this section, a lender or claimant who was not given notice as provided in the Museum Property Act that the museum intended to terminate a loan as provided in section 51-704 and who proves that the museum received an adequate notice of intent to preserve an interest in loaned property, which satisfies all of the requirements of section 51-706, within the seven years immediately preceding the filing of an action to recover the property, may recover the property or, if the property has been disposed of, the reasonable value of the property at the time it was disposed of plus interest at the legal rate.

(6) A museum is not liable at any time, in the absence of a court order, for returning property to the original lender even if a claimant other than the lender has filed a notice of intent to preserve an interest in property. If a person claims competing interests in property in the possession of a museum, the burden is upon the claimant to prove the interest in an action in equity initiated by a claimant. A museum is not liable at any time for returning property to an uncontested claimant who produced reasonable proof of ownership or the existence of a security interest pursuant to section 51-706.

(1) The museum shall retain all written records regarding the property for at least three years after the date of taking title pursuant to the act;

(2) The museum shall keep written records on all loaned property acquired pursuant to section 51-704. Records shall contain the following information:

(a) The lender's name, address, and telephone number;

(b) The claimant's name, address, and telephone number;

- (c) The nature and terms of the loan; and

- (3) The museum is responsible for notifying a lender or claimant of the museum's change of address or dissolution.

 - (c) The donor's name, address, and telephone number;
 - (d) The seller's name, address, and telephone number;
 - (e) The nature and terms of the transaction (loan for specified term, loan for unspecified term, donation, purchase, etc.); and
 - (f) The beginning date of the loan period or transaction date.

Source: Laws 1996, LB 1276, § 10.

51-711 Lender or claimant; duty to notify museum; when.

(1) The lender or claimant of property on loan to a museum shall notify the museum of a change of address or change in ownership of the property. Failure to notify the museum of these changes may result in the lender's or claimant's loss of rights in the property.

(2) The lender or claimant of property on loan to a museum may file with the museum a notice of intent to preserve an interest in the property as provided for in section 51-706. The filing of a notice of intent to preserve an interest in property on loan to a museum does not validate or make enforceable any claim which would be extinguished under the terms of a written agreement or which would otherwise be invalid or unenforceable.

51-712 Death of owner of property; effect.

52-123 Failure to apply payments received on lawful claims; unlawful; failure to discharge lien; prima facie evidence of intent to deprive or defraud.

It shall be unlawful for any person, firm, or corporation who has taken a contract for the erection, improvement, repair, or removal of any house, mill, manufactory, or building of any kind for another, and has received payment in whole or in part upon such contract, to fail to apply the money so received, or so much thereof as may be necessary for that purpose, in payment of the lawful claims of such laborers or materialmen as could otherwise have a right to file a laborers' or materialmen's lien against such house or other structure, with the intent thereby to deprive or defraud the owner or person so paying the person, firm or corporation receiving payment, of his funds without discharging the liens, unless such person, firm, or corporation, taking such contract, shall have received and delivered to the owner of the property the written waiver of lien from all persons who otherwise would have a right to file a lien thereon. In any prosecution under sections 52-123 and 52-124 of the person, firm, or corpora-

tion so receiving payment, when it shall be shown in evidence that any lien for labor or materials existed in favor of any laborer or materialman and that such lien has been filed within the time and at the place as provided by law for the filing of such liens and that such person, firm, or corporation charged has received payment without discharging the lien to the extent of the funds received by him, the fact of acceptance of such payment without having discharged the lien within ten days after receipt of such payment shall be prima facie evidence of intent to deprive or defraud on the part of the person, firm, or corporation so receiving payment.

In this section the words "with the intent thereby to deprive or defraud," should be read as though it read "with the fraudulent intent thereby to deprive". State v. McConnell, 201 Neb. 84, 266 N.W.2d 219 (1978).

This section does not make the general contractor an agent or trustee for laborers or materialmen in receiving payments from the property owners, nor does it make the amounts so received

a trust fund. State v. McConnell, 201 Neb. 84, 266 N.W.2d 219 (1978).

No express trust arises by operation of this statute and, therefore, 11 U.S.C. 35(a)(14), which prescribes release of debt created by fraud of bankrupt when acting in a fiduciary capacity, does not apply to bankrupt contractor who failed to meet requirements of section 52-123. 52-124 Failure to apply payments for lawful claims; failure to discharge lien; penalty.

52-126 Sections, purpose.

Sections 52-125 to 52-159 creates, and provides for the attachment and enforceability of, a lien against real estate in favor of a person furnishing services or materials under a real estate improvement contract. Except as provided in sections 52-125 to 52-159, no nonconsensual lien arises against real estate by reason of improvements made thereon.

The Nebraska Construction Lien Act does not take away a construction lienholder's common-law right to sue for breach of

contract. Tilt-Up Concrete, Inc. v. Star City/Federal, Inc., 261 Neb. 64, 621 N.W.2d 502 (2001).

52-127 Terms, defined.

As used in sections 52-125 to 52-159, unless the context otherwise requires:

If no price is agreed upon by the contracting parties, contract price shall mean the reasonable value of all services or materials covered by the contract;

(3) Contracting owner shall mean a person who owns real estate and who, personally or through an agent, enters into a contract, express or implied, for the improvement of the real estate;

(4) Construction lien or lien shall mean a lien arising under sections 52-125 to 52-159, and shall not include a security interest;

(5) Notice of commencement shall mean the notice specified in section 52-145, whether recorded by an owner or by a claimant;

(6) Notice of termination shall mean a notice terminating a notice of commencement;

(7) Prime contract shall mean any real estate improvement contract made between the contracting owner and a prime contractor;

(8) Prime contractor shall mean any person who makes a real estate improvement contract with a contracting owner;

(11) Good faith shall mean honesty in fact and the observance of reasonable standards of fair dealing in the conduct or transaction involved;

(12) Judicial proceeding shall mean action at law or suit in equity, and any other proceeding in which rights are judicially determined;

(13) To record shall mean to present to the register of deeds for the county where the land is situated a document which he or she accepts and either enters in a daily log or notes thereon an identifying number, regardless of whether under applicable law the register of deeds is directed to file the document or otherwise to maintain a record of it. (15) Security interest shall mean a consensual interest in real estate which secures payment or performance of an obligation.

A potential purchaser's interest in a property does not satisfy the requirements of "contracting owner" under subsection (3) of this section, and, therefore, potential purchasers cannot limit their liability under subsection (5) of section 52-136 for construction liens properly recorded before the filing of their own

52-129 Protected party, residential real estate, defined.

(1) Protected party shall mean:

(a) An individual who contracts to give a real estate security interest in, or to buy or to have improved, residential real estate all or a part of which he or she occupies or intends to occupy as a residence;

(b) A person obligated primarily or secondarily on a contract to buy or have improved residential real estate or on an obligation secured by residential real estate if, at the time he or she becomes obligated, he or she is related to an individual who occupies or intends to occupy all or a part of the real estate as a residence; or

(c) With respect to a security agreement, a person who acquires residential real estate and assumes or takes subject to the obligation of a prior protected party under the real estate security agreement.

(2) Residential real estate shall mean, in relation to a protected party, real estate, improved or to be improved, containing not more than four dwelling units and no nonresidential uses for which the protected party is a lessor. A condominium unit that is otherwise residential real estate remains so even though the condominium development contains more than four dwelling units or units used for nonresidential purposes.

52-130 Real estate improvement contract, defined.

(1) Except as provided in subsection (2) of this section, real estate improvement contract shall mean an agreement to perform services, including labor, or to furnish materials for the purpose of producing a change in the physical condition of land or of a structure including:

(a) Alteration of the surface by excavation, fill, change in grade, or change in a shore, bank, or flood plain of a stream, swamp, or body of water;

(b) Construction or installation on, above, or below the surface of land;

(2) A contract for the mining or removal of timber, minerals, gravel, soil, sod, or things growing on land, or other similar contracts in which the activity is primarily for the purpose of realizing upon the disposal or removal of the objects removed, or a contract for the planting, cultivation, or harvesting of crops or for the preparation of the soil for planting of crops, is not a real estate improvement contract.

52-131 Construction lien; existence; amount; priority; enforcement.

(1) A person who furnishes services or materials pursuant to a real estate improvement contract has a construction lien, only to the extent provided in the Nebraska Construction Lien Act, to secure the payment of his or her contract price.

(2) A lien arises under the act only if the claimant records a lien within the time specified by section 52-137.

(3) Real estate to which a construction lien attaches is specified by section 52-133, and limitations on the existence of a lien for materials are specified by section 52-134.

(4) The amount of a claimant’s lien is specified by section 52-136. The content of the notice of the right to assert a lien to be given to the owner under section 52-136 is specified by section 52-135.

(5) The priority of a claimant’s lien as against other construction-lien claimants is specified in section 52-138, and priority as against claimants other than construction-lien claimants is specified in section 52-139.

(6) Foreclosure of a lien under the act is governed by section 52-155, and the time within which an action to foreclose must be brought by section 52-140.

52-132 Public property; exempt from lien.

52-133 Real estate subject to construction lien.

(1) If at the time a construction lien is recorded there is a recorded notice of commencement covering the improvement pursuant to which the lien arises,

the lien is on the contracting owner's real estate described in the notice of commencement.

(2) Except as provided in subsection (3) of this section, if at the time a construction lien is recorded there is no recorded notice of commencement covering the improvement pursuant to which the lien arises, the lien is on the contracting owner's real estate being improved or directly benefited.

(3) If a claimant who recorded a lien while there was no recorded notice of commencement covering the real estate later records a notice of commencement, his or her lien is on the contracting owner's real estate described in the notice of commencement.

(4) If as a part of an improvement on his or her real estate or for the purpose of directly benefiting his or her real estate an owner contracts for improvements on real estate not owned by him or her, persons who furnish services or materials in connection with that improvement have a lien against the contracting owner's real estate being improved or directly benefited to the same extent as if the improvement had been on the contracting owner's real estate.

(5) If a recorded notice of commencement covers more than one lot in a platted subdivision of record, a claimant may apportion his or her lien to the various lots covered by the notice of commencement in any proportion he or she chooses and states in his or her recorded lien, including assigning all his or her lien to a particular lot.

(6) If a recorded lien does not contain an apportionment as provided in subsection (5) of this section, the owner may make demand on the claimant to make an apportionment and, if the claimant does not, within thirty days after the demand, make an apportionment by recording an amendment of the recorded lien, the owner may make a good faith apportionment by recording an owner's statement of apportionment. Notwithstanding the fact that the owner did not in fact give the notice to apportion referred to in this subsection or for any other reason was not entitled to record a statement of apportionment, or did not make a good faith apportionment, the apportionment is conclusive in favor of persons acquiring interests in the real estate after the statement of apportionment is recorded.

52-134 Lien for materials; conditions; limitations.

(1) A lien for furnishing materials arises only if:

(a) They are supplied with the intent, shown by the contract of sale, the delivery order, delivery to the site by the claimant or at his or her direction, or by other evidence, that they be used in the course of construction of, or incorporated into, the improvement in connection with which the lien arises; and

(b) They are either:

(i) Incorporated in the improvement or consumed as normal wastage in construction operations;

(ii) Specially fabricated for incorporation in the improvements and not readily resalable in the ordinary course of the fabricator's business even though not actually incorporated in the improvement;

(iii) Used for the construction or for the operation of machinery or equipment used in the course of construction and not remaining in the improvement, subject to diminution by the salvage value of those materials; or

(iv) Tools, appliances, or machinery used on the particular improvement, but a lien for supplying tools, appliances, or machinery used on the improvement is limited as provided by subsection (3) of this section.

(2) The delivery of materials to the site of the improvement, whether or not by the claimant, creates a presumption that they were used in the course of construction or were incorporated into the improvement.

(3) A lien arising for the supplying of tools, appliances, or machinery under subdivision (1)(b)(iv) of this section is limited as follows:

(a) If they are rented, the lien is for the reasonable rental value for the period of actual use and any reasonable periods of nonuse taken into account in the rental contract; and

(b) If they are purchased, the lien is for the price but arises only if they were purchased for use in the course of the particular improvement and have no substantial value to the purchaser after the completion of the improvement on which they were used.

Source: Laws 1981, LB 512, § 10.

Subsection (3)(a) of this section requires that the reasonable rental value of equipment be determined in setting the amount of a lien, regardless of the monetary amount by which the value of the real estate is actually increased by the use of the rented equipment. *Midlands Rental & Mach., Inc. v. Christensen Ltd.*, 252 Neb. 806, 566 N.W.2d 115 (1997).

Testimony of a witness with personal knowledge is sufficient evidence to demonstrate that items listed on a construction lien were actually used. *Mid-America Maintenance v. Bill Morris Ford*, 232 Neb. 920, 442 N.W.2d 869 (1989).

52-135 Notice of right to assert lien; contents; optional notice to contracting owner; notice, when effective; applicability of section.

(1) At any time after a claimant has entered into the contract under which he or she may claim a lien under the Nebraska Construction Lien Act, he or she may give notice of the right to assert a lien to the contracting owner. The notice of the right to assert a lien must be in writing, state that it is a notice of a right to assert a lien against real estate for services or materials furnished in connection with improvement of the real estate, and contain:

(a) The name of the claimant and the address to which the owner or others may send communications to the claimant;

(b) The name and address of the person with whom the claimant contracted;

(c) The name of the owner against whom a lien is or may be claimed;

(d) A general description of the services or materials provided or to be provided;

(e) A description sufficient to identify the real estate against which the lien is or may be claimed;

(f) A statement that the claimant is entitled to record a lien;

(g) The amount unpaid to the claimant for services or materials, whether or not due, or if no amount is fixed by the contract, a good faith estimate of the amount designated as an estimate; and

(h) The following statement in type no smaller than that used in providing the information required by subdivisions (1)(a) through (1)(g) of this subsection:

Warning. If you did not contract with the person giving this notice, any future payments you make in connection with this project may subject you to double liability.

(2) A claimant may notify the contracting owner, either in the notice of the right to assert a lien or separately, that the claimant must be notified of the recording of any termination of the notice of commencement. The notice to the owner must be in writing and, if not part of the notice of the right to assert a lien, shall contain the information specified in subdivisions (1)(a) through (1)(e) of this section. In addition, the notice shall state that a written notice of the recording of any notice of termination must be given to the claimant at least three weeks before the effective date of the notice of termination.

(3) The claimant shall send a copy of a recorded lien to the contracting owner within ten days after recording, and the recording shall be within the time specified for the filing of liens under section 52-137.

(4) If the contracting owner has held out another person as contracting owner, either by naming that person in the notice of commencement or otherwise, a notice directed to and received by that person is effective against the contracting owner.

(5) If the contracting owner has held out a fictitious or nonexistent person as contracting owner either by naming that person in the notice of commencement or otherwise, a notice to that fictitious or nonexistent person delivered at an address held out by the contracting owner as the address of the fictitious or nonexistent person is effective against the contracting owner.

(6) This section shall apply to a lien claimant only when the contracting owner is a protected party.

Source: Laws 1981, LB 512, § 11; Laws 2003, LB 655, § 6.

This section applies only to protected parties, and although a party that may eventually claim a lien may, if it so desires, give notice of lien liability to the contracting owner, such notice is not required. *Midlands Rental & Mach., Inc. v. Christensen Ltd.*, 252 Neb. 806, 566 N.W.2d 115 (1997).

52-136 Amount of lien.

(1) Subject to subsection (3) of this section:

(a) The lien of a prime contractor is for the unpaid part of his or her contract price; and

(b) Except as against a protected party contracting owner, the lien of a claimant other than a prime contractor is for the amount unpaid under the claimant's contract.

(2) Except as modified by subsections (4) and (5) of this section, as against a protected party contracting owner, the lien of a claimant other than a prime contractor is for the lesser of:

(a) The amount unpaid under the claimant's contract; or

(b) The amount unpaid under the prime contract through which the claimant claims at the time the contracting owner receives the claimant's notice of the right to assert a lien.

(3) The lien of a claimant is reduced by the sum of the liens of claimants who claim through him or her.

(4) If a protected party contracting owner's lien liability under a particular prime contract as provided in subsection (5) of this section is less than the sum of claims of all claimants claiming through that particular prime contractor:

(a) Lien claimants whose liens attach at different times have liens in the order of attachment until the owner's lien liability is exhausted; and

(b) Among claimants whose liens attach, or may attach, at the same time, each claimant's lien is for his or her pro rata portion of the amount of the contracting owner's lien liability to claimants whose liens attach at that time.

(5) A protected party contracting owner's lien liability under a particular prime contract is the prime contract price less payments properly made thereon. A payment is properly made on a prime contract to the extent that the payment:

(a) Is made in good faith before the receipt by the contracting owner of a copy of a recorded lien or of a notice of the right to assert a lien; or

(b) If made after receipt by the contracting owner of a copy of a recorded lien or of a notice of the right to assert a lien, is made in good faith and leaves unpaid a part of the prime contract price sufficient to satisfy the unpaid claims of all claimants who have provided a copy of a recorded lien or who have given notice of the right to assert a lien and whose claims are not being satisfied by the payment.

Source: Laws 1981, LB 512, § 12; Laws 2003, LB 655, § 7.

A potential purchaser's interest in a property does not satisfy the requirements of "contracting owner" under subsection (3) of section 52-127, and, therefore, potential purchasers cannot limit their liability under subsection (5) of this section for construction liens properly recorded before the filing of their own title document. *Lincoln Lumber Co. v. Lancaster*, 260 Neb. 585, 618 N.W.2d 676 (2000).

The provisions of this section make it clear that a prime contractor is not entitled to payment from the owner until the

liens of the subcontractors are satisfied. *Action Heating & Air Cond. v. Petersen*, 229 Neb. 796, 429 N.W.2d 1 (1988).

Under this section, regardless of whether a claimant other than a prime contractor has substantially performed his or her contract, the claimant is entitled to a lien for the reasonable value of the labor he or she has performed and the material he or she has furnished. *Sorenson v. Dager*, 8 Neb. App. 729, 601 N.W.2d 564 (1999).

52-137 Attachment and enforcement of lien; recording required; time limitation; attachment, when.

(1) A claimant's lien does not attach and may not be enforced unless, after entering into the contract under which the lien arises and not later than one hundred twenty days after his or her final furnishing of services or materials, he or she has recorded a lien.

(2) If a lien is recorded while a notice of commencement is effective as to the improvement in connection with which the lien arises, the lien attaches as of the time the notice is recorded, even though visible commencement occurred before the notice is recorded. A notice of commencement is not effective until recording and, after recording, is effective until its lapse. A notice of commencement lapses at the earlier of its expiration as provided in subsection (2) of section 52-145 or the date it is terminated by a notice of termination as provided in section 52-146.

(3) If a lien is recorded while there is no recorded notice of commencement covering the improvement in connection with which the lien arises, the lien attaches at the earlier of visible commencement of the improvement or the recording of the lien, but if visible commencement has occurred before or within thirty days after the lapse of the last notice of commencement covering the improvement:

(a) The lien attaches at the time the lien is recorded if the lien is recorded within thirty days after lapse of the last effective notice of commencement; or

(b) The lien relates back to and attaches thirty-one days after the termination date if the lien is recorded more than thirty days after lapse of the last effective notice of commencement.

(4) If new construction is the principal improvement involved and the materials, excavation, preparation of an existing structure, or other preparation are readily visible on a reasonable inspection of the real estate, visible commencement occurs when:

(a) Materials are delivered to the real estate to which the lien attaches preparatory to construction;

(b) Excavation on the real estate to which the lien attaches is begun; or

(c) Preparation of an existing structure to receive the new construction, or other preparation of the real estate to which the lien attaches, is begun.

(5) In all cases not covered by subsection (4) of this section the time visible commencement occurs is to be determined by the circumstances of the case.

Source: Laws 1981, LB 512, § 13.

The prime purpose of a notice of commencement is to eliminate as a controvertible question of fact the time of visible commencement of operations by providing a method to deter-

mine this time with certainty. *Borrenpohl v. DaBeers Properties*, 276 Neb. 426, 755 N.W.2d 39 (2008).

52-138 Priority among lien claimants.

(1) All liens attaching at the same time have equal priority and share the amount received upon foreclosure of the liens and available for distribution to construction lien claimants in the same ratio as the ratio of the particular lien bears to the total of all liens attaching at the same time.

(2) Except as provided by subsection (3) of this section, liens attaching at different times have priority in the order of attachment.

(3) A claimant who records a notice of commencement after he or she has recorded a lien has only equal priority with claimants who record a lien while the notice of commencement is effective. Any priority which the claimant gained over third parties by recording his or her notice of lien is preserved for the benefit of all claimants having equal priority under this subsection.

Source: Laws 1981, LB 512, § 14.

52-139 Priority of construction liens as against claims other than construction lien claims.

(1) Except as provided in this section, a construction lien has priority over adverse claims against the real estate as if the construction-lien claimant were a purchaser for value without knowledge who had recorded at the time his or her lien attached.

(2) Except as provided in subsection (3) of this section, a construction lien has priority over subsequent advances made under a prior recorded security interest if the subsequent advances are made with knowledge that the lien has attached.

(3) Notwithstanding knowledge that the construction lien has attached, or the advance exceeds the maximum amount stated in the recorded security agreement and whether or not the advance is made pursuant to a commitment, a subsequent advance made under a security agreement recorded before the construction lien attached has priority over the lien if:

(a) The subsequent advance is made under a construction security agreement and is made in payment of the price of the agreed improvements;

(b) The subsequent advance is made or incurred for the reasonable protection of the security interest in the real estate, such as payment for real property taxes, hazard insurance premiums, or maintenance charges imposed under a condominium declaration or other covenant; or

(c) The subsequent advance was applied to the payment of any lien or encumbrance which was prior to the construction lien.

(4) To the extent that a subsequent security interest is given to secure funds used to pay a debt secured by a security interest having priority over a construction lien under this section, the subsequent security interest is also prior to the construction lien.

(5) Even though notice of commencement has been recorded, a buyer who is a protected party takes free of all construction liens that are not of record at the time his or her title document is recorded.

52-140 Duration of lien; demand to institute judicial proceedings; continuation of lien during pendency of proceeding.

(1) Except as provided in subsections (2) and (3) of this section, a lien that has become enforceable as provided in sections 52-125 to 52-159 continues enforceable for two years after recording of the lien.

(2) Except as provided in subsection (3) of this section, if an owner, holder of a security interest, or other person having an interest in the real estate gives the claimant written demand to institute a judicial proceeding within thirty days, the lien lapses unless within thirty days after receipt of the written demand, the claimant institutes judicial proceedings or records an affidavit that the total contract price is not yet due under the contract for which he or she recorded the lien.

(3) If a judicial proceeding to enforce a lien is instituted while a lien is effective under subsection (1) or (2) of this section, the lien continues during the pendency of the proceeding.

52-141 Surety bond; notice recorded; no lien attaches to real estate; bond, requirements; copy to claimant; action against surety.

(1) A lien does not attach to the real estate on behalf of any claimant claiming through a particular prime contractor if the owner or the prime contractor has procured from a surety company authorized to do business in this state a bond meeting the requirements of this section and has recorded a notice of surety bond.

(2) The bond must obligate the surety company, to the extent of the penal sum of the bond, to pay all sums due to construction lien claimants other than the prime contractor for services and materials supplied pursuant to the contract under which the lien would otherwise arise.

(3) The penal sum of the bond shall be not less than:

(a) Fifty percent of the contract price, if the prime contract price is not more than one million dollars;

(b) Forty percent of the contract price, if the prime contract price is more than one million dollars and not more than five million dollars;

(c) Two million, five hundred thousand dollars, if the prime contract price is more than five million dollars.

(4) The person procuring the bond shall furnish on request a true copy at cost of reproduction to any claimant and is liable to the requesting claimant for any damages caused by failure, without justification, to furnish a copy.

(5) A claimant may not recover under the bond provided for in this section unless he or she:

(a) Institutes suit against the surety within one year after the completion of his or her performance or within any longer period of time permitted by the terms of the bond; and

(b) If he or she is a claimant not having a direct contract relationship with the prime contractor, within ninety days after completion of his or her performance gives the prime contractor written notice of the amount due.

(6) A claimant having a claim under the bond may proceed directly against the surety. (2) The notice of commencement may state its duration, but if a duration is stated of less than six months from the time of recording, the duration of the notice is six months. If no duration is stated, the duration of the notice is one year after the recording.

(3) The notice of commencement may state that it is limited to a particular improvement project, or portion thereof, on the real estate. But the limitation is not effective unless the particular improvement, or portion thereof, to which it applies is stated with sufficient specificity that a claimant, by reasonable inquiry, can determine whether his or her contract is covered by the notice of commencement.

(4) A contracting owner may extend the duration of a notice of commencement by recording before the lapse thereof a continuation statement signed by him or her which refers to the record location and date of recording of the notice of commencement and states the date to which the notice of commencement's duration is extended.

(5) If no notice of commencement applies to an improvement, any claimant who is entitled to record a lien may record a notice of commencement denominated notice of commencement, claimant recording, signed by him or her, stating:

(6) A claimant recording a notice of commencement, not later than the day it is recorded, must send a copy thereof to the contracting owner. The claimant is liable to the contracting owner for any damages caused by failure to comply with this subsection.

(7) Sections 52-125 to 52-159 apply equally to all notices of commencement, but as to a notice of commencement recorded by a claimant:

(a) Notwithstanding any stated duration, the duration is one year after the recording; and

(b) The limitation under subsection (3) of this section is not effective.

(8) Unless a notice of commencement is limited to a particular improvement project, or portion thereof, it covers all improvements made on the real estate

described therein whether or not they were contemplated at the time of the recording.

(9) Unless a notice of commencement provides otherwise, it covers improvements made on real estate not owned by the contracting owner if, under subsection (4) of section 52-133, a lien arises against the contracting owner's real estate described in the notice of commencement as a result of the improvements.

If within thirty days after the filing of such lien with the county clerk as required by section 52-302, the owner fails to pay such charges, the lien shall be treated in all respects as a secured transaction as provided in article 9, Uniform Commercial Code, and may be foreclosed in the manner and form provided for the foreclosure of secured transactions as provided in article 9, Uniform Commercial Code, except that more than one article and charge may

be filed in the same lien and foreclosed in the same proceeding, and a publication of a list of several articles and charges published together shall be deemed sufficient notice. Such foreclosure shall be instituted within one year after the filing of the lien.

LIEN OF PHYSICIAN, NURSE, OR HOSPITAL

Section

52-401. Lien; scope and operation; exception; reduction, when; claim of lien; notice; priority of claims; access to records.

52-402. Physician, defined.

52-401 Lien; scope and operation; exception; reduction, when; claim of lien; notice; priority of claims; access to records.

Whenever any person employs a physician, nurse, chiropractor, or hospital to perform professional service or services of any nature, in the treatment of or in connection with an injury, and such injured person claims damages from the party causing the injury, such physician, nurse, chiropractor, or hospital, as the case may be, shall have a lien upon any sum awarded the injured person in judgment or obtained by settlement or compromise on the amount due for the usual and customary charges of such physician, nurse, chiropractor, or hospital applicable at the times services are performed, except that no such lien shall be valid against anyone coming under the Nebraska Workers' Compensation Act. For persons covered under private medical insurance or another private health benefit plan, the amount of the lien shall be reduced by the contracted discount or other limitation which would have been applied had the claim been submitted for reimbursement to the medical insurer or administrator of such other health benefit plan. The measure of damages for medical expenses in personal injury claims shall be the private party rate, not the discounted amount.

In order to prosecute such lien, it shall be necessary for such physician, nurse, chiropractor, or hospital to serve a written notice upon the person or corporation from whom damages are claimed that such physician, nurse, chiropractor, or hospital claims a lien for such services and stating the amount due and the nature of such services, except that whenever an action is pending in court for the recovery of such damages, it shall be sufficient to file the notice of such lien in the pending action.

A physician, nurse, chiropractor, or hospital claiming a lien under this section shall not be liable for attorney's fees and costs incurred by the injured person in securing the judgment, settlement, or compromise, but the lien of the injured person's attorney shall have precedence over the lien created by this section.

Upon a written request and with the injured person's consent, a lienholder shall provide medical records, answers to interrogatories, depositions, or any expert medical testimony related to the recovery of damages within its custody and control at a reasonable charge to the injured person.

1. Lien attachment

2. Usual and customary charges

In this section, the phrase "usual and customary charges" acts as a cap; it prevents the lien from being an amount greater than what the health care provider typically charges other patients for the services that it provided to the injured party. Midwest Neurosurgery v. State Farm Ins. Cos., 268 Neb. 642, 686 N.W.2d 572 (2004).

Under this section, the lien is equal to the debt still owed to the health care provider for its usual and customary charges. Midwest Neurosurgery v. State Farm Ins. Cos., 268 Neb. 642, 686 N.W.2d 572 (2004).

3. Miscellaneous

By perfecting the lien created under this section before the tort-feasor pays the judgment or settlement to the patient, the health care provider creates an obligation on the tort-feasor to ensure that the provider's bill will be satisfied from the funds that the tort-feasor owes to the patient. Midwest Neurosurgery v. State Farm Ins. Cos., 268 Neb. 642, 686 N.W.2d 572 (2004).

If a tort-feasor's insurer impairs a lien created under this section, then the insurer is directly liable to the health care provider for the amount that would have been necessary to satisfy the lien. Midwest Neurosurgery v. State Farm Ins. Cos., 268 Neb. 642, 686 N.W.2d 572 (2004).

A hospital lien which attaches prior to a patient's filing for bankruptcy relief is unaffected by the patient's discharge in bankruptcy. An insurance company breaches its duty to a hospital not to impair the hospital's rights under its lien by settling

The recovery of the full amount owed to a lienholder, less the lienholder's proportionate share for attorney fees and litigation expenses, operates to fully satisfy debt owed under this section. National Acct. Sys. of Lincoln v. Glasscock, 247 Neb. 620, 529 N.W.2d 529 (1995).

This section requires a pro rata reduction of medical provider's lien for any fees due patient's counsel. In re Guardianship & Conservatorship of Bloomquist, 246 Neb. 711, 523 N.W.2d 352 (1994).

The proper party defendant in a suit to enforce a hospital lien is generally the party responsible for the patient's injuries, not that party's insurer. A hospital lien attaches upon admission of the patient to the hospital for treatment and is thereafter enforceable against the patient, but perfection is required to enforce the lien against third parties. Upon perfection of a lien by a hospital, a duty arises on the part of the tort-feasor's insurer not to impair the hospital's lien, and if such an insurer settles directly with the injured party despite the existence of a perfected lien, it has breached that duty and is liable directly to the hospital. At least substantial compliance with the notice requirements of the hospital lien statute is necessary to perfect such a lien, and actual knowledge that the hospital is treating the patient alone is not sufficient. West Neb. Gen. Hosp. v. Farmers Ins. Exch., 239 Neb. 281, 475 N.W.2d 901 (1991).

The underlying common-law contractual obligation between a patient and a medical provider is not affected by a statutory lien. If a patient receives medical services, he or she is always responsible for payment irrespective of whether there is a financially responsible tort-feasor against whom a statutory lien can be asserted in the event of a settlement or judgment in the patient's favor. The patient's personal liability for medical services remains intact irrespective of the lien statute. In re Conservatorship of Marshall, 10 Neb. App. 589, 634 N.W.2d 300 (2001).

A lien that has been perfected under the law of the state where the hospital service was rendered constitutes a valid lien upon any award, judgment, or settlement, regardless of where the event which caused the injury occurred or of the residence of the injured party or the party causing the injury. - 52-501. Thresher's, combiner's, cornsheller's, or mechanical cornpicker's lien; perfection; financing statement; filing; enforcement; fee.

 52-503. Repealed. Laws 2001, LB 54, § 33.
 52-504. Lien satisfied; financing statement; termination.

52-501 Thresher's, combiner's, cornsheller's, or mechanical cornpicker's lien; perfection; financing statement; filing; enforcement; fee.

(1)(a) The owner or operator of any threshing machine or combine used in threshing, combining, or hulling grain or seed, (b) the owner or operator of any mechanical cornpicker or mechanical cornhusker used in picking or husking corn, and (c) the owner or operator of any cornsheller used in shelling corn shall have and hold a lien upon such grain, seed, or corn which he or she shall thresh, combine, hull, pick, husk, or shell with such machine to secure the payment to him or her of the charges agreed upon by the person for whom the threshing, combining, hulling, picking, husking, or shelling was done or, if no charges are agreed upon, for such charges as may be reasonable for such threshing, combining, hulling, picking, husking, or shelling.

(2) A lien created under this section shall be perfected as provided in article 9, Uniform Commercial Code. Any financing statement filed to perfect such lien shall contain or have attached thereto (a) the name and address and the social security number or federal tax identification number of the owner or operator claiming the lien, (b) the name and address and the social security number or federal tax identification number, if known, of the person for whom the threshing, combining, hulling, picking, husking, or shelling was done, (c) the amount due for such threshing, combining, hulling, picking, husking, or shelling, (d) the amount of grain, seed, or corn covered by the lien, (e) the place where the grain, seed, or corn is located, and (f) the date on which the threshing, combining, hulling, picking, husking, or shelling was done. Such financing statement shall be filed within thirty days after the threshing, combining, hulling, picking, husking, or shelling was done. The failure to include the social security number or federal tax identification number shall not render any filing unperfected. At the time the lien is filed, the lienholder shall send a copy to the person for whom the threshing, combining, hulling, picking, husking, or shelling was done.

(3) In the event the person for whom the threshing, combining, hulling, picking, husking, or shelling was done desires to sell or deliver the grain, seed, or corn so threshed, combined, hulled, picked, husked, or shelled to a grain elevator or to any other person, such person desiring to sell or deliver the grain, seed, or corn shall notify the consignee or purchaser that the threshing, combining, hulling, picking, husking, or shelling bill has not been paid, and the lien created under this section on such grain, seed, or corn shall shift to the purchase price thereof in the hands of the purchaser or consignee. In the event the grain, seed, or corn is sold or consigned with the consent or knowledge of the person entitled to a lien created under this section within thirty days after the date of such threshing, combining, hulling, picking, husking, or shelling, such lien shall not attach to the grain, seed, or corn or to the purchase price thereof unless the person entitled to the lien notifies the purchaser in writing of the lien.

(4) A lien created under this section shall be treated in all respects as an agricultural lien as provided in article 9, Uniform Commercial Code, and may be enforced in the manner and form provided for the enforcement of secured transactions as provided in article 9, Uniform Commercial Code, except that such enforcement shall be instituted within thirty days after the filing of the lien. The fee for filing, amending, or releasing such lien shall be the same as set forth in section 9-525, Uniform Commercial Code.

(5) Effective January 1, 2015, this section applies to a lien created under this section regardless of when the lien was created.

An action to declare a lien void because there is no underlying debt is an action at law. *Lone Cedar Ranches v. Jandebeur*, 246 Neb. 769, 523 N.W.2d 364 (1994).

The sole and only purpose of the thresher's lien law is to give notice of the existence of a lien by the person who combined the grain to all prospective purchasers of grain and to owners thereof within 30 days after completion of combining. The

holder of a thresher's lien has the same rights of enforcement given to owners of secured interests, including the remedy of replevin. A thresher's lien is remedial in nature and requires liberal construction so that a purchaser may not escape the statute by merely paying the seller in advance. *Honstein Trucking v. Sandhills Beef, Inc.*, 209 Neb. 422, 308 N.W.2d 331 (1981).

52-502 Lien; effect; not assignable; landlord's share exempt.

A lien created under section 52-501 shall not attach to such grain, seed, or corn in the hands of an innocent purchaser or dealer in the usual course of trade unless all the notices provided for in such section shall have been given. In the event the threshing, combining, hulling, picking, husking, or shelling was done on rented or leased land, the lien shall not apply to the landlord's or lessor's share of the grain, seed, or corn. The lien shall not be assignable.

The Secretary of State shall design and implement a central filing system for effective financing statements. The Secretary of State shall be the system operator. (1) That an effective financing statement or notice of such financing statement shall be filed in the office of the Secretary of State. A debtor's residence shall be presumed to be the residence shown on the filing. The showing of an improper residence shall not affect the validity of the filing. The filing officer shall mark the statement or notice with a consecutive file number and with the date and hour of filing and shall hold the statement or notice or a microfilm or other digital copy thereof for public inspection. In addition, the filing officer shall index the statements and notices according to the name of the debtor and shall note in the index the file number and the address of the debtor given in the statement;

(2) That the Secretary of State compile information from all effective financing statements or notices filed with the Secretary of State into a master list (a) organized according to farm product, (b) arranged within each such product (i) in alphabetical order according to the last name of the individual debtors or, in the case of debtors doing business other than as individuals, the first word in the name of such debtors, (ii) in numerical order according to the approved unique identifier of the debtors, (iii) geographically by county, and (iv) by crop year, and (c) containing the information referred to in subdivision (4) of section 52-1307;

(3) That the Secretary of State cause the information on the master list to be published in lists (a) by farm product arranged alphabetically by debtor and (b) by farm product arranged numerically by the debtor's approved unique identifier. If a registered buyer so requests, the list or lists for such buyer may be limited to any county or group of counties where the farm product is produced or located or to any crop year or years or a combination of such identifiers;

(4) That all buyers of farm products, commission merchants, selling agents, and other persons may register with the Secretary of State to receive or obtain lists described in subdivision (3) of this section. Any buyer of farm products, commission merchant, selling agent, or other person conducting business from multiple locations shall be considered as one entity. Such registration shall be on an annual basis. The Secretary of State shall provide the form for registration which shall include the name and address of the registrant and the list or lists described in subdivision (3) of this section which such registrant desires to receive or obtain. A registration shall not be completed until the form provided is properly completed and received by the Secretary of State accompanied by the proper registration fee. The fee for annual registration shall be thirty dollars.

A registrant shall pay an additional annual fee to receive or obtain lists described in subdivision (3) of this section. For each farm product list, the fee shall be an amount determined by the Secretary of State not to exceed two hundred dollars per year.

The Secretary of State shall maintain a record of the registrants and the lists and contents of the lists received or obtained by the registrants for a period of five years;

(5) That the lists as identified pursuant to subdivision (4) of this section be distributed or published by the Secretary of State not more often than once every month and not less often than once every three months as determined by the Secretary of State. The Secretary of State may provide for the distribution or publication of the lists on any medium and establish reasonable charges for such lists, not to exceed the charges provided for in subdivision (4) of this section.

The Secretary of State shall, by rule and regulation, establish the dates upon which the distributions or publications will be made, the dates after which a filing of an effective financing statement will not be reflected on the next distribution or publication of lists, and the dates by which a registrant must complete a registration to receive or obtain the next list; and

(6) That the Secretary of State remove lapsed and terminated effective financing statements or notices of such financing statements from the master list prior to preparation of the lists required to be distributed or published by subdivision (5) of this section.

Effective financing statements or any amendments or continuations of effective financing statements originally filed in the office of the county clerk that have been indexed and entered on the Secretary of State's central filing system need not be retained by the county filing office and may be disposed of or destroyed.

The Secretary of State shall apply to the Secretary of the United States Department of Agriculture for (a) certification of the central filing system and (b) approval of the system or method of selecting an approved unique identifier.

The Secretary of State shall remit any funds received pursuant to subdivision (4) of this section to the State Treasurer for credit to the Secretary of State Cash Fund.

If a lender does not respond to the supplier within fifteen calendar days after receiving the lien-notification statement:

(1) If the agricultural production input is feed for livestock, a supplier who furnishes the feed has an agricultural production input lien which has priority over any security interest of the lender for the unpaid retail cost of such feed. Such lien may not exceed the amount, if any, that the sales price of the livestock exceeds the greater of the fair market value of the livestock at the time the lien attaches or the acquisition price of the livestock; or

(2) For all other agricultural production input, a supplier who furnishes such agricultural production input has an agricultural production input lien which has priority over any security interest of the lender in the specified crops or their proceeds for the lesser of:

(a) The amount stated in the lien-notification statement; or

(b) The unpaid retail cost of the agricultural production input identified in the lien-notification statement.

52-2001. Lien; foreclosure; notice; priority; costs and attorney's fees; homeowners' association; furnish statement; restrictions on lien; payments to escrow account; use.

52-2001 Lien; foreclosure; notice; priority; costs and attorney's fees; homeowners' association; furnish statement; restrictions on lien; payments to escrow account; use.

(1) A homeowners' association has a lien on a member's real estate for any assessment levied against real estate from the time the assessment becomes due and a notice containing the dollar amount of such lien is recorded in the office where mortgages or deeds of trust are recorded. The homeowners' association's lien may be foreclosed in like manner as a mortgage on real estate but the homeowners' association shall give reasonable notice of its action to all lienholders of real estate whose interest would be affected. Unless the homeowners' association declaration or agreement otherwise provides, fees, charges, late charges, and interest charged are enforceable as assessments under this section. If an assessment is payable in installments, the full amount of the assessment may be a lien from the time the first installment thereof becomes due.

(2) A lien under this section is prior to all other liens and encumbrances on real estate except (a) liens and encumbrances recorded before the recordation of the declaration or agreement, (b) a first mortgage or deed of trust on real estate recorded before the notice required under subsection (1) of this section has been recorded for a delinquent assessment for which enforcement is sought, and (c) liens for real estate taxes and other governmental assessments

or charges against real estate. The lien under this section is not subject to the homestead exemption pursuant to section 40-101.

(3) Unless the declaration or agreement otherwise provides, if two or more homeowners' associations have liens for assessments created at any time on the same real estate, those liens have equal priority.

(4) A lien for unpaid assessments is extinguished unless proceedings to enforce the lien are instituted within three years after the full amount of the assessments becomes due.

(5) This section does not prohibit actions to recover sums for which subsection (1) of this section creates a lien or prohibit a homeowners' association from taking a deed in lieu of foreclosure.

(6) A judgment or decree in any action brought under this section must include costs and reasonable attorney's fees for the prevailing party.

(7) The homeowners' association, upon written request, shall furnish to a homeowners' association member a recordable statement setting forth the amount of unpaid assessments against his or her real estate. The statement must be furnished within ten business days after receipt of the request and is binding on the homeowners' association, the governing board, and every homeowners' association member.

(8) The homeowners' association declaration, agreements, bylaws, rules, or regulations may not provide that a lien on a member's real estate for any assessment levied against real estate relates back to the date of filing of the declaration or that such lien takes priority over any mortgage or deed of trust on real estate recorded subsequent to the filing of the declaration and prior to the recording by the association of the notice required under subsection (1) of this section.

(9) In the event of a conflict between the provisions of the declaration and the bylaws, rules, or regulations or any other agreement of the homeowners' association, the declaration prevails except to the extent the declaration is inconsistent with this section.

(10)(a) The homeowners' association may require a person who purchases restricted real estate on or after September 6, 2013, to make payments into an escrow account established by the homeowners' association until the balance in the escrow account for that restricted real estate is in an amount not to exceed six months of assessments.

(b) All payments made under this subsection and received on or after September 6, 2013, shall be held in an interest-bearing checking account in a bank, savings bank, building and loan association, or savings and loan association in this state under terms that place these payments beyond the claim of creditors of the homeowners' association. Upon request by an owner of restricted real estate, the homeowners' association shall disclose the name of the financial institution and the account number where the payments made under this subsection are being held. The homeowners' association may maintain a single escrow account to hold payments made under this subsection from all of the owners of restricted real estate. If a single escrow account is maintained, the homeowners' association shall maintain separate accounting records for each owner of restricted real estate.

(c) The payments made under this subsection may be used by the homeowners' association to satisfy any assessments attributable to an owner of

restricted real estate for which assessment payments are delinquent. To the extent that the escrow deposit or any part thereof is applied to offset any unpaid assessments of an owner of restricted real estate, the homeowners' association may require such owner to replenish the escrow deposit.

(d) The homeowners' association shall return the payments made under this subsection, together with any interest earned on such payments, to the owner of restricted real estate when the owner sells the restricted real estate and has fully paid all assessments.

(e) Nothing in this subsection shall prohibit the homeowners' association from establishing escrow deposit requirements in excess of the amounts authorized in this subsection pursuant to provisions in the homeowners' association's declaration.

(11) For purposes of this section:

(a) Declaration means any instruments, however denominated, that create the homeowners' association and any amendments to those instruments;

(b)(i) Homeowners' association means an association whose members consist of a private group of fee simple owners of residential real estate formed for the purpose of imposing and receiving payments, fees, or other charges for:

(A) The use, rental, operation, or maintenance of common elements available to all members and services provided to the member for the benefit of the member or his or her real estate;

(B) Late payments of assessments and, after notice and opportunity to be heard, the levying of fines for violations of homeowners' association declarations, agreements, bylaws, or rules and regulations; or

(C) The preparation and recordation of amendments to declarations, agreements, resale statements, or statements for unpaid assessments; and

(ii) Homeowners' association does not include a co-owners association organized under the Condominium Property Act or a unit owners association organized under the Nebraska Condominium Act; and

(c) Real estate means the real estate of a homeowners' association member as such real estate is specifically described in the member's homeowners' association declaration or agreement.

52-2102 Terms, defined.

For purposes of the Commercial Real Estate Broker Lien Act:

(1) Commercial real estate means any real estate other than real estate containing no more than four residential units or real estate on which no buildings or structures are located and that is zoned for single-family residential use. Commercial real estate does not include single-family residential units such as condominiums, townhouses, or homes in a subdivision when sold, leased, or otherwise conveyed on a unit-by-unit basis, even though these units may be a part of a larger building or parcel of real estate containing more than four residential units;

(2) Commission means any and all compensation that may be due a commercial real estate broker for performance of licensed services; and

(3) Commission agreement means a written agreement with a designated commercial real estate broker as required by subsections (2) through (6) of section 76-2422.

Source: Laws 2013, LB3, § 8.

52-2103 Lien; amount; attachment; when; notice of lien; recording; notice of lien for future commission; how treated.

(1)(a) A commercial real estate broker shall have a lien upon commercial real estate or any interest in that commercial real estate that is the subject of a purchase, lease, or other conveyance to a buyer or tenant of an interest in the commercial real estate in the amount of commissions that the commercial real estate broker is due.

(b) The lien shall be available only to the commercial real estate broker named in a commission agreement signed by an owner or buyer or their respective authorized agents as applicable and is not available to an employee, agent, subagent, or independent contractor of a commercial real estate broker.

(2) A lien under this section shall attach to commercial real estate or any interest in the commercial real estate when:

(a) The commercial real estate broker is entitled to a commission provided in a commission agreement signed by the owner, buyer, or their respective authorized agents, as applicable; and

(b) The commercial real estate broker records a notice of lien in the office of the register of deeds of the county in which the commercial real estate is located, prior to the actual conveyance or transfer of the commercial real estate against which the commercial real estate broker is claiming a lien, except as provided in this section. The lien shall attach as of the date of the recording of the notice of lien and shall not relate back to the date of the commission agreement.

(3) In the case of a lease, including a sublease or an assignment of a lease, the notice of lien shall be recorded not later than ninety days after the tenant takes possession of the leased premises. The lien shall attach as of the recording of the notice of lien and shall not relate back to the date of the commission agreement.

(4)(a) If a commercial real estate broker is due an additional commission as a result of future actions, including, but not limited to, the exercise of an option to expand the leased premises or to renew or extend a lease pursuant to a commission agreement signed by the then owner, the commercial real estate broker may record its notice of lien at any time after execution of the lease or other commission agreement which contains such option, but not later than ninety days after the event or occurrence on which the future commission is claimed occurs.

(b) In the event that the commercial real estate is sold or otherwise conveyed prior to the date on which a future commission is due, and if the commercial real estate broker has filed a valid notice of lien prior to the sale or other conveyance of the commercial real estate, then the purchaser or transferee shall be deemed to have notice of and shall take title to the commercial real estate subject to the notice of lien. If a commercial real estate broker claiming a future commission fails to record its notice of lien for future commission prior to the recording of a deed conveying legal title to the commercial real estate to the purchaser or transferee, then such commercial real estate broker shall not claim a lien on the commercial real estate. This subsection shall not limit or otherwise affect claims or defenses a commercial real estate broker or owner or any other party may have on any other basis, in law or in equity.

(5) If a commercial real estate broker has a commission agreement as described in subdivision (4)(a) of this section with a prospective buyer, then the lien shall attach upon the prospective buyer purchasing or otherwise accepting a conveyance or transfer of the commercial real estate and the recording of a notice of lien by the commercial real estate broker in the office of the register of deeds of the county in which the commercial real estate, or any interest in the commercial real estate, is located, within ninety days after the purchase or other conveyance or transfer to the buyer or tenant. The lien shall attach as of the date of the recording of the notice of lien and shall not relate back to the date of the commission agreement.

52-2104 Notice of lien; mailing of notice required; effect on lien.

The commercial real estate broker shall, within ten days after recording its notice of lien, either mail a copy of the notice of lien to the owner of record of the commercial real estate by registered or certified mail at the address of the owner stated in the commission agreement on which the claim for lien is based or, if no such address is given, then to the address of the commercial real estate on which the claim of lien is based. Mailing of the copy of the notice of lien is effective when deposited in a United States mailbox with postage prepaid. The commercial real estate broker's lien shall be unenforceable if mailing or service of the copy of notice of lien does not occur at the time and in the manner required by this section.

Source: Laws 2013, LB3, § 10.

52-2105 Notice of lien; contents.

The notice of lien shall state the name of the commercial real estate broker, the name as reflected in the commercial real estate broker's records of any person the commercial real estate broker believes to be an owner of the commercial real estate on which the lien is claimed, the name as reflected in the commercial real estate broker's records of any person whom the commercial real estate broker believes to be obligated to pay the commission under the commission agreement, a description legally sufficient for identification of the commercial real estate upon which the lien is claimed, and the amount for which the lien is claimed. The notice of lien shall recite that the information contained in the notice is true and accurate to the knowledge of the signatories. The notice of lien shall be signed by the commercial real estate broker or by a person authorized to sign on behalf of the commercial real estate broker and shall be notarized.

Source: Laws 2013, LB3, § 11.

52-2106 Lien; period of enforceability.

(1) Except as provided in subsections (2) and (3) of this section, a lien that has become enforceable as provided in section 52-2103 shall continue to be enforceable for two years after the recording of the lien.

(2) Except as provided in subsection (3) of this section, if an owner, holder of a security interest, mortgage, or trust deed, or other person having an interest in the commercial real estate gives the commercial real estate broker written demand to institute a judicial proceeding within thirty days, the lien lapses unless, within thirty days after receipt of the written demand, the commercial real estate broker institutes judicial proceedings.

(3) If a judicial proceeding to enforce a lien is instituted while a lien is effective under subsection (1) or (2) of this section, the lien continues during the pendency of the proceeding.

Source: Laws 2013, LB3, § 12.

52-2107 Priority of liens.

(1) Recorded liens, mortgages, trust deeds, and other encumbrances on commercial real estate, including a recorded lien securing revolving credit and future advances for a loan, recorded before the date the commercial real estate broker's lien is recorded, shall have priority over the commercial real estate broker's lien.

(2) A construction lien claim that is recorded after the commercial real estate broker's notice of lien but that relates back to a date prior to the recording date of the commercial real estate broker's notice of lien has priority over the commercial real estate broker's lien.

(3) A purchase-money lien executed by the buyer of commercial real estate in connection with a loan for which any part of the proceeds are used to pay the purchase price of the commercial real estate has priority over a commercial real estate broker's lien claimed for the commission owed by the buyer against the commercial real estate purchased by the buyer.

Source: Laws 2013, LB3, § 13.

52-2108 Release of lien; procedure; escrow established or interpleader filed; recording of document required; failure to file; additional procedures.

(1) Whenever a notice of a commercial real estate broker's lien has been recorded, the record owner of the commercial real estate may have the lien released by depositing funds equal to the full amount stated in the notice of lien plus fifteen percent to be applied towards any lien under section 52-2103. These funds shall be held in escrow by such person and by such process which may be agreed to by the parties, either in the commission agreement or otherwise, for the payment to the commercial real estate broker or otherwise for resolution for their dispute or, in the absence of any such mutually agreed person or process, the funds may be deposited with the district court by the filing of an interpleader. Upon such deposit of funds by interpleader, the commercial real estate shall be considered released from such lien or claim of lien. Upon written notice to the commercial real estate broker that the funds have been escrowed or an interpleader filed, the commercial real estate broker shall, within ten business days, record in the office of the register of deeds where the notice of commercial real estate broker's lien was filed pursuant to section 52-2103 a document stating that the lien is released and the commercial real estate released by an escrow established pursuant to this section or by interpleader. If the commercial real estate broker fails to file such document, the person holding the funds may sign and file such document and deduct from the escrow the reasonable cost of preparing and filing the document. Upon the filing of such document, the commercial real estate broker shall be deemed to have an equitable lien on the escrow funds pending a resolution of the commercial real estate broker's claim for payment and the funds shall not be paid to any person, except for such payment to the holder of the funds as set forth in this section, until a resolution of the commercial real estate broker's claim for payment has been agreed to by all necessary parties or ordered by a court having jurisdiction.

(2) Except as otherwise provided in this section, whenever a commercial real estate broker's lien has been recorded and an escrow account is established either from the proceeds from the transaction, conveyance, or any other source of funds computed as one hundred fifteen percent of the amount of the claim for lien, then the lien against the commercial real estate shall be extinguished and immediately become a lien on the funds contained in the escrow account. The requirement to establish an escrow account, as provided in this section, shall not be cause for any party to refuse to complete or close the transaction.

The Nebraska Liquor Control Act empowers the Nebraska Liquor Control Commission to include conditions on a liquor license if those restrictions are consistent with the purpose of the act and are reasonably necessary to the protection of the health, safety, and welfare of the people of the State of Nebraska and to the promotion and fostering of temperance in the con-

sumption of alcohol. *Abay, L.L.C. v. Nebraska Liquor Control Comm.*, 303 Neb. 214, 927 N.W.2d 780 (2019).

53-101.01 Statement of policy.

It is declared to be the policy of the Legislature to (1) regulate the transportation or importation of alcoholic liquor into this state when such alcoholic liquor is intended for delivery or use within the state, (2) promote adequate, economi-

cal, and efficient service by licensees selling alcoholic liquor within the State of Nebraska without unjust or undue discrimination, preference, or advantage, (3) generate revenue by imposing an excise tax upon alcoholic liquor, and (4) promote the health, safety, and welfare of the people of the state and encourage temperance in the consumption of alcoholic liquor by sound and careful control and regulation of the manufacture, distribution, and sale of alcoholic liquor.

It is the intent of the Legislature to encourage the production, use in manufacturing, and consumption of agricultural products grown within the state by providing for the existence of farm winery operations. The Legislature recognizes that the creation of farm wineries will stimulate the creation of jobs and investments in small communities, encourage the use of lands upon which grapes and other wine-related crops may be grown, and provide tax revenue which would not otherwise be realized.

It was error for the Nebraska Liquor Control Commission to refuse a license on grounds of "unfair competition" when the applicant was not advised ahead of time that that issue would be considered by the commission. A license may not be denied solely on the grounds that it might give one business a "competitive edge" over others in the area. *Halbert v. Nebraska Liquor Control Commission*, 206 Neb. 687, 294 N.W.2d 864 (1980).

The applicant shall demonstrate meeting the requirements of this subsection.

(2) No retail licensee, craft brewery licensee, microdistillery licensee, farm winery licensee, holder of a manufacturer's license issued pursuant to subsection (2) of section 53-123.01, organization, or corporation enumerated in subsection (1) of this section may be issued a special designated license under this section for more than six calendar days in any one calendar year. Only one special designated license shall be required for any application for two or more consecutive days. This subsection shall not apply to any holder of a catering license.

(3) Except for any special designated license issued to a holder of a catering license, there shall be a fee of forty dollars for each day identified in the special designated license. Such fee shall be submitted with the application for the special designated license, collected by the commission, and remitted to the State Treasurer for credit to the General Fund. The applicant shall be exempt from the provisions of the Nebraska Liquor Control Act requiring an application or renewal fee and the provisions of the act requiring the expiration of

forty-five days from the time the application is received by the commission prior to the issuance of a license, if granted by the commission. The retail licensees, craft brewery licensees, microdistillery licensees, farm winery licensees, holders of manufacturer's licenses issued pursuant to subsection (2) of section 53-123.01, municipal corporations, organizations, and nonprofit corporations enumerated in subsection (1) of this section seeking a special designated license shall file an application on such forms as the commission may prescribe. The local governing body may establish criteria for approving or denying a special designated license. The local governing body may designate an agent to determine whether a special designated license is to be approved or denied. Such agent shall follow criteria established by the local governing body in making his or her determination. The determination of the agent shall be considered the determination of the local governing body unless otherwise provided by the local governing body. For purposes of this section, the local governing body shall be the city or village within which the premises for which the special designated license is requested are located or, if such premises are not within the corporate limits of a city or village, then the local governing body shall be the county within which the premises for which the special designated license is requested are located.

53-127 Repealed. Laws 1989, LB 781, § 20; Laws 1993, LB 183, § 20.**53-128 Transferred to section 53-116.02.****53-129 Retail, bottle club, craft brewery, and microdistillery licenses; premises to which applicable; temporary expansion; procedure.**

(1) Except as otherwise provided in subsection (3) of this section, retail, bottle club, craft brewery, and microdistillery licenses issued under the Nebraska Liquor Control Act apply only to that part of the premises described in the application approved by the commission and in the license issued on the application. For retail, bottle club, and microdistillery licenses, only one location shall be described in each license. For craft brewery licenses, up to five separate physical locations may be described in each license.

(2) After such license has been granted for the particular premises, the commission, with the approval of the local governing body and upon proper showing, may endorse upon the license permission to add to, delete from, or abandon the premises described in such license and, if applicable, to move from the premises to other premises approved by the local governing body. In order to obtain such approval, the retail, bottle club, craft brewery, or microdistillery licensee shall file with the local governing body a request in writing and a statement under oath which shows that the premises, as added to or deleted from or to which such move is to be made, comply in all respects with the requirements of the act. No such addition, deletion, or move shall be made by any such licensee until the license has been endorsed to that effect in writing by the local governing body and by the commission and the licensee furnishes proof of payment of the renewal fee prescribed in subsection (4) of section 53-131.

(3)(a) A retail, bottle club, craft brewery, or microdistillery licensee may apply to the local governing body for a temporary expansion of its licensed premises to an immediately adjacent area owned or leased by the licensee or to an immediately adjacent street, parking lot, or alley, not to exceed fifty days for calendar year 2020 and, for each calendar year thereafter, not to exceed fifteen days per calendar year. The temporary area shall otherwise comply with all requirements of the Nebraska Liquor Control Act.

(b) The licensee shall file an application with the local governing body which shall contain (i) the name of the applicant, (ii) the premises for which a

temporary expansion is requested, identified by street and number if practicable and, if not, by some other appropriate description which definitely locates the premises, (iii) the name of the owner or lessee of the premises for which the temporary expansion is requested, (iv) sufficient evidence that the licensee will carry on the activities and business authorized by the license for himself, herself, or itself and not as the agent of any other person, group, organization, or corporation, for profit or not for profit, (v) a statement of the type of activity to be carried on during the time period for which a temporary expansion is requested, and (vi) sufficient evidence that the temporary expansion will be supervised by persons or managers who are agents of and directly responsible to the licensee.

(c) No temporary expansion provided for by this subsection shall be granted without the approval of the local governing body. The local governing body may establish criteria for approving or denying a temporary expansion. The local governing body may designate an agent to determine whether a temporary expansion is to be approved or denied. Such agent shall follow criteria established by the local governing body in making the determination. The determination of the agent shall be considered the determination of the local governing body unless otherwise provided by the local governing body.

(d) For purposes of this section, the local governing body shall be that of the city or village within which the premises for which the temporary expansion is requested are located or, if such premises are not within the corporate limits of a city or village, then the local governing body shall be that of the county within which the premises for which the temporary expansion is requested are located.

(e) The decision of the local governing body shall be final. If the applicant does not qualify for a temporary expansion, the temporary expansion shall be denied by the local governing body.

(f) The city, village, or county clerk shall deliver confirmation of the temporary expansion to the licensee upon receipt of any fee or tax imposed by such city, village, or county.

1. License issuance allowed

Decision of district court reversing city council's disapproval of class D liquor licenses for grocery stores affirmed because grocery stores met license issuance criteria set forth in statute. *B & R Stores v. City of Lincoln*, 245 Neb. 76, 511 N.W.2d 101 (1994).

Recommendation of denial made by city council based only on belief sufficient licenses exist does not justify denial of otherwise valid application. *McChesney v. City of No. Platte*, 216 Neb. 416, 343 N.W.2d 925 (1984).

In administrative hearing for license not required by section 53-133(1), where evidence fails to establish valid ground for denial, this section requires that license be issued. *Hadlock v. Nebraska Liquor Control Commission*, 193 Neb. 721, 228 N.W.2d 887 (1975).

In the absence of protest within three days, license must be issued. *State ex rel. Smith v. Nebraska Liquor Control Commission*, 152 Neb. 676, 42 N.W.2d 297 (1950).

Orchard Hill Mercantile*, 274 Neb. 154, 738 N.W.2d 820 (2007).

In order to issue a retail liquor license, the Nebraska Liquor Control Commission must find that each of the conditions specified in subsections (2)(a) through (d) of this section are satisfied, and in making its determination whether such conditions are satisfied, the commission must consider each of the factors listed in subsections (3)(a) through (j) of this section. *City of Lincoln v. Nebraska Liquor Control Comm.*, 261 Neb. 783, 626 N.W.2d 518 (2001).

Subsection (2) of this section (Reissue 1984) describes the general standards by which initial applicants are judged to be fit to obtain a liquor license and to follow the rules and regulations that bear on license holders. This statute, however, is not itself a rule or regulation which can be violated by a current licensee and subject the licensee to cancellation under the power given the Nebraska Liquor Control Commission by sections 53-116.01 and 53-117.08. *Grand Island Latin Club v. Nebraska Liq. Cont. Comm.*, 251 Neb. 61, 554 N.W.2d 778 (1996).

This section, as amended by 1993 Neb. Laws, L.B. 183, is unenforceable. *Marting v. Nebraska Liquor Control Comm.*, 250 Neb. 134, 548 N.W.2d 326 (1996).

For purposes of this section, there is no close approximation between purchasing off-sale liquor at a grocery store and purchasing and consuming liquor in an "on premises" establishment. *Hy-Vee Food Stores v. Nebraska Liquor Control Comm.*, 242 Neb. 752, 497 N.W.2d 647 (1993).

The portion of this section amended by 1986 Neb. Laws, L.B. 911, is declared unconstitutional. *Bosselman, Inc. v. State*, 230 Neb. 471, 432 N.W.2d 226 (1988).

The applicant for a liquor license has the burden of proof, at the hearing before the Nebraska Liquor Control Commission, to show that the issuance of the license is or will be required by the present or future public convenience and necessity. *Richards v. Neb. Liquor Control Comm.*, 221 Neb. 542, 378 N.W.2d 667 (1985).

Failure by liquor commission to make fact findings and conclusions of law makes its order irregular, which requires remand to make appropriate findings. *McChesney v. City of No. Platte*, 216 Neb. 416, 343 N.W.2d 925 (1984).

This section provides for the issuance of a license to sell alcoholic liquor, including beer, at retail, and is controlling over another section declaring public policy in favor of separate sale. *Hanson v. Gass*, 130 Neb. 685, 267 N.W. 403 (1936).

53-133 Retail, bottle club, craft brewery, and microdistillery licenses; hearing; when held; procedure.

(1) The commission shall set for hearing before it any application for a retail license, bottle club license, craft brewery license, or microdistillery license relative to which it has received:

(a) Within forty-five days after the date of receipt of such application by the city, village, or county clerk, a recommendation of denial from the city, village, or county;

(b) Within ten days after the receipt of a recommendation from the city, village, or county, or, if no recommendation is received, within forty-five days after the date of receipt of such application by the city, village, or county clerk, objections in writing by not less than three persons residing within such city, village, or county, protesting the issuance of the license. Withdrawal of the protest does not prohibit the commission from conducting a hearing based upon the protest as originally filed and making an independent finding as to whether the license should or should not be issued;

(c) Within forty-five days after the date of receipt of such application by the city, village, or county clerk, objections by the commission or any duly appointed employee of the commission, protesting the issuance of the license; or

(d) An indication on the application that the location of a proposed retail or bottle club establishment is within one hundred fifty feet of a church as described in subsection (2) of section 53-177 and a written request by the church for a hearing.

(2) Hearings upon such applications shall be in the following manner: Notice indicating the time and place of such hearing shall be mailed or electronically delivered to the applicant, the local governing body, each individual protesting a license pursuant to subdivision (1)(b) of this section, and any church affected as described in subdivision (1)(d) of this section, at least fifteen days prior to such hearing. The notice shall state that the commission will receive evidence for the purpose of determining whether to approve or deny the application. Mailing or electronic delivery to the attorney of record of a party shall be deemed to fulfill the purposes of this section. The commission may receive evidence, including testimony and documentary evidence, and may hear and question witnesses concerning the application. The commission shall not use electronic delivery with respect to an applicant, a protestor, or a church under this section without the consent of the recipient to electronic delivery.

53-134 Retail, bottle club, craft brewery, microdistillery, and entertainment district licenses; city and village governing bodies; county boards; powers, functions, and duties.

The local governing body of any city or village with respect to licenses within its corporate limits and the local governing body of any county with respect to licenses not within the corporate limits of any city or village but within the county shall have the following powers, functions, and duties with respect to retail, bottle club, craft brewery, microdistillery, and entertainment district licenses:

(1) To cancel or revoke for cause retail, craft brewery, microdistillery, or entertainment district licenses to sell or dispense alcoholic liquor or bottle club licenses, issued to persons for premises within its jurisdiction, subject to the right of appeal to the commission;

(2) To enter or to authorize any law enforcement officer to enter at any time upon any premises licensed under the Nebraska Liquor Control Act to determine whether any provision of the act, any rule or regulation adopted and promulgated pursuant to the act, or any ordinance, resolution, rule, or regulation adopted by the local governing body has been or is being violated and at such time examine the premises of such licensee in connection with such determination. Any law enforcement officer who determines that any provision of the act, any rule or regulation adopted and promulgated pursuant to the act, or any ordinance, resolution, rule, or regulation adopted by the local governing body has been or is being violated shall report such violation in writing to the executive director of the commission (a) within thirty days after determining that such violation has occurred, (b) within thirty days after the conclusion of an ongoing police investigation, or (c) within thirty days after the verdict in a prosecution related to such an ongoing police investigation if the prosecuting attorney determines that reporting such violation prior to the verdict would jeopardize such prosecution, whichever is later;

(3) To receive a signed complaint from any citizen within its jurisdiction that any provision of the act, any rule or regulation adopted and promulgated pursuant to the act, or any ordinance, resolution, rule, or regulation relating to alcoholic liquor has been or is being violated and to act upon such complaints in the manner provided in the act;

(4) To receive retail license fees, bottle club license fees, craft brewery license fees, and microdistillery license fees as provided in sections 53-124 and 53-124.01 and entertainment district license fees as provided in section 53-123.17 and pay the same, after the license has been delivered to the applicant, to the city, village, or county treasurer;

(5) To examine or cause to be examined any applicant or any retail licensee, bottle club licensee, craft brewery licensee, microdistillery licensee, or entertainment district licensee upon whom notice of cancellation or revocation has been served as provided in the act, to examine or cause to be examined the books and records of any applicant or licensee except as otherwise provided for bottle club licensees in section 53-123.08, and to hear testimony and to take proof for its information in the performance of its duties. For purposes of obtaining any of the information desired, the local governing body may authorize its agent or attorney to act on its behalf;

(6) To cancel or revoke on its own motion any license if, upon the same notice and hearing as provided in section 53-134.04, it determines that the licensee has violated any of the provisions of the act or any valid and subsisting ordinance, resolution, rule, or regulation duly enacted, adopted, and promulgated relating to alcoholic liquor. Such order of cancellation or revocation may be appealed to the commission within thirty days after the date of the order by filing a notice of appeal with the commission. The commission shall handle the appeal in the manner provided for hearing on an application in section 53-133;

(7) Upon receipt from the commission of the notice and copy of application as provided in section 53-131, to fix a time and place for a hearing at which the local governing body shall receive evidence, either orally or by affidavit from the applicant and any other person, bearing upon the propriety of the issuance of a license. Notice of the time and place of such hearing shall be published in a legal newspaper in or of general circulation in such city, village, or county one time not less than seven and not more than fourteen days before the time of the hearing. Such notice shall include, but not be limited to, a statement that all persons desiring to give evidence before the local governing body in support of or in protest against the issuance of such license may do so at the time of the hearing. Such hearing shall be held not more than forty-five days after the date of receipt of the notice from the commission, and after such hearing the local governing body shall cause to be recorded in the minute record of their proceedings a resolution recommending either issuance or refusal of such license. The clerk of such city, village, or county shall mail to the commission by first-class mail, postage prepaid, a copy of the resolution which shall state the cost of the published notice, except that failure to comply with this provision shall not void any license issued by the commission. If the commission refuses to issue such a license, the cost of publication of notice shall be paid by the commission from the security for costs;

(8) To review and authorize an application by a retail, bottle club, craft brewery, farm winery, or microdistillery licensee for a temporary expansion of its licensed premises within the jurisdiction of the local governing body to an immediately adjacent area owned or leased by the licensee or to an immediately adjacent street, parking lot, or alley, not to exceed fifty days for calendar year 2020 and, for each calendar year thereafter, not to exceed fifteen days per calendar year, as provided in sections 53-123.12 and 53-129; and

(9) To review and authorize an application by a craft brewery, farm winery, or microdistillery licensee that holds a promotional farmers market special designated license for a permit to use such promotional farmers market special designated license to sell or dispense alcoholic liquor, which the holder is licensed to produce, at a farmers market within the jurisdiction of the local governing body as provided in section 53-124.17. The local governing body shall electronically notify the commission within five days after authorization of any permit pursuant to this subdivision.

53-134.01 Class C license holder; limited bottling endorsement; application; fee; conditions of sale.

(1) The holder of a Class C license may obtain a limited bottling endorsement for such license as prescribed in this section. The endorsement shall be issued for the same period and may be renewed in the same manner as the Class C license. A limited bottling endorsement may not be used in conjunction with a special designated license.

(2) A licensee desiring to obtain a limited bottling endorsement for a license shall file with the commission an application upon such forms as the commission prescribes and a fee of three hundred dollars payable to the commission.

(3) The holder of a limited bottling endorsement may sell beer for consumption off the licensed premises in sealed containers filled as provided in this subsection if:

(a) The sale occurs on the licensed premises of the licensee during the hours the licensee is authorized to sell beer;

(b) The licensee uses sanitary containers purchased by the customer from the licensee or exchanged for containers previously purchased by the customer from the licensee. The containers shall prominently display the endorsement holder's trade name or logo or some other mark that is unique to the endorsement holder and shall hold no more than sixty-four ounces;

(c) The licensee seals the container in a manner designed so that it is visibly apparent whether the sealed container has been tampered with or opened or seals the container and places the container in a bag designed so that it is visibly apparent whether the sealed container has been tampered with or opened; and

(d) The licensee provides a dated receipt to the customer and attaches a copy of the dated receipt to the sealed container or, if the sealed container is placed in a bag, to the bag.

53-134.04 Violations by retail licensee or bottle club licensee; complaints of residents; hearings.

Any five residents of the city or village shall have the right to file a complaint with the local governing body of such city or village stating that any retail licensee or bottle club licensee subject to the jurisdiction of such local governing body has been or is violating any provision of the Nebraska Liquor Control Act or the rules or regulations issued pursuant to the act. Such complaint shall be in writing in the form prescribed by the local governing body and shall be signed and sworn to by the parties complaining. The complaint shall state the particular provision, rule, or regulation believed to have been violated and the facts in detail upon which belief is based. If the local governing body is satisfied that the complaint substantially charges a violation and that from the facts alleged there is reasonable cause for such belief, it shall set the matter for hearing within ten days from the date of the filing of the complaint and shall serve notice upon the licensee of the time and place of such hearing and of the particular charge in the complaint. The complaint shall in all cases be disposed of by the local governing body within thirty days from the date the complaint was filed by resolution thereof, which resolution shall be deemed the final order for purposes of appeal to the commission as provided in section 53-1,115.

53-135 Retail or bottle club licenses; automatic renewal; conditions.

A retail or bottle club license issued by the commission and outstanding may be automatically renewed by the commission without formal application upon

payment of the renewal fee and license fee if payable to the commission prior to or within thirty days after the expiration of the license. The payment shall be an affirmative representation and certification by the licensee that all answers contained in an application, if submitted, would be the same in all material respects as the answers contained in the last previous application. The commission may at any time require a licensee to submit an application, and the commission shall at any time require a licensee to submit an application if requested in writing to do so by the local governing body.

If a licensee files an application form in triplicate original upon seeking renewal of his or her license, the application shall be processed as set forth in section 53-131.

An appeal from the district court's decision reversing the Nebraska Liquor Control Commission's approval of a class D liquor license under section 53-135.02 was not moot despite the expiration of the original license during the pendency of an appeal, because a licensee has a constitutionally protected interest in obtaining the renewal of an existing license, and that interest would be jeopardized if the license were wrongfully taken away. *Orchard Hill Neighborhood v. Orchard Hill Mercantile*, 274 Neb. 154, 738 N.W.2d 820 (2007).

An administrative agency is limited in authority to those powers granted to it by statute. Thus, without a showing by the Nebraska Liquor Control Commission or the objecting city that a renewal applicant did not meet one of the renewal requirements of this section and section 53-135.02, the commission

could not demand that the applicant submit a long-form liquor license application. *Grand Island Latin Club v. Nebraska Liq. Cont. Comm.*, 251 Neb. 61, 554 N.W.2d 778 (1996).

53-135.01 Retail licenses; bottle club licenses; renewal; notice.

The city, village, or county clerk shall cause to be published in a legal newspaper in or of general circulation in such city, village, or county, one time between January 10 and January 30 of each year, individual notice of the right of automatic renewal of each retail liquor and beer license and each bottle club license, except that notice of the right of automatic renewal of Class C licenses shall be published between the dates of July 10 and July 30 of each year within such city, village, or county, in substantially the following form:

NOTICE OF RENEWAL OF RETAIL LIQUOR OR BOTTLE CLUB LICENSE

Notice is hereby given pursuant to section 53-135.01 that a liquor license [or bottle club license] may be automatically renewed for one year from May 1, 20..., or November 1, 20..., for the following retail liquor [or bottle club] licensee:

(Name of Licensee) (Address of licensed premises)

Notice is hereby given that written protests to the issuance of automatic renewal of license may be filed by any resident of the city (village or county) on or before February 10, 20..., or August 10, 20..., in the office of the city (village or county) clerk and that in the event protests are filed by three or more such persons, hearing will be had to determine whether continuation of the license should be allowed.

53-135.02 Licenses; renewal; no vested right.

Any licensee may renew his, her, or its license at the expiration thereof in the manner set forth in section 53-135 if the licensee is then qualified to receive a license and the premises for which such renewal license is sought are the same premises licensed under the license to be renewed and are suitable for such purpose. The renewal privilege provided for in this section shall not be construed as a vested right which shall in any case prevent the commission from decreasing the number of licenses to be issued within its jurisdiction.

City of Grand Island*, 233 Neb. 191, 444 N.W.2d 312 (1989).

53-136 Cigar shops; legislative findings; legislative intent.

(1) The Legislature finds that allowing smoking in cigar shops as a limited exception to the Nebraska Clean Indoor Air Act does not interfere with the original intent that the general public and employees not be unwillingly subjected to second-hand smoke. This exception poses a de minimis restriction on the public and employees given the limited number of cigar shops compared to other businesses that sell alcohol, cigars, and pipe tobacco, and any member of the public should reasonably expect that there would be second-hand smoke in a cigar shop given the nature of the business and could choose to avoid such exposure.

(2) The Legislature finds that (a) cigars and pipe tobacco have different characteristics than other forms of tobacco such as cigarettes, (b) cigars are customarily paired with various spirits such as cognac, single malt whiskey, bourbon, rum, rye, port, and others, and (c) unlike cigarette smokers, cigar and pipe smokers may take an hour or longer to enjoy a cigar or pipe while cigarettes simply serve as a mechanism for delivering nicotine. Cigars paired with selected liquor creates a synergy unique to the particular pairing similar to

wine paired with particular foods. Cigars are a pure, natural product wrapped in a tobacco leaf that is typically not inhaled in order to enjoy the taste of the smoke, unlike cigarettes that tend to be processed with additives and wrapped in paper and are inhaled. Cigars have a different taste and smell than cigarettes due to the fermentation process cigars go through during production. Cigars tend to cost considerably more than cigarettes, and their quality and characteristics vary depending on the type of tobacco plant, the geography and climate where the tobacco was grown, and the overall quality of the manufacturing process. Not only does the customized blending of the tobacco influence the smoking experience, so does the freshness of the cigars, which is dependent on how the cigars were stored and displayed. These variables are similar to fine wines, which can also be very expensive to purchase. It is all of these variables that warrant a customer wanting to sample the product before making such a substantial purchase.

(3) The Legislature finds that exposure to second-hand smoke is inherent in the selling and sampling of cigars and pipe tobacco and that this exposure is inextricably connected to the nature of selling this legal product, similar to other inherent hazards in other professions and employment.

(4) It is the intent of the Legislature to allow cigar and pipe smoking in cigar shops that meet specific statutory criteria not inconsistent with the fundamental nature of the business. This exception to the Nebraska Clean Indoor Air Act is narrowly tailored in accordance with the intent of the act to protect public places and places of employment.

(1) A license shall be purely a personal privilege, good for not to exceed one year after issuance unless sooner revoked as provided in the Nebraska Liquor Control Act, and shall not constitute property, nor shall it be subject to attachment, garnishment, or execution, nor shall it be alienable or transferable, voluntarily or involuntarily, or subject to being encumbered or hypothecated.

(2) A license issued under the act terminates immediately upon the sale of the licensed premises named in such license. The purchaser or transferee may submit an application for a license under the act prior to closing such sale or transfer. While such application is pending, the purchaser may request and obtain a temporary operating permit from the commission which shall authorize the purchaser to continue the business which was conducted on the purchased premises under the terms and conditions of the terminated license for ninety days or until the purchaser has obtained a license in its own name, whichever occurs sooner. Prior to the issuance of a temporary operating permit, the purchaser shall supply the commission with documentation from the seller that the seller is current on all accounts with any wholesaler under section 53-123.02. A seller who provides false information regarding such accounts is guilty of a Class IV misdemeanor for each offense. In the absence of such temporary operating permit, the purchaser shall not manufacture, store, or sell alcoholic liquor on the purchased premises until the purchaser has obtained a license in the purchaser's own name. If the application is withdrawn by the applicant or is denied by the commission, the previous license may be reinstated at the discretion of the commission upon request by the previous licensee.

(3) A license shall not descend by the laws of testate or intestate devolution, but it shall cease upon the death of the licensee, except that (a) executors or administrators of the estate of any deceased licensee, when such estate consists in part of alcoholic liquor, or a partnership or limited liability company upon the death of one or more of the partners or members, may continue the business of the sale or manufacture of alcoholic liquor under order of the appropriate court and may exercise the privileges of the deceased or deceased partner or member after the death of such decedent until the expiration of such license, but if such license would have expired within two months following the death of the licensee, the license may be renewed by the administrators or executors with the approval of the appropriate court for a period not to exceed one additional year; or (b) when a license is issued to a husband and wife, as colicensees with rights of survivorship, upon the death of one spouse the survivor may exercise all rights and privileges under such license in his or her own name. The trustee of any insolvent or bankrupt licensee, when such estate consists in part of alcoholic liquor, may continue the business of the sale or manufacture of alcoholic liquor under order of the appropriate court and may exercise the privileges of the insolvent or bankrupt licensee until the expiration of such license.

- 1. License is personal privilege
- 2. Rights of licensee
- 3. Miscellaneous

1. License is personal privilege

The payment of rent to a lessor based on a percentage of sales does not create a partnership between the lessor and lessee in violation of this section, which states that a liquor license is a privilege personal to the grantee, nor does it violate rules 20 and 14(E) of the Nebraska Liquor Control Commission, which prohibit any partner from sharing in profits arising from the granting of any liquor license. Department of Banking, Receiver v. Wilken, 217 Neb. 796, 352 N.W.2d 145 (1984).

A liquor license is a purely personal privilege, does not constitute property, and vests no property rights in a licensee. Bali Hai', Inc. v. Nebraska Liquor Control Commission, 195 Neb. 1, 236 N.W.2d 614 (1975).

Fact that license is a privilege does not prevent license holder from complaining of unconstitutional rules and regulations. Terry Carpenter, Inc. v. Nebraska Liquor Control Commission, 175 Neb. 26, 120 N.W.2d 374 (1963).

A license to sell liquors is purely a personal privilege and not transferable. Stevens v. Fall, 133 Neb. 610, 276 N.W. 401 (1937).

2. Rights of licensee

A liquor license is not such a property right as will be protected by injunction. Leeman v. Vocelka, 149 Neb. 702, 32 N.W.2d 274 (1948).

License to sell liquors is not alienable, transferable, or subject to encumbrance or hypothecation. Marsh & Marsh, Inc. v. Carmichael, 136 Neb. 797, 287 N.W. 616 (1939).

3. Miscellaneous

An agreement between lessor and lessee that lessee will apply for a license for the premises, and will not seek permission to transfer it to another location, and upon expiration of the lease will assist lessor in obtaining a license for the premises is not void. Greco v. Bonacci, 194 Neb. 685, 234 N.W.2d 904 (1975).

Licensee was in violation of this section when he permitted another to operate and control the business. Eleven Eighteen Co. v. Nebraska Liquor Control Commission, 191 Neb. 572, 216 N.W.2d 720 (1974).

(f) TAX

53-160 Tax on manufacturer and wholesaler; amount; exemption; duties of commission.

(1) For the purpose of raising revenue, a tax is imposed upon the privilege of engaging in business as a manufacturer or a wholesaler at a rate of thirty-one cents per gallon on all beer; ninety-five cents per gallon for wine, except for wines produced and released from bond in farm wineries; six cents per gallon for wine produced and released from bond in farm wineries; and three dollars and seventy-five cents per gallon on alcohol and spirits manufactured and sold by such manufacturer or shipped for sale in this state by such wholesaler in the course of such business. The gallonage tax imposed by this subsection shall be imposed only on alcoholic liquor upon which a federal excise tax is imposed.

(2) Manufacturers or wholesalers of alcoholic liquor shall be exempt from the payment of the gallonage tax on such alcoholic liquor upon satisfactory proof,

including bills of lading furnished to the commission by affidavit or otherwise as the commission may require, that such alcoholic liquor was manufactured in this state but shipped out of the state for sale and consumption outside this state.

(3) Dry wines or fortified wines manufactured or shipped into this state solely and exclusively for sacramental purposes and uses shall not be subject to the gallonage tax.

(4) The gallonage tax shall not be imposed upon any alcoholic liquor, whether manufactured in or shipped into this state, when sold to a licensed nonbeverage user for use in the manufacture of any of the following when such products are unfit for beverage purposes: Patent and proprietary medicines and medicinal, antiseptic, and toilet preparations; flavoring extracts, syrups, food products, and confections or candy; scientific, industrial, and chemical products, except denatured alcohol; or products for scientific, chemical, experimental, or mechanical purposes.

(5) The gallonage tax shall not be imposed upon the privilege of engaging in any business in interstate commerce or otherwise, which business may not, under the Constitution and statutes of the United States, be made the subject of taxation by this state.

(6) The gallonage tax shall be in addition to all other occupation or privilege taxes imposed by this state or by any municipal corporation or political subdivision thereof.

(7) The commission shall collect the gallonage tax and shall account for and remit to the State Treasurer at least once each week all money collected pursuant to this section. If any alcoholic liquor manufactured in or shipped into this state is sold to a licensed manufacturer or wholesaler of this state to be used solely as an ingredient in the manufacture of any beverage for human consumption, the tax imposed upon such manufacturer or wholesaler shall be reduced by the amount of the taxes which have been paid as to such alcoholic liquor so used under the Nebraska Liquor Control Act. The net proceeds of all revenue arising under this section shall be credited to the General Fund.

53-160.03 Beer-related crop; tax credit; calculation; application; contents; approval; notice.

(1) The Legislature finds that encouraging manufacturers of beer to use beer-related crops grown in this state in their manufacturing operations stimulates the creation of jobs and investments in small communities in this state, encourages the use of lands upon which beer-related crops may be grown, and provides tax revenue to the state which would not otherwise be realized. It is the intent of the Legislature to encourage the use of such beer-related crops by providing a nonrefundable tax credit as provided in this section.

(2) For purposes of this section, beer-related crop means barley or hops.

(3) A nonrefundable credit against the tax imposed in section 53-160 shall be allowed to any manufacturer of beer if at least ten percent of the beer-related crops used by such manufacturer in the previous calendar year were grown in this state. The credit shall be an amount equal to the percentage specified in subsection (4) of this section multiplied by the total amount of tax paid under section 53-160 in the previous calendar year on the first twenty thousand barrels of beer sold by such manufacturer.

(4) The percentage used to determine the credit shall be as follows:

(a) If at least ten percent but less than forty percent of the beer-related crops used by the manufacturer in the previous calendar year were grown in this state, the percentage used to determine the credit shall be fifteen percent;

(b) If at least forty percent but less than seventy percent of the beer-related crops used by the manufacturer in the previous calendar year were grown in this state, the percentage used to determine the credit shall be twenty-five percent; and

(c) If at least seventy percent of the beer-related crops used by the manufacturer in the previous calendar year were grown in this state, the percentage used to determine the credit shall be thirty-five percent.

(5) A manufacturer of beer shall apply for the credit to the commission on a form prescribed by the commission. The application shall be submitted on or before January 25 of each year and shall contain the following information:

(a) The name of the manufacturer;

(b) The total number of barrels of beer sold and the total amount of tax paid under section 53-160 during the previous calendar year;

(c) The percentage of beer-related crops used by the manufacturer in the previous calendar year that were grown in this state; and

(d) Such other information as required by the commission to verify that the manufacturer is qualified to receive the credit allowed under this section and to calculate the amount of the credit.

(6) If the manufacturer of beer qualifies for the credit, the commission shall approve the application and notify the manufacturer of the amount of the credit approved. The manufacturer may then claim the credit on the reports due each month under section 53-164.01 as an offset against the taxes due pursuant to such reports until the credit is fully utilized or until the following December 31, whichever occurs first.

(1) Notwithstanding any other provision of the Nebraska Liquor Control Act, for the purpose of raising revenue, a tax is imposed upon the privilege of engaging in business as a manufacturer or a wholesaler of ready-to-drink cocktails at a rate of ninety-five cents per gallon. The gallonage tax imposed by this section shall be imposed only on alcoholic liquor upon which a federal excise tax is imposed.

(2) Manufacturers or wholesalers of ready-to-drink cocktails shall be exempt from the payment of the gallonage tax imposed by this section on such products upon satisfactory proof, including bills of lading furnished to the commission by affidavit or otherwise as the commission may require, that such ready-to-drink cocktails were manufactured in this state but shipped out of this state for sale and consumption outside this state.

(3) The gallonage tax imposed by this section shall be in addition to all other occupation or privilege taxes imposed by this state or by any municipal corporation or political subdivision thereof.

(4) The commission shall collect the gallonage tax on ready-to-drink cocktails and shall account for and remit to the State Treasurer at least once each week all money collected pursuant to this section. If any spirits manufactured in or shipped into this state are sold to a licensed manufacturer or wholesaler of this state to be used solely as an ingredient in the manufacture of ready-to-drink cocktails for human consumption, the tax imposed upon such manufacturer or wholesaler shall be reduced by the amount of the taxes which have been paid as to such spirits so used under the Nebraska Liquor Control Act. The plain, ordinary, and popular meaning of the word "church" includes a building in which people assemble for the worship of God and for the administration of such offices and services as pertain to that worship, a building used predominantly for the honor of God and religion, and a place where persons regularly assemble for worship. A building which is used predominantly for the honor of a religion would likewise

include buildings in which people assemble for non-Christian worship, such as a mosque, a synagogue, or a temple. *City of Omaha v. Kum & Go*, 263 Neb. 724, 642 N.W.2d 154 (2002).

Distance between church and place where intoxicating liquor is sold is measured in a straight line between the nearest walls of the two buildings. *Calvary Baptist Church v. Coonrad*, 163 Neb. 25, 77 N.W.2d 821 (1956).

(b) Does not prohibit sales of alcoholic liquor by a community college culinary education program pursuant to section 53-124.15.

(2) Except as otherwise provided in subsection (4) of this section, the commission may waive the three-hundred-foot restriction in subsection (1) of this section taking into consideration one or more of the following:

(b) The impact on students and prospective students if such sales were permitted on or near campus;

(c) The impact on economic development opportunities located within or in proximity to the campus; and

(d) The waiver would likely reduce the number of applications for special designated licenses requested by the college or university or its designee.

(3) To apply for a waiver under this section, the applicant shall submit a written application to the commission. The commission shall notify the governing body of the affected college or university when the commission receives an application for a waiver. The application shall include:

- (a) The address of the location for which the waiver is requested;
- (b) The name and type of business for which the waiver is requested; and
- (c) A description of the justification for the waiver explaining how the proposed location complies with the findings prescribed in subsection (2) of this section.

(4) The commission shall not waive the three-hundred-foot restriction in subsection (1) of this section without written approval from the governing body of the college or university or its designee if the physical location of the property which is the subject of the requested waiver is (a) surrounded by property owned by the college or university including any public or private easement, street, or right-of-way adjacent to the property owned by the college or university or (b) adjacent to property on two or more sides owned by the college or university including any public or private easement, street, or right-of-way adjacent to the property owned by the college or university.

53-1,101 Owner of premises or agent knowing of violations; penalty.

If the owner of the licensed premises or any person from whom the licensee derives the right to possession of such premises, or the agent of such owner or

person, knowingly permits the licensee to use such licensed premises in violation of the terms of the Nebraska Liquor Control Act, such owner, agent, or other person shall be deemed guilty of a violation of the act to the same extent as such licensee and be subject to the same punishment.

Every act or omission of whatsoever nature constituting a violation of any of the provisions of the Nebraska Liquor Control Act by any officer, director, manager, or other agent or employee of any licensee, if such act is committed or omission is made with the authorization, knowledge, or approval of the licensee, shall be deemed and held to be the act of such employer or licensee, and such employer or licensee shall be punishable in the same manner as if such act or omission had been done or omitted by him or her personally.

Any person who knowingly possesses, sells, ships, transports, or in any way disposes of any alcoholic liquor under any other than the proper name or brand known to the trade as designating the kind and quality of the contents of the package or other containers of such alcoholic liquor or who causes any such act to be done shall forfeit to the state such alcoholic liquor and such packages and containers and shall be subject to the punishment and penalties provided for violation of the Nebraska Liquor Control Act.

53-1,104 Violations by licensee; suspension, cancellation, or revocation of license; cash penalty in lieu of suspending sales; election authorized.

(1) Any licensee which sells or permits the sale of any alcoholic liquor not authorized under the terms of such license on the licensed premises or in connection with such licensee's business or otherwise shall be subject to suspension, cancellation, or revocation of such license by the commission.

(2) When an order suspending a license to sell alcoholic liquor becomes final, the licensee may elect to pay a cash penalty to the commission in lieu of suspending sales of alcoholic liquor for the designated period if such election is not prohibited by order of the commission. Except as otherwise provided in subsection (3) of this section, for the first such suspension for any licensee, the penalty shall be fifty dollars per day, and for a second or any subsequent suspension, the penalty shall be one hundred dollars per day.

(3)(a) For a second suspension for violation of section 53-180 or 53-180.02 occurring within four years after the date of the first suspension, the commission, in its discretion, may order that the licensee be required to suspend sales of alcoholic liquor for a period of time not to exceed forty-eight hours and that the licensee may not elect to pay a cash penalty. The commission may use the required suspension of sales of alcoholic liquor penalty either alone or in

conjunction with suspension periods for which the licensee may elect to pay a cash penalty. For purposes of this subsection, second suspension for violation of section 53-180 shall include suspension for a violation of section 53-180.02 following suspension for a violation of section 53-180 and second suspension for violation of section 53-180.02 shall include suspension for a violation of section 53-180 following suspension for a violation of section 53-180.02;

(b) For a third or subsequent suspension for violation of section 53-180 or 53-180.02 occurring within four years after the date of the first suspension, the commission, in its discretion, may order that the licensee be required to suspend sales of alcoholic liquor for a period of time not to exceed fifteen days and that the licensee may not elect to pay a cash penalty. The commission may use the required suspension of sales of alcoholic liquor penalty either alone or in conjunction with suspension periods for which the licensee may elect to pay a cash penalty. For purposes of this subsection, third or subsequent suspension for violation of section 53-180 shall include suspension for a violation of section 53-180.02 following suspension for a violation of section 53-180 and third or subsequent suspension for violation of section 53-180.02 shall include suspension for a violation of section 53-180 following suspension for a violation of section 53-180.02; and

(c) For a first suspension based upon a finding that a licensee or an employee or agent of the licensee has been convicted of possession of a gambling device on a licensee's premises in violation of sections 28-1107 to 28-1111, the commission, in its discretion, may order that the licensee be required to suspend sales of alcoholic liquor for thirty days and that the licensee may not elect to pay a cash penalty. For a second or subsequent suspension for such a violation of sections 28-1107 to 28-1111 occurring within four years after the date of the first suspension, the commission shall order that the license be canceled.

(4) For any licensee which has no violation for a period of four years consecutively, any suspension shall be treated as a new first suspension.

(5) The election provided for in subsection (2) of this section shall be filed with the commission in writing one week before the suspension is ordered to commence and shall be accompanied by payment in full of the sum required by this section. If such election has not been received by the commission by the close of business one week before the day such suspension is ordered to commence, it shall be conclusively presumed that the licensee has elected to close for the period of the suspension and any election received later shall be absolutely void and the payment made shall be returned to the licensee. The election shall be made on a form prescribed by the commission. The commission shall remit all funds collected under this section to the State Treasurer for distribution in accordance with Article VII, section 5, of the Constitution of Nebraska.

(6) Recognizing that suspension of the license of a licensee domiciled outside of the state poses unique enforcement difficulties, the commission may, at its discretion, mandate that a licensee domiciled outside of the state pay the cash penalty found in subsection (2) of this section rather than serve the suspension.

53-1,105 Sufficiency of charge of violation; sufficiency of proof.

In any indictment, information, affidavit, or complaint charging the violation of any of the provisions of the Nebraska Liquor Control Act, it shall be sufficient to charge that the accused unlawfully manufactured, sold, offered for sale, kept for sale, delivered, or otherwise unlawfully disposed of alcoholic liquor without any further or more specific description of such liquor, and proof of any kind of alcoholic liquor unlawfully manufactured, sold, offered for sale, kept for sale, delivered, or otherwise unlawfully disposed of shall be sufficient proof as to the character or kind of alcoholic liquor.

53-1,106 Charge of violation; sufficiency of allegations; second offense; proof; former conviction.

In any indictment, information, complaint, or affidavit charging the violation of any of the provisions of the Nebraska Liquor Control Act, it shall not be necessary to allege the quantity or kind of such alcoholic liquor further than to allege that it was alcoholic liquor. In case of sale, keeping for sale, or delivering, it shall not be necessary to set out the name of the person to whom sale or delivery has been made. In any prosecution for a second offense, it shall not be necessary to state in the indictment, complaint, or affidavit the record of the former conviction, but it shall be sufficient briefly to allege such conviction. In any prosecution for an offense, no indictment, information, complaint, or affidavit shall state or allege and no consideration shall be given to the record of a former filing of an indictment, information, complaint, or affidavit, or the record of a former conviction, which is four years old or older. Proof of sale, delivery, or unlawful disposition of alcoholic liquor to any person not authorized by the act to purchase or receive the same shall be sufficient to sustain the allegation of unlawful sale, delivery, or disposition.

In any indictment, information, complaint, or affidavit for any violation of the act, it shall not be necessary to describe the place where the offense was committed except to allege that it was committed in the county wherein the prosecution was had unless the particular

place where the violation occurred constitutes one of specific ingredients of the offense and it shall not be necessary to negative any of the exceptions contained in the act or to state the day or the hour when the offense was committed unless the day or hour constitutes a special element or ingredient of the offense.

53-1,108 Search warrants issued on complaint; form.

Whenever complaint is made in writing, verified by affidavit, to any judge of any court having cognizance of criminal offenses, that complainant has just and reasonable grounds to believe and does believe that alcoholic liquor is manufactured, possessed, kept for sale, used, or transported in violation of the Nebraska Liquor Control Act, or any mash, still, or other property designed for the manufacture of alcoholic liquor is possessed in any premises which are not licensed under the act, particularly describing and designating such property in such complaint, the judge may issue a search warrant. (5) The Department of Health and Human Services shall not deny issuance or renewal of a license under the Health Care Facility Licensure Act to a mental health substance use treatment center on the basis that the mental health substance use treatment center utilizes locked rooms to provide civil protective custody services if the mental health substance use treatment center is otherwise in compliance with the applicable rules and regulations of the department and if a person placed into civil protective custody in the mental health substance use treatment center is not kept in a locked room after such person is no longer a danger to himself or herself or other patients or staff of the mental health substance use treatment center.

Any agreement which is in existence on April 18, 1989, shall be renewed in a manner consistent with sections 53-201 to 53-223, and the provisions of such sections may be incorporated by reference in the agreement. Nothing in such sections shall prevent a supplier from making a one-time appointment, for a period not to exceed ninety days, of a wholesaler to temporarily service a sales territory not designated to another wholesaler until such time as a wholesaler is appointed by the supplier. The wholesaler who is designated to service the sales territory during the period of temporary service shall not be in violation of such sections and, with respect to the temporary sales territory, shall not have any of the rights provided under sections 53-218 and 53-220. The temporary service period may be extended beyond ninety days by the Nebraska Liquor Control Commission if justifiable circumstances exist as determined by the commission;

(2) Fix, maintain, establish, or unduly influence the price at which a wholesaler shall be required to sell any beer;

(3) Enter into an additional agreement with any other wholesaler for or to sell to any other wholesaler the same brand or brands of beer in the same sales territory or any portion thereof or to sell directly to any retailer in this state;

(4) Coerce or attempt to coerce any wholesaler to accept delivery of any beer or other commodity which has not been ordered by the wholesaler, except that a supplier may impose reasonable inventory requirements upon a wholesaler if the requirements are made in good faith and are generally applied to other similarly situated Nebraska wholesalers having an agreement with the supplier;

(5) Coerce or attempt to coerce any wholesaler to accept delivery of any beer or other commodity ordered by a wholesaler if the order was canceled by the wholesaler in accordance with acceptable procedures;

(6) Coerce or attempt to coerce any wholesaler to do any illegal act or to violate any law, rule, or regulation by threatening to amend, modify, cancel, terminate, or refuse to renew any agreement existing between the supplier and wholesaler;

(7) Require a wholesaler to assent to any condition, stipulation, or provision limiting the wholesaler's right to sell the brand or brands of beer or other products of any other supplier unless the acquisition of the brand or brands or products of another supplier would materially impair or adversely affect the wholesaler's quality of service, sales, or ability to compete effectively in representing the brand or brands of the supplier presently being sold by the wholesaler. The supplier shall have the burden of proving that such acquisition of such other brand or brands or products would have such effect;

(8) Require a wholesaler to purchase one or more brands of beer or other products in order for the wholesaler to purchase another brand or brands of beer for any reason. (13) Require a wholesaler by any means directly to participate in or contribute to any local or national advertising fund controlled, directly or indirectly, by a supplier;

(14) Willfully discriminate, directly or indirectly, in price, programs, or terms of sale offered to franchisees if the effect of such discrimination may be to substantially lessen competition or to give to one holder of a franchise any economic, business, or competitive advantage not offered to all holders of the same or similar franchise. This subdivision shall not govern dock prices;

(15) Take any action against a wholesaler who files a complaint regarding an alleged violation by the supplier of a federal, state, or local law, rule, or regulation in retaliation for such complaint;

(16) Restrict or inhibit, directly or indirectly, the right of free association among wholesalers for any lawful purpose;

(17) Require or prohibit, without just cause, any change in the manager or successor manager of any wholesaler who has been approved by the supplier as of or subsequent to April 18, 1989. If a wholesaler changes an approved manager or successor manager, a supplier shall not require or prohibit the

change unless the person selected by the wholesaler fails to meet the reasonable qualifications for managers of Nebraska wholesalers of the supplier, which reasonable qualifications previously have been consistently applied to similarly situated Nebraska wholesalers by the supplier. The supplier shall have the burden of proving that such person fails to meet such reasonable qualifications and that the qualifications have been consistently applied to similarly situated Nebraska wholesalers;

(19) Upon written notice of intent to transfer the wholesaler's business other than to a designated member, withhold consent to or approval of, or unreasonably delay for a period of sixty days or more after receipt of all material information reasonably requested of the wholesaler a response to a request by the wholesaler for, any transfer of a wholesaler's business if the proposed transferee meets the reasonable qualifications required by the supplier for similarly situated Nebraska wholesalers. The supplier shall have the burden of proving that the proposed transferee fails to meet such reasonable qualifications and that the qualifications have been consistently applied to similarly situated Nebraska wholesalers.

(2) Sell or deliver beer to a retail licensee located outside the sales territory designated to the wholesaler by the supplier of a particular brand or brands of beer, except that during a period of temporary service interruption impacting a particular sales territory, a wholesaler who normally services the impacted sales territory shall file with the Nebraska Liquor Control Commission and give to the affected supplier written notice designating the specific wholesaler or wholesalers, not disapproved by the supplier, who will service the sales territory during the period of temporary service interruption and the approximate length of time of the service interruption. Each wholesaler designated to temporarily service a sales territory shall be a wholesaler who has a current agreement with a supplier for the brand or brands affected. When the temporary service interruption is over, the wholesaler who normally services the sales territory shall notify the commission, the supplier, and the wholesaler or wholesalers servicing the sales territory on a temporary basis of this fact in writing, and any wholesaler servicing the sales territory on a temporary basis shall cease servicing the sales territory upon receipt of the notice. A wholesaler who is designated to service a sales territory during a period of temporary service shall not be in violation of sections 53-201 to 53-223 and, with respect to the sales territory, shall not have any of the rights provided under sections 53-218 and 53-220; or

(1) Notwithstanding any agreement and except as otherwise provided for in sections 53-201 to 53-223, a supplier shall not amend or modify an agreement, cause a wholesaler to resign from an agreement, or cancel, terminate, fail to renew, or refuse to continue under an agreement unless the supplier has:

(a) Satisfied the applicable notice requirements of subsection (3) of this section;

(b) Acted in good faith; and

(c) Good cause for the amendment, modification, forced resignation, cancellation, termination, nonrenewal, or discontinuance.

(2) For each amendment, modification, cancellation, termination, nonrenewal, or discontinuance, the supplier shall have the burden of proving that it has acted in good faith, that the notice requirements under this section have been complied with, and that there was good cause for the amendment, modification, cancellation, termination, nonrenewal, or discontinuance.

(3) Notwithstanding any agreement and except as to new products and as otherwise provided in this section and in addition to the time limits set forth in subdivision (4)(e) of this section, the supplier shall furnish written notice of the amendment, modification, cancellation, termination, nonrenewal, or discontinuance of an agreement to the wholesaler not less than thirty days before the effective date of the amendment, modification, cancellation, termination, nonrenewal, or discontinuance. The notice shall be sent by certified mail and shall contain:

(a) A statement of intention to amend, modify, cancel, terminate, not renew, or discontinue the agreement;

(b) A statement of the reason for the amendment, modification, cancellation, termination, nonrenewal, or discontinuance; and

(c) The date on which the amendment, modification, cancellation, termination, nonrenewal, or discontinuance shall take effect.

(4) Notwithstanding any agreement, good cause shall exist for the purposes of a cancellation, termination, nonrenewal, or discontinuance under subdivision (1)(c) of this section when:

(a) There is a failure by the wholesaler to comply with a provision of the agreement which is both reasonable and of material significance to the business relationship between the wholesaler and the supplier;

(b) The supplier first acquired knowledge of the failure described in subdivision (a) of this subsection not more than twenty-four months before the date notification was given pursuant to subsection (3) of this section;

(c) The wholesaler was given notice by the supplier of failure to comply with the agreement within twenty-four months of such failure;

(d) The wholesaler was afforded a reasonable opportunity to assert good faith efforts to comply with the agreement within the time limits provided for in subdivision (e) of this subsection; and

(e) The wholesaler has been afforded thirty days in which to submit a plan of corrective action to comply with the agreement and an additional ninety days to cure such noncompliance in accordance with the plan.

(5) Notwithstanding subsections (1) and (3) of this section, a supplier may cancel, terminate, fail to renew, or discontinue an agreement immediately upon written notice given in the manner and containing the information required by subsection (3) of this section if:

(a) The wholesaler becomes insolvent, files or has filed against it a petition under any bankruptcy or receivership law, makes an assignment for the benefit of creditors, or is dissolved or liquidated and such action materially affects the wholesaler's ability to remain in business;

(b) The wholesaler's state or federal license is revoked or suspended by the appropriate regulatory agency and the wholesaler cannot service the wholesaler's sales territory for more than sixty-one days;

(c) The wholesaler or a partner, a member, or an individual who owns ten percent or more of the partnership, the limited liability company, or the stock of a corporate wholesaler has been convicted of a felony under the United States Code or the laws of any state which reasonably may adversely affect the goodwill or interest of the wholesaler or supplier. An existing stockholder, partner, or member or a designated member shall have, subject to the provisions of sections 53-201 to 53-223, the right to purchase the partnership interest, the limited liability company member interest, or the stock of the offending partner or stockholder, and if the sale is completed prior to conviction, the provisions of this subdivision shall not apply; or

(6) Notwithstanding subsections (1), (3), and (4) of this section, upon not less than fifteen days' written notice given in the manner and containing the information required by subsection (3) of this section, a supplier may cancel, terminate, fail to renew, or discontinue an agreement if:

(a) There was intentional fraudulent conduct relating to a material matter on the part of the wholesaler in dealings with the supplier or its producers. The supplier shall have the burden of proving intentional fraudulent conduct relating to a material matter on the part of the wholesaler;

(b) The wholesaler failed to confine its sales of a brand or brands to retailers in its designated sales territory. This subdivision shall not apply if there is a dispute between two or more wholesalers as to the boundaries of the assigned territory and the boundaries cannot be determined by a reading of the description contained in the agreements between the supplier and the wholesalers;

(c) A wholesaler who has failed to pay for beer ordered and delivered in accordance with established terms with the supplier fails to make full payment within two business days after receipt of written notice of the delinquency and demand for immediate payment from the supplier;

(d) A wholesaler intentionally has made a transfer of the wholesaler's business, other than a transfer to a designated member or pursuant to a loan

agreement or debt instrument, without prior written notice to the supplier and has failed, within thirty days from the receipt of written notice from the supplier of its intent to terminate on the ground of such transfer, to reverse the transfer of the wholesaler's business;

(e) A wholesaler intentionally has made a transfer of his or her business, other than a transfer to a designated member, although the wholesaler has prior to the transfer received from the supplier a timely notice of disapproval of the transfer in accordance with sections 53-201 to 53-223; or

(f) The wholesaler intentionally ceases or ceases for a period of more than thirty-one days to carry on business with respect to any of the supplier's brand or brands previously serviced by a wholesaler in its sales territory designated by the supplier unless such cessation is due to a force beyond the control of the wholesaler or to a labor dispute and the wholesaler has made good faith efforts to overcome such events. This subdivision shall affect only that brand or brands with respect to which the wholesaler ceased to carry on business.

(7) Notwithstanding subsections (1), (3), (5), and (6) of this section, a supplier may cancel, terminate, not renew, or discontinue an agreement upon not less than thirty days' written notice if the supplier discontinues production or discontinues distribution in this state of all the brands sold by the supplier to the wholesaler. Nothing in this section shall prohibit a supplier from (a) upon not less than thirty days' written notice, discontinuing the distribution of any particular brand or package of beer or (b) conducting test marketing of a new brand of beer or of a brand of beer which is not currently being sold in this state if the supplier has notified the Nebraska Liquor Control Commission in writing of its plans to test market. The notice to the commission shall describe the market area in which the test will be conducted, the name or names of the wholesaler or wholesalers who will be selling the beer, the name or names of the brand of beer being tested, and the period of time, not to exceed eighteen months, during which the testing will take place.

(8) Each wholesaler who sells beer to a retailer in this state shall service for the purpose of quality control all the beer it sells to that retailer. Each wholesaler shall, to the extent permitted by the Nebraska Liquor Control Act and the rules and regulations adopted and promulgated pursuant to such act:

(a) Rotate the beer it sold to a retailer no less frequently than may be specified from time to time by the brand owner so that beer produced first will be sold first;

(b) Clean and maintain tap equipment and provide related services as may be specified from time to time by the brand owner;

(c) Remove and replace with the same kind of beer any beer it sold to a retailer which has not been resold to a consumer within the time limits specified by the brand owner; and

(d) Provide whatever additional quality control services and comply with whatever additional quality control requirements are specified in writing from time to time by the brand owner, subject to the conditions that those services and requirements are reasonable and are reasonably related to promotion of quality control and that the wholesaler has received written notice of the services to be provided and the requirements to be satisfied and has been granted a reasonable time within which to comply.

(9) Except in the event of a temporary service interruption, a wholesaler shall not sell beer (a) to a retailer who does not have a location within the wholesaler's sales territory at which the retailer is entitled to resell beer to consumers or who the wholesaler knows or reasonably should know does not have a location within the wholesaler's sales territory at which the retailer is entitled to resell beer or (b) to any person who the wholesaler has reason to believe will sell or supply all or part of such beer to any retailer who does not have a location within the wholesaler's sales territory at which the retailer is entitled to resell beer. During a period of temporary service interruption impacting a particular wholesaler's sales territory, the wholesaler who normally services the sales territory shall file with the Nebraska Liquor Control Commission and serve on his or her suppliers a written notice stating that a temporary service interruption has occurred and indicating the anticipated duration of the temporary service interruption. After receiving such notice the supplier may designate another wholesaler or wholesalers to service the sales territory during the period of temporary service interruption. The consent or approval of the supplier shall not be required of any transfer of the wholesaler's business, including the assignment of wholesaler's rights under the agreement, to a designated member except as provided in this subsection and shall not be withheld or unreasonably delayed to a proposed transferee other than a designated member who meets such reasonable qualifications. The supplier shall have the burden of proving that the proposed transferee fails to meet such reasonable qualifications and that the qualifications are consistently applied to Nebraska wholesalers by the supplier. A designated member or transferee shall not be qualified as a transferee without the written approval or consent of the supplier if such proposed transferee:

(a) Has been insolvent, has filed a voluntary or involuntary petition under any bankruptcy or receivership law, or has executed an assignment for the benefit of creditors;

(2) The supplier shall not interfere with, prevent, or unreasonably delay the transfer of the wholesaler's business, including an assignment of wholesaler's rights under the agreement, if the proposed transferee is a designated member or if the transferee other than a designated member meets the reasonable qualifications required by the supplier for Nebraska wholesalers. When the transferee is other than a designated member, the supplier may, in good faith and for good cause related to the reasonable qualifications, refuse to accept the transfer of the wholesaler's business or the assignment of wholesaler's rights under the agreement. The supplier shall have the burden of proving that it has acted in good faith and that there was good cause for failure to accept or consent to the transfer of the wholesaler's business or the assignment of wholesaler's rights under the agreement.
