Nebraska Advantage Programs

The sunset for Nebraska Advantage Act applications was December 31, 2020 and no further applications can be accepted. The Nebraska Advantage Rural Development Act (Rural Development) and the Nebraska Advantage Microenterprise Tax Credit Act (Microenterprise) require a taxpayer to file an application to describe a project and to request participation in the incentive program. The applications and application guides include the requirement that the work eligibility of all newly hired employees in Nebraska must be verified. For applications filed on or after October 1, 2009, the taxpayer is required to provide proof of registration for E-Verify, the federal electronic verification program, to verify the work eligibility status of all newly hired employees employed in Nebraska. In some cases, the application date was delayed until the applicant documented the registration process.

The use of the E-Verify program for new employees is verified for qualified projects with an application date on or after October 1, 2009. The Nebraska Department of Revenue (DOR) audits compliance for all Nebraska Advantage programs with E-Verify requirements and the eligibility of the newly hired Nebraska employees when each project attains the minimum required levels of investment and employment necessary for benefits. In the qualification audits, the audit testing confirms that no benefits are allowed for employees that were not properly verified. Corrections are made for subsequent years for employees which were not properly verified. The results related to Rural Development and Microenterprise applications for 2023 are as follows:

The DOR website provides information to taxpayers planning to claim the Nebraska Advantage Research and Development Credit of the requirement to use E-Verify to confirm the work eligibility of all newly hired employees employed in Nebraska.

The Research Tax Credit Worksheet, Form 3800N, Worksheet RD, includes several questions asking claimants to confirm they are using E-Verify for newly hired employees. Use of the E-Verify program for new employees is not confirmed at the time the return is processed. DOR audits for compliance after returns claiming the credit have been processed.
