Summary of purpose and/or changes:

LB 380 would have altered an existing state aid to counties program. The existing law funds law enforcement and jail operations in a county containing an Indian reservation. The changes in LB 380 would have resulted in a formula for aid to such counties. The formula would have provided an amount equal to \$3.70 per acre of reservation land held in trust. The program would have been available in a county containing over 50,000 acres of such land. The fund would have been administered by the Department of Administrative Services. An annual audit report would have been required under the amended law.
