Summary of purpose and/or changes:

LB 911 would extend the due date of the final report on the Nebraska biotechnology strategic plan from the organization that was commissioned to complete it.

Section 1 amends 50-501, relating to the state's interest in biotechnology, by striking June and inserting September, so that the report making recommendations for the development of a statewide strategic plan would be due on September 30, 2010.

Section 2 repeals the original section.

Section 3 contains an emergency clause.

Chris Langemeier, Chairperson
