**Date of Hearing: February 04, 2014**

The following constitutes the reasons for this bill and the purposes which are sought to be accomplished thereby:

Legislative Bill 1069 is the annual technical bill for P-12 education. The proposal would replace references to the North Central Association for postsecondary accreditation purposes, harmonize with Nebraska Publications Clearinghouse requirements, specifically authorize school district expenditures related to programs and activities, require the Early Childhood Training Center to approve training for the Step Up to Quality Child Care Act, update special education definitions, further clarify the final deadlines for distance education incentives, and include private postsecondary career schools in any interstate reciprocity agreements for postsecondary distance education.
