May 11, 2015

Patrick O'Donnell, Clerk of the Legislature State Capitol, Room 2018
P.O. Box 94604
Lincoln, NE 68509

Dear Mr. O'Donnell,

In accordance with the Legislative Bill 195 (2013), please find attached the quarterly report required from the Department of Health and Human Services on ACCESSNebraska for the time period January 1, 2015 through March 31, 2015.

Information explaining this quarter's report submission is provided at the beginning of the report.

Sincerely,

Tony Green, Acting Director

Division of Children and Family Services

Department of Health and Human Services

Attachment

LB 195 Report – Department of Health Human Services – Division of Children and Family Services

Report for period of January 1, 2015 through March 31, 2015

Element One: Number of days in increments that it takes to process applications (approval or denial) for Aid to Dependent Children, Supplemental Nutrition Assistance Program, Aid to the Aged, Blind and Disabled, and Child Care Subsidy Program, overall and broken down by county.

Please see attached report.

Element Two: Number of days in increments that it takes to process applications for Medicaid and Children's Health Insurance Program, separating the data for applicants not applying on the basis of disability from applicants applying on the basis of disability, overall and broken down by county.

This information was submitted by the Division of Medicaid and Long Term Care.

Element Three: Reasons for benefit applications processing delays (department, client or third party) for all applications that are processed beyond federal and state timeliness in Aid to Dependent Children, Supplemental Nutrition Assistance Program, Aid to the Aged, Blind and Disabled, Medicaid and Children's Health Insurance Program statewide, and Child Care subsidy program, overall and broken down by county. This shall include the number of cases for each respective reason (department, client, third party).

Please see attached report.

Element Four: The number of case closures in Medicaid, Children's Health Insurance Program, Aid to Dependent Children, Supplemental Nutrition Assistance Program, Aid to the Aged, Blind and Disabled, and Child Care subsidy program, and the reason for the closure statewide and overall and broken down by county.

Please see attached report. This information is combined with the data collected for element five of this report.

Element Five: The number of case closures due to failure to recertify benefits, including failing to provide timely information, failing to perform a case review, or failing to appear for an appointment, overall and broken down by county.

Please see attached report. This information is combined with the data collected for element four of this report.

Element Six: Total number of first-time applicants for benefits categorized by state and county and by month.

Please see attached report. This information is combined with the data collected for element seven of this report.

Element Seven: The percentage of applications that are re-applications, categorized by state and county and by month.

Please see attached report. This information is combined with the data collected for element six of this report.

Element Eight: The percentage of individuals whose cases are closed who reapply for benefits within thirty days and sixty days after case closure, categorized by state and county, and by month.

Please see attached report. Please note the report has been updated to count the number of people whose case closed and then reapplied. We previously had been counting cases. Please note that customers who have received a notice of closure and then reapply before benefits expire are not shown on this report.

Element Nine: Average wait time for call center response. The average wait time starting from the time when the call is transferred to the customer service center to the time when the worker answers the call.

Month/Quarter	Average Wait Time
January 2015	00:21:24
February 2015	00:18:42
March 2015	00:17:25
January - March 2015 Quarter	00:19:16

Please note starting July 2014 the focus was on one-call resolution which resulted in higher wait times and abandonment rates.

Element Ten: The number of client call terminations (client hang ups) that occur prior to speaking with a staff member and the average length of time starting from the time when the call is transferred to the customer service center to the time when the caller terminates the call.

Month/Quarter	Number of Abandons	Average Abandon Delay
January 2015	12849	00:14:11
February 2015	9881	00:11:57
March 2015	10442	00:11:57
January – March 2015 Quarter	33172	00:12:49

Please note starting July 2014, the focus was on one-call resolution resulting in higher wait times and abandonment rates.

Element Eleven: Average number of minutes per delivery system transaction or task, based on type of transaction, including, but not limited to, application management (new, review, renewal), interviewing (high and low priority), application processing (processing initial, processing daily, processing ready), and change management.

Data regarding the number of minutes per delivery to process a task is not available. A report reflecting the number of days to complete a work task is attached.

Element Twelve: The number of hours and the number of days when call center responses are at a maximum and clients receive a busy signal when calling.

Please see the attached summarized report. The summary is based on information from a report provided by the Office of the Chief Information Officer (OCIO). The total number of lines for CFS-EA is 207 lines. There are 92 lines dedicated for Omaha area callers and the remaining 115 lines are for those calling from the remainder of the state.

Element Thirteen: It is the intent of the Legislature that the department submit a report to the Clerk of the Legislature that includes the following monthly information on a quarterly basis for the workers in the ACCESSNebraska call centers and in local offices: The number of social service workers, eligibility technicians, and social service lead workers and the number of vacancies are in these positions at the beginning of each month; the number of these positions vacated within a month; and the number of these positions filled within a month.

Please see attached report with the requested data for social service workers and social service lead workers. CFS-EA does not have workers with the title of eligibility technician.

State Totals	10251	9	0.09%	1255	12.24%

Note: If a county had no individuals closed for 02/01/2016, the county will not appear on the list. The county may have had individuals who applied for programs within 60 days of 02/01/2015, however they are not considered re-applications for benefits which were closed as of 02/01/2015.

The "Number of Persons Closed Effective..." column provides a reflective count of the individuals who were involved in each type of program case. The entries under "Total" are not a true reflection of the number of individuals closed due to an individual's possible participation in multiple programs.

LB561: % of People who had Case Closed and then Reapplied within 30 and 60 days

Note: If a county had no individuals closed for 01/01/2016, the county will not appear on the list. The county may have had individuals who applied for programs within 60 days of 01/01/2015, however they are not considered re-applications for benefits which were closed as of 01/01/2015.

The "Number of Persons Closed Effective..." column provides a reflective count of the individuals who were involved in each type of program case. The entries under "Total" are not a true reflection of the number of individuals closed due to an individual's possible participation in multiple programs.

State Totals	10870	10	0.09%	1426	13.12%

Note: If a county had no individuals closed for 12/01/2014, the county will not appear on the list. The county may have had individuals who applied for programs within 50 days of 12/01/2014, however they are not considered re-applications for benefits which were closed as of 12/01/2014.

The "Number of Persons Closed Effective..." column provides a reflective count of the Individuals who were involved in each type of program case. The entries under "Total" are not a true reflection of the number of individuals closed due to an individual's possible participation in multiple programs.
