4 maintain a network that is sufficient in numbers and types of providers  
5 to assure that all health care services to covered persons will be  
6 accessible without unreasonable delay. In the case of emergency services,  
7 covered persons shall have access twenty-four hours per day, seven days  
8 per week. Sufficiency shall be determined in accordance with the  
9 requirements of this section and may be established by reference to any  
10 reasonable criteria used by the health carrier, including, but not  
11 limited to: Provider-covered person ratios by specialty; primary care  
12 provider-covered person ratios; geographic accessibility; waiting times  
13 for appointments with participating providers; hours of operation; and  
14 the volume of technological and specialty services available to serve the  
15 needs of covered persons requiring technologically advanced or specialty  
16 care.

17 (b a) In any case in which the health carrier has an insufficient  
18 number or type of participating provider to provide a covered benefit,  
19 the health carrier shall ensure that the covered person obtains the  
20 covered benefit and the health carrier shall reimburse the  
21 nonparticipating provider at the health carrier's usual and customary  
22 rate or at an agreed upon rate.

23 (c b) The health carrier shall establish and maintain adequate  
24 arrangements to ensure reasonable proximity of participating providers to  
25 the business or personal residence of covered persons. In determining  
26 whether a health carrier has complied with this provision, the director  
27 shall give due consideration to the relative availability of health care  
28 providers in the service area under consideration.

29 (d) A health carrier shall not implement a rule within the network  
30 it maintains or in contracting with participating providers or  
31 reimbursing nonparticipating providers that denies participation by or

2 based on a familial relationship between the provider and the covered  
3 person.

4 (2) A health carrier shall maintain an access plan meeting the  
5 requirements of the Managed Care Plan Network Adequacy Act for each of  
6 the managed care plans that the health carrier offers in this state. The

8 plan as proprietary or competitive information that shall not be made  
9 public. For the purposes of this section, information is proprietary or  
10 competitive if revealing the information would cause the health carrier's  
11 competitors to obtain valuable business information. The health carrier  
12 shall make the access plans, absent proprietary information, available on  
13 its business premises and shall provide them to the director or any  
14 interested party upon request. The health carrier shall prepare an access  
15 plan prior to offering a new managed care plan and shall update an
