government will impose a sanction and show that it is hypocritical across the board and is folding, knuckling under the motorcycle helmet manufacturers. The special interest group that doesn't even talk to us is controlling us. The federal government is the puppetier, we are to be made into the puppets. For my part, I can't play that role.

PRESIDENT: Senator Shirley Marsh.

SENATOR MARSH: Mr. President, members of the Legislature. I'm either very brave or very braven to say I disagree with every speaker so far on this issue. I feel sincerely that helmets help safeguard lives. I feel sincerely that it is stupidity to decide to toss away millions of dollars possibly. If we lose those millions of dollars, you are saying "Alright citizens of Nebraska, cough up the \$5 million for construction of roads in our state". I sincerely believe that helmets are an advantage. That issue is the issue before us. The dollars are also closely wrapped up in this issue. Strange that not one voice has been raised to save 328. Strange is it, or is it the masculinity that's getting in the way of saying one time federal government had an idea which helped save lives, but we'll call it state's right. That way we can kill the bill now. I do not agree with you. I thoroughly disagree with every speaker who has spoken so far.

PRESIDENT: There's a motion on the desk. Will you remove this gentleman from the balcony please.
