

March 10, 1976

here today I am certain that I have accomplished my purpose very well. If Senator Koch could tune in as well as he can broadcast, he would remember that I said, if instead of saying that money would go for buses you would use it for bilingual instructors and bilingual curriculum and instructional materials then perhaps he wouldn't be quarreling in the way that he did. But, a lot of times when there is something that you believe and you identify that thing with yourself in an attack on it is taken as an attack on yourself. So, as a well educated man I understand Senator Koch's being distressed this afternoon. In fact, it might be an indication of his sincerity of purpose. But, people who are sincere can be sincerely wrong. When Senator Koch talks about money following disadvantaged children, he doesn't have a statistic that he can quote to demonstrate that these children riding these buses are disadvantaged. He can't even define what this being disadvantaged means. He hasn't undertaken any studies to make a determination about that because if he had he would be as concerned and upset about these issues as I am other than in the context of when we are talking about getting some dollars for buses, or, for saying that if a child goes to a different school which has a better curriculum, better staffing, better text books, more equipment that that child is going to continue to be educationally disadvantaged, I can't buy it. Every parent is not required to teach his or her children. I work with mine. But, you see, I went to school and I had an opportunity. But, I am not so forgetful, and I am not willing to point such a finger of praise at myself that I forget that there are a lot of people who have to spend a lot of their time working. Now maybe if we were all lobbyists for various organizations that would pay us a salary whether we work or not, then we would have the leisure time to do all of these things. There is a lot of hard, dirty, dangerous, heavy debilitating, physically exhausting work that must be done by people who don't have the opportunities to work as a lobbyist for certain groups. So, when they come home they don't have the time, or the inclination and sometimes not even the education themselves to educate their children. So, I don't think that a man or woman is deserving of a plus because they were favored by the way they were born or the friends that they have or the strings that they can pull. We are talking here today about a basic formula for distributing money, supposedly for educational purposes. Now, when I stand up here and I talk to you about people's spelling, and not being able to read well, I keep a lot of letters and these are some of them that I got from children in junior high now and I am not going to go through all of them because the aim is not to make fun of children but Senator Koch said that I can't bear out what I am talking about. I can read the mail that I get and in a lot of instances Senator Koch I can understand what the people are trying to write. I know that there are a lot of adults who can't spell much better. Because the adults can't spell and the adults are ignorant as far as education is concerned that should be a warning sign and make us not want the same thing for the children. I am going to spell a word and you all can decide what it is. It is spelled "secutry" and it is not supposed to be cicutry. "Suisecutry" and it is not supposed to be security. "Secutry" this is a procedure that they use in school. It is supposed to be secretary. Now see some people get these kind of letters
