in my mind. Are you saying we will eliminate the fee entirely?

SENATOR CHAMBERS: Yes.

SENATOR HIGGINS: And these tests are usually performed by a doctor in his office or in the hospital?

SENATOR CHAMBERS: What I am going after is the fee that the Department of Health would assess. I am saying that if the state is requiring the test, if the State Department of Health becomes involved at any point, the Department of Health should not be able to assess a fee, and Senator Warner is right about other language in the general statute but this is sort of like testing the water to see what the Legislature is willing to go along with.

SENATOR HIGGINS: But if the Department of Health doesn't get involved, if a doctor does it in his office, he would charge a fee for it, or if you have it done in a hospital, the hospital would charge a fee, wouldn't they, to run that test?

SENATOR CHAMBERS: Mr. Chairman and members of the Legislature, I will be very brief. Should this amendment go, then I do intend to go into the other sections of statute that will deal with similar tests of this kind and see what kind of fee is assessed and take those away, too. I don't believe that is going to break the Department of Health or hurt them that much not to be given the fee. But remember, I am telling
