LB 13A, 232, 643, 733, 754, 774

should even though I am going to have some opposition in my particular area, I still feel that this is proper and correct. By raising it up to 16 ton, it will catch most of the average farm trucks but there is going to be some out there that have a larger truck and they are going to haul more grain but they also must remember that they are causing some danger, some harm to the roads, and they should be helping pay for this. So all in all, as I see it, I think this has corrected a lot of the difficulties that we had this past year and I will support the bill.
