LR 276

because I didn't know that he was against the little folks, but evidently he is, because it is earthshattering to them. It is important to those people, terribly important, and they are being denied this. And what they are saying is when a bad decision is being made, the Legislature should not rectify it. Well, but what they are forgetting is these are tax dollars that are being paid to have this program, tax dollars, and so these people are entitled to the same treatment. Senator Chambers was talking clear in a different area and I won't debate whether he was right or wrong because it did not address this issue. This particular resolution is strictly on this one issue. We are not setting policy forever, ever, ever and ever, with the exception, you are going to do it for one, in this particular case you do it for all. So I cannot stand here and see why people would not say it is tax dollars. The course can be shown later. Why should these people be discriminated against when it has already been proven that if it was the big people, Omaha, Lincoln, Class A, Class B, what have you, they would not have been discriminated against. So I ask for your support so that I can have 25 votes. Thank you, Mr. President.
