

April 3, 1984

LB 928

as far as the sunset date is concerned. Senator Peterson just got through pointing out the facts and we all know those are the facts. The fact is there could be a bill in here next year to repeal this entire law that we are going to be passing with 928 or there could be bills in to amend it in various fashions and we all know that. We don't have to have a sunset provision on it to change it. We all know where the impetus for the sunset provision is coming from and I think it is ridiculous. There are those people outside of this Chamber who say that, you know, we really don't want to give in an inch but let's at least put a sunset provision on it so that it doesn't look like we gave in totally. We're going to only give in for a certain length of time. Well I think that is a "bull of crock" if you will excuse the expression. I think a better thing to do is to say, look, we're going to deal with this issue. We are going to do the best we can and we have wrestled with this for a long time and we dealt with it and I think it would be silly of us, ridiculous to put a sunset provision on it. I oppose the amendment.

PRESIDENT: Senator Landis.

SENATOR LANDIS: Call the question.

PRESIDENT: I think it may not be necessary but, thank you. Senator Hoagland, do you have any closing? Yes.

SENATOR HOAGLAND: Let Senator Wesely and I share the closing. I think he wants to be heard, too.

PRESIDENT: Very well, and the Chair asks (gavel) for order in the Chamber so that we may hear what you are all saying. Senator Wesely, you may close on the motion to return the bill.

SENATOR HOAGLAND: Let me open the closing if I might, Mr. President.

PRESIDENT: Very well.

SENATOR HOAGLAND: Let me say just a couple of things.
