LR 88

support a resolution to do it, but I do not believe his amendment is germane to the resolution because it says nothing about missiles, missile site inspections, or anything like this. It is talking about food and the budget. And so I would ask you to rule whether it is germane or not germane.

SPEAKER NICHOL: Yes, sir. I am ready to rule and I rule that it is not germane.

CLERK: Mr. President, the next motion I have on the bill...excuse me, Senator.

SPEAKER NICHOL: No, that's all. Go ahead.

CLERK: Okay...is a motion to suspend the rules and vote without further debate or amendment on LR 88 and that is offered by Senator Wesely.

SPEAKER NICHOL: Senator Wesely.

SENATOR WESELY: Mr. Speaker, I am sorry to have to do this. There are several amendments up there. There are amendments that were considered previously. I would just ask if you could to consider going ahead and voting on the thing. We have got the former legislators coming in and it is time to move on. If you would please consider that option, I would like to ask your support.

SPEAKER NICHOL: You have heard the motion. I was afraid you were going to think of that. Yes, it is debatable. I have many lights on that have been on for a long time, so I will have to see. Senator Beutler, did you wish to speak about it? Senator Schmit, did you want to talk about suspending the rules and going? Senator Sieck. Senator DeCamp. Senator Pirsch. All right.

SENATOR PIRSCH: Thank you, Mr. Speaker and members of the body, I did have a great interest in Senator Pappas's amendment and sat down and tried to write one which would end in the results being the "equal and balanced". And I believe Senator Pappas has approved that and I would like to present that on the amendment before I could vote for it and hope that you would not vote to end without further amendment but consider another amendment. Thank you.
