

proper approach would be...I...when you started explaining that it was kind of funny. I think the way you read is right and that would be something though I think we could respectfully defer to the Revisor of Statutes to take a look at for us. I...when you raised that I think we actually have that probably throughout law but I've never really thought of it in that respect. I think that probably exists a lot of places in statute and I've never seen a question about whether it applies or not because it is somewhat circular, it doesn't apply to these statutes but you never get to that because it never applies to it, so it's...I mean, it can get you into a circular argument but it's an interesting thing. It's probably something that ought to be called to the attention of the bill drafters but I do know it occurs a lot of places in the statutes.

SENATOR PREISTER: Okay, thank you for your clarification. The old Catch-22 there, and that's how I was reading it so I appreciate your insight, and as I see these things I might bring it to attention, so though it may be in other sections of statute perhaps as we locate them it can be changed and corrected. Thank you.

PRESIDENT ROBAK: Thank you, Senator. Is there any further discussion on the advancement of LB 283? Seeing none, Senator Wehrbein to close.

SENATOR WEHRBEIN: Yes, Madam Speaker, members, just very briefly. Senator Chambers and I will work on this. I, too, am not certain that we will come to an agreement but at least I know the area he's concerned with. I'm willing to look at it and see if that we can come to some agreement. No promises, but at least I would like to move it beyond General File at this point. Thank you.

PRESIDENT ROBAK: Thank you, Senator Wehrbein. The question before the body is the advancement of LB 283. All those in favor vote aye. All those opposed vote nay. Have you all voted? Please record.

ASSISTANT CLERK: 28 ayes, 0 nays on the motion to advance the bill.

PRESIDENT ROBAK: LB 750 passes...advances. LB...excuse me, LB 283 advances. LB 750.
