

Wickersham. I understand this is probably something that you had to pick because it is on Final Reading, and there aren't too many bills out of the retirement, so the idea of the amendment and reconciling the money within the Patrol account I agree with, but I still don't like spending the money on an additional training session for those individuals, and I know you think that that's not realistic. Being a person from the business world, I still don't understand why people can't pay for their own retirement information, and go to classes and pay for them themselves, if they want to know more about it, and that's what LB 369 was about. So I did vote against it out of committee, and I did vote against it every other stage of debate, and now you are putting an amendment on it that I agree with, so I guess I'm kind of deciding what to do. Thank you.
