

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

April 23, 1997 LB 119, 138, 269, 279, 352, 396, 396A, 437
452, 495, 546, 551, 577, 577A, 636, 770, 806
814, 837, 861, 886

and let's pass this on and, with that, I'd like to give Senator Bohlke the rest of my time.

PRESIDENT ROBAK: Thank you, Senator Cudaback. Senator Bohlke.

SENATOR BOHLKE: Yes, Madam President, thank you, Senator Cudaback. Mine, what I wanted to do was to simply tell you that you have yet a new printout on your desk. This is called goldenrod, and what this is, is an issue that Senator Wickersham had been working on as far as looking at poverty but using income as a factor. The important thing to remember in this is, as you look at the numbers, this does not have the 100 million in it that some of the other printouts do, and so that will make a difference as you look through those numbers. With that, thank you, Senator Cudaback.

PRESIDENT ROBAK: Thank you, Senator Bohlke. Mr. Clerk, items for the record.

CLERK: Madam President, a series of amendments: Senator Dwite Pedersen to (LB) 138; Senator Withem to LB 806, series of motions to 806; Senator Will, LB 269. (Read Enrollment and Review Report re LB 119, LB 279, LB 352, LB 396, LB 396A, LB 437, LB 452, LB 495, LB 546, LB 551, LB 577, LB 577A, LB 636, LB 770, LB 814, LB 837, LB 861, LB 886. See pages 1681-83 of the Legislative Journal.)

PRESIDENT ROBAK: Chair recognizes Senator Withem.

SPEAKER WITHEM: Yes, Madam President, I'm going to move...make a motion to adjourn for the day. I so make that motion and then I would like to be recognized to speak to that as I believe that the Speaker has an opportunity to.

PRESIDENT ROBAK: You are recognized to speak to the motion.

SPEAKER WITHEM: Thank you, Madam Lieutenant Governor. Would like to make two general announcements, one dealing with legislative activity next week. It is quite obvious that we have a very complicated bill before us at this moment, along with a number of others to follow. It's the point in the session where we begin to need pushing the envelope of our
