

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

May 12, 1999

LB 556

to be very, very critical of our current license plates and I just want to tell you that I have a very old pickup that's been in a lot of...that's had a lot of problems through its life and it's got a lot of dents and, Senator...Senator Chambers, if he would listen for a second, there are two...there are two vehicles that I've seen in this state that make the new plates look good, and one of them is Senator Chambers' vehicle he got rid of and the other is my pickup, so there are some...there's some positive about these plates. That's all I have to say. Thank you, Mr. President.

SENATOR CUDABACK: Thank you, Senator Bromm. Currently, there are Senators Beutler, Vrtiska, Brashear, and Jones wishing to speak on the Lynch amendment. Senator Beutler.

SENATOR BEUTLER: I would...

SENATOR CUDABACK: Senator Beutler waives. Senator Vrtiska.

SENATOR VRTISKA: Thank you, Mr. President, members of the body. I've listened for a long time about the cost savings and how we need to save costs and I certainly do agree and I support the amendment. The only question I have to ask Senator Bromm, if he's close to the phone, close to the mike,...

SENATOR CUDABACK: Would you...would you yield, Senator Bromm?

SENATOR VRTISKA: ...why didn't we go to one plate in the back, like Kansas, Missouri and many other states? That storage cost you're talking about would be cut in half because we'd only have half as many plates. It appears to me that we're missing a real opportunity to go all the way and really cut down the cost to the state of Nebraska in the number of plates we have to produce. I understand a few years ago I think Senator Schmitt had this bill and it didn't get out of committee or, if it did, it didn't get anywhere, but it looks to me like the time is ripe when we would start talking about real savings and that's the number of plates we have to produce. Would you answer that.

SENATOR BROMM: Sure, that's a...that's an excellent point, Senator Vrtiska. One of the interim studies that the Transportation Committee is going to undertake this summer is a
