

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

April 3, 2000

LB 1217

has done something you don't like. Think about these people, who we're talking about are state employees. They are employees of the university system. They are secretaries. They are custodians. They are faculty. They are all kinds of people and I don't see why we should make them bear the brunt of it just because you may be angry with the administration. Take that...take that out and think about the people that are involved. The same goes for the provider money, and I think we probably...a lot, most of use agree on the provider money, that those rates are...a lot of people are suffering there. A lot of...we have Cedars Home in Lincoln that's having a difficult time answering the needs that they have for the state wards because of the rates. So on that basis, I want you to think about those two things as people. Sheldon Art Gallery does serve a lot of people so there, again, I want you to think about that, and I want you to think about all the people that walk up and down Centennial Mall and maybe stumble around on the rocks and those terrible sidewalks and all the trash that's in the fountains, because people is what the whole thing is all about. Each, everything we do here affects a group of people, and that group of people, they are all people who are citizens of the state of Nebraska. So I hope that you'll look at the package and not...don't vote in a vindictive way because you're angry with somebody or something. I think that we...for the Sheldon, Sheldon is just a priority with me, and the Centennial Mall second priority because I just feel that both of those places need help, and I...I just think the state of Nebraska has to come along once in awhile and help some...help a city or a village or whatever. We've done a lot of work here this...I was going to say semester, this session. We've done a lot of work this session trying to help the smaller towns and the rural areas. So I think everything we do here affects one city or one village or one county or a group of counties or a group of towns, and I...

SPEAKER KRISTENSEN: One minute.

SENATOR CROSBY: ...firmly believe that we should go for this package. Go for this package and feel that we have helped a lot of people, 1.6 million people all told probably, because even when you think about a state ward who has a mental health problem, there's a family, there's a ripple effect there as to
