FLOOR DEBATE

April 18, 2002 LB 647

organizations were known and reknowned for their brutality and terrorist tactics. And Israel has combined the worst of all of them to produce their IDF or Israeli Defenses Forces. They utilized the worst of all of these Nazi organizations, and America supports this Nazi action, and the Legislature does, too. Why are you going to get upset if a swastika is put on a synagogue? Jews support Israel. Israel is Nazi and carrying out Nazi depredations. The symbol of the Nazis is the swastika, Senator Brashear, but you all don't like truth in labeling. Your constituents and your friends who support everything Israel is doing and you do, too; don't want anybody to be critical. Well, until you all find a way to erase all the people like me, there will be people critical, and who fear not Israelis, fear not American Jews, and fear not their sycophants, and will speak on those things that need to be addressed. What about the so-called Palestinian suicide bombers? In our struggle as black people, there have always been young, black men who were very, very hot-headed, and wanted to commit acts of violence. And they would ask me what I thought. I would always tell them invariably, I would not send my son out to do what you're talking about, and I won't send you to do it. And don't listen to any grown person. If a grown man thinks this is what ought to be done, let him do it, and I would never send a child or anybody else to do anything that could result in the death of an innocent person or that one who is going to do it. So if I were a Palestinian, I would feel a necessity to join what I see as a heroic struggle of my people against the Israelis. But would I encourage a Palestinian to become a human bomb? I would not. If a Palestinian told me, this was his intent, would I try to dissuade him from doing it? I don't believe I would have the moral right to do so because I don't have an answer to how else to fight against the Israeli incursions, oppression, and crimes against humanity being committed against Palestinians, and this didn't start yesterday. The Jews have been oppressing the Palestinians for decades. You all just became aware of it because CNN just saw fit to start talking about it, but when you have been pushed into a corner, and your people are being slaughtered all around you...

SPEAKER KRISTENSEN: One minute.
