

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE  
Transcriber's Office  
FLOOR DEBATE

February 26, 2003 LR 14

the...where it was in their calendar. In any event, I don't think that we should act under the threat or the possibility of some...something that is yet to come. And if we do, this would be on the ballot; they would be on the ballot. I don't...I just feel that that's not a good basis for action. As a matter of fact, it was a prominent Democrat, Senator Schimek, who said we should not take counsel of our fears. Would you happen to know who that was?

SPEAKER BROMM: One minute.

SENATOR SCHIMEK: I believe it was Franklin Delano Roosevelt.

SENATOR TYSON: You're right. Anyway, this constitutional amendment that we are considering now is something that we should think about as to its long-term effect on the state of Nebraska. Will it be good in the long run? If that petition that is now under appeal in the Supreme Court were to become a constitutional amendment, we wouldn't have any input in it, and we wouldn't have any take out of it; just the greedy people that have paid for it would benefit. And I think the long term of that would show people who now think that they would like to have something like video slots, they should even put them in the bathrooms so that they wouldn't miss an opportunity.

SPEAKER BROMM: Time.

SENATOR TYSON: Thank you.

SPEAKER BROMM: Senator Schrock.

SENATOR SCHROCK: Mr. Speaker, members of the Legislature, the fact of the matter is 37 states now offer slot machines, and you can argue about the pros and cons of gambling. We can hold out. Quite frankly, I resent what our neighbors have done to us. Well, let's just say for the sake of argument that Nebraska gamblers lose \$50 million a year in other states. In other words, the other states' revenues benefit \$50 million a year. That's \$50 million a year that we could have. But it's not just the gambling revenue that bothers me. My cousin from Holdrege decided he wanted to spend the night at the casino in Council
