Among powers and duties enumerated for the Coordinating Commission for Postsecondary Education in Sec. 85-1412, the Commission is to conduct surveys and studies as may be necessary to undertake its coordination function. LB58 would amend Sec. 85-1412 so as to specifically direct the Coordinating Commission to conduct a study regarding the need for uniform policies and practices for dual enrollment courses and career academies in Nebraska. The Commission is to conduct the study in collaboration with the State Department of Education, public postsecondary educational institutions, and school districts. The fiscal impact of such a study would be largely dependent upon the scope of the study to be undertaken. A related study of reasonable scope could apparently be accomplished within the existing budget resources of the Commission and those of the entities with which it is to collaborate.
