LB 704 redraws the boundaries for Nebraska's Congressional Districts to address population shifts as reflected in the most recent decennial census.

The Secretary of State estimates a cost of \$24,000 in fiscal year 2011-12 to address the costs associated with printing large format maps and software licensing. In addition, ongoing costs of \$6,000 per year are estimated for software maintenance and upgrades.

The Secretary of State notes that Legislative Research already has a large format printer. Legislative Research has stated that the printer will be made available for use by the Secretary of State. This effectively brings the associated costs for the Secretary of State to zero.

The Legislative Research Office and the Secretary of State's office shall work cooperatively to publish and distribute the district maps referenced in LB 699, LB 700, LB 701, LB 702, LB 703, and LB 704.
