The following constitutes the reasons for this bill and the purposes which are sought to be accomplished thereby:

LB 515 would allow a pharmacist who receives a request for a prescription refill, with no remaining authorizations, to dispense an emergency refill of the lesser of a 30-day supply of the prescription, or the amount dispensed on the most recent refill, if the prescribing practitioner is not readily available. Such refills would only be available for non-controlled substances and maintenance medications.
