Any Fiscal Notes received from state agencies and political subdivisions are attached following the Legislative Fiscal Analyst Estimate.

This bill changes the reduces the number of signees required for an application for licensure under the Health Care Facility Licensure Act, if the applicant is a limited liability company, from two member to one. Changes would require additional work but the cost can be absorbed within current agency resources. Minimal fiscal impact.

Explanation of Estimate:

LB 463 will require changes to be made to every health care facility or health care service initial and renewal license applications to reflect that only one member needs to sign the application instead of needing two if the applicant is a Limited Liability Company (LLC). This would affect approximately 15 to 20 different health care facilities or health care services. Once the changes are made, the applications will need to be placed back onto the public website for use by applicants. This new work will require an additional 8 hours for 4 Administrative Specialists at \$18.443 per hour to complete, and an additional 20 hours for 1 Administrative Specialist to post the updated applications to the public website. This would cost an estimated \$1,550 that would be absorbed by the Department of Health and Human Services.
