Section 1. That at the general election in November 1984 there shall be submitted to the electors of the State of Nebraska for approval the following amendment to Article VIII, section 1, of the Constitution of Nebraska, which is hereby proposed by the Legislature:

"Sec. 1. The necessary revenue of the state and its governmental subdivisions shall be raised by taxation in such manner as the Legislature may direct. Taxes shall be levied by valuation uniformly and proportionately upon all tangible property and franchises, except that the Legislature may provide for a different method of taxing motor vehicles and may also establish a separate class of motor vehicles consisting of those owned and held for resale by motor vehicle dealers which shall be taxed in the manner and to the extent as provided by the Legislature and may also establish a separate class for trucks, trailers, ~~semi-trailers~~ semitrailers, truck-tractors, or combinations thereof, consisting of those owned by residents and nonresidents of this state, and operating in interstate commerce, and may provide reciprocal and proportionate taxation of such vehicles; PROVIDED, that such tax proceeds from motor vehicles taxed in each county shall be allocated to the state, counties, townships, cities, villages, and school districts of such county in the same proportion that the levy of each bears to the total levy of said county on personal tangible property. The Legislature may enact laws to provide that the value of land actively devoted to agricultural or horticultural use shall, for property tax purposes, be that value which such land has for agricultural or horticultural use without regard to any value which such land might have for other purposes or uses, and prescribe standards and methods for the determination of the value of real or other tangible property at uniform and proportionate values. The Legislature may provide that agricultural land and horticultural land used solely for agricultural or

horticultural purposes shall constitute a separate and distinct class of property for purposes of taxation. Taxes uniform as to class of property or the ownership or use thereof may be levied by valuation or otherwise upon classes of intangible property as the Legislature may determine, and such intangible property held in trust or otherwise for the purpose of funding pension, profit-sharing, or other employee benefit plans as defined by the Legislature may be declared to be exempt from taxation. Taxes, other than property taxes, may be authorized by law. Existing revenue laws shall continue in effect until changed by the Legislature. The Legislature may provide that livestock shall constitute a separate and distinct class of property for purposes of taxation and may further provide for reciprocal and proportionate taxation of livestock located in this state for only part of a year."
