# INTRODUCTION

This inaugural 2022 edition of *School Districts At-A-Glance* provides the Nebraska Legislature with comprehensive information about each public school district in Nebraska. This report contains data about the community within the district, households with students in public school, students and teachers, performance, and finances. *School Districts At-A-Glance* presents consistent data points from multiple sources in order to assemble a picture of all public school districts in Nebraska. The sources of data contained in this report are found by following the links available in the online version of the Glossary.

The Legislative Research Office offers *School Districts At-A-Glance* as a quick reference or a starting point for policy examination and to provide both newly-elected and returning senators with essential school statistics in a reliable format. This document is designed to be replicable and is part of a rotating series of At-A-Glance publications from the Legislative Research Office.

The goal of the Legislative Research Office is to continually improve each iteration of the At-A-Glance reports. As such, your feedback regarding the enhancement of this research product will be useful and taken into consideration. We welcome the opportunity to hear from you about how *School Districts At-A-Glance* can become even more useful for the purpose of policy debate and lawmaking.

Performance	Classification	School Classification	Schools are classified as: Excellent, Great, Good, or Needs Improvement. Classification is one way that Nebraska provides information about how each school and district is serving its students. Classification is determined by adjusting a school or district's beginning status by certain factors and also considering limitations placed on how an adjustment may be earned. Classification is not based solely on test scores. They are based on multiple measures of student success, including graduation rates, progress for English Learners, reduction in chronic absenteeism, and other measures of school quality and student success. Many stakeholders provided input on the selection of these indicators through the AQuESTT and ESSA planning processes and the department looks forward to continued engagement with a wide variety of stakeholders throughout implementation. Financials	Building	Special Building Levy (Sink Levy)	Tax for the Special Building Fund. A Special Building Fund must be established when a school district decides to acquire or improve sites and/or to erect, alter, or improve buildings. The sale of bonds, the sale of property, donations or tax receipts will be the primary sources of revenue for the Special Building Fund. Regardless of the source of money to be used for building construction and related costs, all income for this purpose must be accountable through this fund. Special Building Fund accounting provides a more effective means of identifying those expenditures associated with construction activities and provides a complete and consolidated record of all costs of the building program at the conclusion of a project(s). The tax levy for this fund is restricted. The Board of Education of school districts may approve a budget with a levy limitation of \$0.14 per one hundred dollars of valuation (Section 79-10,120 R.R.S.); or a tax levy not to exceed \$0.175 per one hundred dollars of valuation may be established for this fund in any class of school district by a vote of the people for a term of not to exceed ten years (Section 79-1098 R.R.S.).	2020/2021 STATISTICAL INFORMATION FOR PUBLIC SCHOOL DISTRICTS	Nebraska Department of Education	<a href="#">Link</a>
Financials	Qualified	Qualified Capital Purpose Undertaking Levy	Tax for the Qualified Capital Purpose Undertaking Fund. A Qualified Capital Purpose Undertaking Fund (QCPUF) may be established for a specific abatement project to address an actual or potential environmental hazard, accessibility barrier, life safety code violation, life safety hazard, or mold which exists within one or more existing school buildings or the school grounds of existing school buildings controlled by the school district. The period of years for such levy may not exceed ten years and the levy for such project when combined with all other levies pursuant to Sections 79-10,110.02 and 79-10,110 R.R.S. may not exceed \$0.03 per one hundred dollars of taxable valuation. General Fund expenditures for the purpose of these funds are not allowable. For projects in place prior to April 19, 2016, the Qualified Capital Purpose Undertaking Fund maximum levy remains at \$0.052. If taxable valuation is lower than the taxable valuation in the year when the district last issued QCPUF bonds and the \$0.03 maximum levy is insufficient to meet the combined annual principal and interest, the district can exceed the \$0.03 maximum levy for the difference to meet that year's principal and interest obligations.	2020/2021 STATISTICAL INFORMATION FOR PUBLIC SCHOOL DISTRICTS	Nebraska Department of Education	<a href="#">Link</a>

# NOTES

- **Asterisk Symbol**
  - ▶ Indicates that the data is suppressed or unavailable.
- **Adjustment Amount**
  - ▶ For purposes of state aid, § 79-1016 requires the adjusted value be calculated such that: 1) all real property other than agricultural land and horticultural land is adjusted to 96% of actual value; 2) all agricultural and horticultural land is adjusted to 72% of actual value and land that receives special valuation is adjusted to 72% of the special value of the land for its agricultural and horticultural purposes only; and 3) personal property is at 100% of depreciated net book value as defined by statute
- **Average Teacher Salary**
  - ▶ The average salary includes the salaries of teachers if the district holds the contract of at least 150 days, the teacher is teaching in only one school district, the teacher is serving exclusively as a teacher and, the teacher's district average basic salary (adjusted to 1.00 Full-Time-Equivalency) is > 0 and < 100,000.
- **Bond Levy**
  - ▶ Exclusion: Bonded indebtedness. (Principal and interest only.) Does not include the repayment of principal, premium, or interest on general obligation bonds issued for insurance premium costs and the payment of all costs and expenses associated with membership in a risk management pool that are effective after April 2, 2008.
- **Community achievement plan aid**
  - ▶ Only applies to school districts in a Learning Community
- **County and ESU Receipts**
  - ▶ ESU Receipts do not record grant funds which flow through the ESU to the school district; those should be recorded under the appropriate State or Federal Receipt function.
- **English Language Learners**
  - ▶ Data is suppressed if there are fewer than 10 students who are ELL
  - ▶ Factored into TEEOSA into a district's need calculation
- **Federal Receipts**
  - ▶ Many school districts participate in categorical programs that are funded in part or totally through the receipt of federal funds. Most such programs are administered directly through the Department of Education and require an application and some form of expenditure report. A separate and specific function number identifies those federal programs that are administered directly through the Department of Education.
- **Formula Needs**
  - ▶ System Formula Need may be adjusted by Formula Needs Stabilization: Needs Stabilization keeps the school year formula need between 100% and 112% of the previous year's end recalculated formula need, except the formula need for districts receiving a student growth adjustment is not decreased.
- **Free/Reduced Lunch**
  - ▶ Community eligibility provision
    - If 40 percent or more of students qualify then entire district receives free/reduced lunch. Students then do not submit an application for free/reduced lunch and thus it becomes unknown what the true percentage is of those who are qualified for free/reduced lunch.
  - ▶ Data is suppressed for groups with fewer than 10 students to protect confidential information about individual students as required by federal law.

- **General Levy**
  - ▶ There is no minimum or maximum increase on the property tax request in the General Fund but if the total district levy is more than the previous year, additional information is required to be included in the Property Resolution. However, the \$1.05 levy limit does place a maximum on the levy that a school can ask for in property tax for the combination of the General, Special Building and for non-bond expenditures in the Qualified Purpose Undertaking Fund.
- **Graduation Rate**
  - ▶ This rate is based on the standards published by the US Department of Education. Nebraska Department of Education lags the Cohort Four-Year Graduation Rate. The lag for graduation rates allows states to use the previous years graduation data so that summer school graduates are included in the graduation rate calculation for reporting Adequate Yearly Progress (AYP).
- **Instruction**
  - ▶ If proration of expenditures is not possible for department chairpersons who also teach, include department chairpersons who also teach in instruction. ESU: Quiz Bowl, Expulsion Programs, & Drivers' Ed Program.
- **Net Option Funding**
  - ▶ The total for the district cannot be less than zero. Since option students are included in the ADM counts of students used to determine a Local System's Needs, the inclusion of the amount as a Resource prevents a Local System which generates Equalization Aid from receiving both Equalization Aid and Net Option Funding based on the impact the students have on Needs.
- **NSCAS ACT**
  - ▶ Data is suppressed for groups with fewer than 10 students to protect confidential information about individual students as required by federal law.
- **NSCAS Special Covid 2021 Report**
  - ▶ Measurement experts strongly discourage direct comparison of the 2021 assessment results to previous years. Direct comparisons that fail to be informed by context of the COVID-19 Pandemic are likely to be misinterpreted and misused.
  - ▶ Measurement experts strongly discourage comparing districts and schools using 2021 assessment results. Circumstances during the pandemic varied greatly between schools and districts.
  - ▶ NSCAS ELA was transitioned from Legacy standards to the more rigorous Nebraska College and Career Ready (CCR) standards in the spring of 2017.
  - ▶ NSCAS Math was transitioned from Legacy standards to the more rigorous Nebraska College and Career Ready (CCR) standards in the spring of 2018.
- **Number of Schools (Buildings)**
  - ▶ The number of schools does not necessarily correlate to the number of school buildings. More than one school (elementary, secondary, etc.) could be housed in the same building.
  - ▶ There are a minimum of two schools for each district even if in one building and these schools may even share a principal.
- **Per Pupil Cost**
  - ▶ Beginning 2018/19, Per Pupil Costs include federal program disbursements per ESSA requirements.
- **Qualified Capital Purpose Undertaking Levy**
  - ▶ School districts have a maximum of 3¢ for projects initiated after April 19, 2016. Projects in place prior to that date can have a levy up to 5.2¢. This levy is part of the \$1.05 statutory maximum levy, unless the 3¢ is levied to retire bond principal and interest.
- **School Adjusted Values**
  - ▶ Only for the purposes for TEEOSA

- **School Reorganization**
  - ▶ No dissolutions for 2020/21
  - ▶ Two currently unified districts
    - South Central Nebraska Unified 5
      - ◇ Sandy Creek Schools
      - ◇ Lawrence/Nelson Public Schools
    - Bruning-Davenport Unified System
      - ◇ Davenport Community Schools
      - ◇ Bruning Public Schools
- **Summerland & Verdigre**
  - ▶ District data for Summerland and Verdigre is incomplete due to reorganization between the districts.
- **Special Building Levy (Sink Levy)**
  - ▶ School districts have a maximum levy in the Special Building Fund of 14¢ or 17.5¢ with a vote of their patrons. These maximum levies fall under the \$1.05 statutory maximum levy.
- **Special Education Enrollment**
  - ▶ Data is suppressed for groups with fewer than 10 students to protect confidential information about individual students as required by federal law.
- **State Aid**
  - ▶ The values for Total State Aid Calculated and State Aid (TEOSA) would be the same number if not for adjustments etc.
- **Student to Teacher Ratio**
  - ▶ The unduplicated count of teachers assigned to hold the following positions: Teacher, Head Teacher, Special Education Teacher-Core Academic Subjects/Grading, Special Education Teacher-Core Academic Subjects/Alternate Standards and Special Education Teacher-Collaborating/Co-Teaching.
- **Students with a Disability**
  - ▶ ACS-ED data for children and parents may not be available for a district due to insufficient sample size.
- **Total Levy**
  - ▶ The statutory maximum levy is \$1.05 plus exclusions. Exclusions are specific amounts that are outside of the levy limitation. The sum of the levies in each taxing fund (excluding principal and interest in the Bond Fund and Qualified Capital Purpose Undertaking Fund) may not exceed \$1.05 plus exclusions. These exclusions are: Voluntary Termination Agreements, Special Building Fund Projects Started prior to April 1, 1996, Judgments Not Covered by Liability Insurance, Lease-Purchase Contracts (Approved Prior to July 1, 1998), Bonded Indebtedness Approved According to Law and Secured by a Levy on Property. When these exclusions are used, the total levy may be greater than \$1.05. A local system may also have held an election to exceed the levy limitation. The ballot from the election will state the maximum levy and the duration of the levy.
- **Unadjusted Taxable Valuation**
  - ▶ School district budgets are subject to a levy limitation. The levy limitation places a ceiling on the property tax rate that may be assessed against the taxable valuation in a school district.
