LB 426 amends the Sports Arena Facility Financing Assistance Act, Nebraska Revised Statutes Section 13-3108.

Current language provides that any municipality that has received a grant of assistance under the Local Civic, Cultural, and Convention Center Financing Act shall not receive state assistance under the Sports Arena Facility Financing Act.

LB 426 amends that language to provide that the municipality may not receive assistance for the same project that received Local Civic, Cultural, and Convention Center Financing Act assistance. This would allow the municipality to receive assistance under the Sports Arena Facility Financing Act even if they have already received assistance for a different project under the Local Civic, Cultural, and Convention Center Financing Act.

The amount of assistance available under the Sports Arena Facility Financing Act is up to 70 percent of: state sales tax revenue collected by retailers doing business at eligible sports arena facilities, state sales tax collected on primary and secondary box office sales of admissions, and new state sales tax revenue collected by retailers within 600 yards of such facility. Total assistance shall not exceed \$50 million for an eligible sports arena facility.

The Department of Revenue estimates the fiscal impact of LB 426 to be the following:

FY2011-12:	\$ 0
FY2012-13:	(\$100,000)
FY2013-14:	(\$102,000)
FY2014-15:	(\$103,000)

The estimate is based on upon those projects which have previously received grants under the Local Civic, Cultural, and Convention Center Financing Act, with one additional small arena project projected to qualify in FY2012-13. The additional sales tax turnback is estimated as above.

Costs to administer are expected to be minimal.

There is no basis to disagree with the Department of Revenue's estimate of fiscal impact or cost.
