Summary of purpose and/or changes:

This bill would amend section 81-12,147 of the Site and Building Development Act which provides that the Department of Economic Development shall use the Site and Building Development Fund to finance loans, grants, subsidies, credit enhancements, and other financial assistance for industrial site and building development.

The bill would expand the enumerated list of activities that are eligible for assistance from the fund to include public and private sector initiatives that will improve the military value of military installations by making necessary improvements to buildings and infrastructure.

Brett Lindstrom, Chairperson
