Current law requires landowners to mow weeds to the middle of all public roads and drainage ditches running along their lands at least twice each year, before July 15 for the first time, and sometime in August for the second time. LB 584 would change this requirement to “sometime in July for the first time and sometime in September for the second time”. New language is added that provides that this shall not restrict landowners, a county, or a township from management of (a) roadside vegetation on road shoulders or of sight distances at intersections and entrances at any time of the year or (b) snow control mowing as may be necessary. Except as provided by this new language, mowing of roadside ditches by a county or township would be prohibited before July 1.

No fiscal impact.
