LB 612 requires a telecommunications company or other business that owns or controls a telephone system direct access to 911 emergency service from certain telephone systems that use Internet protocol-enabled services.

The Office of the Chief Information Officer believes that this will be possible with their current resources without passing the cost on to its customers.

No fiscal impact.

LB612 will require direct access to 911 emergency service from certain telephone systems that use Internet protocol-enabled services. OCIO believes that we would be able to enable our current systems to meet this requirement with minimal financial impact. We also believe that our current voice rates would be able to absorb this minimal financial impact without passing along this cost to our customers.

LB612 will have no additional fiscal impact on the OCIO.
