

ONE HUNDRED FIFTH LEGISLATURE

FIRST SESSION

LEGISLATIVE RESOLUTION 194

Introduced by Hilkemann, 4; Kolterman, 24; Williams, 36.

PURPOSE: LB407 (1985) put into place the technical review process commonly known as the "407 process." The purpose of LB407 was to establish a fact-finding body that would determine the need for regulation of health professions or the need for changes to the scope of practice of health professions. Many who have participated in the 407 process in recent years have found the process to be unduly adversarial and burdensome.

The purpose of this resolution is to examine the 407 process as it relates to scope of practice changes. Stakeholders shall be consulted regarding ways to make the 407 process more valuable to the Legislature and more user-friendly for applicant groups and affected groups of health professionals.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.
