

NEBRASKA

Good Life. Great Mission.

DEPT. OF HEALTH AND HUMAN SERVICES

Pete Ricketts, Governor

October 10, 2019

Patrick O'Donnell, Clerk of the Legislature
State Capitol, Room 2018
P.O. Box 94604
Lincoln, NE 68509

Dear Mr. O'Donnell:

Nebraska Statute 83-4,134.01 requires Nebraska's juvenile facilities to report quarterly to the Legislature on the use of room confinement.

Please find the attached report detailing room confinement usage for both the Youth Rehabilitation and Treatment Centers at Kearney and Geneva for the first quarter of SFY20.

The Youth Rehabilitation and Treatment Centers at Kearney and Geneva continue to use room confinement as a behavioral management tool for high risk youth in our care. Per our policy and by standards for the American Correctional Association, through which we are an accredited facility, the maximum time of continuous room confinement is 120 hours. We acknowledge that during the first quarter of SFY20, on six occasions at the YRTC-Kearney facility we exceeded 120 hours and were not in compliance with this standard. Efforts are being made to increase staff training around room confinement practices, and increased quality assurance measures are being put in place to ensure compliance.

No room confinement was used at the Whitehall Psychiatric Residential Treatment Facility or the Hastings Juvenile Chemical Dependency Center during this reporting period. To further comply with Nebraska Statute 83-4,134.01, I have also attached the current policies certifying that room confinement and seclusion are prohibited practices at those facilities.

Sincerely,

Mark LaBouchardiere
Director
DHHS Facilities
Department of Health and Human Services

Original Effective Date:	<u>October 2008</u>	Position Accountable:	<u>Whitehall Program Director</u>
Latest Review Date:	<u>September 2016</u>	Approved By:	<u>Cindy Nash, Ph.D.</u>
LATEST REVISION DATE:	<u>September 2016</u>		<u>Jesse Foster, Facility Operating Officer</u>

CRISIS MANAGEMENT AND DE-ESCALATION

PURPOSE

- Outline requirements established by the regulatory agencies of Joint Commission, Centers for Medicare and Medicaid Services (CMS), Federal law as well as Nebraska State law
- Limit the use of seclusion or restraint to emergency situations when less restrictive measures have been found ineffective
- Reinforce the utilization of client specific preferences and choices (as possible) to diminish the traumatic perceptions of seclusion or restraint
- Provide consistent guidelines for employees to prevent and manage potential youth crisis situations, to use the least restrictive interventions needed to safely manage situations
- Define by job classification and communicate which employees will be required to obtain and maintain certification/recertification of defined levels of Mandt de-escalation training.

POLICY

Whitehall strives to use non-physical intervention techniques that provide respect and dignity to the youth as we are a restraint free environment. Whitehall utilizes a level system. Youth gain additional privileges, activities, environments, and responsibilities as they move through the levels. Managing crises and disappointments in a more positive way are steps in gaining increased levels in the system.

Whitehall Treatment Team assists youth in reviewing behaviors and determining more appropriate and productive responses to situations. Youth are given the opportunity to discuss issues and explore alternative responses. Guidance is provided to the youth in making good choices and thinking responsibly. Based on behavior, the Treatment Team can make changes to the youth's current level

TRAINING:

All employees working at the Whitehall Program will complete Relational, Conceptual, and Technical Skills (RCT) of Mandt during their new employee orientation. Volunteers are excluded. This training minimally includes Chapters 1 through 4 of the Mandt training curriculum. All employees working at the Whitehall Program will also be trained in Safety Skills competencies. Twice a year employees show competencies in the Mandt Safety Skills Competencies. The instructor will document the employee's competence of each skill on the skill check-off sheet.

CRISIS MANAGEMENT AND DE-ESCALATION **(Whitehall)**

Policy PC-02

Youth are not to be "taken down" to the floor. In the event the youth were to fall/move to the floor during a Mandt physical intervention (and for safety reasons the staff are not able to separate from the youth) staff are to utilize the Nursing Service Floor Restraint procedure to safely restrain the youth on the floor.

COMPETENCE

The instructor will document the employee's competence of each skill on the skill check off sheet. If an employee cannot demonstrate a skill during class after two attempts, the instructor will indicate such on the skill check off sheet and the Mandt coordinator will notify the employee's supervisor and Human Resources in writing within 1 work day of the course. The supervisor will work with HR to make appropriate work assignments to ensure the safety of all youth and staff.

To maintain instructor competence, LRC will designate a Mandt quality and competence manager. This person, or their designee, will:

- Meet with Mandt instructors initially and annually thereafter to:
 - 1) Review LRC policies related to Mandt
 - 2) Review expectations of instructors and participants
- Observe Mandt classes
- Complete annual competency checks on all instructors
- Communicate issues between administration and instructors
- Analyze data, identify risk and quality issues, and propose solutions for Mandt program issues
- Ensure LRC policy is followed

In the event a crisis cannot be avoided the following de-escalation techniques may be implemented. Such techniques may include:

Minimize Threat Stimuli – decrease threat stimuli of noise, motion, touch, and being in each other's personal space.

Verbal Intervention – distract, redirect, encourage the client to express feelings or reflect the problem back to the client and suggest physical activities.

Physical Presence – be available to youth. Do not stand directly in front of youth. Keep arms and hands visible in a non-threatening position.

Self Time Out – youth are given the opportunity to go to an unlocked area of less stimulation to gain composure. The youth is free to leave the area at will. Youth will be closely monitored in or out of the time out area.

Mandt holds are the only form of restraint utilized at WHITEHALL. A Mandt hold can be used for up to three (3) minutes in emergency situations to protect a client who is in imminent danger of harming self or others. This may be initiated by staff present at the time of crisis and will be discontinued as soon as possible. A Mandt hold is defined as a method of restricting a youth's freedom of movement, physical activity, or normal access to the body.

Pain Compliance, Chemical Restraint, Seclusion, and Mechanical Restraint are prohibited practices and are not acceptable methods of intervention.

The Lincoln Police Department may be contacted for assistance.

CRISIS MANAGEMENT AND DE-ESCALATION **(Whitehall)**

Policy PC-02

PROCEDURE:

Each time a Mandt Hold is used, the following procedure must be followed:

- Notify the Manager on Call within five (5) minutes of initiating. The Manager on Call will contact the Program Director, Psychiatrist, and R.N. A Physician or other licensed practitioner must be available to staff at least by phone throughout the period of emergency intervention.
- In the case of a Mandt Hold the R.N. will perform a face-to-face assessment of the youth within one hour and complete the Restraint and Seclusion Form (LRC Form #PC-02) to include: A brief mental status examination of the youth's mental status and physiological functioning and assessment of any complications from the Mandt hold and appropriateness of the intervention. Information gained from this assessment will be filed in the youth's medical record. The face to face assessment will be documented on LRC Form PC-02 Part D in section of form that states: *Situation that led to the need for Seclusion and Restraint procedure including alternative interventions attempted and patient response:*
- The R.N. will get the required order from the Psychiatrist that will not be written as a standing order or on an as needed basis. The order will be received during the emergency safety intervention or immediately after it ended. The time of the order, and the physician who gave the order will be documented on LRC Form PC-02 Page 1. The order will be limited to the duration of the emergency safety situation that required the use of restraint or Mandt Hold. The order for the intervention will not exceed two (2) hours. The order will be signed by the physician as soon as possible.
- Staff will provide continuous in-person (one-to-one) observation and document all interventions up to, and including, the use a Mandt Hold in the youth's medical record. Documentation will include the time that the intervention began and was ended and the youth's response.
- A well-being evaluation of the youth will be conducted immediately after the hold/restraint is completed. Any injuries incurred during an incident will be treated immediately. The well-being evaluation is documented as the face to face assessment on Part D of LRC Form PC-02.
- All staff involved in the hold/restraint will attend the debriefing to discuss a plan to prevent recurrence and to update if necessary. Participation of the youth and staff debriefing will be documented on LRC Form PC-02 Part A, Page 2, and on the Post Intervention Conference Form. If a staff member involved in the incident is not present, this will be documented on the LRC Post Intervention Form.
- The Post Intervention Conference (PIC) Form identifies in detail the triggers, the event summary, what de-escalation techniques were tried, what worked, what didn't work and specifically what staff could have done to avoid hands on. The PIC is reviewed in detail during the Special Treatment Plan Review and the Team of staff detail an action plan to avoid future reoccurrence.
- The Manager on Call will determine if others need to be notified.
- Contact must be made with the legal guardian as soon as possible prior to the end of the shift during which the Mandt Hold occurred. Notification date and time will be documented on Page 1 of LRC Form PC-02.
- Before the end of the shift, all staff members involved in the emergency intervention must meet face to face with the youth to discuss the event. Staff will complete the Post-Intervention Conference Form prior to the end of the shift.

CRISIS MANAGEMENT AND DE-ESCALATION **(Whitehall)**

Policy PC-02

- Fax the Post-Intervention Conference Form and the Restraint and Seclusion Form to the Risk Manager by the end of the shift.
- The Treatment Team shall review the youth's treatment plan within 24 hours after the event and all team members present will be documented on page 2 of LRC Policy Form PC-16 Special Treatment Plan Review. All staff present during the intervention will be present and their attendance will be documented on the form. If a staff member cannot attend the Special Treatment Plan Review, the reason for their absence will be documented.
- All incidents of a Mandt Hold will be reviewed by the LRC Leadership Committee. Next steps will be identified as needed.
- Youth will be protected from injuring themselves or others. If more secure interventions are needed for the youth, the program may seek transferring the youth to a higher level of care (i.e., Magellan Alternative Level of Care Form).
- Upon release from restraint or Mandt Hold the youth will be under continuous in-person (one-to-one) observation to ensure their physical and psychological well being. This one-to-one will continue until an assessment by the Psychiatrist determines otherwise.

NOTIFICATION OF SERIOUS INJURY/DEATH:

NOTE: The facility must report the following information to CMS:

- Each death that occurs while a youth is in seclusion or restraint.
- Each death that occurs within 24 hours after the youth has been removed from seclusion or restraint.
- Each death known to the facility that occurs within one (1) week after seclusion or restraint where it is reasonable to assume that use of seclusion or restraint contributed directly or indirectly to a youth's death.
- Each of the above incidents must be reported to CMS by telephone no later than the close of business the next business day following knowledge of the patient's death. Staff must document in the youth's medical record the date and time the death was reported to CMS.
- **State Medicaid Agency and Protection and Advocacy Organization will be notified by the Facility Operating Officer of a serious injury/death by close of the next business day after a serious occurrence. The contact information for Disability Rights Nebraska is: Phone: (402) 474-3183; Address: 134 S. 13, #600, Lincoln NE 68508.**

ADDITIONAL PROHIBITIVE PRACTICES ARE AVAILABLE IN THE MANDT MANUAL ON PAGES 202 AND 203.

SUBJECT CRISIS MANAGEMENT AND DE-ESCALATION

PURPOSE

- Outline requirements established by the regulatory agencies of Joint Commission, Centers for Medicare and Medicaid Services (CMS), Federal law as well as Nebraska State law
- Limit the use of restraint to emergency situations when less restrictive measures have been found ineffective
- Reinforce the utilization of client specific preferences and choices (as possible) to diminish the traumatic perceptions of seclusion or restraint
- Provide consistent guidelines for employees to prevent and manage potential youth crisis situations, to use the least restrictive interventions needed to safely manage situations
- All employees are required to be certified in Handle with Care. Re-certification takes place annually.

POLICY

HRC strives to use non-physical intervention techniques that provide respect and dignity as we move toward becoming a restraint free environment. Clients will be cared for in the least restrictive manner. In the event of an emergency, a client may be restrained by a physical hold. Legal guardians will be notified of restraint/seclusion episodes within 24 hours.

CRISIS MANAGEMENT & DE-ESCALATION FOR HJCDP:

HJCDP utilizes a level system. Clients gain additional privileges, activities, environments, and responsibilities as they move through the levels. Managing crises and disappointments in a more positive way are steps in gaining increased levels in the system.

HJCDP Learning Committee assists clients in reviewing behaviors and determining more appropriate and productive responses to situations. Clients are given the opportunity to discuss issues and explore alternative responses. Guidance is provided to the youth in making good choices and thinking responsibly. Based on behavior, the Learning Committee can make changes to the client's current level.

Staff are assigned to meet the ratio requirements of Nebraska Medicaid: 1:4 while youth are awake; 1:6 overnight.

TRAINING

All employees working for/at HJCDP will receive orientation to Handle with Care during New Employee Orientation and must complete formal Handle with Care within 6 months of hire.

All HRC employees, regardless of position, must be trained in Handle with Care and re-certify annually. Contract employees and volunteers (not "labor contract") are excluded.

HRC will utilize the Primary Restraint Technique (PRT) and 2 person escort as part of Handle with Care protocol. HRC will not train staff in the take down portion or pressure point portion of Handle with Care. With approval, the take down portion may be taught to staff assisting at other DHHS facilities where take downs are necessary.

COMPETENCE

Competency in Handle with Care is demonstrated semi-annually. The instructor will document the employee's competence of each skill on the skill check off sheet. If an employee cannot demonstrate a skill during class after two attempts, the instructor will indicate such on the skill check off sheet and the Handle with Care Coordinator will notify the employee's supervisor and Human Resources in writing within 1 work day of the course. The supervisor will work with HR to make appropriate work assignments to ensure the safety of all clients and staff.

To maintain instructor competence the facility will designate a Handle with Care quality and competence manager from a client care area. This person will:

- Meet with Handle with Care instructors initially and annually thereafter to:
 - 1) Review HRC policies related to Handle with Care
 - 2) Review expectations of instructors and participants
- Observe Handle with Care classes
- Complete annual competency checks on all instructors
- Communicate issues between administration and instructors
- Analyze data, identify risk and quality issues, and propose solutions for Handle with Care program issues
- Ensure HRC policy is followed

In the event a crisis cannot be avoided, the following de-escalation techniques may be implemented. Such techniques may include:

Minimize Threat Stimuli – decrease threat stimuli of noise, motion, touch, and being in each other's personal space.

Verbal Intervention – distract, redirect, encourage the client to express feelings or reflect the problem back to the client and suggest physical activities.

Physical Presence – be available to client. Do not stand directly in front of client. Keep arms and hands visible in a non-threatening position.

Read Back Telephone Order – An order received from a physician over the telephone or via video conference. The order must be read back to the prescriber to verify it's accuracy. All orders must be dated, timed & signed by nursing staff as a RBTO.

Time Out – clients are given the opportunity to go to an area of less stimulation to gain control. The area is not locked and the client is free to leave the area at will.

Physical holds are the only form of restraint utilized at HJCDP. A physical hold can be used to protect a client and prevent imminent danger of harming self or others. This may be initiated by staff present at the time of crisis and will be discontinued as soon as possible. A physical hold is defined as a method of restricting a client's freedom of movement, physical activity, or normal access to the body.

Each time a physical hold is used, the following procedure must be followed:

- Notify the physician as soon as possible of initiating.
- The physician will write an order for the use of the technique specifying a timeframe. The nurse will immediately obtain a RBTO from the physician. The RBTO for the physical hold will be signed, dated, and timed by the physician on the next working day.
- In the case of a physical hold episode, the clinically privileged RN will perform a face-to-face assessment of the client within one hour. The health check must be conducted by a nurse or a physician immediately when the youth is released from the hold. Documentation will be filed in the client's medical record.
- The physician will complete a face-to-face evaluation of the client within 24 hours of the initiation of the physical hold.
- The Administrator-on-Call and Facility Operating Officer must be notified of a physical hold as soon as possible.
- Staff will document all interventions up to and including the physical hold in the client's medical record. Include the time that the interaction began and was ended and the client's response.
- The legal guardian will be contacted within 24 hours and will determine if others need to be notified. This contact will be documented in the client's medical record.
- An observer will monitor the client's condition and request release if client is in distress. The treatment plan may be revised if needed. The revisions will be communicated to the unit staff at that time.
- Before the end of the shift, all staff members involved in the interaction must meet with the client and complete the client section of the Physical Intervention Reporting/Debriefing/Health Check form. Allow the client to actively discuss the situation, intervention, and strategies to prevent future incidents.
- Staff involved in the intervention may only be excused from participating in the debriefing if their presence causes a problem for the client or if injury prevents them from participating.
- Staff will initiate and document a debriefing with the client as soon as possible after the client is released from hold/seclusion/restraint. All staff involved in the incident will participate in the client's debriefing except when they are excused (personal injury) or may cause a problem for the client.
- Before the end of the shift all staff involved must participate in the debriefing session and complete the staff section of the Physical Intervention Reporting/Debriefing/Health Check form. Identify trigger behaviors that contributed to the incident. Alternative interventions will be explored. Evaluate the outcome of the situation.
- Submit Physical Intervention Reporting/Debriefing/Health Check form to the Risk Manager by the end of the shift.
- All incidents involving a physical hold will be reviewed by the Safety Officer and will be reported out at the PI/RM Committee meeting. Next steps will be identified as needed.
- HJCDP supports staff-led interventions and discourages client participation in physical interventions of clients.
- If a client engages in a physical hold of another youth, it is the staff's responsibility to tell the client to disengage in the hold and to allow staff to intervene.
- Clients will be protected from injuring themselves or others. If a more secure intervention is needed, the client may be transferred to a more appropriate setting.
- Immediate medical treatment will be sought in the event of a significant injury to a client or staff.

Mechanical restraint is not an approved procedure in the program.

Chemical restraint is not an approved procedure in the program.

Seclusion and room confinement are not approved procedures in the program.

PROCEDURE FOR TRANSFERRING YOUTH TO AN ALTERNATE SETTING

At the direction of the physician, the youth's Probation Officer will be contacted regarding the need to move the youth. Staff will maintain safety and security for the youth until a Court Order to move the youth can be obtained. If necessary, the youth may be transferred to the Evaluation and Management Unit until the time of transfer. Notification of families and others will take place as appropriate.

Hastings Police may be contacted for assistance. The State Patrol completes investigations related to incidents in which they are involved. It is important to ask the State Patrol if they will issue a citation related to the incident.
