LB643 relates to a firefighter or firefighter-paramedic who is a member of a paid fire department of a municipality or a rural or suburban fire protection district. LB643 provides that the death or disability of a firefighter or firefighter-paramedic due to breast cancer or ovarian cancer is prima facie evidence that the death or disability was caused while in the line of duty.

As indicated by the City of Lincoln, LB643 would increase the city's liability. Additional costs associated with the provisions LB643 cannot be determined.

TOTAL FUNDS	=====	=====	=====	=====

Explanation of Estimate:

LB 643 seeks to establish that the death of a firefighter or fire paramedic from breast cancer or ovarian cancer is prima facie evidence that the death was caused while in the line of duty. This bill effects those firefighters and fire paramedics that work for rural or suburban municipalities, and does not have a fiscal impact on the State.

There is no fiscal impact to the State of Nebraska.

Explanation of Estimate:

The Nebraska Revised Statute specifies certain types of cancer. Those more general types do not include the specific types of breast and ovarian cancer, therefore the addition of breast and ovarian cancer does increase the City's potential liability. However, it is difficult to estimate this additional cost without extensive research of historical data.
