Any Fiscal Notes received from state agencies and political subdivisions are attached following the Legislative Fiscal Analyst Estimate.

As currently written, LB242, establishes the County Bridge Incentive Program (CBIP). This program will be administered by the Department of Transportation (DOT) and will utilize the funding stream that is currently utilized by the County Bridge Match Program, or CBMP (LB960 – 2016). The CBMP is funded by the Transportation Infrastructure Bank Cash Fund (TIBCF) which receives its revenue equal to \$0.02 per gallon fuel tax. The CBMP has a statutory cap of \$40 million over the lifetime of the program which terminates on June 30, 2023.

The funding stream for the new CBIP would be limited in two ways: 1) No more than \$10 million can be expended in the program, and 2) The difference between what has been actually expended in the CBMP and the \$40 million cap on June 30, 2023 would be available for use in the program.

The DOT is responsible for developing the program, including participation criteria, and matching fund requirements in consultation with a statewide association representing county officials. Because of these initial responsibilities, the DOT may see an increase in work. However, long-term the operational costs would presumably mirror those already in place for the current CBMP. The DOT indicates the increase in work can be accommodated within their existing appropriation.

Other provisions of the bill have no fiscal impact as they are permissive.

Please complete ALL (5) blanks in the first three lines.

2022

LB⁽¹⁾ 242

FISCAL NOTE

State Agency OR Political Subdivision Name: ⁽²⁾ Nebraska Department of Transportation

Prepared by: ⁽³⁾ Jenessa Boynton Date Prepared: ⁽⁴⁾ 12/1/2021 Phone: ⁽⁵⁾ 402-479-4691

ESTIMATE PROVIDED BY STATE AGENCY OR POLITICAL SUBDIVISION

Explanation of Estimate:

LB 242 allows a political subdivision to use a design-build contract or construction management at risk contract to repair, retrofit, reconstruct, or replace any bridges. The bill allows for political subdivisions to adopt a resolution which provides for project payment for these projects on a set schedule over a period of time that extends beyond the completion of construction.

The bill also creates the County Bridge Incentive Program and provides that the department shall administer the program with funds "designated for the County Bridge Match Program", which does not expire until June 30, 2023. Following the termination of the County Bridge Match Program (CBMP), the bill provides that funds remaining of the original up to \$40 million maximum amount designated for the CBMP are to be designated for the County Bridge Incentive Program and that no more than \$10 million shall be expended for the County Bridge Incentive Program.

NDOT is to develop the program, including participation criteria and matching requirements for counties, in consultation with a statewide association of county officials. Participation shall be limited to those counties that have passed a resolution as noted in the first paragraph above or that utilize design-build contracts as authorized for bridge projects.

This fiscal note assumes that funds already awarded for projects under the County Bridge Match Program until its termination will continue to be available for those projects until the funds are expended or no longer needed.

NDOT will be able to administer the new program within existing resources. (NDOT recognizes that the Committee has approved an amendment to remove sections 3 and 4 of the bill regarding the County Bridge Match Program, but as per LFO instructions this fiscal note has been prepared based on the introduced version of the bill, pending adoption of the Committee amendment by the full Legislature.)
