This bill updates the state's adoption statutes. It incorporates and defines all categories of fathers identified by the Supreme Court in case law and increases the time for a putative father to file an objection to an adoption.

The Supreme Court will have minor expenses related to judicial education which will be handled within their existing resources.

The Department of Health and Human Services estimates this could delay the adoption of some children in the child welfare system. The delay on average could be between five to 15 days. The average daily rate for foster care is \$29.30. The department estimates that up to 75 children per year could experience delays. The range of additional costs is \$10,988 up to \$32,963 annually.

Explanation of Estimate:

LB 245 extends the timeframe for objection to adoption. Department staff workload for cases involving children who are born out of wedlock may increase. An estimate of 75 youth per year could have a delay in permanency because of the father's identity being unknown at the time adoption filings are submitted. The delay in the date of the adoption hearing would result in the child remaining in the Department's care five to fifteen additional days. The average rate of \$29.30 per day for 75 youth could increase state maintenance payments \$10,988 for five additional days up to \$32,963 for fifteen additional days for SFY 2022 and SFY 2023.

The bill also replaces the term biological father with putative father in the Department's registry.
