RE: Annual Legislative Reports

Dear Mr. Metzler:

The Department of Administrative Services–Risk Management Division (“Risk Management”) takes great pleasure in fulfilling its statutory mission to serve the citizens of the State of Nebraska by identifying and minimizing risk exposures to the State. In service of this mission, Risk Management oversees the State Insurance Program, the State Claims Program, the State’s Self-Insured Workers Compensation Program, and the Statewide Safety Program.

Risk Management works closely with the Nebraska Attorney General’s Office, the State’s insurance broker (Aon), the third-party administrator of the State Insurance Program (the Nebraska Intergovernmental Risk Management Association), and the third-party administrator of the State’s Self-Insured Worker Compensation Program (Gallagher Bassett) to determine whether legal obligations exist that require payments to third parties. When legal obligations do exist, Risk Management makes every effort to make payment as expeditiously as possible.

Concerning the State’s insurance portfolio, Risk Management works diligently to minimize insurance costs and maximize benefits to the State. Over the last few years, insurance premium costs have risen precipitously industry wide. Risk Management is pleased to report that despite steeply increasing insurance premium costs, the State was able to reduce total state insurance payments by increasing the State’s

amount of self-insurance, which reduced the State's total premiums paid by about \$2 million from the previous fiscal year.

Although there was an increased number of claims made to the State Insurance Program, Self-Insured Workers Compensation Program, State Claims Programs (to include tort, miscellaneous, contract, and Line of Duty Compensation Act claims), Risk Management succeeded in evaluating risks and impacts of those rising claims. Under Neb. Rev. Stat. §§ 11-203, 48-1,104, 81-8,226, 81-8,239.02, 81-8,239.05, and 81-8,300, Risk Management needs to electronically file reports of all payments made under these programs to the Clerk of the Legislature and, in certain cases, to the chairperson of the Business and Labor Committee. I am pleased to provide these reports to you with this letter.

Feel free to contact me if you have any questions related to these reports or Risk Management programs.

Sincerely,

Adam W. Kauffman, Risk Manager
