This bill requires the Department of Health and Human Services (DHHS), beginning July 1, 2026, to pay the recipients Aid to Dependent Children (ADC) current child support collected pursuant to the assignment or adopt a child support pass-through policy not to exceed \$100/month for one child or for a family with two or more children \$200. The bill also requires DHHS to disregard all child support income for purposes of calculating a recipient’s eligibility for ADC. DHHS indicates needing one new Program Specialist beginning in October 2024 to implement the legislation.

A comprehensive review of all state’s pass-through and disregard policies was published in May 2020 by the National Conference of State Legislatures and is accessible [here](#). As of 2020, 26 of the 52 states and territories (including DC and Guam) pass-through and disregard (for the purpose of income eligibility calculations) at least a portion of child support.

Child Support Pass-Through

DHHS may still be required to return the federal share of offsets as detailed in Sec 457 [42 U.S.C. 657] (6) Distribution of Collected Child Support. The social security act allows states to disregard a portion of child support when the option is selected to pass through payment to the individual for purposes of calculating the share due to the federal government. The amount disregarded is defined as \$100 per month for a single child family and \$200 per month for family with 2 children or more. Any collections of child support above these disregarded amounts would have a portion due to the federal government split at the FMAP. The bill specifies that DHHS is to pass-through current child support. Using this description, the fiscal impact of the pass-through is \$587,432 state share of collections that would no longer be used to offset state aid costs beginning in FY27.

Child Support Income Disregard

The bill requires DHHS to disregard all child support passed through to the recipient for purposes of calculating eligibility for ADC. The fiscal impact to ADC and corresponding Employment First programming is \$1,951,021 annually, 90% federal funds (\$1,755,919) and 10% general funds (\$195,102) beginning in FY27.

System Updates and Child Support Enforcement Funding Considerations

Updates to the Child Support Program, specifically extensive changes to the CHARTS system, amount to a total of \$4,305,600 with 66% federal contribution and 34% state obligation. During the period in which updates are occurring, the state will be obligated to pay \$340,000 annually toward child support enforcement (CSE) as a matching amount toward the regular child support grant because the state will be ineligible for federal incentive dollars each year. Expediting the CHARTS updates necessitates dividing the total cost of \$4.3m between two years rather than three whereas accomplishing the updates over three years would necessitate \$340,000 additional dollars due to the third year of CSE expenses. The agency indicates preference for completing the changes in FY25 and FY26 in order to be fully ready for implementation and regain federal incentive dollars in FY27. Additionally, updates to Nebraska’s eligibility system, NFOCUS would amount to \$33,120 which would also qualify for 66% federal match and be completed within one year.

Summary of Fiscal Impact

Explanation of Estimate:

LB233 AM3338 will have an effective date of July 1, 2026. The Department of Health and Human Services (DHHS) shall pass through an amount not to exceed \$100/month, or in the case of a family with two or more children, the amount cannot exceed \$200/month, to the recipient of aid to dependent children, from the current child support collected pursuant to the assignment. These pass-through amounts would not be considered income when determining recipient’s eligibility for assistance. DHHS shall disregard the amount of child support passed through to the recipient in calculating the amount of the recipient’s monthly assistance payment.

Additionally, eligibility determination for the program for Aid to Dependent Children (ADC) pursuant to section 43-512 as administered by the State of Nebraska pursuant to the federal Temporary Assistance for Needy Families program, 42 U.S.C. 601 et seq., passed-through child support as described in section 43-512.07, shall not be included in determining assets or income.

AM3338, will adopt a child support disregard as described pursuant to section 43-512.07.

Summary of Fiscal Impact

The Department's child support system (CHARTS) will need to be updated to rewrite and change financial processing. During the timeframe that the IT changes are occurring, DHHS may not be eligible to receive Federal Incentive Dollars for cost effectiveness. This could be a loss of Federal Incentive Funding of \$1,000,000 each year. These funds are used for operations of the Child Support Unit. If DHHS is ineligible for the Federal Incentive Dollars, the expenses that are typically paid for with the incentive funds would need to be paid out of the regular child support grant which requires a 34% general fund match. This would increase the state general funds by approximately \$340,000 per year until the IT changes are completed and the cost effectiveness incentive is returned.

NFocus & IT System updates will need to be updated prior to the effective start date of this bill.

DHHS shall disregard the amount of child support pass-through starting July 1st, 2026 (FY27). The costs associated with the pass-through would be \$587,432 in state general funds that would need to be replaced as the state would be passing the funds through to families. This cost-driver would be an annual amount based on estimates from FY22.
