

One Hundred Eighth Legislature - First Session - 2023

Introducer's Statement of Intent

LB166

Chairperson: Senator Suzanne Geist

Committee: Transportation and Telecommunications

Date of Hearing: March 07, 2023

The following constitutes the reasons for this bill and the purposes which are sought to be accomplished thereby:

LB166 amends the scoring process utilized by the Department of Transportation when reviewing proposals for projects utilizing alternative delivery methods such as design-build, progressive design-build, construction manager/general contractor, and public private partnerships.

Currently, the Department must consider the historic reasonableness of a builder's costs and expenses on past projects when reviewing progressive design-build proposals. LB166 requires the Department to give the historic reasonableness criteria a relative weight of 50% when scoring proposals for projects using any alternative delivery method.

Principal Introducer: _____

Senator Bruce Bostelman
