Introduction

The Nebraska Juvenile Justice System 2025 Statistical Annual Report meets the requirements of Nebraska Revised Statute § 24-1007 (2014). This report is compiled by the Administrative Office of the Courts and Probation (AOCP). The report contains statistics on juvenile justice (status offense and juvenile delinquency) cases and on juveniles prosecuted in the adult court system. A status offense is an act that is prohibited because of the juvenile status of the person, but is not illegal if committed by an adult. Juvenile delinquency cases involve a violation of a law applicable regardless of juvenile or adult status. The data presented show caseload statistics by case type, geography and demographics.

The data in this report was extracted from the Supreme Court's Judicial User System to Improve Court Efficiency (JUSTICE), a case-based data storage system comprised of clerk entries of information from relevant court documents. Tables with court data report statistics on cases for youth under age 18 at the time of the offense representing youth entering the system. The Part (d) Juvenile Probation Activity tables are provided from the case management system, Nebraska Probation Application for Community Safety (NPACS). These tables report activity for juveniles ages 18 and under receiving probation supervision in the year representing youth up to the age of majority. Nebraska Revised Statutes 43-246.01 and 43-247 identify the ages for juvenile court jurisdiction.

The report contains a statewide section and 12 judicial district sections. Each district section has district summary tables followed by county data for that judicial district. If there is no data for a county, that county is not included in the table. All geographic tables include demographic statistics by age, sex and race/ethnicity if there is data for that group. If not expressly written on trial court forms, age, sex and/or race/ethnicity may be unknown to court personnel responsible for JUSTICE data entry and will be included as "Unknown" in this report.

The number of "Unknown" demographics are not included in the percentage calculation in tables where percentages are calculated for demographic groups as a percentage of the total. This allows the "valid" percent to be displayed where demographics are known. In these instances, the percent column remains blank for the "Unknown" category. The "Unknown" group will have a percent value in tables where the percentage is calculated using the total cases for the demographic group.

Part (a) Juvenile Petitions and Adjudications

Nebraska Revised Statute 24-1007 (a) Juveniles prosecuted in juvenile court under subdivision (1), (2), (3)(b), or (4) of section 43-247, including the total number of filings and adjudications.

The Juvenile Petitions and Adjudications tables report the number of new juvenile filings and corresponding percent of adjudications by case type and demographic group for cases filed in 2025. The data consists of both county court and separate juvenile court cases. Only the most serious offense is counted for cases with multiple offenses, pleas or findings. Cases are counted in the Adjudicated column if at least one offense was adjudicated. Supplemental petitions are not included in this data set. Age is reported as the age of the juvenile at the time of the offense. Cases filed in 2025 may not have reached the adjudication stage of proceedings. Juvenile cases where the age is unknown, if any, are included in the report.

Out of 3,528 juvenile petitions filed statewide, there are 2,043 (58%) adjudications in 2025.

Part (b) Juveniles Prosecuted in Adult Criminal Court - Case Type

Nebraska Revised Statute 24-1007 (b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation.

Juveniles Prosecuted in Adult Criminal Court tables include criminal and traffic cases in county court and criminal cases in district court that reached the point of sentencing in 2025. Cases with multiple charges are counted once per case and reported as the most severe offense. Cases for juveniles ages 13 and below must be filed and stay in juvenile court. Exceptions are some traffic case types where the county attorney has the option to file in criminal or juvenile court and instances where the offense was discovered after the juvenile was an adult. Therefore, the vast majority of juvenile cases appearing in adult criminal court data are for ages 14 through 17 at the time of the offense.

Of the 276 distinct cases of juveniles prosecuted in adult criminal court, 20% are traffic cases, 40% are misdemeanor cases, and 40% are felonies.

Part (b) Juveniles Prosecuted in Adult Criminal Court - Sentence

Nebraska Revised Statute 24-1007 (b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation.

Juveniles Prosecuted in Adult Criminal Court tables include criminal and traffic cases in county court and criminal cases in district court that reached the point of sentencing in 2025. All sentencing types are included where multiple sentencing types occur within a case (ex. probation/jail). Youth who are sentenced to probation in Adult Court are supervised by Adult Probation. Average age at judgment is the mean calculated for each cohort at the time of their judgment date.

Of the 289 cases prosecuted in adult criminal court, 63% were sentenced to probation, 15% to jail and 21% to prison.

Part (c) Motions to Transfer Cases and Cases Transferred

Nebraska Revised Statute 24-1007 (c) The number of motions to transfer and the number of cases transferred to adult court from juvenile court and from adult criminal court to juvenile court.

The data represents motions to transfer filed in year 2025 and transfers between court jurisdiction which occurred in year 2025. Therefore, the exact same set of cases may not be represented in both columns. There can be multiple motions to transfer within a single case which, if filed in the same calendar year, would all be included in the counts below. Some cases may have a motion to transfer, but no transfer actually occurs or it occurs in a subsequent year. Transfers occur once per case.

Total Cases		79	-	3	-	81	-	51	-

*The percent of total cases by demographic is calculated using the valid percent within demographic (does not include cases with unknown sex or unknown race/ethnicity).

*****NOTE:** You will also notice that some demographics may have more transfers than motions to transfer, especially in transfers from Adult Court to Juvenile Court. It has been brought to our attention that some counties often will not first file a motion to transfer before transferring a juvenile from adult court to juvenile court. Ongoing education will be presented to all courts to ensure that procedures are being followed so that data entry is improved.

In juvenile court there were 79 motions to transfer to adult court filed in 2025, and 3 cases transferred to adult court. Adult court had 81 motions to transfer to juvenile court filed, and 51 transfers to juvenile court in the year.

Part (d) Juvenile Probation Activity - Youth

Nebraska Revised Statute 24-1007 (d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation.

The Juvenile Probation Activity - Youth data is provided from the case management system, Nebraska Probation Application for Community Safety (NPACS). The table reports the number and percent of youth with various activity during the year. Youth are counted once in each category, regardless of the number of out-of-home placements, motions to revoke, or cases they may have in the year. Age groups are calculated specific to the activity as footnoted.

1. Age at which the probation term began. 2. Age at the first admission to out-of-home placement. 3. Age as of the file date for motion to revoke. 4. Age as of the disposition date for motion to revoke. 5. Age as of the disposition date for discharge from probation.

Part (d) Juvenile Probation – Risk Level and Length of Probation

Nebraska Revised Statute 24-1007 (d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation.

The Youth Level of Service/Case Management Inventory (YLS/CMI 2.0) is the validated risk/need/responsivity assessment instrument used to measure risk of recidivism and intensity of supervision for youth on probation. The following table shows the classification results for two populations. The first is the classification for youth starting probation in 2025, the second population are youth discharged from probation in 2025. Average length of probation in months is only calculated for youth discharged from probation. Youth that are assessed at low or moderate low risk are matched to Juvenile Community-Based Resource (JCBR) supervision and those assessed at high or moderate high risk are matched to Juvenile Community-Based Intervention (JCBI) supervision intensity.

Part (e) Juveniles Access to Counsel

Nebraska Revised Statute 24-1007 (e) juveniles with and without access to counsel in juvenile and adult court, both appointed and retained.

The Juveniles Access to Counsel table displays the percent of juveniles represented by an attorney in criminal cases from county court and district court and juvenile cases from county court and separate juvenile court. Data includes new cases filed and cases transferred from one county to another during calendar year 2025. Cases filed in 2025 may not have reached the sentencing/adjudication stage of proceedings. Cases for juveniles ages 13 and below must be filed and stay in juvenile court. Exceptions are some traffic case types where the county attorney has the option to file in criminal or juvenile court and instances where the offense was discovered after the juvenile was an adult. Therefore, the vast majority of juvenile cases appearing in adult criminal court data are for ages 14 through 17 at the time of the offense. Additionally, criminal court cases include traffic offenses. Age is reported as the age of the juvenile at the time of the offense.

Fewer than half (41%) of the juvenile cases in criminal court are represented by an attorney, while around three fourths (73%) of cases in juvenile court have representation.

Part (f) Juvenile Rates of Recidivism

Nebraska Revised Statute 24-1007 (f) Rates of recidivism.

The recidivism table is based on probation youth that were successfully discharged in 2024 and who meet the uniform Supreme Court definition. See Appendix III § 1-1001 for uniform definitions of recidivism for Nebraska State Probation and Nebraska Problem-Solving Courts.

District Sections

The report includes data from both adult and juvenile case types, from all of the Nebraska county courts, district courts and separate juvenile courts statewide. Lancaster, Douglas and Sarpy counties hear juvenile cases in a separate juvenile court. All other counties hear juvenile cases in county courts. Where data in the report is broken out into districts, it is reported by districts as shown below.

Nebraska County Court Districts

Separate Juvenile Courts

Nebraska Revised Statute 43-2,111

Each county of this state having a population of seventy-five thousand or more inhabitants shall constitute a separate juvenile court judicial district. There shall be established in each such juvenile court judicial district of this state a separate juvenile court whenever the establishment thereof shall be authorized by a majority of the electors of any such county voting thereon. The court so established shall be a court of record.

Revised Statutes » Chapter 24 » 24-1007

24-1007. State Court Administrator; compile judicial workload statistics; how; juveniles in Nebraska's justice system; annual report; contents.

(1) The State Court Administrator shall compile uniform and accurate statistics which will assist in the evaluation of judicial workloads. The judicial workload statistics shall be based on caseload numbers weighted by category of case. The judicial workload statistics shall be compiled annually for each district, county, and separate juvenile court judicial district in the state.

(2) The State Court Administrator shall develop and provide an annual report to the Legislature and the Governor on juveniles in Nebraska's justice system. The report to the Legislature shall be provided electronically. For purposes of this section, juvenile has the same meaning as in section 43-245. The report shall include, but not be limited to, geographic and demographic information on the following:

(a) Juveniles prosecuted in juvenile court under subdivision (1), (2), (3)(b), or (4) of section 43-247, including the total number of filings and adjudications;

(b) Juveniles prosecuted in adult criminal court for felonies, misdemeanors, and traffic offenses. The information shall include juveniles sentenced to terms in adult jails and prisons and juveniles placed on adult probation;

(c) The number of motions to transfer and the number of cases transferred to adult court from juvenile court and from adult criminal court to juvenile court;

(d) Juveniles placed on juvenile probation, the number of juveniles on probation in out-of-home care, the number of juveniles completing probation, the number of motions to revoke probation and probation revocations, and the average length of time on probation;

(e) Juveniles with and without access to counsel in juvenile and adult court, both appointed and retained; and

(f) Rates of recidivism.

Appendix II Probation Definitions

The Probation information was collected from the Nebraska Probation Application for community Safety (NPACS) case management system. Traditional probationers and Problem Solving Court probationers are included in this analysis. The following are explanations of the data.

1. Youth Level of Service/ Case Management Inventory (YLS/CMI) score: Youth Placed on Probation – Initial Classification based on YLS/CMI Level provides an analysis of the number of youth whose first YLS/CMI score would place them in the Juvenile Community-Based Resource (JCBR) classification, or the Juvenile Community-Based Intervention (JCBI) classification. JCBR are commonly referred to as the low and moderate low youth and their cases are managed accordingly, while the JCBI youth have scores of moderate high, high or very high. JCBI youth have more supervision requirements to address their high risk. Some youth do not have an YLS/CMI assessment completed before their probation is terminated. This can be due to a brief probation term, or successful completion of pre-adjudicated services.
2. Placed on Probation: the count of all youth that were formally placed on Probation between January 1 and December 31 of the previous year.
3. Placed Out of Home: this information is a count of all youth who were placed in an out of home placement (OHP) at some point during the calendar year. This information represents the number of youth that were out of home, not the number of placements. For example, one youth may be out of home in detention, move to a shelter and eventually transition home. The youth would be counted once even though they had two different OHP. When data represents a youth as in placement upon their 19th birthday due to data entry delays, these youth are included in the 18-year-old age bracket per statute 43-245.
4. Motion to Revoke: the count of all youth that received a motion to revoke on any of their active cases in the report year. A youth may have multiple court cases being processed concurrently, but the youth would only be counted once in this report.
5. Revocations Only: the number of youth that had probation revoked on one or more cases. Individual youth are counted and not the number of cases that were revoked. When a motion to revoke is filed, the court has several options that they can pursue including: revoking the probation case and terminating the probation term, extending the probation term, sending the youth to YRTC and continuing probation after that placement, or dismissing the motion to revoke. For this category, only those youth whose cases were revoked and terminated in the reporting period are included. Further details regarding revocations can be found in the Juvenile Probation Services Division Annual Report.
6. Successful Discharge: the number of youth who were successfully discharged from Probation, during the year, on one or more court cases. Successful completion includes completion traditional probation, and early release from probation. Length of Probation is provided in months.
7. All Discharges YLS: this information contains a listing of youth that were discharged during the report year. Age is presented at time of probation start (which may be prior to the report year), and age at time of discharge. Length of probation is displayed in months. Some youth may be listed as discharged from probation without an official start date. These are youth that may have completed pre-adjudication or pre-dispositional services. These youth are not officially disposed to probation but there is a court case completion/discharge date entered because the court case is closed. A final YLS/CMI score and classification is also provided for any analysis on the number of youth that were discharged at each level. It is not uncommon for there to be more youth at a JCBR level discharged as opposed to JCBI. This is due to the process of stepping high risk youth down to a lower supervision level before discharging them from probation.

Age calculations

1. Youth placed on probation: age at which their probation term began during that calendar year.
2. Out of home placement: age at the first admission to out of home placement during that calendar year.
3. Motions to Revoke: age at which the motion to revoke was filed/created during that calendar year.
4. Probation Revoked: age on the date which the disposition for the motion to revoke was applied during that calendar year.
5. Satisfactory Release: age on the date which the disposition for discharge from probation occurred during that calendar year.
6. Initial Risk Level: age at which their probation term began during that calendar year. Youth are assessed just prior to or after they begin their probation term. For consistency, the age when they began their probation term was calculated.
7. Final Risk Level: age on the date which the disposition for discharge from probation occurred during that calendar year. Youth may be assessed within six months of their release. For consistency, the age when they were discharged from probation was calculated and reported in regards to their final risk assessment level.
8. Length of Probation: age on the date which the disposition for discharge from probation occurred during that calendar year.

Appendix III § 1-1001. Uniform definitions of recidivism for Nebraska State Probation and Nebraska Problem-Solving Courts

For the purpose of accurately assessing post-program recidivism across justice programs, Nebraska State Probation and Nebraska Problem-Solving Courts shall utilize the following uniform definitions of recidivism for all adults and juveniles within their respective programs.

(A) Adults:

As applied to adults, recidivism shall mean a final conviction of a Class I or II misdemeanor, a Class IV felony or above, or a Class W misdemeanor based on a violation of state law or an ordinance of any city or village enacted in conformance with state law, within 3 years of being successfully released.

(B) Juveniles:

(1) As applied to juveniles, recidivism shall mean that within 1 year of being successfully released from a probation or problem-solving court program the juvenile has:

(a) an adjudication pursuant to Neb. Rev. Stat. § 43-247(1) or (2).

(b) for a juvenile 14 years or older, a final conviction for a Class W misdemeanor based on a violation of state traffic laws or ordinances of any city or village enacted in conformance with state law; or

(c) a prosecution and final conviction as an adult for any crimes set forth in subsection (A) above.

(2) For juveniles that age out of the juvenile system within 1 year of program exit and who did not recidivate post-program as juveniles, the adult definition of post-program recidivism, including any drug-related or alcohol-related conviction, shall apply.

§ 1-1001 adopted September 25, 2013.
