Summary of purpose and/or changes:

LB365 requires that by January 1, 2026, the department must provide coverage and reimbursement under the medical assistance program for self-measured blood pressure monitoring services, including a validated device, properly sized cuffs, patient education, and data reporting to a health care provider for treatment planning.

Explanation of amendments:

AM816 to LB365 limits to scope of eligibility to pregnant and postpartum women, and focuses on frequent monitoring and streamlined data sharing.

Blood pressure services must include:

- (1) Education and training on home device setup and use
 - (2) Self-measured blood pressure readings
 - (3) Daily data collection
 - (4) Data transmission to health care provider for review and treatment planning
-

Brian Hardin, Chairperson
