**Summary of purpose and/or changes:**

LB 888 amends Section 75-156 to change civil penalties assessed by the Public Service Commission for violations relating to modular housing, manufactured homes, and recreational vehicles. Civil penalties per violation of \$1000 are raised to \$3650, except that for any related series of violations, the maximum is raised from \$1 million to \$4,562,282.

Also, definitions are provided for Consumer Price Index and CPI percentage difference. Consumer Price Index is defined as the Consumer Price Index for All Urban Consumers, as published by the U.S. Department of Labor, Bureau of Labor Statistics. In addition, CPI percentage difference is defined as the percentage by which the Consumer Price Index for the month of October of the most previous year exceeds the Consumer Price Index for the month of October of the second-most recent previous year.

Lastly, on August 1 of each year, the Public Service Commission shall adjust the maximum civil penalty by the CPI percentage difference. The adjusted amount shall be rounded to the nearest dollar.
