

January 15, 1973

(Start Belt #3)

We are discussing what was ratified last year because it is not the Resolution #83 which was the ratification of the federal government.

SPEAKER: Thank you. It'll be corrected at the hearing. The chair recognizes Senator Proud. For what purpose do you rise, Senator.

SENATOR PROUD: Just to reaffirm what you said. Yes, that was a typographical error. The wrong number of the former resolution we passed was inserted because as I recall we went through this twice. The first resolution was incorrectly drawn in some way. I have an amendment to give to the committee which is strictly a technical amendment.

SPEAKER: Thank you, Mr. Speaker.

CLERK: I have an announcement for the body. George Gerdes would like to have it announced that you use the bill drafting service in Room 2010 and abstain from using Emory Burnett as much as possible.

SPEAKER: Senator Syas, for what purpose do you rise?

SENATOR SYAS: Well, first I want to ask the chair are we very busy or can we get into something?

SPEAKER: That is a very interesting question you posed for the chair, Senator Syas.

SENATOR SYAS: Since we are not busy I would like to bring up something, point a personal privilege, but I do not want to do it--I am doing it early in the session because I don't want to do it, naturally, when we are busy. That's why I asked you the question.

SPEAKER: Why don't you stand by for just a little bit. Let's handle some business and then I'll call on you when I get a break here.

CLERK: Mr. President, a motion. Read.

SPEAKER: The chair recognizes Senator Carpenter.

SENATOR CAPRENTER: This is only a request in order to give to the press the same volumes we received the other day. I move the motion be adopted.

SPEAKER: The chair recognizes Senator Duis.

SENATOR DUIS: Mr. President, the Rule changes that were to be printed in the Journal, is there any possible way that we could take them up today or would you rather follow this course. I am thinking we're out of business here apparently and I was wondering if there was something we might be able to do that would--

SPEAKER: Stand by. Senator Duis, we have some other motions on the desk which actually would--

SENATOR DUIS: This--this is perfectly fine with me, I was just trying to fill a void in space here. So go right ahead and come back to these.

SPEAKER; Stand by because we may need you here. Very good. Read the motion on the desk.

CLERK: I did. It was Carpenter's motion (inaudible)
