

February 12, 1973

SENATOR SYAS: Just briefly, I just want to say, for the senate, that many times in Omaha, when we go to build a school, if we had to take unimproved land you couldn't build any school. In fact we couldn't have build any schools in Senator Chambers district that I can think of, I remember when they moved all the houses out to build Horace Mann. Now, so we can't do it this way, sometimes we do have to take in the city, developed land, so I'm in favor of the Whitney amendment.

SPEAKER: Is there any further discussion

(End of Belt #6)
