

February 16, 1973

The people who buy one of these automobiles equipped so that paraplegics can handle it, pay \$500 to \$1,000 more and they pay sales tax on it. Now, I'm sorry that we have gone into a long discussion for \$750, we've wasted that much money in the two times we've heard the bill; \$750 or less, we give to the veterans, fishing license and that's a nice thing to do and why suddenly, when it comes to giving something to a man who, through no fault of his own, who has not asked for anything, that we go along and say, well, we're going to stop it on everything. There is another thing about the symbol on the license. It's in California, Florida and several other states. There has been one group, one man that has been molested because he was stopped and some young boys came along and because of his condition, did rob him. I don't know how many people because they carry a paraplegic sign on their license plate, the motorists have stopped--

(End Belt #8)
