

February 19, 1973

SENATOR BARNETT: Senator Wiltse let me ask you, at that point, do you, is that including active and social firemen or is that just active firemen at Table Rock?

SENATOR WILTSE: That is only active firemen.

SENATOR BARNETT: That, as, the bill as recently amended?

SENATOR WILTSE: That's active volunteer firemen.

SENATOR BARNETT: As the bill was recently amended then in other words?

SENATOR WILTSE: That's right.

SENATOR BARNETT: Well I'd would just like to through my objection in to the word may, but I'd rather some other people talk on it and get some other feelings. I know there is some opposition to the five thousand figure, and I think if we leave it from two to five we give a little bit of discretion to the board, but I still think the volunteer firemen deserve something, something from these communities.

SPEAKER: Senator Kennedy do you want to speak from there? Senator Kennedy has asked to speak, then Whitney, Skarda, Hasebroock, Murphy, Anderson and Rasmussen. Senator Kennedy.

SENATOR KENNEDY: Mr. President, and fellow members, I did have an amendment and I thought maybe I'd, that this could have been this a little more before we get into it, but it does pertain about to what Senator Barnett is talking, in lieu of the previous amendments thereof and on page 2, line 1, insert not less than after of and insert not more than five thousand dollars as determined by the governing body.

SPEAKER: Senator Kennedy, unfortunately the Chair has to point out that you can't amend his amendment, he is returning for that specific amendment and that's all that is under discussion, and you can't enlarge upon it and it can't be changed, that's where we are right now.

SENATOR KENNEDY: I would say that I'm not offering this amendment but offering discussion or hoping that we might, that we might hold it over and have an opportunity to visit, I know we are going to have a, quite a few on this, but it just seems to me that I didn't think this would come up till tomorrow and I wanted to get around

(End of Belt #6)
