

the firemen of the State of Nebraska and to the general public, that if this life safety code 101 was not in the statute, it would not be in existence at all and we would be without a life safety code 101. This information is erroneous. I do not know where it come from but I presume, I think I know where it came from and this is erroneous information. The life safety code 101 could have been adopted as a rule and regulation during the time this legislative bill took effect and would have been in effect as a rule and regulation which would have had the full effect of law and would have been in effect at the time that this legislation was taken out of the statute. Now, here's where the problem comes: Life safety code 101 is very stringent in it contains if I recall correctly, one booklet and either 9 or 10 other volumes which is tremendous. Now, there is going to be some real problems because the Legislature, by its action now has stated the fact that this is law. Now law cannot be suspended. Law cannot be gone around. Law cannot be taken into consideration for a later date. It is immediate and
