

I don't think they really care. We had an instance not only, about two weeks ago where the Papillion School Board met. They agreed at that time to not have, well shut down the schools and not raise the mill levy. They made a motion to close the school. That wasn't on the agenda, is an illegal act of the present law. I called it to the attention of the World Herald and the Sun newspapers and some of the rest of them and they didn't seem to care whether it was on the agenda or not, but the thing was official I guess, is the violation of law in my book, the way I read the law that I introduced a year ago--
